**1. Sole-Source Contracted Services** - Funding is provided for an inflationary adjustment in the Northwest Justice Projects' (NJP) cost of operations. The Office of Civil Legal Aid contracts with the NJP for the provision of civil legal aid services to eligible clients. The NJP operates a statewide client intake, access, and referral system and maintains field offices in 10 locations throughout the state. The additional funding will result in the establishment of minimum levels of legal aid presence in eight underserved rural areas of the state as well as to provide access to 190,000 low-income residents of King County.

**4. Revise Pension Gain-Sharing** - Funding is provided for employer contribution rate changes associated with revising gain-sharing benefits. ## 2007-09 Omnibus Operating Budget

### Office of the Secretary of State

*Comments:*

- 1. Equipment for Archive Facilities** - Chiller units and storage shelves will be purchased for two branches of the Archives Division. The Northwest Regional Archives will replace two failing chiller units, and the Puget Sound Regional Archives will upgrade to standard space saver shelves. These purchases will maintain an environment necessary for the preservation and storage of archival collections. (Local Government Archives Account-State)
- 2. Presidential Primary Voter Pamphlet** - One-time funding is provided to produce a 2008 presidential primary voters' pamphlet for every household in the state.
- 3. Primary Election Voter Pamphlet** - Funding is provided to produce a state primary voters' pamphlet for the 2008 primary election.
- 4. State's Odd-Year Election Costs** - Counties are reimbursed for the state's share of odd-year election costs as required by statute. In past odd-year elections, however, the state has incurred additional interest costs due to insufficient funding to pay for county reimbursements. Funding this item establishes a higher ongoing base budget for reimbursement to avoid paying interest for future odd-year elections.
- 5. Staff Voter Registration Web Portal** - The Statewide Voter Registration Database was implemented in January 2006 as required by the Help America Vote Act of 2002 (HAVA). The database is currently being upgraded to add a web portal for sharing information. Two FTEs are provided to maintain the web portal and provide web services for county election offices. (General Fund-Federal)
- 6. Corrections Center Library Staffing** - The State Library has statutory responsibility for providing library services to state-supported residential institutions. Currently, 10 Department of Correction (DOC) facilities have branch libraries managed and operated by the State Library. In December 2008, DOC will open the expanded Coyote Ridge Corrections Center and has requested that the State Library establish and operate a combined branch and law library at the facility. This item funds staffing and one-time library materials and equipment for this service.
- 7. Increase in TVW Pass Thru Funds** - Funding is added to cover increased costs for TVW's new facility.
- 8. Increase Grants to Local Government** - Revenue from the Local Government Archives Account will be used to enhance the local records competitive grant program in the 2007-09 biennium. A requirement governing use of these funds is that the Secretary of State's Archives Division establish a competitive grant program for local government agencies to implement effective public records projects. (Local Government Archives Account-State)
- 9. Continue Archives Project** - The Archives Division received six project FTE staff in the 2005-07 biennium to begin the processing of archival collections not currently arranged and described well enough to be visible and usable for researchers. Funding is provided to retain five positions through the 2007-09 biennium and one position through the 2011-13 biennium to continue processing the backlog of collections. (Archives and Records Management Account-State, Local Government Archives Account-State)
- 10. Replace Archives Vehicle** - The Secretary of State's Northwest Regional Archives will replace its vehicle through a vehicle contract with the Department of General Administration. The new vehicle is provided so that staff may travel to local government agencies to provide support for their records management programs and to transfer public records to the archives. (Local Government Archives Account-State)
- 11. Puget Sound Region Archive Research** - A two-year project position is provided to meet the workload demands on the Puget Sound Regional Archives (PSRA) branch. PSRA's response time of five days for research requests will be reduced to one day as it is in the other branches. Funding for a current FTE staff position is shifted to the Local Government Archives Account. This shift will allow the photo revenue appropriation to cover the cost of hiring student workers to scan and transfer images to the digital archives for online access. (Local Government Archives Account-State)
- 12. Local Govt Security Microfilm Proj** - The local government security microfilm project has been implemented in phases over several biennia by the Archives Division. Funding is provided to complete the project, which involves repairing substandard security microfilm, purchasing equipment to convert large format digital records to security microfilm, and additional funding to the Division to image local government records. **3. Educational Data Center** - The Washington Learns report recommends ten long-term goals aimed at raising overall educational attainment in Washington. The Governor will create a P-20 council to track progress toward these goals and focus on the transitions between early learning, K-12, and higher education. To support the work of the P-20 council, the Office of Financial Management (OFM), with the Office of Superintendent of Public Instruction (OSPI), the Higher Education Coordinating Board, the State Board for Community and Technical Colleges, the four-year institutions of higher education, and the Work Force Training and Education Coordinating Board, will create a data system that coordinates and builds upon existing administrative databases, such as the K-12 core student records system and the public centralized higher education enrollment system.

**4. Transportation Funding Formula** - The Joint Legislative Audit and Review Committee's (JLARC) recent review of K-12 pupil transportation funding found significant structural and implementation problems with the current funding formula. Because of these structural problems, JLARC does not recommend increasing the allocation rate used in the current formula to address funding needs. The report recommends that the Legislature should develop a funding formula customized to Washington's needs. Funding is provided for OFM to contract with consultants who have expertise in pupil transportation and K-12 funding formula distributions. The contractors, in consultation with OFM, the Legislature, and OSPI, will develop at least two options for a new pupil transportation formula.

Additional resources are provided to eliminate the review and appeal backlog, and to provide a ten working day turnaround for reviewing plans.

**2. COHE Expansion Evaluation** - Funds are provided to evaluate the recent expansion of a program to improve treatment of injured workers and return them to their jobs sooner. The Centers of Occupational Health and Education (COHEs) are located in Spokane and Renton. The 2005-07 biennial budget provided for an expansion of existing COHEs and the development of two new small COHEs. Funds are provided for the University of Washington to evaluate this expansion and the continuing effectiveness of the Spokane and Renton COHEs, and to determine if COHE best practices and outcomes can also be achieved in rural counties. (Medical Aid Account-State)

**3. Independent Medical Exam Schedulers** - Because of the increased number and complexity of worker compensation claims cases, additional resources are needed to schedule timely independent medical exams. (Accident Account-State, Medical Aid Account-State)

**4. Pension Benefits Specialists** - Additional resources are provided to increase the timeliness of payments to recipients on newly created pensions, to increase cost recovery by eliminating the backlog of Social Security offset adjustments, to conduct quality control recalculation of pension benefit amounts in response to a State Auditor finding, and to provide more timely responses to customer questions. **6. Med Provider Timely Reimbursement** - Fewer doctors are willing to treat injured workers in the workers' compensation system. Funding is provided to address the providers' concerns by making it easier to use the complex workers' compensation system, reduce the time needed to process bills, and speed up bill payments. Health care provider account representatives will work with providers to remove barriers and solve billing issues. (Medical Aid Account-State)

**7. Claim Suppression Investigations** - Funding is provided to implement Substitute Senate Bill 5443 (workers' comp claims). The legislation provides for investigation of claim suppression allegations, gives the department authority to subpoena claim records, and authorizes penalties. It also allows the department to waive time limits for filing a claim when a worker has not filed within the statute of limitations due to claim suppression. If the legislation is not enacted by June 30, 2007, funding lapses. (Accident Account-State, Medical Aid Account-State)

