EHB 1115**

**SENATE CHAIR**

**SENATE WAYS & MEANS COMMITTEE  
APRIL 8, 2015**

By Senators Honeyford and Keiser

EHB 1115 - S COMM AMD

By Committee on Ways & Means

1 Strike everything after the enacting clause and insert the  
2 following:

3 "NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted  
4 and, subject to the provisions set forth in this act, the several  
5 dollar amounts hereinafter specified, or so much thereof as shall be  
6 sufficient to accomplish the purposes designated, are hereby  
7 appropriated and authorized to be incurred for capital projects  
8 during the period beginning with the effective date of this act and  
9 ending June 30, 2017, out of the several funds specified in this act.

10 (2) The definitions in this subsection apply throughout this act  
11 unless the context clearly requires otherwise.

12 (a) "Fiscal year 2016" or "FY 2016" means the period beginning  
13 July 1, 2015, and ending June 30, 2016.

14 (b) "Fiscal year 2017" or "FY 2017" means the period beginning  
15 July 1, 2016, and ending June 30, 2017.

16 (c) "Lapse" or "revert" means the amount shall return to an  
17 unappropriated status.

18 (d) "Provided solely" means the specified amount may be spent  
19 only for the specified purpose.

20 (3) Unless otherwise specifically authorized in this act, any  
21 portion of an amount provided solely for a specified purpose that is  
22 not expended subject to the specified conditions and limitations to  
23 fulfill the specified purpose shall lapse.

24 (4) The amounts shown under the headings "Prior Biennia," "Future  
25 Biennia," and "Total" in this act are for informational purposes only  
26 and do not constitute legislative approval of these amounts. "Prior  
27 biennia" typically refers to the immediate prior biennium for  
28 reappropriations, but may refer to multiple biennia in the case of  
29 specific projects. A "future biennia" amount is an estimate of what  
30 may be appropriated for the project or program in the 2017-2019  
31 biennium and the following three biennia; an amount of zero does not  
32 necessarily constitute legislative intent to not provide funding for  
33 the project or program in the future.

1 (5) "Reappropriations" in this act are appropriations and, unless  
2 the context clearly provides otherwise, are subject to the relevant  
3 conditions and limitations applicable to appropriations.  
4 Reappropriations shall be limited to the unexpended balances  
5 remaining on June 30, 2015, from the 2013-2015 biennial  
6 appropriations for each project.

16 The appropriation in this section is subject to the following  
17 conditions and limitations:

18 (1)(a) \$24,500,000 for fiscal year 2016 is provided solely for

20 higher education institutions, and state agencies for operational  
21 cost savings improvements to facilities and related projects that  
22 result in energy and operational cost savings, and for energy  
23 efficiency improvements to minor works and stand-alone projects at  
24 state-owned facilities that repair or replace existing building  
25 systems including but not limited to HVAC, lighting, insulation,  
26 windows, and other mechanical systems. Eligibility for this funding  
27 is dependent on an analysis using the office of financial  
28 management's life cycle cost tool that compares project design  
29 alternatives for initial and long-term cost-effectiveness. Assuming a  
30 reasonable return on investment, the cost to improve the project's

32 added to the project appropriation after construction bids are  
33 received. The department of commerce shall coordinate with the office  
34 of financial management to develop a process for project submittal,  
35 review, approval criteria, tracking project budget adjustments, and  
36 performance measures.

(b) At least ten percent of each competitive grant round must be awarded to small cities or towns with a population of five thousand or fewer residents.

(c) In each competitive round, the higher the leverage ratio of nonstate funding sources to state grant and the higher the energy savings, the higher the project ranking.

(2) \$500,000 is provided solely for resource conservation managers in the department of enterprise services to coordinate with state agencies to assess and adjust existing building systems and operations to optimize the efficiency in use of energy and other resources in state-owned facilities. 2 The appropriation in this section is subject to the following  
3 conditions and limitations:

4 (1) The appropriation is provided solely for the development of a  
5 conceptual plan for the future of Capitol Lake and the Deschutes  
6 Estuary that is designed to meet multiple objectives, including  
7 achieving broad community support and preliminary commitments from  
8 state and local funding sources to share costs. The appropriation  
9 must be used to develop a financially feasible conceptual plan,  
10 including general cost estimates, which incorporate, and achieve  
11 compromise between key features of the most widely discussed  
12 concepts.

13 (2) The plan must address these multiple objectives:

14 (a) Some improvement of estuary functions and fish habitat;

15 (b) Retention of portions of the northern portion of the lake, in  
16 accordance with the historic features of the Capitol campus design;

17 (c) Improvement of water quality of the lake sufficient to expand  
18 water-related recreation opportunities, which improvement strategies

1 Engineering and Architectural Services: Staffing (30000762)

2 The appropriation in this section is subject to the following  
3 conditions and limitations:

4 (1) The appropriation in this section is provided solely for  
5 architectural and engineering services to manage public works  
6 contracting for all state facilities pursuant to RCW 43.19.450.

