(End of part)
Sec. 201. 2011 2nd sp.s. c 9 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the health care
authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP, the health care authority and the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs.

The health care authority and the department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or
state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2012, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2012 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2012 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The amounts in this subsection are provided solely for contracted education coordinators to assist foster children in succeeding in K-12 and higher education systems and to assure a focus on education during the transition to performance based contracts. Funding shall be prioritized to regions with high numbers of foster care youth and/or regions where backlogs of youth that have formerly requested educational outreach services exist. The department shall utilize private matching funds to maintain educational advocacy services.

(5) $670,000 of the general fund--state appropriation for fiscal year 2012 and $670,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for services provided through children's advocacy centers.

The reductions to appropriations in this subsection related to semi-secure crisis residential centers reflect a reduction to the number of beds for semi-secure crisis residential centers and not a reduction in rates. Any secure crisis residential center or semi-secure crisis residential center bed reduction shall not be based solely upon bed utilization. The department is to exercise its discretion in reducing the number of beds but to do so in a manner that maintains availability and geographic representation of semi-secure and secure crisis residential centers.

This ($4,348,000) reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional
support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund--state appropriation for fiscal year 2012, $5,850,000 of the general fund--state appropriation for fiscal year 2013, and $1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Pursuant to Senate Bill No. 6609 (medicaid personal care services program), the department shall provide a personal care services benefit for adult clients under section 1915 (i) of the social security act exclusively utilizing the option that allows for client self-direction of an individualized budget. An individual client may be authorized for only one service option, either employment services or community access services. Clients may not participate in more than one of these services at any given time.

(ii) The department shall work with counties and stakeholders to strengthen and expand the existing community access program. The
program must emphasize support for the client so they are able to participate in activities that integrate them into their community and support independent living and skills.

(ii) Beginning in fiscal year 2012, a processing fee of $2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable.

(j) Clients with developmental disabilities have demonstrated a need and a desire for a day services program as verified by over 900 clients currently accessing day programs through a long-term care service model. In addition, every individual, to include those with a developmental disability, should have the opportunity for meaningful employment which allows them to contribute to their communities and to become as self-sufficient as possible. Providing choice empowers recipients of publicly funded services and their families by expanding their degree of control over the services and supports they need.
The department shall work with legislators and stakeholders to develop a new approach to employment and day services. The objective of this plan is to ensure that adults with developmental disabilities have optimum choices, and that employment and day offerings are comprehensive enough to meet the needs of all clients currently served on a home and community based waiver. The proposal shall be submitted to the 2012 legislature for consideration and shall be constructed such that a client ultimately receives employment, community access, or the community day option but not more than one service at a time. The proposal shall include options for program efficiencies within the current employment and day structure and shall provide details on the plan to implement a consistent, statewide outcome-based vendor contract for employment and day services as specified in (c) of this subsection.

The appropriations in this section are subject to the following conditions and limitations:

1. For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed $170.37 for fiscal year 2012 and shall not exceed $171.43 for fiscal year 2013, including the rate add-ons described in (a) and (b) of this subsection. However, if the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created...
by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is
for any reason not approved and implemented, the weighted average
nursing facility payment rate shall not exceed $159.87 for fiscal year
2012 and shall not exceed $160.93 for fiscal year 2013. There will be
no adjustments for economic trends and conditions in fiscal years 2012
and 2013. The economic trends and conditions factor or factors defined
in the biennial appropriations act shall not be compounded with the
economic trends and conditions factor or factors defined in any other
biennial appropriations acts before applying it to the component rate
allocations established in accordance with chapter 74.46 RCW. When no
economic trends and conditions factor for either fiscal year is defined
in a biennial appropriations act, no economic trends and conditions
factor or factors defined in any earlier biennial appropriations act
shall be applied solely or compounded to the component rate allocations
established in accordance with chapter 74.46 RCW.

(a) ((Within the funds provided, the department shall continue to
provide an add-on per medicaid resident day per facility not to exceed
$1.57. The add-on shall be used to increase wages, benefits, and/or
staffing levels for certified nurse aides; or to increase wages and/or
benefits for dietary aides, housekeepers, laundry aides, or any other
category of worker whose statewide average dollars-per-hour wage was
less than $15 in calendar year 2008, according to cost report data.
The add-on may also be used to address resulting wage compression for
related job classes immediately affected by wage increases to low-wage
workers. The department shall continue reporting requirements and a
settlement process to ensure that the funds are spent according to this
subsection.)

(b)) The department shall do a comparative analysis of the
facility-based payment rates calculated on July 1, ((2011)) 2012, using
the payment methodology defined in ((Engrossed Substitute Senate Bill
No. 5581 (nursing home payments))) chapter 74.46 RCW and as funded in
the omnibus appropriations act, excluding the comparative add-on,
acuity add-on, and safety net reimbursement, to the facility-based
payment rates in effect June 30, 2010. If the facility-based payment
rate calculated on July 1, ((2011)) 2012, is smaller than the
facility-based payment rate on June 30, 2010, then the difference shall
be provided to the individual nursing facilities as an add-on payment
per medicaid resident day.
During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in ((Engrossed Substitute Senate Bill No. 5581 (nursing home payments))) chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net assessment as a medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, (subsections (b), (c), and (d)) (a), (b), and (c) of this subsection do not apply.

After examining actual nursing facility cost information, the legislature finds that the medicaid nursing facility rates calculated pursuant to ((Engrossed Substitute Senate Bill No. 5581 (nursing home payments))) chapter 74.46 RCW and funded in this section provide sufficient reimbursement to efficiently and economically operating nursing facilities and bear a reasonable relationship to costs.

In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2012 and no new certificates of capital authorization for fiscal year 2013 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal years 2012 and 2013.

The long-term care program may develop and pay enhanced rates for exceptional care to nursing homes for persons with traumatic brain injuries who are transitioning from hospital care. The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.
(5) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.

(6) $1,883,000 of the general fund--state appropriation for fiscal year 2012, $1,883,000 of the general fund--state appropriation for fiscal year 2013, and $3,766,000 of the general fund--federal appropriation are provided solely for state contributions for individual provider health care benefits. Pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270, the state shall contribute to the multiemployer health benefits trust fund ($1.96) $2.21 per paid hour worked by individual providers.

