HUMAN SERVICES

Sec. 201. 2001 2nd sp. s. c 7 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.  (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2002, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2002 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in subsection (3)(b) of this section.
(b) To the extent that transfers under subsection (3)(a) of this section are insufficient to fund actual expenditures in excess of fiscal year 2002 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose after approval by the director of financial management.

(c) The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing prior to approving any allotment modifications.

(4) In the event the department receives additional unrestricted federal funds or achieves savings in excess of that anticipated in this act, the department shall use up to $5,000,000 of such funds to initiate a pilot project providing integrated support services to homeless individuals needing mental health services, alcohol or substance abuse treatment, medical care, or who demonstrate community safety concerns. Before such a pilot project is initiated, the department shall notify the fiscal committees of the legislature of the plans for such a pilot project including the source of funds to be used.

TOTAL APPROPRIATION . . . . . . . . . . . . . . . $ ((844,299,000)) 832,545,000
The appropriations in this section are subject to the following conditions and limitations:

1. $2,237,000 of the fiscal year 2002 general fund--state appropriation, ($2,288,000) $2,271,000 of the fiscal year 2003 general fund--state appropriation, and ($1,590,000) $1,584,000 of the general fund--federal appropriation are provided solely for the category of services titled "intensive family preservation services."

2. $644,000 of the general fund--state fiscal year 2003 appropriation and $654,000 of the general fund--fiscal year 2003 federal appropriation are provided to contract for the operation of one facility and nonfacility-based pediatric interim care services. The facility shall provide residential care for up to thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

3. $524,000 of the general fund--state fiscal year 2002 appropriation and $536,000 of the general fund--state fiscal year 2003 appropriation are provided for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

4. $1,260,000 of the fiscal year 2002 general fund--state appropriation, $1,248,000 of the fiscal year 2003 general fund--state appropriation, and ($4,196,000) $4,082,000 of the violence reduction and drug enforcement account appropriation are provided solely for the family policy council and community public health and safety networks. The funding level for the family policy council and community public health and safety networks represents a 25 percent reduction below the funding level for the 1999-2001 biennium. Funding levels shall be reduced 25 percent for both the
family policy council and network grants. Reductions to network grants shall be allocated so as to maintain current funding levels, to the greatest extent possible, for projects with the strongest evidence of positive outcomes and for networks with substantial compliance with contracts for network grants.

$(4)$ $2,215,000$ of the fiscal year 2002 general fund--state appropriation, $4,394,000$ of the fiscal year 2003 general fund--state appropriation, and $5,604,000$ of the general fund--federal appropriation are provided solely for reducing the average caseload level per case-carrying social worker. Average caseload reductions are intended to increase the amount of time social workers spend in direct contact with the children, families, and foster parents involved with their open cases. The department shall use some of the funds provided in several local offices to increase staff that support case-carrying social workers in ways that will allow social workers to increase direct contact time with children, families, and foster parents. To achieve the goal of reaching an average caseload ratio of 1:24 by the end of fiscal year 2003, the department shall develop a plan for redeploying 30 FTEs to case-carrying social worker and support positions from other areas in the children and family services budget. The FTE redeployment plan shall be submitted to the fiscal committees of the legislature by December 1, 2001.

$(5)$ $1,000,000$ of the fiscal year 2002 general fund--state appropriation and $1,000,000$ of the fiscal year 2003 general fund--state appropriation are provided solely for increasing foster parent respite care services that improve the retention of foster parents and increase the stability of foster placements. The department shall report quarterly to the appropriate committees of the legislature progress against appropriate baseline measures for foster parent retention and stability of foster placements.

$(6)$ $1,050,000$ of the general fund--federal appropriation is provided solely for increasing kinship care placements for children who otherwise would likely be placed in foster care. These funds shall be used for extraordinary costs incurred by relatives at the time of placement, or for extraordinary costs incurred by relatives after placement if such costs would likely cause a disruption in the kinship care placement. $50,000$ of the funds provided shall be contracted to the Washington institute for public policy to conduct a study of kinship care placements. The study shall examine the prevalence and needs of families who are raising related children and shall compare services and policies of Washington state with
other states that have a higher rate of kinship care placements in lieu of foster care placements. The study shall identify possible changes in services and policies that are likely to increase appropriate kinship care placements.

$3,386,000 of the fiscal year 2002 general fund--state appropriation, $4,679,000 of the fiscal year 2003 general fund--state appropriation, and $19,709,000 of the general fund--federal appropriation are provided solely for increases in the cost per case for foster care and adoption support. $16,000,000 of the general fund--federal amount shall remain unallotted until the office of financial management approves a plan submitted by the department to achieve a higher rate of federal earnings in the foster care program. That plan shall also be submitted to the fiscal committees of the legislature and shall indicate projected federal revenue compared to actual fiscal year 2001 levels. Within the amounts provided for foster care, the department shall increase the basic rate for foster care to an average of $420 per month on July 1, 2001, and to an average of $440 per month on July 1, 2002. The department shall use the remaining funds provided in this subsection to pay for increases in the cost per case for foster care and adoption support. The department shall seek to control rate increases and reimbursement decisions for foster care and adoption support cases such that the cost per case for family foster care, group care, receiving homes, and adoption support does not exceed the amount assumed in the projected caseload expenditures plus the amounts provided in this subsection.

$1,767,000 of the general fund--state appropriation for fiscal year 2002, $1,767,000 of the general fund--state appropriation for fiscal year 2003, and $1,241,000 of the general fund--federal appropriation are provided solely for rate and capacity increases for child placing agencies. Child placing agencies shall increase their capacity by 15 percent in fiscal year 2002 and 30 percent in fiscal year 2003. The department shall provide secure crisis residential facilities across the state in a manner that: (a) Retains geographic provision of these services; and (b) retains beds in high use areas. $125,000 of the general fund--state appropriation for fiscal year 2002 and $125,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for a foster parent retention program. This program is directed at foster parents caring for children who act out
sexually, as described in House Bill No. 1525 (foster parent retention program).

