NEW SECTION.  Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as
may be necessary to finance a unified health care plan for the WMIP program enrollment. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP, the health care authority and the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The health care authority and the department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and
providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(8) The legislature finds that regular review of comparative juvenile court data is important to juvenile courts' quality assurance and program improvement efforts. By December 1, 2011, the joint legislative audit and review committee shall recommend to the fiscal committees of the legislature a format of data sharing between the juvenile rehabilitation administration and the juvenile courts, including reporting periods and content, in order to optimize quality assurance and program outcomes.

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed $170.37 for fiscal year 2012 and shall not exceed $171.43 for fiscal year 2013, including the rate add-ons described in (a) and (b) of this subsection. However, if the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by House Bill No. 1722 or Senate Bill No. 5581 (nursing home safety net...
assessment) is for any reason not approved and implemented, the weighted average nursing facility payment rate shall not exceed $159.87 for fiscal year 2012 and shall not exceed $160.93 for fiscal year 2013. There will be no adjustments for economic trends and conditions in fiscal years 2012 and 2013. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. When no economic trends and conditions factor for either fiscal year is defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the component rate allocations established in accordance with chapter 74.46 RCW.

(a) Within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed $1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than $15 in calendar year 2008, according to cost report data. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. The department shall continue reporting requirements and a settlement process to ensure that the funds are spent according to this subsection.

(b) The department shall do a comparative analysis of the facility based payment rates calculated on July 1, 2011, using the payment methodology defined in Substitute House Bill No. 1249 (nursing home payment methodology), to the facility-based payment rates calculated to produce the fiscal year 2010 weighted average nursing facility payment rate published in chapter 37, Laws of 2010. If the former is smaller than the latter, the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net
assessment as a medicaid allowable cost. The nursing facility safety
net rate add-on may not be included in the calculation of the annual
statewide weighted average nursing facility payment rate.

(d) If the waiver requested from the federal centers for medicare
and medicaid services in relation to the safety net assessment created
by House Bill No. 1722 or Senate Bill No. 5581 (nursing home safety net
assessment) is for any reason not approved and implemented, subsections
(b) and (c) of this subsection do not apply.

(2) After examining actual nursing facility cost information, the
legislature finds that the medicaid nursing facility rates calculated
pursuant to Substitute House Bill No. 1249 (nursing facility medicaid
payments) provides sufficient reimbursement to efficient and
economically operating nursing facilities and bears a reasonable
relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall
issue no additional certificates of capital authorization for fiscal
year 2012 and no new certificates of capital authorization for fiscal
year 2013 and shall grant no rate add-ons to payment rates for capital
improvements not requiring a certificate of need and a certificate of
capital authorization for fiscal years 2012 and 2013.

(4) The long-term care program may develop and pay enhanced rates
for exceptional care to nursing homes for persons with traumatic brain
injuries who are transitioning from hospital care. The cost per
patient day for caring for these clients in a nursing home setting may
be equal to or less than the cost of caring for these clients in a
hospital setting.

(5) Amounts appropriated in this section reflect a reduction to
funds appropriated for in-home care. The department shall reduce the
number of in-home hours authorized. The reduction shall be scaled
based on the acuity level of care recipients. The largest hour
reductions shall be to lower acuity patients and the smallest hour
reductions shall be to higher acuity patients.

(6) $2,090,000 of the general fund--state appropriation for fiscal
year 2012, $2,163,000 of the general fund--state appropriation for
fiscal year 2013, and $4,183,000 of the general fund--federal
appropriation are provided solely for state contributions for
individual provider health care benefits. Pursuant to the collective
bargaining agreement negotiated with the exclusive bargaining
representative of individual providers established under RCW 74.39A.270, the state shall contribute to the multiemployer health benefits trust fund $1.96 per paid hour worked by individual providers.

(7) $12,671,000 of the general fund--state appropriation for fiscal year 2012, $13,512,000 of the general fund--state appropriation for fiscal year 2013, and $26,182,000 of the general fund--federal appropriation are provided solely for home care agencies to purchase health coverage for home care providers. In order to negotiate the most comprehensive health benefits package for its employees, each agency may determine benefit levels according to the hours an employee works to provide state-funded personal care. At a minimum, employees who work 35 hours a week or greater must receive a comprehensive medical benefit. The department shall not pay an agency for benefits provided to an employee who otherwise receives health care coverage through other family members, other employment-based coverage, or military or veteran's coverage. The department shall require annually, each home care agency to review each of its employee's available health coverage and to provide a written declaration to the department verifying that health benefits purchased with public funds are solely for employees that do not have other available coverage. Home care agencies may determine a reasonable employee copremium not to exceed 20 percent of the total benefit cost.

(8) $2,063,000 of the general fund--state appropriation for fiscal year 2012, $2,195,000 of the general fund--state appropriation for fiscal year 2013, and $4,260,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, for instructional costs associated with the training of individual providers. House Bill No. 1548 and Senate Bill No. 5473 (long-term care worker requirements) make statutory changes to the increased training requirements and therefore the state shall contribute to the partnership $0.17 per paid hour worked by all home care workers. This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection.

(9) $1,775,000 of the general fund--state appropriation for fiscal year 2012, $1,866,000 of the general fund--state appropriation for...
fiscal year 2013, and $3,642,000 of the general fund--federal appropriation are provided solely to compensate individual providers who are not related to their clients and agency providers for time required to participate in enhanced mandatory basic training.

(10) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(11) $3,210,000 of the general fund--state appropriation for fiscal year 2012, $3,396,000 of the general fund--state appropriation for fiscal year 2013, and $6,606,000 of the general fund--federal appropriation are provided solely to provide dental coverage through the aging and disability services administration's home and community-based waiver programs. Services shall include preventive, routine, and emergent dental care for eligible long-term care clients and clients with developmental disabilities.

(12) The department shall eliminate the adult day health program under the state plan 1915(i) option and shall reestablish it under the long-term care home and community-based waiver. The department shall also establish a day services option under the developmental disabilities home and community-based service waivers.

(13) $4,588,000 of the general fund--state appropriation for fiscal year 2012, $4,559,000 of the general fund--state appropriation for fiscal year 2013, and $9,237,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment.

(14) $1,840,000 of the general fund--state appropriation for fiscal year 2012 and $1,877,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for operation of the volunteer services program. Funding shall be prioritized towards serving
populations traditionally served by long-term care services to include senior citizens and persons with disabilities.

(15) In accordance with Substitute House Bill No. 1277 (licensed settings for vulnerable adults) nursing facility and adult family home fees are increased in fiscal year 2012 as necessary to meet the actual costs of conducting licensure, inspection, and regulatory programs.

(a) The current annual renewal license fee for nursing facilities shall be increased to $359 per bed beginning in fiscal year 2012 and assumes $517,000 of the general fund--private/local appropriation. Nursing facilities shall receive a vendor rate increase of $0.08 per medicaid patient day to cover the license fee increase for publicly funded beds.

(b) The current annual renewal license fee for adult family homes shall be increased to $386 per bed beginning in fiscal year 2012 and assumes $12,273,000 of the general fund--private/local appropriation. Adult family homes shall receive a corresponding vendor rate increase of $1.02 per medicaid patient day to cover the license fee increase for publicly funded beds.

(16) $3,316,000 of the traumatic brain injury account--state appropriation is provided solely to continue services for persons with traumatic brain injury (TBI) as defined in Substitute House Bill No. 1614 (traumatic brain injury strategic partnership).

(17) The department is authorized to place long-term care clients residing in nursing homes and paid for with state only funds into less restrictive community care settings while continuing to meet the client's care needs.

(18) $30,000 of the general fund--state appropriation for fiscal year 2012 and $30,000 of the general fund--federal appropriation are provided solely to implement Engrossed Second Substitute House Bill No. 1901 (reshaping the delivery of long-term care services). If the bill is not enacted by June 30, 2011, the amounts provided in this subsection shall lapse.

The options should also reduce administrative burdens on school districts, the inefficiencies in the current system of pooling risk, and the inequities in coverage. In developing the options, the authority shall evaluate and may incorporate the savings strategies identified by the state auditor in the January 31, 2011, K-12 health benefits study. Each option must be developed with the objective of implementing the reforms during the 2013-2015 fiscal biennium.

(b) By December 15, 2011, the health care authority shall report the options developed to the governor and the fiscal committees of the legislature.

(c) By January 1, 2012, the health care authority shall submit to the governor and the fiscal committees of the legislature proposed legislation to implement the option identified by the administrator of the health care authority as most effectively furthering the goals identified in this subsection.

(9) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.
(10) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(11) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(12) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(13) $7,102,000 of the general fund--state appropriation for fiscal year 2012, $7,102,000 of the general fund--state appropriation for fiscal year 2013, and $14,204,000 of the general fund--federal appropriation are provided solely for low-income care disproportionate share hospital payments under RCW 74.09.730(1)(a).

(14) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or
the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(15) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2011-2013 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2011, and by November 1, 2012, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2012 and fiscal year 2013, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2011-13 biennial operating appropriations act and in effect on July 1, 2011, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2011-13 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the
federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $32,673,000 of the general fund--state appropriation for fiscal year 2012, of which $6,570,000 is appropriated in section 204(1) of this act, and $29,693,000 of the general fund--state appropriation for fiscal year 2013, of which $6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in RCW 74.60.080 and rate increases in RCW 74.60.090 funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

(16) The contract with the managed care plan to provide services for disability lifeline clients shall be designed to incentivize care in the most appropriate setting, including maximizing primary care-based services and optimizing appropriate hospital utilization and savings. The health care authority may include shared savings or other risk sharing arrangements in the contract with the managed care plan in order to incentivize aggressive management of hospital services, including prior authorization, concurrent review, and discharge planning. In determining the allocation of shared savings, the health care authority shall consider the appropriate balance between incentivizing aggressive management of hospital services by the managed care plan and realizing budgetary savings from the state's investment in the inclusion of care management and mental health services in the managed care contract.
(17) The health care authority shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for lifeline medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(18) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(19) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(20) $175,000 of the general fund--state appropriation for fiscal year 2012, $263,000 of the general fund--state appropriation for fiscal year 2013, and $2,485,000 of the general fund--federal appropriation are provided solely to expand eligibility for the take charge family planning program to cover individuals with family incomes below 250 percent of the federal poverty level. The health care authority shall collect data on enrollment and utilization, and the health care authority shall study whether this expansion reduces medical assistance expenditures by reducing covered pregnancies. The health care authority shall report its findings to the legislature by December 1, 2012.

(21) For children with family incomes above 200 percent of the federal poverty level in the state-funded children's health program for children who are not eligible for coverage under the federally funded children's health insurance program, premiums shall be set every two years in an amount equal to the average state-only share of the per
capita cost of coverage in the state-funded children's health program for children in families with incomes at or less than two hundred percent of the federal poverty level.

