The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (b) develop a patient satisfaction survey with the
goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement.

(2) No more than $305,659,000 of the general fund—federal appropriation and no more than $157,284,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state...
institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services. Beginning May 1, 2019, participation in all initiatives under the medicaid transformation demonstration waiver is frozen at current participation levels. No new participants may be added to any initiative under this demonstration waiver without further federal approval.

(3) No more than $79,829,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority and the department in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. Beginning May 1, 2019, the authority shall freeze participation in initiatives 3a and 3b at the current level of enrollment. No new participants may be added without further federal approval.

(4) Annually, no later than November 1st, the authority shall report to the governor and appropriate committees of the legislature:
(a) Savings attributed to behavioral and physical integration in areas that are scheduled to integrate in the following calendar year, and
(b) savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(5) $95,236,000 of the general fund—state appropriation for fiscal year 2020 and $99,302,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for the
authority, through the competitive procurement process, to contract with licensed dental health plans or managed health care plans on a prepaid or fixed-sum risk basis to provide carved-out managed dental care services on a statewide basis that will result in greater efficiency and will facilitate better access and oral health outcomes for medicaid enrollees. Except in areas where only a single plan is available, the authority must contract with at least two plans at a single rate not to exceed the average cost of the two lowest cost apparently successful bidders. The authority shall include in the contracts:

(a) Quarterly reporting requirements to include medicaid utilization and encounter data by current dental technology (CDT) code;

(b) A direction to increase the dental provider network;

(c) A commitment to retain innovative programs that improve access and care such as the access to baby and child dentistry program;

(d) A program to reduce emergency room use for dental purposes;

(e) A requirement to ensure that dental care is being coordinated with the primary care provider of the patient to ensure integrated care;

(f) A provision that no less than eighty-five percent of the contracting fee be used to directly offset the cost of providing direct patient care as opposed to administrative costs; and

(g) A provision to ensure the contracting fee shall be sufficient to compensate county health departments and federally qualified health centers for dental patient care.

The plan or plans awarded this contract must absorb all start-up costs associated with moving the program from fee-for-service to managed care and shall commit to achieving an overall savings to the program based on 2016 fee-for-service experience. In order to comply with state insurance underwriting standards, the authority shall ensure that savings offered by dental plans are actuarially sound. In order to ensure compliance with the provisions of this subsection, any contracts awarded must be reviewed and signed by the director of the office of financial management or their designee. Starting January 31, 2020, and every year thereafter through December 2025, the authority shall submit an annual report to the governor and the appropriate committees of the legislature detailing how the contracted entities have met the requirements of the contract.
report shall include specific information to include utilization, how
the contracted entities have increased their dental provider
networks, how the emergency room use for dental purposes has been
reduced, and how dental care has been integrated with patients'
primary care providers. If after the end of five years the data
reported does not demonstrate sufficient progress to address the
stated contracted goals, the legislature will reevaluate whether
carved-out dental managed care needs to be replaced with a different
delivery model. The authority is authorized to seek any necessary
state plan amendments or federal waivers to implement this
subsection. Additional dental program savings achieved by the plans
beyond those assumed in the 2019-2021 omnibus appropriations act will
be used to increase dental provider reimbursement rates.

(6) $1,805,727,000 of the general fund—state appropriation for
fiscal year 2020 and $1,876,135,000 of the general fund—state
appropriation for fiscal year 2021 are provided solely for the
authority to implement the recommendations of the centers for
medicare and medicaid services center for program integrity as
provided to the authority in the January 2019 Washington focused
program integrity review final report. The authority is directed to:

(a) Organize all program integrity activities into a centralized
unit or under a common protocol addressing provider enrollment, fraud
and abuse detection, investigations, and law enforcement referrals
that is more reflective of industry standards;

(b) Ensure appropriate resources are dedicated to prevention,
detection, investigation, and suspected provider fraud at both the
authority and at contracted managed care organizations;

(c) Ensure all required federal regulations are being followed
and are incorporated into managed care contracts;

(d) Directly audit managed care encounter data to identify fraud,
waive, and abuse issues with managed care organization providers;

(e) Initiate data mining activities in order to identify fraud,
waive, and abuse issues with manage care organization providers;

validated managed care encounter data;

(g) Assess liquidated damages to managed care organizations when
fraud, waste, or abuse with managed care organization providers is
identified;

(h) Require managed care organizations submit accurate reports on
overpayments, including the prompt reporting of overpayments
identified or recovered, specifying overpayments due to fraud, waste, or abuse;

(i) Implement processes to ensure integrity of data used for rate setting purposes;

(j) Refine payment suspension policies; and

(k) Ensure all federal database exclusion checks are performed at the appropriate intervals. The authority shall update managed care contracts as appropriate to reflect these requirements.

(7) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(8) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(9) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(10) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(11) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(12) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if not institutionalized.
she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(13) $4,261,000 of the general fund—state appropriation for fiscal year 2020, $4,261,000 of the general fund—state appropriation for fiscal year 2021, and $8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(14) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(15) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(16) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2019-2021 fiscal biennium. The program shall apply to all public hospitals,
including those owned or operated by the state, except those
classified as critical access hospitals or state psychiatric
institutions. The health care authority shall submit reports to the
governor and legislature by November 1, 2020, and by November 1,
2021, that evaluate whether savings continue to exceed costs for this
program. If the certified public expenditures (CPE) program in its
current form is no longer cost-effective to maintain, the health care
authority shall submit a report to the governor and legislature
detailing cost-effective alternative uses of local, state, and
federal resources as a replacement for this program. During fiscal
year 2020 and fiscal year 2021, hospitals in the program shall be
paid and shall retain one hundred percent of the federal portion of
the allowable hospital cost for each medicaid inpatient fee-for-
service claim payable by medical assistance and one hundred percent
of the federal portion of the maximum disproportionate share hospital
payment allowable under federal regulations. Inpatient medicaid
payments shall be established using an allowable methodology that
approximates the cost of claims submitted by the hospitals. Payments
made to each hospital in the program in each fiscal year of the
biennium shall be compared to a baseline amount. The baseline amount
will be determined by the total of (a) the inpatient claim payment
amounts that would have been paid during the fiscal year had the
hospital not been in the CPE program based on the reimbursement rates
developed, implemented, and consistent with policies approved in the
2019-2021 biennial operating appropriations act and in effect on July
1, 2015, (b) one-half of the indigent assistance disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005, and (c) all of the other disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005 to the extent the same disproportionate share
hospital programs exist in the 2019-2021 fiscal biennium. If payments
during the fiscal year exceed the hospital's baseline amount, no
additional payments will be made to the hospital except the federal
portion of allowable disproportionate share hospital payments for
which the hospital can certify allowable match. If payments during
the fiscal year are less than the baseline amount, the hospital will
be paid a state grant equal to the difference between payments during
the fiscal year and the applicable baseline amount. Payment of the
state grant shall be made in the applicable fiscal year and
distributed in monthly payments. The grants will be recalculated and
redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $537,000 of the general fund—state appropriation for fiscal year 2020 and $522,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for state grants for the participating hospitals.

(19) The authority shall submit reports to the governor and the legislature by September 15, 2020, and no later than September 15, 2021, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(22) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(29) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

Additionally, the report shall include the status of rural health clinic reconciliations for calendar years 2014-2017, including anticipated amounts owed to or from rural health clinics from the reconciliation process for those calendar years. The authority shall not recover the state portion of rural health reconciliations for calendar years 2014-2017 until after the legislature has an opportunity to take action during the 2020 legislative session. The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380 and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

(2) $8,777,000 of the general fund—state appropriation for fiscal year 2020, $10,424,000 of the general fund—state appropriation for fiscal year 2021, and $20,197,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (4) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(3) From the general fund—state appropriations in this section, the authority shall assure that behavioral health entities reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health entity consumers use because of their psychiatric disability.

