(1) $5,563,000 of the general fund--state appropriation for fiscal year 2010 and $5,563,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for intensive family preservation services as defined in RCW 74.14C.010 and for evidence-based services that prevent out-of-home placement and reduce length of stay in the child welfare system.

(2) $993,000 of the general fund--state appropriation for fiscal year 2010 and $993,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to contract for the operation of one pediatric interim care facility. The facility shall provide residential care for up to seventeen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three
months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

(3) $375,000 of the general fund--state appropriation for fiscal year ((2008)) 2010, $375,000 of the general fund--state appropriation for fiscal year ((2009)) 2011, and $322,000 of the general fund--federal appropriation are provided solely for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(4) $2,500,000 of the general fund--state appropriation for fiscal year 2010 and $2,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for secure crisis residential centers. Within appropriated amounts, the department shall collaborate with providers to maintain no less than forty-five beds that are geographically representative of the state. The department shall examine current secure crisis residential staffing requirements, flexible payment options, center specific waivers, and other appropriate methods to accomplish this outcome.

(5) A maximum of $76,831,000 of the general fund--state appropriations and $56,901,000 of the general fund--federal appropriations for the 2009-11 biennium shall be expended for behavioral rehabilitative services and these amounts are provided solely for this purpose. (a) Contracted providers shall act in good faith and accept the
hardest to place children, to the greatest extent possible, in order to improve their emotional, behavioral, or medical conditions.

(b) The department and the contracted provider shall mutually agree and establish an exit date for when the child is to exit the behavioral rehabilitative service provider. The department and the contracted provider should mutually agree, to the greatest extent possible, on a viable placement for the child to go to once the child's treatment process has been completed. The child shall exit only when the emotional, behavioral, or medical condition has improved or if the provider has not shown progress toward the outcomes specified in the signed contract at the time of exit. This subsection (b) does not prevent or eliminate the department's responsibility for removing the child from the provider if the child's emotional, behavioral, or medical condition worsens or is threatened.

(c) The department is encouraged to use performance-based contracts with incentives directly tied to outcomes described in this section. The contracts should incentivize contracted providers to accept the hardest to place children and incentivize improvement in children's emotional, mental, and medical well-being within the established exit date. The department is further encouraged to increase the use of behavioral rehabilitative service group homes, wrap around services to facilitate and support placement of youth with relatives, and other means to control expenditures.

(d) The total foster care per capita amount shall not increase more than four percent in the 2009-11 biennium and shall not include behavioral rehabilitative service.

(6) Within amounts provided for the foster care and adoption support programs, the department shall control reimbursement decisions for foster care and adoption support cases such that the aggregate average cost per case for foster care and for adoption support does not exceed the amounts assumed in the projected caseload expenditures.

(17) The appropriations in this section reflect reductions in the appropriations for the children's administration administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(18) Within the amounts appropriated in this section, the department shall contract for a pilot project with family and community networks in Whatcom county and up to four additional counties to provide services. The pilot project shall be designed to provide a continuum of services that reduce out-of-home placements and the lengths of stay for children in out-of-home placement. The department and the community networks shall collaboratively select the additional counties for the pilot project and shall collaboratively design the contract. Within the framework of the pilot project, the contract shall seek to maximize federal funds. The pilot project in each county shall include the creation of advisory and management teams which
include members from neighborhood-based family advisory committees, residents, parents, youth, providers, and local and regional department staff. (d) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(e) $4,582,000 of the general fund--state appropriation for fiscal year 2010 and $4,582,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(f) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(g) $750,000 of the general fund--state appropriation for fiscal year 2010 and $750,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(h) $1,500,000 of the general fund--state appropriation for fiscal year 2010 and $1,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the Spokane regional support
network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

(j) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.
(k) In developing the new Medicaid managed care rates under which the public mental health managed care system will operate during the five years beginning in fiscal year 2011, the department should seek to estimate the reasonable and necessary cost of efficiently and effectively providing a comparable set of medically necessary mental health benefits to persons of different acuity levels regardless of where in the state they live. Actual prior period spending in a regional administrative area shall not be a key determinant of future payment rates. The department shall report to the office of financial management and to the relevant fiscal and policy committees of the legislature on its proposed new waiver and mental health managed care rate-setting approach by October 1, 2009, and again at least sixty days prior to implementation of new capitation rates.