(22) $704,000 of the general fund--state appropriation for fiscal year 2012, $726,000 of the general fund--state appropriation for fiscal year 2013, and $1,431,000 of the general fund--federal appropriation are provided solely for disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

The project shall promote collaboration among community mental health centers, other major prescribers of atypical antipsychotic medications to adults enrolled in state medical assistance programs, and psychiatrists, pharmacists, and other specialists at the University of Washington department of psychiatry and/or other research universities. The collaboration shall include patient-specific prescriber consultations by psychiatrists and pharmacists specializing in treatment of severe and persistent mental illnesses among adults; production of profiles to assist prescribers and clinics in tracking their prescriptive practices and their patients' medication use and adherence relative to evidence-based practices guidelines, other prescribers, and patients at other clinics; and in-service seminars at
which participants can share and increase their knowledge of evidence-based and other effective prescriptive practices. The health care authority shall enter into an interagency agreement with the office of the attorney general for expenditure of $300,000 of the state's proceeds of the cy pres settlement in State of Washington v. The appropriations in this section are subject to the following conditions and limitations:
(1) The department of health shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.
(2) In accordance with RCW 43.70.250 and 43.135.055, the department is authorized to establish and raise fees in fiscal year 2012 as

(3) It is the intent of the legislature that the reductions in appropriations to the AIDS/HIV programs shall be achieved, to the greatest extent possible, by reducing those state government administrative costs that do not affect direct client services or direct service delivery or programs. If reductions made to administrative costs are insufficient to align program costs with appropriations for AIDS/HIV programs, the agency shall reduce prevention services as necessary. The agency shall not change client eligibility standards or benefit levels during the 2011-2013 fiscal biennium.

(d)(i) Funding for teacher librarians, school nurses, social workers, school psychologists, and guidance counselors is allocated based on the school prototypes as provided in RCW 28A.150.260 and is considered certificated instructional staff, except as provided in (d)(ii) of this subsection.

(d)(ii) Students in approved career and technical education and skill center programs generate certificated instructional staff units to provide for the services of teacher librarians, school nurses, social workers, school psychologists, and guidance counselors at the following combined rate per 1000 students:

| Career and Technical Education students | 2.02 per 1000 student FTE's |
| Skill Center students                  | 2.36 per 1000 student FTE's |

(3) ADMINISTRATIVE STAFF ALLOCATIONS

Code Rev/LL:1el 101 H-2519.2/11 2nd draft
for general education students are determined using the formula-generated staff units provided in RCW 28A.150.260, and adjusted based on a district's annual average full-time equivalent student enrollment in each grade.

(b) Students in approved career and technical education and skill center programs generate certificated school building-level administrator staff units at per student rates that exceed the general education rate in (a) of this subsection by the following percentages:

Career and Technical Education students ................. 2.5 percent
Skill Center students ....................................... 19.75 percent

(4) CLASSIFIED STAFF ALLOCATIONS
Allocations for classified staff units providing school building-level and district-wide support services for the 2011-12 and 2012-13 school years are determined using the formula-generated staff units provided in RCW 28A.150.260, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade.

(5) CENTRAL OFFICE ALLOCATIONS
In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2011-12 and 2012-13 school year for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b), by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.
(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same staff unit per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students in the same grade in this subsection (5) by 3.69 percent for career and technical education students, and 21.92 percent for skill center students.

(6) FRINGE BENEFIT ALLOCATIONS

Fringe benefit allocations shall be calculated at a rate of 16.30 percent in the 2011-12 school year and 16.30 percent in the 2012-13 school year for certificated salary allocations provided under subsections (2), (3), and (5) of this section, and a rate of 18.68 percent in the 2011-12 school year and 18.68 percent in the 2012-13 school year for classified salary allocations provided under subsections (4) and (5) of this section.

(7) INSURANCE BENEFIT ALLOCATIONS

Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504 of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsections (2), (3), and (5) of this section; and

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

Funding is allocated per annual average full-time equivalent student for the maintenance, supplies, and operating costs (MSOC) incurred by school districts, consistent with the requirements of RCW 28A.150.260.

(c) Students in approved exploratory and preparatory career and technical education programs generate a per student MSOC allocation that is equal to the rate for general education students calculated in (a) of this subsection, multiplied by a factor of 2.459.

(d) Students in laboratory science courses generate per student FTE MSOC allocations which equal the per student FTE rate for general education students established in (a) of this subsection.

(9) SUBSTITUTE TEACHER ALLOCATIONS
For the 2011-12 and 2012-13 school years, funding for substitute costs for classroom teachers is based on four (4) funded substitute days per classroom teacher unit generated under subsection (2) of this section, at a daily substitute rate of $151.86.

(10) ALTERNATIVE LEARNING EXPERIENCE PROGRAM FUNDING
(i) Beginning in the 2011-12 school year, general apportionment allocations resulting from this section and compensation factors in sections 503 and 504 of this act shall be multiplied by a factor of...
for students participating in alternative learning experience (ALE) programs defined in WAC 392-121-182.

(ii) School districts providing ALE programs as defined in WAC 392-121-182 may not provide any compensation, reimbursement, gift, reward, or gratuity to any parents, guardians, or students for participation in ALE programs. This prohibition includes, but is not limited to, providing funds to parents, guardians, or students for the purchase of educational materials, supplies, experiences, services, or technological equipment. A district may purchase educational materials, equipment, or other nonconsumable supplies for students' use in ALE programs if the purchase is consistent with laws and rules and made in the same manner as such purchases are made for students in the district's non-ALE program. Items so purchased remain the property of the school district upon ALE program completion. These requirements in this subsection extend to private and multidistrict cooperative ALE providers, and each district shall be responsible for monitoring the compliance of its ALE providers with this subsection.

(iii) The superintendent of public instruction shall require all districts receiving general apportionment funding for alternative learning experience (ALE) programs as defined in WAC 392-121-182 to provide separate financial accounting of expenditures for the ALE programs offered in district or with a provider, including but not limited to private companies and multidistrict cooperatives, as well as accurate, monthly headcount and FTE enrollment claimed for basic education, including separate counts of resident and nonresident students.

(11) VOLUNTARY FULL DAY KINDERGARTEN PROGRAMS

Funding in this section is sufficient to fund voluntary full day kindergarten programs in qualifying high poverty schools, pursuant to RCW 28A.150.220 and 28A.150.315. Each kindergarten student who enrolls for the voluntary full-day program in a qualifying school shall count as one-half of one full-time equivalent student for purpose of making allocations under this section. Funding in this section provides full-day kindergarten programs for 21 percent of kindergarten enrollment in the 2011-12 school year, and 22 percent in the 2012-13 school year. Funding priority shall be given to schools with the highest poverty levels, as measured by a three-year rolling average of free and reduced price lunch eligibility rates in each school, based on data from the
three most recently completed school years. Funding in this section is sufficient to fund voluntary full day kindergarten programs for July and August of the 2010-11 school year. Pursuant to RCW 28A.150.200 and to implement the phase-in schedule of RCW 28A.150.315, all increases in the percentage of students served in the voluntary full day kindergarten program are within the program of basic education.

(12) ADDITIONAL FUNDING FOR SMALL SCHOOL DISTRICTS AND REMOTE AND NECESSARY PLANTS

For small school districts and remote and necessary school plants within any district which have been judged to be remote and necessary by the state board of education, additional staff units are provided to ensure a minimum level of staffing support. Additional administrative and certificated instructional staff units provided to districts in this subsection shall be reduced by the staff units otherwise provided in subsections (2) through (5) of this section on a per district basis.

(a) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the state board of education and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(b) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:
(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units;

(c) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full-time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full-time equivalent students;

(d) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit;

(e) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit;

(f)(i) For enrollments generating certificated staff unit allocations under this subsection, one classified staff unit for each 2.94 certificated staff units allocated under such subsections;

(ii) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than
one hundred eighty students, an additional one-half of a classified staff unit; and

(g) School districts receiving additional staff units to support small student enrollments and remote and necessary plants under subsection (12) of this section shall generate additional MSOC allocations consistent with the nonemployee related costs (NERC) allocation formula in place for the 2010-11 school year as provided section 502, chapter 37, Laws of 2010 1st sp. sess. (2010 supplemental budget), adjusted for annually for inflation.

(13) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(14) The superintendent may distribute a maximum of $2,479,000 outside the basic education formula during fiscal years 2012 and 2013 as follows:

(a) $589,000 of the general fund--state appropriation for fiscal year 2012 and $599,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW.

(b) $436,000 of the general fund--state appropriation for fiscal year 2012 and $436,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs.

(c) Funding in this section is sufficient to fund adjustments to school districts' allocations resulting from the implementation of the prototypical school funding formula, pursuant to chapter 236, Laws of 2010 (K-12 education funding). The funding in this section is intended to hold school districts harmless in total for funding changes
resulting from conversion to the prototypical school formula in the general apportionment program, the learning assistance program, the transitional bilingual program, and the highly capable program, after adjustment for changes in enrollment and other caseload adjustments.

(15) $208,000 of the general fund--state appropriation for fiscal year 2012 and $211,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for school district emergencies as certified by the superintendent of public instruction. At the close of the fiscal year the superintendent of public instruction shall report to the office of financial management and the appropriate fiscal committees of the legislature on the allocations provided to districts and the nature of the emergency.

(16) Amounts in this section include adjustments made by the superintendent of public instruction for the repayment of financial contingency funds allocated in fiscal year 2011, as specified in section 501 of the 2011 supplemental budget (chapter 5, Laws of 2011). For any amount allocated to a district in state fiscal year 2011, the superintendent of public instruction shall deduct in state fiscal year 2012 from the district's general apportionment the amount of the emergency contingency allocation and any earnings by the school district on the investment of a temporary cash surplus due to the emergency contingency allocation. Repayments or advances will be accomplished by a reduction in the school district's apportionment payments on or before June 30th of the school year following the distribution of the emergency contingency allocation. All disbursements, repayments, and outstanding allocations to be repaid of the emergency contingency pool shall be reported to the office of financial management and the appropriate fiscal committees of the legislature on July 1st and January 1st of each year.

(17) Funding in this section is sufficient to fund a maximum of 1.6 FTE enrollment for skills center students pursuant to chapter 463, Laws of 2007.

(18) Beginning in the 2011-12 school year, students participating in running start programs may be funded up to a combined maximum enrollment of 1.2 FTE including school district and institution of higher education enrollment. Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the higher education
coordinating board, and the education data center, shall annually track
and report to the fiscal committees of the legislature on the combined
FTE experience of students participating in the running start program,
including course load analyses at both the high school and community
and technical college system.

(19) If two or more school districts consolidate and each district
was receiving additional basic education formula staff units pursuant
to subsection (12) of this section, the following apply:

(a) For three school years following consolidation, the number of
basic education formula staff units shall not be less than the number
of basic education formula staff units received by the districts in the
school year prior to the consolidation; and

(b) For the fourth through eighth school years following
consolidation, the difference between the basic education formula staff
units received by the districts for the school year prior to
consolidation and the basic education formula staff units after
consolidation pursuant to subsection (12) of this section shall be
reduced in increments of twenty percent per year.

(20)(a) Indirect cost charges by a school district to approved
career and technical education middle and secondary programs shall not
exceed 15 percent of the combined basic education and career and
technical education program enhancement allocations of state funds.
Middle and secondary career and technical education programs are
considered separate programs for funding and financial reporting
purposes under this section.