TOTAL APPROPRIATION: $731,863,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Regional support networks shall use portions of the general fund--state appropriation for implementation of working agreements with the vocational rehabilitation program which will maximize the use of federal funding for vocational programs.

(b) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and adult services program for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(c) $388,000 of the general fund--state appropriation for fiscal year 2002, ($1,927,000), $2,829,000 of the general fund--state appropriation for fiscal year 2003, and ($2,349,000), $3,157,000 of the general fund--federal appropriation are provided solely for development and operation of community residential and support services for persons whose treatment needs constitute substantial barriers to community placement and who no longer
require active psychiatric treatment at an inpatient hospital level of care, no longer meet the criteria for inpatient involuntary commitment, and who are clinically ready for discharge from a state psychiatric hospital. In the event that enough patients are not transitioned or diverted from the state hospitals to close at least two hospital wards by July 2002, and four additional wards by April 2003, a proportional share of these funds shall be transferred to the appropriations in subsection (2) of this section to support continued care of the patients in the state hospitals. Primary responsibility and accountability for provision of appropriate community support for persons placed with these funds shall reside with the mental health program and the regional support networks, with partnership and active support from the alcohol and substance abuse and from the aging and adult services programs. The department shall negotiate performance-based incentive contracts with those regional support networks which have the most viable plans for providing appropriate community support services for significant numbers of persons from their area who would otherwise be served in the state hospitals to provide appropriate community support services for individuals leaving the state hospitals under this subsection. The department shall first seek to contract with regional support networks before offering a contract to any other party. The funds appropriated in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(d) At least $1,000,000 of the federal block grant funding appropriated in this subsection shall be used for (i) initial development, training, and operation of the community support teams which will work with long-term state hospital residents prior and subsequent to their return to the community; and (ii) development of support strategies which will reduce the unnecessary and excessive use of state and local hospitals for short-term crisis stabilization services. Such strategies may include training and technical assistance to community long-term care and substance abuse providers; the development of diversion beds and stabilization support teams; examination of state hospital policies regarding admissions; and the development of new contractual standards to assure that the statutory requirement that 85 percent of short-term detentions be managed locally is being fulfilled. The department shall report to the fiscal and policy committees of the legislature on the results of these efforts by November 1, 2001, and again by November 1, 2002.
(e) The department is authorized to implement a new formula for allocating available resources among the regional support networks. The distribution formula shall use the number of persons eligible for the state medical programs funded under chapter 74.09 RCW as the measure of the requirement for the number of acutely mentally ill, chronically mentally ill, severely emotionally disturbed children, and seriously disturbed in accordance with RCW 71.24.035(13)(a). The new formula shall be phased in over a period of no less than six years. Furthermore, the department shall increase the medicaid capitation rates which a regional support network would otherwise receive under the formula by an amount sufficient to assure that total funding allocated to the regional support network in fiscal year 2002 increases by up to $2.1\%$ percent over the amount actually paid to that regional support network in fiscal year 2001, and by up to an additional $2.3\%$ percent in fiscal year 2003, if total funding to the regional support network would otherwise increase by less than those percentages under the new formula, and provided that the nonfederal share of the higher medicaid payment rate is provided by the regional support network from local funds.

(f) Within funds appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services are to be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the department with (i) periodic reports on project service levels, methods, and outcomes; and (ii) an intergovernmental transfer equal to the state share of the increased medicaid payment provided for operation of this project.

(g) The health services account appropriation is provided solely for implementation of strategies which the department and the affected regional support networks conclude will best assure continued availability of community-based inpatient psychiatric services in all areas of the state.
Such strategies may include, but are not limited to, emergency contracts for continued operation of inpatient facilities otherwise at risk of closure because of demonstrated uncompensated care; start-up grants for development of evaluation and treatment facilities; and increases in the rate paid for inpatient psychiatric services for medically indigent and/or general assistance for the unemployed patients. The funds provided in this subsection must be: (i) Prioritized for use in those areas of the state which are at greatest risk of lacking sufficient inpatient psychiatric treatment capacity, rather than being distributed on a formula basis; (ii) prioritized for use by those hospitals which do not receive low-income disproportionate share hospital payments as of the date of application for funding; and (iii) matched on a one-quarter local, three-quarters state basis by funding from the regional support network or networks in the area in which the funds are expended. Payments from the amount provided in this subsection shall not be made to any provider that has not agreed that, except for prospective rate increases, the payment shall offset, on a dollar-for-dollar basis, any liability that may be established against, or any settlement that may be agreed to by the state, regarding the rate of state reimbursement for inpatient psychiatric care. The funds provided in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the distribution formula established pursuant to RCW 71.24.035.

(h) The department shall assure that no regional support network uses more than 8.0 percent of the state and federal funds received from appropriations in this subsection for regional support network administration.

(i) The department shall assure that each regional support network increases spending on direct client services in fiscal years 2002 and 2003 by at least the same percentage as the total state, federal, and local funds allocated to the regional support network in those years exceeds the amounts allocated to it in fiscal year 2001.

(j) The department shall reduce state funding otherwise payable to a regional support network in fiscal years 2002 and 2003 by the full amount by which the regional support network's reserves and fund balances as of December 31, 2001, exceed the required risk reserve for that regional support network. The required reserve amount shall be calculated by applying the risk reserve percentage specified in the department's contract with the regional support network to the total state and federal revenues for which the regional support network would otherwise be eligible in

Code Rev/LL:seg 57 S-4697.4/02 4th draft
accordance with this subsection. As used in this subsection, "reserves" does not include capital project reserves established in accordance with state accounting and reporting standards before January 1, 2002.

