NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and...
clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects and proposed projects for time capture, payroll and payment processes, and eligibility and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. No later than October 1, 2015, the department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(c) The department, in coordination with the health care authority, shall pursue a federal waiver to use supplemental nutrition assistance program eligibility, aged, blind, or disabled program eligibility, or temporary assistance for needy families eligibility, to enroll eligible persons into medicaid.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral
health services through integrated contracts upon request of all of
the county authorities in a regional service area to become an early
adopter of fully integrated purchasing of medical and behavioral
health services. The department may combine and transfer such amounts
appropriated under sections 204, 208, and 213 of this act as may be
necessary to fund early adopter contracts. The amount of medicaid
funding transferred from each program may not exceed the average per
capita cost assumed in this act for individuals covered by that
program, actuarially adjusted for the health condition of persons
enrolled, times the number of clients enrolled. The amount of non-
medicaid funding transferred from sections 204 and 208 may not exceed
the amount that would have been contracted with a behavioral health
organization if the county authorities had not requested to become an
early adopter of fully integrated purchasing. If any funding that
this act provides solely for a specific purpose is transferred under
this subsection, that funding must be used consistently with the
provisions and conditions for which it was provided.

(8) In accordance with RCW 71.24.380, the department is
authorized to purchase mental health and substance use disorder
services through integrated contracts with behavioral health
organizations. The department may combine and transfer such amounts
appropriated under sections 204 and 208 of this act as may be
necessary to finance these behavioral health organization contracts.
If any funding that this act provides solely for a specific purpose
is transferred under this subsection, that funding must be used
consistently with the provisions and conditions for which it was
provided.

TOTAL APPROPRIATION ................................ $1,678,948,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) For the purposes of this subsection, the term "regional support networks," includes, effective April 1, 2016, behavioral health organizations which assume the duties of regional support networks pursuant to chapter 225, Laws of 2014 (2SSB 6312).

(b) $16,631,000 of the general fund—state appropriation for fiscal year 2016, $13,761,000 of the general fund—state appropriation for fiscal year 2017, and $17,918,000 of the general fund—federal appropriation are provided solely to reimburse regional support networks for increased utilization costs, as compared to utilization costs in fiscal year 2014, that are incurred in order to meet statutory obligations to provide individualized mental health treatment in appropriate settings to individuals who are detained or committed under the involuntary treatment act. Prior to distributing funds to a regional support network requesting reimbursement for costs relative to increased utilization, the department must receive adequate documentation of such increased utilization and costs. Regional support networks receiving funds for community hospitals or evaluation and treatment center beds under subsection (q) of this section are only eligible for reimbursement that exceeds the total of their utilization costs in fiscal year 2014 and the costs of services provided with additional funds received under (q) of this subsection.

(c) $2,452,000 of the general fund—state appropriation for fiscal year 2016, $2,264,000 of the general fund—state appropriation for fiscal year 2017, and $2,653,000 of the general fund—federal appropriation are provided solely for implementation of chapter 258, Code Rev/LL:eab
Laws of 2015 (E2SSB 5269). Regional support networks must use these amounts for involuntary treatment costs associated with implementation of this bill.

(d) $3,776,000 of the general fund—state appropriation for fiscal year 2016, $5,780,000 of the general fund—state appropriation for fiscal year 2017, and $6,054,000 of the general fund—federal appropriation are provided solely for implementation of chapter 250, Laws of 2015 (E2SHB 1450). To the extent possible, levels of regional support network spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts includes a reduction of $4,715,000 for fiscal year 2016 and $4,715,000 for fiscal year 2017 associated with a funding shift that allows for increased federal participation for community inpatient stays that were previously ineligible for federal matching funds. This reduction will be distributed to regional support networks based on the same proportions that were added to regional support network capitation ranges specific to the waiver that allowed for federal funds to be used for community inpatient stays that were previously ineligible for federal matching funds. The department must allow regional support networks to use medicaid capitation payments to provide services to medicaid enrollees that are in addition to those covered under the state plan in accordance with the conditions established under federal regulations governing medicaid managed care contracts and subject to federal approval by the center for medicaid and medicare services.

(f) $6,590,000 of the general fund—state appropriation for fiscal year 2016, $6,590,000 of the general fund—state appropriation for fiscal year 2017, and $7,620,000 of the general fund—federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In
determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(f) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(g) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 587 per day.

(h) From the general fund—state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund—state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(i) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(j) $750,000 of the general fund—state appropriation for fiscal year 2016 and $750,000 of the general fund—state appropriation for fiscal year 2017 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(k) $1,125,000 of the general fund—state appropriation for fiscal year 2016 and $1,125,000 of the general fund—state appropriation for fiscal year 2017 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(l) $1,204,000 of the general fund—state appropriation for fiscal year 2016 and $1,204,000 of the general fund—state appropriation for fiscal year 2017 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(m) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(n) $2,291,000 of the general fund—state appropriation for fiscal year 2016 and $2,291,000 of the general fund—state appropriation for fiscal year 2017 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.
(o) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in T.R. v. Dreyfus and Porter.

