NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington Medicaid Integration Partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2005-2007 biennium. The amount of funding assigned to the pilot projects from each program may not
exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

program. Within the amounts provided for the WorkFirst program, the
department shall:

(a) Continue to implement WorkFirst program improvements that are
designed to achieve progress against outcome measures specified in RCW
74.08A.410. Valid outcome measures of job retention and wage
progression shall be developed and reported quarterly to appropriate
fiscal and policy committees of the legislature for families who leave
assistance, measured after 12 months, 24 months, and 36 months. The
department shall also report the percentage of families who have
returned to temporary assistance for needy families after 12 months, 24
months, and 36 months; and

(b) Submit a report by October 1, 2005, to the fiscal committees of
the legislature containing a spending plan for the WorkFirst program.
The plan shall identify how spending levels in the 2005-2007 biennium
will be adjusted to stay within available federal grant levels and the
appropriated state-fund levels.

(2) $75,833,000 of the general fund--state appropriation for fiscal
year 2006 and $74,358,000 of the general fund--state appropriation for
fiscal year 2007 are provided solely for cash assistance and other
services to recipients in the general assistance--unemployable program.
Within these amounts, the department may expend funds for services that

provided that expenditures for these services and cash assistance do

(3) $5,000,000 of the general fund--state appropriation for fiscal
year 2006 and $10,000,000 of the general fund--state appropriation for

(5)(a) $1,000,000 of the general fund--state appropriation for
fiscal year 2006, and $1,000,000 of the general fund--state
appropriation for fiscal year 2007 are provided solely to implement a
child care career and wage ladder program. The child care career and
wage ladder shall provide increased wages for child care workers based
on their work experience, level of responsibility, and education. To
the extent practicable within available funds, the program shall be
modeled after the child care career and wage ladder program in place
from 2000 to 2003. Licensed child care centers may be eligible only if
they meet the following criteria: (i) At least ten percent of child
care slots are dedicated to children whose care is subsidized by the
state, local government, or any political subdivision; (ii) they agree
to adopt the child care career and wage ladder, which, at a minimum,
shall be at the same pay schedule as existed in the previous child care
career and wage ladder pilot project; and (iii) they meet further

child care centers interested in adopting the child care career and
wage ladder.

(b) Child care centers meeting the criteria established in this
subsection (5) that are located in the urban areas of the department of
social and health services region one shall receive a minimum of
fifteen percent of funds allocated through the child care career and

NEW SECTION. Sec. 209. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MEDICAL ASSISTANCE PROGRAM

General Fund--State Appropriation (FY 2006) . . . . . . . $1,474,131,000
General Fund--State Appropriation (FY 2007) . . . . . . . $1,585,376,000
General Fund--Federal Appropriation . . . . . . . . . . $4,022,745,000
General Fund--Private/Local Appropriation . . . . . . . $2,000,000
Emergency Medical Services and Trauma Care Systems Trust Account--State Appropriation . . . . . . . . . . $15,000,000
Health Services Account--State Appropriation . . . . . $639,715,000
TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . $7,738,967,000

The appropriations in this section are subject to the following conditions and limitations:

(1) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental
to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(2) $1,660,000 of the health services account appropriation, $4,361,000 of the general fund--federal appropriation, $1,350,000 of the general fund--state appropriation for fiscal year 2006, and $1,351,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(3) $22,081,000 of the health services account appropriation and $20,714,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(4) In response to the federal directive to eliminate intergovernmental transfer transactions effective June 30, 2005, the department is directed to implement the inpatient hospital certified public expenditures program for the 2005-07 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals. Hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of each medicaid inpatient fee-for-service claim payable by the medical assistance administration; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Medicaid fee-for-service claim amounts shall be established by applying the department's ratio of costs to charges payment methodology. The department shall provide participating
hospitals with the information needed by the hospital to certify the
public expenditures required to qualify for the federal portions of
both the medicaid inpatient fee-for-service payments and the
disproportionate share hospital payments. The legislature intends that
hospitals in the program receive no less in combined state and federal
payments than they would have received under the methodology that was
in place during fiscal year 2005. The department shall therefore make
additional grant payments, not to exceed the amounts provided in this
subsection, to hospitals whose total payments under the program would
otherwise be less than the total state and federal payments they would
have received under the methodology in effect during fiscal year 2005.
$37,034,000 of the general fund--state appropriation for fiscal year
2006, $37,552,000 of the general fund--state appropriation for fiscal
year 2007, $8,300,000 of the emergency medical services and trauma care
systems trust account--state appropriation, and $45,450,000 of the
general fund--federal appropriation are provided solely for new state
grant and upper payment limit programs for the participating hospitals.

(5) $3,972,000 of the general fund--state appropriation for fiscal
year 2006, $3,990,000 of the general fund--state appropriation for
fiscal year 2007, and $63,279,000 of the general fund--federal
appropriation are provided solely for development and implementation of
a replacement system for the existing medicaid management information
system.

(6) $150,000 of the general fund--state appropriation for fiscal
year 2006, $75,000 of the general fund--state appropriation for fiscal
year 2007, and $225,000 of the general fund--federal appropriation are
provided solely for the department to contract for an independent
analysis of the medical assistance administration's current system for
establishing hospital inpatient payment rates, and for recommendations
on a new or updated system. The department shall submit an interim
report of study findings by December 1, 2005, and a final report by
November 15, 2006. The interim report shall include a comparison of
the strengths and weaknesses of the current rate-setting system
relative to those used by other state, federal, and private payers.
The final report shall include recommendations on the design and
implementation of a new or updated system that will promote equity
among hospitals, access to quality care for patients, and cost-control
and efficiency for taxpayers. The study should make use of complete
and current cost data from a wide variety of hospitals, recognize
unique aspects of hospital service delivery structures and medicaid
payment systems in Washington, and provide opportunities for comment
and participation by key interest groups in the identification and
assessment of alternatives.