(k) The department shall maintain the same relative allocation of budgeted, nonforensic state hospital beds among the regional support networks as was in effect during fiscal year 2002 until at least thirty days after adjournment of the first regular legislative session following submission of a report on the appropriate allocation of these beds. In preparing the report, the department shall: (i) Utilize the most current and reliable applicable academic research, and shall consult with academic and other national experts on mental health inpatient care; (ii) estimate the relative need for short-term and long-term inpatient psychiatric care in each of the state's regions, based upon the factors that the experts identify as the best predictors of need, including geographic proximity to the hospitals; and (iii) identify options for changing the current distribution of state hospital beds among the regional support networks. The report shall be prepared in consultation with representatives of people with mental illness and the regional support networks, and shall be submitted to appropriate committees of the legislature. This subsection does not prohibit the replacement of current state hospital beds with community alternatives as provided elsewhere in this section.

Sec. 205. 2001 2nd sp.s. c 7 s 205 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--DEVELOPMENTAL DISABILITIES PROGRAM

(1) COMMUNITY SERVICES

General Fund--State Appropriation (FY 2002) . . $ (231,693,000)
233,705,000

General Fund--State Appropriation (FY 2003) . . $ (242,347,000)

General Fund--Federal Appropriation . . . . $ (396,151,000)

Health Services Account--State Appropriation . . . . . . $ (741,000)
903,000

TOTAL APPROPRIATION . . . . . . $ (870,932,000)
895,252,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) The legislature finds that comprehensive reform of the developmental disabilities program is required. Recent audits and litigation indicate a need to improve the quality of program data, strengthen program and fiscal management, and clarify the criteria and determination of eligibility for services. Additional resources are also needed to expand access to community services. The appropriations in this section are intended to address the most urgent needs while strengthening program and fiscal accountability. The department shall provide monthly progress reports to the appropriate committees of the legislature on actions taken in three areas: The implementation of expanded services, the
development and implementation of a new home and community based medicaid waiver, and improvements in program and fiscal management.

(b) $13,705,000 of the fiscal year 2003 general fund--state appropriation and $2,096,000 of the general fund--federal appropriation are provided solely for expanded access to community services. These amounts are intended to provide family support for an additional 3,000 families, expanded residential services for an additional 175 clients by the end of the biennium, and an additional 267 clients transitioning from high school to work. New funding for family support and high school transition along with a portion of existing funding for these programs shall be provided as supplemental security income (SSI) state supplemental payments. The legislature finds that providing cash assistance to individuals and families needing these supports promotes self-determination and independence. It is the intent of the legislature that the department shall comply with federal requirements to maintain aggregate funding for SSI state supplemental payments while promoting self-determination and independence for persons with developmental disabilities in families with low and moderate incomes. This funding is also provided to increase the number of case workers supporting clients receiving community services. These amounts and the specified expansion of community services are intended to be the fiscal component of the negotiated settlement in the pending litigation on developmental disabilities services, ARC v. Quasim.

(c) The health services account appropriation and $753,000 of the general fund--federal appropriation are provided solely for health care benefits for home care workers with family incomes below 200 percent of the federal poverty level who are employed through state contracts for twenty hours per week or more. Premium payments for individual provider home care workers shall be made only to the subsidized basic health plan. Home care agencies may obtain coverage either through the basic health plan or through an alternative plan with substantially equivalent benefits.

(d) $902,000 of the general fund--state appropriation for fiscal year 2002, $3,372,000 of the general fund--state appropriation for fiscal year 2003, and $4,056,000 of the general fund--federal appropriation are provided solely for community services for residents of residential habilitation centers (RHCs) who are able to be adequately cared for in community settings and who choose to live in those community settings. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $280. If the number and timing of residents choosing to move into community settings is not
sufficient to achieve the RHC cottage consolidation plan assumed in the appropriations in subsection (2) of this section, the department shall transfer sufficient appropriations from this subsection to subsection (2) of this section to cover the added costs incurred in the RHCs. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of residents moving into community settings and the actual expenditures for all community services to support those residents.

((c) $1,440,000) (e) $1,153,000 of the general fund--state appropriation for fiscal year 2002, (($3,041,000)) $3,054,000 of the general fund--state appropriation for fiscal year 2003, and (($4,311,000)) $4,031,000 of the general fund--federal appropriation are provided solely for expanded community services for persons with developmental disabilities who also have community protection issues or are diverted or discharged from state psychiatric hospitals. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $275. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

((d) $1,005,000 of the general fund--state appropriation for fiscal year 2002, $2,262,000 of the general fund--state appropriation for fiscal year 2003, and $2,588,000 of the general fund--federal appropriation are provided solely for increasing case/resource management resources to improve oversight and quality of care for persons enrolled in the medicaid home and community services waiver for persons with developmental disabilities.) (f) The department shall not increase total enrollment in home and community based waivers for persons with developmental disabilities except for ((increases)) changes assumed in additional funding provided in subsections (b) ((and (c))), (d), and (e) of this section. Prior to submitting to the health care financing authority any additional home and community based waiver request for persons with developmental disabilities, the department shall submit a summary of the waiver request to the appropriate committees of the legislature. The summary shall include eligibility criteria, program description, enrollment projections and limits, and budget and cost effectiveness projections that distinguish the requested waiver from other existing or proposed waivers.
$1,000,000 of the general fund--state appropriation for fiscal year 2002 and $1,000,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for employment, or other day activities and training programs, for young adults with developmental disabilities who complete their high school curriculum in 2001 or 2002. These services are intended to assist with the transition to work and more independent living. Funding shall be used to the greatest extent possible for vocational rehabilitation services matched with federal funding. In recent years, the state general fund appropriation for employment and day programs has been underspent. These surpluses, built into the carry forward level budget, shall be redeployed for high school transition services.

$369,000 of the fiscal year 2002 general fund--state appropriation and $369,000 of the fiscal year 2003 general fund--state appropriation are provided solely for continuation of the autism pilot project started in 1999.

