29. **SEPTIC SYSTEM REPAIRS** - Funding is provided to address critical septic system failures at the Marysville district office, Stanwood/Bryant and Goldendale weigh stations. These failures have required additional services to keep the sites functional utilizing operational dollars, but do not adequately address the root cause of the system failures or environmental impacts.

Marysville: The septic tank system is undersized for the current volume, which has led to problems with the drain field.

Stanwood/Bryant: The septic holding tank does not meet the needs of the facility any longer because of increased volumes.

Goldendale: The septic system has developed problems with water intrusion, causing drain field and tank problems. (State Patrol Highway Account - State)

30. **HVAC REPLACEMENTS & SYSTEM EFFCNCY** - Funding is provided for the WSP to replace inadequate and inefficient heating, ventilation, and air conditioning (HVAC), lighting and water systems at the Spokane and Wenatchee district headquarters. The majority of the expenses for these projects will be the proposed HVAC energy upgrades at these two locations. Federal mandate requires the replacement of T-12 lighting with energy efficient T-8 fixtures and electronic ballasts. Lighting system upgrades will include occupancy sensor controls, reducing energy usage at these locations. The current requirement is to cease manufacturing the T-12s within the next year. Installing aerators on all water faucets will reduce water usage. Installing new lower water volume toilets and flush kits will result in reduced water consumption.
