14 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

15 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted  
16 and, subject to the provisions set forth in this act, the several  
17 dollar amounts hereinafter specified, or so much thereof as shall be  
18 sufficient to accomplish the purposes designated, are hereby  
19 appropriated and authorized to be incurred for capital projects  
20 during the period beginning with the effective date of this act and  
21 ending June 30, 2017, out of the several funds specified in this act.

1 (2) The definitions in this subsection apply throughout this act  
2 unless the context clearly requires otherwise.

3 (a) "Fiscal year 2016" or "FY 2016" means the period beginning  
4 July 1, 2015, and ending June 30, 2016.

5 (b) "Fiscal year 2017" or "FY 2017" means the period beginning  
6 July 1, 2016, and ending June 30, 2017.

7 (c) "Lapse" or "revert" means the amount shall return to an  
8 unappropriated status.

9 (d) "Provided solely" means the specified amount may be spent  
10 only for the specified purpose.

11 (3) Unless otherwise specifically authorized in this act, any  
12 portion of an amount provided solely for a specified purpose that is  
13 not expended subject to the specified conditions and limitations to  
14 fulfill the specified purpose shall lapse.

15 (4) The amounts shown under the headings "Prior Biennia," "Future  
16 Biennia," and "Total" in this act are for informational purposes only  
17 and do not constitute legislative approval of these amounts. "Prior  
18 biennia" typically refers to the immediate prior biennium for  
19 reappropriations, but may refer to multiple biennia in the case of  
20 specific projects. A "future biennia" amount is an estimate of what  
21 may be appropriated for the project or program in the 2017-2019  
22 biennium and the following three biennia; an amount of zero does not  
23 necessarily constitute legislative intent to not provide funding for  
24 the project or program in the future.

25 (5) "Reappropriations" in this act are appropriations and, unless  
26 the context clearly provides otherwise, are subject to the relevant  
27 conditions and limitations applicable to appropriations.  
28 Reappropriations shall be limited to the unexpended balances  
29 remaining on June 30, 2015, from the 2013-2015 biennial  
30 appropriations for each project.

27 conditions and limitations:

28 (1) The appropriations are provided solely for projects that  
29 provide a benefit to the public through development, demonstration,  
30 and deployment of clean energy technologies that save energy and  
31 reduce energy costs, reduce harmful air emissions or otherwise  
32 increase energy independence for the state. All expenditures must be  
33 used for projects that develop and acquire assets that have a useful  
34 life of at least thirteen years. These requirements must be specified  
35 in funding agreements issued by the department.

36 (2)(a) \$10,000,000 of the state taxable building construction  
37 account is provided solely to create a revolving loan fund to support

1 the widespread use of proven energy efficiency and renewable energy  
2 technologies now inhibited by lack of access to capital.

23 projects that offer a higher percentage of nonstate match funds.

24 (f) The department must conduct due diligence activities  
25 associated with the use of public funds, including oversight of the  
26 project selection process and project monitoring.

27 (3) \$6,600,000 of the state taxable building construction account  
28 is provided solely for credit enhancements of advanced solar and  
29 renewable energy manufacturing within Washington state. The

34 technologies and advance transmission and distribution control system  
35 improvements for increased reliability, resiliency, and enabling  
36 integration of distributed and renewable resources and technology by  
37 public and private electrical utilities that serve retail customers  
38 in the state. Eligible utilities may partner with other public and  
39 private sector research organizations and businesses in applying for

3 conducted by a group of qualified experts with application of  
4 criteria specified by the department. In development of the  
5 application criteria, the department shall, to the extent possible,  
6 allow smaller utilities or consortia of small utilities to apply for  
7 funding.

8 (c) The department shall convene an advisory panel of electric  
9 utility representatives to identify program objectives, near term  
10 priorities and long term goals.

11 (d) Applications for grants must disclose all sources of public  
12 funds invested in a project.

18 properties and electric load of commercial buildings and district  
19 energy systems to store energy, reduce transmission congestion or  
20 otherwise improve system reliability and resiliency and enable  
21 integration of distributed and renewable energy sources.

22 (5)(a) \$10,000,000 of the state building construction account is  
23 provided solely for grants to match federal funds or other nonstate

7 Energy Efficiency and Solar Grants (30000835)

8 The appropriation in this section is subject to the following  
9 conditions and limitations:

10 (1)(a) \$5,630,000 for fiscal year 2016 and \$5,630,000 for fiscal  
11 year 2017 is provided solely for grants to be awarded in competitive  
12 rounds to local agencies, public higher education institutions, and  
13 state agencies for operational cost savings improvements to  
14 facilities and related projects that result in energy and operational  
15 cost savings.

16 (b) At least ten percent of each competitive grant round must be  
17 awarded to small cities or towns with a population of five thousand  
18 or fewer residents.

19 (c) In each competitive round, the higher the leverage ratio of  
20 nonstate funding sources to state grant and the higher the energy  
21 savings, the higher the project ranking.

22 (2) \$3,750,000 is provided solely for grants to be awarded in  
23 competitive rounds to local agencies, public higher education  
24 institutions, and state agencies for projects that involve the

27 products.

28 (3) \$1,650,000 is provided solely for energy efficiency  
29 improvements to minor works and stand-alone projects at state-owned  
30 facilities that repair or replace existing building systems including  
31 but not limited to HVAC, lighting, insulation, windows, and other  
32 mechanical systems. Eligibility for this funding is dependent on an  
33 analysis using the office of financial management's life cycle cost  
34 tool that compares project design alternatives for initial and long-  
35 term cost-effectiveness. Assuming a reasonable return on investment,  
36 the cost to improve the project's energy efficiency compared to the  
37 original project request will be added to the project appropriation  
38 after construction bids are received. The department of commerce

1 shall coordinate with the office of financial management to develop a  
2 process for project submittal, review, approval criteria, tracking  
3 project budget adjustments, and performance measures.

4 (4) \$225,000 is provided solely for resource conservation  
5 managers in the department of enterprise services to coordinate with  
6 state agencies to assess and adjust existing building systems and

25 building, energy efficiency and housing finance organizations, the  
26 office of financial management and appropriate legislative staff, the  
27 department shall develop a process that is designed to solicit,  
28 evaluate and fund ultra-high energy efficient housing projects as  
29 part of the housing trust fund competitive program.

30 (3) To receive funding, a project must demonstrate energy-saving  
31 and renewable energy systems designed to reach net-zero energy use  
32 after housing is fully occupied and must provide a life-cycle cost  
33 analysis report to the department; and

34 (4) The department must consider, at a minimum and in any order,  
35 the following factors in assigning a numerical ranking to a project:

36 (a) Whether the proposed design has demonstrated that the project  
37 will achieve net-zero energy use when fully occupied;

38 (b) The life cycle cost of the project;

- 1 (c) That the project demonstrates a design, use of materials, and
- 2 construction process that can be replicated by the Washington
- 3 building industry;
- 4 (d) The extent to which the project leverages nonstate funds;
- 5 (e) The extent to which the project is ready to proceed to
- 6 construction;
- 7 (f) Whether the project promotes sustainable use of resources and
- 8 environmental quality;
- 9 (g) Whether the project is being well-managed to fund maintenance
- 10 and capital depreciation;
- 11 (h) Reduction of housing and utilities carbon footprint; and
- 12 (i) Other criteria that the department considers necessary to
- 13 achieve the purpose of this program.

30 (1) The appropriation in this section is provided solely for  
31 architectural and engineering services to manage public works  
32 contracting for all state facilities pursuant to RCW 43.19.450. The  
33 service charge is increased from 2.15 percent to 2.27 percent of  
34 total project costs to reduce the number of projects assigned to each  
35 manager. The intended results of the increased fee are improved

1 accountability, reduced project delays, and reduced the number and  
2 cost of change orders. At the end of each fiscal year, the department  
3 must report to the office of financial management and the fiscal  
4 committees of the legislature on performance improvements resulting  
5 from the increased management fee, including the following:

6 (a) The number of projects managed by each manager compared to  
7 previous biennia;

8 (b) Projects that were not completed on schedule and the reasons  
9 for delays; and

10 (c) The number and cost of the change orders and the reason for  
11 each change order.