7 (2) The service charge is increased from 2.15 percent to 2.27  
8 percent of total project costs to reduce the number of projects  
9 assigned to each manager. The intended results of the increased fee  
10 are improved accountability, reduced project delays, and reduced the  
11 number and cost of change orders. At the end of each fiscal year, the  
12 department must report to the office of financial management and the  
13 fiscal committees of the legislature on performance improvements  
14 resulting from the increased management fee, including the following:

15 (a) The number of projects managed by each manager compared to  
16 previous biennia;

17 (b) Projects that were not completed on schedule and the reasons  
18 for delays; and

19 (c) The number and cost of the change orders and the reason for  
20 each change order.

21 (3) If the director of the department of enterprise services, in  
22 consultation with the office of financial management, determines that  
23 it is in the best interest of the state for the former northern state  
24 hospital property to be annexed by the city of Sedro-Woolley, the  
25 architect and engineering staff must prepare the appropriate

3 (1)(a) \$9,000,000 is provided solely for forest health hazard  
4 reduction treatments on state, federal, and small nonindustrial  
5 private timber lands. The appropriation may be used for mechanical  
6 treatments, project planning, site preparation, permitting, or

8 wildfire hazards on private lands shall require a contract with the  
9 department of natural resources to provide at least a one-to-one  
10 nonstate or in-kind fund match, and to provide a fifteen-year  
11 landowner maintenance agreement. Satisfaction of the maintenance  
12 requirement at fifteen years is defined, at minimum, as returning the  
13 property's forest conditions to the original contract specifications  
14 for tree spacing and fuel loading. A landowner failing to meet the  
15 maintenance requirement is responsible for recompensing the full  
16 amount of state funding received.

17 (b)(i) A minimum of \$800,000 of this appropriation must be spent  
18 on restoration activities on department of fish and wildlife managed  
19 lands. The department of natural resources must work with the  
20 department of fish and wildlife to prioritize and conduct these  
21 forest hazard reduction treatments.

22 (ii) Not more than \$4,000,000 of this amount may be expended  
23 until the department of natural resources submits a report and draft  
24 legislation that recommends a feasible funding mechanism to equitably  
25 share the costs of forest health hazard reduction treatments between  
26 the general public and landowners. The goal of this plan must be to  
27 generate an additional \$5,000,000 each fiscal year. The department  
28 shall submit the report and draft legislation to the governor and  
29 fiscal committees of the legislature by October 15, 2015. If this  
30 report is not submitted the amount provided in this subsection

33 communities, counties, fire districts, and conservation districts to  
34 establish new firewise communities and complete near-term actions to  
35 increase public safety. The department must implement policies and

11        STEM Facility Improvements (92000036)

12        The appropriation in this section is subject to the following  
13 conditions and limitations: The appropriation is provided solely for  
14 grants to public school districts for the modernization and upgrade  
15 of specialized science, technology, engineering and math (STEM)  
16 facilities in high schools.

17        (1) The specialized STEM facility grant program must be  
18 administered by the superintendent of public instruction in  
19 consultation with the STEM education innovation alliance specified in  
20 RCW 28A.188.030 and the statewide STEM organization specified in RCW  
21 28A.188.050. The superintendent of public instruction must develop  
22 grant application materials in consultation with the statewide STEM  
23 organization, must review applications for accuracy and financial  
24 reasonableness, and must administer awarded grants. With funds  
25 specifically appropriated for this purpose, the superintendent of  
26 public instruction must contract with the statewide STEM organization  
27 specified in RCW 28A.188.050 to evaluate applications against the  
28 criteria specified in subsection (3) of this section and recommend a  
29 single rank-ordered list of grant applications. The superintendent of  
30 public instruction may modify the rank-ordered list received by the  
31 statewide STEM organization to prepare a preliminary grant award list  
32 for submission to the office of financial management as part of the  
33 required allotment request. The preliminary award list must also be  
34 submitted to the appropriate committees of the legislature with the  
35 original ranking by the statewide STEM organization with explanations  
36 for any changes made to the ranking. The office of financial  
37 management must not approve requested allotments for the proposed

1 grant awards for thirty days following the allotment request to allow  
2 review of the proposed grant award list by interested parties.

3 (2) One hundred percent of project costs are eligible for grants  
4 under this program for:

5 (a) Facilities owned by public school districts or public charter  
6 schools used for grades nine through twelve;

7 (b) Facilities built or modernized more than ten years prior to  
8 the grant application; and

9 (c) Project costs for design, construction, project management,  
10 capitalized and noncapitalized equipment and fixtures, and necessary  
11 utility and information technology systems upgrades to support the  
12 specialized STEM facilities.