To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis and commitment
services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(5) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (4) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(8) $2,291,000 of the general fund—state appropriation for fiscal year 2020 and $2,291,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. (9) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(10) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health entity contracts and insert contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health entity reserves do not exceed maximum levels. The authority must monitor behavioral health entity revenue and expenditure reports and must require a behavioral health entity to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health entity has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the behavioral health entity has come into substantial compliance with an approved excess reserve corrective action plan.

The number of nonforensic beds allocated for use by behavioral health entities at western state hospital shall be updated to reflect the actual beds available no less than at the beginning of each quarter, beginning July 1, 2019. In fiscal year 2020, the authority must reduce the number of beds allocated for use by behavioral health entities at western state hospital by any beds being repurposed from civil ward at western state hospital to provide forensic services. The bed allocation must also account for any beds contracted in community settings for the purpose of providing care in lieu of beds at the state hospitals and be incorporated in their...
allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long-term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management.

(12) The office of the state chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget.

The commission may award grants to public agencies and contract with
any public or private agency or person for the purpose of developing
and implementing snowmobile programs, as long as the programs are not
inconsistent with the rules adopted by the commission.

Sec. 982. RCW 70.155.120 and 2016 sp.s. c 38 s 2 are each
amended to read as follows:

(1) The youth tobacco and vapor products prevention account is
created in the state treasury. All fees collected pursuant to RCW
82.24.520, 82.24.530, 82.26.160, and 82.26.170 and funds collected by
the liquor and cannabis board from the imposition of monetary
penalties shall be deposited into this account, except that ten
percent of all such fees and penalties shall be deposited in the
state general fund.

(2) Moneys appropriated from the youth tobacco and vapor products
prevention account to the department of health shall be used by the
department of health for implementation of this chapter, including
collection and reporting of data regarding enforcement and the extent
to which access to tobacco products and vapor products by youth has
been reduced.

(3) The department of health shall enter into interagency
agreements with the liquor and cannabis board to pay the costs
incurred, up to thirty percent of available funds, in carrying out
its enforcement responsibilities under this chapter. Such agreements
shall set forth standards of enforcement, consistent with the funding
available, so as to reduce the extent to which tobacco products and
vapor products are available to individuals under the age of
eighteen. The agreements shall also set forth requirements for data
reporting by the liquor and cannabis board regarding its enforcement
activities. During the 2019-2021 fiscal biennium, the department of
health shall pay the costs incurred, up to twenty-three percent of
available funds, in carrying out its enforcement responsibilities.

(4) The department of health, the liquor and cannabis board, and

(5) The department of health shall, within up to seventy percent of available funds, provide grants to local health departments or other local community agencies to develop and implement coordinated tobacco and vapor product intervention strategies to prevent and reduce tobacco and vapor product use by youth. During the 2019-2021 fiscal biennium, the department of health shall, within up to seventy-seven percent of available funds, provide grants to local health departments or other local community agencies to develop and implement coordinated tobacco and vapor product intervention strategies to prevent and reduce tobacco and vapor product use by youth.

Sec. 983. RCW 71.24.580 and 2018 c 205 s 2 and 2018 c 201 s 404 are each reenacted and amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. Amounts provided in this subsection must be used for treatment and recovery support services for criminally involved offenders and authorization of these services shall not be subject to determinations of medical necessity. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the state general fund. (It is the intent of the legislature to continue in the 2019-2021 biennium the policy of transferring to the state general fund such amounts as reflect the excess fund balance of the account.) During the 2019-2021 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the home security fund account created in RCW 43.185C.060. It is the intent of the legislature to continue the policy of transferring moneys from the criminal justice treatment account to the home security fund account in subsequent biennia. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:
(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, including but not limited to the recovery support and other programmatic elements outlined in RCW 2.30.030 authorizing therapeutic courts; and

(b) "Treatment support" includes transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as specified in this subsection. The authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for...
distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.
(9) Counties must meet the criteria established in RCW 2.30.030(3).

Sec. 984. RCW 76.04.610 and 2018 c 299 s 912 are each amended to read as follows:

(1)(a) If any owner of forestland within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel.
Property owners with the following number of parcels may apply to the department in the year indicated:

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of Parcels</th>
</tr>
</thead>
<tbody>
<tr>
<td>2002</td>
<td>10 or more parcels</td>
</tr>
<tr>
<td>2003</td>
<td>8 or more parcels</td>
</tr>
<tr>
<td>2004 and thereafter</td>
<td>6 or more parcels</td>
</tr>
</tbody>
</table>

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forestlands.

(4) For the purpose of this chapter, the department may divide the forestlands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forestlands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.
(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forestlands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660. During the 2017-2019 and 2019-2021 fiscal biennia, the legislature may appropriate moneys from the account for department of natural resources wildfire response and forest health activities. It is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forestland included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the
year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to The Evergreen State College for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forestlands owned or administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

Sec. 1101. 2018 c 299 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapping of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic...
area. The legislature finds that cost reports, payment data from the
federal government, historical utilization, economic data, and
clinical input constitute reliable data upon which to determine the
payment rates.

(4) The department shall to the maximum extent practicable use
the same system for delivery of spoken-language interpreter services
for social services appointments as the one established for medical
appointments in the health care authority. When contracting directly
with an individual to deliver spoken language interpreter services,
the department shall only contract with language access providers who
are working at a location in the state and who are state-certified or
state-authorized, except that when such a provider is not available,
the department may use a language access provider who meets other
certifications or standards deemed to meet state standards, including
interpreters in other states.

(5) Information technology projects or investments and proposed
projects or investments impacting time capture, payroll and payment
processes and systems, eligibility, case management, and
authorization systems within the department of social and health
services are subject to technical oversight by the office of the
chief information officer.

(6)(a) The department shall facilitate enrollment under the
medicaid expansion for clients applying for or receiving state funded
services from the department and its contractors. Prior to open
enrollment, the department shall coordinate with the health care
authority to provide referrals to the Washington health benefit

(b) To facilitate a single point of entry across public and
medical assistance programs, and to maximize the use of federal
funding, the health care authority, the department of social and
health services, and the health benefit exchange will coordinate
efforts to expand HealthPlanfinder access to public assistance and
medical eligibility staff. The department shall complete medicaid
applications in the HealthPlanfinder for households receiving or
applying for public assistance benefits.

the county authorities in a regional service area to become an early
adopter of fully integrated purchasing of medical and behavioral
health services.
health services. The department may combine and transfer such amounts
appropriated under sections 204, 208, and 213 of this act as may be
necessary to fund early adopter contracts. The amount of medicaid
funding transferred from each program may not exceed the average per
capita cost assumed in this act for individuals covered by that
program, actuarially adjusted for the health condition of persons
enrolled, times the number of clients enrolled. The amount of non-
medicaid funding transferred from sections 204 and 208 may not exceed
the amount that would have been contracted with a behavioral health
organization if the county authorities had not requested to become an
early adopter of fully integrated purchasing. These limits do not
apply to the amounts provided in section 204(1)(s) of this act. If
any funding that this act provides solely for a specific purpose is
transferred under this subsection, that funding must be used
consistently with the provisions and conditions for which it was
provided.

(8) In accordance with RCW 71.24.380, the department is
authorized to purchase mental health and substance use disorder
services through integrated contracts with behavioral health
organizations. The department may combine and transfer such amounts
appropriated under sections 204 and 208 of this act as may be
necessary to finance these behavioral health organization contracts.
If any funding that this act provides solely for a specific purpose is
transferred under this subsection, that funding must be used
consistently with the provisions and conditions for which it was
provided.

