(1) The department shall request an unanticipated receipt for any federal moneys received for emergency snow and ice removal and shall place an equal amount of the motor vehicle account--state appropriation into unallotted status. This exchange shall not affect the amount of funding available for snow and ice removal.

(2) \$7,000,000 of the motor vehicle account--state appropriation is provided solely for third-party damages to the highway system where the responsible party is known and reimbursement is anticipated. The department shall request additional appropriation authority for any funds received for reimbursements of third-party damages that are in excess of this appropriation.

(3) \$7,000,000 of the motor vehicle account--federal appropriation is for unanticipated federal funds that may be received during the

1 2011-2013 fiscal biennium. Upon receipt of the funds, the department
2 shall provide a report on the use of the funds to the transportation
3 committees of the legislature and the office of financial management.

4 (4) The department may work with the department of corrections to
5 utilize corrections crews for the purposes of litter pickup on state
6 highways.

7 (5) \$4,530,000 of the motor vehicle account--state appropriation is
8 provided solely for the department's compliance with its national
9 pollution discharge elimination system permit.

10 (6) The department shall continue to report maintenance
11 accountability process (MAP) targets and achievements on an annual
12 basis. The department shall use available funding to target and
13 deliver a minimum MAP grade of C for the activity of roadway striping.

14 (7) \$6,884,000 of the motor vehicle account--state appropriation is
15 provided solely for the high priority maintenance backlog. Addressing
16 the maintenance backlog must result in increased levels of service. If
17 chapter . . . (Engrossed Substitute Senate Bill No. 5251), Laws of 2011
18 (electric vehicle fee) is not enacted by June 30, 2011, \$500,000 of the
19 appropriation provided in this subsection lapses.

20 (8) (~~(\$317,000 of the motor vehicle account--state appropriation is~~
21 ~~provided solely for maintaining a new active traffic management system~~
22 ~~on Interstate 5, Interstate 90, and state route number 520.)) The~~
23 department shall track the costs associated with ((these)) active
24 traffic management systems on a corridor basis and report to the
25 transportation committees of the legislature on the costs and benefits
26 of the systems by December 1, 2011.

27 **Sec. 216.** 2011 c 367 s 216 (uncodified) is amended to read as
28 follows:

29 **FOR THE DEPARTMENT OF TRANSPORTATION--TRAFFIC OPERATIONS--PROGRAM Q--**
30 **OPERATING**

31	Motor Vehicle Account--State Appropriation	(((\$50,166,000))
32		<u>\$48,818,000</u>
33	Motor Vehicle Account--Federal Appropriation	\$2,050,000
34	Motor Vehicle Account--Private/Local Appropriation	(((\$127,000))
35		<u>\$250,000</u>
36	TOTAL APPROPRIATION	(((\$52,343,000))
37		<u>\$51,118,000</u>

1 The appropriations in this section are subject to the following
2 conditions and limitations:

3 (1) \$6,000,000 of the motor vehicle account--state appropriation is
4 provided solely for low-cost enhancements. Of this amount, \$10,000 of
5 the motor vehicle account--state appropriation is provided solely for
6 the department to install additional farm machinery signs to promote
7 safety in agricultural areas along state highways. The department
8 shall give priority to low-cost enhancement projects that improve
9 safety or provide congestion relief. The department shall prioritize
10 low-cost enhancement projects on a statewide rather than regional
11 basis. By (~~September~~) October 1st of each (~~even~~) odd-numbered
12 year, the department shall provide a report to the legislature listing
13 all low-cost enhancement projects prioritized on a statewide rather
14 than regional basis completed in the prior year.

15 (2) \$145,000 of the motor vehicle account--state appropriation is
16 provided solely for the department to continue a pilot tow truck
17 incentive program and to expand the program to other areas of the
18 state. The department may provide incentive payments to towing
19 companies that meet clearance goals on accidents that involve heavy
20 trucks.