12 (2) The department shall convene a group of private sector  
13 architects and contractors with state agency facilities personnel, at  
14 a minimum of twice per year, to share at a minimum, information on  
15 high performance methods, ideas, operating and maintenance issues,  
16 and cost. The facility personnel must be from the community and  
17 technical colleges, the four-year institutions of higher education,  
18 and any other state agencies that have recently completed a new  
19 building or are currently in the construction phase.

20 (3) The department, with assistance from the capital projects  
21 authority review board, shall provide recommendations to the  
22 governor, house capital budget committee, and senate ways and means  
23 committee, on ways to improve the project delivery methods. It must  
24 include, at a minimum, methods to incorporate more architectural and  
25 engineering firms and contractors to be eligible for design build  
26 projects, and methods for including high performance criteria with  
27 incentives for the architectural and engineering firm and contractor  
28 to meet the performance measures in design-bid-build project delivery  
29 methods.

23       Trust Land Transfer (30000200)

24       The appropriation in this section is subject to the following  
25       conditions and limitations:

26       (1) The appropriation is provided solely to the department to  
27       transfer from trust status, or enter into fifty year leases for,  
28       certain trust lands of statewide significance deemed appropriate for  
29       state park, fish and wildlife habitat, natural area preserve, natural  
30       resources conservation area, DNR community forest open space, or  
31       recreation purposes. The approved list of properties for lease or  
32       transfer is identified in the LEAP capital document No. 2015-4,  
33       developed March 27, 2015.

1 (2) Property transferred under this section must be appraised and  
2 transferred at fair market value. By September 30, 2015, the  
3 department must deposit in the common school construction account the  
4 portion of the appropriation in this section that represents the  
5 estimated value of the timber on the transferred properties. This  
6 transfer must be made in the same manner as timber revenues from  
7 other common school trust lands. No deduction may be made for the  
8 resource management cost account under RCW 79.64.040. The portion of  
9 the appropriation in this section that represents the value of the  
10 land transferred must be deposited in the natural resources real  
11 property replacement account.

12 (3) Property subject to lease agreements under this section must  
13 be appraised at fair market value. Lease terms must be fifty years  
14 with options to renew for an additional fifty years. Lease payments  
15 must be lump sum payments for the entire term of the lease at the  
16 beginning of the lease. The department shall calculate such lump sum  
17 payments using professional appraisal standards. These lease payments  
18 may not exceed the fee simple purchase price based on current fair  
19 market value and must be deposited by the department to the common  
20 school construction account in the same manner as lease revenues from  
21 other common school trust lands. No deduction may be made for the  
22 resource management cost account under RCW 79.64.040. No later than  
23 September 30, 2015, the department must transfer to the common school  
24 construction account the portion of the appropriation in this section  
25 that is attributable to receipts from lease payments.

26 (4) All reasonable costs incurred by the department to implement  
27 this section are authorized to be paid out of the appropriations.  
28 Authorized costs include the actual cost of appraisals, staff time,  
29 environmental reviews, surveys, and other similar costs and may not  
30 exceed one and nine-tenths percent of the appropriation.

31 (5) Intergrant exchanges between common school and other trust  
32 lands of equal value may occur if the exchange is in the interest of  
33 each trust, as determined by the board of natural resources.

34 (6) Prior to or concurrent with conveyance of these properties,  
35 the department, with full cooperation of the receiving agencies,  
36 shall execute and record a real property instrument that dedicates  
37 the transferred properties to the purposes identified in subsection  
38 (1) of this section. Fee transfer agreements for properties  
39 identified in subsection (1) of this section must include terms that  
40 perpetually restrict the use of the property to the intended purpose.

1 Lease agreements for properties identified in subsection (1) of this  
2 section must include terms that restrict use of the property to the  
3 intended purpose for the term of the lease. Transfer and lease  
4 agreements may include provisions for receiving agencies to request  
5 alternative uses of the property, provided the alternative uses are  
6 compatible with the originally intended public purpose and the  
7 department and legislature approves such uses.

8 (7) The department and receiving agencies shall work in good  
9 faith to carry out the intent of this section. However, the  
10 department or receiving agencies may remove a property from the  
11 transfer list based on new, substantive information, if it is  
12 determined that transfer of the property is not in the statewide  
13 interest of either the common school trust or the receiving agency.

14 (8) \$26,422,000 of the appropriation must be deposited in the  
15 common school construction account by September 30, 2015. The  
16 department shall execute trust land transfers so that after the  
17 deduction of reasonable costs as provided in subsection (4) of this  
18 section on an aggregate basis eighty percent or more of the total  
19 appropriation value is timber value or lease payments and is  
20 deposited in the common school construction account. To achieve the  
21 eighty percent requirement, the department may choose to lease  
22 properties originally intended as transfers or transfer properties  
23 originally intended as leases.

24 (9) By June 30, 2017, the state treasurer shall transfer to the  
25 common school construction account any unexpended balance of the  
26 appropriation in this section.

2015-17 Energy Grants (30000167)

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) Grants shall be awarded for projects that use the energy savings performance contracting method under chapter 39.35C RCW or an equivalent method of evaluating and delivering energy operational costs savings improvements.

(b) Projects that do not use energy savings performance contracting must: (i) Verify energy and operational cost savings for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (ii) follow the department of enterprise service's energy savings performance contracting method guidelines; and (iii) employ a licensed engineer for the energy audit, design, and construction.

(c) The office of the superintendent of public instruction may require third-party verification of savings if a project is not implemented by an energy savings performance contracting method as outlined in chapter 39.35C RCW. If required, third-party verification must be conducted either by an energy savings performance contractor qualified by the department of enterprise services, or a licensed engineer that is a certified energy manager.

(2) Projects must be weighted and prioritized based on the following criteria and in the following order: (a) Healthiest next generation initiative: Priority consideration shall be given to

1 applicants that demonstrate improved health and safety through (i)  
2 reduced exposure to polychlorinated biphenyl; or (ii) replacing  
3 outdated heating systems that use oil or propane as fuel sources as  
4 identified by the Washington state university extension energy  
5 program; (b) prior grant award: Priority consideration must be given

9 savings and utility or other incentives to state grant, the higher  
10 the project ranking; (d) energy savings: The higher the simple  
11 payback for energy savings, not to exceed the useful life of the  
12 energy conservation measure, the higher the project ranking; and (e)  
13 persistence: The more extensively a project ensures the persistence  
14 of energy operational cost savings through ongoing measurement,  
15 verification, and reporting over the life of a project, the higher  
16 the project ranking.

17 (3) In order to be eligible for energy cost savings grants under  
18 this section, school districts must complete an investment grade  
19 audit prior to application or have completed an audit in the  
20 2015-2017 biennium.

25 one-half of the cost of the preliminary audit if the project does not  
26 meet their predetermined cost-effectiveness criteria.

28 an investment grade audit if the project does not meet the school  
29 district's predetermined cost-effectiveness criteria. Public school  
30 districts must pay the full price of an investment grade audit if  
31 they do not proceed with a project that meets the school district's  
32 predetermined cost-effectiveness criteria.