(7) ($16,835,000 of the general fund--state appropriation for fiscal year 2012, $17,952,000 of the general fund--state appropriation for fiscal year 2013, and $34,786,000 of the general fund--federal appropriation are provided solely for home care agencies to purchase health coverage for home care providers. The department shall calculate and distribute payments for health care benefits to home care agencies at $558 per month for each worker who cares for publicly funded clients at 86 hours or more per month. In order to negotiate the most comprehensive health benefits package for its employees, each agency may determine benefit levels according to the hours an employee works providing state-funded personal care. Health benefits shall be offered to all employees who care for publicly funded clients for 86 hours per month or more. At a minimum, employees who care for publicly funded clients at 140 hours a month or greater must receive a comprehensive medical benefit. Benefits shall not be provided to employees who care for publicly funded clients at 85 hours or less per month or as interim respite workers. The department shall not pay an agency for benefits provided to an employee who otherwise receives health care coverage through other family members, other employment-based coverage, or military or veteran's coverage. The department shall require annually, each home care agency to review each of its employee's available health coverage and to provide a written
declaration to the department verifying that health benefits purchased with public funds are solely for employees that do not have other available coverage. Home care agencies may determine a reasonable employee co-premium not to exceed 20 percent of the total benefit cost)

($338,550,000 of the general fund--state appropriation for fiscal year 2013 and $338,500,000 of the general fund--federal appropriation are provided to the department to provide personal care services to waiver and nonwaiver in-home clients pursuant to Senate Bill No. 6609 (medicaid personal care services program), the department shall provide a personal care services benefit for adult clients under section 1915 (i) of the social security act exclusively utilizing the option that allows for client self-direction of an individualized budget. Clients will be able to spend their budget to secure services from appropriate providers, purchase other support services and therapies, and purchase equipment or make other expenditures as necessary to address the clients' health and safety and pursuant to the client's plan of care.

The per-client individualized budget shall be established using a methodology that is objective and evidence-based, uses valid, reliable cost data; includes a calculation of the expected cost of each service available under this option; and can be applied consistently to individuals. The department shall operate the program within the amounts specifically provided.

(8) ($2,063,000) $2,449,000 of the general fund--state appropriation for fiscal year 2012, ($2,195,000) $2,618,000 of the general fund--state appropriation for fiscal year 2013, and ($4,260,000) $4,884,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, for instructional costs associated with the training of individual providers. ((House Bill No. 1548 and Senate Bill No. 5473 (long-term care worker requirements) make statutory changes to the increased training requirements and therefore the state shall contribute to the partnership $0.17 per paid hour worked by all home care workers. This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.)) Contributions are funded at $0.22 per benefit-eligible paid hour worked by all home care workers and are sufficient to provide
training as required by Initiative Measure No. 1163. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection.

(9) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(10) The department shall eliminate the adult day health program under the state plan 1915(i) option and shall reestablish it under the long-term care home and community-based waiver.

(11) $4,588,000 of the general fund--state appropriation for fiscal year 2012, $4,559,000 of the general fund--state appropriation for fiscal year 2013, and $9,237,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. The department shall prioritize services in order to reduce utilization and maintain a reduction of 60 beds at western state hospital that were previously used for long-term placements for clients with dementia, traumatic brain injuries, or other organic brain disorders. The department shall ensure that a sufficient number of individuals have been transitioned and diverted from western state hospital to enable closure of a 30-bed ward by October 1, 2012, and of another 30-bed ward by February 1, 2013. Coordination of these services must be done in partnership between the mental health program and the aging and disability services administration.

(12) $1,840,000 of the general fund--state appropriation for fiscal year 2012 and $1,877,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for operation of the volunteer services program. Funding shall be prioritized towards serving populations traditionally served by long-term care services to include senior citizens and persons with disabilities.
In accordance with Engrossed Substitute House Bill No. 1277 (licensed settings for vulnerable adults), nursing facility fees are increased in fiscal year 2012 and adult family home fees are increased in fiscal year 2012 and fiscal year 2013 to support the costs of conducting licensure, inspection, and regulatory programs.

(a) The current annual renewal license fee for nursing facilities shall be increased to $359 per bed beginning in fiscal year 2012 and assumes $517,000 of the general fund--private/local appropriation. Nursing facilities shall receive a vendor rate increase of $0.08 per medicaid patient day to cover the license fee increase for publicly funded beds.

(b) The current annual renewal license fee for adult family homes shall be increased to $100 per bed beginning in fiscal year 2012 and assumes $1,449,000 of the general fund--private/local appropriation; and ($175) $370 per bed beginning in fiscal year 2013 and assumes ($2,463,000) $5,602,000 of the general fund--private/local appropriation. Adult family homes shall receive a corresponding vendor rate increase per medicaid patient day of $0.22 in fiscal year 2012 and ($0.43) $0.96 in fiscal year 2013 to cover the license fee increase for publicly funded beds.

(c) Beginning in fiscal year 2012, a processing fee of $2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable.

(d) $72,000 of the general fund--state appropriation for fiscal year 2012, $708,000 of the general fund--private/local appropriation and $708,000 of the general fund--federal appropriation are provided solely to implement sections 501 through 503 of Engrossed Substitute House Bill No. 1277 (licensed settings for vulnerable adults). The department shall use additional investigative resources to address complaints about provider practices as well as alleged abuse, neglect, abandonment, and exploitation of residents in adult family homes. The department shall develop a statewide internal quality review and accountability program to improve the accountability of staff and the consistent application of investigative activities, and shall convene a quality assurance panel to review problems in the quality of care in adult family homes.

(14) $3,316,000 of the traumatic brain injury account--state
appropriation is provided solely to continue services for persons with
traumatic brain injury (TBI) as defined in chapter 143, Laws of 2011
(traumatic brain injury strategic partnership).

(15) The department is authorized to place long-term care clients
residing in nursing homes and paid for with state only funds into less
restrictive community care settings while continuing to meet the
client's care needs.

(16) The department shall prioritize clients for the community
options program entry system program to maximize serving clients in the
least restrictive setting.

The appropriations in this section are subject to the following conditions and limitations:

1. The appropriations to the authority in this act shall be expended for the purposes and in the amounts specified in this act. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecasts and utilization assumptions, the authority, after May 1, 2012, may transfer general
fund--state appropriations for fiscal year 2012 that are provided solely for a specified purpose. The authority shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(2) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs. Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

(3) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

(4)(a) $1,200,000 of the general fund--state appropriation for fiscal year 2012 is provided solely to plan the implementation of a system of consolidated public school employee health benefits purchasing.