21 (3) During the 2011-2013 fiscal biennium, the department shall
22 implement a pilot program that expands private transportation
23 providers' access to high occupancy vehicle lanes. Under the pilot
24 program, when the department reserves a portion of a highway based on
25 the number of passengers in a vehicle, the following vehicles must be
26 authorized to use the reserved portion of the highway if the vehicle
27 has the capacity to carry eight or more passengers, regardless of the
28 number of passengers in the vehicle: (a) Auto transportation company
29 vehicles regulated under chapter 81.68 RCW; (b) passenger charter
30 carrier vehicles regulated under chapter 81.70 RCW, except marked or
31 unmarked stretch limousines and stretch sport utility vehicles as
32 defined under department of licensing rules; (c) private nonprofit
33 transportation provider vehicles regulated under chapter 81.66 RCW; and
34 (d) private employer transportation service vehicles. For purposes of
35 this subsection, "private employer transportation service" means
36 regularly scheduled, fixed-route transportation service that is offered
37 by an employer for the benefit of its employees. By June 30, 2013, the
38 department shall report to the transportation committees of the

1 legislature on whether private transportation provider use of high
2 occupancy vehicle lanes under the pilot program reduces the speeds of
3 high occupancy vehicle lanes. Nothing in this subsection is intended
4 to authorize the conversion of public infrastructure to private, for-
5 profit purposes or to otherwise create an entitlement or other claim by
6 private users to public infrastructure. If chapter ... (Substitute
7 Senate Bill No. 5836), Laws of 2011 is enacted by June 30, 2011, this
8 subsection is null and void.

9 (4) \$9,000,000 of the motor vehicle account--state appropriation is
10 provided solely for the department's incident response program.

11 (5) The department, in consultation with the Washington state
12 patrol, must continue a pilot program for the patrol to issue
13 infractions based on information from automated traffic safety cameras
14 in roadway construction zones on state highways. The department must
15 report to the joint transportation committee by January 1, 2012, and
16 January 1, 2013, on the status of this pilot program. For the purpose
17 of this pilot program, during the 2011-2013 fiscal biennium, a roadway
18 construction zone includes areas where public employees or private
19 contractors may be present or where a driving condition exists that
20 would make it unsafe to drive at higher speeds, such as, when the
21 department is redirecting or realigning lanes on any public roadway
22 pursuant to ongoing construction. The department shall use the
23 following guidelines to administer the program:

24 (a) Automated traffic safety cameras may only take pictures of the
25 vehicle and vehicle license plate and only while an infraction is
26 occurring. The picture must not reveal the face of the driver or of
27 passengers in the vehicle;

28 (b) The department shall plainly mark the locations where the
29 automated traffic safety cameras are used by placing signs on locations
30 that clearly indicate to a driver that he or she is entering a roadway
31 construction zone where traffic laws are enforced by an automated
32 traffic safety camera;

33 (c) Notices of infractions must be mailed to the registered owner
34 of a vehicle within fourteen days of the infraction occurring;

35 (d) The owner of the vehicle is not responsible for the violation
36 if the owner of the vehicle, within fourteen days of receiving
37 notification of the violation, mails to the patrol, a declaration under

1 penalty of perjury, stating that the vehicle involved was, at the time,
2 stolen or in the care, custody, or control of some person other than
3 the registered owner, or any other extenuating circumstances;

4 (e) For purposes of the 2011-2013 fiscal biennium pilot program,
5 infractions detected through the use of automated traffic safety
6 cameras are not part of the registered owner's driving record under RCW
7 46.52.101 and 46.52.120. Additionally, infractions generated by the
8 use of automated traffic safety cameras must be processed in the same
9 manner as parking infractions for the purposes of RCW 3.50.100,
10 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the
11 fine issued under this subsection (5) for an infraction generated
12 through the use of an automated traffic safety camera is one hundred
13 thirty-seven dollars. The court shall remit thirty-two dollars of the
14 fine to the state treasurer for deposit into the state patrol highway
15 account; and

