Comments:

The information technology program funds the core agency-wide information technology services within the department. Included are the acquisition and operation of central data processing equipment, as well as acquisition of microcomputer hardware, software, and related support equipment used by WSDOT personnel, and technical support for users. This program is also responsible for the development and maintenance of information systems supporting WSDOT operations and program delivery.

1. 2001-03 Reappropriations - Reappropriations are made for system development that began in the 01-03 biennium; including \$850,000 for the Collision Location and Analysis System and \$475,000 for the Time Collection Automation System. (Motor Vehicle Account - State)

Ongoing

2. 01-03 Reapprop: Environmental - Reappropriations are made for system development that began in the 01-03 biennium; including \$258,000 for the Environmental Benefit Cost Assessment System and \$300,000 for the Environmental Permit and Compliance System. (Motor Vehicle Account - State)

Ongoing

3. 01-03 Reapprop: WSF - Reappropriations are made for system development that began in the 01-03 biennium; including \$55,000 for the WSF Terminal Engineering Project and \$4,300,000 for the WSF Revenue Collection System. (Motor Vehicle Account - State, Motor Vehicle Account - Federal)

Ongoing

2003-05 Transportation Budget
Department of Transportation
Pgm C - Information Technology

4. Critical Application Assessment - Funding is provided for a feasibility study to develop a long-term modernization and integration strategy for ten critical business systems that support statewide highway construction delivery programs. This is needed to provide seamless and efficient access to program, project, accounting, and budget information and to resolve existing data accuracy, integration, and reporting problems.

Funding is provided for an external, third-party assessment of critical business systems as a component of department efforts to develop a long-term modernization and integration strategy for existing information systems. The LTC must approve the statement of work before the consultant contract is let. In working toward improving business application systems that support project management, program management, accounting, and budget functions, the consultant and department should work with the Office of Financial Management and the Department of Information Services to ensure: 1) that current and future system development is consistent with the overall direction of other key state systems; and 2) when possible, utilize and/or develop common state-wide systems to encourage coordination and integration of information shared between the department and other state and governmental entities in order to avoid duplication and generate efficiencies on a large scale.

(Motor Vehicle Account - State)

Ongoing

5. Infrastructure Investment - Funding is provided for network infrastructure replacement and upgrades to ensure reliable and uninterrupted systems support. This addition increases funding for network infrastructure from \$500,000 to \$1,000,000. These funds will enable the department to upgrade its infrastructure to accommodate increased use of electronic technologies and replace obsolete and aging equipment. (Motor Vehicle Account - State)

Ongoing

6. Ferries Ongoing Smart Card Costs - Funding is provided solely for the department's share of ongoing operating costs associated with the regional effort to implement one common fare collection system through the use of smart card technology. \$200,000 are held in reserve until a report is provided to the LTC indicating that an agreement on which technology will be used throughout the state of Washington for smart card has been reached among smart card recipients. (Puget Sound Ferry Operations Account - State)

Ongoing

7. Ferries Technology System Updates - Funding is provided for staff to support existing applications, meet emerging needs, and satisfy the need for on-going support of WSF systems and infrastructure. (Puget Sound Ferry Operations Account - State)

Ongoing

8. Tools to Manage Project Delivery - Funding for implementation of the project delivery management system is consolidated and transferred from the Preservation -- Other Facilities program (P3). (Motor Vehicle Account - State, Motor Vehicle Account - Federal)

Ongoing

9. Revolving Funds - Funding levels for services provided by other state agencies, such as the Attorney General, are adjusted to reflect what those agencies are expected to bill for their services. (Motor Vehicle Account - state)

Ongoing

10. Staff Reduc. & Oper. Efficiencies - Funding and staffing levels are reduced for efficiencies that are expected in program administration, management, and operation. (Motor Vehicle Account - State)

Ongoing

% Change from 2001-03	-9.1%	9.0%

Comments:

The Aviation Program supports a number of aviation services, including conducting search and rescue education and operations; providing technical and financial aid to local public use airports; registering pilots and aircraft; managing the 15 state-owned or operated airports; and assisting local governments, the aviation community, and the general public to comply with federal and state aviation regulations.

1. Aviation (F) - Funds are provided for airport assistance grants for preservation of local public use airports and Federal Aviation Administration grants for planning projects. (Aeronautics Account-Federal)

Ongoing

2. Aviation Program Funding - Funding is provided for additional grants to preserve the existing infrastructure of airports that are ineligible to receive federal funding. These grant funds are paid from dedicated aviation-related revenue sources. In order to increase the amount of funding available for grants under the existing revenue structure, the department is encouraged to increase the percentage of state registered aircraft where those aircraft are FAA registered and operating within Washington. (Aeronautics Account - State)

Ongoing

3. SB 5392 - Funding is provided for additional preservation grants to airports due to revenue generated as a result of Senate Bill No. 6056. (Aeronautics Account - State, & Aircraft Search and Rescue and Safety Education Account - State)

Difference from 2001-03	65.3	15,610
% Change from 2001-03	31.4%	46.6%

Comments:

This program funds the statewide administration, management, and support functions of the highway maintenance and construction programs. These functions include Regional Management and Support, as well as the statewide Safety Office activities.

