22 **FOR THE OFFICE OF FINANCIAL MANAGEMENT.** (1) Due to the downturn of

29 projects that have not shown substantial progress under the criteria
30 established in subsection (2) of this section.

31 (2) A project is subject to allotment reduction or non-approval of
32 a planned allotment under this section if:

9 matching funds, permits, environmental reviews, and required contracts
10 and partnership agreements.

11 (3) Amounts attributable to allotment reductions or non-approval of
12 planned allotments made under this section must be placed in or remain
13 in unallotted status and remain unexpended.

14 (4) By December 31, 2010, the office of financial management must

8 transfer from trust status, or enter into fifty year leases for,
9 certain trust lands of statewide significance deemed appropriate for
10 state park, fish and wildlife habitat, natural area preserve, natural
11 resources conservation area, open space, housing and essential
12 government services, or recreation purposes. The approved list of
13 properties for lease or transfer is identified in the LEAP capital
14 document No. 2009-2a, developed April 23, 2009.

15 (2) Property transferred under this section must be appraised and
16 transferred at fair market value. The value of the timber transferred
17 must be deposited by the department to the common school construction
18 account in the same manner as timber revenues from other common school
19 trust lands. No deduction may be made for the resource management cost
20 account under RCW 79.64.040. The value of the land transferred must be
21 deposited in the natural resources real property replacement account.

24 options to renew for an additional fifty years. Lease payments must be
25 lump sum payments for the entire term of the lease at the beginning of
26 the lease. The department shall calculate such lump sum payments using
27 professional appraisal standards. These lease payments may not exceed
28 the fee simple purchase price based on current fair market value and
29 must be deposited by the department to the common school construction
30 account in the same manner as lease revenues from other common school
31 trust lands. No deduction may be made for the resource management cost

37 exceed (~~one and nine tenths~~) two and six-tenths percent of the
38 appropriation.

1 (5) Intergrant exchanges between common school and other trust
2 lands of equal value may occur if the exchange is in the interest of
3 each trust, as determined by the board of natural resources.

4 (6) Prior to or concurrent with conveyance of these properties, the
5 department, with full cooperation of the receiving agencies, shall
6 execute and record a real property instrument that dedicates the
7 transferred properties to the purposes identified in subsection (1) of
8 this section. Transfer and lease agreements for properties identified
9 in subsection (1) of this section must include terms that restrict the
10 use of the property to the intended purpose. Transfer and lease
11 agreements may include provisions for receiving agencies to request
12 alternative uses of the property, provided the alternative uses are
13 compatible with the original intended public purpose and the department
14 and legislature approves such uses.

15 (7) The department and receiving agencies shall work in good faith
16 to carry out the intent of this section. However, the department or
17 receiving agencies may remove a property from the transfer list based
18 on new, substantive information, if it is determined that transfer of
19 the property is not in the statewide interest of either the common
20 school trust or the receiving agency.

21 (8) The department shall execute trust land transfers that, after
22 the deduction of reasonable costs as provided in subsection (4) of this
23 section, eighty percent of the total value of transferred property is
24 timber value and is deposited in the common school construction
25 account. To achieve the eighty percent requirement, the department may
26 choose to lease properties originally intended as transfers.

12 fewer than 1,000 full-time equivalent students.

13 (b) Grants shall be distributed in additional competitive rounds
14 the same as established in (a) of this subsection.

15 (4) Within each competitive round, projects must be weighted and
16 prioritized based on the following criteria and in the following order:

17 (a) Leverage ratio: In each round, the higher the leverage ratio
18 of nonstate funding sources to state jobs act grant, the higher the
19 project ranking.

20 (b) Energy savings: In each round, the higher the energy savings,
21 the higher the project ranking. Applicants must submit documentation
22 that demonstrates energy and operational cost savings resulting from
23 the installation of energy equipment and improvements. The
24 documentation must include, but is not limited to the following:

25 (i) A description of energy equipment and improvements; and

26 (ii) A description of energy and operational cost savings. The
27 energy savings analysis must be performed by a licensed engineer.

28 (c) Expediency of expenditure: Project readiness to spend funds
29 must be prioritized so that the legislative intent to expend funds
30 quickly is met.

31 (5) Projects that do not use energy savings performance contracting
32 must: (a) Verify energy and operational cost savings for ten years or
33 until energy and operational costs savings pay for the project,
34 whichever is shorter; (b) follow the department of general
35 administration's energy savings performance contracting project
36 guidelines; and (c) employ a licensed engineer for the energy audit and
37 construction. The department of general administration may require
38 third-party verification of savings if a project is not implemented by

1 an energy savings performance contractor selected by the department of
2 general administration through the request of qualifications process.
3 Third-party verification must be conducted either by an energy savings
4 performance contractor selected by the department of general
5 administration through a request for qualifications or by a project or
6 educational service district resource conservation manager.

7 (6) To intensify competition, the office of the superintendent of
8 public instruction may only award funds to the top eighty-five percent
9 of projects applying in a round until the office of the superintendent
10 of public instruction determines a final round is appropriate.
11 Projects that do not receive a grant award in one round may reapply in
12 subsequent rounds.

13 (7) Grant amounts awarded to each project must allow for the
14 maximum number of projects funded with the greatest energy and cost
15 benefit.

16 (8) The office of the superintendent of public instruction must use
17 bond proceeds to pay one-half of the preliminary audit, up to five
18 cents per square foot, if the project does not meet the school
19 district's predetermined cost-effectiveness criteria. The school
20 district must pay the other one-half of the cost of the preliminary
21 audit if the project does not meet the school district's predetermined
22 cost-effectiveness criteria. The energy savings performance contractor
23 shall not charge for an investment grade audit if the project does not
24 meet the school district's predetermined cost-effectiveness criteria.
25 The school district must pay the full price of an investment grade
26 audit if they do not proceed with a project that meets the school
27 district's predetermined cost-effectiveness criteria.

28 (9) The office of the superintendent of public instruction may
29 charge projects administrative fees. The office of the superintendent
30 of public instruction may pay the department of general administration
31 administrative fees in an amount determined through a memorandum of
32 understanding.

33 (10) The office of the superintendent of public instruction and the
34 department of general administration must submit a joint report to the
35 appropriate committees of the legislature and the office of financial
36 management on the timing and use of the grant funds, program
37 administrative function, and administrative fees by the end of each

1 fiscal year, until the funds are fully expended and all savings
2 verification requirements are fulfilled.