The department must contract these funds for the operation of community programs in which the department determines there is a need for capacity that allows individuals to be diverted or transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King regional support network, the Spokane regional support network outside of Spokane county, and the Thurston Mason regional support network; (ii) one new full program of an assertive community treatment team in the King regional support network and two new half programs of assertive community treatment teams in the Spokane regional support network and the Pierce regional support network; and (iii) three new recovery support services programs in the Grays Harbor regional support network, the greater Columbia regional support network, and the north sound regional support network. In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated regional support network for any of the services identified above, it may consider contracting for that service in another regional support network that has the need for such service.

(q) The appropriations in this section include a reduction of $16,462,000 in general fund—state and $16,468,000 of general fund—federal expenditure authority. This reduction must be achieved by reducing regional support network medicaid rates for disabled adults, nondisabled adults, disabled children, and nondisabled children. No regional support network rate may be lowered below the low end of the rate range that is certified as actuarially sound. The department
must work to develop updated minimum and maximum reserve levels that reflect the changes in the number of medicaid eligible individuals since reserve levels were originally set as well as the integration of substance use disorder services into managed care contracts funded within the amounts appropriated in this section. The department must submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1, 2015, that includes the revised minimum and maximum reserve levels for medicaid and nonmedicaid behavioral health organization contracts.

(b) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(c) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care

If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2016 and fiscal year 2017, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2015-2017 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2015-2017 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no
additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $16,664,000 of the general fund—state appropriation for fiscal year 2016 and $8,170,000 of the general fund—state appropriation for fiscal year 2017 are provided solely for state grants for the participating hospitals.

Funds in the account are provided solely for the information technology projects shown in LEAP omnibus document IT-2015, dated June 20, 2015, which is hereby incorporated by reference. To facilitate the transfer of moneys from other funds and accounts that are associated with projects contained in LEAP omnibus document IT-2015, dated June 20, 2015, the state treasurer is directed to transfer moneys from other funds and accounts in an amount not to exceed $807,000 to the information technology investment revolving account in accordance with schedules provided by the office of financial management.

(2) Agencies may apply to the office of financial management to receive funds from the information technology investment revolving account. The office of financial management must provide funding sufficient to complete those projects labeled "MANDATORY" in LEAP omnibus document IT-2015, dated June 20, 2015, from within amounts appropriated in this section. For the remaining projects, preference must be given to projects that utilize commercial off-the-shelf or software as a service technology solution. (3) Allocations and allotments may be made only during discrete stages of projects, which at a minimum must include a planning stage, procurement stage, and implementation and integration stage.    (iii) An implementation schedule covering activities, critical milestones, and deliverables at each stage of the project for the life of the project at each agency affected by the project; and
   (iv) Performance measures used to determine that the project is on time, within budget, and meeting expectations for quality of work product.

(c) A letter from the office of the chief information officer certifying that:
   (i) The project is consistent with the state's enterprise architecture and other policies developed by the office of the chief information officer;
   (ii) The agency has the organizational capacity, preparedness, and leadership to implement the project successfully;
   (iii) The agency has adequately assessed and minimized the risks inherent with the project;
   (iv) The project has the management, staffing, and oversight resources needed for the cost, complexity, and risks associated with the project;
   (v) The project has implementation schedules and performance measures for timeliness, deliverables, quality, and budget;
   (vi) The agency has an adequate risk management plan that also enables the office of the chief information officer to assess, intervene, and take necessary action when performance measures are not being met; and
   (vii) For any investment that does not use commercial off-the-shelf or software as a service technology solution, the proposed project represents the best business solution and should not be delayed.
(4) For any project that exceeds two million dollars in total funds to complete, requires more than one biennium to complete, or is financed through financial contracts, bonds, or other indebtedness:

(i) Quality assurance for the project must report independently to the office of the chief information officer;

(ii) The office of the chief information officer must review, and if necessary, revise the proposed project to ensure it is flexible and adaptable to advances in technology;

(iii) The technology budget must specifically identify the uses of any financing proceeds. No more than thirty percent of the financing proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(iv) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed; and

(v) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements.

(5) The office of the chief information officer may suspend or terminate a project at any time if the office of the chief information officer determines that the project is not meeting or is not expected to meet anticipated performance measures. Once suspension or termination occurs, the agency shall not make additional expenditures on the project without approval of the state chief information officer. If a project is terminated, the office of financial management must terminate the agency's allocation from the information technology investment revolving account and the agency shall return any remaining funds to the account to be reallocated to other projects by the office of financial management.

(6) Any cost to administer or implement this section for projects contained in LEAP omnibus document IT-2015, dated June 20, 2015, must be paid from the information technology investment revolving account. Sec. 1201. 2014 c 221 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under the Washington medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary.
to finance a unified health care plan for the WMIP and the MICP
program enrollment. The WMIP pilot projects shall not exceed a daily
enrollment of 6,000 persons, nor expand beyond one county during the
2013-2015 fiscal biennium. The amount of funding assigned from each
program may not exceed the average per capita cost assumed in this
act for individuals covered by that program, actuarially adjusted for
the health condition of persons enrolled, times the number of clients
enrolled. In implementing the WMIP and the MICP, the health care
authority and the department may: (i) Withhold from calculations of
"available resources" as set forth in RCW 71.24.025 a sum equal to
the capitated rate for enrolled individuals; and (ii) employ
capitation financing and risk-sharing arrangements in collaboration
with health care service contractors licensed by the office of the
insurance commissioner and qualified to participate in both the
medicaid and medicare programs.