1. Enviro. Office-Program Realignment - Funding is provided for the staffing, activities, and overhead of the department's environmental-related functions. Included are \$14,310,000 for the environmental affairs office and \$3,100,000 for staffing and activities of the transportation permit efficiency and accountability committee. The entire funding is provided in lieu of these activities being included in the direct project support costs previously included in the Improvement and Preservation programs. (Motor Vehicle Account - State)

Ongoing

2. Program Delivery Reduction - Funding is reduced for travel, equipment purchases, and contracted services. Due to an overall reduction in the number and size of highway construction projects being designed and constructed and rights-of-way being purchased, the same level of support is not needed for the headquarters office and six regional offices. (Motor Vehicle Account - State)

Ongoing

3. Revolving Funds - Funding levels for services provided by other state agencies, such as the Attorney General, are adjusted to reflect what those agencies are expected to bill for their services. (Motor Vehicle Account - state)

Difference from 2001-03	53.1	504,762
% Change from 2001-03	7.5%	107.6%

Comments:

The Improvement program provides funding for the design, right of way, and construction of projects for the following purposes.

- (1) Improve mobility on the state highway system. Mobility improvements increase a highway's ability to carry more motor vehicles, with the long-term goal of reducing congestion. Examples include constructing carpool lanes and mitigating congestion on urban highways in cooperation with local and regional jurisdictions.
- (2) Improve safety by correcting deficiencies where accidents have occurred and making improvements at potentially hazardous locations. Examples include realigning curves, constructing traffic signals, and installing guardrails.
- (3) Increase the efficiency of moving freight and goods. Examples of projects include fixing highways where travel is restricted because of freeze-thaw closures, upgrading pavements to all-weather road status, constructing new rest areas, correcting bridges and overpasses that have height or weight restrictions, and widening of highway shoulders.
- (4) Correct or reduce the impact of transportation of facilities on the environment. Examples include fixing culverts under highways to enable fish to pass through them, rebuilding structures that discharge storm water, and reducing the public's exposure to noise by constructing noise walls along highways.

1. New Law Mobility Improvement Project - Funding is provided to implement the activities and projects included in the Senate Transportation 2003 Project List - New Law Highway Projects report as transmitted to LEAP on March 31, 2003. (Transportation 2003 Account (Nickel Account) - state)

One-time

2. Comments:

This program provides funding for a variety of maintenance functions related to the state highway system. These functions include maintenance on roadways, drainage systems, slopes, roadsides, landscapes, bridges, tunnels, and rest areas. Additional functions include snow & ice control, traffic services, third party damage repair, and disaster maintenance activities.

1. General Inflation - General inflation is not funded. The agency is expected to find sufficient efficiencies in their operations to cover the cost of inflation in the goods, services, and supplies needed for performance of their mission. (Motor Vehicle Account - State) (Motor Vehicle Account - Federal)

Ongoing

2. System Additions - Maintenance - Funding is provided to maintain new structures (lanes, bridges, slopes, guardrails, landscaping, etc.) that have been added to the state highway system during the 2001-2003 biennium. This level of funding allows for a continuation of the level of service targets included in the 2001-03 biennium. In delivering the program, the department should concentrate on the following areas: 1) meeting or exceeding the target for structural bridge repair on a state-wide basis, 2) eliminating the number of activities delivered in the "f" level of service at the region level, 3) reducing the number of activities delivered in the "d" level of service by increasing the resources directed to those activities on a state-wide and region basis, and 4) evaluating, analyzing, and potentially redistributing resources within and among regions to provide greater consistency in delivering the program state-wide and in achieving overall level of service targets. (Motor Vehicle Account - State)

Ongoing

3. Revolving Funds - Funding levels for services provided by other state agencies, such as the Attorney General, are adjusted to reflect what those agencies are expected to bill for their services. (Motor Vehicle Account - state)

Comments:

The Preservation program is responsible for reserving the structural integrity of the state highway system through projects such as the following.

- (1) Roadway preservation projects that repair, repave, and restripe state-owned highways, as well as restoring existing safety features.
- (2) Structures preservation projects that repair or replace bridges, tunnels, and overpasses on state-owned highways. Work includes painting bridges, repairing bridge decks, and protecting structures against earthquake damage.
- (3) Other facilities preservation projects that rebuild and remodel rest areas, construct truck weigh stations, and stabilize slopes near highways to prevent erosion and mud-slides.

