State funds used for the purpose described in this subsection must not compromise fully complying with the court injunction by 2030.
(b) The department shall coordinate with the Brian Abbott fish passage barrier removal board and local governments to use a watershed approach by replacing both state and local culverts guided by the principle of providing the greatest fish habitat gain at the earliest time. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert conditions, other transportation projects in the area, and transportation impacts.

(3)(a) $10,000,000 of the move ahead WA state—appropriation is provided solely for the stormwater retrofits and improvements project (L4000040). It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide $500,000,000 for this project.

Regularly scheduled tribal consultation meetings with the Suquamish Tribe must continue throughout the duration of any funding program and proposed project approval.

(7) $10,000,000 of the move ahead WA account—state appropriation is provided solely for the I-5 Columbia River Bridge (L4000054). The legislature finds that the replacement of the I-5 Columbia River Bridge is a project of national significance and is critical for the movement of freight. One span is now 104 years old, at risk for collapse in the event of a major earthquake, and no longer satisfies the needs of commerce and travel. Replacing the aging Interstate Bridge with a modern, seismically resilient, multimodal structure that provides improved mobility for people, goods and services is a
high priority. Therefore, the legislature intends to support the
replacement of the I-5 Columbia River Bridge with an investment of

The appropriations in this section are subject to the following conditions and limitations:
(1) The entire move ahead WA account—state appropriation is provided solely for the local road projects and activities as listed in LEAP Transportation Document 2022 NL-1 as developed March 9, 2022.

(2) The department shall submit the projects on LEAP Transportation Document 2022 NL-2 as developed March 9, 2022, in three tiers to the transportation committees of the legislature and the office of financial management by December 1, 2022, prioritizing projects based on community impacts to overburdened communities as defined in RCW 70A.02.010.

(3) $10,686,000 of the climate active transportation account—state appropriation is provided solely for newly selected safe routes to school grants.

(4) $9,496,000 of the climate active transportation account—state appropriation is provided solely for newly selected pedestrian and bicycle grants.

(5) It is the intent of the legislature that up to $14,000,000 will be provided for the Guemes Ferry Boat Replacement Project (L4000124).

(6) $5,000,000 of the move ahead WA flexible account—state appropriation is provided solely for railroad crossing grant awards which match federal funds for city and county projects which eliminate at-grade highway-rail crossings.

(7) It is the intent of the legislature that $25,000,000 will be provided as part of the move ahead WA investment package in a future biennium, as indicated on the list identified in subsection (1) of this section, for the Ballard and Magnolia bridge project (L4000123). As part of the project, the Seattle department of transportation (SDOT) must consult with an independent engineering firm to verify that the costs for the type, size, and location preliminary design report (TS&L), environmental impact statement (EIS), and 60 percent design work are within industry cost range standards in advance of moving forward with construction. SDOT must ensure that funds are maximized by limiting the percentage for TS&L, EIS, and 60 percent design work to 10 percent of the total cost of the project. Of the $25,000,000, $12,500,000 must remain in unallotted status, and may be distributed to SDOT only upon determination by the office of financial management that SDOT's cost estimates have been verified by an independent engineering firm as within industry cost range.
standards, and SDOT has secured the additional matching funding needed to complete the TS&L, EIS, and 60 percent design work.

(8)(a) It is the intent of the legislature, over the first five years of the move ahead WA program, that $50,000,000 will be provided to SDOT to implement Aurora Avenue North Safety Improvements (L4000154). Under this program, SDOT will be required to implement strategic transportation investments for the Aurora Ave N Corridor from N 90th St to N 105th St that ensure slow vehicle speeds, walkability, multimodal mobility, safe routes to local schools, and safety for residents, which will demonstrate the benefits of similar transportation investments for other locations along Aurora Avenue and elsewhere. SDOT must convene a neighborhood oversight board consisting of residents of communities of the Aurora Ave N Corridor to prioritize investments and monitor project implementation. The oversight board should be composed of an equitable representation of local communities along the Aurora Ave N Corridor, including residents with disabilities. SDOT will ensure that the oversight board is consulted on a bimonthly basis during the prioritization process.

(b) The legislature intends, upon completion of the State Route 99/Aurora Avenue North Planning Study, that projects recommended in the study will be funded by this program. A specific focus must be on access management to consolidate driveways and improve safety for vulnerable users. This work must also include installation of full curb and sidewalks to improve safety, mobility, transit ridership, equity, and work towards the goals set forth in vision zero, target zero, and the Washington state active transportation plan. SDOT must ensure the design and implementation of an accessible sidewalk network to support users with mobility limitations, convenient and accessible transit stops, all-ages-and-abilities bicycle facilities, and safe pedestrian-activated crosswalks that puts safety over speed, balances the needs of different modes, reduces the level of traffic stress experienced by pedestrians and cyclists, connects to existing bicycle and transit networks, creates safe walking and bicycling routes to local schools including crosswalks, improves human and environmental health, and supports the surrounding neighborhoods. SDOT must coordinate with the Washington state department of transportation and King county metro in implementing the investments. SDOT must ensure that funds are maximized by limiting the percentage
for planning, predesign, design, permitting, and environmental review to 10 percent of the total cost of each project.

(c) The legislature intends that all Aurora Avenue North Safety Improvement projects funded in this program be completed by December 31, 2029, and that no funds may be expended for this purpose after this date.