(b) If Washington has been selected to participate in phase two
of the federal demonstration project for persons dually-eligible for
both medicare and medicaid, the department and the authority may
initiate the MICP. Participation in the project shall be limited to
persons who are eligible for both medicare and medicaid and to
counties in which the county legislative authority has agreed to the
terms and conditions under which it will operate. The purpose of the
project shall be to demonstrate and evaluate ways to improve care
while reducing state expenditures for persons enrolled both in
medicare and medicaid. To that end, prior to initiating the project,
the department and the authority shall assure that state expenditures
shall be no greater on either a per person or total basis than the
state would otherwise incur. Individuals who are solely eligible for
medicaid may also participate if their participation is agreed to by
the health care authority, the department, and the county legislative
authority.

(4) The legislature finds that medicaid payment rates, as
calculated by the department pursuant to the appropriations in this
act, bear a reasonable relationship to the costs incurred by
efficiently and economically operated facilities for providing
quality services and will be sufficient to enlist enough providers so
that care and services are available to the extent that such care and
services are available to the general population in the geographic
area. The legislature finds that cost reports, payment data from the
federal government, historical utilization, economic data, and
clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for the medicaid expansion but are enrolled in coverage that will be eliminated in the transition to the medicaid expansion.

(7)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2015, unless specifically prohibited by this act, the department may transfer general fund—state appropriations for fiscal year 2015 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2015 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial
management shall notify the appropriate fiscal committees of the
ten Senate and House of Representatives in writing seven days prior to
approving any allotment modifications or transfers under this
subsection. The written notification shall include a narrative
explanation and justification of the changes, along with expenditures
and allotments by budget unit and appropriation, both before and
after any allotment modifications or transfers.

The appropriations in this section are subject to the following
conditions and limitations:

1. Within amounts provided for the foster care and adoption

expenditures.

year 2014 and $668,000 of the general fund—state appropriation for
fiscal year 2015 are provided solely to contract for the operation of

Seventy-five percent of the children served by the center must be in need of special care as a result of substance abuse by their mothers. The center shall also provide on-site training to biological, adoptive, or foster parents. The center shall provide at least three months of consultation and support to the parents accepting placement of children from the center. The center may recruit new and current foster and adoptive parents for infants served by the center. The department shall not require case management as a condition of the contract.

To achieve efficiencies and increase utilization, the department shall allow the co-location of these centers, except that a youth may not be placed in a secure facility or the secure portion of a co-located facility except as specifically authorized by chapter 13.32A RCW. The reductions to appropriations in this subsection related to semi-secure crisis residential centers reflect a reduction to the number of beds for semi-secure crisis residential centers and not a reduction in rates. Any secure crisis residential center or semi-
secure crisis residential center bed reduction shall not be based solely upon bed utilization. The department is to exercise its discretion in reducing the number of beds but to do so in a manner that maintains availability and geographic representation of semi-secure and secure crisis residential centers.

((5)) (4) $125,000 of the general fund—state appropriation for fiscal year 2014 and $125,000 of the general fund—state appropriation for fiscal year 2015 are provided solely for a community-based organization that has innovated, developed, and replicated a foster care delivery model that includes a licensed hub home. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. Sec. 1204. 2014 c 221 s 204 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES—MENTAL HEALTH PROGRAM

(1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS

General Fund—State Appropriation (FY 2014) . . . . . $328,527,000

General Fund—State Appropriation (FY 2015) . . . . . ($329,208,000)

General Fund—Federal Appropriation. . . . . . . . . . . ($666,113,000)

General Fund—Private/Local Appropriation. . . . . . . $17,864,000

TOTAL APPROPRIATION. . . . . . . . . . . . . . . . . ($1,341,712,000)

$1,439,872,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $104,999,000 of the general fund—state appropriation for fiscal year 2014 and $88,895,000 of the general fund—state appropriation for fiscal year 2015 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. This is a reduction in flexible nonmedicaid funding of $4,343,000 for fiscal year 2014 and $20,446,000 for fiscal year 2015. This reduction
reflects offsets in state funding related to services that will now be funded with federal dollars through the affordable care act medicaid expansion. This reduction shall be distributed as follows:

(i) The $4,343,000 reduction in fiscal year 2014 and $10,223,000 of the reduction in fiscal year 2015 must be distributed among regional support networks based on a formula that equally weights each regional support networks proportion of individuals who become newly eligible and enroll in medicaid under the expansion provisions of the affordable care act in fiscal year 2014 and each regional support network's spending of flexible nonmedicaid funding on services that would be reimbursable for federal medicaid matching funds if provided to medicaid enrollees in the 2011-2013 fiscal biennium.

(ii) The remaining $10,223,000 reduction in fiscal year 2015 must be distributed among regional support networks based on each regional support network's proportion of individuals who become newly eligible and enroll in medicaid under the expansion provisions of the affordable care act through fiscal year 2015.

(b) $6,590,000 of the general fund—state appropriation for fiscal year 2014, $6,590,000 of the general fund—state appropriation for fiscal year 2015, and $7,620,000 of the general fund—federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund—state appropriation for fiscal year 2014, $5,850,000 of the general fund—state appropriation for fiscal year 2015, and $1,300,000 of the general fund—federal appropriation for fiscal year 2015.

Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

The legislature intends to provide additional temporary financial relief to the CD-RSN while it undergoes internal restructuring or negotiates a merger with another regional support network.