**8. Farm Labor Contractors** - Additional resources are provided in response to a recent high-profile farm labor contractor (FLC) fraud and abuse case and ongoing concerns that seasonal labor shortages will increase demand for FLC services. New staff will review FLC applications for legal requirements, perform compliance checks, and conduct outreach to farmers and landowners to aid in compliance with FLC law. (Accident Account-State, Medical Aid Account-State)

**9. Crane Safety** - Funding is provided for Engrossed Substitute House Bill 2171 (crane safety). This bill requires the Department to establish by rule, a construction crane certification program and a construction crane operator certification program. If this bill is not enacted by June 30, 2007 the funding lapses. (Accident Account-State, Medical Aid Account-State)

**11. Tacoma Rhodes Lease** - The Department of General Administration will increase lease rates for state agencies in the Tacoma Rhodes Center effective July 1, 2007. The new rates will mitigate an operating deficit associated with the state owned building. Funding is provided for the lease increase. (Accident Account-State, Medical Aid Account-State)

**12. Industrial Insurance Fund Audits** - Contract costs for implementation of legislation regarding industrial insurance fund audits have been higher than originally anticipated. In addition, the State Auditor's Office will contract out the Generally Accepted Accounting Principles (GAAP) and Statutory Accounting Principles (SAP) audits which will result in increased costs. (Accident Account-State, Medical Aid Account-State)

**13. Medical Advisory Committees** - Funding is provided to implement Engrossed Substitute Senate Bill 5290 (workers' comp). Medical and chiropractic advisory committees will assist the department in making evidence-based decisions to ensure safe and effective healthcare for workers and to reduce the financial risk of authorizing unproven therapies. Funding is provided to reimburse committee members, contract with a technical research specialist, and cover the committees' administrative costs. (Medical Aid Account-State)

**14. Mobile/Manufactured Homes** - Funding is provided to implement Substitute House Bill 2118 (mobile/manufactured homes). (Public Works Administration Account-State)

**16. Perm Total Disability Study** - Funding is provided for an independent study of employer claims in which workers were granted permanent total disability pension benefits under the workers' compensation system. The number of workers who were awarded such benefits, pursuant to RCW 51.08.160, has increased over the past five years. The study will include analysis of the causes of the recent increase, including changes in injured worker demographics, and policies that affect benefit decisions. A comparison of Washington's permanent disability claims experience and injured worker outcomes with other states and jurisdictions will also be provided, along with future anticipated permanent disability trends. (Accident Account-State)

**17. Controlling PT/OT Therapy Costs** - The Department currently reviews the effectiveness of physical therapy at the 40th visit. Occupational therapy is not reviewed at all. Much of the treatment beyond 24 visits does not appear to improve a worker's outcome, and in some cases, extends disability because a more effective treatment plan has not been implemented. Funding is provided to conduct utilization reviews at 24 visits, the number recommended by the profession, and to hire staff to enter data from the utilization review into the claimant's file. It is estimated that this earlier review would save the Medical Aid Account \$5.0 million per biennium in benefits by eliminating inappropriate therapy. (Medical Aid Account-State)

Health care contributions for medical, vision, and dental benefits will be increased by 10 percent, from \$532 per worker per month to \$585 per worker per month, effective July 1, 2008. **1. Child Care Development Fund to DEL** - Funding and staffing for the federal Child Care Development Fund (CCDF) and a portion of the state matching money required to earn CCDF are transferred from the Department of Social and Health Services to the Department of Early Learning (DEL). CCDF funds are used to support the state's child care licensing function, quality initiatives, and child care subsidies. The transferred state matching money provides partial funding of the Early Childhood Education and Assistance Program. (General Fund-State, General Fund-Federal)

**2. Targeted Vendor Rate Increase** - \$6.6 million in state funds and \$2.8 million in federal funds are provided for rate increases of 5 percent in FY 2008 and 5 percent in FY 2009 for behavioral rehabilitation services. In addition, funds are provided for rate increases of 3.2 percent in FY 2008 and 2.0 percent in FY 2009 to crisis residential centers and secure crisis residential centers. (General Fund-State, General Fund-Federal)

**3. Safe and Timely Interstate Place** - Under federal law, foster parents, pre-adoptive parents, and relatives now have the right to be heard in review hearings pertaining to a child under federal law. Substitute House Bill 1287 (foster children) aligns state law with this new requirement. Funding is provided to support the cost to notify these parties via certified mail of court proceedings. If the bill is not enacted by June 30, 2007, the amount provided shall lapse. (General Fund-State and General Fund-Federal)

**4. House Bill 1377 (placement of children) expands the definition of persons who may qualify as a kinship provider. Prior to placement, the Children's Administration deems these placements to be safe and appropriate. The Caseload Forecast Council estimates approximately 8,000 children will be in foster care during the 2007-09 biennium. This legislation would reduce that amount by 271 children in FY 2008, followed by an additional 771 children in FY 2009. (General Fund-State, General Fund-Federal)

**7. Ind Provider Home Care Worker CBA** - Funding is provided to implement the compensation-related components of an interest arbitration award to the approximately 23,000 individuals who contract with the state to provide publicly-funded home care services to elderly and disabled persons. Pursuant to the arbitration award, the state will pay the employee share of worker's compensation premiums, and average individual provider wages will increase from \$9.50 per hour to \$9.86 per hour in FY 2008 and to \$10.22 per hour in FY 2009, based upon changes to the existing seniority-based wage scale. Individual home care providers will also receive: differential pay of \$1.00 per hour when they serve as mentors or trainers; mileage reimbursement for client-related travel in their personal vehicles, effective July 1, 2008; and an increase in accrual rates for vacation leave. Health care contributions for medical, vision, and dental benefits will be increased by 10 percent, from \$532 per worker per month to \$585 per worker per month, effective July 1, 2008. Additionally, effective September 1, 2007, home care workers performing work for clients with certain special needs will not receive a reduction of hours based upon their shared residence with their clients, and certain hours of work for providers caring for clients with complex behavioral and cognitive issues will be increased. Annual program operating costs are expected to be largely offset through reduced workers compensation premiums within three years.

**2. Cover All Kids** - Outreach conducted as part of the "Cover All Kids" initiative is expected to result in an additional 19,000 children enrolling in Medicaid by the end of the 2007-09 biennium. This item provides funding for them to receive services through the community mental health system. (General Fund-State, General Fund-Federal)

**3. Hospital Payment Method** - Funding is provided for implementation of a new rate system for Medicaid inpatient psychiatric care. Under the system, hospitals will be paid a fixed rate that is the higher of a percentage of either: (1) the statewide average cost of such care, adjusted for regional differences in wage rates, and individual hospital differences in medical education costs; or (2) the hospital's estimated actual costs for such care during the cost rebase year. (General Fund-State, General Fund-Federal)

**4. Non-Medicaid Inpatient Psych Rates** - Funds are provided to increase payment rates for non-Medicaid inpatient psychiatric care to approximately 85 percent of the Medicaid payment level. Non-Medicaid payment rates are presently set at less than 60 percent of the Medicaid level. The total cost of this portion of the increase is approximately \$12.8 million. Funds available within the base budget level for hospital rate increases are re-programmed to offset \$8.1 million of this increase.

