Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and
clinical input constitute reliable data upon which to determine the
payment rates.

for social services appointments as the one established for medical
appointments in the health care authority. When contracting directly
with an individual to deliver spoken language interpreter services,

the department may use a language access provider who meets other
certifications or standards deemed to meet state standards, including
interpreters in other states.

processes and systems, eligibility, case management, and
authorization systems within the department of social and health
services are subject to technical oversight by the office of the
chief information officer.

(6)(a) The department shall facilitate enrollment under the
medicaid expansion for clients applying for or receiving state funded
services from the department and its contractors. Prior to open

The appropriations in this section are subject to the following
conditions and limitations:
   (1) The authority shall not accept or expend any federal funds
received under a medicaid transformation waiver under healthier
Washington except as described in subsections (2) and (3) of this
section until specifically approved and appropriated by the
legislature. To ensure compliance with legislative directive budget
requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (b) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement.

(2) No more than $305,659,000 of the general fund—federal appropriation and no more than $157,284,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the
appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services.

(3) No more than $79,829,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority and the department in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative.

(4) Annually, no later than November 1st, the authority shall report to the governor and appropriate committees of the legislature: (a) Savings attributed to behavioral and physical integration in areas that are scheduled to integrate in the following calendar year, and (b) savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(5) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(6) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist
enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(8) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(9) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) $4,261,000 of the general fund—state appropriation for fiscal year 2020, $4,261,000 of the general fund—state appropriation for fiscal year 2021, and $8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(12) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(13) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be
responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(14) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2019-2021 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2020, and by November 1, 2021, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2020 and fiscal year 2021, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that
approximates the cost of claims submitted by the hospitals. Payments
made to each hospital in the program in each fiscal year of the
biennium shall be compared to a baseline amount. The baseline amount
will be determined by the total of (a) the inpatient claim payment
amounts that would have been paid during the fiscal year had the
hospital not been in the CPE program based on the reimbursement rates
developed, implemented, and consistent with policies approved in the
2017-2019 biennial operating appropriations act and in effect on July
1, 2015, (b) one-half of the indigent assistance disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005, and (c) all of the other disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005 to the extent the same disproportionate share
hospital programs exist in the 2019-2021 fiscal biennium. If payments
during the fiscal year exceed the hospital's baseline amount, no
additional payments will be made to the hospital except the federal
portion of allowable disproportionate share hospital payments for
which the hospital can certify allowable match. If payments during
the fiscal year are less than the baseline amount, the hospital will
be paid a state grant equal to the difference between payments during
the fiscal year and the applicable baseline amount. Payment of the
state grant shall be made in the applicable fiscal year and
distributed in monthly payments. The grants will be recalculated and
redistributed as the baseline is updated during the fiscal year. The
grant payments are subject to an interim settlement within eleven
months after the end of the fiscal year. A final settlement shall be
performed. To the extent that either settlement determines that a
hospital has received funds in excess of what it would have received
as described in this subsection, the hospital must repay the excess
amounts to the state when requested. $1,670,000 of the general fund—
state appropriation for fiscal year 2020 and $45,523,000 of the
general fund—state appropriation for fiscal year 2021 are provided
solely for state grants for the participating hospitals.

partnerships and federal funds that are or may become available to
provide on-going support for outreach and education efforts under the
federal children's health insurance program reauthorization act of
2009.

(16) The health care authority shall target funding for maternity
support services towards pregnant women with factors that lead to
higher rates of poor birth outcomes, including hypertension, a
preterm or low birth weight birth in the most recent previous birth,
a cognitive deficit or developmental disability, substance abuse,
severe mental illness, unhealthy weight or failure to gain weight,
tobacco use, or African American or Native American race. The health
care authority shall prioritize evidence-based practices for delivery
of maternity support services. To the extent practicable, the health
care authority shall develop a mechanism to increase federal funding
for maternity support services by leveraging local public funding for
those services.

(17) The authority shall submit reports to the governor and the
legislature by September 15, 2020, and no later than September 15,
2021, that delineate the number of individuals in medicaid managed
care, by carrier, age, gender, and eligibility category, receiving
preventative services and vaccinations. The reports should include
baseline and benchmark information from the previous two fiscal years
and should be inclusive of, but not limited to, services recommended
under the United States preventative services task force, advisory
committee on immunization practices, early and periodic screening,
diagnostic, and treatment (EPSDT) guidelines, and other relevant
preventative and vaccination medicaid guidelines and requirements.

(18) Managed care contracts must incorporate accountability
measures that monitor patient health and improved health outcomes,
and shall include an expectation that each patient receive a wellness
examination that documents the baseline health status and allows for
monitoring of health improvements and outcome measures.

(19) Sufficient amounts are appropriated in this section for the
authority to provide an adult dental benefit.

(20) The health care authority shall coordinate with the
department of social and health services to provide referrals to the
Washington health benefit exchange for clients that will be
ineligible for medicaid.

(21) To facilitate a single point of entry across public and
medical assistance programs, and to maximize the use of federal
funding, the health care authority, the department of social and
health services, and the health benefit exchange will coordinate
efforts to expand HealthPlanfinder access to public assistance and
medical eligibility staff. The health care authority shall complete
medicaid applications in the HealthPlanfinder for households
receiving or applying for medical assistance benefits.

(28) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. (29) Sufficient funds are provided for the authority to remove payment and billing limitations identified during the review process required for implementation of chapter 226, Laws of 2017 (behavioral health care – primary care integration) for health and behavior codes, psychotherapy codes, and to continue to offer face-to-face tobacco cessation counseling only for pregnant individuals. Additional funding is provided to increase the rates for the health and behavior codes and psychotherapy codes identified through the stakeholder work group process required under chapter 226, Laws of 2017 (SSB 5779) by ten percent.

(30) By October 15, 2019, the authority shall report to the governor and relevant committees of the legislature the status of rural health clinic reconciliations for calendar years 2011-2013, including any use of available unliquidated prior period accrual balances to refund the federal government for those calendar years. Additionally, the report shall include the status of rural health clinic reconciliations for calendar years 2014-2017, including anticipated amounts owed to or from rural health clinics from the reconciliation process for those fiscal years. The authority shall not recover the state portion of rural health reconciliations for calendar years 2011-2013 for which no general fund state accrual was made. The authority shall not pursue recoveries for calendar years 2014-2017 until after the legislature has an opportunity to take action during the 2020 legislative session. If the legislature does not take any action on rural health clinic reconciliations for calendar years 2014-2017, recoveries shall commence per administrative rule.

(31) $269,000 of the general fund—state appropriation for fiscal year 2020, $262,000 of the general fund—state appropriation for fiscal year 2021, and $797,000 of the general fund—federal appropriation are provided solely for the implementation of an agreement reached between the governor and the Washington federation of state employees for the language access providers under the provisions of chapter 41.56 RCW for the 2019-2021 fiscal biennium.