(l) $1,529,000 of the general fund--state appropriation for fiscal year 2010 and $1,529,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(m) The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

SECTION 204. 2009 c 564 s 205 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--DEVELOPMENTAL DISABILITIES PROGRAM

(1) COMMUNITY SERVICES

General Fund--State Appropriation (FY 2010) . . . .  (($313,050,000))
$311,589,000
General Fund--State Appropriation (FY 2011) . . . .  (($368,549,000))

General Fund--Federal Appropriation . . . . . . . . . . (($851,610,000))

TOTAL APPROPRIATION . . . . . . . . . . . . . . . . ((($1,533,209,000))
$1,527,341,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the
number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(c) Amounts appropriated in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.

(d) $5,593,000 of the general fund--state appropriation for fiscal year 2010, $4,002,000 of the general fund--state appropriation for fiscal year 2011, and $14,701,000 of the general fund--federal appropriation are provided solely for community residential and support services. Funding in this subsection shall be prioritized for (i) residents of residential habilitation centers who are able to be adequately cared for in community settings and who choose to live in those community settings; (ii) clients without residential services who are at immediate risk of institutionalization or in crisis; (iii) children who are at risk of institutionalization or who are aging out of other state services; and (iv) current home and community-based waiver program clients who have been assessed as having an immediate need for increased services. First priority shall be given to children who are at risk of institutionalization. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds, provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall electronically report to
the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

(e)(i) $493,000 of the general fund--state appropriation for fiscal year 2010, $1,463,000 of the general fund--state appropriation for fiscal year 2011, and $2,741,000 of the general fund--federal appropriation are provided solely for community services for persons with developmental disabilities who also have community protection issues. Funding in this subsection shall be prioritized for (A) clients being diverted or discharged from the state psychiatric hospitals; (B) clients participating in the dangerous mentally ill offender program; (C) clients participating in the community protection program; and (D) mental health crisis diversion outplacements. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $349 per day in fiscal year 2010 and $356 per day in fiscal year 2011. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds if the total projected carry-forward expenditures do not exceed the amounts estimated.

(ii) The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

(f) $302,000 of the general fund--state appropriation for fiscal year 2010, $831,000 of the general fund--state appropriation for fiscal year 2011, and $1,592,000 of the general fund--federal appropriation are provided solely for health care benefits pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.
(g)(i) $682,000 of the general fund--state appropriation for fiscal year 2010, $1,651,000 of the general fund--state appropriation for fiscal year 2011, and $1,678,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(ii) The federal portion of the amounts in this subsection (g) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.

(iii) Expenditures for the purposes specified in this subsection (g) shall not exceed the amounts provided in this subsection.

(h) Within the amounts appropriated in this subsection (1), the department shall implement all necessary rules to facilitate the transfer to a department home and community-based services (HCBS) waiver of all eligible individuals who (i) currently receive services under the existing state-only employment and day program or the existing state-only residential program, and (ii) otherwise meet the waiver eligibility requirements. The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.

(i) Adult day health services shall only be authorized for in-home clients.

(j) In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(k) The department shall not pay a home care agency licensed under chapter 70.127 RCW for personal care services provided by a family member, pursuant to Substitute House Bill No. 2361 (modifying state payments for in-home care).
Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. Excluded from the reductions are exceptional care rate add-ons. The long-term care program may develop add-ons to pay exceptional care rates to adult family homes and boarding homes with specialty contracts to provide support for the following specifically eligible clients:

(i) Persons with AIDS or HIV-related diseases who might otherwise require nursing home or hospital care;

(ii) Persons with Alzheimer's disease and related dementia who might otherwise require nursing home care; and

(iii) Persons with co-occurring mental illness and long-term care needs who are eligible for expanded community services and who might otherwise require state and local psychiatric hospital care.