$4,049,000 of the general fund--state appropriation for fiscal year 2002, $1,734,000 of the general fund--state appropriation for fiscal year 2003, and $5,369,000 of the general fund--federal appropriation are provided solely to increase compensation by an average of fifty cents per hour for low-wage workers providing state-funded services to persons with developmental disabilities. These funds, along with funding provided for vendor rate increases, are sufficient to raise wages an average of fifty cents and cover the employer share of unemployment and social security taxes on the amount of the wage increase. In consultation with the statewide associations representing such agencies, the department shall establish a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002.

The appropriations in this section are subject to the following
conditions and limitations:
(1) (($282,081,000)) $281,035,000 of the general fund--state
appropriation for fiscal year 2002, (($278,277,000)) $292,231,000 of the
general fund--state appropriation for fiscal year 2003, $1,254,197,000 of
the general fund--federal appropriation, and (($29,352,000)) $31,444,000 of
the general fund--local appropriation are provided solely for the WorkFirst
program and child support operations. WorkFirst expenditures include TANF
grants, diversion services, subsidized child care, employment and training,
other WorkFirst related services, allocated field services operating costs,
and allocated economic services program administrative costs. Within the
amounts provided in this subsection, the department shall:
(a) Continue to implement WorkFirst program improvements that are
designed to achieve progress against outcome measures specified in RCW
74.08A.410. Valid outcome measures of job retention and wage progression shall be developed and reported quarterly to appropriate fiscal and policy committees of the legislature for families who leave assistance, measured after 12 months, 24 months, and 36 months. An increased attention to job retention and wage progression is necessary to emphasize the legislature's goal that the WorkFirst program succeed in helping recipients gain long-term economic independence and not cycle on and off public assistance. The wage progression measure shall report the median percentage increase in quarterly earnings and hourly wage after 12 months, 24 months, and 36 months. The wage progression report shall also report the percent with earnings above one hundred percent and two hundred percent of the federal poverty level. The report shall compare former WorkFirst participants with similar workers who did not participate in WorkFirst. The department shall also report the percentage of families who have returned to temporary assistance for needy families after 12 months, 24 months, and 36 months.

(b) Develop informational materials that educate families about the difference between cash assistance and work support benefits. These materials must explain, among other facts, that the benefits are designed to support their employment, that there are no time limits on the receipt of work support benefits, and that immigration or residency status will not be affected by the receipt of benefits. These materials shall be posted in all community service offices and distributed to families. Materials must be available in multiple languages. When a family leaves the temporary assistance for needy families program, receives cash diversion assistance, or withdraws a temporary assistance for needy families application, the department of social and health services shall educate them about the difference between cash assistance and work support benefits and offer them the opportunity to begin or to continue receiving work support benefits, so long as they are eligible. The department shall provide this information through in-person interviews, over the telephone, and/or through the mail. Work support benefits include food stamps, medicaid for all family members, medicaid or state children's health insurance program for children, and child care assistance. The department shall report annually to the legislature the number of families who have had exit interviews, been reached successfully by phone, and been sent mail. The report shall also include the percentage of families who elect to continue each of the benefits and the percentage found ineligible by each substantive reason code. A substantive reason code shall not be "other." The report shall
identify barriers to informing families about work support benefits and
describe existing and future actions to overcome such barriers.

(c) From the amounts provided in this subsection, provide $50,000 from
the general fund--state appropriation for fiscal year 2002 and $50,000 from
the general fund--state appropriation for fiscal year 2003 to the Washington
institute for public policy for continuation of the WorkFirst evaluation
database.

(d) Submit a report by December 1, 2001, to the fiscal committees of
the legislature containing a spending plan for the WorkFirst program. The
plan shall identify how spending levels in the 2001-2003 biennium will be
adjusted by June 30, 2003, to be sustainable within available federal grant
levels and the carryforward level of state funds.

(e) Reduce funding contracted to the department of employment security
in order to maintain funding for drug and alcohol treatment services
designed to help TANF parents enter the job market and keep their jobs.

(2) (($48,341,000)) $54,623,000 of the general fund--state
appropriation for fiscal year 2002 and (($48,341,000)) $51,268,000 of the
general fund--state appropriation for fiscal year 2003 are provided solely
for cash assistance and other services to recipients in the general
assistance--unemployable program. Within these amounts, the department may
expend funds for services that assist recipients to reduce their dependence
on public assistance, provided that expenditures for these services and cash
assistance do not exceed the funds provided.

(3) $5,632,000 of the general fund--state appropriation for fiscal year
2002 and (($5,632,000)) $1,132,000 of the general fund--state appropriation
for fiscal year 2003 are provided solely for the food assistance program for
legal immigrants. The level of benefits shall be equivalent to the benefits
provided by the federal food stamp program.

(4) $48,000 of the general fund--state appropriation for fiscal year
2002 is provided solely to implement chapter 111, Laws of 2001
(veterans/Philippines).

(c) The department shall establish more restrictive eligibility standards than specified in this subsection to the extent necessary to operate the program within appropriated funds;

(e) The department shall establish systems for tracking and reporting enrollment and expenditures in this program, and the prior medical assistance eligibility status of new program enrollees. The department shall additionally survey the prior and current employment status and approximate hours worked of program enrollees, and report the results to the fiscal and health care committees of the legislature by January 15, 2003.

The department shall report to the health care and fiscal committees of the legislature by January 1, 2002, on the particular disease states, intervention protocols, and delivery mechanisms it proposes to test.