The department shall negotiate relief for outstanding fiscal year 2013 reimbursements owed by CD-RSN to the state provided that the CD-RSN has a plan in place that is approved by the department by August 1, 2013, that demonstrates how CD-RSN will maintain financial viability and stability or will merge with another regional support network.

Up to $298,000 of the general fund—state appropriation for fiscal year 2014 is for the

(e) The rate add-on provided in (c) of this subsection is subject to the reconciliation and settlement process provided in RCW 74.46.022(6).

(f) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment is for any reason disapproved, (b), (c), (d), (g), and the fiscal year 2015 additional add-on in (a) of this subsection do not apply.

The appropriations in this section are subject to the following conditions and limitations:

(1) (($1,900,484,000 of the general fund—federal appropriation is provided solely)) Sufficient amounts are appropriated in this section
to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII), subject to the conditions and limitations in this subsection. If the federal medical assistance percentage for the medicaid expansion falls below the percentages in section 1905(y) of the social security act as of July 1, 2013, the authority shall ensure that the state does not incur any additional state costs above what would have been incurred had the federal medical assistance percentages remained at the percentages in section 1905(y) as of July 1, 2013. The director is authorized to make any necessary program adjustments to comply with this requirement, including adding or adjusting premiums, modifying benefits, or reducing optional programs. To the extent a waiver is needed to accomplish this, the director shall promptly apply for such waiver. If a necessary waiver is not approved, the medicaid expansion program shall be terminated upon appropriate notification to the legislature and enrollees.

(2) The requirements of this subsection apply to the basic health plan. This subsection is null and void and has no further effect upon implementation of the medicaid expansion under subsection (1) of this section.

(a) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs. Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

(b) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

(c) The administrator shall take at least the following actions to assure that persons participating in the basic health plan are eligible for the level of assistance they receive: (a) Require submission of (i) income tax returns, and recent pay history, from all applicants, or (ii) other verifiable evidence of earned and
uneearned income from those persons not required to file income tax
returns; (b) check employment security payroll records at least once
every twelve months on all enrollees; (c) require enrollees whose
income as indicated by payroll records exceeds that upon which their
subsidy is based to document their current income as a condition of
continued eligibility; (d) require enrollees for whom employment
security payroll records cannot be obtained to document their current
income at least once every six months; (e) not reduce gross family
income for self-employed persons by noncash-flow expenses such as,
but not limited to, depreciation, amortization, and home office
deductions, as defined by the United States internal revenue service;
and (f) pursue repayment and civil penalties from persons who have
received excessive subsidies, as provided in RCW 70.47.060(9).

(d) Enrollment in the subsidized basic health plan shall be
limited to only include persons who qualify as subsidized enrollees
as defined in RCW 70.47.020 and who (a) qualify for services under
1115 medicaid demonstration project number 11-W-00254/10; or (b) are
foster parents licensed under chapter 74.15 RCW.

(3) The legislature finds that medicaid payment rates, as
calculated by the health care authority pursuant to the
appropriations in this act, bear a reasonable relationship to the
costs incurred by efficiently and economically operated facilities
for providing quality services and will be sufficient to enlist
enough providers so that care and services are available to the
extent that such care and services are available to the general
population in the geographic area. The legislature finds that the
cost reports, payment data from the federal government, historical
utilization, economic data, and clinical input constitute reliable
data upon which to determine the payment rates.

(4) Based on quarterly expenditure reports and caseload
forecasts, if the health care authority estimates that expenditures
for the medical assistance program will exceed the appropriations,
the health care authority shall take steps including but not limited
to reduction of rates or elimination of optional services to reduce
expenditures so that total program costs do not exceed the annual
appropriation authority.

(5) In determining financial eligibility for medicaid-funded
services, the health care authority is authorized to disregard
recoveries by Holocaust survivors of insurance proceeds or other
assets, as defined in RCW 48.104.030.
(6) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(7) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(8) $4,261,000 of the general fund—state appropriation for fiscal year 2014, $4,261,000 of the general fund—state appropriation for fiscal year 2015, and $8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(9) $400,000 of the general fund—state appropriation for fiscal year 2014, $200,000 of the general fund—state appropriation for fiscal year 2015, and $600,000 of the general fund—federal appropriation are provided solely for disproportionate share hospital payments to rural hospitals certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011 that do not participate in the certified public expenditures program. The authority shall discontinue these payments on January 1, 2015.

(10) $100,000 of the general fund—state appropriation for fiscal year 2014 and $50,000 of the general fund—state appropriation for fiscal year 2015 are provided solely for grants to rural hospitals in Clallam county that were certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011. The authority shall discontinue these payments on January 1, 2015.

(11) $100,000 of the general fund—state appropriation for fiscal year 2015 and $100,000 of the general fund—federal appropriation are provided solely for disproportionate share hospital payments beginning on January 1, 2015, to rural hospitals in Lewis county that were certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011. The authority shall discontinue these payments after June 30, 2015.
(12) $150,000 of the general fund—state appropriation for fiscal year 2015 is provided solely for grants to rural public hospitals in Grant county that were certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011. The authority shall discontinue these payments after June 30, 2015.