The work group must consider the following when developing the new payment methodology:

TOTAL APPROPRIATION.................................. $3,182,949,000

The appropriations in this subsection are subject to the
following conditions and limitations:

(1) For the purposes of this subsection, "behavioral health
entities" means managed care organizations and administrative
services organizations in regions where the authority is purchasing
medical and behavioral health services through fully integrated
contracts pursuant to RCW 71.24.380, and behavioral health
organizations in regions that have not yet transitioned to fully
integrated managed care.

(2) Within the amounts appropriated in this section, funding is
provided for implementation of the settlement agreement under
Trueblood, et al. v. Department of Social and Health Services, et
al., United States District Court for the Western District of
p. 103 ESHB 1109
Washington, Cause No. 14-cv-01178-MJP. In addition to amounts provided solely for implementation of the settlement agreement, class members must have access to supports and services funded throughout this section for which they meet eligibility and medical necessity requirements. The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) $15,287,000 of the general fund—state appropriation for fiscal year 2020, $15,494,000 of the general fund—state appropriation for fiscal year 2021, and $4,789,000 of the general fund—federal appropriation are provided solely for the phase-in of the settlement agreement under Trueblood, et al. v. Department of Social and Health Services, et al., United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. The department, in collaboration with the health care authority and the criminal justice training commission, must implement the provisions of the settlement agreement pursuant to the timeline and implementation plan provided for under the settlement agreement. This includes implementing provisions related to competency evaluations, competency restoration, crisis diversion and supports, education and training, and workforce development.

(4) $9,919,000 of the general fund—state appropriation for fiscal year 2020, $13,701,000 of the general fund—state appropriation for fiscal year 2021, and $18,061,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (8) of this section. The authority and
behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) From the general fund—state appropriations in this subsection, the authority shall assure that behavioral health entities reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health entity consumers use because of their psychiatric disability.

(6) $3,520,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

(7) $81,930,000 of the general fund—state appropriation for fiscal year 2020 and $81,930,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities proportionate to the fiscal year 2019 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(8) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(9) $1,204,000 of the general fund—state appropriation for fiscal year 2020 and $1,204,000 of the general fund—state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane
counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (8) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) $2,291,000 of the general fund—state appropriation for fiscal year 2020 and $2,291,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in T.R. v. Dreyfus and Porter.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization and administrative services organization contracts and include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization and administrative services organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health organization or administrative services organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels.
established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization or administrative services organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(14) During the 2019-2021 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

(15) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, post-partum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed ten percent of the total contract amount.

(16) $3,500,000 of the general fund—federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will
ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). The authority must provide a report to the office of financial management and the appropriate committees of the legislature which identifies the distribution of criminal justice treatment account funds by September 30, 2019.

(19) No more than $27,844,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The department shall not increase general fund—state expenditures under this initiative.

(20) $6,858,000 of the general fund—state appropriation for fiscal year 2020, $6,858,000 of the general fund—state appropriation for fiscal year 2021, and $8,046,000 of the general fund—federal appropriation are provided solely to maintain new crisis triage or stabilization centers. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance.
The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(21) $1,125,000 of the general fund—federal appropriation is provided solely for the authority to develop a memorandum of understanding with the department of health for implementation of chapter 297, Laws of 2017 (opioid treatment programs). The authority must use these amounts to reimburse the department of health for costs incurred through the implementation of the bill.

(22) $6,655,000 of the general fund—state appropriation for fiscal year 2020, $10,015,000 of the general fund—state appropriation for fiscal year 2021, and $12,965,000 of the general fund—federal appropriation are provided solely for the operation of secure withdrawal management and stabilization facilities. The authority may not use any of these amounts for services in facilities that are subject to federal funding restrictions that apply to institutions for mental diseases, unless they have received a waiver that allows for full federal participation in these facilities. Within these amounts, funding is provided to increase the fee for service rate for these facilities up to $650 per day. The authority must require in contracts with behavioral health entities that, beginning in calendar year 2020, they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify and implement purchasing strategies or regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

(23) $23,090,000 of the general fund—state appropriation for fiscal year 2020, $23,090,000 of the general fund—state appropriation for fiscal year 2021, and $92,444,000 of the general fund—federal appropriation are provided solely to maintain the enhancement of community based behavioral health services that was funded in fiscal year 2019. The authority must track progress on regional plans submitted to address the following issues: (a) Reduction in their use of long-term commitment beds through community alternatives; (b) compliance with RCW 71.05.365 requirements for transition of state hospital patients into community settings within fourteen days of the determination that they no longer require active psychiatric treatment at an inpatient level of care; (c) improvement of staff recruitment and retention in community behavioral health facilities;
(d) diversion of individuals with behavioral health issues from the criminal justice system; and (e) efforts to improve recovery oriented services, including, but not limited to, expansion of clubhouse models. The authority must collect information on the metrics and outcomes of the plans submitted by behavioral health entities and submit a report summarizing the findings to the office of financial management and the appropriate committees of the legislature by June 30, 2020, and an update by December 1, 2020.

(24) $26,905,000 of the general fund—state appropriation for fiscal year 2020, $32,587,000 of the general fund—state appropriation for fiscal year 2021, and $41,818,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide long-term inpatient care beds as defined in RCW 71.24.025. Within these amounts, the authority must meet the requirements for reimbursing counties for the judicial services for patients being served in these settings in accordance with RCW 71.05.730. The authority must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. Sufficient amounts are provided in fiscal year 2020 for the authority to reimburse community hospitals serving medicaid clients in long-term inpatient care beds as defined in RCW 71.24.025 at a rate of $1,171 per day, or the hospital's current psychiatric inpatient per diem rate, whichever is higher. The rate paid to hospitals in this subsection cannot exceed one-hundred percent of the hospitals eligible costs based on their most recently completed medicare cost report. The authority in collaboration with the Washington state hospital association must convene a work group to develop a methodology for reimbursing community hospitals serving these clients. In developing this methodology, the authority must account for cost structure differences between teaching hospitals and other hospital types. The authority must provide a report to the appropriate committees of the legislature by December 1, 2019. The report must:

(a) Describe the methodology developed by the work group;
(b) Identify cost differences between teaching hospitals and other hospital types;
(c) Provide options for incentivizing community hospitals to offer long-term inpatient care beds day beds including a rate recommendation;

(d) Identify the cost associated with any recommended changes in rates or rate setting methodology; and

(e) Outline an implementation plan.