13 (3) The criteria listed in this subsection must be used to rank  
14 grant requests. In applying these criteria, the statewide STEM  
15 organization should seek to recommend funding for projects that  
16 modernize the most inadequate facilities, to be used by the most  
17 qualified STEM teachers, expected to result in the greatest gains in  
18 STEM literacy for the greatest number of students for the aggregate  
19 amount of proposed grant funding, while improving specialized STEM  
20 facilities in rural, suburban, and urban districts in all parts of  
21 the state. The criteria are:

22 (a) The extent that existing STEM facilities are inadequate  
23 including the lack of adequate STEM facilities to meet graduation  
24 requirements in RCW 28A.150.220;

25 (b) A demonstration that existing STEM faculty are in place and  
26 are qualified to deliver an interactive, project-based STEM  
27 curriculum in the proposed specialized STEM facilities, or a plan and  
28 budget are in place to recruit or train such STEM faculty;

29 (c) The expected gains in STEM literacy that are expected from  
30 the proposed specialized STEM facilities in comparison to the  
31 proposed project costs; and

32 (d) A broad distribution of grants across the state benefiting  
33 rural, suburban, and urban districts.

34 (4) Modernized spaces funded with this grant program in the prior  
35 ten years are not eligible to receive state funding for modernization  
36 through this grant program or the school construction assistance  
37 program for the space that has been modernized with this grant  
38 program. The office of the superintendent of public instruction shall  
39 write rules to ensure new space added with funding provided by this

1 grant is included in the eligible inventory for the school  
2 construction assistance program.

3 (5) The office of the superintendent of public instruction, in  
4 consultation with the STEM education innovation alliance, must  
5 prepare a plan for evaluating the student performance outcomes  
6 resulting from the STEM facility grant program. The evaluation plan  
7 and estimated cost must be submitted to the appropriate committees of  
8 the legislature by January 1, 2017. The evaluation plan must provide  
9 an initial evaluation report on student outcomes by January 1, 2021.  
10 The report must also consider options for expanding the grant program  
11 to improve specialized STEM facilities for middle and elementary  
12 schools.

23 **FOR THE DEPARTMENT OF COMMERCE**

24       Projects That Strengthen Communities and Quality of Life  
25 (92000230)

26       The appropriations in this section are subject to the following  
27 conditions and limitations:

28       (1) Except as directed otherwise prior to the effective date of  
29 this section, the department shall not expend the appropriation in  
30 this section unless and until the nonstate share of project costs  
31 have been either expended, or firmly committed, or both, in an amount  
32 sufficient to complete the project or a distinct phase of the project  
33 that is useable to the public for the purpose intended by the  
34 legislature. This requirement does not apply to projects where a  
35 share of the appropriation is released for design costs only.

1 (2) Prior to receiving funds, project recipients must demonstrate  
2 that the project site is under control for a minimum of ten years,  
3 either through ownership or a long-term lease. This requirement does  
4 not apply to appropriations for preconstruction activities or  
5 appropriations whose sole purpose is to purchase real property that  
6 does not include a construction or renovation component.

7 (3) Projects funded in this section may be required to comply  
8 with Washington's high performance building standards as required by  
9 chapter 39.35D RCW.

10 (4) Project funds are available on a reimbursement basis only,  
11 and shall not be advanced under any circumstances.

12 (5) Projects funded in this section must be held by the recipient  
13 for a minimum of ten years and used for the same purpose or purposes  
14 intended by the legislature as required in RCW 43.63A.125(6).

15 (6) Projects funded in this section, including those that are  
16 owned and operated by nonprofit organizations, are generally required  
17 to pay state prevailing wages.

18 (7) \$1,500,000 of the appropriation in this section from the  
19 state building construction account—state is provided solely for  
20 design development to align ongoing planning for the replacement of  
21 the Seattle multimodal terminal at Colman dock with the creation of a  
22 public park. The scope of work must provide a design plan that  
23 includes an elevated park and corresponding amenities above the  
24 terminal. Design development shall be delivered through the city of  
25 Seattle. The scope of this project does not preclude any current  
26 plans for Colman dock to replace or seismically upgrade the facility,  
27 nor does it reduce the amount of general and commercial traffic, high  
28 occupancy vehicles, transit, bicyclist and pedestrian movement.

29 (8) \$500,000 of the appropriation from the environmental legacy

26 NEW SECTION. **Sec. 7003.** (1) Allotments for appropriations in  
27 this act shall be provided in accordance with the capital project  
28 review requirements adopted by the office of financial management and  
29 in compliance with RCW 43.88.110. Projects that will be employing  
30 alternative public works construction procedures under chapter 39.10  
31 RCW are subject to the allotment procedures defined in this section  
32 and RCW 43.88.110.