Comments:

The Traffic Operations program is responsible for maximizing existing capacity and improving safety of the highway transportation system. The operations program provides funding for traffic flow control and low cost enhancements such as express lane and tunnel operations, ramp meters, and traveler information.

2. Additional Low Cost Enhancements - Funding is provided for additional low cost enhancements. This addition increases funding for low cost enhancements from \$4,400,000 to \$8,227,000. Priority shall be given to low cost enhancement projects that increase safety or provide congestion relief. (Motor Vehicle Account - State)

Ongoing

3. Incident Response Program - Funding is provided to continue the expanded incident response program implemented in FY2003 to reduce congestion and improve safety. The incident response personnel were changed from a response mode to a roving mode to more quickly respond to incidents. The primary duty remains responding to the Washington State Patrol for safety purposes; with the secondary role to assist motorists and clear lane blockages during peak traffic periods. The Department will also continue the public-private partnership for privately sponsored motorist assistance vans. This addition increases funding for incident response to \$7,500,000. No more than \$7,500,000 may be used for the incident response program. (Motor Vehicle Account - State)

Ongoing

4. Impacts of Highway System Additions - Funding is provided for system additions such as new traffic signals, ramp meters, electronic message signs, communications stations, roadway/traffic web sites, and roadway weather information stations. Funding is also provided to remove illegal billboards, respond to constituents, collect performance measure data, etc. (Motor Vehicle Account - State)

Ongoing

5. Revolving Funds - Funding levels for services provided by other state agencies, such as the Attorney General, are adjusted to reflect what those agencies are expected to bill for their services. (Motor Vehicle Account - state)

% Change from 2001-03	-7.0%	1.8%

Comments:

This program funds the administrative and core business support functions of the Department. These functions include Executive Management and Support, Finance and Administrative Services, Regional Management and Support, Management Information Systems Operations, Major Information Systems Maintenance, and Interjurisdictional Studies.

1. SSB 5248 - Funds are provided to implement SSB 5248, the Transportation Efficiency Act of 2003. Staff is provided for the apprenticeship council, human resources skills bank, and to help local governments develop preservation and management plans. An appropriation of \$100,000 of the Public Works Administration Account was provided in the bill to implement sections 201, 205, and 206 of the bill that will be used to increase response rates from all prevailing wage survey recipients in every county.

Ongoing

2. Economics Branch Staff Reduction - Two transportation planning specialist positions and \$303,000 are eliminated from the Economics Branch of the program. (Motor Vehicle Account-State, Motor Vehicle Account-Federal)

Ongoing

3. Revolving Funds - Funding levels for services provided by other state agencies, such as the Attorney General, are adjusted to reflect what those agencies are expected to bill for their services.

Ongoing

4. Staff Reduc. & Oper. Efficiencies - In order to attain administrative efficiencies, agency budgets are reduced for FTE staff years, salaries, benefits, and other operating costs. (General Fund-State, various other funds)

Comments:

This program manages, coordinates, and supports the multimodal transportation planning, data, and research needs of the Department. Planning activities include coordinating long-range plan development, working jointly with local jurisdictions and administering pass-through funds. Data and research activities support the construction program.

1. 2001-03 Reappropriations - Appropriation is provided for the continuation of the Transportation Innovative Financing Alternatives committee.

Ongoing

2. Congestion Relief Modeling - Funding is provided for a study of regional congestion relief solutions for Puget Sound, Spokane and Vancouver. The study will provide proposals to alleviate congestion consistent with population and land use expectations under the Growth Management Act. (Motor Vehicle Account - State)

One-time

3. RTPO planning - Additional assistance is provided to support Regional Transportation Planning Organizations and long range transportation planning efforts.

Ongoing

4. RTID Support - Funds are provided to assist with the costs of the election and WSDOT project oversight. (Motor Vehicle Account - State)

One-time

2003-05 Transportation Budget
Department of Transportation
Pgm T - Transpo Plan, Data & Resch

5. RTID Project Estimate Reviews - Funds are provided for an external review of RTID project costs estimates in order to provide the best available estimate of cost maximizing the use of RTID funds while ensuring that projects will not overrun estimates. (Motor Vehicle Account - State)

One-time

6. 12 Collision Records Transfer - To centralize all Collision Records activities and funding, appropriation authority for collision records personnel and related equipment currently located in the Improvement Program is transferred to the Transportation Planning, Data and Research Program. (Motor Vehicle Account - State)