(25) $584,000 of the general fund—state appropriation for fiscal year 2020, $1,531,000 of the general fund—state appropriation for fiscal year 2021, and $1,839,000 of the general fund—federal appropriation are provided solely to implement new intensive behavioral health facilities and a pilot mental health drop-in center pursuant to Second Substitute House Bill No. 1394 (behavioral health facilities).

(i) A memorandum of understanding with the department of children, youth, and families to provide substance abuse treatment programs;

(ii) A contract with the Washington state institute for public policy to conduct a cost-benefit evaluation of the implementations of chapter 3, Laws of 2013 (Initiative Measure No. 502);

(iii) Designing and administering the Washington state healthy youth survey and the Washington state young adult behavioral health survey;

(29) $24,819,000 of the general fund—state appropriation for fiscal year 2020 is provided solely to assist behavioral health entities with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The authority must distribute these amounts proportionate to the number of bed days for medicaid clients

The authority must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee-for-service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The authority must submit an application for a waiver to allow, by July 1, 2020, for full federal participation for medicaid clients in mental health facilities classified as institutions of mental diseases. The authority must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2019.

(30) The authority must require all behavioral health organizations transitioning to full integration to either spend down or return all reserves in accordance with contract requirements and federal and state law. Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for startup costs in full integration regions except as provided in this subsection. The authority must ensure that any increases in expenditures in behavioral health reserve spend-down plans are required for the operation of services during the contract period and do not result in overpayment to providers. If the nonfederal share of reserves returned during fiscal year 2020 exceeds $35,000,000, the authority shall use some of the amounts in excess of $35,000,000 to support the final regions transitioning to full integration of physical and behavioral health care. These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is $3,175 per 1,000 residents. These amounts may be used for startup funds and ongoing costs associated with a new eight bed pregnant and parenting women residential treatment program.

(38) $500,000 of the general fund—state appropriation for fiscal year 2020 and $500,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for provision of crisis stabilization services to individuals who are not eligible for medicaid in Whatcom county. The authority must coordinate with crisis stabilization providers, managed care organizations, and behavioral health administrative services organizations throughout the state to identify payment models that reflect the unique needs of crisis stabilization and crisis triage providers. The report must also include an analysis of the estimated gap in nonmedicaid funding for crisis stabilization and triage facilities throughout the state. The authority must provide a report to the office of financial management and the appropriate committees of the legislature on the estimated nonmedicaid funding gap and payment models by December 1, 2019.

(39) The authority must conduct an analysis to determine whether there is a gap in fiscal year 2020 behavioral health entity funding for services in institutions for mental diseases and submit a report to the office of financial management and the appropriate committees of the legislature by November 1, 2019. medicaid capitation rates for institutions for mental diseases bed
days that are currently allowable under medicaid regulation or
waivers; (d) the amounts provided in subsection (29) of this section

  (i) Extended grant agreements entered into under (c)(i) of this subsection;

  (ii) Remedial actions, including planning for adaptive reuse of properties as provided for under (c)(iv) of this subsection. The department must prioritize funding of remedial actions at:

    (A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

    (B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use...
and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;
(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or
(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (((e)) (c)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(((f)) (d) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. ((For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.))

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to
the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) ((Except during the 2011-2013 and the 2015-2017 fiscal biennia,)) One percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remediating of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

(10) ((During the 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for the stormwater financial assistance program administered by the department of ecology.)) During the 2017-2019 and 2019-2021 fiscal ((biennium)) biennia:

(a) The state toxics control account, the local toxics control account, and the environmental legacy stewardship account may be used for interchangeable purposes and funds may be transferred between accounts to accomplish those purposes.

(b) The legislature may direct the state treasurer to make transfers of moneys in the state toxics control account to the water pollution control revolving account.
Sec. 973. RCW 71.24.580 and 2018 c 205 s 2 and 2018 c 201 s 4044 are each reenacted and amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. Amounts provided in this subsection must be used for treatment and recovery support services for criminally involved offenders and authorization of these services shall not be subject to determinations of medical necessity. During the 2017-2019 and 2019-2021 fiscal ((biennium)) biennia, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the state general fund. It is the intent of the legislature to continue in the ((2019-2021)) 2021-2023 biennium the policy of transferring to the state general fund such amounts as reflect the excess fund balance of the account. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, including but not limited to the recovery support and other programmatic elements outlined in RCW 2.30.030 authorizing therapeutic courts; and

(b) "Treatment support" includes transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal
quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in subsection (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as specified in this subsection. The authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel
shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.30.030(3).

Sec. 974. RCW 74.13.621 and 2017 3rd sp.s. c 1 s 982 are each amended to read as follows:

(1) Within existing resources, the department shall establish an oversight committee to monitor, guide, and report on kinship care recommendations and implementation activities. The committee shall:

(a) Draft a kinship care definition that is restricted to persons related by blood, marriage, or adoption, including marriages that have been dissolved, or for a minor defined as an "Indian child" under the federal Indian child welfare act (25 U.S.C. Sec. 1901 et seq.), the definition of "extended family member" under the federal Indian child welfare act, and a set of principles. If the committee concludes that one or more programs or services would be more efficiently and effectively delivered under a different definition of kin, it shall state what definition is needed, and identify the
program or service in the report. It shall also provide evidence of how the program or service will be more efficiently and effectively delivered under the different definition. The department shall not adopt rules or policies changing the definition of kin without authorizing legislation;

(b) Monitor and provide consultation on the implementation of recommendations contained in the 2002 kinship care report, including but not limited to the recommendations relating to legal and respite care services and resources;

(c) Partner with nonprofit organizations and private sector businesses to guide a public education awareness campaign; and

(d) Assist with developing future recommendations on kinship care issues.

(2) The department shall consult with the oversight committee on its efforts to better collaborate and coordinate services to benefit kinship care families.

(3) The oversight committee must consist of a minimum of thirty percent kinship caregivers, who shall represent a diversity of kinship families. Statewide representation with geographic, ethnic, and gender diversity is required. Other members shall include representatives of the department, representatives of relevant state agencies, representatives of the private nonprofit and business sectors, child advocates, representatives of Washington state Indian tribes as defined under the federal Indian welfare act (25 U.S.C. Sec. 1901 et seq.), and representatives of the legal or judicial field. Birth parents, foster parents, and others who have an interest in these issues may also be included.

(4) To the extent funding is available, the department may reimburse nondepartmental members of the oversight committee for costs incurred in participating in the meetings of the oversight committee.

(5) The kinship care oversight committee shall update the legislature and governor annually on committee activities, with the first update due by January 1, 2006.

(6) This section expires June 30, 2020.

