26 institute US as of the effective date of this section;

27 (B) The life-cycle cost of the project;

38 populations, provided those projects are located in an area with an
39 identified need for the type of housing proposed.

 2 the following for every previous funding cycle: The number of
 3 homeownership and multifamily rental projects funded by housing trust

 14 part of its cost containment policy.

15 (b) Beginning December 1, 2019, and continuing annually, the
 16 department must provide the legislature with a report of its final
 17 cost data for each project under this section. Such cost data must,
 18 at a minimum, include total development cost per unit for each
 19 project completed within the past year, descriptive statistics such
 20 as average and median per unit costs, regional cost variation, and
 21 other costs that the department deems necessary to improve cost
 22 controls and enhance understanding of development costs. The
 23 department must coordinate with the housing finance commission to
 24 identify relevant development costs data and ensure that the measures
 25 are consistent across relevant agencies.

23 energy sources, energy efficiency, energy equipment, and utility
24 services.

25 (a) Projects must be implemented by public and private electrical
26 utilities that serve retail customers in the state. Priority must be
27 given to: (i) Projects that benefit vulnerable populations, including
28 tribes and communities with high environmental or energy burden; and

32 businesses, tribes, and nonprofit organizations in applying for
33 funding.

34 (b) The department shall develop a grant application process to
35 competitively select projects for grant awards, to include scoring
36 conducted by a group of qualified experts with application of
37 criteria specified by the department. In development of the
38 application criteria, the department shall, to the extent possible,
39 allow smaller utilities or consortia of small utilities to apply for

3 NEW SECTION. **Sec. 3062.** A new section is added to 2019 c 413
4 (uncodified) to read as follows:

5 **FOR THE DEPARTMENT OF FISH AND WILDLIFE**

6 (1) Nothing in this section alters the obligation set forth in
7 the permanent injunction, including the compliance deadline, entered
8 on March 29, 2013, in *United States v. Washington*, sub-proceeding
9 01-1 (Culverts), or the guidelines for compliance within the
10 specified timeline with the permanent injunction as developed by the
11 state agencies during the implementation process.

12 (2) Nothing in this section creates an obligation on the part of
13 the state to provide funding for corrections for nonstate-owned
14 culverts. Nothing in this section precludes the state from providing
15 funding for corrections for nonstate-owned culverts.

16 (3) In order to provide recommendations, the Brian Abbott fish
17 barrier removal board must develop a comprehensive statewide culvert
18 remediation plan that works in conjunction with the state approach
19 and that fully satisfies the requirements of the *United States v.*
20 *Washington* permanent injunction and makes both local and state
21 funding recommendations for additional nonstate barrier corrections
22 across state culvert correction programs that maximize the fisheries
23 habitat gain and other benefits to prey available for southern
24 resident killer whale and salmon recovery.

25 (4) The comprehensive statewide culvert remediation plan must be
26 consistent with the principles and requirements of the *United States*
27 *v. Washington* permanent injunction and RCW 77.95.180 and must achieve
28 coordinated investment strategy goals of permanent injunction
29 compliance and the following additional resource benefits. The
30 Brian Abbott fish barrier removal board chair, representing the board
31 and the appropriate department of fish and wildlife executive
32 management, shall consult with tribes to develop a watershed
33 approach. Provided it is consistent with the *United States v.*
34 *Washington* permanent injunction, prioritization of barrier
35 corrections must be developed on a watershed basis and must maximize
36 the following resource priorities:

37 (a) Stocks that are listed as threatened or endangered under the
38 federal endangered species act;

1 (b) Stocks that contribute to protection and recovery of southern
2 resident orca whales;

3 (c) Critical stocks of anadromous fish that limit or prevent
4 harvest of anadromous fish, as identified in the Pacific salmon
5 treaty; and

6 (d) Weak stocks of anadromous fish that limit or prevent harvest
7 of anadromous fish, as determined in North of Cape Falcon process.

8 (5) The comprehensive statewide culvert remediation plan must
9 include recommendations on methods and procedures for state agencies
10 and local governments to complete and maintain accurate barrier
11 inventories. This plan must also allow for efficient bundling of
12 projects to minimize disruption to the public due to construction as
13 well as adjustments in response to obstacles and opportunities
14 encountered during delivery.

15 (6) The Brian Abbott fish barrier removal board must also:

16 (a) Provide to the office of financial management and the fiscal
17 committees of the legislature its recommendation as to statutory or
18 policy changes, or budget needs for the board or state capital budget
19 programs, for better implementation and coordination among the
20 state's culvert correction programs by January 15, 2021; and

21 (b) Develop a plan to seek and maximize the chances of success of
22 significant federal investment in the comprehensive statewide culvert
23 remediation plan.