It is the intent of the legislature to improve the administration, transparency, and equity in delivering a K-12 employees' health benefits system. In addition, the legislature intends that any cost savings that result from changes to K-12 health benefits be dedicated to public schools.
To further this legislative intent, the state health care authority shall develop a plan to implement a consolidated health benefits' system for K-12 employees for the 2013-14 school year. The health care authority shall deliver a report to the legislature by December 15, 2011, that sets forth the implementation plan to the ways and means committees of the house of representatives and the senate.

(b) The report prepared by the health care authority shall compare and contrast the costs and benefits, both long and short term, of:

(i) The current K-12 health benefits system;
(ii) A new K-12 employee benefits pool; and
(iii) Enrolling K-12 employees into the health benefits pool for state employees.

(c) In addition to the implementation plan, the report shall include the following information:

(i) The costs and benefits of the current K-12 health benefits system;
(ii) The costs and benefits of providing a new statewide K-12 employees' health benefits pool to school districts and school employees;
(iii) The costs and benefits of enrolling K-12 employees into the existing health benefits pool for state employees;
(iv) Recommendations of ways to limit administrative duplication and costs, improve transparency to employees, the legislature, and the public and assure equity among beneficiaries of publicly provided employee health benefits;
(v) Recommendations for standardizing benefit packages and purchasing efforts in a manner that seeks to maximize funding and equity for all school employees;
(vi) Recommendations regarding the use of incentives, including how changes to state health benefit allocations could provide employees with benefits that would encourage participation;
(vii) Recommendations regarding the implementation of a new K-12 employee benefit plan, with separate options for voluntary participation and mandatory statewide participation;
(viii) Recommendations regarding methods to reduce inequities between individual and family coverage;
(ix) Consolidation of the purchasing and budget accountability for...
school employee benefits to maximize administrative efficiency and
leverage existing skills and resources; and

(x) Other details the health care authority deems necessary,
including but not limited to recommendations on the following:

(A) Approaches for implementing the transition to a statewide pool,
including administrative and statutory changes necessary to ensure a
successful transition, and whether the pool should be separate from, or
combined with, the public employees' benefits pool;

(B) The structure of a permanent governing group to provide ongoing
oversight to the consolidated pool, in a manner similar to the public
employees benefits board functions for employee health benefits,
including statutory duties and authorities of the board; and

(C) Options for including potential changes to: Eligibility
standardization, the public employees benefits risk pools, the movement
of school employee retirees into the new K-12 pool or pools, and the
movement of educational service district employees into the new K-12
pool or pools.

(d) In determining its costs and benefits of a new statewide K-12
employees' health benefits pool for school districts and school
employees, the health care authority shall assume the following:

(i) School district enrollees must constitute an entire bargaining
unit, or an entire group of nonrepresented employees;

(ii) Staffing and administration for benefits purchasing shall be
provided by the health care authority; and

(iii) The new K-12 pool would operate on a schedule that
coordinates with the financing and enrollment schedule used for school
districts.

(e) The office of the superintendent of public instruction and the
office of the insurance commissioner shall provide information and
technical assistance to the health care authority as requested by the
health care authority. The health care authority shall not implement
the new school employee benefits pool until authorized to do so by the
legislature.

(((((5))) (5)) The administrator shall take at least the following
actions to assure that persons participating in the basic health plan
are eligible for the level of assistance they receive: (a) Require
submission of (i) income tax returns, and recent pay history, from all
applicants, or (ii) other verifiable evidence of earned and unearned
income from those persons not required to file income tax returns; (b) check employment security payroll records at least once every twelve months on all enrollees; (c) require enrollees whose income as indicated by payroll records exceeds that upon which their subsidy is based to document their current income as a condition of continued eligibility; (d) require enrollees for whom employment security payroll records cannot be obtained to document their current income at least once every six months; (e) not reduce gross family income for self-employed persons by noncash-flow expenses such as, but not limited to, depreciation, amortization, and home office deductions, as defined by the United States internal revenue service; and (f) pursue repayment and civil penalties from persons who have received excessive subsidies, as provided in RCW 70.47.060(9).

(5) Enrollment in the subsidized basic health plan shall be limited to only include persons who qualify as subsidized enrollees as defined in RCW 70.47.020 and who (a) qualify for services under 1115 medicaid demonstration project number 11-W-00254/10; or (b) are foster parents licensed under chapter 74.15 RCW.

(6) $23,700,000 of the general fund--federal appropriation is provided solely for planning and implementation of a health benefit exchange under the federal patient protection and affordable care act. Within the amounts provided in this subsection, funds used by the authority for information technology projects are conditioned on the authority satisfying the requirements of Engrossed Second Substitute Senate Bill No. 5931 (central service agencies).

(7) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(8) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(9) The legislature affirms that it is in the state's
interest for Harborview medical center to remain an economically viable component of the state's health care system.

(11) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(12) $4,261,000 of the general fund--state appropriation for fiscal year 2012, $4,261,000 of the general fund--state appropriation for fiscal year 2013, and $8,522,000 of the general fund--federal appropriation are provided solely for low-income disproportionate share hospital payments under RCW 74.09.730(1)(a).

(13) $2,008,000 of the general fund--state appropriation for fiscal year 2012, $2,008,000 of the general fund--state appropriation for fiscal year 2013, and $4,016,000 of the general fund--federal appropriation are provided solely for nonrural indigent assistance disproportionate share hospital payments in accordance with RCW 74.09.730(1).

(14) $226,000 of the general fund--state appropriation for fiscal year 2012, $226,000 of the general fund--state appropriation for fiscal year 2013, and $552,000 of the general fund--federal appropriation are provided solely for small rural indigent assistance disproportionate share hospital payments in accordance with RCW 74.09.730(1).

(15) $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing
homes' as-filed and final medicare cost reports. The timing of the
interim and final cost settlements shall be at the health care
authority's discretion. During either the interim cost settlement or
the final cost settlement, the health care authority shall recoup from
the public hospital districts the supplemental payments that exceed the
medicaid cost limit and/or the medicare upper payment limit. The
health care authority shall apply federal rules for identifying the
eligible incurred medicaid costs and the medicare upper payment limit.