(13) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(14) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(15) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2013-2015 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those
classified as critical access hospitals or state psychiatric
institutions. The health care authority shall submit reports to the
governor and legislature by November 1, 2013, and by November 1,
2014, that evaluate whether savings continue to exceed costs for this
program. If the certified public expenditures (CPE) program in its
current form is no longer cost-effective to maintain, the health care
authority shall submit a report to the governor and legislature
detailing cost-effective alternative uses of local, state, and
federal resources as a replacement for this program. During fiscal
year 2014 and fiscal year 2015, hospitals in the program shall be
paid and shall retain one hundred percent of the federal portion of
the allowable hospital cost for each medicaid inpatient fee-for-

service claim payable by medical assistance and one hundred percent
of the federal portion of the maximum disproportionate share hospital
payment allowable under federal regulations. Inpatient medicaid
payments shall be established using an allowable methodology that
approximates the cost of claims submitted by the hospitals. Payments
made to each hospital in the program in each fiscal year of the
biennium shall be compared to a baseline amount. The baseline amount
will be determined by the total of (a) the inpatient claim payment
amounts that would have been paid during the fiscal year had the
hospital not been in the CPE program based on the reimbursement rates
developed, implemented, and consistent with policies approved in the
2013-2015 biennial operating appropriations act and in effect on July
1, 2013, (b) one-half of the indigent assistance disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005, and (c) all of the other disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005 to the extent the same disproportionate share
hospital programs exist in the 2013-2015 fiscal biennium. If payments
during the fiscal year exceed the hospital's baseline amount, no
additional payments will be made to the hospital except the federal
portion of allowable disproportionate share hospital payments for
which the hospital can certify allowable match. If payments during
the fiscal year are less than the baseline amount, the hospital will
be paid a state grant equal to the difference between payments during
the fiscal year and the applicable baseline amount. Payment of the
state grant shall be made in the applicable fiscal year and
distributed in monthly payments. The grants will be recalculated and
redistributed as the baseline is updated during the fiscal year. The
grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $11,928,000 of the general fund—state appropriation for fiscal year 2014 and ($14,821,000) $21,666,000 of the general fund—state appropriation for fiscal year 2015 are provided solely for state grants for the participating hospitals.

(16) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(17) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(18) $170,000 of the general fund—state appropriation for fiscal year 2014, $121,000 of the general fund—state appropriation for fiscal year 2015, and $292,000 of the general fund—federal appropriation are provided solely to implement Engrossed Substitute House Bill No. 1519 (service coordination organizations) and Second Substitute Senate Bill No. 5732 (behavioral health services). If neither of the bills is enacted by June 30, 2013, the amounts provided in this subsection shall lapse.

(19) $57,000 of the general fund—state appropriation for fiscal year 2014, $40,000 of the general fund—state appropriation for fiscal year 2015, and $55,000 of the general fund—federal appropriation are provided solely to develop a report on state efforts to prevent and
control diabetes. The authority, the department of social and health services, and the department of health shall submit a coordinated report to the governor and the appropriate committees of the legislature by December 31, 2014, on the following:

(a) The financial impacts and reach that diabetes of all types and undiagnosed gestational diabetes are having on the programs administered by each agency and individuals, including children with mothers with undiagnosed gestational diabetes, enrolled in those programs. Items in this assessment must include: (i) The number of lives with diabetes and undiagnosed gestational diabetes impacted or covered by the programs administered by each agency; (ii) the number of lives with diabetes, or at risk for diabetes, and family members impacted by prevention and diabetes control programs implemented by each agency; (iii) the financial toll or impact diabetes and its complications, and undiagnosed gestational diabetes and the complications experienced during labor to children of mothers with gestational diabetes places on these programs in comparison to other chronic diseases and conditions; and (iv) the financial toll or impact diabetes and its complications, and diagnosed gestational diabetes and the complications experienced during labor to children of mothers with gestational diabetes places on these programs;

(c) A description of the level of coordination existing between the agencies on activities, programmatic activities, and messaging on managing, treating, or preventing all types of diabetes and its complications;

(d) The development or revision of detailed policy-related action plans and budget recommendations for battling diabetes and undiagnosed gestational diabetes that includes a range of actionable items for consideration by the legislature. The plans and budget recommendations must identify proposed action steps to reduce the impact of diabetes, prediabetes, related diabetes complications, and undiagnosed gestational diabetes. The plans and budget recommendations must also identify expected outcomes of the action
steps proposed in the following biennium while also establishing benchmarks for controlling and preventing all types of diabetes; and 

(e) An estimate of savings, efficiencies, costs, and budgetary savings and resources required to implement the plans and budget recommendations identified in (d) of this subsection (17).

(20) Within the amounts appropriated in this section, the authority shall identify strategies to improve patient adherence to treatment plans for diabetes and implement these strategies as a pilot through one health home program to be identified by the authority. The authority shall report to the governor and the legislature in December 2014 on the progress of strategy implementation. The authority shall report to the governor and legislature in December 2015 on patient outcomes and cost savings derived from new adherence strategies in the health home model and make recommendations for improving the strategies.

(21) Effective January 1, 2014, managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(22) $25,000 of the general fund—state appropriation for fiscal year 2014 and $25,000 of the general fund—federal appropriation are provided solely for the development of recommendations for funding integrated school nursing and outreach services. The authority shall collaborate with the office of the superintendent of public instruction to develop recommendations for increasing federal financial participation for providing nursing services in schools with the goals of integrating nursing and outreach services and supporting one nurse for every four hundred fifty students in elementary schools and one nurse for every seven hundred fifty students in secondary schools. In developing these recommendations, the authority shall inquire with the federal centers for medicare and medicaid services about state plan amendment or waiver options for receiving additional federal matching funds for school nursing services provided to children enrolled in apple health for kids. The recommendations shall include proposals for funding training and reimbursement for nurses that provide outreach services to help eligible students enroll in apple health for kids and other social services programs. The authority and the office of the superintendent...
of public instruction shall provide these recommendations to the
governor and the legislature by December 1, 2013.