24 (7) It is the intent of the legislature that, in developing
25 future budgets, state agencies administering state culvert correction
26 programs will recommend, to the maximum extent possible, funding in
27 their culvert correction programs for correction of barriers that are
28 part of the comprehensive statewide culvert remediation plan
29 developed by the Brian Abbott fish barrier removal board under this
30 section.

31 (8) By November 1, 2020, and March 1, 2021, the Brian Abbott fish
32 barrier removal board and the department of transportation must
33 provide updates on the development of the statewide culvert
34 remediation plan to the office of financial management and the
35 legislative fiscal committees. The first update must include a
36 project timeline and plan to ensure that all agencies with culvert
37 correction programs are involved in the creation of the comprehensive
38 plan.

39 (9) Prior to presenting the comprehensive statewide culvert
40 remediation plan, the Brian Abbott fish barrier removal board must

1 present the status of the plan to the annual Washington state and
2 Western Washington treaty tribes fish passage barrier repair progress
3 and coordination meeting. The board must submit the comprehensive
4 statewide culvert remediation plan and the process by which it will
5 be adaptively managed over time to the governor and the legislative
6 fiscal committees by January 15, 2021.

4 2019-21 Small District Modernization Grants (92000139)

5 The appropriation in this section is subject to the following
6 conditions and limitations:

7 (1) The legislature finds that small school districts with total
8 enrollments of one thousand students or less may have school
9 facilities with significant building systems deficiencies and low
10 property values, and that raising enough funds to participate in the
11 school construction assistance program to replace or modernize their
12 school facilities would present an extraordinary tax burden on
13 property owners or would exceed allowable debt.

14 (2) \$200,000 of the appropriation is provided solely for the
15 office of the superintendent of public instruction to administer the
16 grant program and provide technical assistance to small school
17 districts seeking grants funded in this section.

18 (3) (~~(\$1,000,000)~~) \$957,000 of the appropriation is provided
19 solely for planning grants for small school districts interested in
20 seeking modernization grants in subsection (4) of this section. The
21 superintendent may prioritize planning grants for school districts
22 with the most serious building deficiencies and the most limited
23 financial capacity. Planning grants may not exceed \$50,000 per
24 district.

25 (4) The remaining portion of the appropriation is provided solely
26 for modernization grants for small school districts with significant
27 building system deficiencies and limited financial capacity with the
28 following conditions:

29 (a) The superintendent of public instruction must appoint an
30 advisory committee whose members have experience in financing and
31 managing school facilities in small school districts to assist the
32 office in designing the grant application process, developing the
33 prioritization criteria, and evaluating the grant applications.
34 Advisory committee members may not be involved in developing projects
35 or applying for grants funded in this section.

36 (b) In addition to prioritization criteria developed by the
37 office of the superintendent of public instruction and the advisory
38 committee pursuant to (4)(a) of this section, the office and the
39 advisory committee must also prioritize projects that: (i) Improve

1 student health, safety, and academic performance for the largest
2 number of students; (ii) provide the most available school district
3 resources, including in-kind resources; and (iii) make use of mass-
4 timber products, including cross-laminated timber, or aggregates and
5 concretes materials.

6 (c) The superintendent must submit a list of small school
7 district modernization projects, as prioritized by the advisory
8 committee, to the legislature by January 15, 2020. The list must
9 include: (i) A description of the project; (ii) the proposed state
10 funding level, not to exceed \$5,000,000; (iii) estimated total
11 project costs; and (iv) local funding resources. The appropriated
12 funds in this subsection may be awarded only ~~((after the legislature
13 approves the list))~~ to projects approved by the legislature, as
14 identified in LEAP capital document No. 2020-51, developed March 6,
15 2020.

16 (5) For projects in this section that are also eligible for
17 funding through the school construction assistance program, the
18 office of the superintendent of public instruction must expedite and
19 streamline the administrative requirements, timelines, and matching
20 requirements for the funds provided in this section to be used
21 promptly. Funds provided in this section plus state funds provided in
22 the school construction assistance program grant must not exceed
23 total project costs minus available local resources.