(15) (16) The health care authority shall continue the
inpatient hospital certified public expenditures program for the 2011-

including those owned or operated by the state, except those classified
as critical access hospitals or state psychiatric institutions. The
health care authority shall submit reports to the governor and
legislature by November 1, 2011, and by November 1, 2012, that evaluate
whether savings continue to exceed costs for this program. If the
certified public expenditures (CPE) program in its current form is no
longer cost-effective to maintain, the health care authority shall
submit a report to the governor and legislature detailing
cost-effective alternative uses of local, state, and federal resources
as a replacement for this program. During fiscal year 2012 and fiscal
year 2013, hospitals in the program shall be paid and shall retain one
hundred percent of the federal portion of the allowable hospital cost
for each medicaid inpatient fee-for-service claim payable by medical
assistance and one hundred percent of the federal portion of the
maximum disproportionate share hospital payment allowable under federal
regulations. Inpatient medicaid payments shall be established using an
allowable methodology that approximates the cost of claims submitted by
the hospitals. Payments made to each hospital in the program in each
fiscal year of the biennium shall be compared to a baseline amount.
The baseline amount will be determined by the total of (a) the
inpatient claim payment amounts that would have been paid during the
fiscal year had the hospital not been in the CPE program based on the
reimbursement rates developed, implemented, and consistent with
policies approved in the 2011-13 biennial operating appropriations act
and in effect on July 1, 2011, (b) one half of the indigent assistance
disproportionate share hospital payment amounts paid to and retained by
each hospital during fiscal year 2005, and (c) all of the other
disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2011-13 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. ($24,677,000) $8,102,000 of the general fund--state appropriation for fiscal year 2012, of which $6,570,000 is appropriated in section 204(1) of this act, and ($21,531,000) $3,162,000 of the general fund--state appropriation for fiscal year 2013 (of which $6,570,000 is) appropriated in section 204(1) of this act are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in RCW 74.60.080 and rate increases in RCW 74.60.090 funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

((18)) (19) For children with family incomes above 200 percent of the federal poverty level in the state-funded children's health program for children who are not eligible for coverage under the federally funded children's health insurance program, premiums shall be set every two years in an amount equal to the average state-only share of the per capita cost of coverage in the state-funded children's health program for children in families with incomes at or less than two hundred percent of the federal poverty level.

((19) $704,000 of the general fund--state appropriation for fiscal year 2012, $726,000 of the general fund--state appropriation for fiscal year 2013, and $1,431,000 of the general fund--federal appropriation are provided solely for)) (20) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

staff unit for each 2.94 certificated staff units allocated under such
subsections;

(ii) For each nonhigh school district with an enrollment of more
than fifty annual average full-time equivalent students and less than
one hundred eighty students, an additional one-half of a classified

subsection (12) of this section shall generate additional MSOC
allocations consistent with the nonemployee related costs (NERC)
allocation formula in place for the 2010-11 school year as provided
section 502, chapter 37, Laws of 2010 1st sp. sess. (2010 supplemental
budget), adjusted annually for inflation.

(13) Any school district board of directors may petition the
superintendent of public instruction by submission of a resolution
adopted in a public meeting to reduce or delay any portion of its basic
education allocation for any school year. The superintendent of public
instruction shall approve such reduction or delay if it does not impair
the district's financial condition. Any delay shall not be for more
than two school years. Any reduction or delay shall have no impact on
levy authority pursuant to RCW 84.52.0531 and local effort assistance
pursuant to chapter 28A.500 RCW.

(14) The superintendent may distribute funding for the following
programs outside the basic education formula during fiscal years 2012
and 2013 as follows:

(a) $589,000 of the general fund--state appropriation for fiscal
year 2012 and $598,000 of the general fund--state
appropriation for fiscal year 2013 are provided solely for fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW.

(b) $436,000 of the general fund--state appropriation for fiscal year 2012 and $436,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs.

(c) Funding in this section is sufficient to fund adjustments to school districts' allocations resulting from the implementation of the prototypical school funding formula, pursuant to chapter 236, Laws of 2010 (K-12 education funding). The funding in this section is intended to hold school districts harmless in total for funding changes resulting from conversion to the prototypical school formula in the general apportionment program, the learning assistance program, the transitional bilingual program, and the highly capable program, after adjustment for changes in enrollment and other caseload adjustments.

(15) $208,000 of the general fund--state appropriation for fiscal year 2012 and $211,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for school district emergencies as certified by the superintendent of public instruction. At the close of the fiscal year the superintendent of public instruction shall report to the office of financial management and the appropriate fiscal committees of the legislature on the allocations provided to districts and the nature of the emergency.

(16) Funding in this section is sufficient to fund a maximum of 1.6 FTE enrollment for skills center students pursuant to chapter 463, Laws of 2007.

(17) Beginning in the 2011-12 school year, students participating in running start programs may be funded up to a combined maximum enrollment of 1.2 FTE including school district and institution of higher education enrollment. In calculating the combined 1.2 FTE, the office of the superintendent of public instruction may ((average the participating student's September through June enrollment to account for differences in the start and end dates for courses provided by the high school and higher education institution)) utilize the average of
the student's running start FTE enrollment on nine count dates from the
institution of higher education and the average of the student's high
school FTE enrollment from September through June, adjusting for any
differences in start and end dates provided by the institution of
higher education and the high school, provided the final per-student
FTE does not exceed the 1.2 maximum. Additionally, the office of the
superintendent of public instruction, in consultation with the state
board for community and technical colleges, the higher education
coordinating board, and the education data center, shall annually track
and report to the fiscal committees of the legislature on the combined
FTE experience of students participating in the running start program,
including course load analyses at both the high school and community
and technical college system.

(18) If two or more school districts consolidate and each district
was receiving additional basic education formula staff units pursuant
to subsection (12) of this section, the following apply:

(a) For three school years following consolidation, the number of
basic education formula staff units shall not be less than the number
of basic education formula staff units received by the districts in the
school year prior to the consolidation; and

(b) For the fourth through eighth school years following
consolidation, the difference between the basic education formula staff
units received by the districts for the school year prior to
consolidation and the basic education formula staff units after
consolidation pursuant to subsection (12) of this section shall be
reduced in increments of twenty percent per year.

(19)(a) Indirect cost charges by a school district to approved
career and technical education middle and secondary programs shall not
exceed 15 percent of the combined basic education and career and
technical education program enhancement allocations of state funds.
Middle and secondary career and technical education programs are
considered separate programs for funding and financial reporting
purposes under this section.

(b) Career and technical education program full-time equivalent
enrollment shall be reported on the same monthly basis as the
enrollment for students eligible for basic support, and payments shall
be adjusted for reported career and technical education program
enrollments on the same monthly basis as those adjustments for
enrollment for students eligible for basic support.