(7) Payment rates for hospital inpatient and outpatient services
shall be increased by an average of 1.2 percent effective September 1,
2005, and by an average of an additional 1.7 percent effective
September 1, 2006. The increases shall be provided only on the portion
of a hospital's rate that excludes medical education and outlier costs,
and shall be allocated so that hospitals with lower costs of care
(excluding medical education and outlier costs) receive larger
percentage increases than those with higher costs of care. The
increases shall be allocated in three percentage increments, with the
lowest-cost hospitals receiving the largest percentage rate increase,
highest-cost hospitals receiving the smallest percentage increase, and
medium-cost hospitals receiving the average of the highest and the
lowest percentage rate increase. Increases shall not be provided to
those hospitals that are certified as critical access. Sufficient
funds are appropriated in this section for Healthy Options contractors
to increase hospital payment rates commensurate with the increases in
fee-for-service payment rates.

(8) When a person is ineligible for medicaid solely by reason of
residence in an institution for mental diseases, the department shall
provide the person with the same benefits as he or she would receive if
eligible for medicaid, using state-only funds to the extent necessary.

(9) The medical assistance program may use funds appropriated in
this section to purchase medical equipment and supplies through third-
party purchasing groups when it is cost-effective to do so.

(10) The legislature affirms that it is in the state's interest for
Harborview medical center to remain an economically viable component of
the state's health care system.

(11) By October 1, 2005, the department shall recommend to the
governor and legislature at least two pilot project designs which seem
likely to reduce avoidable emergency room utilization at no net cost to
the state within the projects' first eighteen months of operation.

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-
service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school-wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

General Fund--State Appropriation (FY 2006) . . . . . . . $243,160,000
General Fund--State Appropriation (FY 2007) . . . . . . . $248,599,000
TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . . . $491,759,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of $796,000 of this fiscal year 2006 appropriation and a maximum of $812,000 of the fiscal year 2007 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) $5,000 of the fiscal year 2006 appropriation and $5,000 of the fiscal year 2007 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.
(4) Allocations for transportation of students shall be based on reimbursement rates of $41.56 per weighted mile in the 2005-06 school year and $41.80 per weighted mile in the 2006-07 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

(5) For busses purchased between July 1, 2005, and June 30, 2007, the office of superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts.

(6) Beginning with the 2005-06 school year, the superintendent of public instruction shall base depreciation payments for school district buses on the five-year average of prices in the appropriate category of bus. In the final year on the depreciation schedule, the depreciation payment shall be based on the current state price. The superintendent may include a weighting or other adjustment factor in the averaging formula to ease the transition from the current-price depreciation system to the average depreciation system. Prior to making any depreciation payment in the 2005-06 school year, the superintendent shall notify the office of financial management and the fiscal committees of the legislature of the specific depreciation formula to be used. The replacement cost shall be based on the lowest quote in the appropriate bus category for that school year.
(7) In addition to the allocations for transportation of students in subsection (4) of this section, school districts shall be allocated $0.17 per weighted mile in the 2005-06 school year and $0.17 per weighted mile in the 2006-07 school year exclusive of salary and benefit adjustments provided in section 504 of this act. For the purposes of this subsection, the weighted miles will be calculated based on the actual reported amounts for the 2004-05 school year. The total amount allocated pursuant to this subsection shall be limited to $1,534,000 for the 2005-07 biennium.

(8) A maximum of $50,000 of the fiscal year 2006 appropriation may be expended for software programming costs associated with the implementation of subsection (6) of this section.

NEW SECTION. Sec. 506. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL FOOD SERVICE PROGRAMS

General Fund--State Appropriation (FY 2006) . . . . . . $3,100,000
General Fund--State Appropriation (FY 2007) . . . . . . $3,100,000
General Fund--Federal Appropriation . . . . . . . . . . . $287,403,000
TOTAL APPROPRIATION . . . . . . . . . . . . . . . . $293,603,000

The appropriations in this section are subject to the following conditions and limitations:

(1) $3,000,000 of the general fund--state appropriation for fiscal year 2006 and $3,000,000 of the general fund--state appropriation for fiscal year 2007 are provided for state matching money for federal child nutrition programs.

(2) $100,000 of the general fund--state appropriation for fiscal year 2006 and $100,000 of the 2007 fiscal year appropriation are provided for summer food programs for children in low-income areas.

NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2006) . . . . . . $456,306,000
General Fund--State Appropriation (FY 2007) . . . . . . $464,586,000
General Fund--Federal Appropriation . . . . . . . . . . . $435,453,000
TOTAL APPROPRIATION . . . . . . . . . . . . . . . . $1,356,345,000

The appropriations in this section are subject to the following conditions and limitations:
(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:

(i) Special education students are basic education students first;

(ii) As a class, special education students are entitled to the full basic education allocation; and

(iii) Special education students are basic education students for the entire school day.

(b) The S-275 and accounting changes in effect since the 2001-02 school year shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2005-06 and 2006-07 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, $18,945,000 of the general fund--state appropriation and $28,698,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards
exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and
(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) A maximum of $100,000 of the general fund--federal appropriation shall be expended to create a special education ombudsman program within the office of superintendent of public instruction. The purpose of the program is to provide support to parents, guardians, educators, and students with disabilities. The program will provide information to help families and educators understand state laws, rules, and regulations, and access training and support, technical information services, and mediation services. NEW SECTION. Sec. 901. EXPENDITURE AUTHORIZATIONS. The appropriations contained in this act are maximum expenditure authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 2003-05 biennium.

NEW SECTION. Sec. 902. INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

(a) System refurbishment, acquisitions, and development efforts;
(b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
(c) Assessment of overall information processing performance, resources, and capabilities;
(d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
(e) Progress toward enabling electronic access to public information.
(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance
responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(8) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

NEW SECTION. Sec. 903. BUSINESS CONTINUITY AND DISASTER RECOVERY. State agencies shall comply with the business continuity and disaster recovery policies, guidelines, and statements of direction developed by the department of information services and the information services board in consultation with state agencies. To ensure that agency business continuity and disaster recovery activities identify the primary risks across state agencies, account for dependencies between agencies, capitalize on economies of scale, and avoid unnecessary duplication of costs and efforts, state agencies shall receive the prior approval of the department of information services before implementing business continuity and disaster recovery strategies and expending funds for business continuity activities.