33 (5) Applicants must submit documentation that demonstrates energy  
34 and operational cost savings resulting from the installation of the  
35 energy equipment and improvements. The energy savings analysis must  
36 be performed by a licensed engineer and the documentation must  
37 include, but is not limited to, the following:

14 The appropriation in this section is subject to the following  
 15 conditions and limitations:

16 (1) The amounts in this section are provided solely for the  
 17 superintendent of public instruction to provide STEM pilot project  
 18 grants to school districts. These grants constitute the districts'  
 19 local funding for purposes of eligibility for the school construction  
 20 assistance program under RCW 28A.525.166. Subject to the terms in  
 21 this section, school districts are eligible to receive grants if they  
 22 have a special housing burden due to lack of sufficient space for  
 23 science classrooms and labs to enable students to meet statutory  
 24 graduation requirements.

25 (2) The superintendent shall award grants to eligible school  
 26 districts under the following conditions:

27 (a) A district must demonstrate a lack of sufficient space of  
 28 science classrooms and labs to facilitate meeting statutory  
 29 graduation requirements;

30 (b) The district has secured private donations of cash, like-  
 31 kind, or equipment in a value of no less than two-hundred fifty  
 32 thousand dollars. Before the superintendent may provide funding  
 33 assistance through the school construction assistance program, the  
 34 district must provide verification of the donation to the  
 35 superintendent;

36 (c) At least one grant award is made to school districts located  
 37 in southwest Washington;

1 (d) At least one grant award is made to school districts located  
2 in the Puget Sound region; and

3 (e) At least two grant awards are made to school districts  
4 located east of the Cascade mountains.

5 (3) The superintendent, in consultation with the Washington STEM  
6 education innovation alliance, shall develop criteria for providing  
7 funding for specific projects to stay within the appropriation level  
8 provided in this section. The criteria must include, but are not  
9 limited to, the following:

10 (a) Priority for school districts that secure private donations  
11 of cash, like-kind, or equipment in value no less than two-hundred  
12 fifty thousand dollars weighted by the ratio of school district  
13 enrollments to value of donation;

14 (b) A district's ability to raise funds through levies or bonds  
15 in the prior ten-year period; and

16 (c) Priority for applicants with a high percentage of students  
17 who are eligible and enrolled in the free and reduced-price meals  
18 program.

19 (4) For purposes of grant applications made in the 2015-2017  
20 biennium, additional square footage funded through this grant program  
21 is excluded from the school district's inventory of available  
22 educational space for determining eligibility for state assistance  
23 for new construction for (a) five years following acceptance of the  
24 project by the school district board of directors, or (b) the date of  
25 the final review of the latest study and survey of the affected  
26 school district following acceptance of the project by the school  
27 district board of directors; whichever date is earliest.

28 (5) Each school district is limited to one grant award of no more  
29 than \$3,000,000.

30 (6) The office of the superintendent of public instruction may  
31 charge fees consistent with capital budget guidelines established by  
32 the office of financial management for administering the grants.

33 (7) The superintendent of public instruction must report to the  
34 appropriate committees of the legislature and the office of financial  
35 management on the timing and use of the funds by the end of each  
36 fiscal year, until the funds are fully expended.

4 The appropriation in this section is subject to the following  
5 conditions and limitations:

6 (1) The appropriation is provided solely for the Washington State  
7 University extension energy office to complete collection, input, and  
8 verification of data of public school facilities in the inventory and  
9 condition of schools system administered and maintained by the  
10 superintendent of public instruction.

11 (2) The legislature intends to complete the data collection,  
12 input, and verification of the inventory and condition of public  
13 school facilities in order to make informed decisions about K-12  
14 school facility and capacity needs to fulfill current educational  
15 graduation requirements and class-size ratios. These decisions are  
16 best made when based on accurate data collected in a thorough and  
17 consistent manner by professionals experienced in making such  
18 inventory and condition assessments for public institutions.

19 (3) The Washington State University extension energy office shall  
20 conduct on-site visits to assess inventory and condition of all  
21 facilities for school districts that have no current study and survey  
22 as defined in RCW 28A.525.050 on file with the superintendent of  
23 public instruction as of July 1, 2015, or no pending study and survey

34 superintendent, the Washington State University extension energy  
35 office shall input data into the system once current study and survey  
36 data has been input. Activities conducted pursuant to this subsection  
37 must occur concurrently with activities in subsection (3) of this  
38 section.

1 (5) The Washington State University extension energy office shall  
 2 conduct on-site verification of data for school districts whose  
 3 current studies and surveys on file with the superintendent will  
 4 expire by June 30, 2017. Data verification must be conducted to  
 5 evaluate the study and survey process as a tool to collect accurate  
 6 inventory and condition of schools data upon which policymakers can  
 7 make informed decisions regarding school facility and capacity needs.  
 8 Activities conducted pursuant to this subsection must occur  
 9 concurrently with activities in subsection (3) of this section and  
 10 once sufficient data has been input into the system per subsection  
 11 (4) of this section to conduct on-site visits to verification.

35 energy and reduce energy costs, reduce harmful air emissions or  
36 otherwise increase energy independence for the state. All

1 expenditures must be used for projects that develop and acquire  
2 assets that have a useful life of at least thirteen years. These  
3 requirements must be specified in funding agreements issued by the  
4 department.

5 (2) For any project funded from the state taxable building  
6 construction account—state appropriation in this section, state funds

7 shall develop a grant application process to competitively select  
8 projects for grant awards, to include scoring conducted by a group of  
9 qualified experts with application of criteria specified by the  
10 department. Applications for grants must disclose all sources of  
11 public funding to be provided for a project. The grant funds must be  
12 used to fund projects that demonstrate how to: Integrate intermittent  
13 renewables through energy storage and information technology,  
14 dispatch energy storage resources from utility control rooms, use the  
15 thermal properties and electric load of commercial buildings and  
16 district energy systems to store energy, or otherwise improve the  
17 reliability and reduce the costs of intermittent or distributed  
18 renewable energy.

9 NEW SECTION. **Sec. 7003.** (1) The legislature finds that use of  
10 life-cycle cost analysis will aid public entities, architects,  
11 engineers, and contractors in making design and construction  
12 decisions that positively impact both the initial construction cost  
13 and the ongoing operating and maintenance cost of a project. To  
14 ensure that the total cost of a project is accounted for and the most  
15 reasonable and cost efficient design is used, agencies shall develop  
16 life-cycle costs for any construction project over \$10,000,000. The  
17 life-cycle costs must represent the present value sum of capital  
18 costs, installation costs, operating costs, and maintenance costs  
19 over the life expectancy of the project. The legislature further  
20 finds the most effective approach to the life-cycle cost analysis is  
21 to integrate it into the early part of the design process.

22 (2) Agencies shall develop a minimum of three project  
23 alternatives for use in the life-cycle cost analysis. These  
24 alternatives must be both distinctly different and viable solutions  
25 to the issue being addressed. The chosen alternative must be the most  
26 reasonable and cost-effective solution. A brief description of each  
27 project alternative and why it was chosen must be included in the  
28 life-cycle cost analysis section of the predesign.

29 (3) The office of financial management shall: (a) Make available  
30 a life-cycle cost model to be used for analysis; (b) in consultation  
31 with the department of enterprise services, provide assistance in  
32 using the life-cycle cost model; and (c) update the life-cycle cost  
33 model annually including assumptions for inflation rates, discount  
34 rates, and energy rates.

35 (4) Agencies shall consider architectural and engineering firms'  
36 and general contractors' experience using life-cycle costs, operating  
37 costs, and energy efficiency measures when selecting an architectural  
38 and engineering firm, or when selecting contractors using alternative  
39 contracting methods.