16 (f) If a notice of infraction is sent to the registered owner and
17 the registered owner is a rental car business, the infraction must be
18 dismissed against the business if it mails to the patrol, within
19 fourteen days of receiving the notice, a declaration under penalty of
20 perjury of the name and known mailing address of the individual driving
21 or renting the vehicle when the infraction occurred. If the business
22 is unable to determine who was driving or renting the vehicle at the
23 time the infraction occurred, the business must sign a declaration
24 under penalty of perjury to this effect. The declaration must be
25 mailed to the patrol within fourteen days of receiving the notice of
26 traffic infraction. Timely mailing of this declaration to the issuing
27 agency relieves a rental car business of any liability under this
28 section for the notice of infraction. A declaration form suitable for
29 this purpose must be included with each automated traffic infraction
30 notice issued, along with instructions for its completion and use.

31 (6) The department shall track the costs associated with active
32 traffic management systems on a corridor basis and report to the
33 transportation committees of the legislature on the cost and benefits
34 of the systems by December 1, 2011.

30 The appropriations in this section are subject to the following
31 conditions and limitations:

32 (1) \$70,000 of the motor vehicle account--state appropriation is a
33 reappropriation provided solely for a corridor study of state route
34 number 516 from the eastern border of Maple Valley to state route
35 number 167 to determine whether improvements are needed and the costs
36 of any needed improvements.

1 (2) \$200,000 of the motor vehicle account--state appropriation is
2 provided solely for extending the freight database pilot project that
3 began in 2009. Global positioning system (GPS) data is intended to
4 help guide freight investment decisions and track highway project
5 effectiveness as it relates to freight traffic.

6 (3) Within available resources, the department must collaborate
7 with the affected metropolitan planning organizations, regional
8 transportation planning organizations, transit agencies, and private
9 transportation providers to develop a plan to reduce vehicle demand,
10 increase public transportation options, and reduce vehicle miles
11 traveled on corridors affected by growth at Joint Base Lewis-McChord.

12 (4) As part of their ongoing regional transportation planning, the
13 regional transportation planning organizations across the state shall
14 work together to provide a comprehensive framework for sources and uses
15 of next-stage investments in transportation needed to improve
16 structural conditions and ongoing operations and lay the groundwork for
17 the transportation systems to support the long-term economic vitality
18 of the state. This planning must include all forms of transportation
19 to reflect the state's interests, including: Highways, streets, and
20 roads; ferries; public transportation; systems for freight; and walking
21 and biking systems. The department shall support this planning by
22 providing information on potential state transportation uses and an
23 analysis of potential sources of revenue to implement investments. In
24 carrying out this planning, regional transportation planning
25 organizations must be broadly inclusive of business, civic, labor,
26 governmental, and environmental interests in regional communities
27 across the state.

28 (5) The total appropriation provided in this section assumes
29 enactment of chapter . . . (Second Substitute Senate Bill No. 5128),
30 Laws of 2012 (statewide transportation planning) and reflects an
31 accompanying cost savings of at least five hundred thousand dollars.

18		<u>\$111,474,000</u>

19 The appropriations in this section are subject to the following
20 conditions and limitations:

21 (1) \$25,000,000 of the multimodal transportation account--state
22 appropriation is provided solely for a grant program for special needs
23 transportation provided by transit agencies and nonprofit providers of
24 transportation.

25 (a) \$5,500,000 of the (~~amount provided in this subsection~~)
26 multimodal transportation account--state appropriation is provided
27 solely for grants to nonprofit providers of special needs
28 transportation. Grants for nonprofit providers must be based on need,
29 including the availability of other providers of service in the area,
30 efforts to coordinate trips among providers and riders, and the cost
31 effectiveness of trips provided.

32 (b) \$19,500,000 of the (~~amount provided in this subsection~~)
33 multimodal transportation account--state appropriation is provided
34 solely for grants to transit agencies to transport persons with special
35 transportation needs. To receive a grant, the transit agency must have
36 a maintenance of effort for special needs transportation that is no
37 less than the previous year's maintenance of effort for special needs
38 transportation. Grants for transit agencies must be prorated based on

1 the amount expended for demand response service and route deviated
2 service in calendar year 2009 as reported in the "Summary of Public
3 Transportation - 2009" published by the department of transportation.
4 No transit agency may receive more than thirty percent of these
5 distributions.

