Housing Assistance, Weatherization, and Affordable Housing
(20074009)
The reappropriations in this section are subject to the following
conditions and limitations:
(1) Up to $9,000,000 of the reappropriations are provided solely
for weatherization administered through the energy matchmakers program.
(2) Up to $5,000,000 of the reappropriations are provided solely to
promote development of safe and affordable housing units for persons
eligible for services from the division of developmental disabilities
within the department of social and health services.
(3) Up to $2,500,000 of the reappropriations are provided solely
for grants to nonprofit organizations and public housing authorities
for revolving loan, self-help housing programs for low and moderate
income families.
(4) Up to $1,000,000 of the reappropriations are provided solely
for shelters, transitional housing, or other housing facilities for
victims of domestic violence.
(5) Up to $5,000,000 of the reappropriations are provided solely
for the development of emergency shelters and transitional housing
opportunities for homeless families with children.
(6) Up to $1,500,000 of the reappropriations are provided solely for the development of housing for low-income or homeless Native Americans. The department shall work with Native American tribes, not-for-profit organizations with experience in serving Native American populations, and Native American housing development organizations to prioritize projects located in the areas of highest identified need.

(7) Up to $4,000,000 of the reappropriations are provided solely for loans and grants to eligible organizations to purchase manufactured/mobile home communities with the intent of preserving the communities for affordable housing.

(8) Up to $10,000,000 of the reappropriations are for the creation and development of low-income housing within areas declared disasters by the governor after November 2007.

(9) Up to $2,000,000 of the reappropriation from the state taxable building construction account is provided solely for the development or preservation of farmworker housing for migrant and seasonal farmworkers located on private farms. This reappropriation is subject to appropriate agreements to protect the public investment. Any of this reappropriation that is not obligated by June 30, 2009, shall be added to the amount appropriated for the general pool of projects.

(10) The reappropriation in this section from the state building construction account shall be distributed as grants.

(11) Up to $250,000 of the reappropriation from the Washington housing trust account is provided solely to the city of Burien for housing related purposes.

(12) The reappropriations in this section must not be used for the administrative costs of the department. The amount of the reappropriation must be included in the calculation of annual funds available for determining the administrative costs authorized under RCW 43.185.050.

(13) Within available funding provided in this section, the department shall prepare an inventory of housing assistance programs. The inventory shall include all state funded programs, the housing finance commission programs, all programs funded by local governments and housing authorities, including a description of expenditures from fees and taxes specifically authorized by state law for housing assistance and homeless programs, all property tax and sales tax provisions that are intended to support housing assistance programs,
and all federally funded housing assistance programs provided in the
state. The inventory shall include a description of the program,
biennial appropriation and expenditure levels since the 1999-2001
biennium through the 2007-2009 biennium, a description of eligibility
criteria and the amount of benefit provided per unit or per family, and
the number of units or families assisted. The department shall
coordinate with the joint legislative audit and review committee to
reduce duplicative efforts that may be required by legislation.

(14)(a) Up to $10,000,000 of the reappropriations are provided
solely for the department to contract with the Washington state housing
finance commission to provide grants or loans to eligible
organizations, described under RCW 43.185A.040, to purchase land or
real property for affordable housing and community facilities
preservation or development in rapidly gentrifying neighborhoods,
redevelopment areas, or communities with a significant low-income
population that is threatened with displacement by such gentrification.
Loans or grants may be made to purchase land or real property for the
preservation or development of affordable housing or community
facilities, including reasonable costs and fees. The Washington state
housing finance commission's review and evaluation of projects for
loans and grants must include, but is not limited to the following:

(i) Consideration of mobile home parks facing closure; (ii) properties
in neighborhoods in King county that are facing gentrification or
redevelopment; and (iii) properties located in the city of Spokane that
are facing the threat of displacing low-income tenants due to the loss
of affordable housing rental units. The Washington state housing
finance commission, with approval from the department, may adopt
guidelines and requirements that are necessary to administer the
affordable housing and community facilities rapid response program. A
loan recipient must preserve affordable rental housing acquired or
developed under this section as affordable housing for a minimum of
thirty years. Interest rates on loans made under this section may be
as low as zero percent but may not exceed three percent. All loan
repayments must be deposited into the Washington housing trust account
and accounted for separately from other funds in the account.

(b) By December 1, 2009, the Washington state housing finance
commission shall report to the department and the appropriate
committees of the legislature: (i) The number of loans that were made
in the program; (ii) for what purposes the loans were made; (iii) to whom the loans were made; and (iv) when the loans are expected to be paid back.

(15) Up to $10,000,000 of the reappropriations are for the department to contract with the Washington state housing finance commission to administer the facilitation of nonprofit entities' use of tax-exempt multifamily bonds issued by the Washington state housing finance commission.

(16)(a) Up to $100,000 of the reappropriation from the Washington housing trust account is provided solely for the department to work in consultation with the affordable housing advisory board and representatives from nonprofit housing development organizations and affordable housing advocacy groups in the state to:

(i) Identify and analyze all costs associated with affordable housing development projects financed through the Washington housing trust fund under chapters 43.185 and 43.185A RCW, which may include, but are not limited to, costs associated with legal and architectural services, permitting and impact fees, land acquisition, and general construction costs;

(ii) Make recommendations for strategies, which must include recommendations for changes to public policy and department procedures, to reduce the costs identified in (a)(i) of this subsection; and

(iii) Make recommendations for potential performance measures appropriate for each strategy identified.

(b) In developing recommendations for strategies to reduce costs, the department shall analyze and address the fiscal impact of public policies of the state and of local governments, Washington housing trust fund policies, and general market forces on affordable housing development.

(c) The department shall report its findings and recommendations to the governor and to the appropriate committees of the legislature by September 30, 2009.

Innovation Partnership Zones (20082003)
The reappropriation in this section is subject to the following
conditions and limitations: The state will designate unique areas of
the state as innovation partnership zones, where globally competitive
companies, research institutions, and advanced training are creating
special competitive advantages for the state. From among the
innovation partnership zones, using a competitive process based on
need, estimated economic impact, geographic diversity, and local
matches, six zones or projects will be selected to receive funding.
The reappropriation is provided solely for shared telecommunications
within the zone, shared infrastructure and facilities, long-term
capital purchases, and up to 10 percent for zone administration through
the locally-designated innovation partnership zone administrator. It is the intent of the legislature that innovation partnership zone grants should consider the commercialization of inventions and innovations.