(b) Career and technical education program full-time equivalent
enrollment shall be reported on the same monthly basis as the
enrollment for students eligible for basic support, and payments shall
be adjusted for reported career and technical education program
enrollments on the same monthly basis as those adjustments for
enrollment for students eligible for basic support.

INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION

(1) The following calculations determine the salaries used in the
state allocations for certificated instructional, certificated
administrative, and classified staff units as provided in RCW
28A.150.280 and under section 503 of this act:
(a) Salary allocations for certificated instructional staff units are determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 2 by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP document 1; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district are determined based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 2.

(2) For the purposes of this section:
   (a) "LEAP Document 1" means the staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on April 1, 2011, at 6:00 hours; and
   (b) "LEAP Document 2" means the school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on April 1, 2011, at 6:00 hours.

(3) Incremental fringe benefit factors are applied to salary adjustments at a rate of 15.66 percent for school year 2011-12 and 15.66 percent for school year 2012-13 for certificated instructional and certificated administrative staff and 15.18 percent for school year 2011-12 and 15.18 percent for the 2012-13 school year for classified staff.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

governmental units. The rates in the salary schedules or plans shall
be increased if necessary to attain comparable worth under an
implementation plan under RCW 41.06.155 and, for institutions of higher
education and related boards, shall be competitive for positions of a
similar nature in the state or the locality in which an institution of
higher education or related board is located. Such adoption and
revision is subject to approval by the director of financial management
in accordance with chapter 43.88 RCW;

(k) Increment increases within the series of steps for each pay
grade based on length of service for all employees whose standards of

2013, a salary or wage increase shall not be granted to any exempt
position under this chapter, except that a salary or wage increase may

state. An agency must provide lump sum compensation within existing
resources. If the person receiving the relocation payment terminates
or causes termination with the state, for reasons other than layoff, disability separation, or other good cause as determined by an agency director, within one year of the date of the employment, the state is entitled to reimbursement of the lump sum compensation from the person;

chapter 41.60 RCW.
From July 1, 2011, until June 30, 2013, no performance-based awards
or incentives may be granted by the director or employers to employees
pursuant to a performance management confirmation granted by the
department of personnel under WAC 357-37-055.

Sec. 936. RCW 41.50.110 and 2009 c 564 s 924 are each amended to
read as follows:
(1) Except as provided by RCW 41.50.255 and subsection (6) of this
section, all expenses of the administration of the department, the
expenses of administration of the retirement systems, and the expenses
of the administration of the office of the state actuary created in
chapters 2.10, 2.12, 41.26, 41.32, 41.40, 41.34, 41.35, 41.37, 43.43,
and 44.44 RCW shall be paid from the department of retirement systems
expense fund.
(2) In order to reimburse the department of retirement systems
expense fund on an equitable basis the department shall ascertain and
report to each employer, as defined in RCW 41.26.030, 41.32.010,
41.35.010, 41.37.010, or 41.40.010, the sum necessary to defray its
proportional share of the entire expense of the administration of the
retirement system that the employer participates in during the ensuing
biennium or fiscal year whichever may be required. Such sum is to be
computed in an amount directly proportional to the estimated entire
expense of the administration as the ratio of monthly salaries of the
employer's members bears to the total salaries of all members in the
entire system. It shall then be the duty of all such employers to
include in their budgets or otherwise provide the amounts so required.
(3) The department shall compute and bill each employer, as defined in RCW 41.26.030, 41.32.010, 41.35.010, 41.37.010, or 41.40.010, at the end of each month for the amount due for that month to the department of retirement systems expense fund and the same shall be paid as are its other obligations. Such computation as to each employer shall be made on a percentage rate of salary established by the department. However, the department may at its discretion establish a system of billing based upon calendar year quarters in which event the said billing shall be at the end of each such quarter.

(4) The director may adjust the expense fund contribution rate for each system at any time when necessary to reflect unanticipated costs or savings in administering the department.

(5) An employer who fails to submit timely and accurate reports to the department may be assessed an additional fee related to the increased costs incurred by the department in processing the deficient reports. Fees paid under this subsection shall be deposited in the retirement system expense fund.

(a) Every six months the department shall determine the amount of an employer's fee by reviewing the timeliness and accuracy of the reports submitted by the employer in the preceding six months. If those reports were not both timely and accurate the department may prospectively assess an additional fee under this subsection.

(b) An additional fee assessed by the department under this subsection shall not exceed fifty percent of the standard fee.

(c) The department shall adopt rules implementing this section.

(6) Expenses other than those under RCW 41.34.060(3) shall be paid pursuant to subsection (1) of this section.

(7) During the ((2007–2009 and)) 2009-2011 and 2011-2013 fiscal biennia, the legislature may transfer from the department of retirement systems' expense fund to the state general fund such amounts as reflect the excess fund balance of the fund.

Sec. 937. RCW 41.80.010 and 2010 c 104 s 1 are each amended to read as follows:

(1) For the purpose of negotiating collective bargaining agreements under this chapter, the employer shall be represented by the governor or governor's designee, except as provided for institutions of higher education in subsection (4) of this section.
(2)(a) If an exclusive bargaining representative represents more than one bargaining unit, the exclusive bargaining representative shall negotiate with each employer representative as designated in subsection (1) of this section one master collective bargaining agreement on behalf of all the employees in bargaining units that the exclusive bargaining representative represents. For those exclusive bargaining representatives who represent fewer than a total of five hundred employees each, negotiation shall be by a coalition of all those exclusive bargaining representatives. The coalition shall bargain for a master collective bargaining agreement covering all of the employees represented by the coalition. The governor's designee and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of agency-specific issues for inclusion in or as an addendum to the master collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. This section does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

(b) This subsection (2) does not apply to exclusive bargaining representatives who represent employees of institutions of higher education, except when the institution of higher education has elected to exercise its option under subsection (4) of this section to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(c) If five hundred or more employees of an independent state elected official listed in RCW 43.01.010 are organized in a bargaining unit or bargaining units under RCW 41.80.070, the official shall be consulted by the governor or the governor's designee before any agreement is reached under (a) of this subsection concerning supplemental bargaining of agency specific issues affecting the employees in such bargaining unit.

(3) The governor shall submit a request for funds necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreement or for legislation necessary to implement the agreement. Requests for funds necessary to implement the provisions of bargaining agreements shall not be submitted to the legislature by the governor unless such requests:
(a) Have been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the requests are to be considered; and

(b) Have been certified by the director of the office of financial management as being feasible financially for the state.

The legislature shall approve or reject the submission of the request for funds as a whole. The legislature shall not consider a request for funds to implement a collective bargaining agreement unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 41.80.090.

(4)(a)(i) For the purpose of negotiating agreements for institutions of higher education, the employer shall be the respective governing board of each of the universities, colleges, or community colleges or a designee chosen by the board to negotiate on its behalf.

(ii) A governing board of a university or college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section, except that:

(A) The governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of a university or college that the representative represents; or

(B) If the parties mutually agree, the governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of more than one university or college that the representative represents.

(iii) A governing board of a community college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(b) Prior to entering into negotiations under this chapter, the institutions of higher education or their designees shall consult with
the director of the office of financial management regarding financial
and budgetary issues that are likely to arise in the impending
negotiations.

(c)(i) If appropriations are necessary to implement the
compensation and fringe benefit provisions of the bargaining agreements
reached between institutions of higher education and exclusive
bargaining representatives agreed to under the provisions of this
chapter, the governor shall submit a request for such funds to the
legislature according to the provisions of subsection (3) of this
section, except as provided in (c)(ii) of this subsection.

(ii) In the case of a bargaining unit of employees of institutions
of higher education in which the exclusive bargaining representative is
certified during or after the conclusion of a legislative session, the
legislature may act upon the compensation and fringe benefit provisions
of the unit's initial collective bargaining agreement if those
provisions are agreed upon and submitted to the office of financial
management and legislative budget committees before final legislative
action on the biennial or supplemental operating budget by the sitting
legislature.

(5) There is hereby created a joint committee on employment
relations, which consists of two members with leadership positions in
the house of representatives, representing each of the two largest
caucuses; the chair and ranking minority member of the house
appropriations committee, or its successor, representing each of the
two largest caucuses; two members with leadership positions in the
senate, representing each of the two largest caucuses; and the chair
and ranking minority member of the senate ways and means committee, or
its successor, representing each of the two largest caucuses. The
governor shall periodically consult with the committee regarding
appropriations necessary to implement the compensation and fringe
benefit provisions in the master collective bargaining agreements, and
upon completion of negotiations, advise the committee on the elements
of the agreements and on any legislation necessary to implement the
agreements.

(6) If, after the compensation and fringe benefit provisions of an
agreement are approved by the legislature, a significant revenue
shortfall occurs resulting in reduced appropriations, as declared by
proclamation of the governor or by resolution of the legislature, both
parties shall immediately enter into collective bargaining for a
mutually agreed upon modification of the agreement.

(7) After the expiration date of a collective bargaining agreement
negotiated under this chapter, all of the terms and conditions
specified in the collective bargaining agreement remain in effect until
the effective date of a subsequently negotiated agreement, not to
exceed one year from the expiration date stated in the agreement.
Thereafter, the employer may unilaterally implement according to law.

(8) For the 2011-2013 fiscal biennium, a collective bargaining
agreement related to employee health care benefits negotiated between
the employer and coalition pursuant to RCW 41.80.020(3) regarding the
dollar amount expended on behalf of each employee shall be a separate
agreement for which the governor may request funds necessary to
implement the agreement. If such an agreement is negotiated and funded
by the legislature, this agreement will supersede any terms and
conditions of an expired 2009-2011 biennial master collective
bargaining agreement under this chapter regarding health care benefits.

Sec. 938. RCW 41.80.020 and 2010 c 283 s 16 are each amended to
read as follows:

(1) Except as otherwise provided in this chapter, the matters
subject to bargaining include wages, hours, and other terms and
conditions of employment, and the negotiation of any question arising
under a collective bargaining agreement.

(2) The employer is not required to bargain over matters pertaining
to:

(a) Health care benefits or other employee insurance benefits,
except as required in subsection (3) of this section;
(b) Any retirement system or retirement benefit; or
(c) Rules of the director of personnel or the Washington personnel

(3) Matters subject to bargaining include the number of names to be
certified for vacancies, promotional preferences, and the dollar amount
expended on behalf of each employee for health care benefits. However,
except as provided otherwise in this subsection for institutions of
higher education, negotiations regarding the number of names to be
certified for vacancies, promotional preferences, and the dollar amount
expenditure on behalf of each employee for health care benefits shall be
conducted between the employer and one coalition of all the exclusive
bargaining representatives subject to this chapter. The exclusive
bargaining representatives for employees that are subject to chapter
47.64 RCW shall bargain the dollar amount expended on behalf of each
employee for health care benefits with the employer as part of the
coalition under this subsection. Any such provision agreed to by the
employer and the coalition shall be included in all master collective
bargaining agreements negotiated by the parties. For institutions of
higher education, promotional preferences and the number of names to be
certified for vacancies shall be bargained under the provisions of RCW
41.80.010(4). For agreements covering the 2011-2013 fiscal biennium,
any agreement between the employer and the coalition regarding the
dollar amount expended on behalf of each employee for health care
benefits is a separate agreement and shall not be included in the
master collective bargaining agreements negotiated by the parties.