Ongoing

7. Local Collision Records Backlog - Funding is provided for the elimination of the backlog of unprocessed collision reports for city/county collisions (1997-2001). Funding is in accordance with city and county local gas tax withholding statutes. (Motor Vehicle Account - State)

One-time

8. Functional Class Data Base - Funding is reduced for the Functional Class Data Base maintenance to meet 2003-05 Current Law Budget constraints. (Motor Vehicle Account - State and Federal)

Ongoing

9. GPS Training - Funding is eliminated for Global Positioning System training for mapping-grade data collection to meet 2003-05 Current Law Budget constraints. (Motor Vehicle Account - State and Federal)

Ongoing

10. Region & System Planning Reductions - Funding is reduced for transportation planning and the strategic assessment effort to meet 2003-05 Current Law Budget constraints.

Ongoing

11. Program Admin & Support Reduction - Consolidation and cross-training allow for the elimination of funding for two positions to meet 2003-05 Current Law Budget constraints.

Ongoing

12. Statewide Collision Records System - Additional funding is provided to manage and maintain a statewide collision records system for both data and images beginning with collisions occurring in calendar year 2002. This funding will not provide for the elimination of the backlog of unprocessed collision reports for state highway (1997-1998) and city/county collisions (1997-2001). This item recognizes in the base budget the transfer of appropriation authority for 11 collision records FTE staff hours and related equipment from the Washington State Patrol to the Washington State Department of Transportation pursuant to Senate Bill 5499. The item also recognizes the transfer of FTEs from the Improvement Program. (Motor Vehicle Account - State)

Ongoing

13. Eliminate Support for PPI - Funding for program support for the Public Private Initiatives (PPI) Program is reduced and eliminated to meet 2003-05 Current Law Budget constraints (\$202,000 Motor Vehicle Account State). The Economic Partnership Programs was consolidated with the Planning and Research Program. An independent Economic Partnership Program is reinstated by transfer of \$1,176,000 to Program K. (Motor Vehicle Account State)

Ongoing

14. Revolving Funds - Funding levels for services provided by other state agencies, such as the Attorney General, are adjusted to reflect what those agencies are expected to bill for their services.

Ongoing

15. Staff Reduc. & Oper. Efficiencies - In order to attain administrative efficiencies, agency budgets are reduced for FTE staff years, salaries, benefits, and other operating costs. (General Fund-State, various other funds)

Comments:

This program funds payments to other state agencies for services provided to the Department. These services include, but are not limited to archives, legal services and self-insurance premiums, facilities, and personnel services.

1. GA Office of Risk Mgmt Fees - Funding is provided for services performed by the Office of Financial Management's Office of Risk Management which provides claim, commercial insurance, and loss prevention services. (Motor Vehicle Account - State)
Ongoing

2. Auditing Services - Funding is provided for services performed by the Office of the State Auditor, in accordance with statutory requirements. (Motor Vehicle Account - State)
Ongoing

3. Facilities & Svcs/Consolidated Mail - Funding is provided for services performed by the Department of General Administration (GA), which services include transportation building maintenance, utilities, custodial services, consolidated mail services, and includes the Department's share of costs to maintain general capitol campus facilities. (Motor Vehicle Account - State)
Ongoing

4. Personnel Services - Funding is provided for services performed by the Department of Personnel. (Motor Vehicle Account - State)
Ongoing

5. Self-Insurance Liability Prem/Admin - Funding is provided for the Department's share of premiums paid to the Self Insurance Liability Fund, including tort defense costs. (Motor Vehicle Account - State)
Ongoing

6. GA - Capital Projects Surcharge - Funding is provided for charges from GA associated with capital rehabilitation projects on the capitol campus. (Motor Vehicle Account - State)
Ongoing

7. Archives & Records Management - Funding is provided for charges from the Office of the Secretary of State for archive and records storage services. (Motor Vehicle Account - State)
Ongoing

Comments:

This program provides support for public transportation and commute trip reduction (CTR) efforts throughout the state. Included in these efforts are the Rural Mobility Grant Program, Agency Council on Coordinated Transportation Program, High Capacity Transportation, Transportation Demand Management, and Modal Coordination.