**5. CLIP Rate Adjustment** - Funding is provided to increase the daily reimbursement rate for the Children's Long-Term Inpatient Program (CLIP) from \$423 per day to \$462 per day. (General Fund-State, General Fund-Federal)

**6. Additional Forensic Capacity** - Funding is provided to improve the timeliness of criminal (forensic) competency evaluations by adding two additional positions at Western State Hospital, and resources to facilitate recruitment and retention of skilled evaluators at Eastern State Hospital. The staff will perform evaluations for both inpatient and outpatient services as demand requires.

**7. Increased Non-Medicaid Caseload** - State funding for people and services not covered by the state and federal Medicaid program is increased by 3 percent. Regional Support Networks are encouraged to use a portion of this increase to provide local financial support for mental health clubhouses.

**8. WSH Food Service** - Western State Hospital (WSH) uses direct care ward staff rather than food service aides to serve food to patients, which decreases patient supervision. WSH has collected incident data that shows a high number of security office incidents occur during meal times. Funding is provided to hire twelve additional food service staff to allow mental health technicians to provide appropriate levels of patient supervision.

**9. Children's Mental Health** - Funding is provided to improve children's mental health services, pursuant to Second Substitute House Bill 1088 (children's mental health). Amounts provided will be used to establish in up to four Regional Support Networks a wraparound services pilot program designed to reduce inpatient psychiatric hospitalization and out-of-home placement of children. In addition, funding is provided to expedite Medicaid enrollment or reinstatement for youth leaving confinement; to establish a psychiatric consultation service for primary care providers; to support a children's mental health center focused on evidence-based mental health services at the University of Washington; to support a review of prescribing practices for children receiving medications for emotional or behavioral disturbances; to reexamine children's access to care standards; and to expand the Medicaid Healthy Options and fee-for-service children's outpatient mental health benefits from 12 to 20 visits per year. Funding is also provided to expand the types of service providers that may be reimbursed for children's outpatient mental health services under the Medicaid fee-for-service program. A total of \$5.7 million in state funds for these efforts is distributed between the Department of Social and Health Services Mental Health Division, Medical Assistance Administration, and Economic Services Administration program budgets. (General Fund-State, General Fund-Federal)

**10. Mental Health Workers** - Funding is provided to implement the provisions of House Bill 1456 (back-up for mental health home visits). Under the legislation, mental health professionals are to have the option of being accompanied by a second trained professional when conducting crisis intervention and outreach visits in a private setting. They are also to be equipped with a cell phone or other emergency communication device, and to have prompt access to any available information concerning potential dangers posed by the person served. Additionally, all community mental health workers are to receive annual training in safety procedures and violence prevention techniques.

**12. Community MH Worker Wage Increase** - Funds are provided to increase compensation for community mental health agency staff who deliver direct patient care, and also for staff such as receptionists, intake workers, and schedulers who directly support such work. Funds are sufficient for an initial increase of approximately 4 percent effective July 1, 2007, and for an additional increase of approximately 4 percent effective July 1, 2008. Regional Support Networks (RSNs) and the department are to report by December 2007 on local plans for using these funds to increase direct care worker compensation, and RSNs are to document how the funds have actually been used. The increase has been calculated using the standard RSN allocations as a base, and does not include any special projects contracted through the RSN. (General Fund-State, General Fund-Federal)

Since 2002, the community integration assistance program has provided such services for up to five years after their release from prison for persons thought to be dangerous to themselves or others because of a mental illness. Program participants have demonstrated lower recidivism rates, faster connection to mental health services, and more drug and alcohol treatment than comparable offenders released without the benefit of such re-entry services. The Washington State Institute for Public Policy estimates that the net benefit of the service to taxpayers and to potential crime victims exceeds costs by at least 3 percent. **1. Veterans' Enhancement Project** - The Department of Veterans Affairs (WDVA) and the Department of Social and Health Services (DSHS) are collaborating to identify clients who are currently served by DSHS programs who could qualify for more robust veterans benefits administered by the Federal Department of Veterans Affairs. This collaborative effort will result in savings to DSHS programs as the clients are served by the Federal Veterans Administration. (General Fund-State, General Fund-Federal)

**2. Ind Provider Home Care Worker CBA** - Funding is provided to implement the compensation-related components of an interest arbitration award to the approximately 23,000 individuals who contract with the state to provide publicly-funded home care services to elderly and disabled persons. The interest arbitration resulted when negotiations between the Governor's Office and the exclusive bargaining representative of individual providers reached an impasse. Pursuant to the arbitration award, the state will pay the employee share of worker's compensation premiums and average individual provider wages will increase from \$9.50 per hour to \$9.86 per hour in FY 2008 and to \$10.22 per hour in FY 2009, based upon changes to the existing seniority-based wage scale. Individual home care providers will also receive: differential pay of \$1.00 per hour when they serve as mentors or trainers; mileage reimbursement for client-related travel in their personal vehicles, effective July 1, 2008; and an increase in accrual rates for vacation leave. Health care contributions for medical, vision, and dental benefits will be increased by 10 percent, from \$532 per worker per month to \$585 per worker per month, effective July 1, 2008. Additionally, effective September 1, 2007, home care workers performing work for clients with certain special needs will not receive a reduction of hours based upon their shared residence with their clients, and certain hours of work for providers caring for clients with complex behavioral and cognitive issues will be increased. (General Fund-State, General Fund-Federal)

**3. Agency Provider Parity** - Funding is provided to increase home care agency provider payments and health benefit contributions for direct care workers employed by agencies commensurate with the compensation-related provisions of the interest arbitration award for individual providers of home care services. In accordance with RCW 74.39A.310, the Department's provider payment rates and contribution levels for health care benefits are increased for agency providers of home services at the same rate as negotiated and funded for individual providers. (General Fund-State, General Fund-Federal)

**4. Agency Admin. Vendor Rate Increase** - Funding is provided for a 2.0 percent rate increase in FY 2008, and an additional 2.0 percent rate increase in FY 2009, roughly equivalent to inflation as measured by the implicit price deflator, for home care agency administrative and supervision costs. Increases for home care agency workers are covered by the "Agency Provider Parity" item above. (General Fund-State, General Fund-Federal)

**5. Nursing Home Vendor Rate Increase** - Funding is provided to rebase direct care, therapy care, support services, and operations rate components to calendar year 2005 cost report data and to establish hold harmless rates for certain nursing facilities pursuant to Substitute Senate Bill 6158 (nursing facility payments), and to increase these non-capital component rate allocations by 3.2 percent effective July 1, 2007. Funding is provided for additional rate increases beginning July 1, 2008, in accordance with recommendations from a newly established Joint Legislative Task Force on Long-Term Care Residential Payment Systems. The projected statewide weighted average rate is expected to be \$158.11 per patient day in FY 2008 and \$164.18 per patient day in FY 2009. (General Fund-State, General Fund-Federal)

**6. AEM Long Term Care Medical Needs** - State funds are provided for skilled nursing facility care for low-income adults who are not eligible for Medicaid due to their immigration status. Care for these individuals was previously funded through the Medicaid Alien Emergency Medical (AEM) Program, but that coverage has been discontinued because their conditions do not qualify as emergencies under federal program guidelines. Expenditures related to medical services received by clients once they have been admitted to a nursing facility are included in the DSHS Medical Assistance Program.