(4) The employer and the exclusive bargaining representative shall
not agree to any proposal that would prevent the implementation of
approved affirmative action plans or that would be inconsistent with
the comparable worth agreement that provided the basis for the salary
changes implemented beginning with the 1983-1985 biennium to achieve
compensable worth.

(5) The employer and the exclusive bargaining representative shall
not bargain over matters pertaining to management rights established in
RCW 41.80.040.

(6) Except as otherwise provided in this chapter, if a conflict
exists between an executive order, administrative rule, or agency
policy relating to wages, hours, and terms and conditions of employment
and a collective bargaining agreement negotiated under this chapter,
the collective bargaining agreement shall prevail. A provision of a
collective bargaining agreement that conflicts with the terms of a
statute is invalid and unenforceable.

(7) This section does not prohibit bargaining that affects
contracts authorized by RCW 41.06.142.

Sec. 939. RCW 43.07.129 and 2007 c 523 s 4 are each amended to

The allocation shall precede the distribution of the remaining earnings as prescribed under RCW 43.79A.040 and 43.84.092. The state treasurer shall establish a uniform allocation rate for all funds and accounts; except that the state treasurer may negotiate a different allocation rate with any state agency that has independent authority over funds not statutorily required to be held in the state treasury or in the custody of the
state treasurer. In no event shall the rate be less than the actual
costs incurred by the state treasurer's office. If no rate is
separately negotiated, the default rate for any funds held shall be the
rate set for funds held pursuant to statute.

During the 2009-2011 fiscal biennium and the 2011-2013 fiscal
biennium, the legislature may transfer from the state treasurer's

(4) During the 2009-2011 (fiscal biennium) and 2011-2013 fiscal biennia, moneys in the account may also be transferred into the state general fund.
(5) Expenditures from the account may be made to prevent closure of a business or facility, to prevent relocation of a business or facility in the state to a location outside the state, or to recruit a business or facility to the state. Expenditures may be authorized for:
(a) Workforce development;
(b) Public infrastructure needed to support or sustain the operations of the business or facility; and
(c) Other lawfully provided assistance, including, but not limited to, technical assistance, environmental analysis, relocation assistance, and planning assistance. Funding may be provided for such assistance only when it is in the public interest and may only be provided under a contractual arrangement ensuring that the state will receive appropriate consideration, such as an assurance of job creation or retention.

(6) The funds shall not be expended from the account unless:
(a) The circumstances are such that time does not permit the director of the department of commerce or the business or facility to secure funding from other state sources;
(b) The business or facility produces or will produce significant long-term economic benefits to the state, a region of the state, or a particular community in the state;

There shall be a fund, known as the "liquor revolving fund", which shall consist of all license fees, permit fees, penalties, forfeitures, and all other moneys, income, or revenue received by the board. The state treasurer shall be custodian of the fund. All moneys received by the board or any employee thereof, except for change funds and an amount of petty cash as fixed by the board within the authority of law
shall be deposited each day in a depository approved by the state treasurer and transferred to the state treasurer to be credited to the liquor revolving fund. During the 2009-2011 fiscal biennium, the legislature may transfer funds from the liquor revolving account [fund] to the state general fund and may direct an additional amount of liquor profits to be distributed to local governments. Neither the transfer of funds nor the additional distribution of liquor profits to local governments during the 2009-2011 fiscal biennium may reduce the excess fund distributions that otherwise would occur under RCW 66.08.190. During the 2011-2013 fiscal biennium, the legislature may transfer funds from the liquor revolving fund to the state general fund. The transfer during the 2011-2013 fiscal biennium may not reduce the excess fund distributions that otherwise would occur under RCW 66.08.190. Disbursements from the revolving fund shall be on authorization of the board or a duly authorized representative thereof. In order to maintain an effective expenditure and revenue control the liquor revolving fund shall be subject in all respects to chapter 43.88 RCW but no appropriation shall be required to permit expenditures and payment of obligations from such fund.

(1) Except for revenues generated by the 2003 surcharge of $0.42/liter on retail sales of spirits that (shall) must be distributed to the state general fund during the 2003-2005 biennium, when excess funds are distributed, all moneys subject to distribution (shall) must be disbursed as follows:
(a) Three-tenths of one percent to border areas under RCW 66.08.195; and
(b) Except as provided in subsection (4) of this section, from the amount remaining after distribution under (a) of this subsection, (i) fifty percent to the general fund of the state, (ii) ten percent to the counties of the state, and (iii) forty percent to the incorporated cities and towns of the state.
(2) During the months of June, September, December, and March of each year, prior to disbursing the distribution to incorporated cities and towns under subsection (1)(b) of this section, the treasurer ((shall)) must deduct from that distribution an amount that will fund...
that quarter's allotments under RCW 43.88.110 from any legislative
appropriation from the city and town research services account. The
treasurer (shall) must deposit the amount deducted into the city and
town research services account.

(3) The governor may notify and direct the state treasurer to
withhold the revenues to which the counties and cities are entitled
under this section if the counties or cities are found to be in
noncompliance pursuant to RCW 36.70A.340.

(4) During the 2011-2013 fiscal biennium, from the amount remaining
after distribution under subsection (1)(a) of this section, (a) 51.7
percent to the general fund of the state, (b) 9.7 percent to the
counties of the state, and (c) 38.6 percent to the incorporated cities
and towns of the state.

Sec. 953. RCW 66.08.235 and 2005 c 151 s 4 are each amended to

the board. Moneys in the account may be spent only after
appropriation. The liquor control board shall use deposits to this
account to fund construction and maintenance of a centralized
distribution center for liquor products intended for sale through the
board's liquor store and contract liquor store system. During the
(2001-2003) 2011-2013 fiscal biennium, the legislature may transfer
from the liquor control board construction and maintenance account to
the state general fund such amounts as reflect the (appropriations
reductions made by the 2002 supplemental appropriations act for
administrative efficiencies and savings) excess fund balance of the
account.

Sec. 954. RCW 67.70.260 and 2002 c 371 s 919 are each amended to
read as follows:

There is hereby created the lottery administrative account in the
state treasury. The account shall be managed, controlled, and
maintained by the director. The legislature may appropriate from the
account for the payment of costs incurred in the operation and
administration of the lottery. During the 2001-2003 fiscal biennium, the legislature may transfer from the lottery administrative account to the state general fund such amounts as reflect the appropriations reductions made by the 2002 supplemental appropriations act for administrative efficiencies and savings. During the 2011-2013 fiscal biennium, the lottery administrative account may also be used to fund an independent forecast of the lottery revenues conducted by the economic and revenue forecast council.

Sec. 955. RCW 70.48.440 and 1984 c 235 s 5 are each amended to read as follows:
The office of financial management shall establish a uniform equitable rate for reimbursing cities and counties for the care of sentenced felons who are the financial responsibility of the department of corrections and are detained or incarcerated in a city or county jail. During the 2011-2013 fiscal biennium, this rate may not exceed eighty dollars per day.

Until June 30, 1985, the rate for the care of sentenced felons who are the financial responsibility of the department of corrections shall be ten dollars per day. Cost of extraordinary emergency medical care incurred by prisoners who are the financial responsibility of the department of corrections under this chapter shall be reimbursed. The department of corrections shall be advised as far in advance as practicable by competent medical authority of the nature and course of treatment required to ensure the most efficient use of state resources to address the medical needs of the offender. In the event emergency medical care is needed, the department of corrections shall be advised as soon as practicable after the offender is treated.

Prior to June 30, 1985, the office of financial management shall meet with the corrections standards board to establish criteria to determine equitable rates regarding variable costs for sentenced felons who are the financial responsibility of the department of corrections after June 30, 1985. The office of financial management shall re-establish these rates each even-numbered year beginning in 1986.

Sec. 956. RCW 70.93.180 and 2010 1st sp.s. c 37 s 945 are each amended to read as follows:

(1) There is hereby created an account within the state treasury to
be known as the "waste reduction, recycling, and litter control account". Moneys in the account may be spent only after appropriation. Expenditures from the waste reduction, recycling, and litter control account shall be used as follows:

(a) Fifty percent to the department of ecology, for use by the departments of ecology, natural resources, revenue, transportation, and corrections, and the parks and recreation commission, for use in litter collection programs, to be distributed under RCW 70.93.220. The amount to the department of ecology shall also be used for a central coordination function for litter control efforts statewide, for the biennial litter survey under RCW 70.93.200(8), and for statewide public awareness programs under RCW 70.93.200(7). The amount to the department shall also be used to defray the costs of administering the funding, coordination, and oversight of local government programs for waste reduction, litter control, and recycling, so that local governments can apply one hundred percent of their funding to achieving program goals. The amount to the department of revenue shall be used to enforce compliance with the litter tax imposed in chapter 82.19 RCW;

(b) Twenty percent to the department for local government funding programs for waste reduction, litter control, and recycling activities by cities and counties under RCW 70.93.250, to be administered by the department of ecology; and

(c) Thirty percent to the department of ecology for waste reduction and recycling efforts.

(2) All taxes imposed in RCW 82.19.010 and fines and bail forfeitures collected or received pursuant to this chapter shall be deposited in the waste reduction, recycling, and litter control account and used for the programs under subsection (1) of this section.

(3) Not less than five percent and no more than ten percent of the amount appropriated into the waste reduction, recycling, and litter control account every biennium shall be reserved for capital needs, including the purchase of vehicles for transporting crews and for collecting litter and solid waste. Capital funds shall be distributed among state agencies and local governments according to the same criteria provided in RCW 70.93.220 for the remainder of the funds, so that the most effective waste reduction, litter control, and recycling programs receive the most funding. The intent of this subsection is to
provide funds for the purchase of equipment that will enable the
department to account for the greatest return on investment in terms of
reaching a zero litter goal.

(4) During the 2009-2011 fiscal biennium, the legislature may
transfer from the waste reduction, recycling, and litter control
account to the state general fund such amounts as reflect the excess
fund balance of the account. Additionally, during the 2009-2011 fiscal

(5) During the 2011-2013 fiscal biennium, the legislature may
transfer from the waste reduction, recycling, and litter control
account to the state general fund such amounts as reflect the excess
fund balance of the account. Additionally, during the 2011-2013 fiscal
biennium, subsection (1)(a), (b), and (c) of this section is suspended.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:
(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:
(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;
(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

The department shall not adopt rules or policies changing the definition of kin without authorizing legislation;

(4) To the extent funding is available, the department may reimburse nondepartmental members of the oversight committee for costs incurred in participating in the meetings of the oversight committee.

Sec. 962. RCW 82.14.310 and 2005 c 282 s 49 are each amended to read as follows:

(1) The county criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer must transfer into the county criminal justice assistance account from the general fund the sum of twenty-three million two hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer must increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year.

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (4) of this section, must be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county's funding factor as determined under this subsection.