Sec. 975. RCW 74.46.561 and 2017 c 286 s 2 are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing

p. 374 ESHB 1109
homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but shall be set so that a nursing home provider's direct care rate does not exceed one hundred eighteen percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using county wide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(4) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. A minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RS means rental
rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RS means construction index value per square foot for Washington state. The department may use updated RS means construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average FRV [fair rental value] rate is not less than ten dollars and eighty cents ppd [per patient day]. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate year beginning July 1, 2016, the
department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average CMS [centers for medicare and medicaid services] quality data. Point thresholds for each quality measure must be established using the
corresponding statistical values for the quality measure (QM) point determinants of eighty QM points, sixty QM points, forty QM points, and twenty QM points, identified in the most recent available five-star quality rating system technical user's guide published by the center for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average CMS [centers for medicare and medicaid services] quality data must be
assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient CMS [centers for medicare and medicaid services] minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most recent available three-quarter average CMS [centers for medicare and medicaid services] quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. In addition, rates paid beginning on July 1, 2019, must be rebased on the 2017 calendar year cost report. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage
increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019.

Sec. 976. RCW 76.04.610 and 2018 c 299 s 912 are each amended to read as follows:

(1)(a) If any owner of forestland within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by
the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of Parcels</th>
</tr>
</thead>
<tbody>
<tr>
<td>2002</td>
<td>10 or more parcels</td>
</tr>
<tr>
<td>2003</td>
<td>8 or more parcels</td>
</tr>
<tr>
<td>2004 and thereafter</td>
<td>6 or more parcels</td>
</tr>
</tbody>
</table>

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forestlands.

(4) For the purpose of this chapter, the department may divide the forestlands of the state, or any part thereof, into districts,
for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forestlands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forestlands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660. During the 2017-2019 and 2019-2021 fiscal biennia, the legislature may appropriate moneys
from the account for department of natural resources wildfire
response and forest health activities.

(6) When land against which forest protection assessments are
outstanding is acquired for delinquent taxes and sold at public
auction, the state shall have a prior lien on the proceeds of sale
over and above the amount necessary to satisfy the county's
delinquent tax judgment. The county treasurer, in case the proceeds
of sale exceed the amount of the delinquent tax judgment, shall
immediately remit to the department the amount of the outstanding
forest protection assessments.

(7) All nonfederal public bodies owning or administering
forestland included in a forest protection zone shall pay the forest
protection assessments provided in this section and the special
forest fire suppression account assessments under RCW 76.04.630. The
forest protection assessments and special forest fire suppression
account assessments shall be payable by nonfederal public bodies from
available funds within thirty days following receipt of the written
notice from the department which is given after October 1st of the
year in which the protection was provided. Unpaid assessments are not
a lien against the nonfederal publicly owned land but shall
constitute a debt by the nonfederal public body to the department and
are subject to interest charges at the legal rate. ((During the
2011-2013 fiscal biennium, the forest fire protection assessment
account may be appropriated to The Evergreen State College for
analysis and recommendations to improve the efficiency and
effectiveness of the state's mechanisms for funding fire prevention
and suppression activities.))

(8) A public body, having failed to previously pay the forest
protection assessments required of it by this section, which fails to
suppress a fire on or originating from forestlands owned or
administered by it, is liable for the costs of suppression incurred
by the department or its agent and is not entitled to reimbursement
of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section,
including, but not limited to, rules on levying and collecting forest
protection assessments.

Sec. 977. RCW 77.12.203 and 2018 c 299 s 913 are each amended to
read as follows:
(1) Except as provided in subsections (5), (6), and (7) of this section and notwithstanding RCW 84.36.010 or other statutes to the contrary, the director must pay by April 30th of each year on game lands, regardless of acreage, in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes equal to that amount paid on similar parcels of open space land taxable under chapter 84.34 RCW or the greater of seventy cents per acre per year or the amount paid in 1984 plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. This amount may not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, water access sites, tidelands, or public fishing areas.

(2) "Game lands," as used in this section and RCW 77.12.201, means those tracts, regardless of acreage, owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access, or recreation purposes with federal funds in the Snake River drainage basin are considered game lands regardless of acreage.

(3) This section does not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county must distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county must distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the 2013-2015 and 2015-2017 fiscal biennia, the director must pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and must be distributed as follows:

It is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

The sole purpose of assessing administration charges is to predictably and adequately fund the department's costs of administering the water pollution control revolving fund loan program, as identified in subsection (5) of this section. The department must assess administration charges on each water pollution control revolving fund loan at the point the loan enters repayment status, after July 28, 2013, and rule changes are adopted to implement the administration charge. Sec. 1101. 2018 c 299 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so
that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of
the county authorities in a regional service area to become an early
adopter of fully integrated purchasing of medical and behavioral
health services. The department may combine and transfer such amounts
appropriated under sections 204, 208, and 213 of this act as may be
necessary to fund early adopter contracts. The amount of medicaid
funding transferred from each program may not exceed the average per
capita cost assumed in this act for individuals covered by that
program, actuarially adjusted for the health condition of persons
enrolled, times the number of clients enrolled. The amount of non-
medicaid funding transferred from sections 204 and 208 may not exceed
the amount that would have been contracted with a behavioral health
organization if the county authorities had not requested to become an
early adopter of fully integrated purchasing. These limits do not
apply to the amounts provided in section 204(1)(s) of this act. If
any funding that this act provides solely for a specific purpose is
transferred under this subsection, that funding must be used
consistently with the provisions and conditions for which it was
provided.

(8) In accordance with RCW 71.24.380, the department is
authorized to purchase mental health and substance use disorder
services through integrated contracts with behavioral health
organizations. The department may combine and transfer such amounts
appropriated under sections 204 and 208 of this act as may be
necessary to finance these behavioral health organization contracts.
If any funding that this act provides solely for a specific purpose
is transferred under this subsection, that funding must be used
consistently with the provisions and conditions for which it was
provided.

(9)(a) The appropriations to the department of social and health
services in this act must be expended for the programs and in the
amounts specified in this act. However, after May 1, (2018)) 2019,
unless prohibited by this act, the department may transfer general
fund—state appropriations for fiscal year (2018)) 2019 among
programs and subprograms after approval by the director of the office
of financial management. However, the department may not transfer
state appropriations that are provided solely for a specified purpose
except as expressly provided in (b) through (d) of this subsection.

(b) To the extent that transfers under (a) of this subsection are
insufficient to fund actual expenditures in excess of fiscal year
(2018)) 2019 caseload forecasts and utilization assumptions in the

p. 449
long-term care, developmental disabilities, ((foster care, adoption support,)) and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose.

(c) Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year ((2018)) 2019.

(d) Within the developmental disabilities program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year ((2018)) 2019.