1        NEW SECTION.     **Sec. 7004.**     To ensure that major construction  
2 projects are carried out in accordance with legislative and executive  
3 intent, appropriations in this act in excess of \$10,000,000 may not  
4 be expended or encumbered until the office of financial management  
5 has reviewed and approved the agency's predesign. The predesign  
6 document must include, but not be limited to, program, site, and cost  
7 analysis, including life-cycle cost, in accordance with the predesign  
8 manual adopted by the office of financial management. The results of  
9 life-cycle cost analysis must be a primary consideration in the  
10 selection of a building design. Construction may proceed only upon  
11 providing to the office of financial management the life-cycle costs.  
12 To improve monitoring of major construction projects, progress  
13 reports must be submitted by the agency administering the project to  
14 the office of financial management and to the fiscal committees of  
15 the house of representatives and senate. Reports must be submitted on  
16 July 1st and December 31st each year in a format to be developed by  
17 the office of financial management.

18        NEW SECTION.     **Sec. 7005.**     (1) Allotments for appropriations in  
19 this act shall be provided in accordance with the capital project  
20 review requirements adopted by the office of financial management and  
21 in compliance with RCW 43.88.110. Projects that will be employing  
22 alternative public works construction procedures under chapter 39.10  
23 RCW are subject to the allotment procedures defined in this section  
24 and RCW 43.88.110.

25        (2) Each project is defined as proposed in the legislative budget  
26 notes or in the governor's budget document.

27        NEW SECTION.     **Sec. 7006.**     (1) The office of financial management  
28 may authorize a transfer of appropriation authority provided for a  
29 capital project that is in excess of the amount required for the  
30 completion of such project to another capital project for which the  
31 appropriation is insufficient. No such transfer may be used to expand  
32 the capacity of any facility beyond that intended in making the  
33 appropriation. Such transfers may be effected only between capital  
34 appropriations to a specific department, commission, agency, or  
35 institution of higher education and only between capital projects  
36 that are funded from the same fund or account. No transfers may occur  
37 between projects to local government agencies except where the grants  
38 are provided within a single omnibus appropriation and where such

1 transfers are specifically authorized by the implementing statutes  
2 that govern the grants.

3 (2) The office of financial management may find that an amount is  
4 in excess of the amount required for the completion of a project only  
5 if: (a) The project as defined in the notes to the budget document is  
6 substantially complete and there are funds remaining; or (b) bids  
7 have been let on a project and it appears to a substantial certainty  
8 that the project as defined in the notes to the budget document can  
9 be completed within the biennium for less than the amount  
10 appropriated in this act.

11 (3) For the purposes of this section, the intent is that each  
12 project be defined as proposed to the legislature in the governor's  
13 budget document, unless it clearly appears from the legislative  
14 history that the legislature intended to define the scope of a  
15 project in a different way.

16 (4) A report of any transfer effected under this section, except  
17 emergency projects or any transfer under \$250,000, shall be filed  
18 with the legislative fiscal committees of the senate and house of  
19 representatives by the office of financial management at least thirty  
20 days before the date the transfer is effected. The office of  
21 financial management shall report all emergency or smaller transfers  
22 within thirty days from the date of transfer.

23 NEW SECTION. **Sec. 7007.** (1) It is expected that projects be  
24 ready to proceed in a timely manner depending on the type or phase of  
25 the project or program that is the subject of the appropriation in  
26 this act. Except for major projects that customarily may take more  
27 than two biennia to complete from predesign to the end of  
28 construction, or large infrastructure grant or loan programs  
29 supporting projects that often take more than two biennia to  
30 complete, the legislature generally does not intend to reappropriate  
31 funds more than once, particularly for smaller grant programs, local/  
32 community projects, and minor works.

33 (2) Agencies shall expedite the expenditure of reappropriations  
34 and appropriations in this act in order to: (a) Rehabilitate  
35 infrastructure resources; (b) accelerate environmental rehabilitation  
36 and restoration projects for the improvement of the state's natural  
37 environment; (c) reduce additional costs associated with acquisition  
38 and construction inflationary pressures; and (d) provide additional  
39 employment opportunities associated with capital expenditures.

1 (3) To the extent feasible, agencies are directed to accelerate  
2 expenditure rates at their current level of permanent employees and  
3 shall use contracted design and construction services wherever  
4 necessary to meet the goals of this section.

5 NEW SECTION. **Sec. 7008.** (1) Any building project that receives  
6 funding from the capital budget must be built to sustainable  
7 standards. "Sustainable building" means a building that integrates  
8 and optimizes all major high-performance building attributes,  
9 including energy efficiency, durability, life-cycle performance, and  
10 occupant productivity. The following design and construction  
11 attributes must be integrated into the building project:

12 (a) Employ integrated design principles: Use a collaborative,  
13 integrated planning and design process that initiates and maintains  
14 an integrated project team in all stages of a project's planning and  
15 delivery. Establish performance goals for siting, energy, water,  
16 materials, and indoor environmental quality along with other  
17 comprehensive design goals and ensures incorporation of these goals  
18 throughout the design and life-cycle of the building. Considers all  
19 stages of the building's life-cycle, including deconstruction.

20 (b) Commissioning: Employ commissioning practices tailored to the  
21 size and complexity of the building and its system components in  
22 order to verify performance of building components and systems and  
23 help ensure that design requirements are met. This should include an  
24 experienced commissioning provider, inclusion of commissioning  
25 requirements in construction documents, a commissioning plan,  
26 verification of the installation and performance of systems to be  
27 commissioned, and a commissioning report.

28 (c) Optimize energy performance: Establish a whole building  
29 performance target that takes into account the intended use,  
30 occupancy, operations, plug loads, other energy demands, and design  
31 to earn the ENERGY STAR targets for new construction and major  
32 renovation where applicable. For new construction target low energy  
33 use index. For major renovations, reduce the energy use by fifty  
34 percent below pre-renovations baseline.

35 (d) On-site renewable energy: Meet at least thirty percent of the  
36 hot water demand through the installation of solar hot water heaters,  
37 when life-cycle cost effective. Implement renewable energy generation  
38 projects on agency property for agency use, when life-cycle cost  
39 effective.

1 (e) Measurement and verification: Install building level  
2 electricity meters in new major construction and renovation projects  
3 to track and continuously optimize performance. Include equivalent  
4 meters for natural gas and steam, where natural gas and steam are  
5 used. Install dashboards inside buildings to display and incentivize  
6 occupants on energy use.

7 (f) Benchmarking: Compare actual performance data from the first  
8 year of operation with the energy design target. Verify that the  
9 building performance meets or exceeds the design target. For other  
10 building and space types, use an equivalent benchmarking tool for  
11 laboratory buildings. Web-based data collection and dashboards must  
12 also be provided.

13 NEW SECTION. **Sec. 7009.** State agencies, including institutions  
14 of higher education, shall allot and report full-time equivalent  
15 staff for capital projects in a manner comparable to staff reporting  
16 for operating expenditures.

17 NEW SECTION. **Sec. 7010.** Executive Order No. 05-05,  
18 archaeological and cultural resources, was issued effective November  
19 10, 2005. Agencies and higher education institutions shall comply  
20 with the requirements set forth in this executive order.

21 NEW SECTION. **Sec. 7011.** PUGET SOUND PROTECTION AND RESTORATION.  
22 Consistent with RCW 90.71.340, when expending appropriations under  
23 this act that contribute to Puget Sound protection and recovery,  
24 agencies shall consult with the Puget Sound partnership to ensure  
25 that projects and expenditures are either in, or consistent with the  
26 2020 action agenda. These consultations shall include the exchange of  
27 information on specific actions, projects, associated funding,  
28 performance measures, and other information necessary to track  
29 project implementation and ensure alignment with the action agenda.  
30 In situations where the Puget Sound partnership finds that a project  
31 is not in, or is not consistent with the action agenda, Puget Sound  
32 partnership shall document this finding and report back to the  
33 governor and legislative fiscal committees.

34 NEW SECTION. **Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK  
35 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this

1 act for original construction of school plant facilities is provided  
2 solely for the purposes of RCW 28A.335.210.