(20) $10,000,000 of the general fund--state appropriation for
fiscal year 2013 is provided solely for the superintendent for
financial contingency funds for eligible school districts as a result
of delaying a portion of the June apportionment payment and the school
year 2012-13 bus depreciation payment. The financial contingency funds
shall be allocated to eligible districts in the form of an advance of
their respective general apportionment allocations. The office of
superintendent of public instruction shall adopt rules to allow for the
transfer of funds between the transportation vehicle fund and general
fund necessary to meet the intent of this subsection.

(a) Eligibility: The superintendent shall determine a district's
eligibility for receipt of financial contingency funds, and districts
shall be eligible only if the following conditions are met:

(i) A petition is submitted by the school district as provided in
RCW 28A.510.250 and WAC 392-121-436; and

(ii) The district's projected general fund balance for the month of
March is less than one-half of one percent of its budgeted general fund
expenditures as submitted to the superintendent for the 2012-13 school
year on the F-195 report.

(b) Calculations: The superintendent shall calculate the financial
contingency allocation to each district as the lesser of:

(i) The amount set forth in the school district's resolution;

(ii) An amount not to exceed ten percent of the total amount to
become due and payable to the district from September 1st through
August 31st of the current school year;

(iii) The highest negative monthly cash and investment balance of
the general fund between the date of the resolution and May 31st of the
school year based on projections approved by the county treasurer and
the educational service district.

(c) Repayment: For any amount allocated to a district in state
fiscal year 2013, the superintendent shall deduct in state fiscal year
2014 from the district's general apportionment the amount of the
emergency contingency allocation and any earnings by the school
district on the investment of a temporary cash surplus due to the
emergency contingency allocation. Repayments or advances will be
accomplished by a reduction in the school district's apportionment
payments on or before June 30th of the school year following the
distribution of the emergency contingency allocation. All
disbursements, repayments, and outstanding allocations to be repaid of
the emergency contingency pool shall be reported to the office of
financial management and the appropriate fiscal committees of the
legislature on July 1st and January 1st of each year.

Sec. 503. 2011 2nd sp. s. c 9 s 503 (uncodified) is amended to read
as follows:

(1) The following calculations determine the salaries used in the
state allocations for certificated instructional, certificated
administrative, and classified staff units as provided in RCW
28A.150.280 and under section 503 of this act:

(a) Salary allocations for certificated instructional staff units
are determined for each district by multiplying the district's
certificated instructional total base salary shown on LEAP Document 2
by the district's average staff mix factor for certificated
instructional staff in that school year, computed using LEAP document
1; and

(b) Salary allocations for certificated administrative staff units
and classified staff units for each district are determined based on
the district's certificated administrative and classified salary
allocation amounts shown on LEAP Document 2.

(2) For the purposes of this section:

(a) "LEAP Document 1" means the staff mix factors for certificated
instructional staff according to education and years of experience, as
developed by the legislative evaluation and accountability program
committee on May 23, 2011, at 16:10 hours; and

(b) "LEAP Document 2" means the school year salary allocations for
certificated administrative staff and classified staff and derived and
total base salaries for certificated instructional staff as developed
by the legislative evaluation and accountability program committee on
May 23, 2011, at 16:10 hours.

(3) Incremental fringe benefit factors are applied to salary
adjustments at a rate of 15.69 percent for school year 2011-12 and
((15.69)) 15.70 percent for school year 2012-13 for certificated
instructional and certificated administrative staff and 15.23 percent
for school year 2011-12 and 15.23 percent for the 2012-13 school year
for classified staff.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary
allocation schedules for certificated instructional staff are
established for basic education salary allocations:

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
(e) "Credits" means college quarter hour credits and equivalent
in-service credits computed in accordance with RCW 28A.415.020 and
28A.415.023.

(6) No more than ninety college quarter-hour credits received by
any employee after the baccalaureate degree may be used to determine
compensation allocations under the state salary allocation schedule and
LEAP documents referenced in this part V, or any replacement schedules
and documents, unless:

(a) The employee has a masters degree; or
(b) The credits were used in generating state salary allocations
before January 1, 1992.

(7) The salary allocation schedules established in this section are
for allocation purposes only except as provided in RCW 28A.400.200(2).

Sec. 504. 2011 2nd sp.s. c 9 s 504 (uncodified) is amended to read
as follows:
FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE
COMPENSATION ADJUSTMENTS
General Fund--Federal Appropriation ......................... $2,000

The appropriation in this section is subject to the following
conditions and limitations:

(1)(a) Additional salary adjustments as necessary to fund the base
salaries for certificated instructional staff as listed for each
district in LEAP Document 2, defined in section 504(2)(b) of this act.
Allocations for these salary adjustments shall be provided to all
districts that are not grandfathered to receive salary allocations
above the statewide salary allocation schedule, and to certain
grandfathered districts to the extent necessary to ensure that salary
allocations for districts that are currently grandfathered do not fall
below the statewide salary allocation schedule.

(b) Additional salary adjustments to certain districts as necessary
to fund the per full-time-equivalent salary allocations for
certificated administrative staff as listed for each district in LEAP
Document 2, defined in section 504(2)(b) of this act.

(c) Additional salary adjustments to certain districts as necessary
to fund the per full-time-equivalent salary allocations for classified
staff as listed for each district in LEAP Document 2, defined in
section 504(2)(b) of this act.
(d) The appropriations in this subsection (1) include associated incremental fringe benefit allocations at 15.69 percent for the 2011-12 school year and (15.69) 15.70 percent for the 2012-13 school year for certificated instructional and certificated administrative staff and 15.23 percent for the 2011-12 school year and 15.23 percent for the 2012-13 school year for classified staff.

(e) The appropriations in this section include the increased or decreased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act. Changes for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 503 and 504 of this act. Changes for special education result from changes in each district's basic education allocation per student. Changes for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 503 and 504 of this act.

(f) The appropriations in this section include no salary adjustments for substitute teachers.

(2) The maintenance rate for insurance benefit allocations is $768.00 per month for the 2011-12 and 2012-13 school years. The appropriations in this section reflect the incremental change in cost of allocating rates of $768.00 per month for the 2011-12 school year and $768.00 per month for the 2012-13 school year.

(3) The rates specified in this section are subject to revision each year by the legislature.