(9)(a) The appropriations to the department of social and health
services in this act must be expended for the programs and in the
amounts specified in this act. However, after May 1, (2018) 2019,
unless prohibited by this act, the department may transfer general
fund—state appropriations for fiscal year (2018) 2019 among
programs and subprograms after approval by the director of the office
of financial management. However, the department may not transfer
state appropriations that are provided solely for a specified purpose
except as expressly provided in (b) through (d) of this subsection.

(b) To the extent that transfers under (a) of this subsection are
insufficient to fund actual expenditures in excess of fiscal year
(2018) 2019 caseload forecasts and utilization assumptions in the
long-term care, developmental disabilities, foster care, adoption
support, and public assistance programs, the department may transfer
state appropriations that are provided solely for a specified purpose.  

(c) Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year (2018) 2019.  

(d) Within the developmental disabilities program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year (2018) 2019.  

(e) The department may not transfer appropriations, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The amounts provided in this subsection are intended to provide funding for county adult court costs associated with the implementation of chapter 338, Laws of 1997 and shall be distributed in accordance with RCW 82.14.310.

(2) $2,841,000 of the general fund—state appropriation for fiscal year 2018 and $2,841,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for grants to county juvenile courts for the following juvenile justice programs identified by the Washington state institute for public policy (institute) in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." Additional funding for this purpose is provided through an interagency agreement with the health care authority. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(3) $1,537,000 of the general fund—state appropriation for fiscal year 2018 and $1,537,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for expansion of the following juvenile justice treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(4)(a) $6,198,000 of the general fund—state appropriation for fiscal year 2018 and $6,198,000 of the general fund—state

accountability grants, administration of the grants, and evaluations
of programs funded by the grants. In addition to funding provided in
this subsection, funding to implement alcohol and substance abuse
treatment programs for locally committed offenders is provided
through an interagency agreement with the health care authority.

(b) The juvenile rehabilitation administration shall administer a
block grant to county juvenile courts for the purpose of serving
youth as defined in RCW 13.40.510(4)(a) in the county juvenile
justice system. Funds dedicated to the block grant include:
Consolidated juvenile service (CJS) funds, community juvenile
accountability act (CJAA) grants, chemical dependency/mental health
disposition alternative (CDDA), and suspended disposition alternative
(SDA). The juvenile rehabilitation administration shall follow the
following formula and must prioritize evidence-based programs and
disposition alternatives and take into account juvenile courts
program-eligible youth in conjunction with the number of youth served
in each approved evidence-based program or disposition alternative:
(i) Thirty-seven and one-half percent for the at-risk population of
youth ten to seventeen years old; (ii) fifteen percent for the
assessment of low, moderate, and high-risk youth; (iii) twenty-five
percent for evidence-based program participation; (iv) seventeen and

courts, through the community juvenile accountability act committee,
based on the criteria established in consultation with Washington
state institute for public policy and the juvenile courts.

(c) If Second Substitute House Bill No. 1280 (referred and
diverted youth) is enacted, then the administration must implement a
stop-loss policy when allocating funding under (b) of this subsection
in the 2017-2019 fiscal biennium. Under the stop-loss policy, funding
formula changes may not result in a funding loss for any juvenile
court of more than two percent from one year to the next. The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10 – 17. The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. If the bill is not enacted by July 31, 2017, this subsection is null and void.

(d) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(e) The juvenile courts and administrative office of the courts must collect and distribute information and provide access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts must work collaboratively to develop program outcomes that reinforce the greatest cost/benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(5) $98,000 of the general fund—state appropriation for fiscal year 2018 and $98,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to the juvenile block grant funding formula oversight committee described in subsection (4)(d) of this section to contract with research entities to: (a) Assist juvenile justice programs identified as promising practices or
research-based in undergoing the research necessary to demonstrate that the program is evidence-based; and (b) establish an annual, county-level evaluation of existing evidence-based juvenile justice programs.

Applicants composed of, at a minimum, one or more local governmental entities and one or more nonprofit, nongovernmental organizations that have a documented history of creating and administering effective criminal street gang prevention and intervention programs may apply for funding under this subsection. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services on the youth and the community.

(9) The juvenile rehabilitation institutions may use funding appropriated in this subsection to purchase goods and supplies through hospital group purchasing organizations when it is cost-effective to do so.

(10) $75,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the department to coordinate the examination of data associated with juvenile gang and firearm offenses. The review of data must include information from the administrative office of the courts, the office of the superintendent of public instruction, the office of financial management—education research data center, the Washington association of sheriffs and
police chiefs, the caseload forecast council, and the department of corrections. For the purpose of carrying out the data review, named organizations are authorized to share data to include details of criminal arrest and conviction data. The department shall report to the governor and the appropriate legislative committees by February 1, 2018, with any recommendations for public policy that increases public safety.

Sec. 1103. 2018 c 299 s 204 (uncodified) is amended to read as follows:

Dedicated Marijuana Account—State Appropriation
  (FY 2018).................................................. $3,684,000
Pension Funding Stabilization Account—State
  Appropriation................................................. $39,000
  TOTAL APPROPRIATION.................................... $875,854,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) For the purposes of this subsection, amounts provided for behavioral health organizations shall also be available for the health care authority to contract with entities that assume the responsibilities of behavioral health organizations in regions in which the health care authority is purchasing medical and behavioral
health services through fully integrated contracts pursuant to RCW 71.24.380.

(b) $6,590,000 of the general fund—state appropriation for fiscal year 2018 and $3,810,000 of the general fund—federal appropriation are provided solely for the department and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the department shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (f) of this subsection. The department and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) From the general fund—state appropriations in this subsection, the department shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(d) $1,760,000 of the general fund—federal appropriation is provided solely for the department to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities. The department must collect data and submit a report to the office of financial management and the appropriate committees of the legislature on the impact of peer staff on state hospital discharges and community placements by December 1, 2017.

(e) $11,405,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as
institutions of mental diseases. The department must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2018 capitation rates because they exceeded the amounts allowed under federal regulations. The department must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee for service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The department must apply for a waiver from the center for medicaid and medicare services to allow for the full cost of stays in institutions of mental diseases to be included in fiscal year 2019 behavioral health organization capitation rates. The department may tailor the fiscal year 2019 waiver to specific populations for which the center for medicaid and medicare services has indicated they are likely to approve and work to further expand the waiver to other populations in fiscal year 2020. The department must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2017.

(f) $81,930,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The department must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that
are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(g) The department is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(h) $1,125,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(A) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(C) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(D) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) $1,204,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the...
level of crisis and commitment, community inpatient, residential
care, and outpatient services presently available to persons not
eligible for medicaid.

(k) $2,291,000 of the general fund—state appropriation for
fiscal year 2018 is provided solely for mental health services for
mentally ill offenders while confined in a county or city jail and
for facilitating access to programs that offer mental health services
upon release from confinement. The department must collect
information from the behavioral health organizations on their plan
for using these funds, the numbers of individuals served, and the
types of services provided and submit a report to the office of
financial management and the appropriate fiscal committees of the
legislature by December 1st of each year of the biennium.

(l) Within the amounts appropriated in this section, funding is
provided for the department to develop and phase in intensive mental
health services for high needs youth consistent with the settlement

(m) The department must establish minimum and maximum funding
levels for all reserves allowed under behavioral health organization
contracts and insert contract language that clearly states the
requirements and limitations. The department must monitor and ensure
that behavioral health organization reserves do not exceed maximum
levels. The department must monitor behavioral health organization
revenue and expenditure reports and must require a behavioral health
organization to submit a corrective action plan on how it will spend
its excess reserves within a reasonable period of time, when its
reported reserves exceed maximum levels established under the
contract. The department must review and approve such plans and
monitor to ensure compliance. If the department determines that a
behavioral health organization has failed to provide an adequate
excess reserve corrective action plan or is not complying with an
approved plan, the department must reduce payments to the behavioral
health organization in accordance with remedial actions provisions
included in the contract. These reductions in payments must continue
until the department determines that the behavioral health
organization has come into substantial compliance with an approved
excess reserve corrective action plan.