1. FTE Adjustment - One FTE is eliminated.

One-time

2. ParaTransit/Special Needs Grants - Funding is provided for a grant program for non-profit providers of transportation for persons with special transportation needs. Moneys shall be to provide additional service only. Grants shall only be used for capital purposes and the operating costs directly associated with those capital purposes. Grants shall be based on need, including the availability of other providers of service in the area, efforts to coordinate trips among providers and riders, and the cost effectiveness of trips provided. (Multimodal Transportation Account - State)

Ongoing

3. Transit Agency ParaTransit - Funding is provided for distributions to transit agencies for assistance in providing special needs transportation. Moneys shall be to provide additional service only and may not be used to supplant current funding. Grants shall only be used for capital purposes and the operating costs directly associated with those capital purposes. Grants for transit agencies shall be prorated based on the amount expended for demand response service and route deviated service in calendar year 2001 as reported in the "Summary of Public Transportation - 2001" published by the department of transportation. No transit agency may receive more than thirty percent of these distributions. The amount over thirty percent will be prorated to the remaining transit agencies based on the above demand response service and route deviated expenditures. (Multimodal Transportation Account - State)

Ongoing

2003-05 Transportation Budget
Department of Transportation
Pgm V - Public Transportation

4. Rural Mobility Grants - Additional funding is provided for the rural mobility grant program. \$6 million are provided for grants for transit systems serving small cities and rural areas as identified in the "Summary of Public Transportation - 2001" published by the Washington State Department of Transportation. Grants shall be distributed based on operating statistics and performance measures for operations in a manner that will assist in normalizing revenue yields for purposes of addressing fiscal disparity. \$4 million are provided for providers of rural mobility service in areas that are not served by transit agencies through a competitive grant process. (Multimodal Transportation Account - State)

Ongoing

5. Vanpools - Funding is provided for a vanpool grant program for public transit agencies. The grant program will cover capital costs only; no operating costs are eligible for funding under this grant program. Only grants that add vanpools are eligible, and no supplanting of transit funds currently funding vanpools is allowed. Additional criteria for selecting grants will include leveraging funds other than state funds and the corridor congestion. (Multimodal Transportation Account - State)

Ongoing

6. CTR Grants - Funding is provided for commute trip reduction grants as contained in HB 2228. In administering grants, the department shall give priority to programs providing the greatest reduction in trips and commute miles and to the level of contribution of the public agency, non-profit organization, developer, and property manager to achieving those reductions. The department shall act to ensure, to the extent possible, that grants are distributed equitably among each eligible type of recipient. \$4,500,000 in additional funding is provided for commute trip reduction tax credits in HB 2228 through a transfer to the general fund. (Multimodal Transportation Account - State)

Ongoing

7. Eliminate Commute Trip Reduction Pr - Funding for the Commute Trip Reduction Program is eliminated. (Multimodal Transportation Account - State)

One-time

8. Rural Mobility Grant Pgm Reduction - Funding for the Rural Mobility Grant Program is reduced. (Multimodal Transportation Account - state)

One-time

9. ACCT Program Reduction - Funding for the Program on Agency Coordinated Transportation (commonly known as ACCT) is eliminated. (Multimodal Transportation Account - state)

% Change from 2001-03	-4.4%	-2.5%

Comments:

This program provides for the maintenance and operations of the Washington State Ferry boats and terminals. It contains three major activity categories: daily operations of the boats and terminals, maintenance of both, and administrative support.

In moving into the future, the ferry system should pursue the following issues:

1) improve the existing fuel procurement process and solicit, identify, and evaluate purchasing alternatives to reduce the overall cost of fuel and mitigate the impact of market fluctuations and pressure on both short- and long-term fuel costs. Consideration should include, but not be limited to, long-term fuel contracts, partnering with other public entities, and possibilities for fuel storage in evaluating hedging strategies and options; and

2) pursue and analyze the benefits, feasibility, and impact of selling the depreciation rights to auto ferries built in the future through utilizing sale and lease-back agreements as authorized in RCW 47.60.010.

2. WA Ferries Maintenance & Ops (X) - Savings result from eliminating passenger only service, schedule adjustments, moving the Hyak and Evergreen State to half time status, and proposed efficiencies. (Puget Sound Ferry Operations Account - State)
One-time

3. Ferries Technology System Updates - Funding is provided to program C for staff to support existing applications, meet emerging needs, and satisfy the need for on-going support of WSF systems and infrastructure. (Puget Sound Ferry Operations Account - State)
Ongoing

4. Ferries Labor Relations Support - Funding is provided to establish four positions to support labor relations for the ferries program. \$12,000 of the appropriation is a one-time cost. (Puget Sound Ferry Operations Account - State)
Ongoing

5. Ferries Safety Management System - Funding is provided to consolidate safety, regulatory, and environmental elements of the Safety Management System into one cohesive organization. \$18,000 of the appropriation is a one-time cost. (Puget Sound Ferry Operations Account - State)
Ongoing

2003-05 Transportation Budget
Department of Transportation
Pgm X - WA State Ferries-Op

6. Ferries Risk Management - Funding is provided to establish a risk management organization within the WSF system. External experts will be used to perform medical reviews, worker surveillance, and fraud investigation. Staff will provide program support, including technical safety investigation services, following on-the-job accidents and incidents, and professional program review and coordination. \$12,000 of the appropriation is a one-time cost. (Puget Sound Ferry Operations Account - State)

Ongoing

7. Revolving Funds - Funding levels for services provided by other state agencies, such as the Attorney General, are adjusted to reflect what those agencies are expected to bill for their services. (Puget Sound Ferry Operations Account - State)

Comments:

The Department manages federal aid to counties and cities for design, right of way, and construction work off the state highway system. This program assists local agencies by distributing federal funds to those local jurisdictions for enhancement projects and road and street construction projects.