(23) $430,000 of the general fund—state appropriation for fiscal
year 2014 and $500,000 of the general fund—federal appropriation are
provided solely to complete grant requirements for the health
information exchange.

(24) $143,000 of the medicaid fraud penalty account—state
appropriation and $423,000 of the general fund—federal appropriation

organization's international classification of diseases.

(26) $111,000 of the general fund—state appropriation for fiscal
year 2014, $35,000 of the general fund—state appropriation for fiscal
year 2015, and $359,000 of the general fund—federal appropriation are
provided solely to update the medicaid information technology
architecture state self-assessment and to develop the five year road
map for the medicaid information technology architecture architect.

(27) $62,000 of the general fund—state appropriation for fiscal
year 2014, $62,000 of the general fund—state appropriation for fiscal
year 2015, and $126,000 of the general fund—federal appropriation are
provided solely to support the Robert Bree collaborative's efforts to
disseminate evidence-based best practices for preventing and treating

(28) Within the amounts appropriated in this section, the
authority shall increase reimbursement rates for primary care
services provided by independent nurse practitioners to medicare
levels for the period from July 1, 2013, to December 31, 2014.

(29) The authority shall seek a medicaid state plan amendment to
create a professional services supplemental payment managed care
program for professional services delivered to managed care
recipients by University of Washington medicine and other public
professional providers. This program shall be effective as soon as
administratively possible and shall operate concurrently with the
existing professional services supplemental payment program. The
authority shall apply federal rules for identifying the difference
between average commercial rates and fee-for-service medicaid payments. This difference will be multiplied by the number of managed care encounters and incorporated into the managed care plan capitation rates by a certified actuary. The managed care plans will pay the providers the difference attributable to the increased capitation rate. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the authority in the development, implementation, and maintenance of this program shall be the responsibility of the participating providers. Participating providers shall retain the full amount of supplemental payments provided under this program, net of any costs related to the program that are disallowed due to audits or litigation against the state.

(30) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit beginning January 1, 2014.

(34) Within the amounts appropriated in this section, the authority shall reduce premiums for children with family incomes above 200 percent of the federal poverty level in the state-funded children's health program who are not eligible for coverage under the
federal children's health insurance program. Premiums in the state
and federal children's health insurance program shall be equal.

(35) The appropriations in this section reflect savings and
efficiencies by transferring children receiving medical care provided
through fee-for-service to medical care provided through managed
care.

(36) $150,000 of the general fund—state appropriation for fiscal
year 2014, $436,000 of the general fund—state appropriation for
fiscal year 2015, and $170,561,000 of the general fund—federal

conditioned on the authority satisfying the requirements of the
project management oversight standards and policies established by
the office of the chief information officer.

(38) Within the amounts appropriated in this section, the health
care authority and the department of social and health services shall
implement the state option to provide health homes for enrollees with
chronic conditions under section 2703 of the federal affordable care
act. The total state match for enrollees who are dually-eligible for
both medicare and medicaid and not enrolled in managed care shall be
no more than the net savings to the state from the enhanced match
rate for its medicaid-only managed care enrollees under section 2703.

(39) The health care authority shall not initiate any services
that require expenditure of state general fund moneys unless
expressly authorized in this act or other law. The health care
authority may seek, receive, and spend, under RCW 43.79.260 through
43.79.282, federal moneys not anticipated in this act as long as the
federal funding does not require expenditure of state moneys for the
program in excess of amounts anticipated in this act. If the health
care authority receives unanticipated unrestricted federal moneys,
those moneys shall be spent for services authorized in this act or in
any other legislation providing appropriation authority, and an equal
amount of appropriated state general fund moneys shall lapse. Upon
the lapsing of any moneys under this subsection, the office of
financial management shall notify the legislative fiscal committees.
As used in this subsection, "unrestricted federal moneys" includes
block grants and other funds that federal law does not require to be
spent on specifically defined projects or matched on a formula basis
by state funds.

(40) Within the amounts appropriated in this section, the
authority shall reimburse for primary care services provided by
naturopathic physicians.

(41) Within amounts appropriated, the health care authority shall
conduct a review of its management and staffing structure to identify
efficiencies and opportunities to reduce full time equivalent
employees and other administrative costs. A report summarizing the
review and the authority's recommendations to reduce costs and full
time equivalent employees must be submitted to the governor and
legislature by November 1, 2013.

of the general fund—federal appropriation are provided solely to
support the operations of the Washington health benefit exchange from

medicaid funds provided to the health benefit exchange from the
health care authority are subject to compliance with state and
federal regulations and policies governing the Washington apple
health programs, including timely and proper application,
eligibility, and enrollment procedures. Within the amounts provided
in this subsection, $321,000 of the (health benefit exchange
account) general fund—state appropriation for fiscal year 2015 and
$688,000 of the general fund—federal appropriation are provided
solely for print services and postage for modified adjusted gross
income medicaid eligibility correspondence sent from the health
benefit exchange.
Within the amounts appropriated in this section, the

gross income eligibility standard.

restore medicaid coverage under the breast and cervical cancer
treatment program.