No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time equivalent students whose full-time equivalent student enrollment count in a given month exceeds the first of the month full-time equivalent enrollment count by 5 percent, an additional state allocation of 110 percent of the share that such increased enrollment would have generated had such additional full-time equivalent students been included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

(A) Vocational education programs approved by the superintendent of public instruction, a maximum of 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 19.5 full-time equivalent vocational students; and

(B) Skills center programs meeting the standards for skills center funding established in January 1999 by the superintendent of public instruction, 0.92 certificated instructional staff units and 0.08 certificated administrative units for each 16.67 full-time equivalent vocational students; ((and))

(ii) Vocational full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported vocational enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support; and

(iii) Indirect cost charges by a school district to vocational-secondary programs shall not exceed 15 percent of the combined basic education and vocational enhancement allocations of state funds;

(d) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary
by the state board of education and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:

(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units;

(f) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.
Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students.

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2001-02 and 2002-03 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2)(d) through (h) of this section, one classified staff unit for each three certificated staff units allocated under such subsections;

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 10.76 percent in the 2001-02 school year and 9.57 percent in the 2002-03 school year for certificated salary allocations provided under subsection (2) of this section, and a rate of 12.73 percent in the 2001-02 school year and 12.36 percent in the 2002-03 school year for classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(3) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and
(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of $8,519 per certificated staff unit in the 2001-02 school year and a maximum of ($8,715) $8,604 per certificated staff unit in the 2002-03 school year.

(b) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(A) of this section, there shall be provided a maximum of $20,920 per certificated staff unit in the 2001-02 school year and a maximum of ($21,401) $21,129 per certificated staff unit in the 2002-03 school year.

(c) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(B) of this section, there shall be provided a maximum of $16,233 per certificated staff unit in the 2001-02 school year and a maximum of ($16,606) $16,395 per certificated staff unit in the 2002-03 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maintenance rate of $494.34 for the 2001-02 and 2002-03 school years per allocated classroom teachers exclusive of salary increase amounts provided in section 504 of this act. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.
(9) The superintendent may distribute a maximum of ($6,510,000) $5,939,000 outside the basic education formula during fiscal years 2002 and 2003 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of $480,000 may be expended in fiscal year 2002 and a maximum of ($491,000) $485,000 may be expended in fiscal year 2003;

(b) For summer vocational programs at skills centers, a maximum of $2,098,000 may be expended (each) for the 2001-02 fiscal year and a maximum of $2,035,000 for the 2003 fiscal year;

(c) A maximum of ($343,000) $341,000 may be expended for school district emergencies; and

(d) A maximum of $500,000 (per fiscal year) may be expended in fiscal year 2002 for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs.

(10) For purposes of RCW 84.52.0531, the increase per full-time equivalent student in state basic education appropriations provided under this act, including appropriations for salary and benefits increases, is 2.5 percent from the 2000-01 school year to the 2001-02 school year, and ((3.3)) 0.5 percent from the 2000-01 school year to the 2002-03 school year.

(11) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2)(b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2)(a) through (h) of this section shall be reduced in increments of twenty percent per year.

Sec. 503. 2001 2nd sp.s. c 7 s 503 (uncodified) is amended to read as follows:
FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION EMPLOYEE

COMPENSATION. (1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) For school year 2001-02, salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 12E for the appropriate year, by the district's average staff mix factor for basic education and special education certificated instructional staff in that school year, computed using LEAP Document 1S; and

(b) For school year 2002-03, salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 12E for the appropriate year, by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP Document 1S; and

(c) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12E for the appropriate year.

(2) For the purposes of this section:

(a) "Basic education certificated instructional staff" is defined as provided in RCW 28A.150.100 and "special education certificated staff" means staff assigned to the state-supported special education program pursuant to chapter 28A.155 RCW in positions requiring a certificate;

(b) "LEAP Document 1S" means the computerized tabulation establishing staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on March 25, 1999, at 16:55 hours; and

(c) "LEAP Document 12E" means the computerized tabulation of 2001-02 and 2002-03 school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on February 14, 2002, at 10:30 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of (10.12%) percent for school year(s) 2001-
02 and 8.93 percent for school year 2002-03 for certificated staff and
((9.42)) for classified staff 9.23 percent for school year((s)) 2001-02 and
8.86 percent for the 2002-03 ((for classified staff)) school year.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary
allocation schedules for certificated instructional staff are established
for basic education salary allocations:

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

| General Fund--State Appropriation (FY 2003) | $(194,293,000) |
| TOTAL APPROPRIATION | $(387,491,000) |

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.
(2) A maximum of $767,000 of this fiscal year 2002 appropriation and a maximum of $752,000 of the fiscal year 2003 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) $5,000 of the fiscal year 2002 appropriation and $5,000 of the fiscal year 2003 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

Sec. 506. 2001 2nd sp.s. c 7 s 507 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2002) . . $ ((419,264,000)) 420,165,000

General Fund--State Appropriation (FY 2003) . . $ ((420,644,000)) 408,693,000

General Fund--Federal Appropriation . . . . . . $ ((256,092,000)) 256,407,000

TOTAL APPROPRIATION . . . . . . $((1,085,265,000)) 1,085,265,000

The appropriations in this section are subject to the following conditions and limitations:
(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) Effective with the 2001-02 school year, the superintendent of public instruction shall change the S-275 personnel reporting system and all related accounting requirements to ensure that:

(i) Special education students are basic education students first;

(ii) As a class, special education students are entitled to the full basic education allocation; and

(iii) Special education students are basic education students for the entire school day.

(b) Effective with the 2001-02 school year, the S-275 and accounting changes shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2001-02 and 2002-03 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant
to subsection (6)(b) of this section, multiplied by the district's average
basic education allocation per full-time equivalent student multiplied by
0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

(i) For the 2001-02 (and the 2002-03) school year(ies), each district's funded enrollment percent shall be the lesser of the district's actual enrollment percent ((for the school year for which the allocation is being determined)) or 12.7 percent ((for the 2001-02 school year or 13.0 percent for the 2002-03 school year)).