Community Schools Program (20084856)
The reappropriation in this section is subject to the following conditions and limitations:
(1) The reappropriation is provided solely for the acquisition, rehabilitation, expansion, or improvement of surplus school buildings to be converted into community facilities for the delivery of nonresidential coordinated services for children and families.
(2) Eligible applicants include local governments, nonprofit organizations, nonprofit early learning providers, and tribal governments. Only the following surplus schools may be eligible for grant funding under this section: (a) Allen school; (b) Crown Hill school; (c) Fauntleroy school; (d) University Heights school; (e) Martin Luther King elementary school; and (f) Lincoln high school north wing.
(3) As part of the grant process, applicants must submit a comprehensive plan for the use of the surplus school that includes information on the following:
(a) A list of partner entities that will assist the lead eligible applicant to provide or coordinate services for children and families;
(b) A memorandum of understanding between the lead eligible applicant and each partner; and
(c) An examination of capital and operating funding sources that applicants intend to apply to the project and coordinated services at
each school to be served, whether such funding is derived from grants under this section or from other federal, state, local, or private sources.

(4) Project applicants must demonstrate that the proposed project is ready to proceed, will make timely use of the funds, and requires state funding to accomplish a discrete, usable phase of the project that may include acquisition.

(5) If grant funds under this subsection are used for the acquisition of surplus school facilities, the sale proceeds must be used by the local school board disposing of such property for renovation, replacement, or new construction of school facilities in the district, but shall not be used as local match for projects receiving state school construction assistance grants.

(6) In contracts for grants authorized under this subsection, the department shall include provisions that require that capital improvements must be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities must be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

Housing Assistance, Weatherization, and Affordable Housing
(30000013)

The appropriations in this section are subject to the following
conditions and limitations:

1. Up to $1,500,000 of the Washington housing trust account
 appropriation may be used for administration costs as defined in
 chapter . . . (Substitute House Bill No. 1250 (concerning the housing
 trust fund)), Laws of 2009. If the bill is not enacted by June 30,
 2009, the requirements in this subsection shall lapse.
2. $10,000 of the appropriations are provided solely to the
 Ballard food bank/Ballard homes for all coalition for the construction
 of a mobile camp facility.
3. The legislature recognizes and supports the housing priorities
 reflected in the American Recovery and Reinvestment Act of 2009 with
 the estimated amount of $144,000,000 provided solely for the following
 programs:
   a. The Community Development Fund's Neighborhood Stabilization
      Fund to purchase and rehabilitate foreclosed vacant properties and to
      help create affordable housing and stabilize neighborhoods.
   b. The Public Housing Capital Fund to assist housing authorities
      build and rehabilitate low-income housing stock. Housing authorities
      are required to give priority consideration to the rehabilitation of
      vacant rental units and capital projects that are already underway or
      included in the five-year capital fund plans.
   c. HOME funding to the Washington State Housing Finance Commission
      for a competitive program pursuant to the qualified allocation plan to
      owners of projects who have received or receive simultaneously an award
      of low-income housing tax credits under section 42(h) of the Internal
   d. Weatherization appropriated in section 1047 of this act for
      grants and loans to local energy programs for weatherization of
      multifamily and single family homes.
(4) $5,000,000 of the appropriation from the state building construction account is provided solely to build low-income housing units in underserved communities and to concurrently develop capacity in these same communities. Underserved communities of concern are those that have high levels of poverty, specifically, thirty percent of the local median income; experience chronic homelessness; and lack affordable housing. Underserved communities include veterans, immigrants, refugees, and those communities of color disproportionately impacted by chronic homelessness and lack of affordable housing. The department shall collaborate with representatives of underserved communities and organizations committed to assistance in these efforts to prioritize and plan distribution of funding.

(5) The department of community, trade, and economic development shall not:
   (a) With the debt limit bonds provided in this section, make float loans, bridge loans, or other short-term loans; or
   (b) Encumber or expend any of the funds appropriated in this section beyond the amounts appropriated, consistent with the provisions of RCW 43.88.260.

NEW SECTION. Sec. 1045. FOR THE DEPARTMENT OF COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT

Local and Community Projects (30000019)

The appropriation in this section is subject to the following conditions and limitations:

(1) Except as otherwise directed before the effective date of this section, the department shall not expend the appropriations in this section unless and until the nonstate share of project costs have been
expended, or firmly committed, or both, in an amount sufficient to
complete the project or a distinct phase of the project that is useable
to the public for the purpose intended by the legislature.

(2) Prior to receiving funds, project recipients must demonstrate
that the project site is under control for a minimum of ten years,
either through ownership or a long-term lease. This requirement does
not apply to appropriations for preconstruction activities or
appropriations whose sole purpose is to purchase real property that
does not include a construction or renovation component.

(3) Projects funded in this section may be required to comply with
Washington's high performance building standards as required by chapter
39.35D RCW.

(4) Project funds are available on a reimbursement basis only, and
shall not be advanced under any circumstances.

(5) Projects funded in this section must be held by the recipient
for a minimum of ten years and used for the same purpose or purposes
intended by the legislature as required in RCW 43.63A.125(2)(c).

(6) Projects funded in this section, including those that are owned
and operated by nonprofit organizations, are generally required to pay
state prevailing wages.

NEW SECTION. Sec. 1049. FOR THE DEPARTMENT OF COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT
Community Schools (91000002)

The appropriation in this section is subject to the following
conditions and limitations: The appropriation in this section is provided solely for the following:

(1) The implementation of chapter . . . (Second Substitute House Bill No. 1618 (concerning community and surplus schools)), Laws of 2009. If the bill is not enacted by June 30, 2009, the requirements in this subsection shall lapse.

(2) The acquisition, rehabilitation, expansion, or improvement of surplus school buildings to be converted into community facilities for the delivery of nonresidential coordinated services for children and families.

(a) Eligible applicants include local governments, nonprofit organizations, nonprofit early learning providers, and tribal governments. Only the following surplus schools may be eligible for grant funding under this section: Fauntleroy school, University Heights school, and Martin Luther King elementary school.

(b) As part of the grant process, applicants must submit a comprehensive plan for the use of the surplus school that includes information on the following:

(i) A list of partner entities that will assist the lead eligible applicant to provide or coordinate services for children and families;

(ii) A memorandum of understanding between the lead eligible applicant and each partner; and

(iii) An examination of capital and operating funding sources that applicants intend to apply to the project and coordinated services at each school to be served, whether such funding is derived from grants under this section or from other federal, state, local, or private sources.

(c) Project applicants must demonstrate that the proposed project is ready to proceed, will make timely use of the funds, and requires state funding to accomplish a discrete, usable phase of the project that may include acquisition.

(d) If grant funds under this subsection are used for the acquisition of surplus school facilities, the sale proceeds must be used by the local school board disposing of such property for renovation, replacement, or new construction of school facilities in the district, but shall not be used as local match for projects receiving state school construction assistance grants.
(e) In contracts for grants authorized under this subsection, the department shall include provisions that require that capital improvements must be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities must be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

(3) The construction of a non-mobile facility, accessible to students in central and eastern Washington for the purpose of financial literacy education, for the eastern and western Washington junior achievement world initiative.

hospitality/hotel industry resulting from the convention place station
expansion; (b) career opportunities for local residents and communities
experiencing high unemployment; (c) the promotion of positive labor
relations in order to protect the government's financial investment;
(d) a projection of revenue sources and amounts created from the
project; and (e) a competitive bidding process for the selection of a
hotel developer and operator in potential hotel projects.