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

The amounts appropriated in this subsection reflect a reduction in funds available for employment and day services. In administering this reduction the department shall negotiate with counties and their vendors so that this reduction, to the greatest extent possible, is achieved by reducing vendor rates and allowable contract administrative charges (overhead) and not through reductions to direct client services or direct service delivery or programs.

Within the amounts allotted for employment and day services in this section, the department shall prioritize the funding of employment services for students graduating from high school during fiscal years 2010 and 2011. However, nothing in this subsection is intended to displace services for other recipients of employment services.

As part of the needs assessment instrument, the department may collect data on family income for minor children with developmental disabilities and all individuals who are receiving state-only funded services. The department may ensure that this information is collected as part of the client assessment process.

(d) If it is necessary to establish a waiting list for either waiver because the budgeted number of enrollment opportunities has been reached, the department shall track how the long-term care needs of applicants assigned to the waiting list are met.

(15) The department shall establish waiting lists to the extent necessary to assure that annual expenditures on the community options program entry systems (COPES) program do not exceed appropriated levels. In establishing and managing any such waiting list, the department shall assure priority access to persons with the greatest unmet needs, as determined by department assessment processes.

(e) Maintain the fiscal year 2009 grant standard for the temporary assistance for needy families grant.

(2) The department and the office of financial management shall electronically report quarterly the expenditures, maintenance of effort allotments, expenditure amounts, and caseloads for the WorkFirst program to the legislative fiscal committees.

(3) $84,856,000 of the general fund--state appropriation for fiscal year 2010 and $95,173,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for cash assistance and other services to recipients in the general assistance--unemployable program. Within these amounts:

(a) The department shall aggressively pursue opportunities to transfer general assistance unemployable clients to general assistance expedited coverage and to facilitate client applications for federal supplemental security income when the client's incapacities indicate that he or she would be likely to meet the federal disability criteria for supplemental security income. The department shall initiate and file the federal supplemental security income interim agreement as quickly as possible in order to maximize the recovery of federal funds;

(b) The department shall review the general assistance caseload to identify recipients that would benefit from assistance in becoming naturalized citizens, and thus be eligible to receive federal supplemental security income benefits. Those cases shall be given high priority for naturalization funding through the department;

(c) The department shall actively coordinate with local workforce development councils to expedite access to worker retraining programs for general assistance unemployable clients in those regions of the state with the greatest number of such clients;

(d) By July 1, 2009, the department shall enter into an interagency agreement with the department of veterans' affairs to establish a process for referral of veterans who may be eligible for veteran's services. This agreement must include outstationing department of veterans' affairs staff in selected community service office locations in King and Pierce counties to facilitate applications for veterans' services; and

(e) In addition to any earlier evaluation that may have been conducted, the department shall intensively evaluate those clients who have been receiving general assistance unemployable benefits for twelve
months or more as of July 1, 2009, or thereafter, if the available medical and incapacity related evidence indicates that the client is unlikely to meet the disability standard for federal supplemental security income benefits. The evaluation shall identify services necessary to eliminate or minimize barriers to employment, including mental health treatment, substance abuse treatment and vocational rehabilitation services. The department shall expedite referrals to chemical dependency treatment, mental health and vocational rehabilitation services for these clients.

(f) The appropriations in this subsection reflect a change in the earned income disregard policy for general assistance unemployable clients. It is the intent of the legislature that the department shall adopt the temporary assistance for needy families earned income policy for general assistance unemployable.

((5) (4) $750,000 of the general fund--state appropriation for fiscal year 2010 and $750,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for naturalization services.

((6) (5)(a) $3,550,000 of the general fund--state appropriation for fiscal year 2010 is provided solely for refugee employment services, of which $2,650,000 is provided solely for the department to pass through to statewide refugee assistance organizations for limited English proficiency pathway services; and $3,550,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for refugee employment services, of which $2,650,000 is provided solely for the department to pass through to statewide refugee assistance organizations for limited English proficiency pathway services.