(ii) For the 2002-03 school year, each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent. Increases in enrollment percent from 12.7 percent to 13.0 percent shall be funded from the general fund--federal appropriation.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be ((12.7 percent for the 2001-02 school year and 13.0 percent for the 2002-03 school year)) calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) Safety net funding shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:
(a) A maximum of ($12,000,000) $8,500,000 of the general fund--state appropriation and a maximum of $3,500,000 of the general fund--federal appropriation for fiscal year 2002 ((and a maximum of $10,623,000 of the general fund--state appropriation for fiscal year 2003)) are provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. ((Safety net funding shall be awarded by the state safety net oversight committee.

(b)) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the lesser of the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(c) The committee shall then consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(f) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(g) The superintendent may expend up to $120,000 ((per year)) of the amounts provided in this subsection (8) to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

(9) To the extent necessary, $2,058,000 of the general fund--state appropriation for fiscal year 2003 and $10,815,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (9), the superintendent shall expend
all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) The superintendent may expend up to $120,000 of the amount provided from the general fund--federal appropriation in this subsection (9) to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

((9)) (10) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

((10)) (11) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor;

(c) Staff of the office of the financial management; and

(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.
To the extent necessary, ($5,500,000) in fiscal year 2002, $2,250,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs exceed ($5,500,000), $2,250,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.

A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent for the 2001-02 school year. For the 2002-03 school year, the superintendent shall allocate the federal funds as specified in this section and shall adjust federal flow-through funds accordingly. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

A maximum of $1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

A school district may carry over from one year to the next year up to 10 percent of general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.
(18) The superintendent of public instruction shall implement the recommendations of the joint legislative audit and review committee study on special education (report 01-11) only to the extent that funds have been specifically provided therefor.

Sec. 901. RCW 9.46.100 and 1991 sp.s. c 16 s 917 are each amended to read as follows:

There is hereby created the gambling revolving fund which shall consist of all moneys receivable for licensing, penalties, forfeitures, and all other moneys, income, or revenue received by the commission. The state treasurer shall be custodian of the fund. All moneys received by the commission or any employee thereof, except for change funds and an amount of petty cash as fixed by rule or regulation of the commission, shall be deposited each day in a depository approved by the state treasurer and transferred to the state treasurer to be credited to the gambling revolving fund. Disbursements from the revolving fund shall be on authorization of the commission or a duly authorized representative thereof. In order to maintain an effective expenditure and revenue control the gambling revolving fund shall be subject in all respects to chapter 43.88 RCW but no appropriation shall be required to permit expenditures and payment of obligations from such fund. All expenses relative to commission business, including but not limited to salaries and expenses of the director and other commission employees shall be paid from the gambling revolving fund.

((The state treasurer shall transfer to the general fund one million dollars from the gambling revolving fund for the 1991-93 fiscal biennium.)) During the 2001-2003 fiscal biennium, the legislature may transfer from the gambling revolving fund to the state general fund such amounts as reflect the excess fund balance of the fund and reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings.

Sec. 902. RCW 28B.50.837 and 1993 c 87 s 1 are each amended to read as follows:

(2) Funds appropriated by the legislature for the community and technical college exceptional faculty awards program shall be deposited in the college faculty awards trust fund. At the request of the college board,
the treasurer shall release the state matching funds to the local endowment fund of the college or its foundation. No appropriation is necessary for the expenditure of moneys from the fund. During the 2001-2003 fiscal biennium, the legislature may appropriate funds from the college faculty awards trust fund for the purposes of the settlement costs of the Mader v. State litigation regarding retirement contributions on behalf of part-time faculty.

Sec. 903. RCW 38.52.106 and 2001 c 5 s 2 are each amended to read as follows:

Moneys may be placed in the account from tax revenues, budget transfers or appropriations, federal appropriations, gifts, or any other lawful source. Moneys in the account may be spent only after appropriation. Moneys in the account shall be used only to support state and local government disaster response and recovery efforts associated with the Nisqually earthquake. During the 2001-2003 fiscal biennium, the legislature may transfer moneys from the Nisqually earthquake account to the disaster response account for fire suppression and mobilization costs.

Sec. 904. RCW 38.52.540 and 2001 c 128 s 2 are each amended to read as follows:

Moneys in the account shall be used only to support the statewide coordination and management of the enhanced 911 system and to help supplement, within available funds, the operational costs of the system. Funds shall not be distributed to any county that has not imposed the maximum county enhanced 911 taxes allowed under RCW 82.14B.030 (1) and (2). The state enhanced 911 coordinator, with the advice and assistance of the enhanced 911 advisory committee, is authorized to enter into statewide agreements to improve the efficiency of enhanced 911 services for all counties and shall specify by rule the additional purposes for which moneys, if available, may be expended from this account. During the 2001-2003 fiscal biennium, the legislature may transfer from the enhanced 911 account to the state general fund such amounts as reflect the excess fund balance of the account.

any employee the right to strike or refuse to perform his or her official
duties;

(15) Adoption and revision of a comprehensive classification plan for
all positions in the classified service, based on investigation and analysis
of the duties and responsibilities of each such position.

(a) The board shall not adopt job classification revisions or class

personnel or services, and the proposed revision or study has been approved by the director of financial management in accordance with chapter 43.88 RCW.

(b) Beginning July 1, 1995, through June 30, 1997, in addition to the requirements of (a) of this subsection:

(i) The board may approve the implementation of salary increases resulting from adjustments to the classification plan during the 1995-97 fiscal biennium only if:

(A) The implementation will not result in additional net costs and the proposed implementation has been approved by the director of financial management in accordance with chapter 43.88 RCW;

(ii) The board shall approve only those salary increases resulting from adjustments to the classification plan if they are due to documented recruitment and retention difficulties, salary compression or inversion, increased duties and responsibilities, or inequities. For these purposes, inequities are defined as similar work assigned to different job classes with a salary disparity greater than 7.5 percent.