(3) The convention and trade center corporation shall provide an
interim report to the fiscal committees of the house of representatives
and the senate by October 15, 2009, and a final report to the fiscal
committees of the house of representatives and the senate by January 1,
2010. The reports must include anticipated costs to construct and
equip the proposed convention place station expansion and an outline of
the plan described in subsection (2) of this section.

Low Impact Development for Storm Water Management (20062006)
The reappropriation in this section is subject to the following conditions and limitations: The reappropriation is provided solely for
grants to local governments in Puget Sound to fund innovative, low-impact development storm water management projects to meet critical storm water management needs and protect or restore water quality. Projects may include use of bioretention, rainwater harvest, permeable pavement, vegetated roofs, and other low-impact development techniques. Projects funded in Puget Sound must meet the design guidelines contained in the low-impact development technical guidance manual for Puget Sound, unless the municipality can demonstrate that site conditions warrant a deviation from the design guidelines and the deviations in design provide similar performance. All projects must include performance monitoring.

Water Pollution Control Revolving Account (20064002)

The reappropriations in this section are subject to the following conditions and limitations:

(1) The department must give priority loan funding consideration to on-site septic system rehabilitation and replacement programs in Mason, Kitsap, and Jefferson counties for up to $1,000,000 from the water pollution control revolving account--state in the second year of the funding cycle.

(2) Up to $5,000,000 of the water pollution control revolving account--state reappropriation is for loans for on-site sewage replacement. This reappropriation may be used to: (a) Establish new or expand existing on-site sewage repair and replacement loan programs by county governments or tribes; or (b) develop a pilot program to administer an on-site sewage repair and replacement loan program through a qualified private or nonprofit lending institution. This reappropriation must be used in conjunction with water quality capital account--state reappropriation in section 3015 of this act provided for this purpose. The department must work with the department of health, the Puget Sound water quality action team, local governments, and the lending industry in developing and piloting this program.

Transfer of Water Rights for Cabin Owners (20081951)

The reappropriation in this section is subject to the following
conditions and limitations: The reappropriation is provided solely for
the purchase of water for domestic water users in the Yakima Basin
(Water Resource Inventory Areas 37, 38, and 39) that have a surface
water right with a priority date later than May 10, 1905, as well as
for all out-of-priority surface water users in the Yakima Basin. A
portion of the reappropriation may be used for administrative and other
costs associated with acquiring and transferring the water rights. The
department must recover all costs from participating domestic water
users for their prorated portion of the cost of securing a water right
or rights for this purpose and associated annual operational costs owed
to the United States bureau of reclamation. Funds recovered in this
manner shall be placed in the drought preparedness account.

Yakima River Basin Water Storage Feasibility Study (20084026)

The reappropriation and the appropriation in this section are
subject to the following conditions and limitations: The
reappropriation and the appropriation are provided solely for
completion of the United States bureau of reclamation's Yakima Basin
storage feasibility study, including the associated joint national
environmental policy act, the state environmental policy act, and environmental impact statement. The appropriated funds are to be used by the bureau of reclamation and the department of ecology to evaluate potential in basin storage facilities such as the proposed Black Rock and Wymer reservoirs and other reasonable alternatives that will enhance water supply in the Yakima Basin.

Watershed Plan Implementation and Flow Achievement (20084029)

The reappropriation in this section is subject to the following conditions and limitations: The reappropriation is provided solely for grants for projects that improve water supplies and help achieve instream flows by implementing watershed plans, as follows:

(1) Surface or ground water storage projects, where such projects are consistent with the recommendations of the water storage task force. The department shall consult the departments of agriculture and fish and wildlife before issuing water storage grants.

(2) Infrastructure or water management projects that resolve conflicts among water needs for municipal, agricultural, rural, and fish restoration purposes. The stream flow improvements and other public benefits secured from these projects must be commensurate with the investment of state funds.
(3) Agricultural water supply projects that improve water conservation and water use efficiency.

(4) Purchase and installation of water measuring devices in salmon critical basins and areas participating in the department of fish and wildlife fish screening and cooperative compliance program, and basins where watershed plans call for additional water use measurement.

(5) Acquisition of water to achieve instream flows or to establish water banks. The department must give priority to acquisitions in salmon critical basins. The department must place acquired water into the state's trust water rights program (chapters 90.38 and 90.42 RCW).

(6) Up to $200,000 of the reappropriation is provided solely for a portion of the costs of the Ahtanum creek watershed restoration program, including construction of the Pine Hollow reservoir, provided there is agreement among the Yakama nation, Ahtanum irrigation district, and other jurisdictional federal, state, and local agencies and entities to proceed with the environmental impact statement.

(7) Up to $560,000 is provided solely for the Chehalis watershed.

(8) Up to $300,000 is provided solely for a grant to the Nisqually river foundation to support the watershed conservation plan, low-impact development program, and Nisqually river education program.

(9) Up to $1,200,000 of the reappropriation is provided solely for grants to lead local government entities for planning unit administrative support to watershed planning units. Such grants must be provided only to those entities that have completed, approved plans that are actively being implemented. Grant amounts will range from $30,000 to $60,000, based on criteria to be developed by the department. Criteria should consider factors including complexity of water issues, geographical size, population growth pressure, rate of plan implementation, and others issues to be determined by the department.

Flood Protection Study (20082855)

The reappropriation in this section is subject to the following conditions and limitations: The reappropriation in this section is provided solely for the department to conduct a study to determine the number of decertified levees in the state and to identify strategies for recertifying the levees so that they provide optimum protection for the communities protected by the levees. The department must prioritize areas to include in the study based on population and the economic impact of potential flood damage.

The study must include the following components:

(1) A working group of levee managers to advise and inform the study;
(2) A technical review of the structural integrity of levee systems;
(3) An inventory, map, and rate the effectiveness of existing levee systems; and
(4) The development of strategies and actions needed to improve the existing levee system and to ensure certification by the United States army corps of engineers for one-hundred year flood protection.

The study must be completed and a report provided to the appropriate legislative committees by July 1, 2010.

Washington Wildlife and Recreation Program (20064002)

The reappropriations in this section are subject to the following conditions and limitations:

(1) The reappropriations are provided solely for the approved list of projects in LEAP capital document No. 2005-14 as developed on April 9, 2005.

(2) Funds reappropriated for distribution according to RCW 79A.15.050 must fulfill the uses and restrictions of each category whether the funds are distributed according to the statutory allotment, the unallocated distribution, or a reassignment of reappropriations. If the cumulative total for acquisition projects is less than the statutory requirement, the difference may be allocated to the remaining development projects.