12 Washington housing trust account—state appropriation are provided
13 solely for affordable housing and preservation of affordable housing.
14 Of the amounts in this subsection:

15 (a) \$24,370,000 is provided solely for housing projects that

28 **Sec. 7003.** 2019 c 413 s 7003 (uncodified) is amended to read as
29 follows:

30 (1) To ensure that major construction projects are carried out in
31 accordance with legislative and executive intent, agencies must
32 complete a predesign for state construction projects with a total
33 anticipated cost in excess of (~~(\$5,000,000, or)~~) \$10,000,000 (~~(for~~
34 ~~higher education institutions)~~). "Total anticipated cost" means the
35 sum of the anticipated cost of the predesign, design, and
36 construction phases of the project.

37 (2) Appropriations for design may not be expended or encumbered
38 until the office of financial management has reviewed and approved
39 the agency's predesign.

1 (3) The predesign must explore at least three project
2 alternatives. These alternatives must be both distinctly different
3 and viable solutions to the issue being addressed. The chosen
4 alternative should be the most reasonable and cost-effective
5 solution. The predesign document must include, but not be limited to,
6 program, site, and cost analysis, and an analysis of the life-cycle
7 costs of the alternatives explored, in accordance with the predesign
8 manual adopted by the office of financial management.

9 (4) The office of financial management may make an exception to
10 some or all of the predesign requirements in this section ((after
11 notifying the legislative fiscal committees and waiting ten days for
12 comment by the legislature regarding the proposed exception)). The
13 office of financial management shall report any exception to the
14 fiscal committees of the legislature and include: (a) A description
15 of the major capital project for which the predesign waiver is made;
16 (b) an explanation of the reason for the waiver; and (c) a rough
17 order of magnitude cost estimate for the project's design and
18 construction.

19 (5) In deliberations related to submitting an exception under
20 this section, the office of financial management shall consider the
21 following factors:

22 (a) Whether there is any determination to be made regarding the
23 site of the project;

24 (b) Whether there is any determination to be made regarding
25 whether the project will involve renovation, new construction, or
26 both;

27 (c) Whether, within six years of submitting the request for
28 funding, the agency has completed, or initiated the construction of,
29 a substantially similar project;

30 (d) Whether there is any anticipated change to the project's
31 program or the services to be delivered at the facility;

32 (e) Whether the requesting agency indicates that the project may
33 not require some or all of the predesign requirements in this section
34 due to a lack of complexity; and

35 (f) Whether any other factors related to project complexity or
36 risk, as determined by the office of financial management, could
37 reduce the need for, or scope of, a predesign.

38 (6) If under this section some or all predesign requirements are
39 waived, the office of financial management may instead propose a

1 professional project cost estimate instead of a request for predesign
2 funding.

3 NEW SECTION. **Sec. 7004.** If Substitute House Bill No. 2936
4 (predesign) is not enacted by June 30, 2020, section 7003 of this act
5 is null and void.

6 **Sec. 7005.** RCW 43.19.501 and 2018 c 2 s 7027 are each amended to
7 read as follows:

8 The Thurston county capital facilities account is created in the
9 state treasury. The account is subject to the appropriation and
10 allotment procedures under chapter 43.88 RCW. Moneys in the account
11 may be expended for capital projects in facilities owned and managed
12 by the department in Thurston county. (~~For the 2015-2017 biennium,~~
13 ~~moneys in the account may be used for studies related to real~~
14 ~~estate.~~)

15 During the ((2017-2019)) 2019-2021 fiscal biennium, the Thurston
16 county capital facilities account may be appropriated for costs
17 associated with staffing to support capital budget and project
18 activities and lease and facility oversight activities.

19 **Sec. 7006.** 2019 c 413 s 7021 (uncodified) is amended to read as
20 follows:

21 (1) The department of enterprise services, in consultation with
22 the office of financial management, is granted the authority to sell
23 the real property known as the Tacoma Rhodes complex. The property
24 consists of the Broadway building, Market building, and parking
25 garage.

26 (2) The department may negotiate a sale with the city of Tacoma
27 for less than fair market value, but the purchase price must cover
28 appraisal costs, all debt service, all closing costs, all financing
29 contracts, and the cost of outstanding liabilities necessary to keep
30 the department whole.

31 (3) If the department and the city of Tacoma are unable to
32 negotiate agreed upon terms and execute a purchase and sale agreement
33 by December 31, 2019, the department may sell the property to any
34 purchaser for no less than fair market value.

35 (4) The terms and conditions of the sale must meet the business
36 needs of the state tenants.