(n) $2,309,000 of the general fund—state appropriation for
fiscal year 2018 and $2,169,000 of the general fund—federal
appropriation are provided solely for the department to increase rates for community hospitals that provide a minimum of 200 medicaid psychiatric inpatient days. The department must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The department shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rate for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(o) $100,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the department to collaborate with tribal governments and develop a plan for establishing an evaluation and treatment facility that will specialize in providing care specifically to the American Indian and Alaska Native population. The plan must include options for maximizing federal participation and, ensure that utilization will be based on medical necessity, and identify a specific geographic location where a tribal evaluation and treatment facility will be built.

(p) $1,466,000 of the general fund—state appropriation for fiscal year 2018 and $1,663,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide up to forty-eight long-term inpatient care beds as defined in RCW 71.24.025. The department must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The department must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. The department must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.
$4,983,000 of the general fund—state appropriation for fiscal year 2018 and $10,849,000 of the general fund—federal appropriation are provided solely for the department to increase medicaid capitation payments for behavioral health organizations. The department must work with the actuaries responsible for certifying behavioral health capitation rates to adjust average salary assumptions in order to implement this increase. In developing further updates for medicaid managed care rates for behavioral health services, the department must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The department must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be 557 per day. In fiscal year 2019, the department must reduce the number of beds allocated for use by behavioral health organizations at western state hospital by 30 beds to allow for the repurposing of a civil ward at western state hospital to provide forensic services. The contracted beds provided under (p) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

$11,405,000 of the general fund—state appropriation for fiscal year 2018 and $8,840,000 of the general fund—federal appropriation are provided solely to maintain enhancements of community mental health services. The department must contract these funds for the operation of community programs in which the department determines there is a need for capacity that allows individuals to be diverted or transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the
geographic areas of the King behavioral health organization, the
Spokane behavioral health organization outside of Spokane county, and
the Thurston Mason behavioral health organization; (ii) one new full
program of an assertive community treatment team in the King
behavioral health organization and two new half programs of assertive
community treatment teams in the Spokane behavioral health
organization and the Pierce behavioral health organization; and (iii)
three new recovery support services programs in the Great Rivers
behavioral health organization, the greater Columbia behavioral
health organization, and the north sound behavioral health
organization. In contracting for community evaluation and treatment
services, the department may not use these resources in facilities
that meet the criteria to be classified under federal law as
institutions for mental diseases. If the department is unable to come
to a contract agreement with a designated behavioral health
organization for any of the services identified above, it may
consider contracting for that service in another region that has the
need for such service.

(t) $200,000 of the general fund—state appropriation for fiscal
year 2018 is provided solely for clubhouse programs. The department
must develop options and cost estimates for implementation of
clubhouse programs statewide through a medicaid state plan amendment
or a medicaid waiver and submit a report to the office of financial
management and the appropriate committees of the legislature by
December 1, 2018.

(u) $212,000 of the general fund—state appropriation for fiscal
year 2018 is provided solely to fund one pilot project in Pierce
county and one in Yakima county to promote increased utilization of
assisted outpatient treatment programs. The department shall require
two behavioral health organizations to contract with local government
to establish the necessary infrastructure for the programs. The
department, in collaboration with the health care authority, shall
provide a report by October 15, 2018, to the office of financial
management and the appropriate fiscal and policy committees of the
legislature to include the number of individuals served, outcomes to
include reduced use of inpatient treatment and state hospital stays,
and recommendations for further implementation based on lessons
learned and best practices identified by the pilot projects.

(v) The department, in collaboration with the health care
authority, shall work to ensure that a single platform provider
credentialing system is implemented. The authority and department shall ensure that appropriate cost offsets and cost avoidance are assumed for reduced staff time required for provider credentialing activity and reductions in improper billing activity when implementing provider credentialing systems.

(w) No more than $6,464,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the department and the health care authority shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The department shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

The written notification must include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications and transfers.

The appropriations in this section are subject to the following conditions and limitations:

(a) $268,117,000 of the general fund—state appropriation for fiscal year 2018 and $264,704,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority to implement a single, standard medicaid preferred drug...
list to be used by all contracted medicaid managed health care systems, on or before January 1, 2018. The preferred drug list shall be developed in consultation with all contracted managed health care systems and the state pharmacy and therapeutics committee or drug utilization review board and shall further the goals and objectives of the medicaid program. The list shall be designed to maximize federal rebates and supplemental rebates and ensure access to clinically effective and appropriate drug therapies under each class. Entities eligible for 340B drug pricing shall continue to operate under their current pricing agreement, unless otherwise required by federal laws or regulations. The authority may utilize external consultants with expertise in evidence-based drug class reviews, pharmacy benefit management, and purchasing to assist with the completion of this development and implementation. The authority shall require each managed care organization that has contracted with the authority to provide care to medicaid beneficiaries to use the established preferred drug list; and shall prohibit each managed care organization and any of its agents from negotiating or collecting rebates for any medications listed in the state's medicaid single preferred drug list whether preferred or nonpreferred. To assist in the implementation of the single preferred drug list, contracted medicaid managed health care systems shall provide the authority drug-specific financial information in a format and frequency determined by the authority to include the actual amounts paid to pharmacies for prescription drugs dispensed to covered individuals compared to the cost invoiced to the health plan and individual rebates collected for prescription drugs dispensed to medicaid members. Information disclosed to the authority by the manufacturer pursuant to this provision shall only be used for the purposes of developing and implementing a single, standard state preferred drug list in accordance with this provision. The authority, medicaid managed care organizations, and all other parties shall maintain the confidentiality of drug-specific financial and other proprietary information and such information shall not be subject to the Washington public records act. The authority shall provide a report to the governor and appropriate committees of the legislature by November 15, 2018, and by November 15, 2019, including a comparison of the amount spent in the previous two fiscal years to expenditures under the new system by, at a minimum, fund source, total expenditure, drug class, and top twenty-five drugs. The data provided
to the authority shall be aggregated in any report by the authority, the legislature, or the office of financial management so as not to disclose the proprietary or confidential drug-specific information, or the proprietary or confidential information that directly or indirectly identifies financial information linked to a single manufacturer. It is the intent of the legislature to revisit this policy in subsequent biennia to determine whether it is in the best interest of the state.

(b) $113,356,000 of the general fund—state appropriation for fiscal year 2018 and $140,578,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for managed care capitation payments.