(a) A county's funding factor is the sum of:

(i) The population of the county, divided by one thousand, and multiplied by two-tenths;

(ii) The crime rate of the county, multiplied by three-tenths; and

(iii) The annual number of criminal cases filed in the county superior court, for each one thousand in population, multiplied by five-tenths.

both the crime rate as described under (ii) of this subsection and the
annual number of criminal cases that are filed as described under (iii)
of this subsection. Future distributions ((shall)) must be based on
the most recent figures for both the crime rate as described under (ii)
of this subsection and the annual number of criminal cases that are
filed as described under (iii) of this subsection.

(3) Moneys distributed under this section ((shall)) must be
expended exclusively for criminal justice purposes and ((shall)) may

No city may receive more than fifty percent of any moneys distributed under this subsection (a) but, if a city distribution is reduced as a result of exceeding the fifty percent limitation, the amount not distributed ((shall)) must be distributed under (b) of this subsection.

reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(7) Not more than five percent of the funds deposited to the municipal criminal justice assistance account (shall) may be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements (shall) may not supplant existing funds from the state general fund.

(8) During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred into the municipal criminal justice assistance account from the general fund under subsection (1) of this section must be reduced by 3.4 percent.

(1)(a) Beginning in fiscal year 2000, the state treasurer (shall) must transfer into the municipal criminal justice assistance account for distribution under this section from the general fund the sum of four million six hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. of the local jurisdiction receiving the services, and major
nonrecurring capital expenditures.

\((2)(a)\) In addition to the distributions under subsection (1) of
this section:

(c) If a city is found by the state auditor to have expended funds received under this subsection (2) in a manner that does not comply with the criteria under which the moneys were received, the city (shall be) is ineligible to receive future distributions under this subsection (2) until the use of the moneys are justified to the satisfaction of the director or are repaid to the state general fund.
(3) Notwithstanding other provisions of this section, the
distributions to any city that substantially decriminalizes or repeals
its criminal code after July 1, 1990, and that does not reimburse the

(2)(a) The governing body of a public facilities district imposing
a sales and use tax under the authority of this section may increase
the rate of tax up to 0.037 percent if, within three fiscal years of
July 1, 2008, the department determines that, as a result of RCW
82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020,
a public facilities district's sales and use tax collections for fiscal
years after July 1, 2008, have been reduced by a net loss of at least
0.50 percent from the fiscal year before July 1, 2008. The fiscal year
in which this section becomes effective is the first fiscal year after
July 1, 2008.

(b) The department (shall) must determine sales and use tax
collection net losses under this section as provided in RCW 82.14.500
(2) and (3). The department (shall) must provide written notice of
its determinations to public facilities districts. Determinations by
the department of a public facilities district's sales and use tax
collection net losses as a result of RCW 82.14.490 and the chapter 6,
Laws of 2007 amendments to RCW 82.14.020 are final and not appealable.

(c) A public facilities district may increase its rate of tax after
it has received written notice from the department as provided in (b)
of this subsection. The increase in the rate of tax must be made in
0.001 percent increments and must be the least amount necessary to
mitigate the net loss in sales and use tax collections as a result of
RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW
82.14.020. The increase in the rate of tax is subject to RCW
82.14.055.

(3) The tax imposed under subsection (1) of this section (shall)
must be deducted from the amount of tax otherwise required to be
collected or paid over to the department of revenue under chapter 82.08
or 82.12 RCW. The department of revenue (shall) must perform the
collection of such taxes on behalf of the county at no cost to the
public facilities district. During the 2011-2013 fiscal biennium,
distributions by the state to a public facilities district based on the additional rate authorized in subsection (2) of this section must be reduced by 3.4 percent.

(4) No tax may be collected under this section before August 1, 2000. The tax imposed in this section {{shall}} expires when the bonds issued for the construction of the regional center and related parking facilities are retired, but not more than twenty-five years after the tax is first collected.

(5) Moneys collected under this section {{shall}} may only be used for the purposes set forth in RCW 35.57.020 and must be matched with an amount from other public or private sources equal to thirty-three percent of the amount collected under this section{{provided that}}; however, amounts generated from nonvoter approved taxes authorized under chapter 35.57 RCW or nonvoter approved taxes authorized under chapter 36.100 RCW {{shall}} do not constitute a public or private source. For the purpose of this section, public or private sources includes, but is not limited to cash or in-kind contributions used in all phases of the development or improvement of the regional center, land that is donated and used for the siting of the regional center, cash or in-kind contributions from public or private foundations, or amounts attributed to private sector partners as part of a public and private partnership agreement negotiated by the public facilities district.

(6) The combined total tax levied under this section {{shall}} may not be greater than 0.037 percent. If both a public facilities district created under chapter 35.57 RCW and a public facilities district created under chapter 36.100 RCW impose a tax under this section, the tax imposed by a public facilities district created under chapter 35.57 RCW {{shall}} must be credited against the tax imposed by a public facilities district created under chapter 36.100 RCW.

(7) A public facilities district created under chapter 36.100 RCW is not eligible to impose the tax under this section if the legislative authority of the county where the public facilities district is located has imposed a sales and use tax under RCW 82.14.0485 or 82.14.0494.

Sec. 966. RCW 82.14.500 and 2007 c 6 s 903 are each amended to read as follows:

(1)(a) In order to mitigate local sales tax revenue net losses as
a result of the sourcing provisions of the streamlined sales and use
tax agreement under this title, the state treasurer ((shall)), on July
1, 2011, and each July 1st thereafter, must transfer into the
streamlined sales and use tax mitigation account from the general fund
((the sum of thirty-one million six hundred thousand dollars on July 1,
2008. On July 1, 2009, and each July 1st thereafter, the state
treasurer shall transfer into the streamlined sales and use tax
mitigation account from the general fund)) the sum required to mitigate
actual net losses as determined under this section.

(b) During the 2011-2013 fiscal biennium, the amount that would
otherwise be transferred under (a) of this subsection must be reduced
by 3.4 percent.

(2) Beginning July 1, 2008, and continuing until the department
determines annual losses under subsection (3) of this section, the
department ((shall)) must determine the amount of local sales tax net
loss each local taxing jurisdiction experiences as a result of the
sourcing provisions of the streamlined sales and use tax agreement
under this title each calendar quarter. The department ((shall)) must
determine losses by analyzing and comparing data from tax return
information and tax collections for each local taxing jurisdiction
before and after July 1, 2008, on a calendar quarter basis. The
department's analysis may be revised and supplemented in consultation
with the oversight committee as provided in subsection (4) of this
section. To determine net losses, the department ((shall)) must reduce
losses by the amount of voluntary compliance revenue for the calendar
quarter analyzed. Beginning December 31, 2008, distributions ((shall))
must be made quarterly from the streamlined sales and use tax
mitigation account by the state treasurer, as directed by the
department, to each local taxing jurisdiction, other than public
facilities districts for losses in respect to taxes imposed under the
authority of RCW 82.14.390, in an amount representing its net losses
for the previous calendar quarter. Distributions ((shall)) must be
made on the last working day of each calendar quarter and ((shall))
must cease when distributions under subsection (3) of this section
begin.

(3)(a) By December 31, 2009, or such later date the department in
consultation with the oversight committee determines that sufficient
data is available, the department ((shall)) must determine each local
taxing jurisdiction's annual loss. The department (shall) must determine annual losses by comparing at least twelve months of data from tax return information and tax collections for each local taxing jurisdiction before and after July 1, 2008. The department (shall) is not (be) required to determine annual losses on a recurring basis, but may make any adjustments to annual losses as it deems proper as a result of the annual reviews provided in (b) of this subsection. Beginning the calendar quarter in which the department determines annual losses, and each calendar quarter thereafter, distributions (shall) must be made from the streamlined sales and use tax mitigation account by the state treasurer on the last working day of the calendar quarter, as directed by the department, to each local taxing jurisdiction, other than public facilities districts for losses in respect to taxes imposed under the authority of RCW 82.14.390, in an amount representing one-fourth of the jurisdiction's annual loss reduced by voluntary compliance revenue reported during the previous calendar quarter.

(b) The department's analysis of annual losses (shall) must be reviewed by December 1st of each year and may be revised and supplemented in consultation with the oversight committee as provided in subsection (4) of this section.

(4) The department (shall) must convene an oversight committee to assist in the determination of losses. The committee (shall) includes one representative of one city whose revenues are increased, one representative of one city whose revenues are reduced, one representative of one county whose revenues are increased, one representative of one county whose revenues are decreased, one representative of one transportation authority under RCW 82.14.045 whose revenues are increased, and one representative of one transportation authority under RCW 82.14.045 whose revenues are reduced, as a result of RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020. Beginning July 1, 2008, the oversight committee (shall) must meet quarterly with the department to review and provide additional input and direction on the department's analyses of losses. Local taxing jurisdictions may also present to the oversight committee additional information to improve the department's analyses of the jurisdiction's loss. Beginning January 1, 2010, the
oversight committee (shall) must meet at least annually with the department by December 1st.

(5) The rule-making provisions of chapter 34.05 RCW do not apply to this section.

Sec. 967. RCW 82.45.060 and 2005 c 450 s 1 are each amended to read as follows:

There is imposed an excise tax upon each sale of real property at the rate of one and twenty-eight one-hundredths percent of the selling price. An amount equal to six and one-tenth percent of the proceeds of this tax to the state treasurer (shall) must be deposited in the public works assistance account created in RCW 43.155.050. Except as otherwise provided in this section, an amount equal to one and six-tenths percent of the proceeds of this tax to the state treasurer (shall) must be deposited in the city-county assistance account created in RCW 43.08.290. During the 2011-2013 fiscal biennium, 1.546 percent of the proceeds of this tax to the state treasurer must be deposited in the city-county assistance account.

Sec. 968. RCW 86.26.007 and 2009 c 564 s 961 are each amended to read as follows:

The flood control assistance account is hereby established in the state treasury. At the beginning of the 2005-2007 fiscal biennium, the state treasurer shall transfer three million dollars from the general fund to the flood control assistance account. Each biennium thereafter the state treasurer shall transfer four million dollars from the general fund to the flood control assistance account, except that during the 2009-2011 and 2011-2013 fiscal (biennium) biennia, the state treasurer shall transfer two million dollars from the general fund to the flood control assistance account. Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter.

The appropriations in this section are subject to the following conditions and limitations:

1. \( \$1,800,000 \) of the general fund--state appropriation for fiscal year 2010 and \( \$1,387,000 \) of the general fund--state appropriation for fiscal year 2011 are provided solely for school districts for petitions to juvenile court for truant students as provided in RCW 28A.225.030 and 28A.225.035. The office of the administrator for the courts shall develop an interagency agreement with the superintendent of public instruction to allocate the funding provided in this subsection. Allocation of this money to school districts shall be based on the number of petitions filed. This funding includes amounts school districts may expend on the cost of serving petitions filed under RCW 28A.225.030 by certified mail or by personal service or for the performance of service of process for any hearing associated with RCW 28A.225.030. Absences from school occurring in the months of May and June 2011 do not count towards the number of absences allowed under RCW 28A.225.030. Reductions in appropriations in this section reflect reduced workload associated with filing petitions generated through absences occurring in May and June.