**7. Chronic Intensive Case Mgmt** - Funding is provided to implement Engrossed Second Substitute Senate Bill 5930 (blue ribbon comm/health care), which directs DSHS to study the efficiency and effectiveness of the Intensive Chronic Case Management Project. The evaluation will describe how the pilot project works within the Department's larger chronic care efforts. (General Fund-State, General Fund-Federal)

The Department of Social and Health Services (DSHS) is currently the central recipient of this grant. The federal block grant will continue to support functions in both DSHS and DEL, including the state's child care licensing function, contracted quality initiatives, and child care subsidies. State funds used as CCDF match are also transferred. (General Fund-Federal)

**2. Post TANF Program** - Funding is provided to establish a Post-Temporary Assistance for Needy Families (TANF) Program to increase long-term self-sufficiency.

**3. Full Family Sanction Assistance** - Funding is provided for the WorkFirst Pathway to Engagement Program. The department shall collaborate with community partners and represented staff to identify additional services needed for workfirst clients in sanction status. The department shall contract with qualified community-based organizations to deliver such services, provided that such services are complimentary to the work of the department and are not intended to supplant existing staff or services. The department shall also contract with community-based organizations for the provision of services for workfirst clients who have been terminated after six months of sanction. The contracts shall have a performance-based component and shall include both pre-sanction termination and post-sanction termination services. Clients shall be able to choose whether or not to accept the services. The department shall develop outcome measures for the program related to outreach and re-engagement, reduction of barriers to employment, and client feedback and satisfaction. The department shall report to the appropriate policy and fiscal committees of the legislature by December 1, 2007 on program implementation and outcomes. The department also shall report on implementation of specialized caseloads for clients in sanction status, including average caseload size, referral process and criteria, and expected outcomes for specialized caseloads.

**4. Child Care Collective Bargaining** - This item funds the collective bargaining agreement between family child care providers and the state. **1. Veterans' Enhancement Project** - The Department of Veterans Affairs (WDVA) and the Department of Social and Health Services (DSHS) are collaborating to identify clients who are currently served by DSHS programs who could qualify for more robust veterans benefits administered by WDVA. This collaborative effort will result in savings to DSHS programs as the clients are served by the WDVA. (General Fund-State, General Fund-Federal)

**2. Cover All Kids** - Funding is provided to implement Chapter 5, Laws of 2007 (2SSB 5093), which directs DSHS to provide health insurance coverage for children under age 19 in families with household incomes of up to 250 percent of the federal poverty level, and effective January 1, 2009, for children whose family income is not greater than 300 percent of the federal poverty level. Additionally, DSHS is directed to establish an outreach and education effort to identify and enroll eligible children in health coverage. The 2006 State Population Survey suggests that there are an estimated 72,600 children living in Washington households who are not covered by health insurance. Approximately 45,500 of these children are living in households with family income at or below 250 percent of the federal poverty level and an additional 4,600 children are estimated to be living in families with household incomes between 251 percent and 300 percent of the federal poverty. (General Fund-State, General Fund-Federal)

**3. Hospital Payment Method** - Effective August 1, 2007, the Department will implement changes to the hospital inpatient Medicaid reimbursement methodology, as recommended by an independent contractor. The new payment system will also include adjustments to recommendations concerning children's outlier payments and psychiatric services. Overall, the changes will result in an updated payment system that reflects more current cost and claims data, limits the use of ratio-of-cost-to-charges payments, updates and expands the use of diagnosis related groupers or relative weights and conversion factors, limits the use of outlier payments, and makes payments more consistent for similar services. The impact of the changes on payments for psychiatric services is depicted in the DSHS Mental Health Program section of the budget. (General Fund-State, General Fund-Federal)

**4. CPE Update for Hosp Pymt Changes** - State funding is provided to continue the Certified Public Expenditure (CPE) program for public hospitals and recognize changes made to the hospital reimbursement methodology. Under the CPE program, if payments are less than the total payment for claims for services rendered during the year as calculated according to the methodology and Disproportionate Hospital Share amounts paid to hospitals and retained in 2005, hospitals receive a state grant equal to the difference between payments during the year and the related baseline amount. The changes in reimbursement methodology, described in the Hospital Payment Method item above, are expected to result in increased hold harmless state grant payments.

**5. Pediatrics Rate Increase** - Funding is provided to raise fee-for-service payments for pediatric services by 48 percent or roughly equivalent to 90 percent of Uniform Medical Plan rates, beginning January 1, 2008. The increase is intended to improve access to pediatric services for low-income children. (Health Services Account-State, General Fund-Federal)

**6. Adult Office Visits** - Currently Medicaid reimbursements for adult office visits are approximately 63 percent lower than Medicaid reimbursements for children's office visits and 42 percent of Uniform Medical Plan rates. A vendor rate increase of 12 percent is provided effective January 1, 2008, for fee-for-service providers of adult office visits, in order to improve access for adults to preventative care. (General Fund-State, General Fund-Federal)

**7. Trans Adoption Supp Medical to HRSA** - Funding for the adoption support medical program is transferred from the DSHS Children and Family Services Program to the Medical Assistance Program to consolidate the medical service delivery function within one administration. (General Fund-State, General Fund-Federal)

**8. CHP Underenrollment at 100% FPL** - The appropriation for the Children's Health Program up to 100 percent of the federal poverty level is adjusted to reflect lower than projected enrollment. (General Fund-State, General Fund-Federal)

**9. Targeted Dental Rate Increases** - Funding is provided for targeted dental rate increases in four areas in order to provide improved access: 1) children's orthodontics and crowns; 2) providers who participate in the Access to Baby and Child Dentistry program; 3) dental prosthesis for adults; and 4) reimbursement for primary care physicians to provide dental disease preventative services such as oral health screenings, risk assessment, and fluoride varnish. If expenditures are expected to exceed appropriated levels, the Department will take steps, including adjusting rates and/or benefits, to maintain expenditures within appropriated levels for the 2007-09 biennium. (General Fund-State, Health Services Account-State, General Fund-Federal)

**10. Brand Name vs Generic Drug Study** - Funding is provided for the Department to conduct a study to determine the financial impact associated with continuing to cover brand name medications versus the same medications in their generic form. The study will account for all rebates paid to the state on each product studied up until the point where the generic form is less expensive, net of federally required rebates. A report is due to legislative fiscal committees by December 1, 2007.

**11. AEM Long Term Care Medical Needs** - State funds are for skilled nursing facility care for low-income adults who are not eligible for Medicaid due to their immigration status. Care for these individuals was previously funded through the Medicaid Alien Emergency Medical (AEM) Program, but that coverage has been discontinued because their conditions do not qualify as emergencies under federal program guidelines.

**12. Adult and Children's Endodontics** - Funding is provided to expand dental services and access for adults and children, specifically in the area of endodontics, or root canal therapy. Services are restored for adults and a rate increase is provided for children's endodontics in order to obtain access to specialty dental providers. If expenditures are expected to exceed appropriated levels, the Department will take steps, including adjusting rates and/or benefits, to maintain expenditures within appropriated levels for the 2007-09 biennium. (General Fund-State, Health Services Account-State, General Fund-Federal)

**13. Children's Mental Health** - Funding is provided to implement Second Substitute House Bill 1088 (children's mental health), which directs DSHS to revise mental health outpatient therapy benefits for its Medicaid managed care and fee-for-service programs in order to expand access to children's mental health services. Beginning July 1, 2008, the maximum annual limit on outpatient visits will be increased from 12 to 20 per year, and outpatient therapy services may be provided by any mental health professional licensed by the Department of Health. Additionally, DSHS will expedite Medicaid re-enrollment for eligible youth transitioning out of juvenile detention facilities; review prescribing practices for treatment of emotional or behavioral disturbances in children, including off-label use of prescription medication, use of multiple medications, and use of high medication dosage; and establish a pilot program to support primary care providers in the assessment and provision of appropriate diagnosis and treatment of children with mental and behavioral health disorders. Funding is also provided in the DSHS Mental Health Program and Economic Services Program for these and other provisions of the legislation. (General Fund-State, Health Services Account-State, General Fund-Federal)

**14. GA-U Managed Care Pilot MH Benefit** - Funding is provided to add a mental health service component to the general assistance - unemployable (GA-U) medical care services care management pilot project in King and Pierce counties. The mental health service component may include care coordination, mental health services, and integrated medical and mental health service delivery for GA-U clients with mental health disorders, as well as primary care provider training and education.