33 (2) Each project is defined as proposed in the legislative budget  
34 notes or in the governor's budget document.

35 NEW SECTION. **Sec. 7004.** (1) The office of financial management  
36 may authorize a transfer of appropriation authority provided for a  
37 capital project that is in excess of the amount required for the  
38 completion of such project to another capital project for which the

1 appropriation is insufficient. No such transfer may be used to expand  
2 the capacity of any facility beyond that intended in making the  
3 appropriation. Such transfers may be effected only between capital  
4 appropriations to a specific department, commission, agency, or  
5 institution of higher education and only between capital projects  
6 that are funded from the same fund or account. No transfers may occur  
7 between projects to local government agencies except where the grants  
8 are provided within a single omnibus appropriation and where such  
9 transfers are specifically authorized by the implementing statutes  
10 that govern the grants.

11 (2) The office of financial management may find that an amount is  
12 in excess of the amount required for the completion of a project only  
13 if: (a) The project as defined in the notes to the budget document is  
14 substantially complete and there are funds remaining; or (b) bids  
15 have been let on a project and it appears to a substantial certainty  
16 that the project as defined in the notes to the budget document can  
17 be completed within the biennium for less than the amount  
18 appropriated in this act.

19 (3) For the purposes of this section, the intent is that each  
20 project be defined as proposed to the legislature in the governor's  
21 budget document, unless it clearly appears from the legislative  
22 history that the legislature intended to define the scope of a  
23 project in a different way.

24 (4) A report of any transfer effected under this section, except  
25 emergency projects or any transfer under \$250,000, shall be filed  
26 with the legislative fiscal committees of the senate and house of  
27 representatives by the office of financial management at least thirty

29 financial management shall report all emergency or smaller transfers  
30 within thirty days from the date of transfer.

31 NEW SECTION. **Sec. 7005.** (1) It is expected that projects be  
32 ready to proceed in a timely manner depending on the type or phase of  
33 the project or program that is the subject of the appropriation in  
34 this act. Except for major projects that customarily may take more  
35 than two biennia to complete from predesign to the end of  
36 construction, or large infrastructure grant or loan programs  
37 supporting projects that often take more than two biennia to  
38 complete, the legislature generally does not intend to reappropriate

1 funds more than once, particularly for smaller grant programs, local/  
2 community projects, and minor works.

3 (2) Agencies shall expedite the expenditure of reappropriations  
4 and appropriations in this act in order to: (a) Rehabilitate  
5 infrastructure resources; (b) accelerate environmental rehabilitation  
6 and restoration projects for the improvement of the state's natural  
7 environment; (c) reduce additional costs associated with acquisition  
8 and construction inflationary pressures; and (d) provide additional  
9 employment opportunities associated with capital expenditures.

10 (3) To the extent feasible, agencies are directed to accelerate  
11 expenditure rates at their current level of permanent employees and  
12 shall use contracted design and construction services wherever  
13 necessary to meet the goals of this section.

14 (4) The office of financial management, in fulfilling its duties  
15 under RCW 43.88.030(5)(h) to estimate total costs, shall require  
16 higher education agencies to submit supplemental information where  
17 the square footage costs of any project exceed the square footage  
18 cost range, adjusted for inflation, as established in the section 3,  
19 chapter 205, Laws of 2008 cost study. The supplemental information  
20 shall include reasons for exceeding the cost range, alternatives to  
21 reduce the project cost to be within the acceptable square footage  
22 range, or other revenue sources in lieu of state bonds to finance  
23 those costs in excess of the cost study range. All two and four year  
24 colleges and universities shall provide this data as part of their  
25 budget request.

26 NEW SECTION. **Sec. 7006.** State agencies, including institutions  
27 of higher education, shall allot and report full-time equivalent  
28 staff for capital projects in a manner comparable to staff reporting  
29 for operating expenditures.

30 NEW SECTION. **Sec. 7007.** Executive Order No. 05-05,  
31 archaeological and cultural resources, was issued effective November  
32 10, 2005. Agencies and higher education institutions shall comply  
33 with the requirements set forth in this executive order.

34 NEW SECTION. **Sec. 7008.** PUGET SOUND PROTECTION AND RESTORATION.  
35 Consistent with RCW 90.71.340, when expending appropriations under  
36 this act that contribute to Puget Sound protection and recovery,  
37 agencies shall consult with the Puget Sound partnership to ensure

1 that projects and expenditures are either in, or consistent with the  
2 2020 action agenda. These consultations shall include the exchange of  
3 information on specific actions, projects, associated funding,  
4 performance measures, and other information necessary to track  
5 project implementation and ensure alignment with the action agenda.  
6 In situations where the Puget Sound partnership finds that a project  
7 is not in, or is not consistent with the action agenda, Puget Sound  
8 partnership shall document this finding and report back to the  
9 governor and legislative fiscal committees.