(c) $122,244,000 of the general fund—state appropriation for fiscal year 2018 and $116,038,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority through the competitive procurement process, to contract with licensed dental health plans or managed health care plans on a prepaid or fixed-sum risk basis to provide carved-out managed dental care services on a statewide basis that will result in greater efficiency and will facilitate better access and oral health outcomes for medicaid enrollees. Except in areas where only a single plan is available, the authority must contract with at least two plans at a single rate not to exceed the average cost of the two lowest cost apparently successful bidders. The authority shall include in the contracts: (i) Quarterly reporting requirements to include medicaid utilization and encounter data by current dental technology (CDT) code; (ii) a direction to increase the dental provider network; (iii) a commitment to retain innovative programs that improve access and care such as the access to baby and child dentistry program; (iv) a program to reduce emergency room use for dental purposes; (v) a requirement to ensure that dental care is being coordinated with the primary care provider of the patient to ensure integrated care; (vi) a provision that no less than eighty-five percent of the contracting fee be used to directly offset the cost of providing direct patient care as opposed to administrative costs; and (vii) a provision to ensure the contracting fee shall be sufficient to compensate county health departments and federally qualified health centers for dental patient care. The plan(s) awarded this contract must absorb all start-up costs associated with moving the program from fee-for-
service to managed care and shall commit to achieving an overall savings to the program based on 2016 fee-for-service experience. In order to comply with state insurance underwriting standards, the authority shall ensure that savings offered by dental plans are actuarially sound. In order to ensure compliance with the provisions of this subsection, any contracts awarded must be reviewed and signed by the director of the office of financial management or their designee. Starting January 31, ((2019)) 2020, and every year thereafter through December ((2024)) 2025, the authority shall submit an annual report to the governor and the appropriate committees of the legislature detailing how the contracted entities have met the requirements of the contract. The report shall include specific information to include utilization, how the contracted entities have increased their dental provider networks, how the emergency room use for dental purposes has been reduced, and how dental care has been integrated with patients' primary care providers. If after the end of five years the data reported does not demonstrate sufficient progress to address the stated contracted goals, the legislature will reevaluate whether carved-out dental managed care needs to be replaced with a different delivery model. The authority is authorized to seek any necessary state plan amendments or federal waivers to implement this subsection. Additional dental program savings achieved by the plans beyond those assumed in the ((2017-2019)) 2019-2021 omnibus appropriations act will be used to increase dental provider reimbursement rates. By October 30, 2018, the authority shall report to the governor and the appropriate committees of the legislature anticipated savings related to reduction in dental emergency department visits and utilization once managed care dental coverage begins.

(d) $1,505,087,000 of the general fund—state appropriation for fiscal year 2018 and $1,538,030,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for medicaid services and the medicaid program. However, the authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in (e) and (f) of this subsection until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management.
The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (i) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (ii) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (iii) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (iv) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement.

(e) No more than $486,683,000 of the general fund—federal appropriation and no more than $129,103,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be.
authorized to access. The authority shall not increase general fund—
state expenditures under this initiative. The director shall report
to the joint select committee on health care oversight no less than
quarterly, and include details for each accountable community of
health, on the financial status and measurable health outcomes. The
director shall also report to the fiscal committees of the
legislature all of the expenditures under this subsection and shall
provide such fiscal data in the time, manner, and form requested by
the legislative fiscal committees. By December 15, 2019, the
authority in collaboration with each accountable community of health
shall demonstrate how it will be self-sustaining by the end of the
demonstration waiver period, including sources of outside funding,
and provide this reporting to the joint select committee on health
care oversight. If by the third year of the demonstration waiver
there are not measurable, improved patient outcomes and financial
returns, the Washington state institute for public policy will
conduct an audit of the accountable communities of health, in
addition to the process set in place through the independent
evaluation required by the agreement with centers for medicare and
medicaid services. Prior to the 2018 legislative session, the human
services, health care, and judiciary committees of the legislature
will convene a joint work session to review models in the delivery
system and the impacts on medical liability. The work sessions should
include integrated delivery models with multiple health care
providers and medical malpractice insurance carriers. Beginning May
1, 2019, participation in all initiatives under the medicaid
transformation demonstration waiver is frozen at current
participation levels. No new participants may be added to any
initiative under this demonstration waiver without further federal
approval.
(f) No more than $38,425,000 of the general fund—federal
appropriation may be expended for supported housing and employment
services described in initiative 3a and 3b of the medicaid
transformation demonstration waiver under healthier Washington. Under
this initiative, the authority and the department of social and
health services shall ensure that allowable and necessary services
are provided to eligible clients as identified by the department or
its third party administrator. The authority and the department in
consultation with the medicaid forecast work group, shall ensure that
reasonable reimbursements are established for services deemed
necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. Beginning May 1, 2019, the authority shall freeze participation in initiatives 3a and 3b at the current level of enrollment. No new participants may be added without further federal approval.

(g) No later than November 1, 2018, and each year thereafter, the authority shall report to the governor and appropriate committees of the legislature: (i) Savings attributed to behavioral and physical integration in areas that are scheduled to integrate in the following calendar year, and (ii) savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(h) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(i) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(j) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.
(k) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(l) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(m) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(n) $4,261,000 of the general fund—state appropriation for fiscal year 2018, $4,261,000 of the general fund—state appropriation for fiscal year 2019, and $8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(o) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(p) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements...
shall be at the health care authority's discretion. During either the
interim cost settlement or the final cost settlement, the health care
authority shall recoup from the public hospital districts the
supplemental payments that exceed the medicaid cost limit and/or the
medicare upper payment limit. The health care authority shall apply
federal rules for identifying the eligible incurred medicaid costs
and the medicare upper payment limit.

(q) The health care authority shall continue the inpatient
hospital certified public expenditures program for the 2017-2019
fiscal biennium. The program shall apply to all public hospitals,
including those owned or operated by the state, except those
classified as critical access hospitals or state psychiatric
institutions. The health care authority shall submit reports to the
governor and legislature by November 1, 2017, and by November 1,
2018, that evaluate whether savings continue to exceed costs for this
program. If the certified public expenditures (CPE) program in its
current form is no longer cost-effective to maintain, the health care
authority shall submit a report to the governor and legislature
detailing cost-effective alternative uses of local, state, and
federal resources as a replacement for this program. During fiscal
year 2018 and fiscal year 2019, hospitals in the program shall be
paid and shall retain one hundred percent of the federal portion of
the allowable hospital cost for each medicaid inpatient fee-for-
service claim payable by medical assistance and one hundred percent
of the federal portion of the maximum disproportionate share hospital
payment allowable under federal regulations. Inpatient medicaid
payments shall be established using an allowable methodology that
approximates the cost of claims submitted by the hospitals. Payments
made to each hospital in the program in each fiscal year of the
biennium shall be compared to a baseline amount. The baseline amount
will be determined by the total of (i) the inpatient claim payment
amounts that would have been paid during the fiscal year had the
hospital not been in the CPE program based on the reimbursement rates
developed, implemented, and consistent with policies approved in the
2017-2019 biennial operating appropriations act and in effect on July
1, 2015, (ii) one-half of the indigent assistance disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005, and (iii) all of the other disproportionate
share hospital payment amounts paid to and retained by each hospital
during fiscal year 2005 to the extent the same disproportionate share
hospital programs exist in the 2017-2019 fiscal biennium. If payments
during the fiscal year exceed the hospital's baseline amount, no
additional payments will be made to the hospital except the federal
portion of allowable disproportionate share hospital payments for
which the hospital can certify allowable match. If payments during
the fiscal year are less than the baseline amount, the hospital will
be paid a state grant equal to the difference between payments during
the fiscal year and the applicable baseline amount. Payment of the
state grant shall be made in the applicable fiscal year and
distributed in monthly payments. The grants will be recalculated and
redistributed as the baseline is updated during the fiscal year. The
grant payments are subject to an interim settlement within eleven
months after the end of the fiscal year. A final settlement shall be
performed. To the extent that either settlement determines that a
hospital has received funds in excess of what it would have received
as described in this subsection, the hospital must repay the excess
amounts to the state when requested. $359,000 of the general fund—
state appropriation for fiscal year 2018 and ((($361,000)) $553,000 of
the general fund—state appropriation for fiscal year 2019 are
provided solely for state grants for the participating hospitals.

(r) The health care authority shall seek public-private
partnerships and federal funds that are or may become available to
provide on-going support for outreach and education efforts under the
federal children's health insurance program reauthorization act of
2009.

(s) The health care authority shall target funding for maternity
support services towards pregnant women with factors that lead to
higher rates of poor birth outcomes, including hypertension, a
preterm or low birth weight birth in the most recent previous birth,
a cognitive deficit or developmental disability, substance abuse,
severe mental illness, unhealthy weight or failure to gain weight,
tobacco use, or African American or Native American race. The health
care authority shall prioritize evidence-based practices for delivery
of maternity support services. To the extent practicable, the health
care authority shall develop a mechanism to increase federal funding
for maternity support services by leveraging local public funding for
those services.