6 (2) Funds are provided for the rural mobility grant program as
7 follows:

8 (a) \$8,500,000 of the rural mobility grant program account--state
9 appropriation is provided solely for grants for those transit systems
10 serving small cities and rural areas as identified in the "Summary of
11 Public Transportation - 2009" published by the department of
12 transportation. Noncompetitive grants must be distributed to the
13 transit systems serving small cities and rural areas in a manner
14 similar to past disparity equalization programs. If the funding
15 provided in this subsection (2)(a) exceeds the amount required for
16 recipient counties to reach eighty percent of the average per capita
17 sales tax, funds in excess of that amount may be used for the
18 competitive grant process established in (b) of this subsection.

19 (b) \$8,500,000 of the rural mobility grant program account--state
20 appropriation is provided solely to providers of rural mobility service
21 in areas not served or underserved by transit agencies through a
22 competitive grant process.

23 (3)(a) \$6,000,000 of the multimodal transportation account--state
24 appropriation is provided solely for a vanpool grant program for: (a)
25 Public transit agencies to add vanpools or replace vans; and (b)
26 incentives for employers to increase employee vanpool use. The grant
27 program for public transit agencies will cover capital costs only;
28 operating costs for public transit agencies are not eligible for
29 funding under this grant program. Additional employees may not be
30 hired from the funds provided in this section for the vanpool grant
31 program, and supplanting of transit funds currently funding vanpools is
32 not allowed. The department shall encourage grant applicants and
33 recipients to leverage funds other than state funds.

34 (b) At least \$1,600,000 of the amount provided in this subsection
35 must be used for vanpool grants in congested corridors.

36 (c) \$520,000 of the amount provided in this subsection is provided
37 solely for the purchase of additional vans for use by vanpools serving
38 soldiers and civilian employees at Joint Base Lewis-McChord.

1 (4) \$8,942,000 of the regional mobility grant program account--
2 state appropriation is reappropriated and provided solely for the
3 regional mobility grant projects identified in LEAP Transportation
4 Document (~~(2007-B, as developed April 20, 2007, or LEAP Transportation~~
5 ~~Document 2009-B, as developed April 24, 2009)~~) 2012-1 ALL PROJECTS -
6 Public Transportation - Program (V) as developed February 21, 2012.
7 The department shall continue to review all projects receiving grant
8 awards under this program at least semiannually to determine whether
9 the projects are making satisfactory progress. The department shall
10 promptly close out grants when projects have been completed, and any
11 remaining funds must be used only to fund projects identified in(~~(÷)~~)
12 the LEAP Transportation Document (~~(2007-B, as developed April 20, 2007;~~
13 ~~LEAP Transportation Document 2009-B, as developed April 24, 2009;~~
14 ~~or LEAP Transportation Document 2011-B, as developed April 19, 2011)~~
15 referenced in this subsection. It is the intent of the legislature to
16 appropriate funds through the regional mobility grant program only for
17 projects that will be completed on schedule and that all funds in the
18 regional mobility grant program be used as soon as practicable to
19 advance eligible projects.

20 (5)(a) \$40,000,000 of the regional mobility grant program account--
21 state appropriation is provided solely for the regional mobility grant
22 projects identified in LEAP Transportation Document (~~(2011-B, as~~
23 ~~developed April 19, 2011)~~) 2012-1 ALL PROJECTS - Public Transportation
24 - Program (V) as developed February 21, 2012. The department shall
25 review all projects receiving grant awards under this program at least
26 semiannually to determine whether the projects are making satisfactory
27 progress. Any project that has been awarded funds, but does not report
28 activity on the project within one year of the grant award, must be
29 reviewed by the department to determine whether the grant should be
30 terminated. The department shall promptly close out grants when
31 projects have been completed, and any remaining funds must be used only
32 to fund projects identified in the LEAP Transportation Document (~~(2011-~~
33 ~~B, as developed April 19, 2011)~~) referenced in this subsection. The
34 department shall provide annual status reports on December 15, 2011,
35 and December 15, 2012, to the office of financial management and the
36 transportation committees of the legislature regarding the projects
37 receiving the grants. It is the intent of the legislature to

1 appropriate funds through the regional mobility grant program only for
2 projects that will be completed on schedule.