Sec. 505. 2011 2nd sp.s. c 9 s 505 (uncodified) is amended to read as follows:

The appropriations in this section are subject to the following conditions and limitations:
(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2)(a) For the 2011-12 and 2012-13 school years, the superintendent shall allocate funding to school district programs for the transportation of students as provided in RCW 28A.160.192.

(b) From July 1, 2011 to August 31, 2011, the superintendent shall allocate funding to school districts programs for the transportation of students as provided in section 505, chapter 564, Laws of 2009, as amended through section 1404 of this act.

(3) Any amounts appropriated for maintenance level funding for pupil transportation that exceed actual maintenance level expenditures as calculated under the funding formula that takes effect September 1, 2011, shall be distributed to districts according to RCW 28A.160.192(2)(b).

(4) A maximum of $892,000 of this fiscal year 2012 appropriation and a maximum of $892,000 of the fiscal year 2013 appropriation may be expended for regional transportation coordinators and related activities. (8) Starting with the 2012-13 school year, the office of the superintendent of public instruction shall disburse payments for bus depreciation in August.

(9) The office of the superintendent of public instruction shall develop, in consultation with the Washington association of school business officials and Washington association for pupil transportation, a unit-cost transportation formula or hybrid formula for legislative consideration and potential adoption. The transportation-allocation formula shall take into account statistically significant cost drivers, recognize fixed costs, and simplify the current regression-analysis transportation-allocation method. The formula or hybrid formula developed should be based on currently-collected data identified under RCW 28A.160.192(1)(a). To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall ensure that:

This additional funding shall begin in school year 2013-14 with students achieving proficiency in school year 2012-13 and transitioning to a standard program of education for school year 2013-14. The amount of the additional funding shall be established in the biennial omnibus budget.
(b) It is expected that per-pupil funding for all students served in kindergarten and grade one will be the same as would have been necessary to maintain the statewide average prior to establishing differential per-pupil amounts. For all other students served in the program, it is expected that level 2 proficiency will be set at ((the same)) a level ((as would have been provided)) that represents the median funding level necessary to maintain the statewide average prior to establishing differential per-pupil amounts; ((level 1 will be 125 percent of level 2; level 3 through the level prior to exit will be 75 percent of level 2; and two bonus years upon successful demonstration of proficiency will be 100 percent of level 2)) levels 1 and 3 shall be set such that level 1 is substantially greater than level 2, and level 3 is substantially less; each of the two years of additional per-pupil funding is expected to be equivalent to level 2. Total funding in aggregate for all levels for the 2012-13 school year is equivalent to what total funding in aggregate would have been prior to the application of differential per-pupil amounts. For school year 2012-13 when funds are not yet distributed for proficient students exiting the program, auxiliary funds shall be provided in a similarly differential distribution, such that total program allocations are not less than what total program allocations would have been prior to establishing differential per-pupil amounts. Prior to implementing in school year 2012-13, the office of the superintendent of public instruction shall provide to the senate and house of representatives ways and means committees recommended rates based on the results of proficiency test procurement, expressed as both per-pupil rates and hours of instruction as provided in RCW 28A.150.260(10)(b).

The ((bonus)) additional payments for up to two school years following successful exit from the transitional bilingual program for students in grades two through twelve, shall be allocated to the ((exiting)) school district in which the student is enrolled. If the student graduates or ((transfers to another district prior to the district receiving both years' bonuses)) or otherwise leaves the system, the district shall receive the ((bonus)) additional payments for only the length of time the student remains enrolled in the ((exiting)) district.
(d) (The quality education council shall examine the revised funding model developed under this subsection and provide a report to the education and fiscal committees of the legislature by December 1, 2011, that includes recommendations for:

(i) Changing the prototypical school funding formula for the transitional bilingual program to align with the revised model in an accurate and transparent manner;

(ii) Reconciling the revised model with statutory requirements for categorical funding of the transitional bilingual instructional program that is restricted to students eligible for and enrolled in that program;

(iii) Clarifying the elements of the transitional bilingual instructional program that fall under the definition of basic education and the impact of the revised model on them; and

(iv) The extent that the disparate financial impact of the revised model on different school districts should be addressed and options for addressing it.

(e)) The office of the superintendent of public instruction shall report to the senate and house of representatives ways and means committees and education committees annually by December 31st of each year, through 2018, regarding any measurable changes in proficiency, time-in-program, and transition experience.

ownership interest in water pollution control facilities; or (c) to 
defray any part of the capital component of the payments made by a 
public body to a service provider under a service agreement entered 
into under RCW 70.150.060. During the 2009-2011 fiscal biennium, the 
legislature may transfer from the water quality capital account to the 
state general fund such amounts as reflect the excess fund balance of 
the account. During the 2011-2013 fiscal biennium, the legislature may 
transfer from the water quality capital account to the state general 
fund such amounts as reflect the excess fund balance of the account.

Sec. 917. RCW 76.04.610 and 2007 c 110 s 1 are each amended to 
read as follows:

(1)(a) If any owner of forest land within a forest protection zone 
neglects or fails to provide adequate fire protection as required by 
RCW 76.04.600, the department shall provide such protection and shall 
annually impose the following assessments on each parcel of such land: 
(i) A flat fee assessment of seventeen dollars and fifty cents; and 
(ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax 
exempt lands. If the assessor elects not to collect the assessment, 
the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each 
containing fewer than fifty acres and each within the same county, may 
obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then 
the refund is equal to the flat fee assessments paid, reduced by the 
total of (i) seventeen dollars and (ii) the total of the amounts 
retained by the county from such assessments under subsection (5) of 
this section.

(b) If all the parcels together contain fifty or more acres, then 
the refund is equal to the flat fee assessments paid, reduced by the 
total of (i) seventeen dollars, (ii) twenty-seven cents for each acre 
exceeding fifty acres, and (iii) the total of the amounts retained by 
the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a 
form prescribed by the department and in the same year in which the 
assessments were paid. The department may not provide refunds to
applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of Parcels</th>
</tr>
</thead>
<tbody>
<tr>
<td>2002</td>
<td>10 or more parcels</td>
</tr>
<tr>
<td>2003</td>
<td>8 or more parcels</td>
</tr>
<tr>
<td>2004 and thereafter</td>
<td>6 or more parcels</td>
</tr>
</tbody>
</table>

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forest lands.