NEW SECTION. Sec. 904. VIDEO TELECOMMUNICATIONS. The department of information services shall act as lead agency in coordinating video telecommunications services for state agencies. As lead agency, the department shall develop standards and common specifications for leased
and purchased telecommunications equipment and assist state agencies in
developing a video telecommunications expenditure plan. No agency may
spend any portion of any appropriation in this act for new video
telecommunication equipment, new video telecommunication transmission,
or new video telecommunication programming, or for expanding current
video telecommunication systems without first complying with chapter
43.105 RCW, including but not limited to, RCW 43.105.041(2), and
without first submitting a video telecommunications expenditure plan,
in accordance with the policies of the department of information
services, for review and assessment by the department of information
services under RCW 43.105.052. Prior to any such expenditure by a
public school, a video telecommunications expenditure plan shall be
approved by the superintendent of public instruction. The office of
the superintendent of public instruction shall submit the plans to the
department of information services in a form prescribed by the
department. The office of the superintendent of public instruction
shall coordinate the use of video telecommunications in public schools
by providing educational information to local school districts and
shall assist local school districts and educational service districts
in telecommunications planning and curriculum development. Prior to
any such expenditure by a public institution of postsecondary
education, a telecommunications expenditure plan shall be approved by
the higher education coordinating board. The higher education
coordinating board shall coordinate the use of video telecommunications
for instruction and instructional support in postsecondary education,
including the review and approval of instructional telecommunications
course offerings.

NEW SECTION. Sec. 905. PROGRAM COST SHIFTS. Any program costs
or moneys in this act that are shifted to the general fund from another
fund or account require an adjustment to the expenditure limit under
RCW 43.135.035(5).

NEW SECTION. Sec. 906. EMERGENCY FUND ALLOCATIONS. Whenever
allocations are made from the governor's emergency fund appropriation
to an agency that is financed in whole or in part by other than general
fund moneys, the director of financial management may direct the
repayment of such allocated amount to the general fund from any balance in the fund or funds which finance the agency. No appropriation shall be necessary to effect such repayment.

NEW SECTION. Sec. 907. STATUTORY APPROPRIATIONS. In addition to the amounts appropriated in this act for revenues for distribution, state contributions to the law enforcement officers' and fire fighters' retirement system plan 2, and bond retirement and interest including ongoing bond registration and transfer charges, transfers, interest on registered warrants, and certificates of indebtedness, there is also appropriated such further amounts as may be required or available for these purposes under any statutory formula or under chapters 39.94 and 39.96 RCW or any proper bond covenant made under law.

NEW SECTION. Sec. 908. BOND EXPENSES. In addition to such other appropriations as are made by this act, there is hereby appropriated to the state finance committee from legally available bond proceeds in the applicable construction or building funds and accounts such amounts as are necessary to pay the expenses incurred in the issuance and sale of the subject bonds.

NEW SECTION. Sec. 909. VOLUNTARY SEPARATION INCENTIVES. As a management tool to reduce costs and make more effective use of resources, while improving employee productivity and morale, agencies may offer voluntary separation and/or downshifting incentives and options according to procedures and guidelines established by the department of personnel and the department of retirement systems in consultation with the office of financial management. The options may include, but are not limited to, financial incentives for: Voluntary resignation and retirement, voluntary leave-without-pay, voluntary workweek or work hour reduction, voluntary downward movement, or temporary separation for development purposes. No employee shall have a contractual right to a financial incentive offered pursuant to this section. Agencies shall report on the outcomes of their plans, and offers shall be reviewed and monitored jointly by the department of personnel and the department of retirement systems, for reporting to the office of financial management by December 1, 2006.
NEW SECTION. Sec. 910. VOLUNTARY RETIREMENT INCENTIVES. It is the intent of the legislature that agencies may implement a voluntary retirement incentive program that is cost neutral or results in cost savings provided that such a program is approved by the director of retirement systems and the office of financial management. Agencies participating in this authorization are required to submit a report by June 30, 2007, to the legislature and the office of financial management on the outcome of their approved retirement incentive program. The report should include information on the details of the program including resulting service delivery changes, agency efficiencies, the cost of the retirement incentive per participant, the total cost to the state, and the projected or actual net dollar savings over the 2005-07 biennium.

NEW SECTION. Sec. 911. AGENCY EXPENDITURES FOR MOTOR VEHICLES. The use of hybrid motor vehicles reduces air contaminants, greenhouse gas emissions and reliance on imported sources of petroleum. To foster the use of hybrid motor vehicles, beginning July 1, 2005, before the purchase or lease of a motor vehicle, state agencies should first consider the feasibility of hybrid motor vehicles. State agencies should strive to purchase or lease a hybrid motor vehicle when the use of such vehicle is consistent with and can accomplish the agency's mission and when the purchase is financially reasonable. The financial assessment should include savings accruing from reduced fuel purchases over the life of the vehicle. Agencies shall report on their purchases of hybrid vehicles in their biennial sustainability plans as required under executive order 02-03.

Sec. 912. RCW 28A.160.195 and 2004 c 276 s 904 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the regional transportation coordinators of the educational service districts, shall establish a minimum number of school bus categories considering the capacity and type of vehicles required by school districts in Washington. The superintendent, in consultation with the regional transportation coordinators of the educational service districts, shall establish competitive specifications for each category of school bus. The categories shall be developed to produce minimum
long-range operating costs, including costs of equipment and all costs in operating the vehicles. The categories, for purposes of comparative studies, will be at a minimum the same as those in the beginning of the 1994-95 school year. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts. In fiscal ((year 2005)) years 2006 and 2007, the superintendent may solicit and accept price quotes for a rear-engine category school bus that shall be reimbursed at the price of the corresponding front engine category.

(2) After establishing school bus categories and competitive specifications, the superintendent of public instruction shall solicit competitive price quotes from school bus dealers to be in effect for one year and shall (a) except in fiscal ((year 2005)) years 2006 and 2007, establish a list of the lowest competitive price quotes obtained under this subsection, and (b) in fiscal ((year 2005)) years 2006 and 2007, establish a list of all accepted price quotes in each category obtained under this subsection.

(3) The superintendent shall base the level of reimbursement to school districts and educational service districts for school buses on the lowest quote in each category.