**15. Specialty Clinic Fees** - State funding is transferred from the DSHS Medical Assistance program to the Department of Health to offset the expected loss of fee-revenues for specialty clinics that provide treatment services for children diagnosed with certain inheritable or metabolic disorders defined by the State Board of Health. Revenues from a portion of newborn screening fees are reduced from \$6.60 per infant to \$3.50 per infant in accordance with Engrossed Second Substitute House Bill 5930 (blue ribbon comm/health care). **1. Indicator's Project Support** - The Columbia River Gorge Commission performs activities mandated by the National Scenic Area Act (NSAA). It is currently developing indicators in preparation for the NSAA management plan update in 2010. Ongoing funding is provided for benchmark data concerning the cumulative effects of land use permit decisions in the Gorge. A half-time position will collect data and evaluate the effects and benefits of NSAA on the Columbia River Gorge during the last 20 years. (General Fund-State, General Fund-Private/Local)

**2. Revise Pension Gain-Sharing** - Funding is provided for employer contribution rate changes associated with revising gain-sharing benefits. As a result of the changes, pension system contribution rates are adjusted to reflect the repeal of gain-sharing for members of the Public Employees' Retirement System (PERS) and Teachers' Retirement System (TRS) Plans 1 and 3, and the School Employees' Retirement System (SERS) Plan 3. The final distribution of gain-sharing under current law will be January 1, 2008. Benefit enhancements are provided to PERS and TRS Plan 1 members in the form of a one-time increase in the Uniform COLA, and improved early retirement reduction options for members of PERS, TRS, and SERS plans 2 and 3 for members with 30 or more years of service. New members of TRS and SERS will have the option of joining Plan 2 or Plan 3. (General Fund-State, various other funds)

**1. Underground Storage Tanks Reautho** - There are currently 10,300 underground storage tanks (UST) in Washington State and, in 1990, almost 1,000 tanks had leaked to some degree. Substitute Senate Bill 5475 (underground storage tanks) would extend the UST program for ten years to July 1, 2019. The bill also increases tank inspection fees from \$100 to \$160, phasing in the increase over three fiscal years in \$20 increments, beginning on July 1, 2007. Appropriation authority reflects increased fee revenue to meet new federal requirements that double the number of tank inspections from once every six years to once every three years. (Underground Storage Tank Account-State)

**2. Meeting Federal Air Requirements** - Ongoing funding is provided to replace a reduction in federal funding and to support additional staff that will better characterize air quality throughout the state, identify communities with high levels of particulate pollution, and implement strategies to protect public health and meet revised federal standards. (General Fund-State, General Fund-Federal)

**3. Regional Haze Reduction Program** - Ongoing funding is provided for the Regional Haze Program to identify and quantify the sources of regional haze pollution and begin a formal rule process to limit emissions and implement a federal plan to reduce haze by 2064. This program will be supported by a 30 percent match from industries that have air emissions that could contribute to haze. (General Fund-State, General Fund-Private Local)

**4. Achieving Environmental Compliance** - One-time funding is provided for a pilot project that will provide grants to two local government jurisdictions located in the Puget Sound area to improve compliance with existing environmental laws. Grant funds shall be used for providing information on existing requirements, providing technical assistance necessary to comply on a voluntary basis, and taking enforcement action.

**5. Local Government Stormwater Grants** - Ongoing funding is provided for local governments to receive grants for municipal stormwater programs, including but not limited to, implementation of Phase II municipal stormwater permits, stormwater source control for toxics in association with clean-up of contaminated sediment sites, and stormwater source control programs for shellfish protection districts where stormwater is a significant contributor. Of this amount, \$2 million is provided specifically for local governments that are located outside of Puget Sound. (Local Toxics Control Account-State)

**6. Ocean Policy Interagency Workgroup** - Based on public input and research, the Ocean Policy Work Group (OPWG) determined ways to improve management of Washington's ocean and coastal resources. In its final report, the OPWG provided a comprehensive list of over 60 recommendations in issue areas such as ocean energy, coastal hazards, sustainable fisheries, derelict fishing gear, oil spills, and effective management and governance of ocean and coastal resources. Ongoing funding is provided to allow the Department to coordinate the next steps of the top 15 priority recommendations and issues among several state agencies, the tribes, and federal and local governments to produce integrated and more effective management of on going ocean policy issues, in addition to specific actions, such as derelict fishing gear removal.

**7. Litter Prevention** - The effectiveness of Washington's "Litter and It Will Hurt" campaign tapered off in 2004. Despite four years of steady improvement in cleanliness in 2005, Washington's roads reached their most littered condition since 2000. Ongoing litter prevention messaging is provided in addition to increased and strategically targeted litter enforcement and roadside clean-up efforts. (Waste Reduction/Recycling/Litter Control Account-State)

**8. Biosolids Permit Processing** - The state biosolids program provides oversight, permitting, and assistance for sewage treatment plants and other facilities that generate, treat, and use biosolids. Biosolids are a product of wastewater treatment that contain nutrients that can be beneficially used as a soil fertilizer. Statutory provisions require the program to be fully supported by fees. Since the start of the program in 1998, however, collected fees have supported only two-thirds of the base program. Rule amendments will be completed by June 2007 that will result in additional fee revenue to fully cover program costs. (Biosolids Permit Account-State)

**9. Wastewater Treatment Loan Processing** - The federal Clean Water Act (CWA) allows states to use a maximum of 4 percent of the federal grants received each year for administration of the State Revolving Fund (SRF) loan program. While the overall size of the loan program is increasing due to loan interest and principal repayments, the annual federal grants have decreased 18 percent since 2004. At the same time, overall dollars managed have increased by 29 percent. Ongoing funding is provided for the Department to maintain the same level of administrative effort needed to comply with the federal CWA as it did in the 2005-07 biennium. (Water Quality Account-State)

**10. Hanford Tank Waste Strategy** - At Hanford, the U.S. Department of Energy has stopped or delayed work, or missed significant Tri-Party Agreement milestones on projects related to safe management, treatment, and disposal of 53 million gallons of high-level nuclear waste stored in tanks. Construction of the tank waste treatment plant has been slowed, retrieval of wastes from the single shell tanks has been reduced, and projected treatment plant operations and tank farm closures have been delayed by nearly 10 years. Additional ongoing Attorney General's Office support is provided to address these delays which pose an increasing risk to the environment and human health. (State Toxics Control Account-State)

**11. Cleanup Priority Act Legal Defense** - The Clean-up Priority Act (CPA) was approved by the voters in 2004 and subsequently challenged in court by the federal government. The CPA requires the Department to undertake certain actions and efforts related to the clean-up of the Hanford Nuclear Reservation. One-time legal defense will support an appeal of the federal court decision that struck down the CPA as passed by Washington voters.