3 (b) In order to be eligible to receive a grant under (a) of this
4 subsection during the 2011-2013 fiscal biennium, a transit agency must
5 establish a process for private transportation providers to apply for
6 the use of park and ride facilities. For purposes of this subsection,

7 (i) "private transportation provider" means: An auto transportation
8 company regulated under chapter 81.68 RCW; a passenger charter carrier
9 regulated under chapter 81.70 RCW, except marked or unmarked stretch
10 limousines and stretch sport utility vehicles as defined under
11 department of licensing rules; a private nonprofit transportation
12 provider regulated under chapter 81.66 RCW; or a private employer
13 transportation service provider; and (ii) "private employer
14 transportation service" means regularly scheduled, fixed-route
15 transportation service that is offered by an employer for the benefit
16 of its employees.

17 (6) \$2,309,000 of the multimodal transportation account--state
18 appropriation is provided solely for the tri-county connection service
19 for Island, Skagit, and Whatcom transit agencies.

20 (7) \$200,000 of the multimodal transportation account--state
21 appropriation is contingent on the timely development of an annual
22 report summarizing the status of public transportation systems as
23 identified under RCW 35.58.2796.

24 (8) Funds provided for the commute trip reduction program may also
25 be used for the growth and transportation efficiency center program.

26 (9) An affected urban growth area that has not previously
27 implemented a commute trip reduction program is exempt from the
28 requirements in RCW 70.94.527 if a solution to address the state
29 highway deficiency that exceeds the person hours of delay threshold has
30 been funded and is in progress during the 2011-2013 fiscal biennium.

31 **Sec. 221.** 2011 c 367 s 221 (uncodified) is amended to read as
32 follows:

33	FOR THE DEPARTMENT OF TRANSPORTATION--MARINE--PROGRAM X	
34	Puget Sound Ferry Operations Account--State	
35	Appropriation	((\$467,773,000))
36		<u>\$468,135,000</u>

1 The appropriation in this section is subject to the following
2 conditions and limitations:

3 (1) The office of financial management budget instructions require
4 agencies to recast enacted budgets into activities. The Washington
5 state ferries shall include a greater level of detail in its 2011-2013
6 supplemental and 2013-2015 omnibus transportation appropriations act
7 requests, as determined jointly by the office of financial management,
8 the Washington state ferries, and the transportation committees of the
9 legislature. This level of detail must include the administrative
10 functions in the operating as well as capital programs.

11 (2) When purchasing uniforms that are required by collective
12 bargaining agreements, the department shall contract with the lowest
13 cost provider.

14 ~~((+5))~~ (3) Until a reservation system is operational on the San
15 Juan islands inner-island route, the department shall provide the same
16 priority loading benefits on the San Juan islands inner-island route to
17 home health care workers as are currently provided to patients
18 traveling for purposes of receiving medical treatment.

19 ~~((+6))~~ (4) The department shall request from the United States
20 coast guard variable minimum staffing levels on all of its vessels by
21 December 31, 2011.

22 ~~((+10))~~ (5) The department shall continue to provide service to
23 Sidney, British Columbia and shall explore the option of purchasing a
24 foreign built vehicle and passenger ferry vessel either with safety of
25 life at sea (SOLAS) certification or the ability to be retrofitted for
26 SOLAS certification to operate solely on the Anacortes to Sidney,
27 British Columbia route currently served by vessels of the Washington
28 state ferries fleet. The vessel should have the capability of carrying
29 at least one hundred standard vehicles and approximately four hundred
30 to five hundred passengers. Further, the department shall explore the
31 possibilities of contracting a commercial company to operate the vessel
32 exclusively on this route so long as the contractor's employees
33 assigned to the vessel are represented by the same employee
34 organizations as the Washington state ferries. The department shall
35 report back to the transportation committees of the legislature
36 regarding: The availability of a vessel; the cost of the vessel,
37 including transport to the Puget Sound region; and the need for any