(3) Funds reappropriated for distribution according to the provisions of RCW 79A.15.040(1)(c) must be allocated forty percent to local government projects and sixty percent to state agency projects. If the cumulative total of local government projects is less than forty percent of the total distribution to this category, the difference may be allocated to state agency projects.

**Nonhighway and Off-Road Vehicle Activities Program (20064004)**

The reappropriation in this section is subject to the following conditions and limitations: Up to $100,000 of the reappropriation is for the following studies:

1. The board must prepare cost estimates for creating a database of motorized and nonmotorized off-road trails and facilities in Washington state. The cost estimate shall consider the possibility of a database that allows the downloading of maps formatted for the most widely used global positioning system devices, including the feasibility and cost to make global positioning system maps readily available for all users of Washington recreational lands and facilities. For this purpose, available global positioning system maps shall include global positioning system maps developed by state agencies, by federal agencies, and proprietary maps offered by private companies.

2. The board must recommend a program for enhanced education and enforcement regarding excessive noise from off-road vehicles. The study must include a review of relevant existing laws and regulations. The recommendations must address the appropriate equipment needed for enforcement, model ordinances, enhanced educational strategies, and a
proposed grant program to assist local governments to more effectively reduce the impact of excessive off-road vehicle noise in rural residential neighborhoods and nonresidential areas, including consideration of grant programs for planning departments, code enforcement departments, health departments, or other entities of local government.

Washington Wildlife Recreation Grants (20084011)

The reappropriations in this section are subject to the following conditions and limitations:

(1) The reappropriations are provided solely for the approved list of projects in LEAP capital document No. 2007-3 as developed on March 17, 2007, and LEAP capital document No. 2008-1 as developed on February 13, 2008.

(2) If additional funds are available after funding the farmlands preservation account projects approved in subsection (1) of this section, the committee may: Provide one-time grants of up to $25,000 each to counties requesting assistance in developing farmlands preservation strategies for the purpose of seeking grants from the farmlands preservation account in future grant cycles.

(3) Funds reappropriated for distribution according to the provisions of RCW 79A.15.040(1)(c) must be allocated forty percent to local government projects and sixty percent to state agency projects. If the cumulative total of local government projects is less than forty percent of the total distribution to this category, the difference may be allocated to state agency projects.

(4) Up to $627,299 of the reappropriation from the riparian protection account is provided solely for the Chehalis river surge plain natural area preserve. This amount may not be expended for the project until the department of natural resources has completed a management plan for the preserve that maintains recreational access and that management plan is presented to the house of representatives capital budget and senate ways and means committees.

Puget Sound Acquisition and Restoration (30000080)

The appropriation in this section is subject to the following conditions and limitations:
(1) The appropriation is provided solely to protect and restore habitat in Puget Sound with a focus on acquiring and protecting critical habitat and restoring habitat function.

(2) Only projects on approved watershed three-year work plans or specified in the Puget Sound action agenda are eligible for funding. Projects approved must advance the priorities of the Puget Sound salmon recovery plan, the Hood Canal summer chum plan, or the action agenda.

(3) The salmon recovery funding board shall award grants pursuant to a prioritized list submitted by the leadership council of the Puget Sound partnership. The list shall be based upon recommendations made by the Puget Sound salmon recovery council and the Hood Canal coordinating council. The technical review panel of the salmon recovery funding board shall conduct final design review and advise the board on project selection.

(4) The recreation and conservation office shall administer these grants and shall retain three percent for administrative purposes. The partnership and the recreation and conservation office may negotiate an additional amount not to exceed six percent to cover costs incurred by lead entities and the partnership to recruit, review, and prioritize these projects.

(5) An equitable share of the cost of the technical review panel of the salmon recovery funding board shall be paid from this appropriation to conduct final design review and advise the salmon recovery funding board and the partnership of its views on proposed projects.

(6) By September 15, 2010, the Puget Sound partnership leadership council shall submit a list of proposed projects to the office of financial management for the 2011-2013 biennium.

The appropriation in this section is subject to the following conditions and limitations:

1. The appropriation is provided solely to restore nearshore habitat and estuaries in Puget Sound. The focus shall be on protecting and restoring natural nearshore processes, including protection and restoration of beach sediments and removal of existing bulkheads.

2. The recreation and conservation office shall award grants pursuant to a prioritized list submitted by the leadership council of the Puget Sound partnership. Project evaluation criteria shall be developed in cooperation with the Puget Sound nearshore steering committee and the Puget Sound partnership. The criteria shall be consistent and aligned with the actions and priorities of the action agenda and the technical guidance developed by the Puget Sound nearshore science team.

3. Eligible projects must be within Puget Sound and identified in a current salmon recovery, watershed, nearshore habitat restoration and protection plan or the Puget Sound partnership 2020 action agenda.

4. The recreation and conservation office shall retain three percent for administrative purposes.

Puget Sound Initiative - Nearshore Salmon Restoration (20062001)

The reappropriations in this section are subject to the following conditions and limitations:
(1) The reappropriations in this section are provided solely for efforts to restore nearshore habitat and estuaries in Puget Sound. The department of fish and wildlife must focus on restoring natural nearshore processes, including protection and restoration of beach sediments and removal of existing bulkheads.
(2) The department of fish and wildlife shall provide the Puget Sound partnership, as created by chapter 341, Laws of 2007 the opportunity to review and provide comment on proposed projects and activities recommended for funding. This review must be consistent with the funding schedule for the program.
(3) Funded projects require a nonstate match or in-kind contributions. The department of fish and wildlife must seek to maximize the amount of nonstate match from local, state, tribal, and federal partners. Individual projects require a minimum 33 percent cash or in-kind match.
(4) Eligible projects must be within Puget Sound and identified by a salmon recovery lead entity or marine resource committee and identified in a current salmon recovery, watershed, or nearshore habitat restoration and protection plan.
(5) Project evaluation criteria must be developed by the Puget Sound nearshore steering committee. The criteria must be consistent with the technical guidance developed by the Puget Sound nearshore science team and shall be coordinated with the salmon recovery funding board to ensure that project funding and matching requirements are maximized to the greatest extent possible.
(6) The department of fish and wildlife must not utilize any amount of this reappropriation to support administration or overhead. Funding to support the administration of the funds and the implementation of selected projects must be obtained from the department of fish and wildlife's operating budget.

(7) In recognition of the urgent need to complete the Puget Sound nearshore ecosystem restoration project general investigation, up to $723,000 of this reappropriation may be used to match federal funds implementing the cost-share agreement between the department and the United States army corps of engineers.