2. \( \$8,252,000 \) of the general fund--state appropriation for fiscal year 2010 and \( \$7,534,000 \) of the general fund--state appropriation for fiscal year 2011 are provided solely for distribution to county juvenile court administrators to fund the costs of processing truancy, children in need of services, and at-risk youth petitions. The administrator for the courts, in conjunction with the juvenile court administrators, shall develop an equitable funding distribution formula. The formula shall neither reward counties with higher than
average per-petition processing costs nor shall it penalize counties with lower than average per-petition processing costs.

(b) Each fiscal year during the 2009-11 fiscal biennium, each county shall report the number of petitions processed and the total actual costs of processing truancy, children in need of services, and at-risk youth petitions. Counties shall submit the reports to the administrator for the courts no later than 45 days after the end of the fiscal year. The administrator for the courts shall electronically transmit this information to the chairs and ranking minority members of the house of representatives appropriations committee and the senate ways and means committee no later than 60 days after a fiscal year ends. These reports are deemed informational in nature and are not for the purpose of distributing funds.

(4) $3,701,000 of the judicial information systems account--state appropriation is provided solely for modernization and integration of the judicial information system.

(a) Of this amount, $1,700,000 is for the development of a comprehensive enterprise-level information technology strategy and detailed business and operational plans in support of that strategy, and $2,001,000 is to continue to modernize and integrate current systems and enhance case management functionality on an incremental basis.

(b) The amount provided in this subsection may not be expended without prior approval by the judicial information system committee. The administrator shall regularly submit project plan updates for approval to the judicial information system committee.

(c) The judicial information system committee shall review project progress on a regular basis and may require quality assurance plans. The judicial information systems committee shall provide a report to the appropriate committees of the legislature no later than November 1, 2011, on the status of the judicial information system modernization and integration, and the consistency of the project with the state's
architecture, infrastructure and statewide enterprise view of service delivery.

(d) $100,000 of the judicial information systems account--state appropriation is provided solely for the administrative office of the courts, in coordination with the judicial information system committee, to conduct an independent third-party executive-level review of the judicial information system. This review shall examine, at a minimum, the scope of the current project plan, governance structure, and organizational change management procedures. The review will also benchmark the system plans against similarly sized projects in other states or localities, review the large scale program risks, and estimate life cycle costs, including capital and on-going operational expenditures.

(5) $3,000,000 of the judicial information systems account--state appropriation is provided solely for replacing computer equipment at state courts, and at state judicial agencies. The administrator for the courts shall prioritize equipment replacement purchasing and shall fund those items that are most essential or critical. By October 1, 2010, the administrative office of the courts shall report to the appropriate legislative fiscal committees on expenditures for equipment under this subsection.

(6) $12,000 of the judicial information systems account--state appropriation is provided solely to implement Engrossed Substitute House Bill No. 1954 (sealing juvenile records). If the bill is not enacted by June 30, 2009, the amount provided in this subsection shall lapse.

The funds appropriated in this subsection shall be expended only if the judge is appointed and serving on the bench.

It is the intent of the legislature that the reductions in appropriations in this section shall be achieved, to the greatest extent possible, by reducing those state government administrative costs that do not affect direct client services or direct service delivery or programs. possible, reduce spending in those areas that shall have the least
impact on implementing its mission.

PART XI
HUMAN SERVICES

Sec. 1101. 2010 1st sp.s. c 37 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1)
Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the department may combine and transfer such medicaid funds
appropriated under sections 204, 206, 208, and 209 of this act as may
be necessary to finance a unified health care plan for the WMIP program
enrollment. The WMIP pilot projects shall not exceed a daily
enrollment of 6,000 persons, nor expand beyond one county, during the
2009-2011 biennium. The amount of funding assigned to the pilot
projects from each program may not exceed the average per capita cost
assumed in this act for individuals covered by that program,
actuarially adjusted for the health condition of persons enrolled in
the pilot project, times the number of clients enrolled in the pilot
project. In implementing the WMIP pilot projects, the department may:
(a) Withhold from calculations of "available resources" as set forth in
RCW 71.24.025 a sum equal to the capitated rate for individuals
enrolled in the pilots; and (b) employ capitation financing and risk-
sharing arrangements in collaboration with health care service
contractors licensed by the office of the insurance commissioner and
qualified to participate in both the medicaid and medicare programs.
The department shall conduct an evaluation of the WMIP, measuring
changes in participant health outcomes, changes in patterns of service
utilization, participant satisfaction, participant access to services,
and the state fiscal impact.

(5)(a) The appropriations to the department of social and health
services in this act shall be expended for the programs and in the
amounts specified in this act. However, after May 1, 2010, unless specifically prohibited by this act, the department may transfer
general fund--state appropriations for fiscal year 2011 among
programs after approval by the director of financial management.
However, the department shall not transfer state moneys that are
provided solely for a specified purpose except as expressly provided in
(b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are
insufficient to fund actual expenditures in excess of fiscal year
2011 caseload forecasts and utilization assumptions in the
medical assistance, long-term care, foster care, adoptions support, and
child support programs, the department may transfer state moneys that
are provided solely for a specified purpose. The department shall not
transfer funds, and the director of financial management shall not
approve the transfer, unless the transfer is consistent with the
objective of conserving, to the maximum extent possible, the
expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(6) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

Sec. 1102. 2011 c 5 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--CHILDREN AND FAMILY SERVICES PROGRAM

General Fund--State Appropriation (FY 2010) ............ $315,002,000
General Fund--State Appropriation (FY 2011) ........ (($287,643,000)) $285,342,000

The appropriations in this section are subject to the following conditions and limitations:
(1) $937,000 of the general fund--state appropriation for fiscal year 2010 and $696,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to contract for the operation of one pediatric interim care facility. The facility shall provide residential care for up to thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

(2) $369,000 of the general fund--state appropriation for fiscal year 2010, $343,000 of the general fund--state appropriation for fiscal year 2011, and $306,000 of the general fund--federal appropriation are provided solely for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(3) $2,500,000 of the general fund--state appropriation for fiscal year 2010 and $46,000 of the general fund--state appropriation for fiscal year 2011, and $2,098,000 of the home security fund--state appropriation are provided solely for secure crisis residential centers. Within appropriated amounts, the department shall collaborate with providers to maintain no less than forty-five beds that are geographically representative of the state. The department shall examine current secure crisis residential staffing requirements, flexible payment options, center specific waivers, and other appropriate methods to accomplish this outcome.

(4) A maximum of $69,190,000 of the general fund--state appropriations and $54,443,000 of the general fund--federal
appropriations for the 2009-11 biennium shall be expended for behavioral rehabilitative services and these amounts are provided solely for this purpose. The department shall work with behavioral rehabilitative service providers to safely keep youth with emotional, behavioral, or medical needs at home, with relatives, or with other permanent placement resources and decrease the length of service through improved emotional, behavioral, or medical outcomes for children in behavioral rehabilitative services in order to achieve the appropriated levels.

(a) Contracted providers shall act in good faith and accept the hardest to serve children, to the greatest extent possible, in order to improve their emotional, behavioral, or medical conditions.

(b) The department and the contracted provider shall mutually agree and establish an exit date for when the child is to exit the behavioral rehabilitative service provider. The department and the contracted provider should mutually agree, to the greatest extent possible, on a viable placement for the child to go to once the child's treatment process has been completed. The child shall exit only when the emotional, behavioral, or medical condition has improved or if the provider has not shown progress toward the outcomes specified in the signed contract at the time of exit. This subsection (b) does not prevent or eliminate the department's responsibility for removing the child from the provider if the child's emotional, behavioral, or medical condition worsens or is threatened.

(c) The department is encouraged to use performance-based contracts with incentives directly tied to outcomes described in this section. The contracts should incentivize contracted providers to accept the hardest to serve children and incentivize improvement in children's emotional, mental, and medical well-being within the established exit date. The department is further encouraged to increase the use of behavioral rehabilitative service group homes, wrap around services to facilitate and support placement of youth at home with relatives, or other permanent resources, and other means to control expenditures.

(d) The total foster care per capita amount shall not increase more than four percent in the 2009-11 biennium and shall not include behavioral rehabilitative service.

(5) Within amounts provided for the foster care and adoption support programs, the department shall control reimbursement decisions
for foster care and adoption support cases such that the aggregate average cost per case for foster care and for adoption support does not exceed the amounts assumed in the projected caseload expenditures.

(6) $13,387,000 of the general fund--state appropriation for fiscal year 2011 and $6,231,000 of the general fund--federal appropriation are provided solely for the department to provide contracted prevention and early intervention services. The legislature recognizes the need for flexibility as the department transitions to performance-based contracts. The following services are included in the prevention and early intervention block grant: Crisis family intervention services, family preservation services, intensive family preservation services, evidence-based programs, public health nurses, and early family support services. The legislature intends for the department to maintain and build on existing evidence-based and research-based programs with the goal of utilizing contracted prevention and intervention services to keep children safe at home and to safely reunify families. Priority shall be given to proven intervention models, including evidence-based prevention and early intervention programs identified by the Washington state institute for public policy and the department. The department shall include information on the number, type, and outcomes of the evidence-based programs being implemented in its reports on child welfare reform efforts and shall provide the legislature and governor a report regarding the allocation of resources in this subsection by September 30, 2010. The department shall expend federal funds under this subsection in compliance with federal regulations.

The safety assessments will use validated assessment tools to guide intervention decisions through the identification of additional safety and risk factors. The department will maintain the availability of comprehensive foster care assessments and follow up services for children in out-of-home care who do not have permanent plans, comprehensive safety assessments for families receiving in-home child protective services or family voluntary services, and comprehensive safety assessments for families with an infant age birth to fifteen days where the infant was, at birth, diagnosed as substance exposed and the department received an intake referral related to the infant due to the substance exposure. The department must consolidate contracts, streamline administration, and explore efficiencies to achieve savings.

(10) $7,679,000 of the general fund--state appropriation for fiscal year 2010, $6,226,000 of the general fund--state appropriation for fiscal year 2011, and $4,658,000 of the general fund--federal appropriation are provided solely for court-ordered supervised visits between parents and dependent children and for sibling visits. The department shall work collaboratively with the juvenile dependency courts and revise the supervised visit reimbursement procedures to stay within appropriations without impeding reunification outcomes between parents and dependent children. The department shall report to the legislative fiscal committees on September 30, 2010, and December 30, 2010, the number of children in foster care who receive supervised visits, their frequency, length of time of each visit, and whether reunification is attained.

(15) $4,234,000 of the home security fund account--state appropriation is provided solely for the crisis residential centers.