3 (2) One-half of one percent of moneys appropriated in this act  
4 for original construction or any major renovation or remodel work  
5 exceeding \$200,000 by colleges or universities is provided solely for  
6 the purposes of RCW 28B.10.027.

7 (3) One-half of one percent of moneys appropriated in this act  
8 for original construction of any public building by a state agency  
9 identified in RCW 43.17.020 is provided solely for the purposes of  
10 RCW 43.17.200.

11 (4) At least eighty-five percent of the moneys spent by the  
12 Washington state arts commission during the 2015-2017 biennium for  
13 the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be  
14 expended solely for direct acquisition of works of art. Art  
15 allocations not expended within the ensuing two biennia will lapse.  
16 The commission may use up to \$100,000 of this amount to conserve or  
17 maintain existing pieces in the state art collection pursuant to RCW  
18 28A.335.210.

19 (5) The executive director of the arts commission shall appoint a  
20 study group to review the operations of the one-half of one percent  
21 for works of art purchased or commissioned as required by RCW  
22 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review  
23 must be reported annually to the office of financial management and  
24 the fiscal committees of the legislature by August 15th. The review  
25 must include, but is not limited to, the following: (a) Projects  
26 purchased or commissioned per biennium; (b) partner agencies; (c)  
27 funding sources by fiscal year; (d) artwork costs; (e) administrative  
28 costs; (f) collection care costs; and (g) project status.

29 NEW SECTION. **Sec. 7013.** It is confirmed that the director of  
30 the department of enterprise services is authorized under chapter  
31 35A.14 RCW to petition for annexation of the former northern state  
32 hospital property to the city of Sedro-Woolley upon the director's  
33 determination that such annexation is appropriate and in furtherance  
34 of the interests of the state. The director shall consult with the  
35 office of financial management prior to making such determination.

36 **Sec. 7014.** RCW 27.34.330 and 2006 c 371 s 232 are each amended  
37 to read as follows:

1 The Washington state historical society shall establish a  
2 competitive process to solicit proposals for and prioritize heritage  
3 capital projects for potential funding in the state capital budget.  
4 The society shall adopt rules governing project eligibility and  
5 evaluation criteria. Application for funding of specific projects may  
6 be made to the society by local governments, public development  
7 authorities, nonprofit corporations, tribal governments, and other  
8 entities, as determined by the society. The society, with the advice  
9 of leaders in the heritage field, including but not limited to  
10 representatives from the office of the secretary of state, the  
11 eastern Washington state historical society, and the department of  
12 archaeology and historic preservation, shall establish and submit a  
13 prioritized list of heritage capital projects to the governor and the  
14 legislature in the society's biennial capital budget request. The  
15 list shall include a description of each project, the amount of  
16 recommended state funding, and documentation of nonstate funds to be  
17 used for the project. The total amount of recommended state funding  
18 for projects on a biennial project list shall not exceed ten million  
19 dollars. The prioritized list shall be developed through open and  
20 public meetings and the amount of state funding shall not exceed  
21 thirty-three and thirty-three one hundredths percent of the total  
22 cost of the project. The nonstate portion of the total project cost  
23 may include cash, the value of real property when acquired solely for  
24 the purpose of the project, and in-kind contributions. The department  
25 shall not sign contracts or otherwise financially obligate funds  
26 under this section until the legislature has approved a specific list  
27 of projects. In contracts for grants authorized under this section,  
28 the society shall include provisions requiring that capital  
29 improvements be held by the grantee for a specified period of time  
30 appropriate to the amount of the grant and that facilities be used  
31 for the express purpose of the grant. If the grantee is found to be  
32 out of compliance with provisions of the contract, the grantee shall  
33 repay to the state general fund the principal amount of the grant  
34 plus interest calculated at the rate of interest on state of  
35 Washington general obligation bonds issued most closely to the date  
36 of authorization of the grant.

37 NEW SECTION. **Sec. 7015.** To carry out the provisions of this  
38 act, the governor may assign responsibility for predesign, design,  
39 construction, and other related activities to any appropriate agency.

1        NEW SECTION.    **Sec. 7016.**    If any federal moneys appropriated by  
2 this act for capital projects are not received by the state, the  
3 department or agency to which the moneys were appropriated may  
4 replace the federal moneys with funds available from private or local  
5 sources. No replacement may occur under this section without the  
6 prior approval of the director of financial management in  
7 consultation with the senate ways and means committee and the house  
8 of representatives capital budget committee.

9        NEW SECTION.    **Sec. 7017.**    (1) Unless otherwise stated, for all  
10 appropriations under this act that require a match of nonstate money  
11 or in-kind contributions, the following requirement, consistent with  
12 RCW 43.88.150, shall apply: Expenditures of state money shall be  
13 timed so that the state share of project expenditures never exceeds  
14 the intended state share of total project costs.

15        (2) Provision of the full amount of required matching funds is  
16 not required to permit the expenditure of capital budget  
17 appropriations for phased projects if a proportional amount of the  
18 required matching funds is provided for each distinct, identifiable  
19 phase of the project.

20        **Sec. 7018.**    RCW 28A.525.166 and 2013 2nd sp.s. c 18 s 514 are  
21 each amended to read as follows:

22        Allocations to school districts of state funds provided by RCW  
23 28A.525.162 through 28A.525.180 shall be made by the superintendent  
24 of public instruction and the amount of state funding assistance to a  
25 school district in financing a school plant project shall be  
26 determined in the following manner:

27        (1) The boards of directors of the districts shall determine the  
28 total cost of the proposed project, which cost may include the cost  
29 of acquiring and preparing the site, the cost of constructing the  
30 building or of acquiring a building and preparing the same for school  
31 use, the cost of necessary equipment, taxes chargeable to the  
32 project, necessary architects' fees, and a reasonable amount for  
33 contingencies and for other necessary incidental expenses: PROVIDED,  
34 That the total cost of the project shall be subject to review and  
35 approval by the superintendent.

36        (2) The state funding assistance percentage for a school district  
37 shall be computed by the following formula:

1 The ratio of the school district's adjusted valuation per pupil  
 2 divided by the ratio of the total state adjusted valuation per pupil  
 3 shall be subtracted from three, and then the result of the foregoing  
 4 shall be divided by three plus (the ratio of the school district's  
 5 adjusted valuation per pupil divided by the ratio of the total state  
 6 adjusted valuation per pupil).

	District adjusted	Total state	
	3-valuation	÷ adjusted valuation	
Computed	per pupil	per pupil	State
State =	_____		= - % Funding
Ratio	District adjusted	Total state	Assistance
	3+valuation	÷ adjusted valuation	
	per pupil	per pupil	

14 PROVIDED, That in the event the state funding assistance percentage  
 15 to any school district based on the above formula is less than twenty  
 16 percent and such school district is otherwise eligible for state  
 17 funding assistance under RCW 28A.525.162 through 28A.525.180, the  
 18 superintendent may establish for such district a state funding  
 19 assistance percentage not in excess of twenty percent of the approved  
 20 cost of the project, if the superintendent finds that such additional  
 21 assistance is necessary to provide minimum facilities for housing the  
 22 pupils of the district.

23 (3) In addition to the computed state funding assistance  
 24 percentage developed in subsection (2) of this section, a school  
 25 district shall be entitled to additional percentage points determined  
 26 by the average percentage of growth for the past three years. One  
 27 percent shall be added to the computed state funding assistance  
 28 percentage for each percent of growth, with a maximum of twenty  
 29 percent.