(8) Up to $2,698,735 of the reappropriation is provided solely for the following projects:

Land Bank (30000050)

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for acquisition of working forest lands at risk of conversion to nonforest uses and working natural resource lands that will protect and enhance the value of trust land holdings. The legislature finds that the chronic loss of working forest lands threatens the long-term prospects of the timber products and other natural resource industries, which in turn threatens the long-term economic return for the beneficiaries of state trust lands. Acquisition of these lands is intended to help stabilize the primary source of revenue to trust land beneficiaries. The department shall submit a report to the appropriate committees of the legislature by October 1, 2010, and every two years thereafter, indicating the lands purchased under this section, showing the locations, acres, purchase price, and within that purchase price, the value of the property attributed to the future value of timber harvests given an expected rate of return for timber lands, and the value of the property attributed to future development of the property. It is the intent of the legislature to lease the development rights of these conversion lands and retain them as long-term working natural resource lands under the sustainable harvest plan. Working forest lands
acquired under this section shall be managed at a level equal to or greater than seventy-five percent of the expected harvest under the sustainable harvest plan.

NEW SECTION.  Sec. 3191.  FOR THE DEPARTMENT OF NATURAL RESOURCES

Trust Land Transfer (30000066)

The appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, housing and essential government services, or recreation purposes. The approved list of projects is identified in the LEAP capital document No. 2009-2, developed March 24, 2007.

(2) Property transferred under this section must be appraised and transferred at fair market value. The value of the timber transferred must be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The value of the land transferred must be deposited in the natural resources real property replacement account.
These funds shall be expended by the department for the exclusive purpose of acquiring working natural resource lands of equal value to be managed as common school trust land.

(3) Property subject to lease agreements under this section must be appraised at fair market value. Lease terms must be up to fifty years with options to renew for an additional fifty years. Lease payments must be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and must be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs, up to one percent of the appropriation, incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of
the property is not in the statewide interest of either the common
school trust or the receiving agency.

(8) The department shall execute trust land transfers that, after
the deduction of reasonable costs as provided in subsection (4) of this
section, eighty percent of the total value of transferred property is
timber value and is deposited in the common school construction
account. To achieve the eighty percent requirement, the department may
choose to lease properties originally intended as transfers.

(9) On June 30, 2011, the state treasurer shall transfer all
remaining uncommitted funds from this appropriation to the common
school construction account and the appropriations in this section
shall be reduced by an equivalent amount.

Higher Education Cost Escalation (20082850)
The reappropriation in this section is subject to the following conditions and limitations: The reappropriation is provided solely for the state board for community and technical colleges to assist public community and technical colleges to manage unanticipated cost escalation for projects bid during the 2007-2009 biennium. Not more than $750,000 shall be made available to any single project and amounts provided for this purpose must be matched equally from other resources. The state board for community and technical colleges shall manage the distribution of funds to ensure that the requesting college has managed its project within the current appropriation through preparation of bid documents and that the scope of the project is no greater than was originally specified in the design. Prior to the office of financial...
management approving use of a minor works appropriation as a match, and
its transfer to the project with unanticipated cost escalation, the
state board for community and technical colleges shall require the
college to describe what it has done to identify and develop
alternative resources for a match, and the specific minor works
projects that would be deferred as a result of the transfer. The state
board for community and technical colleges will report to the office of
financial management and the appropriate fiscal committees of the
legislature on the use of these funds.

(End of part)
NEW SECTION. Sec. 6001. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. Sec. 6002. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of $5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 6003. (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include
an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between $25,000 and $1,000,000 each, with the exception of higher education minor works projects that may be valued up to $2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed $1,000,000, or $2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 6004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a
capital project that is in excess of the amount required for the
completion of such project to another capital project for which the
appropriation is insufficient. No such transfer may be used to expand
the capacity of any facility beyond that intended in making the
appropriation. Such transfers may be effected only between capital
appropriations to a specific department, commission, agency, or
institution of higher education and only between capital projects that
are funded from the same fund or account. No transfers may occur
between projects to local government agencies except where the grants
are provided within a single omnibus appropriation and where such
transfers are specifically authorized by the implementing statutes that
govern the grants.

(2) The office of financial management may find that an amount is
in excess of the amount required for the completion of a project only
if: (a) The project as defined in the notes to the budget document is
substantially complete and there are funds remaining; or (b) bids have
been let on a project and it appears to a substantial certainty that
the project as defined in the notes to the budget document can be
completed within the biennium for less than the amount appropriated in
this act.

(3) For the purposes of this section, the intent is that each
project be defined as proposed to the legislature in the governor's
budget document, unless it clearly appears from the legislative history
that the legislature intended to define the scope of a project in a
different way.

(4) Transfers of funds to an agency's infrastructure savings
appropriation are subject to review and approval by the office of
financial management. Expenditures from an infrastructure savings
appropriation are limited to projects that have a primary purpose to
correct infrastructure deficiencies or conditions that: (a) Adversely
affect the ability to utilize the infrastructure for its current
programmatic use; (b) reduce the life expectancy of the infrastructure;
or (c) increase the operating costs of the infrastructure for its
current programmatic use. Eligible infrastructure projects may include
structures and surface improvements, site amenities, utility systems
outside building footprints and natural environmental changes or
requirements as part of an environmental regulation, a declaration of
emergency for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under $250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 6005. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 6006. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.
NEW SECTION. Sec. 6007. The department of general administration shall not charge the facility depreciation component of lease charges for nonprofit tenants in the building adjoining Capitol Way and 11th avenue during the 2009-2011 biennium.

NEW SECTION. Sec. 6008. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

NEW SECTION. Sec. 6009. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS. The following agencies may enter into financial contracts, paid from any funds of an agency, appropriated or nonappropriated, for the purposes indicated and in not more than the principal amounts indicated, plus financing expenses and required reserves pursuant to chapter 39.94 RCW. When securing properties under this section, agencies shall use the most economical financial contract option available, including long-term leases, lease-purchase agreements, lease-development with option to purchase agreements or financial contracts using certificates of participation. Expenditures made by an agency for one of the indicated purposes before the issue date of the authorized financial contract and any certificates of participation therein are intended to be reimbursed from proceeds of the financial contract and any certificates of participation therein to the extent provided in the agency's financing plan approved by the state finance committee.

State agencies may enter into agreements with the department of general administration and the state treasurer's office to develop requests to the legislature for acquisition of properties and facilities through financial contracts. The agreements may include charges for services rendered.

Those noninstructional facilities of higher education institutions authorized in this section to enter into financial contracts are not eligible for state funded maintenance and operations. Instructional space that is available for regularly scheduled classes for academic transfer, basic skills, and workforce training programs may be eligible for state funded maintenance and operations.
(1) Department of corrections: Enter into a financing contract for up to $17,958,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to purchase or build work release beds, violator beds, or other community-based re-entry facilities.

(2) University of Washington: Enter into a financing contract for up to $38,600,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to renovate Balmer Hall.