(e) The department may not transfer appropriations, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(f) The department and the department of children, youth, and families shall coordinate to ensure that both agencies have sufficient funding for allocated and nonallocated central services and, if necessary, must enter into an interagency agreement to ensure that funds are transferred to the agency that incurs costs. The agencies shall jointly report to the office of financial management the status of state fiscal year 2019 allocated and nonallocated central services costs and whether fund transfers were required.

The amounts provided in this subsection are intended to provide funding for county adult court costs associated with the implementation of chapter 338, Laws of 1997 and shall be distributed in accordance with RCW 82.14.310.

(2) $2,841,000 of the general fund—state appropriation for fiscal year 2018 and $2,841,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for grants to county juvenile courts for the following juvenile justice programs identified by the Washington state institute for public policy (institute) in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." Additional funding for this purpose is provided through an interagency agreement with the health care authority. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(3) $1,537,000 of the general fund—state appropriation for fiscal year 2018 and $1,537,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for expansion of the following juvenile justice treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute...
for public policy in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(4)(a) $6,198,000 of the general fund—state appropriation for fiscal year 2018 and $6,198,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to implement evidence- and research-based programs through community juvenile accountability grants, administration of the grants, and evaluations of programs funded by the grants. (b) The juvenile rehabilitation administration shall administer a block grant to county juvenile courts for the purpose of serving youth as defined in RCW 13.40.510(4)(a) in the county juvenile justice system. Funds dedicated to the block grant include: Consolidated juvenile service (CJS) funds, community juvenile accountability act (CJAA) grants, chemical dependency/mental health disposition alternative (CDDA), and suspended disposition alternative (SDA). The juvenile rehabilitation administration shall follow the following formula and must prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative:

(i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for the assessment of low, moderate, and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency and mental health disposition alternative; and (vi) two percent for the suspended dispositional alternatives.

Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when
approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(c) If Second Substitute House Bill No. 1280 (referred and diverted youth) is enacted, then the administration must implement a stop-loss policy when allocating funding under (b) of this subsection in the 2017-2019 fiscal biennium. Under the stop-loss policy, funding formula changes may not result in a funding loss for any juvenile court of more than two percent from one year to the next. The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10 – 17. The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. If the bill is not enacted by July 31, 2017, this subsection is null and void.

(d) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(e) The juvenile courts and administrative office of the courts must collect and distribute information and provide access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts must work collaboratively to develop program outcomes.

(8) $500,000 of the general fund—state appropriation for fiscal
year 2018 and $500,000 of the general fund—state appropriation for
fiscal year 2019 are provided solely for a grant program focused on
criminal street gang prevention and intervention. The juvenile

street gangs. Applicants composed of, at a minimum, one or more local
governmental entities and one or more nonprofit, nongovernmental
organizations that have a documented history of creating and
administering effective criminal street gang prevention and
intervention programs may apply for funding under this subsection.
Each entity receiving funds must report to the juvenile
rehabilitation administration on the number and types of youth
served, the services provided, and the impact of those services on
the youth and the community.

(9) The juvenile rehabilitation institutions may use funding

Sec. 1103. 2018 c 299 s 204 (uncodified) is amended to read as
follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES—MENTAL HEALTH
PROGRAM

(1) COMMUNITY SERVICES/BEHAVIORAL HEALTH ORGANIZATIONS

General Fund—State Appropriation (FY 2018)............. $381,760,000
General Fund—Federal Appropriation.................. $481,439,000
General Fund—Private/Local Appropriation.............. $8,932,000
Dedicated Marijuana Account—State Appropriation
(FY 2018)........................................ $3,684,000
Pension Funding Stabilization Account—State
Appropriation...................................... $39,000
The appropriations in this subsection are subject to the following conditions and limitations:

(a) For the purposes of this subsection, amounts provided for behavioral health organizations shall also be available for the health care authority to contract with entities that assume the responsibilities of behavioral health organizations in regions in which the health care authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380.

(b) $6,590,000 of the general fund—state appropriation for fiscal year 2018 and $3,810,000 of the general fund—federal appropriation are provided solely for the department and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the department shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (f) of this subsection. The department and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) From the general fund—state appropriations in this subsection, the department shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(d) $1,760,000 of the general fund—federal appropriation is provided solely for the department to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities. The department
must collect data and submit a report to the office of financial
management and the appropriate committees of the legislature on the
impact of peer staff on state hospital discharges and community
placements by December 1, 2017.

(e) $11,405,000 of the general fund—state appropriation for
fiscal year 2018 is provided solely to assist behavioral health
organizations with the costs of providing services to medicaid
clients receiving services in psychiatric facilities classified as
institutions of mental diseases. The department must distribute these
amounts proportionate to the number of bed days for medicaid clients
in institutions for mental diseases that were excluded from
behavioral health organization fiscal year 2018 capitation rates
because they exceeded the amounts allowed under federal regulations.
The department must also use these amounts to directly pay for costs
that are ineligible for medicaid reimbursement in institutions of
mental disease facilities for American Indian and Alaska Natives who
opt to receive behavioral health services on a fee for service basis.
The amounts used for these individuals must be reduced from the
allocation of the behavioral health organization where the individual
resides. If a behavioral health organization receives more funding
through this subsection than is needed to pay for the cost of their
medicaid clients in institutions for mental diseases, they must use
the remainder of the amounts to provide other services not covered
under the medicaid program. The department must apply for a waiver
from the center for medicaid and medicare services to allow for the
full cost of stays in institutions of mental diseases to be included
in fiscal year 2019 behavioral health organization capitation rates.
The department may tailor the fiscal year 2019 waiver to specific
populations for which the center for medicaid and medicare services
has indicated they are likely to approve and work to further expand
the waiver to other populations in fiscal year 2020. The department
must submit a report on the status of the waiver to the office of
financial management and the appropriate committees of the
legislature by December 1, 2017.

(f) $81,930,000 of the general fund—state appropriation for
fiscal year 2018 is provided solely for persons and services not
covered by the medicaid program. To the extent possible, levels of
behavioral health organization spending shall be maintained in the
following priority order: Crisis and commitment services; community
inpatient services; and residential care services, including personal
care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The department must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(g) The department is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(h) $1,125,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(A) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(C) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(D) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) $1,204,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.
(j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) $2,291,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The department must collect information from the behavioral health organizations on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(l) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in T.R. v. Dreyfus and Porter.