(16) The appropriations in this section reflect reductions in the appropriations for the children's administration administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(17) Within the amounts appropriated in this section, the department shall contract for a pilot project with family and community networks in Whatcom county and up to four additional counties to provide services. The pilot project shall be designed to provide a continuum of services that reduce out-of-home placements and the lengths of stay for children in out-of-home placement. The department and the community networks shall collaboratively select the additional counties for the pilot project and shall collaboratively design the contract. Within the framework of the pilot project, the contract shall seek to maximize federal funds. The pilot project in each county
shall include the creation of advisory and management teams which include members from neighborhood-based family advisory committees, residents, parents, youth, providers, and local and regional department staff. The Whatcom county team shall facilitate the development of outcome-based protocols and policies for the pilot project and develop a structure to oversee, monitor, and evaluate the results of the pilot projects. (21) The legislature intends for the department to reduce the time a child remains in the child welfare system. The department shall establish a measurable goal and report progress toward meeting that
goal to the legislature by January 15 of each fiscal year of the 
2009-11 fiscal biennium. To the extent that actual caseloads exceed 
those assumed in this section, it is the intent of the legislature to 
address those issues in a manner similar to all other caseload

crisis stabilization services. The pilot project shall include 
adolescent services provided through secure crisis residential centers, 
crisis residential centers, and hope beds. The department shall work

adolescent services and maintain the delivery of services in a 
geographically representative manner. The department shall examine 
current staffing requirements, flexible payment options, center-
specific licensing waivers, and other appropriate methods to achieve 
savings and streamline the delivery of services. The legislature 
intends for the pilot project to provide flexibility to the department 
to improve outcomes and to achieve more efficient utilization of 
existing resources, while meeting the statutory goals of the adolescent
services programs. The department shall provide an update to the
appropriate legislative committees and governor on the status of the
pilot project implementation by December 1, 2010.

(26) To ensure expenditures remain within available funds
appropriated in this section as required by RCW 74.13A.005 and

3. $3,716,000 of the general fund--state appropriation for fiscal year 2010 and $3,482,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to implement community juvenile accountability grants pursuant to chapter 338, Laws of 1997 (juvenile code revisions). Funds provided in this subsection may be used solely for community juvenile accountability grants, administration of the grants, and evaluations of programs funded by the grants.

4. $1,427,000 of the general fund--state appropriation for fiscal year 2010 and $1,130,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to implement alcohol and substance abuse treatment programs for locally committed offenders. The juvenile rehabilitation administration shall award these moneys on a competitive basis to counties that submitted a plan for the provision of services approved by the division of alcohol and substance abuse. The juvenile rehabilitation administration shall develop criteria for evaluation of
plans submitted and a timeline for awarding funding and shall assist counties in creating and submitting plans for evaluation.

(5) $3,066,000 of the general fund--state appropriation for fiscal year 2010 and $2,873,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to county juvenile courts for the following programs identified by the Washington state institute for public policy (institute) in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction, Criminal Justice Costs and Crime Rates": Functional family therapy, multi-systemic therapy, aggression replacement training and interagency coordination programs, or other programs with a positive benefit-cost finding in the institute's report. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(6) $1,287,000 of the general fund--state appropriation for fiscal year 2010 and $1,287,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for expansion of the following treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction, Criminal Justice Costs and Crime Rates": Multidimensional treatment foster care, family integrated transitions, and aggression replacement training. The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(7)(a) For the fiscal year ending June 30, 2011, the juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile
courts program-eligible youth in conjunction with the number of youth
served in each approved evidence-based program or disposition
alternative: (i) Thirty-seven and one-half percent for the at-risk
population of youth ten to seventeen years old; (ii) fifteen percent
for moderate and high-risk youth; (iii) twenty-five percent for
evidence-based program participation; (iv) seventeen and one-half
percent for minority populations; (v) three percent for the chemical
dependency disposition alternative; and (vi) two percent for the mental
health and sentencing dispositional alternatives. Funding for the
special sex offender disposition alternative (SSODA) shall not be
included in the block grant, but allocated on the average daily
population in juvenile courts. Funding for the evidence-based
expansion grants shall be excluded from the block grant formula. Funds
may be used for promising practices when approved by the juvenile
rehabilitation administration and juvenile courts, through the
community juvenile accountability act committee, based on the criteria
established in consultation with Washington state institute for public
policy and the juvenile courts.

(b) It is the intent of the legislature that the juvenile
rehabilitation administration phase the implementation of the formula
provided in subsection (1) of this section by including a stop-loss
formula of three percent in fiscal year 2011, five percent in fiscal
year 2012, and five percent in fiscal year 2013. It is further the
intent of the legislature that the evidence-based expansion grants be
incorporated into the block grant formula by fiscal year 2013 and SSODA
remain separate unless changes would result in increasing the cost
benefit savings to the state as identified in (c) of this subsection.

(c) The juvenile rehabilitation administration and the juvenile
courts shall establish a block grant funding formula oversight
committee with equal representation from the juvenile rehabilitation
administration and the juvenile courts. The purpose of this committee
is to assess the ongoing implementation of the block grant funding
formula, utilizing data-driven decision making and the most current
available information. The committee will be cochaired by the juvenile
rehabilitation administration and the juvenile courts, who will also
have the ability to change members of the committee as needed to
achieve its purpose. Initial members will include one juvenile court
representative from the finance committee, the community juvenile

accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(e) By December 1, 2010, the Washington state institute for public policy shall report to the office of financial management and appropriate committees of the legislature on the administration of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the
participation targets and actual participation in the programs subject to the block grant.

(8) $3,700,000 of the Washington auto theft prevention authority account--state appropriation is provided solely for competitive grants to community-based organizations to provide at-risk youth intervention services, including but not limited to, case management, employment services, educational services, and street outreach intervention programs. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pro-social activities. The department may not expend more than $1,850,000 per fiscal year. The costs of administration must not exceed four percent of appropriated funding for each grant recipient. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services upon the youth and the community.

(9) The appropriations in this section assume savings associated with the transfer of youthful offenders age eighteen or older whose sentences extend beyond age twenty-one to the department of corrections to complete their sentences. Prior to transferring an offender to the department of corrections, the juvenile rehabilitation administration shall evaluate the offender to determine the offender's physical and emotional suitability for transfer.

(1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS

General Fund--State Appropriation (FY 2010) ............... $273,648,000
General Fund--State Appropriation (FY 2011) ............... (($263,993,000))

$271,260,000

General Fund--Federal Appropriation ...................... (($520,024,000))

$513,373,000

General Fund--Private/Local Appropriation ................ $16,951,000

Hospital Safety Net Assessment Fund--State Appropriation ................................. $3,476,000

TOTAL APPROPRIATION ................................ (($1,078,092,000))
The appropriations in this subsection are subject to the following conditions and limitations:

(a) $113,689,000 of the general fund--state appropriation for fiscal year 2010 and $101,089,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for persons and services not covered by the medicaid program. This is a reduction of $11,606,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2009 prior to supplemental budget reductions. This $11,606,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $10,400,000 of the general fund--state appropriation for fiscal year 2010, $8,814,000 of the general fund--state appropriation for fiscal year 2011, and $1,300,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to contract for implementation of high-intensity program for active community treatment (PACT) teams. The department shall work with regional support networks and the center for medicare and medicaid services to integrate eligible components of the PACT service delivery model into medicaid capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.

(c) $6,500,000 of the general fund--state appropriation for fiscal year 2010 and $6,091,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support
networks at western state hospital shall be 617 per day during the first quarter of fiscal year 2010, 587 per day through the second quarter of fiscal year 2011, and 557 per day thereafter. Beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. The department shall separately charge regional support networks for persons served in the PALS program.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) $4,582,000 of the general fund--state appropriation for fiscal year 2010 and $4,582,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) $750,000 of the general fund--state appropriation for fiscal year 2010 and $703,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) $1,500,000 of the general fund--state appropriation for fiscal year 2010 and $1,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;
(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility. At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

(k) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

(l) In developing the new medicaid managed care rates under which the public mental health managed care system will operate during the five years beginning in fiscal year 2011, the department should seek to estimate the reasonable and necessary cost of efficiently and effectively providing a comparable set of medically necessary mental
health benefits to persons of different acuity levels regardless of where in the state they live. Actual prior period spending in a regional administrative area shall not be a key determinant of future payment rates. The department shall report to the office of financial management and to the relevant fiscal and policy committees of the legislature on its proposed new waiver and mental health managed care rate-setting approach by October 1, 2009, and again at least sixty days prior to implementation of new capitation rates.

(m) In implementing the new public mental health managed care payment rates for fiscal year 2011, the department shall to the maximum extent possible within each regional support network's allowable rate range establish rates so that there is no increase or decrease in the total state and federal funding that the regional support network would receive if it were to continue to be paid at its October 2009 through June 2010 rates. The department shall additionally revise the draft rates issued January 28, 2010, to more accurately reflect the lower practitioner productivity inherent in the delivery of services in extremely rural regions in which a majority of the population reside in frontier counties, as defined and designated by the national center for frontier communities.

(n) $1,529,000 of the general fund--state appropriation for fiscal year 2010 and $1,529,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(o) The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such
as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

Sec. 1105. 2011 c 5 s 204 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--DEVELOPMENTAL DISABILITIES PROGRAM

(1) COMMUNITY SERVICES

General Fund--State Appropriation (FY 2010) ............... $307,348,000
General Fund--State Appropriation (FY 2011) ............... ($321,752,000)
The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b)(i) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(ii) $508,000 of the general fund--state appropriation for fiscal year 2011 and $822,000 of the general fund--federal appropriation are provided solely for the department to partially restore the reductions to in-home care that are taken in (b)(i) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.

(c) Amounts appropriated in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.

(d) $302,000 of the general fund--state appropriation for fiscal year 2010, $831,000 of the general fund--state appropriation for fiscal year 2011, and $1,592,000 of the general fund--federal appropriation
are provided solely for health care benefits pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(e)(i) $682,000 of the general fund--state appropriation for fiscal year 2010, $1,651,000 of the general fund--state appropriation for fiscal year 2011, and $1,678,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(ii) The federal portion of the amounts in this subsection (g) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.

(iii) Expenditures for the purposes specified in this subsection (g) shall not exceed the amounts provided in this subsection.

(f) Within the amounts appropriated in this subsection (1), the department shall implement all necessary rules to facilitate the transfer to a department home and community-based services (HCBS) waiver of all eligible individuals who (i) currently receive services under the existing state-only employment and day program or the existing state-only residential program, and (ii) otherwise meet the waiver eligibility requirements. The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.

(g) In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(h) The department shall not pay a home care agency licensed under
chapter 70.127 RCW for personal care services provided by a family
member, pursuant to Substitute House Bill No. 2361 (modifying state
payments for in-home care).

(i) Within the appropriations of this section, the department shall
reduce all seventeen payment levels of the seventeen-level payment
system from the fiscal year 2009 levels for boarding homes, boarding
homes contracted as assisted living, and adult family homes. Excluded
from the reductions are exceptional care rate add-ons. The long-term
care program may develop add-ons to pay exceptional care rates to adult
family homes and boarding homes with specialty contracts to provide
support for the following specifically eligible clients:

(i) Persons with AIDS or HIV-related diseases who might otherwise
require nursing home or hospital care;

(ii) Persons with Alzheimer's disease and related dementia who
might otherwise require nursing home care; and

(iii) Persons with co-occurring mental illness and long-term care
needs who are eligible for expanded community services and who might
otherwise require state and local psychiatric hospital care.