6 evaluate the applications according to the cost-benefit methodology
7 developed during the 2008 interim using the legislative priorities
8 specified in (c) of this subsection. Unsuccessful FRAP grant
9 applicants should be encouraged to apply to the FRIB loan program, if
10 eligible. By November 1, (~~2011~~) 2012, the department shall submit a
11 prioritized list of recommended projects to the office of financial
12 management and the transportation committees of the legislature.

13 (b) When the department identifies a prospective rail project that
14 may have strategic significance for the state, or at the request of a
15 proponent of a prospective rail project or a member of the legislature,
16 the department shall evaluate the prospective project according to the
17 cost-benefit methodology developed during the 2008 interim using the

22 office of financial management and the transportation committees of the
23 legislature.

24 (c) The legislative priorities to be used in the cost-benefit
25 methodology are, in order of relative importance:

26 (i) Economic, safety, or environmental advantages of freight
27 movement by rail compared to alternative modes;

28 (ii) Self-sustaining economic development that creates family-wage
29 jobs;

30 (iii) Preservation of transportation corridors that would otherwise
31 be lost;

32 (iv) Increased access to efficient and cost-effective transport to
33 market for Washington's agricultural and industrial products;

3 costs of projects in program Y.

4 (4) The department shall provide quarterly reports to the office of
5 financial management and the transportation committees of the
6 legislature regarding applications that the department submits for
7 federal funds and the status of such applications.

27 integral part of the rail system. Constructed in 1916, the bridge does
28 not meet current design standards and is at risk during flood events
29 that occur on the Skagit river. The department shall work with

38 project funds, the multimodal transportation account--state funds are

1 provided solely for expenditures that are not federally reimbursable.
2 Funding in this subsection is the initial portion of multiyear
3 high-speed rail program grants awarded to Washington state for
4 high-speed intercity passenger rail investments. Funding will allow
5 for two additional round trips between Seattle and Portland and other
6 rail improvements.

7 ~~((+11+))~~ (7) \$750,000 of the multimodal transportation account--
8 state appropriation is provided solely for the Port of Royal Slope
9 rehabilitation project (L1000053). Funding is contingent upon the

11 during the 2008 interim using the legislative priorities outlined in
12 subsection (2)(c) of this section.

13 (8) As allowable under federal rail authority rules and existing
14 competitive bidding practices, when purchasing new train sets, the
15 department shall give preference to bidders that propose train sets
16 with characteristics and maintenance requirements most similar to those
17 currently owned by the department.

19 operating, sustaining, and enhancing the grain train program including,
20 but not limited to, operations, capital investments, inspection,
21 developing business plans for future growth, and fleet management. Any
22 funds deemed by the department, in consultation with relevant port
23 districts, to be in excess of current operating needs or capital
24 reserves of the grain train program may be transferred from the
25 miscellaneous program account to the essential rail assistance account
26 for the purpose of sustaining the grain train program through
27 maintaining the Palouse river and Coulee City railroad line, on which

3 RCW to read as follows:

4 Funds deemed by the department of transportation, in consultation
5 with relevant port districts, to be in excess of current operating

10 **Sec. 602.** 2011 c 367 s 608 (uncodified) is amended to read as
11 follows:

12 **STAFFING LEVELS**

13 (1) As the department of transportation completes delivery of the
14 projects funded by the 2003 and 2005 transportation revenue packages,
15 it is clear that the current staffing levels necessary to deliver these
16 projects are not sustainable into the future. Therefore, the
17 department is directed to quickly move forward to develop and implement
18 new business practices so that a smaller, more nimble state workforce
19 can effectively and efficiently deliver transportation improvement
20 programs as they are approved in the future, in strong partnership with
21 the private sector, while protecting the public's interests and assets.