$40,000 of the general fund—state appropriation for fiscal
year 2014 and $40,000 of the general fund—federal appropriation are
provided solely for the authority to create a new position to provide
adequate oversight and assistance to managed care organizations,
rural health clinics, and federally qualified health centers under a
new administratively streamlined payment methodology. Effective July
1, 2013, or upon obtaining any necessary federal approval, but in no
case during the first quarter of a calendar year, the authority shall

federally qualified health centers and rural health clinics. The
authority's payments to managed care organizations shall include the
full encounter payment comprised of both the standard and enhancement
payments for federally qualified health centers and rural health
clinics as defined in the medicaid state plan and in accordance with
section 1902(bb) of the social security act (42 U.S.C. 1396a(bb)). At
no time will a managed care organization be at risk for or have any
claim to the supplemental payment portion of the rate which will be
reconciled to ensure accurate payment and full pass through of the
obligated funds. For any services eligible for encounter payments, as
defined in the medicaid state plan, managed care organizations shall
be required to pay at least the full published encounter rates
directly to each clinic or center, and payments will be reconciled on
at least an annual basis between the managed care organization and
the authority, with final review and approval by the authority. At
the option of any clinic, the enhancement payment can be received
from the managed care organization on a per member per month basis
for all assigned managed care enrollees in an amount prescribed by
the authority. Nothing in this section is intended to disrupt
mutually agreeable contractual arrangements between managed care
organizations and clinics that impact how the standard payment for
services is paid. The authority will require participating managed
care organizations to reimburse federally qualified health centers and rural health clinics for clean claims in strict adherence to the timeliness of payment standards established under contract and specified for the medicaid fee-for-service program in section 1902(a)(37) of the social security act (42 U.S.C. 1396a(a)(37)), 42 C.F.R. Sec. 447.46, and specified for health carriers in WAC 284-43-321. The authority shall exercise all necessary options under its existing sanctions policy to enforce timely payment of claims. The authority shall ensure necessary staff and resources are identified to actively monitor and enforce the timeliness and accuracy of payments to federally qualified health centers and rural health clinics. By January 1, 2014, and after collaboration with federally qualified health centers, rural health clinics, managed care plans, and the centers for medicare and medicaid services, the authority will produce a report that provides options for a new payment methodology that rewards innovation and outcomes over volume of services delivered, and which maintains the integrity of the rural health clinic and federally qualified health center programs as outlined under federal law. The report will detail necessary federal authority for implementation and provide the benefits and drawbacks of each option.

(46) $3,605,000 of the general fund—state appropriation for fiscal year 2014 is provided solely to proportionally reduce the amounts that rural health clinics owe the state under the calendar year 2009 recoupment.

(47) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the current medicaid benefit plan beginning January 1, 2014.

(48) The appropriations in this section reflect savings and efficiencies achieved by modifying dispensing methods of contraceptive drugs. The authority must make arrangements for all medicaid programs offered through managed care plans or fee-for-service programs to require dispensing of contraceptive drugs with a one-year supply provided at one time unless a patient requests a smaller supply or the prescribing physician instructs that the patient must receive a smaller supply. Contracts with managed care plans must allow on-site dispensing of the prescribed contraceptive drugs at family planning clinics. Dispensing practices must follow
clinical guidelines for appropriate prescribing and dispensing to
ensure the health of the patient while maximizing access to effective
contraceptive drugs.

(49)(a) $75,000 of the general fund—state appropriation for
fiscal year 2014 and $75,000 of the general fund—federal

is provided solely for the development of options related to the
targeted premium assistance program. The authority shall develop
options for a waiver request to the federal centers for medicare and
medicaid services to implement a targeted premium assistance program
for the expansion adults, identified in section
1902(a)(10)(A)(i)(VIII) of the social security act, with incomes
above one hundred percent of the federal poverty level, and for
children covered in the children's health insurance program with
incomes above two hundred percent of the federal poverty level, with
a goal of providing seamless coverage through the health benefit
exchange and improving opportunities for families to be covered in
the same health plans. The options must include the possibility of
applying premiums for individuals and cost-sharing that may exceed
the five percent of family income cap under federal law, and the
options must include recommendations to make the targeted premium
assistance program cost neutral. The authority shall submit a report
on the options to the legislature and the governor by January 1, 2014. The authority is encouraged to be creative, use subject matter
experts, and exhaust all possible options to achieve cost neutrality.
The report shall also include a detailed plan and timeline. $75,000
of the amounts appropriated in this subsection is provided solely for
the development of options related to the federal basic health
option. The authority shall prepare options for implementing the
federal basic health option as federal guidance becomes available.
The authority shall submit a report on the options to the legislature
and the governor by January 1, 2014, or ninety days following the
release of federal guidance. The report must include a comparison of
the premiums and cost-sharing under the federal basic health option
with the premium assistance options described in this subsection,
options for implementing the federal basic health option in
combination with a premium assistance program, a detailed fiscal
analysis for each coverage approach, including the estimated costs for system design and implementation, and information about impacted populations.

(b) Where possible, the authority shall leverage the same expert consultants to review each proposal and compare and contrast the approaches to ensure seamless coordination with the health benefit exchange.

(c) The authority shall collaborate with the joint select committee on health care oversight in the development of these options.