(4) Notwithstanding RCW 28A.335.190, school districts and educational service districts may purchase at the quoted price directly from the dealer who is providing the lowest competitive price quote on the list established under subsection (2) of this section and in fiscal ((year 2005)) years 2006 and 2007 from any dealer on the list established under subsection (2)(b) of this section. School districts and educational service districts may make their own selections for school buses, but shall be reimbursed at the rates determined under subsection (3) of this section and RCW 28A.160.200. District-selected options shall not be reimbursed by the state. For the ((2003-05)) 2005-2007 fiscal biennium, school districts and educational service districts shall be reimbursed for buses purchased only through a lowest-price competitive bid process conducted pursuant to RCW 28A.335.190 or through the state bid process established by this section.
(5) This section does not prohibit school districts or educational service districts from conducting their own competitive bid process.

(6) The superintendent of public instruction may adopt rules under chapter 34.05 RCW to implement this section.

Sec. 913. RCW 28A.305.210 and 2003 1st sp.s. c 25 s 911 are each amended to read as follows:

(1) The state board of education, by rule or regulation, may require the assistance of educational service district boards and/or superintendents in the performance of any duty, authority, or power imposed upon or granted to the state board of education by law, upon such terms and conditions as the state board of education shall establish. Such authority to assist the state board of education shall be limited to the service function of information collection and dissemination and the attestation to the accuracy and completeness of submitted information.

(2) During the ((2003-05)) 2005-2007 biennium, educational service districts may, at the request of the state board of education, receive and screen applications for school accreditation, conduct school accreditation site visits pursuant to state board of education rules, and submit to the state board of education postsite visit recommendations for school accreditation. The educational service districts may assess a cooperative service fee to recover actual plus reasonable indirect costs for the purposes of this subsection.

Sec. 914. RCW 28A.500.030 and 2003 1st sp.s. c 25 s 912 are each amended to read as follows:

Allocation of state matching funds to eligible districts for local effort assistance shall be determined as follows:

(1) Funds raised by the district through maintenance and operation levies shall be matched with state funds using the following ratio of state funds to levy funds:

(a) The difference between the district's twelve percent levy rate and the statewide average twelve percent levy rate; to

(b) The statewide average twelve percent levy rate.

(2) The maximum amount of state matching funds for districts eligible for local effort assistance shall be the district's twelve percent levy amount, multiplied by the following percentage:
(a) The difference between the district's twelve percent levy rate and the statewide average twelve percent levy rate; divided by
(b) The district's twelve percent levy rate.
(3) Calendar year 2003 allocations and maximum eligibility under this chapter shall be multiplied by 0.99.
(4) From January 1, 2004, to (June 30, 2005), allocations and maximum eligibility under this chapter shall be multiplied by 0.937.

Sec. 915. RCW 41.05.050 and 2003 c 158 s 1 are each amended to read as follows:
(1) Every department, division, or separate agency of state government, and such county, municipal, school district, educational service district, or other political subdivisions as are covered by this chapter, shall provide contributions to insurance and health care plans for its employees and their dependents, the content of such plans to be determined by the authority. Contributions, paid by the county, the municipality, or other political subdivision for their employees, shall include an amount determined by the authority to pay such administrative expenses of the authority as are necessary to administer the plans for employees of those groups, except as provided in subsection (4) of this section.
(2) If the authority at any time determines that the participation of a county, municipal, or other political subdivision covered under this chapter adversely impacts insurance rates for state employees, the authority shall implement limitations on the participation of additional county, municipal, or other political subdivisions.
(3) The contributions of any department, division, or separate agency of the state government, and such county, municipal, or other political subdivisions as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. Insurance and health care contributions for ferry employees shall be governed by RCW 47.64.270.
(4)(a) Beginning September 1, 2003, the authority shall collect from each participating school district and educational service district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and
family size as would be charged to state employees, for groups of
district employees enrolled in authority plans as of January 1, 2003.
However, during the 2005-07 fiscal biennium, the authority shall
collect from each participating school district and educational service
district an amount equal to the insurance benefit allocations provided
in section 504 of this act, plus any additional funding provided by the
legislature for school employee health benefits, plus an amount equal
to the employee premiums by plan and family size as would be charged to
state employees, for groups of district employees enrolled in authority
plans as of July 1, 2005.

(b) For all groups of district employees enrolling in authority
plans for the first time after September 1, 2003, the authority shall
collect from each participating school district an amount equal to the
composite rate charged to state agencies, plus an amount equal to the
employee premiums by plan and by family size as would be charged to
state employees, only if the authority determines that this method of
billing the districts will not result in a material difference between
revenues from districts and expenditures made by the authority on
behalf of districts and their employees.

(c) If the authority determines at any time that the conditions in
(b) of this subsection cannot be met, the authority shall offer
enrollment to additional groups of district employees on a tiered rate
structure until such time as the authority determines there would be no
material difference between revenues and expenditures under a composite
rate structure for all district employees enrolled in authority plans.

(d) The authority may charge districts a one-time set-up fee for
employee groups enrolling in authority plans for the first time.

(e) For the purposes of this subsection:
(i) "District" means school district and educational service
district; and
(ii) "Tiered rates" means the amounts the authority must pay to
insuring entities by plan and by family size.

(f) Notwithstanding this subsection and RCW 41.05.065(3), the
authority may allow districts enrolled on a tiered rate structure prior
to September 1, 2002, to continue participation based on the same rate
structure and under the same conditions and eligibility criteria.

(5) The authority shall transmit a recommendation for the amount of
the employer contribution to the governor and the director of financial
management for inclusion in the proposed budgets submitted to the
legislature.

Sec. 916. RCW 41.05.120 and 1994 c 153 s 9 are each amended to
read as follows:

established in the custody of the state treasurer, to be used by the
administrator for the deposit of contributions, the remittance paid by
school districts and educational service districts ((under RCW
28A.400.400)), reserves, dividends, and refunds, and for payment of
premiums for employee and retiree insurance benefit contracts and
subsidy amounts provided under RCW 41.05.085. Moneys from the account
shall be disbursed by the state treasurer by warrants on vouchers duly
authorized by the administrator.

(2) The state treasurer and the state investment board may invest
moneys in the public employees' and retirees' insurance account. All
such investments shall be in accordance with RCW 43.84.080 or
43.84.150, whichever is applicable. The administrator shall determine
whether the state treasurer or the state investment board or both shall
invest moneys in the public employees' insurance account.

(3) During the 2005-07 fiscal biennium, the legislature may
transfer from the public employees' and retirees' insurance account
such amounts as reflect the excess fund balance of the fund.