10 NEW SECTION. **Sec. 7009.** FOR THE ARTS COMMISSION—ART WORK

25 expended solely for direct acquisition of works of art. Art  
26 allocations not expended within the ensuing two biennia will lapse.  
27 The commission may use up to \$100,000 of this amount to conserve or  
28 maintain existing pieces in the state art collection pursuant to RCW  
29 28A.335.210.

30 (5) The executive director of the arts commission shall appoint a  
31 study group to review the operations of the one-half of one percent  
32 for works of art purchased or commissioned as required by RCW  
33 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review

34 out of compliance with provisions of the contract, the grantee shall  
35 repay to the state general fund the principal amount of the grant  
36 plus interest calculated at the rate of interest on state of  
37 Washington general obligation bonds issued most closely to the date

9 may also be appropriated to provide for state match requirements  
10 under federal law for projects and activities conducted and financed  
11 by the board under the drinking water assistance account. Not more  
12 than fifteen percent of the biennial capital budget appropriation to  
13 the public works board from this account may be expended or obligated  
14 for preconstruction loans, emergency loans, or loans for capital  
15 facility planning under this chapter; of this amount, not more than  
16 ten percent of the biennial capital budget appropriation may be  
17 expended for emergency loans and not more than one percent of the  
18 biennial capital budget appropriation may be expended for capital  
19 facility planning loans. During the (~~(2011-2013 and 2013-2015)~~)  
20 2015-2017 fiscal biennium, the legislature may transfer from the  
21 public works assistance account to the general fund, the water  
22 pollution control revolving account, and the drinking water  
23 assistance account such amounts as reflect the excess fund balance of  
24 the account. During the (~~(2011-2013)~~) 2015-2017 fiscal biennium, the  
25 legislature may appropriate moneys from the account (~~(for economic~~  
26 ~~development, innovation, and export grants, including brownfields;~~  
27 ~~main street improvement grants; and the loan program consolidation~~  
28 ~~board)) to fund the 2016 local and community projects administered by~~  
29 the department of commerce. During the 2013-2015 fiscal biennium, the  
30 legislature may transfer from the public works assistance account to  
31 the education legacy trust account such amounts as specified by the  
32 legislature.

33       **Sec. 7026.** RCW 70.105D.070 and 2013 2nd sp.s. c 19 s 7033 and

6 under RCW 70.105D.040(4) and when the director has found that the  
7 funding will achieve both: (i) A substantially more expeditious or  
8 enhanced cleanup than would otherwise occur; and (ii) the prevention

29 settlement agreement under RCW 70.105D.040(5); and
- 30 (iii) The director has found the funding meets any additional  
31 criteria established in rule by the department, will achieve a  
32 substantially more expeditious or enhanced cleanup than would  
33 otherwise occur, and will provide a public benefit in addition to  
34 cleanup commensurate with the scope of the public funding;
- 35 (r) Petroleum-based plastic or expanded polystyrene foam debris  
36 cleanup activities in fresh or marine waters;
- 37 (s) Appropriations to the local toxics control account or the  
38 environmental legacy stewardship account created in RCW 70.105D.170,  
39 if the legislature determines that priorities for spending exceed  
40 available funds in those accounts;

1 (t) During the 2013-2015 fiscal biennium, the department of  
2 ecology's water quality, shorelands, environmental assessment,  
3 administration, and air quality programs;

4 (u) During the 2013-2015 fiscal biennium, actions at the state  
5 conservation commission to improve water quality for shellfish;  
6 (~~and~~)

7 (v) During the 2013-2015 fiscal biennium, actions at the  
8 University of Washington for reducing ocean acidification;

9 (w) For the 2013-2015 fiscal biennium, moneys in the state toxics  
10 control account may be spent on projects in section 3159, chapter 19,  
11 Laws of 2013 2nd sp. sess. and for transfer to the local toxics  
12 control account; (~~and~~)

13 (x) For the 2013-2015 fiscal biennium, moneys in the state toxics  
14 control account may be transferred to the radioactive mixed waste  
15 account; and

16 (y) For the 2015-2017 fiscal biennium, moneys in the state toxics  
17 control account may be used for the University of Washington Tacoma  
18 soil remediation.