(t) The authority shall submit reports to the governor and the
legislature by September 15, 2018, and no later than September 15,
2019, that delineate the number of individuals in medicaid managed
Code Rev/KS:lel
care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(u) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(v) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(w) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(x) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(y) $90,000 of the general fund—state appropriation for fiscal year 2018, $90,000 of the general fund—state appropriation for fiscal year 2019, and $180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

(z) The appropriations in this section reflect savings and efficiencies by transferring children receiving medical care provided through fee-for-service to medical care provided through managed care.
(aa) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(bb) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

(cc) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(dd) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(ee) $127,000 of the general fund—state appropriation for fiscal year 2018 and $1,144,000 of the general fund—federal appropriation are provided solely to the ProviderOne provider overtime project and are subject to the conditions, limitations, and review provided in section 724 of this act.

(ff) $175,000 of the general fund—state appropriation for fiscal year 2018 and $825,000 of the general fund—federal appropriation are provided solely to the ProviderOne CORE operating rules project and are subject to the conditions, limitations, and review provided in section 724 of this act.

(gg) $1,483,000 of the general fund—state appropriation for fiscal year 2018, $1,594,000 of the general fund—state appropriation for fiscal year 2019, and $1,509,000 of the general fund—federal appropriation are provided for a rate increase effective July 1, 2018, and for performance payments to reward successful beneficiary engagement in the health homes program for fee-for-service enrollees and these are the maximum amounts in each fiscal year the authority may expend for this purpose.
(hh) $450,000 of the general fund—state appropriation for fiscal year 2018, $450,000 of the general fund—state appropriation for fiscal year 2019, and $1,058,000 of the general fund—federal appropriation are provided solely for the authority to hire ten nurse case managers to coordinate medically assisted treatment and movements to medical homes for those being treated for opioid use disorder. Nurses shall be located in areas and provider settings with the highest concentration of opioid use disorder patients.

(ii) Sufficient amounts are appropriated in this section for the authority to provide a collaborative care benefit beginning July 1, 2017.

(jj) The authority and the department of social and health services shall convene a work group consisting of representatives of skilled nursing facilities, adult family homes, assisted living facilities, managers of in-home long-term care, hospitals, and managed health care systems. The work group shall identify barriers that may prevent skilled nursing facilities from accepting and admitting clients from acute care hospitals in a timely and appropriate manner. The work group shall consider what additional resources are needed to allow for faster transfers of enrollees, including those with complex needs. (b) $6,590,000 of the general fund—state appropriation for fiscal year 2019 and $3,810,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the authority shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (f) of this subsection. The authority and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) From the general fund—state appropriations in this subsection, the authority shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(d) $1,760,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities.

(e) $6,858,000 of the general fund—state appropriation for fiscal year 2019 and $4,023,000 of the general fund—federal appropriation are provided solely for new crisis triage or stabilization centers.
The authority must seek proposals from behavioral health organizations for the use of these funds based on regional priorities. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(f) $81,930,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(g) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(h) $1,125,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;
(iii) Mental health services provided in nursing facilities to
individuals with dementia, and consultation to facility staff
treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment
facility.

At least annually, the Spokane county behavioral health
organization shall assess the effectiveness of these services in
reducing utilization at eastern state hospital, identify services
that are not optimally effective, and modify those services to
improve their effectiveness.

(i) $1,204,000 of the general fund—state appropriation for fiscal
year 2019 is provided solely to reimburse Pierce and Spokane counties
for the cost of conducting one hundred eighty-day commitment hearings
at the state psychiatric hospitals.

(j) Behavioral health organizations may use local funds to earn
additional federal medicaid match, provided the locally matched rate
does not exceed the upper-bound of their federally allowable rate
range, and provided that the enhanced funding is used only to provide
medicaid state plan or waiver services to medicaid clients.

Additionally, behavioral health organizations may use a portion of
the state funds allocated in accordance with (f) of this subsection
to earn additional medicaid match, but only to the extent that the
application of such funds to medicaid services does not diminish the
level of crisis and commitment, community inpatient, residential
care, and outpatient services presently available to persons not
eligible for medicaid.

(k) $2,291,000 of the general fund—state appropriation for fiscal
year 2019 is provided solely for mental health services for mentally
ill offenders while confined in a county or city jail and for
facilitating access to programs that offer mental health services
upon release from confinement. The authority must collect information
from the behavioral health organizations on their plan for using
these funds, the numbers of individuals served, and the types of
services provided and submit a report to the office of financial
management and the appropriate fiscal committees of the legislature
by December 1st of each year of the biennium.

(l) Within the amounts appropriated in this section, funding is
provided for the authority to develop and phase in intensive mental
health services for high needs youth consistent with the settlement

Code Rev/KS:lel 505 S-3296.1/19
(m) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(n) $3,079,000 of the general fund—state appropriation for fiscal year 2019 and $2,892,000 of the general fund—federal appropriation are provided solely for the authority to increase rates for community hospitals that provide a minimum of two hundred medicaid psychiatric inpatient days. The authority must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The authority shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rates for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(o) $100,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the authority to collaborate with tribal governments and develop a plan for establishing an evaluation
and treatment facility that will specialize in providing care specifically to the American Indian and Alaska Native population. The plan must include options for maximizing federal participation and ensure that utilization will be based on medical necessity and identify a specific geographic location where a tribal evaluation and treatment facility will be built.

(p) $7,103,000 of the general fund—state appropriation for fiscal year 2019 and $8,052,000 of the general fund—federal appropriation are provided solely for the authority to contract with community hospitals or freestanding evaluation and treatment centers to provide up to forty-eight long-term inpatient care beds as defined in RCW 71.24.025. The authority must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The authority must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

(q) $1,133,000 of the general fund—state appropriation for fiscal year 2019 and $1,297,000 of the general fund—federal appropriation are provided solely to increase the number of psychiatric residential treatment beds for individuals transitioning from psychiatric inpatient settings. The authority must seek proposals from behavioral health organizations for the use of these amounts and coordinate with the department of social and health services in awarding these funds. The authority must not allow for any of the amounts provided under this subsection to be used for services in facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

(r) $6,744,000 of the general fund—state appropriation for fiscal year 2019 and $14,516,000 of the general fund—federal appropriation are provided solely for the authority to increase medicaid capitation payments for behavioral health organizations. The authority must work with the actuaries responsible for certifying behavioral health capitation rates to adjust average salary assumptions in order to implement this increase. In developing further updates for medicaid managed care rates for behavioral health services, the authority must require the contracted actuaries to: (i) Review and consider
comparison of salaries paid by government agencies and hospitals that compete with community providers for behavioral health workers in developing salary assumptions; and (ii) review data to see whether a specific travel assumption for high congestion areas is warranted. The authority must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The authority must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

(s) The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be one hundred ninety two per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be five hundred fifty-seven per day. In fiscal year 2019, the authority must reduce the number of beds allocated for use by behavioral health organizations at western state hospital by thirty beds to allow for the repurposing of a civil ward at western state hospital to provide forensic services. The contracted beds provided under (p) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

(t) $11,405,000 of the general fund—state appropriation for fiscal year 2019 and $8,840,000 of the general fund—federal appropriation are provided solely to maintain enhancements of community mental health services. behavioral health organization and two new half programs of assertive community treatment teams in the Spokane behavioral health organization and the Pierce behavioral health organization; and (iii) three new recovery support services programs in the Great Rivers behavioral health organization, the greater Columbia behavioral health organization, and the north sound behavioral health organization. In contracting for community evaluation and treatment services, the authority may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the authority is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

(u) $1,296,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for clubhouse programs. The authority shall ensure that $400,000 is used for the biennium for support of the Spokane clubhouse program and the remaining funds must be used for support of new clubhouse programs. The authority must develop options and cost estimates for implementation of clubhouse programs statewide through a medicaid state plan amendment or a medicaid waiver and submit a report to the office of financial management and the appropriate committees of the legislature by December 1, 2018.