Sec. 917. RCW 41.50.110 and 2003 1st sp.s. c 25 s 914 are each
amended to read as follows:

(1) Except as provided by RCW 41.50.255 and subsection (6) of this
section, all expenses of the administration of the department, the
expenses of administration of the retirement systems, and the expenses
of the administration of the office of the state actuary created in
chapters 2.10, 2.12, 41.26, 41.32, 41.40, 41.34, 41.35, 43.43, and
44.44 RCW shall be paid from the department of retirement systems
expense fund.

(2) In order to reimburse the department of retirement systems
expense fund on an equitable basis the department shall ascertain and
report to each employer, as defined in RCW 41.26.030, 41.32.010,
41.35.010, or 41.40.010, the sum necessary to defray its proportional
share of the entire expense of the administration of the retirement system that the employer participates in during the ensuing biennium or fiscal year whichever may be required. Such sum is to be computed in an amount directly proportional to the estimated entire expense of the administration as the ratio of monthly salaries of the employer's members bears to the total salaries of all members in the entire system. It shall then be the duty of all such employers to include in their budgets or otherwise provide the amounts so required.

(3) The department shall compute and bill each employer, as defined in RCW 41.26.030, 41.32.010, 41.35.010, or 41.40.010, at the end of each month for the amount due for that month to the department of retirement systems expense fund and the same shall be paid as are its other obligations. Such computation as to each employer shall be made on a percentage rate of salary established by the department. However, the department may at its discretion establish a system of billing based upon calendar year quarters in which event the said billing shall be at the end of each such quarter.

(4) The director may adjust the expense fund contribution rate for each system at any time when necessary to reflect unanticipated costs or savings in administering the department.

(5) An employer who fails to submit timely and accurate reports to the department may be assessed an additional fee related to the increased costs incurred by the department in processing the deficient reports. Fees paid under this subsection shall be deposited in the retirement system expense fund.

(a) Every six months the department shall determine the amount of an employer's fee by reviewing the timeliness and accuracy of the reports submitted by the employer in the preceding six months. If those reports were not both timely and accurate the department may prospectively assess an additional fee under this subsection.

(b) An additional fee assessed by the department under this subsection shall not exceed fifty percent of the standard fee.

(c) The department shall adopt rules implementing this section.

(6) Expenses other than those under RCW 41.34.060(3) shall be paid pursuant to subsection (1) of this section.

(7) During the (2003–) 2005-2007 fiscal biennium, the legislature may transfer from the department of retirement systems' expense fund to
the state general fund such amounts as reflect the excess fund balance
of the fund.

Sec. 918. RCW 41.50.110 and 2004 c 242 s 46 are each amended to
read as follows:

(1) Except as provided by RCW 41.50.255 and subsection (6) of this
section, all expenses of the administration of the department, the
expenses of administration of the retirement systems, and the expenses
of the administration of the office of the state actuary created in
chapters 2.10, 2.12, 41.26, 41.32, 41.40, 41.34, 41.35, 41.37, 43.43,
and 44.44 RCW shall be paid from the department of retirement systems
expense fund.

(2) In order to reimburse the department of retirement systems
expense fund on an equitable basis the department shall ascertain and
report to each employer, as defined in RCW 41.26.030, 41.32.010,
41.35.010, 41.37.010, or 41.40.010, the sum necessary to defray its
proportional share of the entire expense of the administration of the
retirement system that the employer participates in during the ensuing
biennium or fiscal year whichever may be required. Such sum is to be
computed in an amount directly proportional to the estimated entire
expense of the administration as the ratio of monthly salaries of the
employer's members bears to the total salaries of all members in the
entire system. It shall then be the duty of all such employers to
include in their budgets or otherwise provide the amounts so required.

(3) The department shall compute and bill each employer, as defined
in RCW 41.26.030, 41.32.010, 41.35.010, 41.37.010, or 41.40.010, at the
end of each month for the amount due for that month to the department
of retirement systems expense fund and the same shall be paid as are
its other obligations. Such computation as to each employer shall be
made on a percentage rate of salary established by the department.
However, the department may at its discretion establish a system of
billing based upon calendar year quarters in which event the said
billing shall be at the end of each such quarter.

(4) The director may adjust the expense fund contribution rate for
each system at any time when necessary to reflect unanticipated costs
or savings in administering the department.

(5) An employer who fails to submit timely and accurate reports to
the department may be assessed an additional fee related to the
increased costs incurred by the department in processing the deficient reports. Fees paid under this subsection shall be deposited in the retirement system expense fund.

(a) Every six months the department shall determine the amount of an employer's fee by reviewing the timeliness and accuracy of the reports submitted by the employer in the preceding six months. If those reports were not both timely and accurate the department may prospectively assess an additional fee under this subsection.

(b) An additional fee assessed by the department under this subsection shall not exceed fifty percent of the standard fee.

(c) The department shall adopt rules implementing this section.

(6) Expenses other than those under RCW 41.34.060(3) shall be paid pursuant to subsection (1) of this section.

(7) During the (2003-) 2005-2007 fiscal biennium, the legislature may transfer from the department of retirement systems' expense fund to the state general fund such amounts as reflect the excess fund balance of the fund.

Sec. 919. RCW 43.07.130 and 1994 c 211 s 1311 are each amended to read as follows:

There is created within the state treasury a revolving fund, to be known as the "secretary of state's revolving fund," which shall be used by the office of the secretary of state to defray the costs of printing, reprinting, or distributing printed matter authorized by law to be issued by the office of the secretary of state, and any other cost of carrying out the functions of the secretary of state under Title 23B RCW, or chapters 18.100, 23.86, 23.90, 24.03, 24.06, 24.12, 24.20, 24.24, 24.28, 24.36, 25.15, or 25.10 RCW.

During the 2005-2007 fiscal biennium, the legislature may transfer
from the secretary of state's revolving fund to the state general fund
such amounts as reflect the excess fund balance of the fund.

amended to read as follows:

There is hereby created a fund within the state treasury to be
known as the "state treasurer's service fund". Such fund shall be used
solely for the payment of costs and expenses incurred in the operation
and administration of the state treasurer's office.

treasurer's service fund equivalent to a maximum of one percent of the
trust and treasury average daily cash balances from the earnings
generated under the authority of RCW 43.79A.040 and 43.84.080 other

The allocation shall precede the distribution of the remaining earnings
as prescribed under RCW 43.79A.040 and 43.84.092. The state treasurer
shall establish a uniform allocation rate based on the appropriations
for the treasurer's office.