(m) The department must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The department must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The department must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The department must review and approve such plans and monitor to ensure compliance. If the department determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an
approved plan, the department must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the department determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(n) $2,309,000 of the general fund—state appropriation for fiscal year 2018 and $2,169,000 of the general fund—federal appropriation are provided solely for the department to increase rates for community hospitals that provide a minimum of 200 medicaid psychiatric inpatient days. The department must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The department shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rate for existing inpatient facilities and the latest available cost report information. authority, shall work to ensure that a single platform provider
credentialing system is implemented. The authority and department

appropriation may be expended for supported housing and employment
services described in initiative 3a and 3b of the medicaid
transformation demonstration waiver under healthier Washington. Under
this initiative, the department and the health care authority shall
ensure that allowable and necessary services are provided to eligible

(14)(a) The department of social and health services must facilitate a stakeholder work group consisting of assisted living provider associations and the state long-term care ombuds in a collaborative effort to redesign the medicaid payment methodology for contracted assisted living, adult residential care, and enhanced adult residential care. The department must submit a report with the final work group recommendations to the appropriate legislative committees by November 30, 2017. A proposed timeline for implementation of the new methodology must be included in the report.

The new methodology must:

(i) Adhere to the standards of an acuity-based payment system as originally intended by the legislature, and the department will rely on the time study conducted in 2003 in establishing the acuity scale;

(ii) Create a standardized methodology that supports a reasonable medicaid payment that promotes access, choice, and quality;

(iii) Incorporate metrics such as medians, lids, floors, and other options that provide flexibility to adjust to economic conditions while maintaining the integrity of the methodology;

(iv) Be supported by relevant, reliable, verifiable, and independent data to the extent possible; and

(v) To the extent possible, repurpose and streamline data sources and modeling that the aging and long-term support administration uses for other rate-setting processes.

(b) In developing payment metrics for medicaid-covered services, staff and service requirements must be reviewed for assisted living, adult residential care, and enhanced adult residential care as described in chapters 74.39A and 18.20 RCW. At a minimum, the proposed rate methodology must include a component that recognizes staffing for intermittent nursing and personal care services. Service area adjustments based on population density must be reviewed and compared with other options to recognize high-cost areas. The most recent and complete wage data available through the bureau of labor statistics must also be included for review and consideration. The methodology work group must consider operational requirements and indirect services in developing the model. The work group must include a rate component that recognizes statutory and regulatory physical plant requirements. The work group must review and consider...
physical plant requirements for assisted living as described in chapter 51.50 RCW. A fair rental valuation must be reviewed and considered as an option for the capital component. The recognition of food for medicaid residents must also be included in the work group considerations. The department's current methodology to address room and board requirements, and the appropriateness of the continued use of the 2003 time study and whether it can be reasonably adjusted or whether a new time study should be conducted, must be reviewed and considered by the work group.

(15) Within amounts appropriated in this section, the department must pay medicaid nursing facility payment rates for public hospital district providers in rural communities as defined under chapter 70.44 RCW that are no less than June 30, 2016, reimbursement levels. FOR THE STATE HEALTH CARE AUTHORITY

During the 2017-2019 fiscal biennium, the health care authority shall provide support and data as required by the office of the state actuary in providing the legislature with health care actuarial analysis, including providing any information in the possession of the health care authority or available to the health care authority.
through contracts with providers, plans, insurers, consultants, or any other entities contracting with the health care authority.

Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the health care authority are subject to technical oversight by the office of the chief information officer.

The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

The appropriations to the health care authority in this act shall be expended for the programs and in the amounts specified in this act. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecasts and utilization assumptions, the authority, after May 1, (2019), may transfer general fund—state appropriations for fiscal year (2019) that are provided solely for a specified purpose. The authority may not transfer funds, and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification must include a narrative explanation and
justification of changes, along with expenditures and allotments by
budget unit and appropriation, both before and after any allotment
modifications and transfers.

$17,145,118,000

The appropriations in this section are subject to the following
conditions and limitations:

(a) $268,117,000 of the general fund—state appropriation for
fiscal year 2018 and $264,704,000 of the general fund—state
appropriation for fiscal year 2019 are provided solely for the
authority to implement a single, standard medicaid preferred drug
list to be used by all contracted medicaid managed health care
systems, on or before January 1, 2018. The preferred drug list shall
be developed in consultation with all contracted managed health care
systems and the state pharmacy and therapeutics committee or drug
utilization review board and shall further the goals and objectives of the medicaid program. The list shall be designed to maximize federal rebates and supplemental rebates and ensure access to clinically effective and appropriate drug therapies under each class. Entities eligible for 340B drug pricing shall continue to operate under their current pricing agreement, unless otherwise required by federal laws or regulations. The authority may utilize external consultants with expertise in evidence-based drug class reviews, pharmacy benefit management, and purchasing to assist with the completion of this development and implementation. The authority shall require each managed care organization that has contracted with the authority to provide care to medicaid beneficiaries to use the established preferred drug list; and shall prohibit each managed care organization and any of its agents from negotiating or collecting rebates for any medications listed in the state's medicaid single preferred drug list whether preferred or nonpreferred. To assist in the implementation of the single preferred drug list, contracted medicaid managed health care systems shall provide the authority drug-specific financial information in a format and frequency determined by the authority to include the actual amounts paid to pharmacies for prescription drugs dispensed to covered individuals compared to the cost invoiced to the health plan and individual rebates collected for prescription drugs dispensed to medicaid members. Information disclosed to the authority by the manufacturer pursuant to this provision shall only be used for the purposes of developing and implementing a single, standard state preferred drug list in accordance with this provision. The authority, medicaid managed care organizations, and all other parties shall maintain the confidentiality of drug-specific financial and other proprietary information and such information shall not be subject to the Washington public records act. The authority shall provide a report to the governor and appropriate committees of the legislature by November 15, 2018, and by November 15, 2019, including a comparison of the amount spent in the previous two fiscal years to expenditures under the new system by, at a minimum, fund source, total expenditure, drug class, and top twenty-five drugs. The data provided to the authority shall be aggregated in any report by the authority, the legislature, or the office of financial management so as not to disclose the proprietary or confidential drug-specific information, or the proprietary or confidential information that directly or
indirectly identifies financial information linked to a single manufacturer. It is the intent of the legislature to revisit this policy in subsequent biennia to determine whether it is in the best interest of the state.

(b) $113,356,000 of the general fund—state appropriation for fiscal year 2018 and $140,578,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for managed care capitation payments.