(50) $171,000 of the general fund—state appropriation for fiscal year 2015 and $145,000 of the general fund—federal appropriation are provided solely to implement Second Substitute Senate Bill No. 6312 (mental health, chemical dependency) and Engrossed Second Substitute House Bill No. 2315 (suicide prevention). By December 1, 2014, the authority shall report to the legislative fiscal committees with options for reducing payments to hospital owned physician practices or clinics that are higher than the maximum resource based relative value scale fee rates received by nonhospital owned physician practices or clinics for the same procedures. The authority shall include options for exempting certain hospital owned clinics from the reductions and the fiscal impacts of those options. The authority shall not enter into or renew any contracts under RCW 74.60.160 that would restrict the authority's ability to implement any of these options in the 2015-2017 fiscal biennium.

(56) The appropriations to the authority in this act shall be expended for the purposes and in the amounts specified in this act. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecasts and utilization assumptions, the authority, after May 1, (2014) 2015, may transfer general fund—state appropriations for fiscal year (2014) 2015 that are provided solely for a specified purpose. The authority shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

                      Appropriation. ......................... $141,000,000
TOTAL APPROPRIATION. ......................... ($722,414,000)
                      $721,300,000

The appropriations in this section are subject to the following
conditions and limitations:

(1) $237,454,000 of the general fund—state appropriation for
fiscal year 2014, $237,455,000 of the general fund—state
appropriation for fiscal year 2015, $6,000,000 of the education
legacy trust account—state appropriation, and $141,000,000 of the
Washington opportunity pathways account—state appropriation are
provided solely for student financial aid payments under the state
need grant and state work study programs including up to four percent
administrative allowance for the state work study program. Of the
amounts provided in this subsection, $100,000 of the general fund—
state appropriation for fiscal year 2015 is provided solely for the
council to develop an alternative financial aid application system to
implement Senate Bill No. 6523 (higher education opportunities).

(2) Changes made to the state need grant program in the 2011-2013
fiscal biennium are continued in the 2013-2015 fiscal biennium
including aligning increases in awards given to private institutions
with the annual tuition increases for public research institutions or
the private institution's average annual tuition increase experience
of 3.5 percent per year, whichever is less. For the 2015-2017 fiscal
biennium, it is the intent of the legislature to reconsider grant
awards for students at private four-year institutions.

(3) Changes made to the state work study program in the 2009-2011
and 2011-2013 fiscal biennia are continued in the 2013-2015 fiscal
biennium including maintaining the increased required employer share
of wages; adjusted employer match rates; discontinuation of
nonresident student eligibility for the program; and revising
distribution methods to institutions by taking into consideration
other factors such as off-campus job development, historical utilization trends, and student need.

(4) Within the funds appropriated in this section, eligibility for the state need grant shall include students with family incomes at or below 70 percent of the state median family income (MFI), adjusted for family size, and shall include students enrolled in three to five credit-bearing quarter credits, or the equivalent semester credits. Awards for all students shall be adjusted by the estimated amount by which Pell grant increases exceed projected increases in the noninstructional costs of attendance. Awards for students with incomes between 51 and 70 percent of the state median shall be prorated at the following percentages of the award amount granted to those with incomes below 51 percent of the MFI: 70 percent for students with family incomes between 51 and 55 percent MFI; 65 percent for students with family incomes between 56 and 60 percent MFI; 60 percent for students with family incomes between 61 and 65 percent MFI; and 50 percent for students with family incomes between 66 and 70 percent MFI.

(5)(a) Students who are eligible for the college bound scholarship shall be given priority for the state need grant program if the students have applied by the institution's priority financial aid deadline and have completed their financial aid file in a timely manner. These eligible college bound students whose family incomes are in the 0-65 median family income ranges shall be awarded the maximum state need grant for which they are eligible under state policies and may not be denied maximum state need grant funding due to institutional policies or delayed awarding of college bound scholarship students.

(b) In calculating the college bound award, public institutions of higher education shall be subject to the conditions and limitations in RCW 28B.15.102 and shall not utilize college bound funds to offset tuition costs from rate increases in excess of levels authorized in section 603, chapter 50, Laws of 2011 and those assumed in section 602 or 603 of this act.

(6) ($48,297,000) $47,206,000 of the education legacy trust account—state appropriation is provided solely for the college bound scholarship program and may support scholarships for summer session. This amount assumes that college bound scholarship recipients will receive priority for state need grant awards in fiscal year 2014 and fiscal year 2015. If this policy of prioritization is not fully
achieved, it is the intent of this legislation to provide supplemental appropriations in the 2014 supplemental operating budget.

(7) $2,236,000 of the general fund—state appropriation for fiscal year 2014 and $2,236,000 of the general fund—state appropriation for fiscal year 2015 are provided solely for the passport to college program. The maximum scholarship award shall be $5,000. The board shall contract with a nonprofit organization to provide support services to increase student completion in their postsecondary program and shall, under this contract, provide a minimum of $500,000 in fiscal years 2014 and 2015 for this purpose.

(8) $25,354,000 of the education legacy trust account—state appropriation is provided solely to meet state match requirements associated with the opportunity scholarship program.

(9) In developing the skilled and educated workforce report pursuant to RCW 28B.77.080(3), the council shall use the bureau of labor statistics analysis of the education and training requirements of occupations, in addition to any other method the council may choose to use, to assess the number and type of higher education and training credentials required to match employer demand for a skilled and educated workforce.