19 (4)(a) The department shall use moneys deposited in the local  
20 toxics control account for grants or loans to local governments for  
21 the following purposes in descending order of priority:

22 (i) Extended grant agreements entered into under (~~(e)-(e)~~) (e)  
23 (i) of this subsection;

24 (ii) Remedial actions, including planning for adaptive reuse of  
25 properties as provided for under (~~(e)-(e)~~) (e)(iv) of this  
26 subsection. The department must prioritize funding of remedial  
27 actions at:

28 (A) Facilities on the department's hazardous sites list with a  
29 high hazard ranking for which there is an approved remedial action  
30 work plan or an equivalent document under federal cleanup law;

31 (B) Brownfield properties within a redevelopment opportunity zone  
32 if the local government is a prospective purchaser of the property  
33 and there is a department-approved remedial action work plan or  
34 equivalent document under the federal cleanup law;

35 (iii) Storm water pollution source projects that: (A) Work in  
36 conjunction with a remedial action; (B) protect completed remedial  
37 actions against recontamination; or (C) prevent hazardous clean-up  
38 sites;

39 (iv) Hazardous waste plans and programs under chapter 70.105 RCW;

1 (v) Solid waste plans and programs under chapters 70.95, 70.95C,  
2 70.95I, and 70.105 RCW;

3 (vi) Petroleum-based plastic or expanded polystyrene foam debris  
4 cleanup activities in fresh or marine waters; and

5 (vii) Appropriations to the state toxics control account or the  
6 environmental legacy stewardship account created in RCW 70.105D.170,  
7 if the legislature determines that priorities for spending exceed  
8 available funds in those accounts.

9 (b) Funds for plans and programs must be allocated consistent  
10 with the priorities and matching requirements established in chapters  
11 70.105, 70.95C, 70.95I, and 70.95 RCW.

12 (c) During the 2013-2015 fiscal biennium, the local toxics  
13 control account may also be used for local government storm water  
14 planning and implementation activities.

15 (d) During the 2013-2015 fiscal biennium, the legislature may  
16 transfer from the local toxics control account to the state general  
17 fund, such amounts as reflect the excess fund balance in the account.

18 (e) To expedite cleanups throughout the state, the department may  
19 use the following strategies when providing grants to local  
20 governments under this subsection:

21 (i) Enter into an extended grant agreement with a local  
22 government conducting remedial actions at a facility where those  
23 actions extend over multiple biennia and the total eligible cost of  
24 those actions exceeds twenty million dollars. The agreement is  
25 subject to the following limitations:

26 (A) The initial duration of such an agreement may not exceed ten  
27 years. The department may extend the duration of such an agreement  
28 upon finding substantial progress has been made on remedial actions  
29 at the facility;

30 (B) Extended grant agreements may not exceed fifty percent of the  
31 total eligible remedial action costs at the facility; and

32 (C) The department may not allocate future funding to an extended  
33 grant agreement unless the local government has demonstrated to the  
34 department that funds awarded under the agreement during the previous  
35 biennium have been substantially expended or contracts have been  
36 entered into to substantially expend the funds;

37 (ii) Enter into a grant agreement with a local government  
38 conducting a remedial action that provides for periodic reimbursement  
39 of remedial action costs as they are incurred as established in the  
40 agreement;

1 (iii) Enter into a grant agreement with a local government prior  
2 to it acquiring a property or obtaining necessary access to conduct  
3 remedial actions, provided the agreement is conditioned upon the  
4 local government acquiring the property or obtaining the access in  
5 accordance with a schedule specified in the agreement;

6 (iv) Provide integrated planning grants to local governments to  
7 fund studies necessary to facilitate remedial actions at brownfield  
8 properties and adaptive reuse of properties following remediation.  
9 Eligible activities include, but are not limited to: Environmental  
10 site assessments; remedial investigations; health assessments;  
11 feasibility studies; site planning; community involvement; land use  
12 and regulatory analyses; building and infrastructure assessments;  
13 economic and fiscal analyses; and any environmental analyses under  
14 chapter 43.21C RCW;

15 (v) Provide grants to local governments for remedial actions  
16 related to area-wide groundwater contamination. To receive the  
17 funding, the local government does not need to be a potentially  
18 liable person or be required to seek reimbursement of grant funds  
19 from a potentially liable person;

20 (vi) The director may alter grant matching requirements to create  
21 incentives for local governments to expedite cleanups when one of the  
22 following conditions exists:

23 (A) Funding would prevent or mitigate unfair economic hardship  
24 imposed by the clean-up liability;

25 (B) Funding would create new substantial economic development,  
26 public recreational opportunities, or habitat restoration  
27 opportunities that would not otherwise occur; or

28 (C) Funding would create an opportunity for acquisition and  
29 redevelopment of brownfield property under RCW 70.105D.040(5) that  
30 would not otherwise occur;

31 (vii) When pending grant applications under ~~((e)-(e))~~ (e)(iv)  
32 and (v) of this subsection (4) exceed the amount of funds available,  
33 designated redevelopment opportunity zones must receive priority for  
34 distribution of available funds.

35 ~~((d)-(f))~~ (f) To expedite multiparty clean-up efforts, the  
36 department may purchase remedial action cost-cap insurance. For the  
37 2013-2015 fiscal biennium, moneys in the local toxics control account  
38 may be spent on projects in sections 3024, 3035, 3036, and 3059,  
39 chapter 19, Laws of 2013 2nd sp. sess.