(3) Eastern Washington University: Enter into a financing contract for up to $5,500,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW for the acquisition of the Riverpoint One facility.

(4) Community and technical colleges:
   (a) Enter into a financing contract on behalf of Bellingham Technical College for up to $1,390,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to develop an instructional resource center.
   (b) Enter into a financing contract on behalf of Lower Columbia College for up to $2,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to develop the Myklebust gymnasium.
   (c) Enter into a financing contract on behalf of Edmonds Community College for up to $5,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to provide space for allied health and construction industry.
   (d) Enter into a financing contract on behalf of Spokane Community College for up to $3,400,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to purchase the Riverpoint One building.
   (e) Enter into a financing contract on behalf of Everett Community College for up to $25,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to develop a student fitness and health center.
   (f) Enter into a financing contract on behalf of Wenatchee Valley Community College for up to $2,700,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to purchase a music and art center.
   (g) Enter into a financing contract on behalf of Green River
Community College for up to $20,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to develop a 40,000 square foot addition to Green River Kent station.

(h) Enter into a financing contract on behalf of Walla Walla Community College for up to $1,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to develop the William A. Grant environmental center.

(5) Department of general administration: Enter into a financing contract for up to $17,444,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW for the rehabilitation of the John L. O'Brien building, subject to the approval of the project scope by the speaker of the house of representatives and the chief clerk of the house of representatives.

(6) Department of ecology: Enter into a financing contract for up to $11,000,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to rebuild the east wall of the department of ecology's headquarters building in Lacey, Washington.

NEW SECTION. Sec. 6010. FOR THE ARTS COMMISSION--ART WORK ALLOWANCE POOLING. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the superintendent of public instruction and representatives of school district boards.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding two hundred thousand dollars by colleges or universities is provided solely for the purposes of RCW 28B.10.027. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the board of regents or trustees.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency as defined in RCW 43.17.020 is provided solely for the purposes of RCW 43.17.200. The Washington state arts commission may combine the
proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the state agency.

(4) At least eighty-five percent of the moneys spent by the Washington state arts commission during the 2009-2011 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. The commission may use up to $100,000 of this amount to conserve or maintain existing pieces in the state art collection pursuant to chapter 36, Laws of 2005.

NEW SECTION. Sec. 6011. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2011-2013 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 6012. (1) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2009, from the 2007-2009 biennial appropriations for each project.

(2) "Reappropriations" in sections 5126, 5130, and 5131 of this act shall be reduced in this act to the unexpended balance remaining as of the end of fiscal year 2009 for the 2007-09 biennial appropriations in sections 1085, 1086, and 5145, chapter 520, Laws of 2007.

NEW SECTION. Sec. 6013. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 6014. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace
the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

**NEW SECTION. Sec. 6015.** (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

**NEW SECTION. Sec. 6016.** NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. Portions of the general obligation bond proceeds authorized by chapter . . . (House Bill No. 1272 (state general obligation bonds)), Laws of 2009 for deposit into the state taxable building construction account that are in excess of amounts required to comply with the federal internal revenue service rules and regulations shall be deposited into the state building construction account. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority between the state building construction account, or any other account receiving bond proceeds, and the state taxable building construction account is necessary.

**NEW SECTION. Sec. 6017.** The office of financial management, in consultation with the fiscal committees of the legislature, may select
capital projects that have completed predesign to undergo a budget evaluation study. The budget evaluation study team approach using value engineering techniques must be utilized by the office of financial management in conducting the studies. The office of financial management shall select the budget evaluation team members, contract for the study, and report the results to the legislature and agencies in a timely manner following the study. Funds from the project appropriation must be used by the office of financial management through an interagency agreement with the affected agencies to cover the cost of the study.

Sec. 6018. RCW 43.155.040 and 1985 c 446 s 10 are each amended to read as follows:

The board may:

(1) Accept from any state or federal agency, loans or grants for the planning or financing of any public works project and enter into agreements with any such agency concerning the loans or grants;

(2) Provide technical assistance to local governments;

(3) Accept any gifts, grants, or loans of funds, property, or financial or other aid in any form from any other source on any terms and conditions which are not in conflict with this chapter;

(4) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this chapter;

(5) Do all acts and things necessary or convenient to carry out the powers expressly granted or implied under this chapter.

Board activities relating to awarding new loans for the 2009-2011 biennium are suspended.

Sec. 6019. RCW 43.155.050 and 2008 c 328 s 6002 are each amended to read as follows:

(1) The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the
board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. For the 2007-2009 biennium, moneys in the account may be used for grants for projects identified in section 138, chapter 488, Laws of 2005, for the infrastructure investment system implementation plan identified in section 1022, chapter 328, Laws of 2008; for the interest rate buy-down pilot program identified in section 1004, chapter 328, Laws of 2008; and for the housing assistance, weatherization, and affordable housing program identified in section 1005, chapter 328, Laws of 2008. For the 2009-2011 biennium, moneys in the account may be used for rule-making activities related to greywater, identified in section 2031, chapter ...., Laws of 2009 (section 2031 of this act).

(2) The job development fund is hereby established in the state treasury. Up to fifty million dollars each biennium from the public works assistance account may be transferred into the job development fund. Money in the job development fund may be used solely for job development fund program grants, administrative expenses related to the administration of the job development fund program created in RCW 43.160.230, and for the report prepared by the joint legislative audit and review committee pursuant to RCW 44.28.801(2). Moneys in the job development fund may be spent only after appropriation. The board shall prepare a prioritized list of proposed projects of up to fifty million dollars as part of the department's 2007-09 biennial budget request. The board may provide an additional alternate job development fund project list of up to ten million dollars. The legislature may remove projects from the list recommended by the board. The legislature may not change the prioritization of projects recommended for funding by the board, but may add projects from the alternate list in order of priority, as long as the total funding does not exceed fifty million dollars.
Sec. 6020. RCW 43.155.065 and 2001 c 131 s 3 are each amended to read as follows:

(1) The board may make low-interest or interest-free loans to local governments for emergency public works projects. Emergency public works projects shall include the construction, repair, reconstruction, replacement, rehabilitation, or improvement of a public water system that is in violation of health and safety standards and is being operated by a local government on a temporary basis. The loans may be used to help fund all or part of an emergency public works project less any reimbursement from any of the following sources: ((a)) (a) Federal disaster or emergency funds, including funds from the federal emergency management agency; ((b)) (b) state disaster or emergency funds; ((c)) (c) insurance settlements; or ((d)) (d) litigation.

(2) Board activities relating to awarding new loans for the 2009-2011 biennium are suspended.