30 (4) In computing the state funding assistance percentage in  
 31 subsection (2) of this section and adjusting the percentage under  
 32 subsection (3) of this section, students residing outside the school  
 33 district who are enrolled in alternative learning experience courses  
 34 under RCW 28A.232.010 shall be excluded from the count of total  
 35 pupils. In lieu of the exclusion in this subsection, a district may  
 36 submit an alternative calculation for excluding students enrolled in  
 37 alternative learning experience courses. The alternative calculation  
 38 must show the student headcount use of district classroom facilities

1 on a regular basis for a reasonable duration by out-of-district  
2 alternative learning experience students subtracted by the headcount  
3 of in-district alternative learning experience students not using  
4 district classroom facilities on a regular basis for a reasonable  
5 duration. The alternative calculation must be submitted in a form  
6 approved by the office of the superintendent of public instruction.  
7 The office of the superintendent of public instruction must develop  
8 rules to define "regular basis" and "reasonable duration."

9 (5) The approved cost of the project determined in the manner  
10 prescribed in this section multiplied by the state funding assistance  
11 percentage derived as provided for in this section shall be the  
12 amount of state funding assistance to the district for the financing

15 moneys in the account may be used for predesign identified in section  
16 1037, chapter 328, Laws of 2008. For the 2015-2017 biennium, moneys  
17 in the account may be used for studies related to real estate.

18 During the 2009-2011 and 2011-2013 fiscal biennia, the  
19 legislature may transfer from the Thurston county capital facilities  
20 account to the state general fund such amounts as reflect the excess  
21 fund balance of the account.

22 **Sec. 7032.** RCW 43.155.050 and 2013 2nd sp.s. c 4 s 983 are each  
23 amended to read as follows:

24 The public works assistance account is hereby established in the  
25 state treasury. Money may be placed in the public works assistance  
26 account from the proceeds of bonds when authorized by the legislature  
27 or from any other lawful source. Money in the public works assistance  
28 account shall be used to make loans and to give financial guarantees  
29 to local governments for public works projects. Moneys in the account  
30 may also be appropriated to provide for state match requirements  
31 under federal law for projects and activities conducted and financed  
32 by the board under the drinking water assistance account. Not more  
33 than fifteen percent of the biennial capital budget appropriation to  
34 the public works board from this account may be expended or obligated  
35 for preconstruction loans, emergency loans, or loans for capital  
36 facility planning under this chapter; of this amount, not more than  
37 ten percent of the biennial capital budget appropriation may be  
38 expended for emergency loans and not more than one percent of the

12 from the public works assistance account to the education legacy  
13 trust account such amounts as specified by the legislature.

14 **Sec. 7033.** RCW 43.155.070 and 2013 2nd sp.s. c 19 s 7032 are  
15 each amended to read as follows:

16 (1) To qualify for financial assistance under this chapter the  
17 board must determine that a local government meets all of the  
18 following conditions:

19 (a) The city or county must be imposing a tax under chapter 82.46  
20 RCW at a rate of at least one-quarter of one percent;

21 (b) The local government must have developed a capital facility  
22 plan; and

23 (c) The local government must be using all local revenue sources  
24 which are reasonably available for funding public works, taking into  
25 consideration local employment and economic factors.

26 (2) Except where necessary to address a public health need or  
27 substantial environmental degradation, a county, city, or town  
28 planning under RCW 36.70A.040 may not receive financial assistance  
29 under this chapter unless it has adopted a comprehensive plan,  
30 including a capital facilities plan element, and development  
31 regulations as required by RCW 36.70A.040. This subsection does not  
32 require any county, city, or town planning under RCW 36.70A.040 to  
33 adopt a comprehensive plan or development regulations before  
34 requesting or receiving financial assistance under this chapter if  
35 such request is made before the expiration of the time periods  
36 specified in RCW 36.70A.040. A county, city, or town planning under  
37 RCW 36.70A.040 that has not adopted a comprehensive plan and  
38 development regulations within the time periods specified in RCW  
39 36.70A.040 may apply for and receive financial assistance under this

1 chapter if the comprehensive plan and development regulations are  
2 adopted as required by RCW 36.70A.040 before executing a contractual  
3 agreement for financial assistance with the board.

4 (3) In considering awarding financial assistance for public  
5 facilities to special districts requesting funding for a proposed  
6 facility located in a county, city, or town planning under RCW  
7 36.70A.040, the board must consider whether the county, city, or town  
8 planning under RCW 36.70A.040 in whose planning jurisdiction the  
9 proposed facility is located has adopted a comprehensive plan and  
10 development regulations as required by RCW 36.70A.040.

11 (4) The board must develop a priority process for public works  
12 projects as provided in this section. The intent of the priority  
13 process is to maximize the value of public works projects  
14 accomplished with assistance under this chapter. The board must  
15 attempt to assure a geographical balance in assigning priorities to  
16 projects. The board must consider at least the following factors in  
17 assigning a priority to a project:

18 (a) Whether the local government receiving assistance has  
19 experienced severe fiscal distress resulting from natural disaster or  
20 emergency public works needs;

21 (b) Except as otherwise conditioned by RCW 43.155.110, whether  
22 the entity receiving assistance is a Puget Sound partner, as defined  
23 in RCW 90.71.010;

24 (c) Whether the project is referenced in the action agenda  
25 developed by the Puget Sound partnership under RCW 90.71.310;

26 (d) Whether the project is critical in nature and would affect  
27 the health and safety of a great number of citizens;

28 (e) Whether the applicant's permitting process has been certified  
29 as streamlined by the office of regulatory assistance;

30 (f) Whether the applicant has developed and adhered to guidelines  
31 regarding its permitting process for those applying for development  
32 permits consistent with section 1(2), chapter 231, Laws of 2007;

33 (g) The cost of the project compared to the size of the local  
34 government and amount of loan money available;

35 (h) The number of communities served by or funding the project;

36 (i) Whether the project is located in an area of high  
37 unemployment, compared to the average state unemployment;

38 (j) Whether the project is the acquisition, expansion,  
39 improvement, or renovation by a local government of a public water

1 system that is in violation of health and safety standards, including  
2 the cost of extending existing service to such a system;

3 (k) Except as otherwise conditioned by RCW 43.155.120, and  
4 effective one calendar year following the development of model  
5 evergreen community management plans and ordinances under RCW  
6 35.105.050, whether the entity receiving assistance has been  
7 recognized, and what gradation of recognition was received, in the  
8 evergreen community recognition program created in RCW 35.105.030;

9 (l) The relative benefit of the project to the community,  
10 considering the present level of economic activity in the community  
11 and the existing local capacity to increase local economic activity  
12 in communities that have low economic growth; and

13 (m) Other criteria that the board considers advisable.

14 (5) For the ((2013-2015)) 2015-2017 fiscal biennium, in place of  
15 the criteria, ranking, and submission processes for construction loan  
16 lists provided in subsections (4) and (7) of this section:

17 (a) The board must develop a process for numerically ranking  
18 applications for construction loans submitted by local governments.  
19 The board must consider, at a minimum and in any order, the following  
20 factors in assigning a numerical ranking to a project:

21 (i) Whether the project is critical in nature and would affect  
22 the health and safety of many people;

23 (ii) The extent to which the project leverages nonstate funds;

24 (iii) The extent to which the project is ready to proceed to  
25 construction;

26 (iv) Whether the project is located in an area of high  
27 unemployment, compared to the average state unemployment;

28 (v) Whether the project promotes the sustainable use of resources  
29 and environmental quality;

30 (vi) Whether the project consolidates or regionalizes systems;

31 (vii) Whether the project encourages economic development through  
32 mixed-use and mixed income development consistent with chapter 36.70A  
33 RCW;

34 (viii) Whether the system is being well-managed in the present  
35 and for long-term sustainability;

36 (ix) Achieving equitable distribution of funds by geography and  
37 population;

38 (x) The extent to which the project meets the following state  
39 policy objectives:

40 (A) Efficient use of state resources;

- 1 (B) Preservation and enhancement of health and safety;  
2 (C) Abatement of pollution and protection of the environment;  
3 (D) Creation of new, family wage jobs, and avoidance of shifting  
4 existing jobs from one Washington state community to another;  
5 (E) Fostering economic development consistent with chapter 36.70A  
6 RCW;  
7 (F) Efficiency in delivery of goods and services, public transit,  
8 and transportation;  
9 (G) Avoidance of additional costs to state and local governments  
10 that adversely impact local residents and small businesses; and  
11 (H) Reduction of the overall cost of public infrastructure; and  
12 (xi) Other criteria that the board considers necessary to achieve  
13 the purposes of this chapter.