**12. Hanford Damage Assessment Lawsuit** - The U.S. Department of Energy (USDOE) has not begun a natural resources damage assessment, as required by Federal superfund law, for releases of toxic substances at the Hanford Nuclear Reservation. A damage assessment evaluates damages and in a subsequent injury assessment is used to calculate the monetary cost of restoring impacts to natural resources that result from releases of hazardous substances. The Yakima Nation filed suit to compel USDOE to meet its obligations and the state has joined this lawsuit. The State of Washington is a trustee on the Hanford Natural Resources Council, and has a strong interest in ensuring that the USDOE meets its obligations, ongoing funding is provided for the state's participation. (State Toxics Control Account-State)

**13. Construction Storm Water Permits** - The federal Clean Water Act requires certain industries, individuals, and municipalities to obtain water quality discharge permits for discharge of their stormwater. Properly managing stormwater protects water quality, minimizes flooding, and protects habitat. In November 2005, the Department re-issued construction stormwater general permits to include new permit requirements for construction sites between one and five acres. New permits are estimated to result in an additional 2,408 permits being processed and fees collected. The Department is required by federal law to issue these permits, provide technical assistance, and conduct compliance inspections. (Water Quality Permit Account-State)

**14. Public Participation Grants-Toxics** - Funding is provided to bring the public participation grants up to the mandated level of 1 percent of the Hazardous Substance Tax. In addition, \$1.7 million of this amount will expand public education and participation in the Puget Sound area to further the goals established by the Puget Sound Partnership. **15. Environmental Mitigation that Works** - Land developments in Washington are required to minimize impacts on wetlands and other aquatic resources by replacing these lost resources (mitigation). However, studies show that traditional approaches to wetland mitigation fail approximately 50 percent of the time. On going funding is provided for follow-up mitigation compliance, capacity for processing wetland mitigation bank proposals, and technical assistance.

**16. Safer Chemical Alternatives** - Trace amounts of toxic chemicals are increasing in people's bodies and wildlife across the state. To reduce toxic threats, safer alternatives for toxic or hazardous chemicals will be identified to help business, government, and citizens make better choices on what to use and buy. Funding is provided to help businesses reduce the amount of toxic chemicals they use, identify less toxic products for state purchases, and provide information so citizens can make informed choices related to consumer products. (State Toxics Control Account-State, Hazardous Waste Assistance Account-State)

**17. Implementing Local Watershed Plans** - The 1998 Watershed Planning Act provided a framework for state, local, and tribal governments to create watershed plans that address local water needs, reduce pollution, and protect fish habitat. Since 1998, 37 watershed management plans have been started, 21 have been adopted, and 10 of these are in the implementation phase. These plans are all funded by \$44 million in watershed planning grants. By the end of the next biennium, as many as 28 plans are estimated to be in the implementation phase. Funding is provided to implement priority actions identified in plans, including projects in the Bertrand watershed and funding for the Fishtrap Watershed analysis.

**18. Puget Sound Nutrient Modeling** - Ongoing funding is provided for additional environmental modeling is provided to better understand pollutant loadings, mixing, transport, and impacts around the Puget Sound. Models support developing Water Quality Improvement Plans (also called Total Maximum Daily Loads), and are used to establish permit discharge limits and other regulatory and water management actions. Modeling also helps identify information gaps, allowing monitoring programs to be more efficiently targeted. Initial modeling work will begin in south Puget Sound. (Water Quality Permit Account-State)

**19. Pesticide Container Recycling** - Approximately 500,000 pounds per year of pesticide containers are currently recycled. One-time funding will continue this program until a long-term nationwide funding solution can be developed. (State Toxics Control Account-State)

**20. Chamokane Basin Study** - A federal district court judge has ordered that a ground water/surface water technical study, estimated to cost \$1.2 million, be completed to resolve water resource management issues in the Chamokane Creek Basin in Stevens County. The Department is a party to this order (along with the United States and the Spokane Tribe of Indians) and has been ordered to help finance the project. Ongoing funding is provided for the state's support of the study. The U.S. Geological Survey has been tasked with performing the court-mandated technical study, which will be funded equally by all three parties.

**21. Implementing Water Cleanup Plans** - The Department of Ecology works with local government and citizen groups to develop and implement water clean-up plans (also known as Total Maximum Daily Loads). These plans are specified in a lawsuit settlement that requires the state to speed up their development, ensure water bodies in the state meet water quality standards to protect public health, allow for safe water recreation, protect fishery resources and other aquatic life, and ensure compliance with the federal Clean Water Act. Ongoing funding is provided to local communities to help them comply with water quality standards by completing projects that help to reduce toxins, decrease water temperature, and increase dissolved oxygen levels in local water bodies. (Water Quality Account-State)

**22. Water Quality Monitoring Consortium** - Currently, stormwater and water quality monitoring activities in Puget Sound are conducted by multiple groups using different standards and protocols. The Department will facilitate the development of an ongoing monitoring consortium similar to Chesapeake Bay or San Francisco Bay to institute coordination between local, state, and regional monitoring agencies. The goal is to integrate ongoing monitoring efforts for stormwater, water quality, watershed health, and other state indicators and enhance monitoring efforts in Puget Sound. (Water Quality Account-State, Water Quality Permit Account-State)

**23. Organic Waste to Resources** - A 2005 Biomass Inventory identified 17 million tons of under utilized organic materials in the state. There is a potential for turning this waste into energy, recycled products, and compost, thereby keeping it out of landfills. Ongoing funding is provided for the Department and Washington State University to develop new composting conversion processes and markets for organic materials, which will help the agricultural community become more sustainable and profitable by finding commercial uses for their waste and reduce public health threats by providing alternatives to field burning. Re-use of organic materials is expected to increase by 400,000 tons. (Waste Reduction, Recycling and Litter Control Account-State)

**24. Hydropower Licensing & Gauging** - Hydropower license fees have not been increased since they were established in 1929. Funding is provided to implement Substitute Senate Bill 5881 (water power license fees). The cost of licensing and re-licensing of hydropower dams and the costs of the cooperative stream gauging agreement with the United States Geological Survey exceeds available revenue. Legislation is proposed to increase the hydropower license fees to fully cover the costs of the Departments of Ecology and Fish and Wildlife to license, re-license, and monitor the effects of hydroelectric projects on water, fish and wildlife. It also will cover the state's share of the Cooperative Stream Gauging program which funds 36 critical stream gauges. (Reclamation Account-State)

**25. Puget Sound Local Source Control** - Local governments help their small businesses and citizens safely manage hazardous and solid wastes. Nearly 70 percent of the hazardous waste generators in the state are in the Puget Sound region. Ongoing funding is provided for local governments located near hazardous waste clean-up sites, including Duwamish Waterway, Commencement Bay, and Bellingham Bay, to work with small businesses and citizens to safely manage hazardous and solid wastes to prevent the contamination. These specialists will help fill a gap in avoiding contamination and recontamination of previously cleaned-up toxic sites. (Local Toxics Control Account-State)

**26. Shellfish** - Funding is provided to implement Second Substitute House Bill 2220 (shellfish). The bill directs the Sea Grant Program at the University of Washington to review existing research on the potential effects of geoduck aquaculture on the environment, forms the Shellfish Aquaculture Regulatory Committee, and directs the Department of Ecology to develop, by rule, guidelines for the appropriate siting and operation of geoduck aquaculture operations that are to be included in any master programs.