Sec. 6021. RCW 43.155.068 and 2001 c 131 s 4 are each amended to read as follows:

(1) The board may make low-interest or interest-free loans to local governments for preconstruction activities on public works projects before the legislature approves the construction phase of the project. Preconstruction activities include design, engineering, bid-document preparation, environmental studies, right-of-way acquisition, and other preliminary phases of public works projects as determined by the board. The purpose of the loans authorized in this section is to accelerate the completion of public works projects by allowing preconstruction activities to be performed before the approval of the construction phase of the project by the legislature.

(2) Projects receiving loans for preconstruction activities under this section must be evaluated using the priority process and factors in RCW 43.155.070 (4). The receipt of a loan for preconstruction activities does not ensure the receipt of a construction loan for the project under this chapter. Construction loans for projects receiving a loan for preconstruction activities under this section are subject to legislative approval under RCW 43.155.070 (6) and (7). The board shall adopt a single application process for local governments seeking both a loan for
preconstruction activities under this section and a construction loan
for the project.

(3) Board activities relating to awarding new loans for the 2009-
2011 biennium are suspended.

Sec. 6022. RCW 43.155.070 and 2008 c 299 s 25 are each amended to
read as follows:

(1) To qualify for loans or pledges under this chapter the board
must determine that a local government meets all of the following
conditions:

(a) The city or county must be imposing a tax under chapter 82.46
RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility
plan; and

(c) The local government must be using all local revenue sources
which are reasonably available for funding public works, taking into
consideration local employment and economic factors.

(2) Except where necessary to address a public health need or
substantial environmental degradation, a county, city, or town planning
under RCW 36.70A.040 must have adopted a comprehensive plan, including
a capital facilities plan element, and development regulations as
required by RCW 36.70A.040. This subsection does not require any
county, city, or town planning under RCW 36.70A.040 to adopt a
comprehensive plan or development regulations before requesting or
receiving a loan or loan guarantee under this chapter if such request
is made before the expiration of the time periods specified in RCW
36.70A.040. A county, city, or town planning under RCW 36.70A.040
which has not adopted a comprehensive plan and development regulations
within the time periods specified in RCW 36.70A.040 is not prohibited
from receiving a loan or loan guarantee under this chapter if the
comprehensive plan and development regulations are adopted as required
by RCW 36.70A.040 before submitting a request for a loan or loan
guarantee.

(3) In considering awarding loans for public facilities to special
districts requesting funding for a proposed facility located in a
county, city, or town planning under RCW 36.70A.040, the board shall
consider whether the county, city, or town planning under RCW
36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(f) The cost of the project compared to the size of the local government and amount of loan money available;

(g) The number of communities served by or funding the project;

(h) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(i) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(j) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;
(k) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(1) Other criteria that the board considers advisable.

(5) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before November 1st of each year, the board shall develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities. However, board activities relating to awarding new loans for the 2009-2011 biennium are suspended.

(7) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(8) Subsection (7) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

(9) Loans made for the purpose of capital facilities plans shall be exempted from subsection (7) of this section.
(10) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(11) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 6023. RCW 36.22.175 and 2008 c 328 s 6006 are each amended to read as follows:

(1)(a) In addition to any other charge authorized by law, the county auditor shall charge a surcharge of one dollar per instrument for each document recorded. Revenue generated through this surcharge shall be transmitted monthly to the state treasurer for deposit in the local government archives account under RCW 40.14.024. These funds shall be used solely for providing records scheduling, security microfilm inspection and storage, archival preservation, cataloging, and indexing for local government records and digital data and access to those records and data through the regional branch archives of the division of archives and records management.

(b) The division of archives and records management within the office of the secretary of state shall provide records management training for local governments and shall establish a competitive grant program to solicit and prioritize project proposals from local governments for potential funding to be paid for by funds from the auditor surcharge and tax warrant surcharge revenues. Application for specific projects may be made by local government agencies only. The state archivist in consultation with the advisory committee established under RCW 40.14.027 shall adopt rules governing project eligibility, evaluation, awarding of grants, and other criteria including requirements for records management training for grant recipients.

(2) The advisory committee established under RCW 40.14.027 shall review grant proposals and establish a prioritized list of projects to be considered for funding by January 1st of each even-numbered year, beginning in 2002. The evaluation of proposals and development of the prioritized list must be developed through open public meetings.
Funding for projects shall be granted according to the ranking of each application on the prioritized list and projects will be funded only to the extent that funds are available. A grant award may have an effective date other than the date the project is placed on the prioritized list.

(3)(a) In addition to any other surcharge authorized by law, the county auditor shall charge a surcharge of one dollar per instrument for every document recorded after January 1, 2002. Revenue generated through this surcharge shall be transmitted to the state treasurer monthly for deposit in the local government archives account under RCW 40.14.024 to be used exclusively for the construction and improvement of a specialized regional facility located in eastern Washington designed to serve the archives, records management, and digital data management needs of local government

(b) To the extent the facilities are used for the storage and retrieval of state agency records and digital data, that portion of the construction of such facilities used for state government records and data shall be supported by other charges and fees paid by state agencies and shall not be supported by the surcharge authorized in this subsection, except that to the extent there is an excess fund balance in the account and fees generated under RCW 36.18.010 and 43.07.128 are insufficient to meet debt service payments for the Washington state heritage center, the local government archives account under RCW 40.14.024 may be used for the Washington state heritage center).

(c) At such time that all debt service from construction of the specialized regional archive facility located in eastern Washington has been paid, fifty percent of the surcharge authorized by this subsection shall be reverted to the centennial document preservation and modernization account as prescribed in RCW 36.22.170 and fifty percent of the surcharge authorized by this section shall be reverted to the state treasurer for deposit in the archives and records management account to serve the archives, records management, and digital data management needs of local government, except that the state treasurer...
shall not revert funds to the centennial document preservation and modernization account and to the archives and records management account if fees generated under RCW 36.18.010 and 43.07.128 are insufficient to meet debt service payments on the Washington state heritage center).

**Sec. 6024.** RCW 79.17.010 and 2008 c 328 s 6012 are each amended to read as follows:

(1) The department, with the approval of the board, may exchange any state land and any timber thereon for any land of equal value in order to:

(a) Facilitate the marketing of forest products of state lands;

(b) Consolidate and block-up state lands;

(c) Acquire lands having commercial recreational leasing potential;

(d) Acquire county-owned lands;

(e) Acquire urban property which has greater income potential or which could be more efficiently managed by the department in exchange for state urban lands as defined in RCW 79.19.100; or

(f) Acquire any other lands when such exchange is determined by the board to be in the best interest of the trust for which the state land is held.

(2) Land exchanged under this section shall not be used to reduce the publicly owned forest land base.

(3) The board shall determine that each land exchange is in the best interest of the trust for which the land is held prior to authorizing the land exchange.