(b) The legislature intends that the appropriation in this subsection for the 2009-11 fiscal biennium will maintain funding for refugee programs at a level at least equal to expenditures on these programs in the 2007-09 fiscal biennium.

((7) (6) The appropriations in this section reflect reductions in the appropriations for the economic services administration's administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or program.

The appropriations in this section are subject to the following conditions and limitations:

1. Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

2. In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

3. The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

4. When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

5. In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the
payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) $1,110,000 of the general fund--federal appropriation and $1,105,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $9,818,000 of the general fund--state appropriation for fiscal year 2011, and $9,865,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or
state psychiatric institutions. The department shall submit reports to
the governor and legislature by November 1, 2009, and by November 1,
2010, that evaluate whether savings continue to exceed costs for this
program. If the certified public expenditures (CPE) program in its
current form is no longer cost-effective to maintain, the department
shall submit a report to the governor and legislature detailing
cost-effective alternative uses of local, state, and federal resources
as a replacement for this program. During fiscal year 2010 and fiscal
year 2011, hospitals in the program shall be paid and shall retain one
hundred percent of the federal portion of the allowable hospital cost
for each medicaid inpatient fee-for-service claim payable by medical
assistance and one hundred percent of the federal portion of the
maximum disproportionate share hospital payment allowable under federal
regulations. Inpatient medicaid payments shall be established using an
allowable methodology that approximates the cost of claims submitted by
the hospitals. Payments made to each hospital in the program in each
fiscal year of the biennium shall be compared to a baseline amount.
The baseline amount will be determined by the total of (a) the
inpatient claim payment amounts that would have been paid during the
fiscal year had the hospital not been in the CPE program, (b) one half
of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005,
and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005
to the extent the same disproportionate share hospital programs exist
in the 2009-11 biennium. If payments during the fiscal year exceed the
hospital's baseline amount, no additional payments will be made to the
hospital except the federal portion of allowable disproportionate share
hospital payments for which the hospital can certify allowable match.
If payments during the fiscal year are less than the baseline amount,
the hospital will be paid a state grant equal to the difference between
payments during the fiscal year and the applicable baseline amount.
Payment of the state grant shall be made in the applicable fiscal year
and distributed in monthly payments. The grants will be recalculated
and redistributed as the baseline is updated during the fiscal year.
The grant payments are subject to an interim settlement within eleven
months after the end of the fiscal year. A final settlement shall be
performed. To the extent that either settlement determines that a
hospital has received funds in excess of what it would have received as
described in this subsection, the hospital must repay the excess
amounts to the state when requested. $6,570,000 of the general fund--
state appropriation for fiscal year 2010, which is appropriated in
section 204(1) of this act, and $1,500,000 of the general fund--state
appropriation for fiscal year 2011, which is appropriated in section
204(1) of this act, are provided solely for state grants for the
participating hospitals. Sufficient amounts are appropriated in this
section for the remaining state grants for the participating hospitals.

(9) The department is authorized to use funds appropriated in this
section to purchase goods and supplies through direct contracting with
vendors when the department determines it is cost-effective to do so.

((412)) (10) $93,000 of the general fund--state appropriation for
fiscal year 2010 and $93,000 of the general fund--federal appropriation
are provided solely for the department to pursue a federal Medicaid
waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington
health partnership plan). If the bill is not enacted by June 30, 2009,
the amounts provided in this subsection shall lapse.

((413)) (11) The department shall require managed health care
systems that have contracts with the department to serve medical
assistance clients to limit any reimbursements or payments the systems
make to providers not employed by or under contract with the systems to
no more than the medical assistance rates paid by the department to
providers for comparable services rendered to clients in the fee-for-
service delivery system.