(v) $213,000 of the general fund—state appropriation for fiscal year 2019 is provided solely to fund one pilot project in Pierce county and one in Yakima county to promote increased utilization of assisted outpatient treatment programs. The authority shall require two behavioral health organizations to contract with local government to establish the necessary infrastructure for the programs. The authority shall provide a report by October 15, 2018, to the office of financial management and the appropriate fiscal and policy committees of the legislature to include the number of individuals served, outcomes to include reduced use of inpatient treatment and state hospital stays, and recommendations for further implementation based on lessons learned and best practices identified by the pilot projects.

(x) During fiscal year 2019, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

Contracts with behavioral health organizations must require that behavioral health organizations include in their provider network specialized expertise in the provision of...
manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(kk) $562,000 of the general fund—federal appropriation is provided solely for the authority to develop a memorandum of understanding with the department of health for implementation of chapter 297, Laws of 2017 (ESHB 1427) (opioid treatment programs). The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with a behavioral health organization or administrative services organization to administer these funds.
consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). The authority must provide a report to the office of financial management and the appropriate committees of the legislature which identifies the distribution of criminal justice treatment account funds by September 30, 2018.

(pp) $23,090,000 of the general fund—state appropriation for fiscal year 2019 and $46,222,000 of the general fund—federal appropriation are provided solely for the enhancement of community-based behavioral health services. This funding must be allocated to behavioral health organizations proportionate to their regional population. In order to receive these funds, each region must submit a plan to address the following issues: (i) Reduction in their use of long-term commitment beds through community alternatives; (ii) compliance with RCW 71.05.365 requirements for transition of state hospital patients into community settings within fourteen days of the determination that they no longer require active psychiatric treatment at an inpatient level of care; (iii) improvement of staff recruitment and retention in community behavioral health facilities; (iv) diversion of individuals with behavioral health issues from the criminal justice system; and (v) efforts to improve recovery oriented services, including, but not limited to, expansion of clubhouse models. Twenty percent of the general fund—state appropriation amounts for each behavioral health organization must be used to increase their nonmedicaid funding and the remainder must be used to increase medicaid rates up to but not exceeding the top of each behavioral health organizations medicaid rate range.

(qq) $11,023,000 of the general fund—state appropriation for fiscal year 2019 is provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The authority must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from
behavioral health organization fiscal year 2019 capitation rates because they exceeded the amounts allowed under federal regulations. The authority must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee-for-service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The authority must explore options for continuing to expand waivers which allow for federal matching funds to be used in these facilities. The authority must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2018.

(rr) $14,500,000 of the general fund—state appropriation for fiscal year 2019 is provided solely to ensure a smooth transition to integrated managed care for behavioral health regions and to maintain the existing level of regional behavioral health crisis and diversion programs, and other required behavioral health administrative service organization services. These amounts must be used to support the regions transitioning to become mid-adopters for full integration of physical and behavioral health care. These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is $3,175 per 1,000 residents. These amounts must be used to provide a reserve for nonmedicaid services in the region and to stabilize the new crisis services system. The authority must require all behavioral health organizations transitioning to full integration to either spend down or return all reserves in accordance with contract requirements and federal and state law. Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for start-up costs in full integration regions. The authority must ensure that any increases in expenditures in behavioral health reserve spend-down plans are required for the operation of services during the contract period and do not result in overpayment to providers.
(ss) $806,000 of the general fund—federal appropriation is provided solely for the authority to develop a peer support program for individuals with substance use disorders. These amounts must be used for development of training and certification of peers specialists. The authority must submit a state plan amendment which provides for these services to be included in behavioral health capitation rates beginning in fiscal year 2020 and allows for federal matching funds to be leveraged for these services.

(tt) $200,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the authority, in collaboration with the department of social and health services, to further develop efforts to shift funding and risk for most civil long-term inpatient commitments into fully integrated care contracts beginning in January 2020. The funding and risk for patients at the state hospitals who have been committed pursuant to dismissal of felony charges after being determined incompetent to stand trial shall not be incorporated into integrated care contracts.

(i) By December 1, 2018, the authority, in coordination with the department of social and health services, must submit a report to the office of financial management and the appropriate committees of the legislature on the following: (A) Actuarial estimates on the impact to per member per month payments and estimated annual state and federal costs for medicaid managed care organizations with fully integrated contracts; (B) actuarial estimates on the estimated annual costs for administrative services organizations; (C) estimates of the per-diem cost at the state hospitals that will be charged to entities with responsibility for paying for long-term civil inpatient commitments once these are incorporated into fully integrated care contracts; and (D) estimates of the amount of funding that can be reduced from direct appropriations for the state hospitals to reflect the shift in financial responsibility.

(ii) The authority must also explore and report on options for fully leveraging the state's share of federal medicaid disproportionate share funding allowed for institutions of mental diseases, including but not limited to: (A) Prioritizing the use of this funding for forensic patients and those civilly committed pursuant to dismissal of a felony charge; (B) obtaining an institution for mental diseases—disproportionate share hospital waiver to allow for regular medicaid federal financial participation.
to be used at the state hospitals; and (C) shifting some of the state's current disproportionate share funding used at the state hospitals to community-based institutions for mental diseases to reduce the state cost of patients for whom regular federal medicaid match is not allowed.

(uu) $2,732,000 of the general fund—state appropriation for fiscal year 2019 and $9,026,000 of the general fund—federal appropriation are provided solely for the authority to implement strategies to improve access to prevention and treatment of opioid use disorders. The authority may use these funds for the following activities: (i) Expansion of hub and spoke treatment networks; (ii) expansion of pregnant and parenting case management programs; (iii) grants to tribes to prevent opioid use and expand treatment for opioid use disorders; (iv) development and implementation of a tool to track medication assisted treatment provider capacity; (v) support of drug take-back programs which allow individuals to return unused opioids and other drugs for safe disposal; (vi) purchase and distribution of opioid reversal medication; and (vii) maintaining support for youth prevention services. The authority must coordinate these activities with the department of health to avoid duplication of effort and must work to identify additional federal resources that can be used to maintain and expand these efforts. The authority must submit a report to the office of financial management and the appropriate committees of the legislature on the status of these efforts by December 1, 2018. The report must include identification of any increase in behavioral health federal block grants or other federal funding awards received by the authority and the plan for the use of these funds.

(vv) $150,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the authority to contract with actuaries to develop estimates for the cost of implementing new behavioral health service types in the medicaid state plan. The authority must coordinate with behavioral health organizations to identify: (i) Eligible behavioral health service types that are currently provided to medicaid enrollees without federal funding and are dependent on state, local, or other funds; and (ii) eligible behavioral health service types that are not currently available to medicaid enrollees due to the lack of federal funding. The authority must contract with the actuaries responsible for certifying state
behavioral health capitation rates to develop estimates for the cost of implementing each of these services. The estimates must identify the cost of implementing each service statewide, the estimated state and federal medicaid cost, and any estimated offset in state non-medicaid spending. The authority must submit a report to the office of financial management and the appropriate committees of the legislature identifying the services and costs estimates by November 1, 2018.