(4) For the purpose of this chapter, the department may divide the forest lands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forest lands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved
as to its adequacy, the department shall report the same to the
assessor of the county in which the property is situated. The assessor
shall extend the amounts upon the tax rolls covering the property, and
upon authorization from the department shall levy the forest protection
assessment against the amounts of unimproved land as shown in each
ownership on the county assessor's records. The assessor may then
segregate on the records to provide that the improved land and
improvements thereon carry the millage levy designed to support the
rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the
same manner, by the same procedure, and with the same penalties
attached that general state and county taxes on the same property are
collected, except that errors in assessments may be corrected at any
time by the department certifying them to the treasurer of the county
in which the land involved is situated. Assessments shall be known and
designated as assessments of the year in which the amounts became
reimbursable. Upon the collection of assessments the county treasurer
shall place fifty cents of the total assessments paid on a parcel for
fire protection into the county current expense fund to defray the
costs of listing, billing, and collecting these assessments. The
treasurer shall then transmit the balance to the department.
Collections shall be applied against expenses incurred in carrying out
the provisions of this section, including necessary and reasonable
administrative costs incurred by the department in the enforcement of
these provisions. The department may also expend sums collected from
owners of forest lands or received from any other source for necessary
administrative costs in connection with the enforcement of RCW
76.04.660.

(6) When land against which forest protection assessments are
outstanding is acquired for delinquent taxes and sold at public
auction, the state shall have a prior lien on the proceeds of sale over
and above the amount necessary to satisfy the county's delinquent tax
judgment. The county treasurer, in case the proceeds of sale exceed
the amount of the delinquent tax judgment, shall immediately remit to
the department the amount of the outstanding forest protection
assessments.

(7) All nonfederal public bodies owning or administering forest
land included in a forest protection zone shall pay the forest
protection assessments provided in this section and the special forest
fire suppression account assessments under RCW 76.04.630. The forest
protection assessments and special forest fire suppression account
assessments shall be payable by nonfederal public bodies from available
funds within thirty days following receipt of the written notice from
the department which is given after October 1st of the year in which
the protection was provided. Unpaid assessments are not a lien against
the nonfederal publicly owned land but shall constitute a debt by the
nonfederal public body to the department and are subject to interest
charges at the legal rate. During the 2011–2013 fiscal biennium, the
forest fire protection assessment account may be used by the office of
financial management to contract for analysis and recommendations to
improve the efficiency and effectiveness of the state's mechanisms for
funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest
protection assessments required of it by this section, which fails to
suppress a fire on or originating from forest lands owned or
administered by it, is liable for the costs of suppression incurred by
the department or its agent and is not entitled to reimbursement of
costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section,
including, but not limited to, rules on levying and collecting forest
protection assessments.

**Sec. 918.** RCW 77.12.201 and 2009 c 479 s 63 are each amended to
read as follows:

The legislative authority of a county may elect, by giving written
notice to the director and the treasurer prior to January 1st of any
year, to obtain for the following year an amount in lieu of real
property taxes on game lands as provided in RCW 77.12.203. Upon the
election, the county shall keep a record of all fines, forfeitures,
reimbursements, and costs assessed and collected, in whole or in part,
under this title for violations of law or rules adopted pursuant to
this title, with the exception of the 2011–2013 fiscal biennium, and
shall monthly remit an amount equal to the amount collected to the
state treasurer for deposit in the state general fund. The election
shall continue until the department is notified differently prior to
January 1st of any year.
Sec. 919. RCW 77.12.203 and 2005 c 303 s 14 are each amended to read as follows:

(1) Except as provided in subsection (5) of this section and notwithstanding RCW 84.36.010 or other statutes to the contrary, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes equal to that amount paid on similar parcels of open space land taxable under chapter 84.34 RCW or the greater of seventy cents per acre per year or the amount paid in 1984 plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. This amount shall not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, tidelands, or public fishing areas of less than one hundred acres.

(2) "Game lands," as used in this section and RCW 77.12.201, means those tracts one hundred acres or larger owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access or recreation purposes with federal funds in the Snake River drainage basin shall be considered game lands regardless of acreage.

(3) This section shall not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the 2011-2013 fiscal biennium, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and shall be distributed as follows:

Sec. 920. RCW 79.22.010 and 2003 c 334 s 205 are each amended to read as follows:

(1) The department has the power to accept gifts and bequests of money or other property, made in its own name, or made in the name of the state, to promote generally the interests of reforestation or for a specific named purpose in connection with reforestation, and to acquire in the name of the state, by purchase or gift, any lands which by reason of their location, topography, or geological formation, are chiefly valuable for purpose of developing and growing timber, and to designate such lands and any lands of the same character belonging to the state as state forest lands; and may acquire by gift or purchase any lands of the same character.

(2) The department has the power to seed, plant, and develop forests on any lands, purchased, acquired, or designated by it as state forest lands, and shall furnish such care and fire protection for such lands as it shall deem advisable.

(3) Upon approval of the board of county commissioners of the county in which the land is located such gift or donation of land may be accepted subject to delinquent general taxes thereon, and upon such acceptance of such gift or donation subject to such taxes, the department shall record the deed of conveyance thereof and file with

(1) The department has the power to accept gifts and bequests of money or other property, made in its own name, or made in the name of the state, to promote generally the interests of reforestation or for a specific named purpose in connection with reforestation, and to acquire in the name of the state, by purchase or gift, any lands which by reason of their location, topography, or geological formation, are chiefly valuable for purpose of developing and growing timber, and to designate such lands and any lands of the same character belonging to the state as state forest lands; and may acquire by gift or purchase any lands of the same character.

the assessor and treasurer of the county wherein such land is situated, written notice of acquisition of such land, and that all delinquent general taxes thereon, except state taxes, shall be canceled, and the county treasurer shall thereupon proceed to make such cancellation in the records of the county treasurer. 

(4)(a) Lands acquired under this section shall be held in trust, protected, managed, and administered upon, and the proceeds therefrom disposed of, under RCW 79.22.040.

(b) During the 2011-2013 fiscal biennium, the legislature may appropriate moneys derived subject to this section from the forest development account consistent with RCW 79.64.100(4).

Sec. 921. RCW 79.22.040 and 2003 c 334 s 206 are each amended to read as follows:

(1) If any land acquired by a county through foreclosure of tax liens, or otherwise, comes within the classification of land described in RCW 79.22.010 and can be used as state forest land and if the department deems such land necessary for the purposes of this chapter, the county shall, upon demand by the department, deed such land to the department and the land shall become a part of the state forest lands.

(2) Such land shall be held in trust and administered and protected by the department in the same manner as other state forest lands.