((416)) (12) A maximum of $166,875,000 of the general fund--state
appropriation and $38,389,000 of the general fund--federal
appropriation may be expended in the fiscal biennium for the general
assistance-unemployable medical program, and these amounts are provided
solely for this program. Of these amounts, $10,749,000 of the general
fund--state appropriation for fiscal year 2010 and $10,892,000 of the
general fund--federal appropriation are provided solely for payments to
hospitals for providing outpatient services to low income patients who
are recipients of general assistance-unemployable. Pursuant to RCW
74.09.035, the department shall not expend for the general assistance
medical care services program any amounts in excess of the amounts
provided in this subsection.
If the department determines that it is feasible within the amounts provided in subsection (16) of this section, and without the loss of federal disproportionate share hospital funds, the department shall contract with the carrier currently operating a managed care pilot project for the provision of medical care services to general assistance-unemployable clients. Mental health services shall be included in the services provided through the managed care system. If the department determines that it is feasible, effective October 1, 2009, in addition to serving clients in the pilot counties, the carrier shall expand managed care services to clients residing in at least the following counties: Spokane, Yakima, Chelan, Kitsap, and Cowlitz. If the department determines that it is feasible, the carrier shall complete implementation into the remaining counties. Total per person costs to the state, including outpatient and inpatient services and any additional costs due to stop loss agreements, shall not exceed the per capita payments projected for the general assistance-unemployable eligibility category, by fiscal year, in the February 2009 medical assistance expenditures forecast. The department, in collaboration with the carrier, shall seek to improve the transition rate of general assistance clients to the federal supplemental security income program.

The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for general assistance medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

State funds shall not be used by hospitals for advertising purposes.

The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper

SHB 2921 p. 54
payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

((22)) (18) $9,350,000 of the general fund--state appropriation for fiscal year 2010, $8,313,000 of the general fund--state appropriation for fiscal year 2011, and $20,371,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system. The amounts provided in this subsection are conditioned on the department satisfying the requirements of section 902 of this act.

((23)) (19) $506,000 of the general fund--state appropriation for fiscal year 2011 and $657,000 of the general fund--federal appropriation are provided solely for the implementation of Second Substitute House Bill No. 1373 (children's mental health). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

((24)) (20) Pursuant to 42 U.S.C. Sec. 1396(a)(25), the department shall pursue insurance claims on behalf of medicaid children served through its in-home medically intensive child program under WAC 388-551-3000. The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.
The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.

$425,000 of the general fund--state appropriation for fiscal year 2010, $425,000 of the general fund--state appropriation for fiscal year 2011, and $1,580,000 of the general fund--federal appropriation are provided solely to continue children's health coverage outreach and education efforts under RCW 74.09.470. These efforts shall rely on existing relationships and systems developed with local public health agencies, health care providers, public schools, the women, infants, and children program, the early childhood education and assistance program, child care providers, newborn visiting nurses, and other community-based organizations. The department shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

The department, in conjunction with the office of financial management, shall reduce outpatient and inpatient hospital rates and implement a prorated inpatient payment policy. In determining the level of reductions needed, the department shall include in its calculations services paid under fee-for-service, managed care, and certified public expenditure payment methods; but reductions shall not apply to payments for psychiatric inpatient services or payments to critical access hospitals.

The department will pursue a competitive procurement process for antihemophilic products, emphasizing evidence-based medicine and protection of patient access without significant disruption in treatment.

The department will pursue several strategies towards reducing pharmacy expenditures including but not limited to increasing generic prescription drug utilization by 20 percentage points and promoting increased utilization of the existing mail-order pharmacy program.
The department shall reduce reimbursement for over-the-counter medications while maintaining reimbursement for those over-the-counter medications that can replace more costly prescription medications.

The department shall seek public-private partnerships and federal funds that are or may become available to implement health information technology projects under the federal American recovery and reinvestment act of 2009.

The department shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race.

$79,000 of the general fund--state appropriation for fiscal year 2010 and $53,000 of the general fund--federal appropriation are provided solely to implement Substitute House Bill No. 1845 (medical support obligations).