(c) $122,244,000 of the general fund—state appropriation for fiscal year 2018 and $116,038,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority through the competitive procurement process, to contract with licensed dental health plans or managed health care plans on a prepaid or fixed-sum risk basis to provide carved-out managed dental care services on a statewide basis that will result in greater efficiency and will facilitate better access and oral health outcomes for medicaid enrollees. Except in areas where only a single plan is available, the authority must contract with at least two plans. The authority shall include in the contracts: (i) Quarterly reporting requirements to include medicaid utilization and encounter data by current dental technology (CDT) code; (ii) a direction to increase the dental provider network; (iii) a commitment to retain innovative programs that improve access and care such as the access to baby and child dentistry program; (iv) a program to reduce emergency room use for dental purposes; (v) a requirement to ensure that dental care is being coordinated with the primary care provider of the patient to ensure integrated care; (vi) a provision that no less than eighty-five percent of the contracting fee be used to directly offset the cost of providing direct patient care as opposed to administrative costs; and (vii) a provision to ensure the contracting fee shall be sufficient to compensate county health departments and federally qualified health centers for dental patient care. The plan(s) awarded this contract must absorb all start-up costs associated with moving the program from fee-for-service to managed care and shall commit to achieving an overall savings to the program based on 2016 fee-for-service experience. In order to comply with state insurance underwriting standards, the authority shall ensure that savings offered by dental plans are actuarially sound. Starting January 31, 2019, and every year thereafter through December 2024, the authority
shall submit an annual report to the governor and the appropriate committees of the legislature detailing how the contracted entities have met the requirements of the contract. The report shall include specific information to include utilization, how the contracted entities have increased their dental provider networks, how the emergency room use for dental purposes has been reduced, and how dental care has been integrated with patients' primary care providers. If after the end of five years the data reported does not demonstrate sufficient progress to address the stated contracted goals, the legislature will reevaluate whether carved-out dental managed care needs to be replaced with a different delivery model. The authority is authorized to seek any necessary state plan amendments or federal waivers to implement this subsection. Additional dental program savings achieved by the plans beyond those assumed in the 2017-2019 omnibus appropriations act will be used to increase dental provider reimbursement rates. By October 30, 2018, the authority shall report to the governor and the appropriate committees of the legislature anticipated savings related to reduction in dental emergency department visits and utilization once managed care dental coverage begins.

(d) $1,505,087,000 of the general fund—state appropriation for fiscal year 2018 and $1,538,030,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for medicaid services and the medicaid program. However, the authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in (e) and (f) of this subsection until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (i) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of

p. 514

ESHB 1109
other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (ii) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (iii) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (iv) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement.

(e) No more than $486,683,000 of the general fund—federal appropriation and no more than $129,103,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly, and include details for each accountable community of health, on the financial status and measurable health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by
the legislative fiscal committees. By December 15, 2019, the
authority in collaboration with each accountable community of health
shall demonstrate how it will be self-sustaining by the end of the
demonstration waiver period, including sources of outside funding,
and provide this reporting to the joint select committee on health
care oversight. If by the third year of the demonstration waiver
there are not measurable, improved patient outcomes and financial
returns, the Washington state institute for public policy will
conduct an audit of the accountable communities of health, in
addition to the process set in place through the independent
evaluation required by the agreement with centers for medicare and
medicaid services. Prior to the 2018 legislative session, the human
services, health care, and judiciary committees of the legislature
will convene a joint work session to review models in the delivery
system and the impacts on medical liability. The work sessions should
include integrated delivery models with multiple health care
providers and medical malpractice insurance carriers.

(f) No more than $38,425,000 of the general fund—federal
appropriation may be expended for supported housing and employment
services described in initiative 3a and 3b of the medicaid
transformation demonstration waiver under healthier Washington. Under
this initiative, the authority and the department of social and
health services shall ensure that allowable and necessary services
are provided to eligible clients as identified by the department or
its third party administrator. The authority and the department in
consultation with the medicaid forecast work group, shall ensure that
reasonable reimbursements are established for services deemed
necessary within an identified limit per individual. The authority
shall not increase general fund—state expenditures under this
initiative. The director shall report to the joint select committee
on health care oversight no less than quarterly on financial and
health outcomes. The director shall also report to the fiscal
committees of the legislature all of the expenditures of this
subsection and shall provide such fiscal data in the time, manner,
and form requested by the legislative fiscal committees.

(g) No later than November 1, 2018, and each year thereafter, the
authority shall report to the governor and appropriate committees of
the legislature: (i) Savings attributed to behavioral and physical
integration in areas that are scheduled to integrate in the following
calendar year, and (ii) savings attributed to behavioral and physical
health integration and the level of savings achieved in areas that
have integrated behavioral and physical health.

(h) Sufficient amounts are appropriated in this subsection to
implement the medicaid expansion as defined in the social security

(i) The legislature finds that medicaid payment rates, as
calculated by the health care authority pursuant to the
appropriations in this act, bear a reasonable relationship to the
costs incurred by efficiently and economically operated facilities
for providing quality services and will be sufficient to enlist
enough providers so that care and services are available to the
extent that such care and services are available to the general
population in the geographic area. The legislature finds that the
cost reports, payment data from the federal government, historical
utilization, economic data, and clinical input constitute reliable
data upon which to determine the payment rates.

(j) Based on quarterly expenditure reports and caseload
forecasts, if the health care authority estimates that expenditures
for the medical assistance program will exceed the appropriations,
the health care authority shall take steps including but not limited
to reduction of rates or elimination of optional services to reduce
expenditures so that total program costs do not exceed the annual
appropriation authority.

(k) In determining financial eligibility for medicaid-funded
services, the health care authority is authorized to disregard
recoveries by Holocaust survivors of insurance proceeds or other
assets, as defined in RCW 48.104.030.

(l) The legislature affirms that it is in the state's interest
for Harborview medical center to remain an economically viable
component of the state's health care system.

(m) When a person is ineligible for medicaid solely by reason of
residence in an institution for mental diseases, the health care
authority shall provide the person with the same benefits as he or
she would receive if eligible for medicaid, using state-only funds to
the extent necessary.

(n) $4,261,000 of the general fund—state appropriation for fiscal
year 2018, $4,261,000 of the general fund—state appropriation for
fiscal year 2019, and $8,522,000 of the general fund—federal
appropriation are provided solely for low-income disproportionate share hospital payments.

(o) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(p) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(q) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2017-2019 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its
current form is no longer cost-effective to maintain, the health care
authority shall submit a report to the governor and legislature
detailing cost-effective alternative uses of local, state, and
federal resources as a replacement for this program. During fiscal
year 2018 and fiscal year 2019, hospitals in the program shall be
paid and shall retain one hundred percent of the federal portion of
the allowable hospital cost for each medicaid inpatient fee-for-
service claim payable by medical assistance and one hundred percent
of the federal portion of the maximum disproportionate share hospital
payment allowable under federal regulations. Inpatient medicaid
payments shall be established using an allowable methodology that
approximates the cost of claims submitted by the hospitals. Payments
made to each hospital in the program in each fiscal year of the
biennium shall be compared to a baseline amount. The baseline amount
will be determined by the total of (i) the inpatient claim payment
amounts that would have been paid during the fiscal year had the
hospital not been in the CPE program based on the reimbursement rates
developed, implemented, and consistent with policies approved in the
2017-2019 biennial operating appropriations act and in effect on July
1, 2015, (ii) one-half of the indigent assistance disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005, and (iii) all of the other disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005 to the extent the same disproportionate share
hospital programs exist in the 2017-2019 fiscal biennium. If payments
during the fiscal year exceed the hospital's baseline amount, no
additional payments will be made to the hospital except the federal
portion of allowable disproportionate share hospital payments for
which the hospital can certify allowable match. If payments during
the fiscal year are less than the baseline amount, the hospital will
be paid a state grant equal to the difference between payments during
the fiscal year and the applicable baseline amount. Payment of the
state grant shall be made in the applicable fiscal year and
distributed in monthly payments. The grants will be recalculated and
redistributed as the baseline is updated during the fiscal year. The
grant payments are subject to an interim settlement within eleven
months after the end of the fiscal year. A final settlement shall be
performed. To the extent that either settlement determines that a
hospital has received funds in excess of what it would have received
as described in this subsection, the hospital must repay the excess

