SPENDING SUMMARY.....	5
RESOURCE CHANGES	APPENDIX A
4 YEAR BUDGET OUTLOOK.....	APPENDIX B
THREE WAY COMPARISON	APPENDIX C

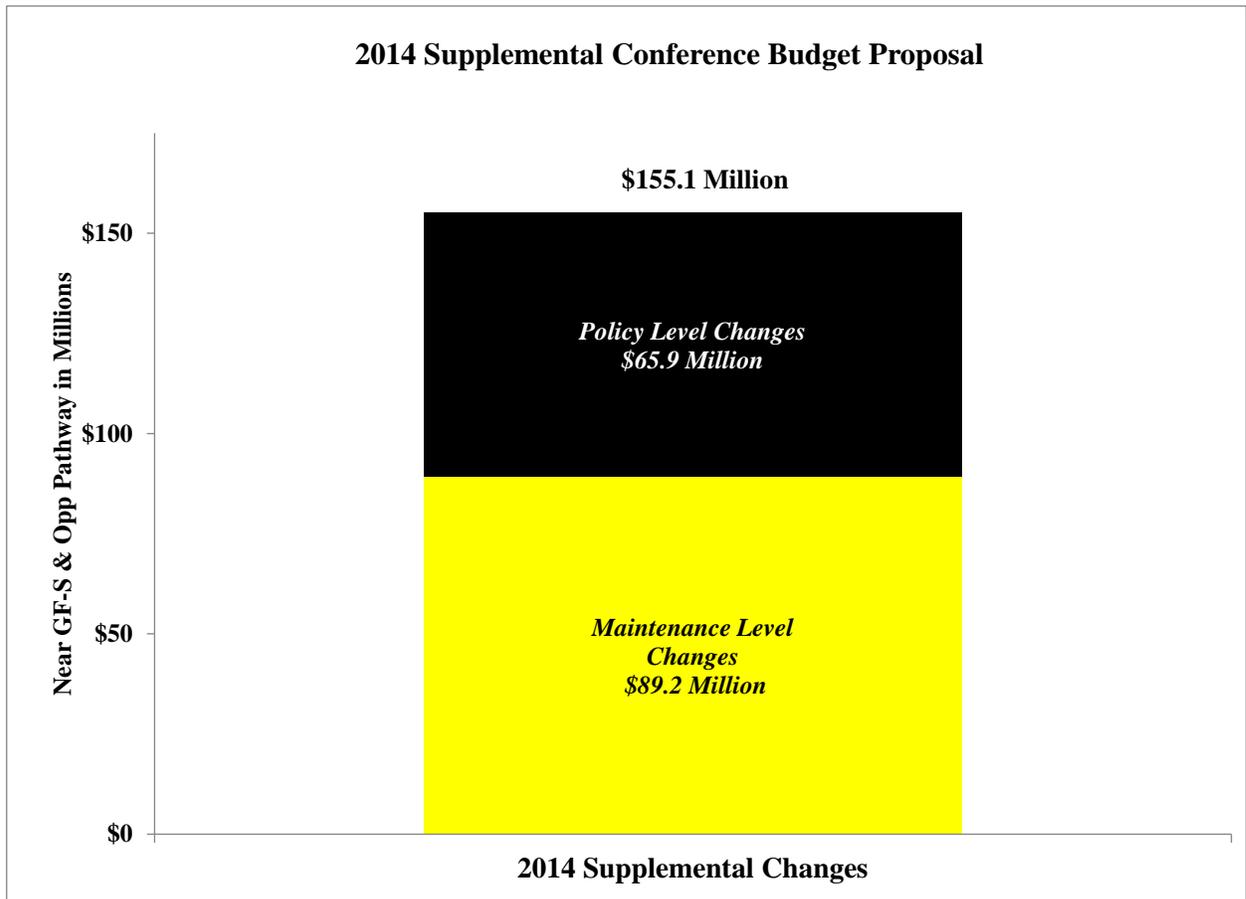

INTRODUCTION

In their quarterly updates since the budget was enacted last June, the Economic and Revenue Forecast Council increased its projections for Near General Fund-State and Opportunity Pathways revenue for the 2013-15 biennium. Combined with other changes, this meant that for the first time in a number of years, the anticipated fiscal situation going into the 2014 legislative session was more positive than when the previous budget was enacted. This positive news was partially offset by increased projections for caseloads and other budget cost drivers from enacted levels.

In February, the Economic and Revenue Forecast Council increased their projections for Near General Fund-State and Opportunity Pathways revenue for the 2013-15 biennium by another \$60 million. Additionally, February 2014 caseload and other maintenance level budget drivers were down slightly from when the Governor prepared his budget in December.

OVERVIEW OF CONFERENCE SUPPLEMENTAL PROPOSAL

The conference supplemental operating budget increases Near General Fund-State and Opportunity Pathways spending by \$155.1 million. Of the \$155.1 million, \$89.2 million is associated with maintenance level changes for caseload and other adjustments based on current law requirements. The conference supplemental budget then provides \$65.9 million in net policy enhancements and increases.

POLICY LEVEL SPENDING CHANGES

In addition to funding the maintenance level changes, the proposed budget provides a net policy level increase of \$66 million. These policy level changes include:

- \$58 million in for K-12 materials, supplies, and operating costs (MSOC).
- \$25 million for Opportunity Scholarships.
- \$23.2 million in funding for the early learning and child care collective bargaining agreement with family home providers and a rate increase for child care centers, including quality pilots.
- \$20.3 million in community mental health funding increases, including \$7 million for the children's mental health settlement.
- \$5.4 million for prison capacity changes to address needs for male and female offenders incarcerated in the Department of Corrections.
- \$5.2 million for the foster children permanent placement initiative.
- \$61.4 million in savings in state employee health benefits costs (achieved by improving claim experience and the use of a one-time PEBB fund balance).
- \$10.7 million in holding managed care rates at current levels.
- \$10 million in additional savings from implementing LEAN management strategies.
- \$3 million in savings from the state Health Care Innovation Plan (HB 2572 & SB 6312)

RESOURCE CHANGES

The conference supplemental budget proposal also makes a variety of resource changes. First, the proposal assumes \$2 million in decreased revenue in the 2013-15 biennium from passage of 3SSB 5887 which merges medical and recreational marijuana. The decreased revenue impacts are offset by: (1) SB 6505 which increases 2013-15 revenue by \$2.8 million clarifying that marijuana does not qualify for a variety of agricultural and other tax preferences; (2) \$9.2 million from increased budget driven revenue from lower operating costs of the Liquor Control Board; and (3) EHB 1287 which increases state tax collections of \$0.6 million in the 2013-15 biennium. Finally, the conference supplemental budget proposal includes \$27 million in various fund transfers, including \$20 million from the Life Science Discovery Fund. See Appendix A for a list of all the resource changes.

ENDING FUND BALANCE & 4 YEAR OUTLOOK

Based on all the proposed changes, the supplemental budget proposal estimates leaving \$315 million in unrestricted ending fund balance and \$583 million in the Budget Stabilization Account at the end of the 2013-15 biennium.

Following the methodology adopted by the Economic and Revenue Forecast Council pursuant to the four year balanced budget provisions of Chapter 8, Laws of 2012, 1st Special Session (SSB 6636), this budget proposal meets that requirement leaving projected unrestricted ending fund balance of \$32 million at the end of the 2015-17 biennium. At the end of the 2015-17 biennium, the Budget Stabilization Account is also projected to have a balance of \$942 million. See Appendix B for more information.
