

PROPOSED SENATE BUDGET 2015

**PROPOSED SUBSTITUTE
TO SB 6051 - CONTINUITY OF STATE
GOVERNMENT
SUMMARY AND DETAIL**

SENATE CHAIR

**SENATE WAYS & MEANS COMMITTEE
JUNE 25, 2015**

Proposed Substitute Senate Bill 6051 (Continuity of Government) has three components: (1) a one month budget for 2015-17 biennium to continue operations of state government; (2) a 2015 supplemental budget making adjustments to fiscal year 2015 appropriations; and (3) a capital budget that makes reappropriations for the 2015-17 biennium to continue already authorized capital projects.

Continued Operations (July 2015) Budget

Pending the enactment of the 2015-2017 omnibus operating appropriations act, \$1.5 billion in Near General Fund-State and Opportunity Pathways Account (NGF-P) is provided to continue the operation of state government at current levels during the month of July. Agencies are directed to not expend these moneys to initiate any new programs, policies, or expenditure levels that have not been expressly authorized by the Legislature. See appendix 1 for more detail.

In addition to the amounts provided to continue state operations at current levels, additional funding is provided to ensure that necessary disaster recovery, emergency response, and other critical activities can be fully maintained. These include:

- \$1.1 billion for the payments on debt incurred in prior biennial budgets based on debt service obligations for all of fiscal year 2016.
- \$51 million in additional funding K-12 distributions and activities occurring in July.
- \$30 million for a contingency fund to address unforeseen needs during July 2015.
- \$19 million for entire fiscal year 2016 projection of emergency fire suppression activities.
- \$14 million for 2015 drought response.
- \$3 million for anticipated costs associated with civil and forensic mental health system changes.
- Other fund appropriations for the entire fiscal year 2016 estimated costs of disaster response and fire mobilizations.

2015 Supplemental Operating Budget

A net reduction of \$59.4 million NGF-P are taken for the 2015 supplemental operating budget which includes maintenance level savings of \$63.2 million and policy level increases of \$3.8 million. The adjustments are largely comprised of changes based on updated caseload and cost driver information and reflecting actions agencies have already taken or costs incurred. See appendix 2 for more detail.

Continued Operations of Capital Program Administration & Capital Budget Reappropriations

Pending the enactment of the 2015-2017 omnibus capital budget appropriations act, \$865,000 is provided for continued operation of capital project administration functions in the Office of Financial Management and the Office of the Superintendent of Public Instruction. See appendix 3 for more detail.

Reappropriations of \$2.9 billion for the 2015-17 biennium are included to ensure that projects authorized in prior biennium appropriations are able to continue without disruptions to construction schedules. This includes:

- \$875 million for general government projects
- \$96 million for human services projects
- \$1.3 billion for natural resource projects
- \$375 million for public school projects, and
- \$251 million for higher education projects