(iii) Adjustments made to the higher education hospital special pay plan are exempt from (b)(i) through (ii) of this subsection.

(16) Allocation and reallocation of positions within the classification plan;

(17) Adoption and revision of a state salary schedule to reflect the prevailing rates in Washington state private industries and other governmental units but the rates in the salary schedules or plans shall be increased if necessary to attain comparable worth under an implementation plan under RCW 41.06.155 and that, for institutions of higher education and related boards, shall be competitive for positions of a similar nature in
the state or the locality in which an institution of higher education or related board is located, such adoption and revision subject to approval by the director of financial management in accordance with the provisions of chapter 43.88 RCW;

(18) Increment increases within the series of steps for each pay grade based on length of service for all employees whose standards of performance are such as to permit them to retain job status in the classified service;

(19) Optional lump sum relocation compensation approved by the agency director, whenever it is reasonably necessary that a person make a domiciliary move in accepting a transfer or other employment with the state. An agency must provide lump sum compensation within existing resources. If the person receiving the relocation payment terminates or causes termination with the state, for reasons other than layoff, disability separation, or other good cause as determined by an agency director, within one year of the date of the employment, the state is entitled to reimbursement of the lump sum compensation from the person;

For the purposes of this section, "veteran" means any person who has one or more years of active military service in any branch of the armed forces of the United States or who has less than one year's service and is discharged with a disability incurred in the line of duty or is discharged at the convenience of the government and who, upon termination of such service has received an honorable discharge, a discharge for physical reasons with an honorable record, or a release from active military service with evidence of service other than that for which an undesirable, bad conduct, or dishonorable discharge shall be given: PROVIDED, HOWEVER, That the surviving spouse of a veteran is entitled to the benefits of this section regardless of the veteran's length of active military service: PROVIDED FURTHER, That for the purposes of this section "veteran" does not include any person who has voluntarily retired with twenty or more years of active military service and whose military retirement pay is in excess of five hundred dollars per month;

(21) Permitting agency heads to delegate the authority to appoint, reduce, dismiss, suspend, or demote employees within their agencies if such
agency heads do not have specific statutory authority to so delegate: PROVIDED, That the board may not authorize such delegation to any position lower than the head of a major subdivision of the agency;

The board shall consult with the human rights commission in the development of rules pertaining to affirmative action. The department of personnel shall transmit a report annually to the human rights commission which states the progress each state agency has made in meeting affirmative action goals and timetables.

Notwithstanding this section and rules of the board adopted under this section, agencies may place employees on temporary unpaid leave during the 2001-2003 fiscal biennium for the purpose of implementing appropriations reductions enacted in the 2002 supplemental appropriations act. Mandatory unpaid leave must be approved by the agency director, and must be, to the greatest extent possible, mutually agreeable to the employee and employer. Employees taking mandatory temporary unpaid leave will not lose seniority, leave accrual, or health insurance benefits.

Pursuant to appropriation, the state treasurer is authorized to transfer such moneys from the various funds managed by the investment board to the state investment board expense account as are necessary to pay the operating expenses of the investment board. During the 2001-2003 fiscal biennium, the legislature may transfer from the state investment board expense account to the state general fund such amounts as reflect the appropriations reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings.

commissioner may impose supplemental fees to fully and properly charge the
organizations. The penalties for failure to pay fees when due shall be the
same as the penalties for failure to pay taxes pursuant to RCW 48.14.060.

The fees shall be collected solely from employers whose industries have been identified by rule under this chapter. The department shall promulgate rules allowing employers who do not have hazardous substances at their workplace to request an exemption from the assessment and shall establish penalties for fraudulent exemption requests. (5) Repayment shall be made to the general fund of any moneys appropriated by law in order to implement this chapter.

Sec. 917. RCW 50.16.010 and 1993 c 483 s 7 and 1993 c 226 s 10 are each reenacted and amended to read as follows:

Moneys available in the administrative contingency fund, other than money in the special account created under RCW 50.24.014, shall be expended upon the direction of the commissioner, with the approval of the governor, whenever it appears to him or her that such expenditure is necessary for:

(a) The proper administration of this title and no federal funds are available for the specific purpose to which such expenditure is to be made, provided, the moneys are not substituted for appropriations from federal funds which, in the absence of such moneys, would be made available.

(b) The proper administration of this title for which purpose appropriations from federal funds have been requested but not yet received, provided, the administrative contingency fund will be reimbursed upon receipt of the requested federal appropriation.

(c) The proper administration of this title for which compliance and audit issues have been identified that establish federal claims requiring the expenditure of state resources in resolution. Claims must be resolved.
in the following priority: First priority is to provide services to eligible participants within the state; second priority is to provide substitute services or program support; and last priority is the direct payment of funds to the federal government.

Sec. 918. RCW 50.20.190 and 2001 c 146 s 7 are each amended to read as follows:

(1) An individual who is paid any amount as benefits under this title to which he or she is not entitled shall, unless otherwise relieved pursuant to this section, be liable for repayment of the amount overpaid. The department shall issue an overpayment assessment setting forth the reasons for and the amount of the overpayment. The amount assessed, to the extent not collected, may be deducted from any future benefits payable to the individual: PROVIDED, That in the absence of a back pay award, a settlement affecting the allowance of benefits, fraud, misrepresentation, or willful nondisclosure, every determination of liability shall be mailed or personally served not later than two years after the close of or final payment made on the individual's applicable benefit year for which the purported overpayment was made, whichever is later, unless the merits of the claim are subjected to administrative or judicial review in which event the period for serving the determination of liability shall be extended to allow service of the determination of liability during the six-month period following the final decision affecting the claim.