1 (5) Any sale proceeds remaining after the department has
2 satisfied all of the obligations, including appraisal costs, all debt
3 service, all closing costs, all financing contracts, and the cost of
4 outstanding liabilities, must be deposited into the Thurston county
5 capital facilities account. It is the intent of the legislature to
6 use the sale proceeds for projects on the Capitol Campus.

7 NEW SECTION. **Sec. 7007.** A new section is added to 2019 c 413
8 (uncodified) to read as follows:

9 In order to accelerate the reduction of embodied carbon and
10 improve the environmental performance of construction materials,
11 agencies shall, whenever possible, review and consider embodied
12 carbon reported in environmental product declarations when evaluating
13 proposed structural materials for construction projects.

14 **Sec. 7008.** RCW 43.63A.750 and 2006 c 371 s 235 are each amended
15 to read as follows:

16 (1) A competitive grant program to assist nonprofit organizations
17 in acquiring, constructing, or rehabilitating performing arts, art
18 museums, and cultural facilities is created.

19 (2)(a) The department shall submit a list of recommended
20 performing arts, art museum projects, and cultural organization
21 projects eligible for funding to the governor and the legislature in
22 the department's biennial capital budget request beginning with the
23 2001-2003 biennium and thereafter. The list, in priority order, shall
24 include a description of each project, the amount of recommended
25 state funding, and documentation of nonstate funds to be used for the
26 project. The total amount of recommended state funding for projects
27 on a biennial project list shall not exceed twelve million dollars,
28 except that lists submitted during the 2019-2021 fiscal biennium may
29 not exceed sixteen million dollars.

30 (b) The department shall establish a competitive process to
31 prioritize applications for state assistance as follows:

32 (i) The department shall conduct a statewide solicitation of
33 project applications from nonprofit organizations, local governments,
34 and other entities, as determined by the department. The department
35 shall evaluate and rank applications in consultation with a citizen
36 advisory committee, including a representative from the state arts
37 commission, using objective criteria. The evaluation and ranking
38 process shall also consider local community support for projects and

1 an examination of existing assets that applicants may apply to
2 projects.

3 (ii) The department may establish the amount of state grant
4 assistance for individual project applications but the amount shall
5 not exceed twenty percent, or thirty-three and one-third percent for
6 lists submitted during the 2019-2021 fiscal biennium, of the
7 estimated total capital cost or actual cost of a project, whichever
8 is less. The remaining portions of the project capital cost shall be
9 a match from nonstate sources. The nonstate match may include cash,
10 the value of real property when acquired solely for the purpose of
11 the project, and in-kind contributions. The department is authorized
12 to set matching requirements for individual projects. State
13 assistance may be used to fund separate definable phases of a project
14 if the project demonstrates adequate progress and has secured the
15 necessary match funding.

16 (iii) The department shall not sign contracts or otherwise
17 financially obligate funds under this section until the legislature
18 has approved a specific list of projects. In contracts for grants
19 authorized under this section, the department shall include
20 provisions requiring that capital improvements be held by the grantee
21 for a specified period of time appropriate to the amount of the grant
22 and that facilities be used for the express purpose of the grant. If
23 the grantee is found to be out of compliance with provisions of the
24 contract, the grantee shall repay to the state general fund the
25 principal amount of the grant plus interest calculated at the rate of
26 interest on state of Washington general obligation bonds issued most
27 closely to the date of authorization of the grant.

28 **Sec. 7009.** 2019 c 413 s 7038 (uncodified) is amended to read as
29 follows:

30 UNIVERSITY OF WASHINGTON TRANSFER TO SEATTLE. By June 30, 2020,

7 plan agreement. The city shall seek to maximize the affordable
8 housing development potential of the property consistent with
9 transit-oriented development principles. Liabilities existing on the
10 property at the time of transfer will transfer with the property.
11 When the deed is transferred to the city, any existing leases of the
12 property expire, except those leases that the university and city
13 have agreed to extend beyond the transfer date. The transfer must be
14 at no cost to the city. As a condition of the transfer, the city of
15 Seattle may only transfer the property to a nonprofit corporation or

26 general partner or a member of a single purpose entity serving as a
27 general partner, in which all of the members meet the definition of
28 subsection (1) of this section; or

29 (3) Limited liability company where a nonprofit as defined in
30 subsection (1) of this section is a managing member or a member of a
31 single purpose entity serving as a managing member in which all of
32 the members meet the definition of subsection (1) of this section.

33 NEW SECTION. Sec. 7010. If any provision of this act or its

35 remainder of the act or the application of the provision to other
36 persons or circumstances is not affected.