(b) $6,590,000 of the general fund—state appropriation for fiscal year 2019 and $3,810,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the authority shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid.
The authority may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (f) of this subsection. The authority and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

To the extent possible, levels of behavioral health organization spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts...
with behavioral health organizations unless they are provided formal
notification from the center for medicaid and medicare services that
the language will result in the loss of federal medicaid
participation: "The contractor may voluntarily provide services that
are in addition to those covered under the state plan, although the
cost of these services cannot be included when determining payment
rates unless including these costs are specifically allowed under
federal law or an approved waiver."

year 2019 is provided solely to reimburse Pierce and Spokane counties
for the cost of conducting one hundred eighty-day commitment hearings
at the state psychiatric hospitals.

(j) Behavioral health organizations may use local funds to earn
additional federal medicaid match, provided the locally matched rate
does not exceed the upper-bound of their federally allowable rate
range, and provided that the enhanced funding is used only to provide
medicaid state plan or waiver services to medicaid clients.
Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) $2,291,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the behavioral health
organization has come into substantial compliance with an approved excess reserve corrective action plan.

The authority shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rates for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

The authority must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The authority must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.
(q) $1,133,000 of the general fund—state appropriation for fiscal

with the actuaries responsible for certifying behavioral health
capitation rates to adjust average salary assumptions in order to
implement this increase. In developing further updates for medicaid
managed care rates for behavioral health services, the authority must
require the contracted actuaries to: (i) Review and consider
comparison of salaries paid by government agencies and hospitals that
compete with community providers for behavioral health workers in
developing salary assumptions; and (ii) review data to see whether a
specific travel assumption for high congestion areas is warranted.
The authority must include and make available all applicable
documents and analysis to legislative staff from the fiscal
committees throughout the process. The authority must require the
actuaries to develop and submit rate ranges for each behavioral
health organization prior to certification of specific rates.

(s) The number of beds allocated for use by behavioral health
organizations at eastern state hospital shall be one hundred ninety
two per day. The number of nonforensic beds allocated for use by
behavioral health organizations at western state hospital shall be
five hundred fifty-seven per day. In fiscal year 2019, the authority
must reduce the number of beds allocated for use by behavioral health
organizations at western state hospital by thirty beds to allow for
the repurposing of a civil ward at western state hospital to provide
forensic services. The contracted beds provided under (p) of this
subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. In contracting for community evaluation and treatment services, the authority may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the authority is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

(u) $1,296,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for clubhouse programs. The authority shall ensure that $400,000 is used for the biennium for support of

distribute these amounts proportionate to the number of bed days for
medicaid clients in institutions for mental diseases that were

federal regulations. The authority must also use these amounts to
directly pay for costs that are ineligible for medicaid reimbursement
in institutions of mental disease facilities for American Indian and
Alaska Natives who opt to receive behavioral health services on a
fee-for-service basis. The amounts used for these individuals must be
reduced from the allocation of the behavioral health organization
where the individual resides. If a behavioral health organization

These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is $3,175 per 1,000 residents. These amounts must be used to provide a reserve for nonmedicaid services in the region and to stabilize the new crisis services system. The authority must require all behavioral health organizations transitioning to full integration to either spend down or return all reserves in accordance with contract requirements and federal and state law. Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for start-up costs in full integration regions. (ii) The authority must also explore and report on options for fully leveraging the state's share of federal medicaid disproportionate share funding allowed for institutions of mental diseases, including but not limited to: (A) Prioritizing the use of this funding for forensic patients and those civilly committed pursuant to dismissal of a felony charge; (B) obtaining an institution for mental diseases—disproportionate share hospital waiver to allow for regular medicaid federal financial participation to be used at the state hospitals; and (C) shifting some of the state's current disproportionate share funding used at the state hospitals to community-based institutions for mental diseases to reduce the state cost of patients for whom regular federal medicaid match is not allowed.

(uu) $2,732,000 of the general fund—state appropriation for fiscal year 2019 and $9,026,000 of the general fund—federal appropriation are provided solely for the authority to implement strategies to improve access to prevention and treatment of opioid use disorders. (b) Students in approved career and technical education and skill center programs generate certificated school building-level administrator staff units at per student rates that are a multiple of
the general education rate in (a) of this subsection by the following factors: Career and Technical Education students. . . . . . . 1.025 Skill Center students. . . . . . . . . . . . . . . . . . . . . . . . . . . 1.198

(4) CLASSIFIED STAFF ALLOCATIONS

Allocations for classified staff units providing school building-level and district-wide support services for the 2017-18 and 2018-19 school years are determined using the formula-generated staff units provided in RCW 28A.150.260 and pursuant to this subsection, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade.

(5) CENTRAL OFFICE ALLOCATIONS

In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2017-18 and 2018-19 school years for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b) and the increased allocations provided pursuant to subsections (2) and (4) of this section, by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.

(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same staff unit per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students.
in the same grade in this subsection (5) by 12.29 percent in the 2017-18 school year and ((12.29)) 12.49 percent in the 2018-19 school year for career and technical education students, and 17.61 percent in the 2017-18 school year and ((17.61)) 17.82 percent in the 2018-19 school year for skill center students.

In calculating the combined 1.2 FTE, the office of the superintendent of public instruction may average the participating student's September through June enrollment to account for differences in the start and end dates for courses provided by the high school and higher education institution. Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the student achievement council, and the education data center, shall annually track and report to the fiscal committees of the legislature on the combined FTE experience of students participating in the running start program, including course load analyses at both the high school and community and technical college system.

not exceed the lesser of five percent or the cap established in federal law of the combined basic education and career and technical education program enhancement allocations of state funds. Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

(21) Funding in this section is sufficient to provide full general apportionment payments to school districts eligible for federal forest revenues as provided in RCW 28A.520.020.