(ww) $446,000 of the general fund—state appropriation for fiscal year 2019 and $89,000 of the general fund—federal appropriation are provided solely for the University of Washington's evidence-based practice institute which supports the identification, evaluation, and implementation of evidence-based or promising practices. The institute must work with the authority to develop a plan to seek private, federal, or other grant funding in order to reduce the need for state general funds. The authority must collect information from the institute on the use of these funds and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(xx) No more than $13,098,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the department and the health care authority shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The department shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2017-18 and 2018-19 school years for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b) and the increased allocations provided pursuant to subsections (2) and (4) of this section, by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.

(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same staff unit per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students.
in the same grade in this subsection (5) by 12.29 percent in the
2017-18 school year and 12.29 percent in the 2018-19 school year for
career and technical education students, and 17.61 percent in the
2017-18 school year and 17.61 percent in the 2018-19 school year for
skill center students.

(6) FRINGE BENEFIT ALLOCATIONS

Fringe benefit allocations shall be calculated at a rate of 23.49
percent in the 2017-18 school year and \((23.65)\) 23.70 percent in the
2018-19 school year for certificated salary allocations provided
under subsections (2), (3), and (5) of this section, and a rate of
24.60 percent in the 2017-18 school year and \((24.67)\) 24.70 percent
in the 2018-19 school year for classified salary allocations provided
under subsections (4) and (5) of this section.

(7) INSURANCE BENEFIT ALLOCATIONS

Insurance benefit allocations shall be calculated at the
maintenance rate specified in section 504 of this act, based on the
number of benefit units determined as follows:
(a) The number of certificated staff units determined in
subsections (2), (3), and (5) of this section; and
(b) The number of classified staff units determined in
subsections (4) and (5) of this section multiplied by 1.152. This
factor is intended to adjust allocations so that, for the purpose of
distributing insurance benefits, full-time equivalent classified
employees may be calculated on the basis of 1,440 hours of work per
year, with no individual employee counted as more than one full-time
equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

Funding is allocated per annual average full-time equivalent
student for the materials, supplies, and operating costs (MSOC)
incurred by school districts, consistent with the requirements of RCW
28A.150.260.
(a)(i) MSOC funding for general education students are allocated
at the following per student rates:

(b) The superintendent of public instruction shall require all districts receiving general apportionment funding for alternative learning experience (ALE) programs as defined in WAC 392-121-182 to provide separate financial accounting of expenditures for the ALE programs offered in district or with a provider, including but not limited to private companies and multidistrict cooperatives, as well as accurate, monthly headcount and FTE enrollment claimed for basic education, including separate counts of resident and nonresident students.

(13) ADDITIONAL FUNDING FOR SMALL SCHOOL DISTRICTS AND REMOTE AND NECESSARY PLANTS

For small school districts and remote and necessary school plants within any district which have been judged to be remote and necessary by the superintendent of public instruction, additional staff units are provided to ensure a minimum level of staffing support. Additional administrative and certificated instructional staff units provided to districts in this subsection shall be reduced by the general education staff units, excluding career and technical education and skills center enhancement units, otherwise provided in subsections (2) through (5) of this section on a per district basis.

(a) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the superintendent of public instruction and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than
one hundred eighty students, an additional one-half of a classified staff unit; and

(g) School districts receiving additional staff units to support small student enrollments and remote and necessary plants under this subsection (13) shall generate additional MSOC allocations consistent with the nonemployee related costs (NERC) allocation formula in place for the 2010-11 school year as provided section 502, chapter 37, Laws of 2010 1st sp. sess. (2010 supplemental budget), adjusted annually for inflation.

(14) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(15) The superintendent may distribute funding for the following programs outside the basic education formula during fiscal years 2018 and 2019 as follows:

(a) $638,000 of the general fund—state appropriation for fiscal year 2018 and $650,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW.

(b) $436,000 of the general fund—state appropriation for fiscal year 2018 and $436,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs.

(16) $225,000 of the general fund—state appropriation for fiscal year 2018 and $229,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for school district emergencies as certified by the superintendent of public instruction. Funding provided must be conditioned upon the written commitment and plan of the school district board of directors to repay the grant with any
insurance payments or other judgments that may be awarded, if applicable. At the close of the fiscal year the superintendent of public instruction shall report to the office of financial management and the appropriate fiscal committees of the legislature on the allocations provided to districts and the nature of the emergency.

(17) Funding in this section is sufficient to fund a maximum of 1.6 FTE enrollment for skills center students pursuant to chapter 463, Laws of 2007.

(18) Students participating in running start programs may be funded up to a combined maximum enrollment of 1.2 FTE including school district and institution of higher education enrollment consistent with the running start course requirements provided in chapter 202, Laws of 2015 (dual credit education opportunities). In calculating the combined 1.2 FTE, the office of the superintendent of public instruction may average the participating student's September through June enrollment to account for differences in the start and end dates for courses provided by the high school and higher education institution. Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the student achievement council, and the education data center, shall annually track and report to the fiscal committees of the legislature on the combined FTE experience of students participating in the running start program, including course load analyses at both the high school and community and technical college system.

(19) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (13) of this section, the following apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (13) of this section shall be reduced in increments of twenty percent per year.

(20)(a) Indirect cost charges by a school district to approved career and technical education middle and secondary programs shall
not exceed the lesser of five percent or the cap established in federal law of the combined basic education and career and technical education program enhancement allocations of state funds. Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

(21) Funding in this section is sufficient to provide full general apportionment payments to school districts eligible for federal forest revenues as provided in RCW 28A.520.020. For the 2017-2019 biennium, general apportionment payments are not reduced for school districts receiving federal forest revenues.

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.
(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this part V, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The salary allocations established in this section are for allocation purposes only except as provided in this subsection, and do not entitle an individual staff position to a particular paid salary except as provided in RCW 28A.400.200, as amended by House Bill No. 2242 (fully funding the program of basic education).

(8) For school year 2018-19, the salary allocations for each district shall be the greater of:

(b) The derived salary allocations for school year 2017-18 increased by 2.3 percent.

Sec. 1404. 2018 c 299 s 504 (uncodified) is amended to read as follows:

(1) The salary increases provided in this section are inclusive of and above the annual cost-of-living adjustments pursuant to RCW 28A.400.205.

(2) In addition to salary allocations specified in this subsection (1) funding in this subsection includes one day of professional learning for each of the funded full-time equivalent certificated instructional staff units in school year 2018-19. Nothing in this section entitles an individual certificated instructional staff to any particular number of professional learning days.

(3)(a) The appropriations in this section include associated incremental fringe benefit allocations at 22.85 percent for the 2017-18 school year and 23.06 percent for the 2018-19 school year for certificated instructional and certificated administrative staff and 21.10 percent for the 2017-18 school year and 21.20 percent for the 2018-19 school year for classified staff.

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;
(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Stormwater pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against recontamination; or (C) prevent hazardous clean-up sites;

(iv) Hazardous waste plans and programs under chapter 70.105 RCW;

(v) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vi) Petroleum-based plastic or expanded polystyrene foam debris cleanup activities in fresh or marine waters; and

(vii) Appropriations to the state toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170, if the legislature determines that priorities for spending exceed available funds in those accounts.

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government stormwater planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and
(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;
(vii) When pending grant applications under (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 and the 2015-2017 fiscal biennia, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remediying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the
expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

(10) During the 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for the stormwater financial assistance program administered by the department of ecology.

(11) During the 2017-2019 fiscal biennium:

(a) The state toxics control account, the local toxics control account, and the environmental legacy stewardship account may be used for interchangeable purposes and funds may be transferred between accounts to accomplish those purposes.

(b) The legislature may direct the state treasurer to make transfers of moneys in the state toxics control account to the water pollution control revolving account.

(c) The legislature may direct the state treasurer to make transfers of money in the state toxics control account and the local toxics control account to the general fund.

NEW SECTION. Sec. 1802. Section 952 of this act expires September 1, 2019.

NEW SECTION. Sec. 1803. Section 953 of this act takes effect September 1, 2019.