1 (5) Except for unanticipated receipts under RCW 43.79.260 through  
2 43.79.282, moneys in the state and local toxics control accounts may  
3 be spent only after appropriation by statute.

4 (6) No moneys deposited into either the state or local toxics  
5 control account may be used for: Natural disasters where there is no  
6 hazardous substance contamination; high performance buildings; solid  
7 waste incinerator facility feasibility studies, construction,  
8 maintenance, or operation; or after January 1, 2010, for projects  
9 designed to address the restoration of Puget Sound, funded in a  
10 competitive grant process, that are in conflict with the action  
11 agenda developed by the Puget Sound partnership under RCW 90.71.310.  
12 However, this subsection does not prevent an appropriation from the  
13 state toxics control account to the department of revenue to enforce  
14 compliance with the hazardous substance tax imposed in chapter 82.21  
15 RCW.

16 (7) Except during the 2011-2013 fiscal biennium, one percent of  
17 the moneys collected under RCW 82.21.030 shall be allocated only for  
18 public participation grants to persons who may be adversely affected  
19 by a release or threatened release of a hazardous substance and to  
20 not-for-profit public interest organizations. The primary purpose of  
21 these grants is to facilitate the participation by persons and  
22 organizations in the investigation and remedying of releases or  
23 threatened releases of hazardous substances and to implement the  
24 state's solid and hazardous waste management priorities. No grant may  
25 exceed sixty thousand dollars. Grants may be renewed annually. Moneys  
26 appropriated for public participation that are not expended at the  
27 close of any biennium revert to the state toxics control account.

28 (8) The department shall adopt rules for grant or loan issuance  
29 and performance. To accelerate both remedial action and economic  
30 recovery, the department may expedite the adoption of rules necessary  
31 to implement chapter 1, Laws of 2013 2nd sp. sess. using the  
32 expedited procedures in RCW 34.05.353. The department shall initiate  
33 the award of financial assistance by August 1, 2013. To ensure the  
34 adoption of rules will not delay financial assistance, the department  
35 may administer the award of financial assistance through interpretive  
36 guidance pending the adoption of rules through July 1, 2014.

37 (9) Except as provided under subsection (3)(k) and (q) of this  
38 section, nothing in chapter 1, Laws of 2013 2nd sp. sess. (~~effects~~  
39 ~~{affects}~~) affects the ability of a potentially liable person to  
40 receive public funding.

1 (10) During the ((2013-2015)) 2015-2017 fiscal biennium the local  
2 toxics control account may also be used for the centennial clean  
3 water program ((and for storm water grants)) administered by the  
4 department of ecology.

5 NEW SECTION. **Sec. 7027.** (1) Funds appropriated in this act for  
6 minor works may not be allotted until final project lists are  
7 submitted to the office of financial management. Revisions to the  
8 project lists are allowed for projects not anticipated at the time of  
9 budget development but must be submitted to the office of financial  
10 management, the house of representatives capital budget committee,  
11 and the senate ways and means committee for review and comment and  
12 must include an explanation of variances from the prior lists before  
13 funds may be expended on the revisions. Any project list revisions  
14 must be approved by the office of financial management before funds  
15 may be expended from the minor works appropriation.

16 (2)(a) Minor works project lists are single line appropriations  
17 that include multiple projects of a similar nature and that are  
18 valued between \$25,000 and \$1,000,000 each, with the exception of  
19 higher education minor works projects that may be valued up to  
20 \$2,000,000. All projects must meet the criteria included in this  
21 subsection (2)(a). These projects should be completed within two  
22 years of the appropriation with the funding provided. Agencies are  
23 prohibited from including projects on their minor works lists that  
24 are a phase of a larger project, and that if combined over a  
25 continuous period of time, would exceed \$1,000,000, or \$2,000,000 for  
26 higher education minor works projects. Improvements for accessibility  
27 in compliance with the Americans with disabilities act may be  
28 included in any of the minor works categories.

29 (b) Minor works appropriations may not be used for the following:  
30 Studies, except for technical or engineering reviews or designs that  
31 lead directly to and support a project on the same minor works list;  
32 planning; design outside the scope of work on a minor works list;  
33 moveable, temporary, and traditionally funded operating equipment not  
34 in compliance with the equipment criteria established by the office  
35 of financial management; software not dedicated to control of a  
36 specialized system; moving expenses; land or facility acquisition;  
37 rolling stock; computers; or to supplement funding for projects with  
38 funding shortfalls unless expressly authorized. The office of  
39 financial management may make an exception to the limitations

1 described in this subsection (2)(b) for exigent circumstances after  
2 notifying the legislative fiscal committees and waiting ten days for  
3 comments by the legislature regarding the proposed exception.