22 (2) To this end, the department of transportation is directed to
23 reduce the size of its engineering and technical workforce to a level
24 sustained by current law revenue levels currently estimated at two
25 thousand FTEs by the end of the 2013-2015 fiscal biennium. The
26 department's current two thousand eight hundred FTE engineering and
27 technical workforce levels for highway construction will be reduced in
28 the 2011-2013 fiscal biennium, with a target of two thousand four
29 hundred FTEs by June 30, 2013, and to a level of two thousand FTEs by
30 June 30, 2015.

31 (3) In order to successfully deliver the highway construction
32 program as funded, the department of transportation may continue to
33 contract out engineering and technical services. In addition, the
34 department may continue the incentive program for retirements and
35 employee separations. (~~The department shall report quarterly to the~~
36 ~~office of financial management and the transportation committees of the~~

1 legislature on its progress and plans to reduce highway construction
2 workforce levels to two thousand FTEs by June 2015. This report must
3 also be posted on the department's web site.))

4 (4) The department of transportation is directed to reduce the size
5 of its administrative operating programs for the 2013-2015 biennium.
6 As part of the department's biennial budget submittal, the department
7 shall reduce its workforce in Programs C, H, T, and S by five to seven
8 percent. The ratio of executive management service or Washington
9 management services employee staff must be at least seven staff for
10 every manager by the end of the 2013-2015 biennium.

11 **Sec. 603.** 2011 c 367 s 603 (uncodified) is amended to read as

17 2011)) February 21, 2012, which consists of a list of specific projects
18 by fund source and amount over a sixteen-year period. Current fiscal
19 biennium funding for each project is a line-item appropriation, while

22 to assist in the delivery and completion of all transportation
23 partnership account and transportation 2003 account (nickel account)
24 projects on the LEAP transportation documents referenced in this act.
25 For the 2009-2011 and 2011-2013 project appropriations, unless

27 may authorize a transfer of appropriation authority between projects
28 funded with transportation 2003 account (nickel account)
29 appropriations, or transportation partnership account appropriations,
30 in order to manage project spending and efficiently deliver all
31 projects in the respective program under the following conditions and
32 limitations:

33 (a) Transfers may only be made within each specific fund source
34 referenced on the respective project list;

35 (b) Transfers from a project may not be made as a result of the
36 reduction of the scope of a project or be made to support increases in
37 the scope of a project;

1 (c) Each transfer between projects may only occur if the director
2 of financial management finds that any resulting change will not hinder
3 the completion of the projects as approved by the legislature. Until
4 the legislature reconvenes to consider the 2012 supplemental
5 transportation budget, any unexpended 2009-2011 appropriation balance
6 as approved by the office of financial management, in consultation with
7 the legislative staff of the house of representatives and senate
8 transportation committees, may be considered when transferring funds
9 between projects;

10 (d) Transfers from a project may be made if the funds appropriated
11 to the project are in excess of the amount needed to complete the
12 project;

13 (e) Transfers may not occur for projects not identified on the
14 applicable project list;

15 (f) Transfers may not be made while the legislature is in session;
16 and

17 (g) Transfers between projects may be made by the department of
18 transportation until the transfer amount by project exceeds two hundred
19 fifty thousand dollars, or ten percent of the total project, whichever
20 is less. These transfers must be reported quarterly to the director of
21 financial management and the chairs of the house of representatives and
22 senate transportation committees.

23 (2) At the time the department submits a request to transfer funds
24 under this section, a copy of the request must be submitted to the
25 transportation committees of the legislature.

26 (3) The office of financial management shall work with legislative
27 staff of the house of representatives and senate transportation
28 committees to review the requested transfers in a timely manner.

29 (4) The office of financial management shall document approved
30 transfers and schedule changes in the transportation executive
31 information system, compare changes to the legislative baseline funding
32 and schedules identified by project identification number identified in
33 the LEAP transportation documents referenced in this act, and transmit
34 revised project lists to chairs of the transportation committees of the
35 legislature on a quarterly basis.
