# SENATE PROPOSED 2017-19 CAPITAL BUDGET

## Debt Limit, Bond Capacity and Total Appropriations

### **Debt Limit**

Washington State has a constitutional debt limit. The State Treasurer may not issue any bonds that would cause the debt service (principle and interest payments) on any new and existing bonds to exceed this limit. Under a constitutional amendment approved by the voters in 2012, the state debt limit is currently 8.25% of the average of the prior six years' general state revenues, defined as all unrestricted state tax revenues. This limit is reduced to 8.0% on July 1, 2034.

### **Bond Capacity**

A model administered by the State Treasurer's Office is used to calculate the available bond capacity for the current budgeting period and for future borrowing. The model calculates the actual debt service on outstanding bonds and estimates future debt service based on certain assumptions including revenue growth, interest rates, rate of repayment, rate of bond issuance and other factors. For the 2017-19 biennium, projected bond capacity is \$2.56 billion. The bond capacity was \$2.31 billion in the 2017-19 biennium.

### **Appropriations for 2017-19 and 2017 Supplemental Budget**

Proposed Substitute Senate Bill (PSSB) 5086 appropriates \$2.531 billion in bonds for the 2017-19 fiscal biennium and the 2017 Supplemental budget; this amount requires the passage of a new bond authorization bill (PSSB 5090).

\$41 million in bond capacity is reserved for a 2018 supplemental capital budget.

## Government Operations