(4) During the biennium ending June 30, ((2009)) 2011, for the purposes of maintaining working farm and forest landscapes or acquiring natural resource lands at risk of development, the department, with approval of the board of natural resources, may exchange any state land and any timber thereon for any land and proceeds of equal value, when it can be demonstrated that the trust fiduciary obligations can be better fulfilled after an exchange is completed. Proceeds may be in the form of cash or services in order to achieve the purposes established in this section. Any cash received as part of an exchange transaction shall be deposited in the resource management cost account to pay for administrative expenses incurred in carrying out an exchange transaction. **These administrative expenses include road maintenance**
and abandonment expenses. The amount of proceeds received from the exchange partner may not exceed five percent of the total value of the exchange. The receipt of proceeds shall not change the character of the transaction from an exchange to a sale.

(5) Prior to executing an exchange under this section, and in addition to the public notice requirements set forth in RCW 79.17.050, the department shall consult with legislative members, other state and federal agencies, local governments, tribes, local stakeholders, conservation groups, and any other interested parties to identify and address cultural resource issues and the potential of the state lands proposed for exchange to be used for open space, park, school, or critical habitat purposes.

Sec. 6025. RCW 43.325.040 and 2007 c 348 s 305 are each amended to read as follows:

(1) The energy freedom account is created in the state treasury. All receipts from appropriations made to the account and any loan payments of principal and interest derived from loans made under this chapter must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for assistance for projects consistent with this chapter or otherwise authorized by the legislature.

(2) The green energy incentive account is created in the state treasury as a subaccount of the energy freedom account. All receipts from appropriations made to the green energy incentive account shall be deposited into the account, and may be spent only after appropriation. Expenditures from the account may be used only for:

(a) Refueling projects awarded under this chapter;
(b) Pilot projects for plug-in hybrids, including grants provided for the electrification program set forth in RCW 43.325.110; ((and))
(c) Demonstration projects developed with state universities as defined in RCW 28B.10.016 and local governments that result in the design and building of a hydrogen vehicle fueling station; and
(d) Activities to promote research, development, and marketing of bioproducts.

(3) Any state agency receiving funding from the energy freedom account is prohibited from retaining greater than three percent of any funding provided from the energy freedom account for administrative
overhead or other deductions not directly associated with conducting the research, projects, or other end products that the funding is designed to produce unless this provision is waived in writing by the director.

(4) Any university, institute, or other entity that is not a state agency receiving funding from the energy freedom account is prohibited from retaining greater than fifteen percent of any funding provided from the energy freedom account for administrative overhead or other deductions not directly associated with conducting the research, projects, or other end products that the funding is designed to produce.

(5) Subsections (2) through (4) of this section do not apply to assistance awarded for projects under RCW 43.325.020(3).

NEW SECTION. Sec. 6026. The parks and recreation commission shall transfer the Huckleberry Island property to the Samish Indian Nation if the Samish Indian Nation agrees to accept the transfer and preserve and provide public access to the land for the purpose of outdoor recreation.

Sec. 6027. RCW 79.17.020 and 2008 c 328 s 6013 are each amended to read as follows:

(1) The board of county commissioners of any county and/or the mayor and city council or city commission of any city or town and/or the board shall have authority to exchange, each with the other, or with the federal forest service, the federal government or any proper agency thereof and/or with any private landowner, county land of any character, land owned by municipalities of any character, and state forest land owned by the state under the jurisdiction of the department, for real property of equal value for the purpose of consolidating and blocking up the respective land holdings of any county, municipality, the federal government, or the state of Washington or for the purpose of obtaining lands having commercial recreational leasing potential.

(2) During the biennium ending June 30, (2009) 2011, for the purposes of maintaining working farm and forest landscapes or acquiring natural resource lands at risk of development, the department, with approval of the board of natural resources, may exchange any state land
and any timber thereon for any land and proceeds of equal value, when it can be demonstrated that the trust fiduciary obligations can be better fulfilled after an exchange is completed. Proceeds may be in the form of cash or services in order to achieve the purposes established in this section. Any cash received as part of an exchange transaction shall be deposited in the forest development account to pay for administrative expenses incurred in carrying out an exchange transaction. The amount of proceeds received from the exchange partner may not exceed five percent of the total value of the exchange. The receipt of proceeds shall not change the character of the transaction from an exchange to a sale.

(3) Prior to executing an exchange under this section, and in addition to the public notice requirements set forth in RCW 79.17.050, the department shall consult with legislative members, other state and federal agencies, local governments, tribes, local stakeholders, conservation groups, and any other interested parties to identify and address cultural resource issues, and the potential of the state lands proposed for exchange to be used for open space, park, school, or critical habitat purposes.

Sec. 6028. RCW 43.99N.060 and 2008 c 328 s 6017 are each amended to read as follows:

(1) The stadium and exhibition center account is created in the custody of the state treasurer. All receipts from the taxes imposed under RCW 82.14.0494 and distributions under RCW 67.70.240(5) shall be deposited into the account. Only the director of the office of financial management or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the
stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection; and

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. ((For the 2005-2007 biennium, moneys in the account may also be used for a recreation level of service study for local and regional active recreation facilities.)) Only the director of the recreation and conservation office or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but
an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the recreation and conservation office. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. In the (2007–2009) 2009–2011 biennium, if there are not enough project applications submitted in a category within the account to meet the requirement of equal distribution of funds to each category, the director of the recreation and conservation office may distribute any remaining funds to other categories within the account. The director of the recreation and conservation office may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes.

NEW SECTION. Sec. 6029. FOR THE STATE TREASURER--TRANSFERS
General Fund--Federal Account from American Reinvestment and Recovery Act funds for the state energy program. If Engrossed Substitute House Bill No. 2290 is not enacted by June 30, 2009, the funds shall not be transferred: For transfer to the Nonstate Energy Account--Federal, an amount not to exceed $30,000,000.

Sec. 6030. 2008 c 328 s 1004 (uncodified) is amended to read as follows:
FOR THE DEPARTMENT OF COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT
Public Works Trust Fund (07-4-005)

The appropriation in this section is subject to the following conditions and limitations:
(1) $10,000,000 of the appropriation is provided solely for the public works board, in consultation with the house of representatives capital budget committee, the senate ways and means committee, and the office of financial management, to implement an infrastructure interest rate buy-down pilot program. The purpose of the program is to demonstrate options for the most efficient use of the state's investment in local infrastructure by funding more projects at an accelerated rate.

(2) The pilot program must provide grants to local governments to offset the difference in interest rates between one-half of one percent, as offered by the public works board, and the interest rate the local government may receive on issuance of their own debt, as estimated by the office of the state treasurer.

(3) The pilot program must include the following projects:
   (a) Those with high scores from the list of projects that were not funded, as identified in the public works board 2008 legislative report;
   (b) Projects located in economically distressed areas or that may be significantly impacted by a possible upcoming recession; and
   (c) Projects located in jurisdictions that have unused debt capacity and are willing and able to acquire additional debt to finance the proposed infrastructure project.