During the ((2003-)) 2005-2007 fiscal biennium, the legislature may
transfer from the state treasurer's service fund to the state general

(4) During the 2005-07 fiscal biennium, the legislature may appropriate moneys in the health professions account for the purpose of grants to a central nursing resource center.

Sec. 925. RCW 43.72.900 and 2003 c 259 s 1 are each amended to read as follows:

(1) The health services account is created in the state treasury.
Moneys in the account may be spent only after appropriation. Subject to the transfers described in subsection (3) of this section, moneys in the account may be expended only for maintaining and expanding health services access for low-income residents, maintaining and expanding the public health system, maintaining and improving the capacity of the health care system, containing health care costs, and the regulation, planning, and administering of the health care system.

(2) Funds deposited into the health services account under RCW 82.24.028 and 82.26.028 shall be used solely as follows:

(a) Five million dollars for the state fiscal year beginning July 1, 2002, and five million dollars for the state fiscal year beginning July 1, 2003, shall be appropriated by the legislature for programs that effectively improve the health of low-income persons, including efforts to reduce diseases and illnesses that harm low-income persons. The department of health shall submit a report to the legislature on March 1, 2002, evaluating the cost-effectiveness of programs that improve the health of low-income persons and address diseases and illnesses that disproportionately affect low-income persons, and making recommendations to the legislature on which of these programs could most effectively utilize the funds appropriated under this subsection.

(b) Ten percent of the funds deposited into the health services account under RCW 82.24.028 and 82.26.028 remaining after the appropriation under (a) of this subsection shall be transferred no less frequently than annually by the treasurer to the tobacco prevention and control account established by RCW 43.79.480. The funds transferred shall be used exclusively for implementation of the Washington state tobacco prevention and control plan and shall be used only to supplement, and not supplant, funds in the tobacco prevention and control account as of January 1, 2001, however, these funds may be used to replace funds appropriated by the legislature for further implementation of the Washington state tobacco prevention and control plan for the biennium beginning July 1, 2001. For each state fiscal year beginning on and after July 1, 2002, the legislature shall appropriate no less than twenty-six million two hundred forty thousand dollars from the tobacco prevention and control account for implementation of the Washington state tobacco prevention and control plan.
Because of its demonstrated effectiveness in improving the health of low-income persons and addressing illnesses and diseases that harm low-income persons, the remainder of the funds deposited into the health services account under RCW 82.24.028 and 82.26.028 shall be appropriated solely for Washington basic health plan enrollment as provided in chapter 70.47 RCW. Funds appropriated under this subsection may be used to support outreach and enrollment activities only to the extent necessary to achieve the enrollment goals described in this section.

Prior to expenditure for the purposes described in subsection (2) of this section, funds deposited into the health services account under RCW 82.24.028 and 82.26.028 shall first be transferred to the following accounts to ensure the continued availability of previously dedicated revenues for certain existing programs:

(a) To the violence reduction and drug enforcement account under RCW 69.50.520, two million two hundred forty-nine thousand five hundred dollars for the state fiscal year beginning July 1, 2001, four million two hundred forty-eight thousand dollars for the state fiscal year beginning July 1, 2002, seven million seven hundred eighty-nine thousand dollars for the biennium beginning July 1, 2003, six million nine hundred thirty-two thousand dollars for the biennium beginning July 1, 2005, and six million nine hundred thirty-two thousand dollars for each biennium thereafter, as required by RCW 82.24.020(2);

thousand dollars for the biennium beginning July 1, 2005, and seven
million eight hundred eighty-five thousand dollars for each biennium
thereafter, as required by RCW 82.24.027(2)(a).

During the ((2001-2003)) 2005-2007 fiscal biennium, the legislature
may transfer from the health services account such amounts as reflect
the excess fund balance of the account to the state general fund.

Sec. 926. RCW 43.320.110 and 2003 1st sp.s. c 25 s 921 and 2003 c
288 s 1 are each reenacted and amended to read as follows:

There is created a local fund known as the "financial services
regulation fund" which shall consist of all moneys received by the
divisions of the department of financial institutions, except for the
division of securities which shall deposit thirteen percent of all
moneys received, except as provided in RCW 43.320.115, and which shall
be used for the purchase of supplies and necessary equipment; the
payment of salaries, wages, and utilities; the establishment of
reserves; and other incidental costs required for the proper regulation
of individuals and entities subject to regulation by the department.
The state treasurer shall be the custodian of the fund. Disbursements
from the fund shall be on authorization of the director of financial
institutions or the director's designee. In order to maintain an
effective expenditure and revenue control, the fund shall be subject in
all respects to chapter 43.88 RCW, but no appropriation is required to
permit expenditures and payment of obligations from the fund.

During the 2005-2007 fiscal biennium, the legislature may transfer
from the financial services regulation fund to the state general fund
such amounts as reflect the excess fund balance of the fund.

Sec. 927. RCW 50.20.190 and 2003 2nd sp.s. c 4 s 26 are each
amended to read as follows:

(1) An individual who is paid any amount as benefits under this
title to which he or she is not entitled shall, unless otherwise
relieved pursuant to this section, be liable for repayment of the
amount overpaid. The department shall issue an overpayment assessment
setting forth the reasons for and the amount of the overpayment. The
amount assessed, to the extent not collected, may be deducted from any
future benefits payable to the individual: PROVIDED, That in the
absence of a back pay award, a settlement affecting the allowance of
benefits, fraud, misrepresentation, or willful nondisclosure, every
determination of liability shall be mailed or personally served not
later than two years after the close of or final payment made on the
individual's applicable benefit year for which the purported
overpayment was made, whichever is later, unless the merits of the
claim are subjected to administrative or judicial review in which event
the period for serving the determination of liability shall be extended
to allow service of the determination of liability during the six-month
period following the final decision affecting the claim.