**27. Protect Spokane Area Water Rights** - Ongoing funding is provided for the Department to clarify water rights in Spokane Area Watersheds by mapping and documenting rights, assessing information system needs, enhancing water source metering and reporting, and consulting with local interests and tribes to determine whether to proceed with general water rights adjudicating process. The resulting information will support more active water management, including the Rathdrum Prairie/Spokane sole-source aquifer. This work will provide information on water rights and uses that may protect Washington's interests in the use of interstate water sources as Idaho proceeds with a large-scale general adjudication of the Spokane River and tributaries in Idaho. (General Fund-State, Water Quality Account-State)

**28. Achieving Instream Flows** - Funding is provided to continue to support achieving instream flows and capital water acquisition funding to add water back into streams to support salmon recovery efforts. (Water Quality Account-State)

**29. Reclaimed Water Rule-Making** - Existing reclaimed water standards do not adequately address the needs of proposed reclaimed water projects and, therefore, hinder implementation of these projects. Recent legislation requires the Department to adopt rules by 2010 and also encourages it to update rules as soon as possible. Funding is provided to speed up the rules process to help promote the re-use of water from 28 million gallons per day to more than 56 million gallons per day within 10 years. (Water Quality Account-State)

**30. Wastewater Permit Enhancements** - In response to an increase in water quality permitting, funding is provided to focus on statewide permit program enhancements including: providing rigorous permit quality review to ensure that permits are consistent with one another and with water quality regulations and policy, establishing a methodology to estimate toxics and conventional pollutant loading to water bodies; enhancing permit development and permit compliance assistance to the Department of Transportation to prevent stormwater contamination of streams and rivers from road runoff; and providing increased transparency of water quality permit data to the public through the Internet. (Water Quality Permit Account-State)

**31. Puget Sound Federal Funds** - Federal spending authority is provided for expected grant fund to support scientific research and other activities related to Puget Sound. (General Fund-Federal)

**32. Urban Waters Cleanup and Protection** - The Spokane River has elevated levels of PCB's, dioxins/furans, and PBDE in fish, and the Lower Duwamish Waterway, and Commencement Bay all have elevated concentrations of toxic chemicals and/or recontamination. Funding is provided to support cleanup projects, to assess pollutant sources, establish source controls, and assist businesses and the public to prevent contamination or re-contamination. (State Toxics Control Account-State, Local Toxics Control Account-State)

**33. Cleanup Toxic Sites-Puget Sound** - Over 110 known toxic contaminated sites are in need of cleanup within one-half mile of Puget Sound, and an additional 553 sites are in the process of being cleaned up. Ongoing funding is provided for staff support and related costs to continue cleaning up known toxic contaminated sites, including orphan and abandoned sites, within one-half mile of Puget Sound. The selected projects will integrate aquatic cleanup with adjacent upland source removal and source control. (State Toxics Control Account-State)

**35. Shellfish Stakeholder Group** - One-time funding is provided for for the Department to establish a stakeholder group comprised of representatives from interested state regulatory agencies, Native American Tribes, local governments and the environmental and shellfish farming communities. The group will be facilitated by the Office of Regulatory Assistance and to address federal, state and local regulatory issues related to shellfish farming.

**36. Discharges of Oil** - One-time funding is provided for expedited rule making to reflect changes in increased penalties to be paid by oil spillers from fifty dollars per gallon of oil spilled to one-hundred dollars per gallon, pursuant to Senate Bill 5552 (discharges of oil). Funding in the amount of \$94,000 general fund-state per year is provided to continue the Ballast Water Management Program in Puget Sound, as temporary grants will end in June 2007. The remaining funding (\$88,000 general fund-state per year) will allow the agency to expand the program to include the Columbia River and coastal ports, as well as provide ballast discharge monitoring data and evaluate possible standards for the discharge of exchanged ballast water.

**12. Essential Hatchery Facility Maint** - Funding is provided for the maintenance of hatchery buildings, rearing structures, fish loss prevention alarm systems, and electrical and plumbing systems.

**13. Hatchery Reform** - Funding is provided to implement two priority tasks identified by the Hatchery Scientific Review Group: (1) \$350,000 to mass mark hatchery production of chinook in Hood Canal and the Washington coast to provide selective fishing opportunities, and implement improved brood stock management; and (2) \$141,000 to implement improved brood stock management for the Wallace River and Soos Creek chinook programs. Improved brood stock management is essential to ensure that hatchery-origin adults returning to natural spawning areas provide a net benefit, not a loss, to naturally-spawning populations.

**14. Salmon Abundance & Productivity** - Funding is provided to monitor smolt out-migration and adult escapement within the same population. The activities funded provide annual estimates of juvenile abundance and productivity of federally-listed salmon and steelhead populations. **20. Coastal Dungeness Crab** - One-time funding is provided for the Department to develop a Dungeness crab coastal fishery buy-back program with the goals of maximizing the sustainability of the crab resource and the fleet. **1. Agricultural College Trust Account** - The Agricultural College Trust Account was created in 1999 to be used for management costs associated with silvicultural work, setting up timber sales and administration of the agency. The account's sole source of revenue is deposits from the state General Fund. Since FY 2002, the appropriations to the account have increased \$248,000 per biennium, but funding for the general fund has not increased. The Department's General Fund-State appropriation is increased on an ongoing basis in order to deposit an additional \$284,000 into the Agricultural College Trust Account beginning with the 2007-09 biennium.

**2. Fund Split for Correction Camps** - A portion of the funding for inmate crews is shifted from the Forest Fire Protection Assessment Account (FFPA) to the state General Fund. This shift will fund the program equally from the FFPA and from the General Fund. (General Fund-State, Forest Fire Protection Assessment Account-Nonappropriated)

**3. Off-Road Vehicle Account** - Funding is increased to match revenues forecasted for the Off-Road Vehicle Account. The Department will use these additional funds to enhance management and maintenance of off-road vehicle sites and trails. (Off-Road Vehicle Account-State)

**4. Aquatic Endangered Species Act** - One-time funding and staffing are provided to complete development of a habitat conservation plan to bring state-owned aquatic lands managed by the Department into compliance with the federal Endangered Species Act. (Aquatic Lands Enhancement Account-State)

**5. Derelict Vessel Removal Program** - The Derelict Vessel Removal program provides funding and expertise to assist authorized ports and local governments in the removal and disposal of abandoned vessels. Expenditure authority is increased by \$500,000 on a one-time basis to utilize excess fund balance in the Derelict Vessel Removal Account. The one-time appropriation of \$2 million will be used to remove approximately derelict and abandoned vessels that pose a public nuisance or safety hazard.