14 (b) Before November 1, (~~(2014)~~) 2016, the board must develop and  
15 submit to the appropriate fiscal committees of the senate and house  
16 of representatives a ranked list of qualified public works projects  
17 which have been evaluated by the board and are recommended for  
18 funding by the legislature. The maximum amount of funding that the  
19 board may recommend for any jurisdiction is ten million dollars per  
20 biennium. For each project on the ranked list, as well as for  
21 eligible projects not recommended for funding, the board must  
22 document the numerical ranking that was assigned.

23 (6) Existing debt or financial obligations of local governments  
24 may not be refinanced under this chapter. Each local government  
25 applicant must provide documentation of attempts to secure additional  
26 local or other sources of funding for each public works project for  
27 which financial assistance is sought under this chapter.

28 (7) Before November 1st of each even-numbered year, the board  
29 must develop and submit to the appropriate fiscal committees of the  
30 senate and house of representatives a description of the loans made  
31 under RCW 43.155.065, 43.155.068, and subsection (10) of this section  
32 during the preceding fiscal year and a prioritized list of projects  
33 which are recommended for funding by the legislature, including one  
34 copy to the staff of each of the committees. The list must include,  
35 but not be limited to, a description of each project and recommended  
36 financing, the terms and conditions of the loan or financial  
37 guarantee, the local government jurisdiction and unemployment rate,  
38 demonstration of the jurisdiction's critical need for the project and  
39 documentation of local funds being used to finance the public works  
40 project. The list must also include measures of fiscal capacity for

1 each jurisdiction recommended for financial assistance, compared to  
2 authorized limits and state averages, including local government  
3 sales taxes; real estate excise taxes; property taxes; and charges  
4 for or taxes on sewerage, water, garbage, and other utilities.

5 (8) The board may not sign contracts or otherwise financially  
6 obligate funds from the public works assistance account before the  
7 legislature has appropriated funds for a specific list of public  
8 works projects. The legislature may remove projects from the list  
9 recommended by the board. The legislature may not change the order of  
10 the priorities recommended for funding by the board.

11 (9) Subsection (8) of this section does not apply to loans made  
12 under RCW 43.155.065, 43.155.068, and subsection (10) of this  
13 section.

14 (10) Loans made for the purpose of capital facilities plans are  
15 exempted from subsection (8) of this section.

16 (11) To qualify for loans or pledges for solid waste or recycling  
17 facilities under this chapter, a city or county must demonstrate that  
18 the solid waste or recycling facility is consistent with and  
19 necessary to implement the comprehensive solid waste management plan  
20 adopted by the city or county under chapter 70.95 RCW.

21 (12) After January 1, 2010, any project designed to address the  
22 effects of storm water or wastewater on Puget Sound may be funded  
23 under this section only if the project is not in conflict with the  
24 action agenda developed by the Puget Sound partnership under RCW  
25 90.71.310.

26 (13) During the ~~((2013-2015))~~ 2015-2017 fiscal biennium, for  
27 projects involving repair, replacement, or improvement of a  
28 wastewater treatment plant or other public works facility for which  
29 an investment grade efficiency audit is obtainable, the public works  
30 board must require as a contract condition that the project sponsor  
31 undertake an investment grade efficiency audit. The project sponsor  
32 may finance the costs of the audit as part of its public works  
33 assistance account program loan.

34 (14)(a) ~~((For public works assistance account application rounds  
35 conducted during the 2013-2015 fiscal biennium, the board must  
36 implement policies and procedures designed to maximize local  
37 government use of federally funded drinking water and clean water  
38 state revolving funds operated by the state departments of health and  
39 ecology. The board, department of ecology, and department of health  
40 must jointly develop evaluation criteria and application procedures~~

1 ~~that will increase access of eligible drinking water and wastewater~~  
2 ~~projects to the public works assistance account for short-term~~  
3 ~~preconstruction financing and to the federally funded state revolving~~  
4 ~~funds for construction financing. The procedures must also strengthen~~  
5 ~~coordinated funding of preconstruction and construction projects.)~~  
6 For public works assistance account application rounds conducted  
7 during the 2015-2017 fiscal biennium, the board must implement  
8 policies and procedures designed to maximize local government use of  
9 federal funds to finance local infrastructure including, but not  
10 limited to, drinking water and clean water state revolving funds  
11 operated by the state departments of health and ecology.

12 (b) For all construction loan projects proposed to the  
13 legislature for funding during the ((2013-2015)) 2015-2017 fiscal  
14 biennium, the board must base interest rates on the average daily  
15 market interest rate for tax-exempt municipal bonds as published in  
16 the bond buyer's index for the period from sixty to thirty days  
17 before the start of the application cycle. For projects with a  
18 repayment period between five and twenty years, the rate must be  
19 sixty percent of the market rate. For projects with a repayment  
20 period under five years, the rate must be thirty percent of the  
21 market rate. The board must also provide reduced interest rates,  
22 extended repayment periods, or forgivable principal loans for  
23 projects that meet financial hardship criteria as measured by the  
24 affordability index or similar standard measure of financial  
25 hardship.

26 ~~((c) By December 1, 2013, the board must recommend to the~~  
27 ~~appropriate committees of the legislature statutory language to make~~  
28 ~~permanent these new criteria, procedures, and financing policies.))~~

32 facilities construction loan revolving account, which shall consist  
33 of all moneys collected under this chapter and any moneys  
34 appropriated to it by law. Disbursements from the revolving account  
35 shall be on authorization of the board. In order to maintain an  
36 effective expenditure and revenue control, the public facilities  
37 construction loan revolving account shall be subject in all respects  
38 to chapter 43.88 RCW. ~~((During the 2009-2011 biennium, sums in the~~

2 use the following strategies when providing grants to local  
3 governments under this subsection:

4 (i) Enter into an extended grant agreement with a local  
5 government conducting remedial actions at a facility where those  
6 actions extend over multiple biennia and the total eligible cost of  
7 those actions exceeds twenty million dollars. The agreement is  
8 subject to the following limitations:

9 (A) The initial duration of such an agreement may not exceed ten  
10 years. The department may extend the duration of such an agreement  
11 upon finding substantial progress has been made on remedial actions  
12 at the facility;

13 (B) Extended grant agreements may not exceed fifty percent of the  
14 total eligible remedial action costs at the facility; and

15 (C) The department may not allocate future funding to an extended  
16 grant agreement unless the local government has demonstrated to the  
17 department that funds awarded under the agreement during the previous  
18 biennium have been substantially expended or contracts have been  
19 entered into to substantially expend the funds;

20 (ii) Enter into a grant agreement with a local government  
21 conducting a remedial action that provides for periodic reimbursement  
22 of remedial action costs as they are incurred as established in the  
23 agreement;

24 (iii) Enter into a grant agreement with a local government prior  
25 to it acquiring a property or obtaining necessary access to conduct  
26 remedial actions, provided the agreement is conditioned upon the  
27 local government acquiring the property or obtaining the access in  
28 accordance with a schedule specified in the agreement;

29 (iv) Provide integrated planning grants to local governments to  
30 fund studies necessary to facilitate remedial actions at brownfield  
31 properties and adaptive reuse of properties following remediation.  
32 Eligible activities include, but are not limited to: Environmental  
33 site assessments; remedial investigations; health assessments;  
34 feasibility studies; site planning; community involvement; land use  
35 and regulatory analyses; building and infrastructure assessments;  
36 economic and fiscal analyses; and any environmental analyses under  
37 chapter 43.21C RCW;

38 (v) Provide grants to local governments for remedial actions  
39 related to area-wide groundwater contamination. To receive the  
40 funding, the local government does not need to be a potentially

1 liable person or be required to seek reimbursement of grant funds  
2 from a potentially liable person;

3 (vi) The director may alter grant matching requirements to create  
4 incentives for local governments to expedite cleanups when one of the  
5 following conditions exists:

6 (A) Funding would prevent or mitigate unfair economic hardship  
7 imposed by the clean-up liability;

8 (B) Funding would create new substantial economic development,  
9 public recreational opportunities, or habitat restoration  
10 opportunities that would not otherwise occur; or

11 (C) Funding would create an opportunity for acquisition and  
12 redevelopment of brownfield property under RCW 70.105D.040(5) that  
13 would not otherwise occur;

14 (vii) When pending grant applications under ~~((e)-(e))~~ (e)(iv)  
15 and (v) of this subsection (4) exceed the amount of funds available,  
16 designated redevelopment opportunity zones must receive priority for  
17 distribution of available funds.

