Omnibus Operating Budget Overview Context

The 2019 legislature started the 2019-21 biennial budget process with $5.6 billion more projected revenue than the 2018 legislature did for the preceding 2017-19 biennium\(^1\). Over the same time, the projected costs for continuing current programs and other mandatory cost adjustments into the 2019-21 biennium from 2017-19 increased by $5.8 billion. These added costs do not include new fiscal and policy issues facing the 2019 legislature such as behavioral health, special education, implementation of the School Employee Benefit program, collective bargaining agreements, federal oversight of Western State Hospital and the Residential Habilitation Centers (RHCs), and other issues.

Proposed Final Budget Proposal

The Proposed Final budget (Engrossed Substitute House Bill 1109) increases spending by $7.8 billion in state General Fund, Education Legacy Trust Account, and the Washington Opportunity Pathways Account (NGF-O) above the 2017-19 biennial budget adjusted for the 2018 Supplemental. The $7.8 billion increase includes the $5.8 billion in current obligations as discussed above as well as $1.9 billion in net new spending. This proposal would bring NGF-O spending to $52.4 billion ($99.6 billion total funds) in 2019-21. This does not include $393 million in additional spending for higher education programs found in Engrossed Second Substitute House Bill 2158 (Workforce Education Investment).

Of the $7.8 billion in net spending, K-12 education represents $4.5 billion or 60 percent of the increase due to fully implementing McCleary costs and a $936 million increase in special education over 2017-19 levels. Long-term care, developmental disabilities, behavioral health and low-income health care account for $1.8 billion (22 percent) and debt for existing and new capital budgets is $132 million (2 percent).

Major savings or spending constraints from the 2019-21 base budget include: (1) $102 million in savings from expanded program integrity initiatives in the area of managed care and (2) $23 million in savings from modifying spending within agencies and institutions to lower the cost of overtime, travel, equipment, and other costs.

Resource Changes:

ESHB 1109 is supported with $423 million in net new revenue legislation ($495 in increases and $135 million in decreases) and $189 million in net new transfers and budget driven revenue. The major new revenue legislation increases include (1) $244 million from Graduated Real Estate Excise Tax (Senate Bill 5998); (2) $133 million from a 1.2 percent business and occupation tax on certain financial institutions; (4) $63 million in savings from state property taxes redirected to the Education Legacy Trust Account; reduced extraordinary; (5) $59 million from changes to international investment management services; and (6) $59 million from changes from non-resident sales tax exemption and the preferential tax rate for tour operators.

The major new revenue legislation decreases include (1) $51 million in a state sales tax credit for affordable or supportive housing; (2) $20 million for low-income senior citizens and disabled veterans; and (3) $15 million business and occupation tax exemption for qualifying hospitals.

The projected ending fund balance at the end of 2019-21 is $446 million and $2.79 billion in total reserves.

For a more comprehensive summary of each budget area and revenue see the Functional Areas of Government pages that follow. Detailed changes can be seen in the agency detail document.

\(^1\) Revenues refer to the State General Fund, Education Legacy Trust, and Opportunity Pathways (NGF-O) adjusted for the 2018 Supplemental.
The Four-Year Outlook

The Proposed Final Budget, under the provisions of the four-year budget outlook (Chapter 8, Laws of 2012), is projected to end the 2021-23 biennium with $102 million in NGF-O ending fund balance and $3.1 billion in total reserves.
