<i>K-12 Apportionment</i>	-	-	253
<i>Maintenance Level Caseloads</i>	-	-	(161)

\* The actual budget problem that needs to get addressed is partially based on the assumptions used in the budget development process. Since the House proposal assumes a lower amount of policy level increases (\$41 million compared to \$85 million) and a revised amount of the need to backfill other funds, the overall budget problem is slightly less than in the Governor's budget. The actual amount of the fiscal year 2011 shortfall will depend on the actual final assumptions of the Legislature and the changes (e.g. revenue forecast, caseload changes) that occur between now and the final supplemental budget.