18 ~~((d)-(f))~~ (f) To expedite multiparty clean-up efforts, the  
19 department may purchase remedial action cost-cap insurance. For the  
20 2013-2015 fiscal biennium, moneys in the local toxics control account  
21 may be spent on projects in sections 3024, 3035, 3036, and 3059,  
22 chapter 19, Laws of 2013 2nd sp. sess.

23 (5) Except for unanticipated receipts under RCW 43.79.260 through  
24 43.79.282, moneys in the state and local toxics control accounts may  
25 be spent only after appropriation by statute.

26 (6) No moneys deposited into either the state or local toxics  
27 control account may be used for: Natural disasters where there is no  
28 hazardous substance contamination; high performance buildings; solid  
29 waste incinerator facility feasibility studies, construction,  
30 maintenance, or operation; or after January 1, 2010, for projects  
31 designed to address the restoration of Puget Sound, funded in a  
32 competitive grant process, that are in conflict with the action  
33 agenda developed by the Puget Sound partnership under RCW 90.71.310.  
34 However, this subsection does not prevent an appropriation from the  
35 state toxics control account to the department of revenue to enforce  
36 compliance with the hazardous substance tax imposed in chapter 82.21  
37 RCW.

38 (7) Except during the 2011-2013 fiscal biennium, one percent of  
39 the moneys collected under RCW 82.21.030 shall be allocated only for  
40 public participation grants to persons who may be adversely affected

1 by a release or threatened release of a hazardous substance and to  
2 not-for-profit public interest organizations. The primary purpose of  
3 these grants is to facilitate the participation by persons and  
4 organizations in the investigation and remedying of releases or  
5 threatened releases of hazardous substances and to implement the  
6 state's solid and hazardous waste management priorities. No grant may  
7 exceed sixty thousand dollars. Grants may be renewed annually. Moneys  
8 appropriated for public participation that are not expended at the  
9 close of any biennium revert to the state toxics control account.

10 (8) The department shall adopt rules for grant or loan issuance  
11 and performance. To accelerate both remedial action and economic  
12 recovery, the department may expedite the adoption of rules necessary  
13 to implement chapter 1, Laws of 2013 2nd sp. sess. using the  
14 expedited procedures in RCW 34.05.353. The department shall initiate  
15 the award of financial assistance by August 1, 2013. To ensure the  
16 adoption of rules will not delay financial assistance, the department  
17 may administer the award of financial assistance through interpretive  
18 guidance pending the adoption of rules through July 1, 2014.

19 (9) Except as provided under subsection (3)(k) and (q) of this  
20 section, nothing in chapter 1, Laws of 2013 2nd sp. sess. effects  
21 [affects] the ability of a potentially liable person to receive  
22 public funding.

23 (10) During the ((2013-2015)) 2015-2017 fiscal biennium the local  
24 toxics control account may also be used for the centennial clean  
25 water program ((and for storm water grants)) and for the storm water  
26 financial assistance program administered by the department of  
27 ecology.

28 NEW SECTION. **Sec. 7036.** (1) Funds appropriated in this act for  
29 minor works may not be allotted until final project lists are  
30 submitted to the office of financial management. Revisions to the  
31 project lists are allowed for projects not anticipated at the time of  
32 budget development but must be submitted to the office of financial  
33 management, the house of representatives capital budget committee,  
34 and the senate ways and means committee for review and comment and  
35 must include an explanation of variances from the prior lists before  
36 funds may be expended on the revisions. Any project list revisions  
37 must be approved by the office of financial management before funds  
38 may be expended from the minor works appropriation.

1 (2)(a) Minor works project lists are single line appropriations  
2 that include multiple projects of a similar nature and that are  
3 valued between \$25,000 and \$1,000,000 each, with the exception of  
4 higher education minor works projects that may be valued up to  
5 \$2,000,000. All projects must meet the criteria included in this  
6 subsection (2)(a). These projects should be completed within two  
7 years of the appropriation with the funding provided. Agencies are  
8 prohibited from including projects on their minor works lists that  
9 are a phase of a larger project, and that if combined over a  
10 continuous period of time, would exceed \$1,000,000, or \$2,000,000 for  
11 higher education minor works projects. Improvements for accessibility  
12 in compliance with the Americans with disabilities act may be  
13 included in any of the minor works categories.

14 (b) Minor works appropriations may not be used for the following:  
15 Studies, except for technical or engineering reviews or designs that  
16 lead directly to and support a project on the same minor works list;  
17 planning; design outside the scope of work on a minor works list;  
18 moveable, temporary, and traditionally funded operating equipment not  
19 in compliance with the equipment criteria established by the office  
20 of financial management; software not dedicated to control of a  
21 specialized system; moving expenses; land or facility acquisition;  
22 rolling stock; computers; or to supplement funding for projects with  
23 funding shortfalls unless expressly authorized. The office of  
24 financial management may make an exception to the limitations  
25 described in this subsection (2)(b) for exigent circumstances after  
26 notifying the legislative fiscal committees and waiting ten days for  
27 comments by the legislature regarding the proposed exception.

28 (c) Minor works preservation projects may include program  
29 improvements of no more than twenty-five percent of the individual  
30 minor works preservation project cost.

35 fiscal year 2017. . . . . \$12,000,000

36 Public works assistance account—state: For transfer

3 authorizes expenditures of state funds from the state building  
4 construction account, or from any other capital project account in  
5 the state treasury, for a capital project or program that is  
6 specified to be funded with proceeds from the sale of bonds, the  
7 legislature declares that any such expenditures for that project or  
8 program made prior to the issue date of the applicable bonds are  
9 intended to be reimbursed from proceeds of those bonds in a maximum  
10 amount equal to the amount of such appropriation.

11 NEW SECTION. **Sec. 7039.** The office of financial management, in  
12 accordance with RCW 28B.77.070 and 43.88D.010, shall include the  
13 following in the scoring process:

14 (1) The office of financial management shall develop a single  
15 prioritized list that includes all projects requesting funding, with  
16 the exception of minor works and predesign requests. Predesigns must  
17 be on a separate prioritized list.

18 (2) The office of financial management shall weight the  
19 reasonableness of cost criteria based on the following criteria in  
20 the following order: (a) Expected maximum allowable construction  
21 costs per square foot; and (b) life-cycle cost analysis using the  
22 office of financial management's life-cycle cost tool.

23 (3) Prior legislative commitment to the project funding of  
24 predesign or design must be included in the scoring criteria.

25 (4) Projects must be scored only once unless the office of  
26 financial management, or the requesting school, find that the project  
27 scope or budget has significantly changed.

28 **Sec. 7040.** RCW 43.131.413 and 2010 c 245 s 12 are each amended