(2) The commissioner may waive an overpayment if the commissioner
finds that the overpayment was not the result of fraud,
misrepresentation, willful nondisclosure, or fault attributable to the
individual and that the recovery thereof would be against equity and
good conscience: PROVIDED, HOWEVER, That the overpayment so waived
shall be charged against the individual's applicable entitlement for
the eligibility period containing the weeks to which the overpayment
was attributed as though such benefits had been properly paid.

(3) Any assessment herein provided shall constitute a determination
of liability from which an appeal may be had in the same manner and to
the same extent as provided for appeals relating to determinations in
respect to claims for benefits: PROVIDED, That an appeal from any
determination covering overpayment only shall be deemed to be an appeal
from the determination which was the basis for establishing the
overpayment unless the merits involved in the issue set forth in such
determination have already been heard and passed upon by the appeal
tribunal. If no such appeal is taken to the appeal tribunal by the
individual within thirty days of the delivery of the notice of
determination of liability, or within thirty days of the mailing of the
notice of determination, whichever is the earlier, the determination of
liability shall be deemed conclusive and final. Whenever any such
notice of determination of liability becomes conclusive and final, the
commissioner, upon giving at least twenty days notice by certified mail
return receipt requested to the individual's last known address of the
intended action, may file with the superior court clerk of any county
within the state a warrant in the amount of the notice of determination
of liability plus a filing fee under RCW 36.18.012(10). The clerk of
the county where the warrant is filed shall immediately designate a
superior court cause number for the warrant, and the clerk shall cause
to be entered in the judgment docket under the superior court cause
number assigned to the warrant, the name of the person(s) mentioned in
the warrant, the amount of the notice of determination of liability,
and the date when the warrant was filed. The amount of the warrant as
docketed shall become a lien upon the title to, and any interest in,
all real and personal property of the person(s) against whom the
warrant is issued, the same as a judgment in a civil case duly docketed
in the office of such clerk. A warrant so docketed shall be sufficient
to support the issuance of writs of execution and writs of garnishment
in favor of the state in the manner provided by law for a civil
judgment. A copy of the warrant shall be mailed to the person(s)
mentioned in the warrant by certified mail to the person's last known
address within five days of its filing with the clerk.

(4) On request of any agency which administers an employment
security law of another state, the United States, or a foreign
government and which has found in accordance with the provisions of
such law that a claimant is liable to repay benefits received under
such law, the commissioner may collect the amount of such benefits from
the claimant to be refunded to the agency. In any case in which under
this section a claimant is liable to repay any amount to the agency of
another state, the United States, or a foreign government, such amounts
may be collected without interest by civil action in the name of the
commissioner acting as agent for such agency if the other state, the
United States, or the foreign government extends such collection rights
to the employment security department of the state of Washington, and
provided that the court costs be paid by the governmental agency
benefiting from such collection.

(5) Any employer who is a party to a back pay award or settlement
due to loss of wages shall, within thirty days of the award or
settlement, report to the department the amount of the award or
settlement, the name and social security number of the recipient of the
award or settlement, and the period for which it is awarded. When an
individual has been awarded or receives back pay, for benefit purposes
the amount of the back pay shall constitute wages paid in the period
for which it was awarded. For contribution purposes, the back pay
award or settlement shall constitute wages paid in the period in which
it was actually paid. The following requirements shall also apply:
(a) The employer shall reduce the amount of the back pay award or settlement by an amount determined by the department based upon the amount of unemployment benefits received by the recipient of the award or settlement during the period for which the back pay award or settlement was awarded;

(b) The employer shall pay to the unemployment compensation fund, in a manner specified by the commissioner, an amount equal to the amount of such reduction;

(c) The employer shall also pay to the department any taxes due for unemployment insurance purposes on the entire amount of the back pay award or settlement notwithstanding any reduction made pursuant to (a) of this subsection;

(d) If the employer fails to reduce the amount of the back pay award or settlement as required in (a) of this subsection, the department shall issue an overpayment assessment against the recipient of the award or settlement in the amount that the back pay award or settlement should have been reduced; and

(e) If the employer fails to pay to the department an amount equal to the reduction as required in (b) of this subsection, the department shall issue an assessment of liability against the employer which shall be collected pursuant to the procedures for collection of assessments provided herein and in RCW 50.24.110.

(6) When an individual fails to repay an overpayment assessment that is due and fails to arrange for satisfactory repayment terms, the commissioner shall impose an interest penalty of one percent per month of the outstanding balance. Interest shall accrue immediately on overpayments assessed pursuant to RCW 50.20.070 and shall be imposed when the assessment becomes final. For any other overpayment, interest shall accrue when the individual has missed two or more of the individual's monthly payments either partially or in full. The interest penalty shall be used, first, to fully fund either social security number cross-match audits or other more effective activities that ensure that individuals are entitled to all amounts of benefits that they are paid, second, to fund other detection and recovery of overpayment and collection activities and, third, during the 2005-07 fiscal biennium, to the cost of the job skills program and one-time funding associated with expanding curricula and enrollment in
high-demand fields by the community and technical colleges as appropriated by the legislature.

Sec. 928. RCW 50.16.010 and 2003 2nd sp.s. c 4 s 23 and 2003 1st sp.s. c 25 s 925 are each reenacted and amended to read as follows:

(1) There shall be maintained as special funds, separate and apart from all public moneys or funds of this state an unemployment compensation fund, an administrative contingency fund, and a federal interest payment fund, which shall be administered by the commissioner exclusively for the purposes of this title, and to which RCW 43.01.050 shall not be applicable.

(c) Moneys available in the administrative contingency fund, other than money in the special account created under RCW 50.24.014(1)(a), shall be expended upon the direction of the commissioner, with the approval of the governor, whenever it appears to him or her that such expenditure is necessary solely for:

(i) The proper administration of this title and no federal funds are available for the specific purpose to which such expenditure is to be made, provided, the moneys are not substituted for appropriations from federal funds which, in the absence of such moneys, would be made available.

(iii) The proper administration of this title for which compliance and audit issues have been identified that establish federal claims requiring the expenditure of state resources in resolution. Claims must be resolved in the following priority: First priority is to provide services to eligible participants within the state; second priority is to provide substitute services or program support; and last priority is the direct payment of funds to the federal government.

(d) During the (2003–2005) 2005–2007 fiscal biennium, the cost of the job skills program and (the alliance for corporate education at) one-time funding associated with expanding curricula and enrollment in high-demand fields by the community and technical colleges as appropriated by the legislature.