1. Local Freight Projects - Funding is provided for the Columbia Center Blvd. Railroad Crossing in Kennewick.

One-time

2. 2001-03 Reappropriations - Reappropriations are made for expenditures moved from the 2001-03 biennium to the 2003-05 biennium. Specific reappropriations include: \$7,576,000 for the Columbia River dredging, \$8,527,000 for county corridor congestion relief projects, \$4,927,000 for city corridor congestion relief projects, \$8,486,000 for local freight mobility projects, \$1,156,000 for small city pavement preservation grants, \$4,010,000 for traffic safety near schools grants, \$1,318,000 for fish passage barrier removal, and \$150,000 for the Red Wolf bridge project. For grant and other award programs, the department will review projects quarterly to determine if the project is making satisfactory progress. Where projects have remained inactive for one-year, the department will perform a review to determine if the contract or award should be terminated. The department will actively manage projects and close out contracts promptly in order to combine unused funds with funds from any terminated contracts to extend new grant awards to qualified projects. (Motor Vehicle Account - State, Multimodal Transportation Account - State)

One-time

3. State Infrastructure Bank - Funding is provided for low-cost financing for transportation infrastructure projects sponsored by local agencies utilizing state funds. (Highway Infrastructure Account - State, Highway Infrastructure Account - Federal)

Comments:

The Field Operations Program oversees patrolling on state highways in eight districts. Commissioned troopers are responsible for enforcing traffic laws, investigating collisions, assisting motorists, and providing a safe motoring environment for the public on 17,524 miles of state highway. The Field Operations Program also oversees the Aviation Section, the Canine Unit, the Explosives Unit, the Washington State Patrol Honor Guard, and Vessel and Terminal Safety. (State Patrol Highway Account-State, State Patrol Highway Account-Private/Local)

1. General Inflation - Agencies are required to find sufficient efficiencies in their operations to cover the cost of inflation in the goods, services, and supplies needed for performance of their mission. (State Patrol Highway Account - State and Federal)
Ongoing

2. Aerial Highway Traffic Enforcement - Funding is provided for King Air safety modifications: Brake De-ice, High Floatation Landing Gear, Wing Spar Strap, Terrain Awareness & Warning System, Auto Pilot & Flight Director; and any other FAA required maintenance or maintenance as recommended by the WSP. (State Patrol Highway Account - State)
One-time

3. Ferry Security - The 2002 Legislature provided the Washington State Patrol with one-time funding of \$1,800,000 to provide enhanced security for Washington State Ferries. Currently, troopers are working overtime shifts to provide this security. Funding is provided only for the salary and benefits for 13 additional troopers assigned to Vessel and Terminal Security. The WSP will not use current resources to purchase vehicles for these troopers. (State Patrol Highway Account - State)
Ongoing

4. Staff Reduc. & Oper. Efficiencies - The agency will find sufficient efficiencies to reduce operating costs without affecting trooper staffing levels. (State Patrol Highway Account - State and Federal)

Comments:

The Electronic Services Division provides the Washington State Patrol with engineering skills in communication, electronic, networking, analog, and digital designs. The Division maintains statewide emergency communications systems used by the State Patrol and other state and federal agencies. The section is responsible for the repair and maintenance of all State Patrol communications equipment and systems, including portable radios, mobile radios, mobile computer systems, speed-measuring devices, and communications center radios.

The Information Technology Division supports the State Patrol in evaluating new software, writing/developing programs, and providing project managers to manage information technology. This program includes a 24-hour, 7-day-a-week data center operation to monitor mission-critical programs and provide computer support for all of the State Patrol. Traffic law enforcement, criminal justice, and administrative databases are maintained in support of the business operations of the agency. (General Fund-State, Public Safety and Education Account-State, State Patrol Highway Account-State)

1. General Inflation - Agencies are required to find sufficient efficiencies in their operations to cover the cost of inflation in the goods, services, and supplies needed for performance of their mission.