Within amounts appropriated, exceptional add-on rates for AIDS/HIV,
dementia specialty care, and expanded community services may be
standardized within each program.

(j) The amounts appropriated in this subsection reflect a reduction
in funds available for employment and day services. In administering
this reduction the department shall negotiate with counties and their
vendors so that this reduction, to the greatest extent possible, is
achieved by reducing vendor rates and allowable contract administrative
charges (overhead) and not through reductions to direct client services
or direct service delivery or programs.

(k) As part of the needs assessment instrument, the department may
collect data on family income for minor children with developmental
disabilities and all individuals who are receiving state-only funded
services. The department may ensure that this information is collected
as part of the client assessment process.

(l) $116,000 of the general fund--state appropriation for fiscal
year 2010, $2,133,000 of the general fund--state appropriation for
fiscal year 2011, and $1,772,000 of the general fund--federal
appropriation are provided solely for employment services and required
waiver services. Priority consideration for this new funding shall be
young adults with developmental disabilities living with their family who need employment opportunities and assistance after high school graduation. Services shall be provided for both waiver and nonwaiver clients.

(m) $81,000 of the general fund--state appropriation for fiscal year 2010, $599,000 of the general fund--state appropriation for fiscal year 2011, and $1,111,000 of the general fund--federal appropriation are provided solely for the department to provide employment and day services for eligible students who are currently on a waiver and will graduate from high school during fiscal years 2010 and 2011.

(n) The automatic award of additional hours of personal care for people with special meal preparation or incontinence needs is eliminated. Authorization of service hours will be based upon the individual's assessed needs.

(o) $75,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for the restoration of direct support to local organizations that utilize parent-to-parent networks and communication to promote access and quality of care for individuals with developmental disabilities and their families.

(5) Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. (6)(a) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.
(b) $3,070,000 of the general fund--state appropriation for fiscal year 2011 and $4,980,000 of the general fund--federal appropriation are provided solely for the department to partially restore the reduction to in-home care that are taken in (a) of this subsection. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

(15) The department shall establish waiting lists to the extent necessary to assure that annual expenditures on the community options program entry systems (COPES) program do not exceed appropriated levels. In establishing and managing any such waiting list, the department shall assure priority access to persons with the greatest unmet needs, as determined by department assessment processes.

Hospital Safety Net Assessment Fund--State

Appropriation ................................ ((($260,057,000))

$254,974,000

TOTAL APPROPRIATION ....................... (($9,800,016,000))

$9,725,013,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.
(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) $649,000 of the general fund--federal appropriation and $644,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.
$5,729,000 of the general fund--state appropriation for fiscal year 2011, and $5,776,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment...
amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $20,403,000 of the general fund--state appropriation for fiscal year 2010, of which $6,570,000 is appropriated in section 1104(1) of this act, and $15,113,000 of the general fund--state appropriation for fiscal year 2011, of which $6,570,000 is appropriated in section 1104(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10(1)(b) of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment) funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) $93,000 of the general fund--state appropriation for fiscal year 2010 and $93,000 of the general fund--federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.
(11) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(12) A maximum of ($241,141,000) $247,809,000 in total funds from the general fund--state, general fund--federal, and tobacco and prevention control account--state appropriations may be expended in the fiscal biennium for the medical program pursuant to chapter 8, Laws of 2010 1st sp. sess. (security lifeline act), and these amounts are provided solely for this program. Of these amounts, $10,749,000 of the general fund--state appropriation for fiscal year 2010 and $10,892,000 of the general fund--federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of lifeline benefits. (13) Mental health services shall be included in the services provided through the managed care system for lifeline clients under chapter 8, Laws of 2010 1st sp. sess. In transitioning lifeline clients to managed care, the department shall attempt to deliver care to lifeline clients through medical homes in community and migrant health centers. The department, in collaboration with the carrier, shall seek to improve the transition rate of lifeline clients to the federal supplemental security income program. The department shall renegotiate the contract with the managed care plan that provides services for lifeline clients to maximize state retention of future hospital savings as a result of improved care coordination. The department, in collaboration with stakeholders, shall propose a new name for the lifeline program.

(14) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for lifeline medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.
The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

State funds shall not be used by hospitals for advertising purposes.

The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. interests of the child, set payment rates for medically intensive home

The appropriations in this section are subject to the following conditions and limitations:

(1) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs. Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection
(6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, $19,512,000 of the general fund--state appropriation and $29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education
services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.

(g) Beginning with the 2010-11 school year award cycle, the office of the superintendent of public instruction shall make award determinations for state safety net funding in August of each school year. Determinations on school district eligibility for state safety net awards shall be based on analysis of actual expenditure data from the current school year.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of $678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers
and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(15) $262,000 of the general fund--state appropriation for fiscal year 2010 and $251,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

Sec. 1801. RCW 48.02.190 and 2009 c 161 s 1 are each amended to read as follows:

(1) As used in this section:

(a) "Organization" means every insurer, as defined in RCW 48.01.050, having a certificate of authority to do business in this state, every health care service contractor, as defined in RCW 48.44.010, every health maintenance organization, as defined in RCW 48.46.020, or self-funded multiple employer welfare arrangement, as defined in RCW 48.125.010, registered to do business in this state. "Class one" organizations shall consist of all insurers as defined in RCW 48.01.050. "Class two" organizations shall consist of all organizations registered under provisions of chapters 48.44 and 48.46 RCW. "Class three" organizations shall consist of self-funded multiple employer welfare arrangements as defined in RCW 48.125.010.

(b)(i) "Receipts" means (A) net direct premiums consisting of direct gross premiums, as defined in RCW 48.18.170, paid for insurance written or renewed upon risks or property resident, situated, or to be performed in this state, less return premiums and premiums on policies not taken, dividends paid or credited to policyholders on direct business, and premiums received from policies or contracts issued in connection with qualified plans as defined in RCW 48.14.021, and (B) prepayments to health care service contractors, as defined in RCW 48.44.010, health maintenance organizations, as defined in RCW 48.46.020, or participant contributions to self-funded multiple employer welfare arrangements, as defined in RCW 48.125.010, less experience rating credits, dividends, prepayments returned to subscribers, and payments for contracts not taken.

(ii) Participant contributions, under chapter 48.125 RCW, used to determine the receipts in this state under this section shall be determined in the same manner as premiums taxable in this state are determined under RCW 48.14.090.

(c) "Regulatory surcharge" means the fees imposed by this section.

(2) The annual cost of operating the office of insurance commissioner shall be determined by legislative appropriation. A pro
rata share of the cost shall be charged to all organizations as a regulatory surcharge. Each class of organization shall contribute a sufficient amount to the insurance commissioner's regulatory account to pay the reasonable costs, including overhead, of regulating that class of organization.

(3) The regulatory surcharge shall be calculated separately for each class of organization. The regulatory surcharge collected from each organization shall be that portion of the cost of operating the insurance commissioner's office, for that class of organization, for the ensuing fiscal year that is represented by the organization's portion of the receipts collected or received by all organizations within that class on business in this state during the previous calendar year. However, the regulatory surcharge must not exceed one-eighth of one percent of receipts and the minimum regulatory surcharge shall be one thousand dollars.

(4) The commissioner shall annually, on or before June 1st, calculate and bill each organization for the amount of the regulatory surcharge. The regulatory surcharge shall be due and payable no later than June 15th of each year. However, if the necessary financial records are not available or if the amount of the legislative appropriation is not determined in time to carry out such calculations and bill such regulatory surcharge within the time specified, the commissioner may use the regulatory surcharge factors for the prior year as the basis for the regulatory surcharge and, if necessary, the commissioner may impose supplemental fees to fully and properly charge the organizations. Any organization failing to pay the regulatory surcharges by June 30th shall pay the same penalties as the penalties for failure to pay taxes when due under RCW 48.14.060. The regulatory surcharge required by this section is in addition to all other taxes and fees now imposed or that may be subsequently imposed.

(5) All moneys collected shall be deposited in the insurance commissioner's regulatory account in the state treasury which is hereby created.

(6) Unexpended funds in the insurance commissioner's regulatory account at the close of a fiscal year shall be carried forward in the insurance commissioner's regulatory account to the succeeding fiscal year and shall be used to reduce future regulatory surcharges. During
the 2009-2011 fiscal biennium, the legislature may transfer from the insurance commissioner's regulatory account to the state general fund such amounts as reflect the excess fund balance in the account.

(7)(a) Each insurer may annually collect regulatory surcharges remitted in preceding years by means of a policyholder surcharge on premiums charged for all kinds of insurance. The recoupment shall be at a uniform rate reasonably calculated to collect the regulatory surcharge remitted by the insurer.

(b) If an insurer fails to collect the entire amount of the recoupment in the first year under this section, it may repeat the recoupment procedure provided for in this subsection (7) in succeeding years until the regulatory surcharge is fully collected or a de minimis amount remains uncollected. Any such de minimis amount may be collected as provided in (d) of this subsection.

(c) The amount and nature of any recoupment shall be separately stated on either a billing or policy declaration sent to an insured. The amount of the recoupment must not be considered a premium for any purpose, including the premium tax or agents' commissions.

(d) An insurer may elect not to collect the regulatory surcharge from its insured. In such a case, the insurer may recoup the regulatory surcharge through its rates, if the following requirements are met:

(i) The insurer remits the amount of surcharge not collected by election under this subsection; and

(ii) The surcharge is not considered a premium for any purpose, including the premium tax or agents' commission.

Sec. 1802. RCW 79.17.210 and 2003 c 334 s 118 are each amended to read as follows:

(1) The legislature finds that the department has a need to maintain the real property asset base it manages and needs an accounting mechanism to complete transactions without reducing the real property asset base.

(2) The natural resources real property replacement account is created in the state treasury. This account shall consist of funds transferred or paid for the disposal or transfer of real property by the department under RCW 79.17.200. The funds in this account shall be used solely for the acquisition of replacement real property and may be
spent only when, and as, authorized by legislative appropriation. During the 2009-2011 fiscal biennium, the legislature may transfer from the natural resources real property replacement account to the state general fund an amount that reflects state general fund contributions to the account.

Sec. 1803. RCW 79.64.020 and 2008 c 328 s 6004 are each amended to read as follows:

A resource management cost account in the state treasury is created to be used solely for the purpose of defraying the costs and expenses necessarily incurred by the department in managing and administering state lands and aquatic lands and the making and administering of leases, sales, contracts, licenses, permits, easements, and rights-of-way as authorized under the provisions of this title. Appropriations from the resource management cost account to the department shall be expended for no other purposes. Funds in the resource management cost account may be appropriated or transferred by the legislature for the benefit of all of the trusts from which the funds were derived. ((For the 2007-2009 biennium, moneys in the account may be used for the purposes identified in section 3044, chapter 328, Laws of 2008)) During the 2009-2011 fiscal biennium, the legislature may transfer from the resource management cost account to the state general fund an amount that reflects state general fund contributions to the land bank portion of the account.

NEW SECTION. Sec. 1804. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 1805. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately, except for section 947 of this act which takes effect June 30, 2011.