$63,000 of the general fund--state appropriation for fiscal year 2010, $583,000 of the general fund--state appropriation for fiscal year 2011, and $864,000 of the general fund--federal appropriation are provided solely to implement Engrossed House Bill No. 2194 (extraordinary medical placement for offenders). The department shall work in partnership with the department of corrections to identify services and find placements for offenders who are released through the extraordinary medical placement program. The department shall collaborate with the department of corrections to identify and track cost savings to the department of corrections, including medical cost savings, and to identify and track expenditures incurred by the aging and disability services program for community services and by the medical assistance program for medical expenses. A joint report regarding the identified savings and expenditures shall be provided to the office of financial management and the appropriate fiscal committees of the legislature by November 30, 2010. If this bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.
Sufficient amounts are provided in this section to provide full benefit dual eligible beneficiaries with medicare part D prescription drug copayment coverage in accordance with RCW 74.09.520.

The appropriations in this section are subject to the following conditions and limitations:

1. The department of health shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives
unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(2) Pursuant to RCW 43.135.055 and RCW 43.70.250, the department is authorized to establish fees by the amount necessary to fully support the cost of activities related to the administration of long-term care worker certification. The department is further authorized to increase fees by the amount necessary to implement the regulatory requirements of the following bills: House Bill No. 1414 (health care assistants), House Bill No. 1740 (dental residency licenses), and House Bill No. 1899 (retired active physician licenses).

((4)) (3) $764,000 of the health professions account--state appropriation is provided solely for the medical quality assurance commission to maintain disciplinary staff and associated costs sufficient to reduce the backlog of disciplinary cases and to continue to manage the disciplinary caseload of the commission.

((5)) (4) $57,000 of the general fund--state appropriation for fiscal year 2010 and $58,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the midwifery licensure and regulatory program to offset a reduction in revenue from fees. There shall be no change to the current annual fees for new or renewed licenses for the midwifery program. The department shall convene the midwifery advisory committee on a quarterly basis to address issues related to licensed midwifery.

((6)) (5) Funding for the human papillomavirus vaccine shall not be included in the department's universal vaccine purchase program in fiscal year 2010. Remaining funds for the universal vaccine purchase program shall be used to continue the purchase of all other vaccines included in the program until May 1, 2010, or until state funds are exhausted, at which point state funding for the universal vaccine purchase program shall be discontinued. Funds from section 317 of the
federal public health services act direct assistance shall not be used in lieu of state funds.

((6)) Beginning July 1, 2010, the department, in collaboration with the department of social and health services, shall maximize the use of existing federal funds, including section 317 of the federal public health services act direct assistance as well as federal funds that may become available under the American recovery and reinvestment act, in order to continue to provide immunizations for low-income, nonmedicaid eligible children up to three hundred percent of the federal poverty level in state-sponsored health programs.

((7)) The department shall eliminate outreach activities for the health care directives registry and use the remaining amounts to maintain the contract for the registry and minimal staffing necessary to administer the basic entry functions for the registry.

((8)) Funding in this section reflects a temporary reduction of resources for the 2009-11 fiscal biennium for the state board of health to conduct health impact reviews.

((9)) Pursuant to RCW 43.135.055 and 43.70.125, the department is authorized to adopt rules to establish a fee schedule to apply to applicants for initial certification surveys of health care facilities for purposes of receiving federal health care program reimbursement. The fees shall only apply when the department has determined that federal funding is not sufficient to compensate the department for the cost of conducting initial certification surveys. The fees for initial certification surveys may be established as follows: Up to $1,815 for ambulatory surgery centers, up to $2,015 for critical access hospitals, up to $980 for end stage renal disease facilities, up to $2,285 for home health agencies, up to $2,285 for hospice agencies, up to $2,285 for hospitals, up to $520 for rehabilitation facilities, up to $690 for rural health clinics, and up to $7,000 for transplant hospitals.

((10)) Funding for family planning grants for fiscal year 2011 is reduced in the expectation that federal funding shall become available to expand coverage of services for individuals through programs at the department of social and health services. In the event that such funding is not provided, the legislature intends to continue funding through a supplemental appropriation at fiscal year 2010 levels.