Ongoing

3. Replacement of Servers - Funding is provided for the replacement of WSP servers, not to include those servicing only GF-S activities. This item includes funding for one FTE to develop a business continuation plan, to develop an application test environment, and to enhance the agency's current disaster recovery environment. Servers that support both highway activities and general state policing activities must be partially funded with the agency's General Fund-State appropriation. (State Patrol Highway Account - State)

One-time

4. Reduction in Vehicles - The agency will realize \$2,318,000 in expenditure savings by delaying purchase of pursuit vehicles. Average pursuit vehicle mileage will accrue to between 116,000 and 124,000 in the 2003-05 biennium. Maintenance costs resulting from the increased mileage will be between \$25,000 and \$106,000 in the 2003-05 biennium. (State Patrol Highway Account - State)

One-time

2003-05 Transportation Budget
Washington State Patrol
Support Services Bureau

5. Mobile Radio Replacement - Funding is provided to replace 923 vehicular (mobile) radios for State Patrol officers in Field Force and the Commercial Vehicle Division. Funding does not include additional resources for radio installation or technician training. (State Patrol Highway Account - State)

One-time

6. Portable Radio Replacement - Funding is provided to replace 274 handheld (portable) radios for State Patrol officers in Field Force and the Commercial Vehicle Division. Funding is included for warranties and spare parts. (State Patrol Highway Account - State)

One-time

7. Revolving Funds - Funding levels for services provided by other state agencies, such as the Attorney General, are adjusted to reflect what those agencies are expected to bill for their services. (State Patrol Highway Account - State)

One-time

8. Staff Reduc. & Oper. Efficiencies - Funding for operating costs is reduced. (State Patrol Highway Account - State and Local)

Ongoing

9. Self-Insurance Premiums - State agencies pay an annual self-insurance premium to fund the state's Self-Insurance Liability Program. This program is responsible for paying costs related to tort lawsuits associated with state agency programs. An agency's self-insurance premium is based on factors such as past and current claims experience, the agency staffing levels, and estimated obligations. This item reflects the increased amount for the agency's self-insurance premium in the 2003-05 biennium. (State Patrol Highway Account - State)

Comments:

Capital project funding is one-time funding for project phases that will be completed during the 2003-05 biennium. Funding is provided as one appropriation for all of the projects listed for each funding source.

1. Emergency Generator Replacement - Funding is provided to replace existing emergency generators due to age, unavailability of replacement parts for repair and insufficient size for the facility demands during emergency conditions. (State Patrol Highway Account - State)
One-time

2. Shelton Academy - Funding is provided for the WSP proportional share of the Shelton area water and sewer regional plan. Funding is contingent on General Fund-State funding of the Washington Corrections Center's portion of the regional plan. (State Patrol Highway Account - State)
One-time

3. Statewide Minor Works - Funding is provided for the following minor works projects: Emergency Repairs \$100,000, Statewide Office Security \$ 50,000, Communication Tower Repairs \$150,000, Roof Replacements Bellevue & Vancouver \$165,000, Rock Island Scale Relocation \$500,000, Wenatchee Headquarters repair and maintenance \$50,000, Marysville Bomb Truck Cover \$50,000. (State Patrol Highway Account - State)
One-time

4. Walla Walla Land Acquisition - The current building is experiencing structural and roof failures and cannot accommodate ADA requirements. Funding is provided for a new detachment to be designed and constructed adjacent to the WSDOT facility. (State Patrol Highway Account - State)

Comments:

Management and Support Services includes the Director's Office and Administrative Services. This program offers centralized personnel support, keeps the public informed about agency activities, and coordinates the agency's quality improvement efforts. The Director's Office includes the Director, Public Affairs, Legislative Liaison, Employees' Services, and Office of Budget and Program Support. Administrative Services provides centralized staff services to other divisions, such as, facilities management, mail service, revenue and expenditure accounts and contract services.

1. 5435 Special License Plate Approval - Funding is provided for the implementation of Substitute Senate Bill 5435. (Motor Vehicle Fund--State)

Ongoing

2. Local Collection Contracts - The Seattle Popular Monorail Authority (SPMA) and Sound Transit (ST) are providing funding for the Department of Licensing, pursuant to contractual agreement, to administer and perform the collection of locally approved motor vehicle excise taxes. SPMA is providing \$761,000, and ST is providing \$611,000. (Motor Vehicle Fund--Local)

Ongoing

3. General Inflation - Agencies are required to find sufficient efficiencies in their operations to cover the cost of inflation in the goods, services, and supplies needed for performance of their mission. (Highway Safety Account - State)

Ongoing

4. Equipment Replacement Costs - Funding is provided to replace the National Cash Register (NCR) Remittance Mail Processing machine. The Business and Professions program accounts and the Transportation related program accounts are each providing half of the funding necessary to purchase the machine. Comments:

There are three within Driver Services. Driver Examining issues driver's licenses and renewals, motorcycle endorsements, commercial driver's licenses and endorsements, and identification cards at 63 license services offices (LSOs) and four travel units. Driver Responsibility administers state law relating to driving under the influence (DUI), mandatory convictions, implied consent, habitual traffic offenders, financial responsibility and minors in possession. Hearings/Interviews conducts hearings and interviews for drivers facing suspension or revocation of driving privileges.

