29 c 48 (uncodified) to read as follows:

30 **FOR THE DEPARTMENT OF COMMERCE**

31 CERB Administered Economic Development, Innovation & Export Grants
32 (92000096)

1 The appropriations in this section are subject to the following
2 conditions and limitations: The appropriation is provided solely for
3 a competitive economic development and community revitalization grant
4 program administered by the community economic revitalization board
5 (board) in consultation with the public works board and for the
6 economic development projects specified in subsection (2) of this
7 section.

8 (1) The intent of the competitive program is to provide grants to
9 local governments, including ports, and innovation partnership zones
10 for public infrastructure, facilities, and related improvements that
11 enable and encourage private sector business creation or expansion, the
12 redevelopment of brownfields, and to enhance the vitality and
13 livability of the community. The board shall establish all grant
14 application requirements. The board may choose to establish two
15 separate grant competitions for the economic development projects and
16 the community revitalization projects.

17 (2) The boards shall prioritize economic development grants by
18 considering at a minimum the following criteria:

19 (a) The number of jobs created by the expected business creation or
20 expansion and the average wage of those expected jobs. In evaluating
21 proposals for their job creation potential, the board may adjust the
22 job estimates in applications based on the board's judgment of the
23 credibility of the job estimates;

24 (b) The board shall also consider the need for job creation based
25 on the unemployment rate of the county or counties in which the project
26 is located. In evaluating the average wages of the jobs created, the
27 board shall compare those wages to median wages of private sector jobs
28 in the county or counties surrounding the project location;

29 (c) When evaluating the jobs created by the project, the board may
30 consider the area labor supply and readily available skill sets of the
31 labor pool in the county or counties surrounding the project location;

32 (d) How the expected business creation or expansion fits within the
33 region's preferred economic growth strategy as indicated by the efforts
34 of nearby innovation partnership zones, industry clusters as defined by
35 the Washington Economic Development Commission, future export
36 prospects, or local government equivalent if available;

37 (e) The speed with which the project can begin construction;

1 (f) The extent that the final list of grant awards provides broad
2 geographic distribution, leverages nonstate funds, and achieves overall
3 the greatest benefit in job creation at good wages for the amount of
4 money provided;

5 (g) In no event shall the board award a grant that supplants
6 previously committed project resources.

7 (3) The board shall prioritize community revitalization grants by
8 considering at a minimum the following criteria:

9 (a) The value of the project to the community. In evaluating the
10 value of the project, the board shall, at a minimum, consider the
11 difficulty the applicant has in financing main street improvement
12 projects with their own local resources and the extent the project will
13 increase economic activity for existing businesses, improve safety and
14 enjoyment of pedestrians and bicyclists, enhance in-city recreational
15 opportunities, and revitalize downtown business districts.

16 (b) The extent to which businesses and local governments in the
17 affected area support the project;

18 (c) Whether or not the project is in the local government's adopted
19 capital facility plan, comprehensive plan, or equivalent. Additional
20 consideration is given to projects located within one of the
21 aforementioned plans;

22 (d) The extent to which the project promotes infill and
23 redevelopment of the downtown area;

24 (e) The speed with which the project can begin construction;

25 (f) The extent that the final list of grant awards provides broad
26 geographic distribution, leverages nonstate funds, and achieves overall
27 the greatest benefit for the amount of money provided;

28 (g) The extent to which the applicant demonstrates the ability to
29 maintain the project funded through the grant program;

30 (h) In no event shall the board award a grant that supplants
31 previously committed project resources.

32 (4) \$4,000,000 of the appropriation is provided solely for the
33 Satsop wastewater improvement project.

31 persons and organizations in the investigation and remedying of
32 releases or threatened releases of hazardous substances and to
33 implement the state's solid and hazardous waste management priorities.
34 No grant may exceed sixty thousand dollars. Grants may be renewed