(2) The commissioner may waive an overpayment if the commissioner finds that the overpayment was not the result of fraud, misrepresentation, willful nondisclosure, or fault attributable to the individual and that the recovery thereof would be against equity and good conscience: PROVIDED, HOWEVER, That the overpayment so waived shall be charged against the individual's applicable entitlement for the eligibility period containing the weeks to which the overpayment was attributed as though such benefits had been properly paid.
(3) Any assessment herein provided shall constitute a determination of liability from which an appeal may be had in the same manner and to the same extent as provided for appeals relating to determinations in respect to claims for benefits: PROVIDED, That an appeal from any determination covering overpayment only shall be deemed to be an appeal from the determination which was the basis for establishing the overpayment unless the merits involved in the issue set forth in such determination have already been heard and passed upon by the appeal tribunal. If no such appeal is taken to the appeal tribunal by the individual within thirty days of the delivery of the notice of determination of liability, or within thirty days of the mailing of the notice of determination, whichever is the earlier, the determination of liability shall be deemed conclusive and final. Whenever any such notice of determination of liability becomes conclusive and final, the commissioner, upon giving at least twenty days notice by certified mail return receipt requested to the individual's last known address of the intended action, may file with the superior court clerk of any county within the state a warrant in the amount of the notice of determination of liability plus a filing fee under RCW 36.18.012(10). The clerk of the county where the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the person(s) mentioned in the warrant, the amount of the notice of determination of liability, and the date when the warrant was filed. The amount of the warrant as docketed shall become a lien upon the title to, and any interest in, all real and personal property of the person(s) against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of such clerk. A warrant so docketed shall be sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law for a civil judgment. A copy of the warrant shall be mailed to the person(s) mentioned in the warrant by certified mail to the person's last known address within five days of its filing with the clerk.

(4) On request of any agency which administers an employment security law of another state, the United States, or a foreign government and which has found in accordance with the provisions of such law that a claimant is liable to repay benefits received under such law, the commissioner may collect the amount of such benefits from the claimant to be refunded to the agency. In any case in which under this section a claimant is liable to repay any amount to the agency of another state, the United States, or a
foreign government, such amounts may be collected without interest by civil
action in the name of the commissioner acting as agent for such agency if
the other state, the United States, or the foreign government extends such
collection rights to the employment security department of the state of
Washington, and provided that the court costs be paid by the governmental
agency benefiting from such collection.

(5) Any employer who is a party to a back pay award or settlement due
to loss of wages shall, within thirty days of the award or settlement, report to the department the amount of the award or settlement, the name and
social security number of the recipient of the award or settlement, and the
period for which it is awarded. When an individual has been awarded or
receives back pay, for benefit purposes the amount of the back pay shall
constitute wages paid in the period for which it was awarded. For
contribution purposes, the back pay award or settlement shall constitute
wages paid in the period in which it was actually paid. The following
requirements shall also apply:

(a) The employer shall reduce the amount of the back pay award or
settlement by an amount determined by the department based upon the amount
of unemployment benefits received by the recipient of the award or
settlement during the period for which the back pay award or settlement was
awarded;

(b) The employer shall pay to the unemployment compensation fund, in a
manner specified by the commissioner, an amount equal to the amount of such
reduction;

(c) The employer shall also pay to the department any taxes due for
unemployment insurance purposes on the entire amount of the back pay award
or settlement notwithstanding any reduction made pursuant to (a) of this
subsection;

(d) If the employer fails to reduce the amount of the back pay award or
settlement as required in (a) of this subsection, the department shall issue
an overpayment assessment against the recipient of the award or settlement
in the amount that the back pay award or settlement should have been
reduced; and

(e) If the employer fails to pay to the department an amount equal to
the reduction as required in (b) of this subsection, the department shall
issue an assessment of liability against the employer which shall be
collected pursuant to the procedures for collection of assessments provided
herein and in RCW 50.24.110.
(6) When an individual fails to repay an overpayment assessment that is due and fails to arrange for satisfactory repayment terms, the commissioner shall impose an interest penalty of one percent per month of the outstanding balance. Interest shall accrue immediately on overpayments assessed pursuant to RCW 50.20.070 and shall be imposed when the assessment becomes final. For any other overpayment, interest shall accrue when the individual has missed two or more of their monthly payments either partially or in full. The interest penalty shall be used to fund detection and recovery of overpayment and collection activities and, during the 2001-2003 fiscal biennium, the cost of worker retraining programs at community and technical colleges as appropriated by the legislature.

Sec. 919. RCW 51.44.170 and 1997 c 327 s 1 are each amended to read as follows:

Only the executive head of the agency or institution of higher education, or designee, may authorize expenditures from the account. No agency or institution of higher education may make an expenditure from the account for an amount greater than the refund earned by the agency. If the agency or institution of higher education has staff dedicated to workers' compensation claims management, expenditures from the account must be used to pay for that staff, but additional expenditure from the account may be used for any program within an agency or institution of higher education that promotes or provides incentives for employee workplace safety and health and early, appropriate return-to-work for injured employees. During the 2001-2003 fiscal biennium, the legislature may transfer from the industrial insurance premium refund account to the state general fund such amounts as reflect the reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings.

The liquor control board shall use deposits to this account to fund construction and maintenance of a centralized distribution center for liquor products intended for sale through the board's liquor store and vendor system. During the 2001–2003 fiscal biennium, the legislature may transfer from the liquor control board construction and maintenance account to the state general fund such amounts as reflect the appropriations reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings.

Sec. 921. RCW 67.16.100 and 1998 c 345 s 5 are each amended to read as follows:

No salary, wages, expenses, or compensation of any kind shall be paid by the state in connection with the work of the commission.
(2) Any moneys collected or paid to the commission under the terms of this chapter and not expended at the close of the fiscal biennium shall be paid to the state treasurer and be placed in the fair fund created in RCW 15.76.115. The commission may, with the approval of the office of financial management, retain any sum required for working capital. During the 2001–2003 fiscal biennium, the legislature may transfer from the horse racing commission fund to the state general fund such amounts as reflect the reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings.