(3)(a) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys derived subject to this section are the net proceeds from the contract harvesting sale.

(b) During the 2011-2013 fiscal biennium, the legislature may appropriate moneys derived subject to this section from the forest development account consistent with RCW 79.64.100(4).

Sec. 922. RCW 79.64.040 and 2011 1st sp.s. c 50 s 966 and 2011 c 216 s 16 are each reenacted and amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands, community forest
trust lands, and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsections (4) and (6) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) Deductions authorized under this section for transactions pertaining to community forest trust lands must be established at a level sufficient to defray over time the management costs for activities prescribed in a parcel's management plan adopted pursuant to RCW 79.155.080, and, if deemed appropriate by the board consistent with RCW 79.155.090, to reimburse the state and any local entities' eligible financial contributions for acquisition of the parcel.

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(6) During the (2009-2011) 2011-2013 fiscal biennium (and fiscal year 2012), the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.

Sec. 923. RCW 79.64.100 and 2003 c 334 s 219 are each amended to read as follows:

(1) There is created a forest development account in the state treasury. The state treasurer shall keep an account of all sums deposited therein and expended or withdrawn therefrom.

(2) Any sums placed in the forest development account shall be pledged for the purpose of paying interest and principal on the bonds issued by the department under RCW 79.22.080 and 79.22.090 and the
provisions of this chapter, and for the purchase of land for growing
timber. Any bonds issued shall constitute a first and prior claim and
lien against the account for the payment of principal and interest. No
sums for the above purposes shall be withdrawn or paid out of the
account except upon approval of the department.

(3) Appropriations may be made by the legislature from the forest
development account to the department for the purpose of carrying on
the activities of the department on state forest lands, lands managed
on a sustained yield basis as provided for in RCW 79.10.320, and for
reimbursement of expenditures that have been made or may be made from
the resource management cost account in the management of state forest
lands.

(4) For the 2011-2013 fiscal biennium, moneys from the forest
development account shall be distributed as directed in section 714 of
this act to the beneficiaries of the revenues derived from state forest
lands. During the 2011-2013 fiscal biennium, appropriations may be
made by the legislature from the forest development account to the
department for the purpose of emergency fire suppression.

Sec. 924. RCW 79.105.150 and 2011 2nd sp.s. c 9 s 911 are each
amended to read as follows:

(1) After deduction for management costs as provided in RCW
79.64.040 and payments to towns under RCW 79.115.150(2), all moneys
received by the state from the sale or lease of state-owned aquatic
lands and from the sale of valuable material from state-owned aquatic
lands shall be deposited in the aquatic lands enhancement account which
is hereby created in the state treasury. After appropriation, these
funds shall be used solely for aquatic lands enhancement projects; for
the purchase, improvement, or protection of aquatic lands for public
purposes; for providing and improving access to the lands; and for
volunteer cooperative fish and game projects. During the 2009-2011 and
2011-2013 fiscal biennia, the aquatic lands enhancement account may
also be used for scientific research as part of the adaptive management
process and for developing a planning report for McNeil Island. During
the 2009-2011 and 2011-2013 fiscal biennia, the legislature may
transfer from the aquatic lands enhancement account to the state
general fund such amounts as reflect excess fund balance of the
account. During the 2011-2013 fiscal biennium, the aquatic lands
enhancement account may be used to support the shellfish program, state parks, hatcheries, the ballast water program, and the Puget Sound toxic sampling program at the department of fish and wildlife, and the knotweed program at the department of agriculture.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:

(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;

(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 925. RCW 79A.25.200 and 2007 c 241 s 53 are each amended to read as follows:

The recreation resource account is created in the state treasury. Moneys in this account are subject to legislative appropriation. The board shall administer the account in accordance with this chapter and chapter 79A.35 RCW and shall hold it separate and apart from all other
money, funds, and accounts of the board. Moneys received from the
marine fuel tax refund account under RCW 79A.25.070 shall be deposited

contributions, and moneys made available to the state of Washington by
the federal government for outdoor recreation may be deposited into the
account. During the 2011-2013 fiscal biennia, the recreation resource
account may be used by the department of fish and wildlife for the
purposes of activities related to aquatic and marine enforcement.

Sec. 926. RCW 82.08.160 and 2011 1st sp.s. c 50 s 969 are each
amended to read as follows:

(1) On or before the twenty-fifth day of each month, all taxes
collected under RCW 82.08.150 during the preceding month must be
remitted to the state department of revenue, to be deposited with the
state treasurer. Except as provided in subsections (2) and (3) of this
section, upon receipt of such moneys the state treasurer must credit
sixty-five percent of the sums collected and remitted under RCW
82.08.150 (1) and (2) and one hundred percent of the sums collected and
remitted under RCW 82.08.150 (3) and (4) to the state general fund and

state treasury. At the beginning of the 2005-2007 fiscal biennium, the
state treasurer shall transfer three million dollars from the general
fund to the flood control assistance account. Each biennium thereafter
the state treasurer shall transfer four million dollars from the
general fund to the flood control assistance account, except that
during the (2009-2011 and) 2011-2013 fiscal (biennia) biennium, the
state treasurer shall transfer (two) one million dollars from the
general fund to the flood control assistance account. Moneys in the
flood control assistance account may be spent only after appropriation
for purposes specified under this chapter.

Sec. 928. RCW 90.48.390 and 2008 c 329 s 925 are each amended to
read as follows:

department as a revolving fund for carrying out the purposes of
restoration of natural resources under this chapter and chapter 90.56
RCW. To this fund there shall be credited penalties, fees, damages,
charges received pursuant to the provisions of this chapter and chapter
90.56 RCW, compensation for damages received under this chapter and
chapter 90.56 RCW, and an amount equivalent to one cent per gallon from
each marine use refund claim under RCW 82.36.330.

the 2007-2009 fiscal biennium, the coastal protection fund may also be
used for a standby rescue tug at Neah Bay. During the 2011-2013 fiscal
biennium, the legislature may transfer from the coastal protection fund
to the state general fund such amounts as reflect excess fund balance
derived from penalties, forfeits, and seizures.

NEW SECTION. Sec. 929. If any provision of this act or its

remainder of the act or the application of the provision to other
persons or circumstances is not affected.

NEW SECTION. Sec. 930. This act is necessary for the immediate
preservation of the public peace, health, or safety, or support of the
state government and its existing public institutions, and takes effect immediately.