4 (c) Minor works preservation projects may include program  
5 improvements of no more than twenty-five percent of the individual  
6 minor works preservation project cost.

7 NEW SECTION. **Sec. 7028. FOR THE STATE TREASURER—TRANSFERS**

20 The state treasure is authorized to modify these transfer amounts  
21 throughout the 2015-2017 fiscal biennium in order to maintain  
22 positive account balances in the three accounts. The state treasure,  
23 in consultation with the department of ecology and the office of  
24 financial management is further authorized to transfer amounts from  
25 the cleanup settlement account established in RCW 70.105D.130 to the  
26 state toxics control account, the local toxics control account or the  
27 environmental legacy trust account to maintain positive account  
28 balances. Any transfers from the cleanup settlement account must be  
29 considered an inter fund loan and must be repaid to the cleanup  
30 settlement account.

31 NEW SECTION. **Sec. 7029. RESEARCH ON TRANSFER OF FEDERAL LANDS**  
32 **TO WASHINGTON STATE.** Staff from the appropriate legislative  
33 committees shall use existing studies and available literature to  
34 research the potential costs, revenues, and policy impacts of  
35 transferring federal lands to state ownership. The research must  
36 include:

1 (1) Costs to the state of: (a) Land management related to  
2 wildfires, forest health, invasive species management, and public  
3 access; (b) addressing deferred forest health issues and ongoing  
4 maintenance; (c) payments in lieu of taxes; (d) state program  
5 development; and (e) other potential costs.

11 mining law of 1872, and other federal-state impacts.

12 (4) The research may not include consideration of revenues or  
13 costs of transferring public lands into private ownership status.

14 (5) A report on this research must be provided to appropriate  
15 legislative committees by December 1, 2015.

16 NEW SECTION. **Sec. 7030.** (1) The legislature recognizes that  
17 school districts are responsible for siting, building, and  
18 maintaining school facilities that provide a learning environment  
19 supportive of student achievement, and that schools are integral to  
20 the communities they serve. The legislature intends to create the  
21 legislative task force on school siting, as provided in subsection  
22 (2) of this section, to review school facility challenges created by  
23 enrollment increases and recent education reforms, including  
24 expansion of full-day kindergarten and smaller class sizes.

25 (2) A legislative task force on school siting is established,  
26 with members as provided in this subsection. All member appointments  
27 or selections must be made by July 1, 2015.

28 (a) The president of the senate shall appoint two members from  
29 each of the two largest caucuses of the senate.

30 (b) The speaker of the house of representatives shall appoint two  
31 members from each of the two largest caucuses of the house of  
32 representatives.

38 (ii) A representative of the Washington state association of  
39 counties;

1 (iii) Two representatives of school districts, who represent  
2 school districts that serve students in urban areas and currently are  
3 experiencing difficulty finding suitable siting locations, selected  
4 by the Washington association of school administrators;

5 (iv) Two representatives of school districts, who represent  
6 school districts that serve students in rural areas and currently are  
7 experiencing difficulty finding suitable siting locations, selected  
8 by the Washington association of school administrators; and

9 (v) A representative of the Washington state association of  
10 county and regional planning directors.

11 (3) The task force shall choose its chair from among its  
12 legislative membership. The chair shall convene at least three  
13 meetings of the task force.

14 (4) The task force shall review the issue of siting schools  
15 inside and outside of urban growth areas. In reviewing this issue,  
16 the task force must balance the planning goals and requirements set  
17 forth in chapter 36.70A RCW with the needs of school districts facing  
18 capacity issues and the infrastructure needs of local governments.

19 (5) Staff from the office of superintendent of public instruction  
20 and from affected school districts, counties, and cities must support  
21 the task force by providing local information as needed. Support

25 committee services and the house of representatives office of program  
26 research.

27 (7) Legislative members of the task force must be reimbursed for  
28 travel expenses in accordance with RCW 44.04.120. Nonlegislative  
29 members, except those representing an employer or organization, are  
30 entitled to be reimbursed for travel expenses in accordance with RCW  
31 43.03.050 and 43.03.060.

32 (8) The expenses of the task force must be paid jointly by the  
33 senate and the house of representatives. Task force expenditures are  
34 subject to approval by the senate facilities and operations committee  
35 and the house of representatives executive rules committee, or their  
36 successor committees.

37 (9) The task force shall provide a summary of the task force's  
38 discussions and any recommendations to the appropriate committees of  
39 the legislature by December 1, 2015.

40 (10) This section expires January 1, 2016.

1        NEW SECTION.    **Sec. 7031.** A legislative task force is established  
2 to work with the department of enterprise services and the state  
3 building code council, within existing funding, to study all aspects  
4 of the council's administration and operations for managing and