1. CDLIS - Funding is provided by the federal government to support a Department of Licensing (DOL) employee to work in Washington D.C. on the Commercial Driver's License Information System (CDLIS). CDLIS enables DOL to exchange information with other states about the driving records and driver's licenses of commercial motor vehicle drivers. (Highway Safety Account--Federal)

Comments:

The Railroad Safety Section of the UTC includes inspections of hazardous materials handling, track, operating practices, signals, and clearance; investigations of trespassing, crossing, and derailment incidents; public information about rail safety issues; and responsibility for rail safety rules and policies to protect Washington citizens. Section inspectors work to ensure that railroad/highway crossings and other rail-related structures are maintained in the safest manner possible.

1. HB 1352 - Proposed legislation will expand the use of the Grade Crossing Protective Account funding to be used for other rail safety projects. The matching requirement for local governments on projects less than \$20,000 is deleted. These rail safety projects will be designed to reduce deaths and injuries from the interaction of the public with rail traffic. The estimated cost is \$167,000. (Grade Crossing Protective Account)

Comments:

The Freight Mobility Strategic Investment Board (FMSIB) was created in order to develop a comprehensive and coordinated state program that facilitates freight movement within the state to enhance the local, national, and international markets. FMSIB is responsible for reviewing, evaluating, and recommending projects that will enhance freight mobility within Washington State.

Comments:

The Local Boards Coordinated Program will provide staff support for maintaining the statewide inventory of county roads used as the basis for grant program eligibility and fuel tax calculations, and will prepare the calculations for each county's annual fuel tax allocation. The Program will also provide staff support to the Transportation Partnership Program, Arterial Improvement Program, Small City Program, Pedestrian Safety Mobility Program, and City Hardship Assistance Program.

1. CRAB Operating Programs - Appropriation authority is transferred from the County Road Administration Board to the Local Boards Coordinated Program. (Various other funds)

Comments:

The Local Boards Coordinated Program shall administer grant programs previously administered by separate staff for the County Road Administration Board and Transportation Improvement Board.

1. CRAB Programs -

Rural Arterial Program:

Rural Arterial Trust Account funds are distributed to the counties in the form of project grants to improve rural collector roads and provide transportation engineering assistance. (Rural Arterial Trust Account-State, Motor Vehicle Account-State)

Arterial Road Preservation:

County Arterial Preservation Account funds are distributed to counties in the form of project grants to maintain urban and rural arterial roads. (County Arterial Preservation Account-State)

One-time

2003-05 Transportation Budget
Local Boards Coordinated Program
Capital

2. TIB Programs -

Arterial Improvement Program:

This program awards grants to reduce congestion and improve safety, geometrics, and structural deficiencies. Funds are distributed regionally based on roadway miles, population, and needs. Projects are selected through a competitive process and are eligible for reimbursement up to 80 percent. The program's current inventory has over 200 projects with a total program obligation of \$300 million. (Urban Arterial Trust Account-State)

City Hardship Assistance Program:

This program provides funding to cities that assume responsibility for a state highway when it is relocated or deleted from the state system. Eligible projects include any transferred state highway in a city with fewer than 20,000 in population that has extraordinary maintenance needs. Projects are selected on a competitive basis and based on structural condition, accident experience, and relationship to other local agency projects. The program's current inventory has five projects with a total program obligation of \$1 million. (Urban Arterial Trust Account-State)

Pedestrian Safety/Mobility Program:

This program provides grant funds to enhance and promote pedestrian mobility and safety. Projects are selected through a competitive process. The program's current inventory includes more than 150 projects with a total program obligation of \$14 million. (Urban Arterial Trust Account-State)

Small City Program:

This program awards grants to preserve and improve the roadway system in cities and towns with less than 5,000 residents. Projects are selected through a competitive process and reimbursed depending upon the city's population. The program's current inventory has over 160 projects with a total program obligation of \$38 million. (Urban Arterial Trust Account-State)

Transportation Partnership Program:

This program provides grant funding for projects to relieve congestion caused by economic development or rapid growth in cities with a population greater than 5,000, urban counties, and Transportation Benefit Districts (TBD). Projects must be consistent with state, regional, and local transportation plans, and must be partially funded by local contributions. The program's current inventory has over 220 projects with a total obligation of \$450 million. (Transportation Improvement Account-State, Transportation Improvement Account-Bonded)