Effective no later than ((September 1, 2003)) July 1, 2005, the liquor control board shall add an equivalent surcharge of $0.42 per liter on all retail sales of spirits, excluding licensee, military, and tribal sales. The intent of this surcharge is to raise (($14,000,000 in additional) revenue for the general fund-state ((revenue)) for the ((2003-))2005-2007 biennium. ((To the extent that a lesser surcharge is sufficient to raise $14,000,000, the board may reduce the amount of the surcharge.) The board shall remove the surcharge ((once it generates $14,000,000, but no later than)) June 30, ((2005)) 2007.

(2) The liquor control board may, from time to time, fix the special price at which pure ethyl alcohol may be sold to physicians and dentists and institutions regularly conducted as hospitals, for use or consumption only in such hospitals; and may also fix the special price at which pure ethyl alcohol may be sold to schools, colleges and universities within the state for use for scientific purposes. Regularly conducted hospitals may have right to purchase pure ethyl alcohol on a federal permit.

(3) The liquor control board may also fix the special price at which pure ethyl alcohol may be sold to any department, branch or institution of the state of Washington, federal government, or to any person engaged in a manufacturing or industrial business or in scientific pursuits requiring alcohol for use therein.

(4) The liquor control board may also fix a special price at which pure ethyl alcohol may be sold to any private individual, and shall make regulations governing such sale of alcohol to private individuals as shall promote, as nearly as may be, the minimum purchase of such alcohol by such persons.

department to account for the greatest return on investment in terms of
reaching a zero litter goal.

(4) During the 2005-2007 fiscal biennium, the legislature may
transfer from the waste reduction, recycling, and litter control
account to the state general fund such amounts as reflect the excess

(xi) Public funding to assist potentially liable persons to pay for the costs of remedial action in compliance with cleanup standards under RCW 70.105D.030(2)(e) but only when the amount and terms of such funding are established under a settlement agreement under RCW 70.105D.040(4) and when the director has found that the funding will achieve both (A) a substantially more expeditious or enhanced cleanup than would otherwise occur, and (B) the prevention or mitigation of unfair economic hardship; and

(xii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority: (i) Remedial actions; (ii) hazardous waste plans and programs under chapter 70.105 RCW; (iii) solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW; (iv) funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and (v) cleanup and disposal of hazardous substances from abandoned or derelict vessels that pose a threat to human health or the environment. For purposes of this subsection (3)(a)(v), "abandoned or derelict vessels" means vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel. Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW. During the 1999-2001 fiscal biennium, moneys in the account may also be used
for the following activities: Conducting a study of whether dioxins occur in fertilizers, soil amendments, and soils; reviewing applications for registration of fertilizers; and conducting a study of plant uptake of metals. During the ((2003-05)) 2005-2007 fiscal biennium, the legislature may transfer from the local toxics control account to the state toxics control account such amounts as specified in the omnibus operating budget bill for methamphetamine lab cleanup. During the 2005-2007 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(b) Funds may also be appropriated to the department of health to implement programs to reduce testing requirements under the federal safe drinking water act for public water systems. The department of health shall reimburse the account from fees assessed under RCW 70.119A.115 by June 30, 1995.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation.
(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the 2005-2007 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect the excess fund balance of the fund.

For the period July 1, ((2003)) 2005, to June 30, ((2005)) 2007, moneys in the account may be used to process applications received by the department that seek to make changes to or transfer existing water rights, for water conveyance projects, and for grants and technical assistance to public bodies for watershed planning under chapter 90.82 RCW. No more than three percent of the moneys deposited in the account may be used by the department to pay for the administration of the grant and loan program authorized by this chapter.

(3) Beginning with the biennium ending June 30, 1997, the department shall present a biennial progress report on the use of moneys from the account to the chairs of the senate committee on ways

the pollution liability insurance program. The director shall notify
the department of revenue of this amount by the fifteenth day of each
calendar quarter. The director may immediately establish an initial
financial assistance reserve of five million dollars from available
revenues. The director may not expend more than fifteen million

(1) Payments for recipients eligible for medical assistance programs under this chapter for services provided by hospitals, regardless of the beneficiary's managed care enrollment status, shall be made based on allowable costs incurred during the year, when services are provided by a rural hospital certified by the health care financing administration as a critical access hospital. Any additional payments made by the medical assistance administration for the healthy options program shall be no more than the additional amounts per service paid under this section for other medical assistance programs.

(2) During the 2005-2007 fiscal biennium, a moratorium shall be placed on additional hospitals participating in the medical assistance program under chapter 74.09 RCW as described in subsection (1) of this section. (2) All component rate allocations for essential community providers as defined in this chapter shall be based upon a minimum facility occupancy of eighty-five percent of licensed beds, regardless of how many beds are set up or in use. For all facilities other than essential community providers, effective July 1, 2001, component rate
allocations in direct care, therapy care, support services, variable
return, operations, property, and financing allowance shall continue to
be based upon a minimum facility occupancy of eighty-five percent of

74.46.506(5)(i).

(c) Direct care component rate allocations based on 1999 cost
report data shall be adjusted annually for economic trends and

(13) Effective July 1, 2001, medicaid rates shall continue to be
revised downward in all components, in accordance with department
rules, for facilities converting banked beds to active service under

capacity to recalculate minimum occupancy for rate setting. However,
for facilities other than essential community providers which bank beds under chapter 70.38 RCW, after May 25, 2001, medicaid rates shall be revised upward, in accordance with department rules, in direct care, therapy care, support services, and variable return components only, by using the facility's decreased licensed bed capacity to recalculate minimum occupancy for rate setting, but no upward revision shall be made to operations, property, or financing allowance component rates.

(14) Facilities obtaining a certificate of need or a certificate of need exemption under chapter 70.38 RCW after June 30, 2001, must have a certificate of capital authorization in order for (a) the depreciation resulting from the capitalized addition to be included in calculation of the facility's property component rate allocation; and (b) the net invested funds associated with the capitalized addition to be included in calculation of the facility's financing allowance rate allocation.

be used both for management and performance assessment of the grants.
To the extent possible, the department should coordinate its
performance measure system with other natural resource-related agencies