**6. Eelgrass Monitoring Equipment** - One-time funding is provided to acquire site-specific monitoring equipment that allows the Department to assess eelgrass loss in Hood Canal and Wescott Bay adjacent to San Juan Island. The monitoring and data collection activities support examination of causes of change in eelgrass condition, document a cause and effect link, and support future management actions targeting specific stressors. (Aquatic Lands Enhancement Account-State)

**7. Aquatic Restoration Land Management** - A combination of one-time (\$7,600) and ongoing funding (\$145,200) and staffing is provided to expand the Department's efforts to develop and manage conservation and restoration projects on state-owned lands in eastern and southwest Washington. This effort was initiated during the 2003-05 biennium. These projects focus on increasing public access to state-owned aquatic lands, restoring habitat, and improving water quality. During the 2007-09 biennium, emphasis will be placed on coordinating creosote removal projects. (Aquatic Lands Enhancement Account-State)

**8. Spartina Eradication Program** - Spartina is an invasive aquatic plant that forces out native animals and plants. Ongoing funding is provided to increase follow-up treatments in areas of sparse Spartina growth, ensuring eradication or continued control through such measures as herbicide application and mechanical crushing of plant rhizomes. Increasing the resources dedicated to this activity will enable the Department to continue treatment and possibly eradicate spartina on state-owned aquatic lands located in areas such as Willapa Bay and Grays Harbor. (Aquatic Lands Enhancement Account-State)

**9. Puget Sound Partnership** - Funding is provided to implement Engrossed Substitute Senate Bill 5372 (puget sound partnership). The bill creates the Puget Sound Partnership, a new state agency, to clean up and restore the environmental health of Puget Sound by the year 2020. The Puget Sound Partnership will create an action agenda to achieve clean-up and restoration goals. (Aquatic Lands Enhancement Account-State)

### Department of Natural Resources

**10. Natural Heritage Program** - Ongoing funding is provided for staff support for the Washington Natural Heritage Program to integrate, analyze and provide bird area information, and for state designations and mapping support, among other activities.

**11. RTA System Operating Costs** - The Department received funding in 2003-05 and 2005-07 biennia to replace aging revenue management, timber sales contract, and asset performance computer systems with a new revenue, timber and asset management (RTA) system. This system became operational in 2006. Ongoing funding is provided for the costs associated with operating the RTA system. (General Fund-State, Forest Development Account-State, Resource Management Cost Account-State, various other accounts)

**12. Tsunami Evacuation Route Evaluation** - The Department has prepared and printed tsunami evacuation maps for most of Washington's coastal communities. However, the routes have not been evaluated for geologic hazards such as landslides, soil liquefaction, and rockfalls that would likely result from a Cascadia subduction zone earthquake, effectively rendering some portions of the identified routes impassable. Funding and staff are provided to assess geologic hazards along evacuation routes, identify new or alternate routes, and reprint the evacuation maps for seven coastal communities.

**13. WA Conservation Corps Benefits** - Funding is provided for Washington Conservation Corps benefits.

**14. Shellfish** - Funding is provided to implement Second Substitute House Bill 2220 (shellfish). The bill directs the Sea Grant Program at the University of Washington to review existing research on the potential effects of geoduck aquaculture on the environment, forms the Shellfish Aquaculture Regulatory Committee, and directs the Department of Ecology to develop, by rule, guidelines for the appropriate siting and operation of geoduck aquaculture operations that are to be included in any master programs.

**15. Sustainable Public Access** - Funding is provided to maintain trails, educate the public on use of trust lands for recreation, and to install signs to separate off-road vehicle use from other uses. (General Fund-State, Nonhighway and Off-Road Vehicle Activities Program Account-State)

**16. Forest Practices Federal Backfill** - Chapter 300, Laws of 2006 (SSB 6874) created the Forest and Fish Support Account to continue implementation of the Forest and Fish Report after federal funding ends. Ongoing funding and staffing is provided for adaptive management research and monitoring, and tribal and state and local government participation in the program. This research and monitoring provides the Forest Practices Board with science-based feedback on whether the forest practices rules and guidance for aquatic resources are achieving resource protection goals and objectives. (Forest and Fish Support Account-State)

**17. Small Forest Landowner Services** - Small family forest landowners must comply with the same forest practices rules developed for industrial forest landowners. The resulting regulatory uncertainty makes it difficult for small forest managers to continue investing in their lands, and causes many to consider development, rather than maintaining their holdings as forest lands. A combination of one-time and ongoing funding and staff are provided for a rule-based process to develop fifteen-year permits for small forest landowners (\$2,020,000, of which \$439,000 is one-time), participation grants for involvement of small forest landowners in the Forest and Fish Cooperative Monitoring (\$171,000), and GIS Data Stewardship, data gathering and storage (\$400,000).

**18. FP Board Wildlife Assessment** - One-time funding will be used to complete the three-year collaborative, upland-wildlife assessment begun by the Forest Practices Program during FY 2006. The purpose of the assessment is to determine how well privately-owned lands, in combination with other land ownerships, contribute to wildlife habitat. It will also determine how commercial forests, forest lands on the urban fringe, and small privately-owned forest lands that are managed according to Washington's Forest and Fish prescriptions function as wildlife habitat. Although the Department is evaluating the effectiveness of the Forest and Fish rules, little overall assessment of the rules' impacts on upland wildlife has been completed. The results of this assessment will be used for future changes to forest practice rules necessary to protect wildlife.

**19. Aviation Airworthiness Directive** - The Federal Aviation Administration (FAA) issued an airworthiness directive in 2006 requiring engine modifications to the Department's helicopters used primarily to fight fires. One-time funding is provided to retrofit Department helicopters, including the spare engine, in order to meet this new FAA requirement. (General Fund-State, Forest Fire Protection Assessment Account-Nonappropriated)

**20. Wildfire Prevention and Protection** - One-time funding is provided for the Department to convene and staff a work group to study issues related to wildfire prevention and protection. The work group shall issue a report of findings and recommendations by August 1, 2008.

**21. Fire Safety Qualification Training** - The Department is facing a future shortage of personnel qualified to serve in critical firefighting roles, including initial attack advanced attack, and incident command functions. Funding is provided to double the number of participants completing key firefighting courses. (General Fund-State, Forest Fire Protection Assessment-Nonappropriated)

**27. Sustainable Harvest Implementation** - Expenditure authority and staffing are increased on an ongoing basis to increase silvicultural activities on state lands in pursuit of the 2004 sustainable harvest plan's conservation, ecological, and forest structure goals. (Resource Management Cost Account-State)

**28. Surface Mining Reclamation** - Substitute Senate Bill 5972 (surface mining reclamation) authorizes the Department of Natural Resources to issue a notice of correction to a surface mining reclamation permit holder or non-permit holder who violates the Department rules. The Department may also issue an order to rectify deficiencies, issue orders to stop all surface mining to any permit holder or person who conducts surface mining activities without a permit, or suspend a reclamation permit whenever a permit holder or surface miner is out of compliance with a final Department order. Funding is provided for the Department to increase focus on enforcement options as outlined in the bill. If the bill is not enacted, funding will lapse. (Resource Management Cost Account-State, Surface Mining Reclamation Account-State)

New members of TRS and SERS will have the option of joining Plan 2 or Plan 3. (General Fund-State, various other funds)

**32. Nonrepresented Staff Health Benefit** - Funding is provided to increase employer funding rates for nonrepresented employee health benefits sufficiently so that employer payments to defray 88 percent of the cost of health insurance premiums. OIC will provide agricultural workers training in necessary farm skills, English as a second language, and other necessary farm skills.

**10. Biofuels Quality Assurance** - One-time funding is provided to inspect production, distribution, and retail facilities that make, transport, or sell biofuels. In 2006, legislation (ESSB 6508) was enacted that expanded the Motor Fuel Quality Program's scope to include biodiesel, biodiesel blends, and ethanol blends. Funding, however, was not provided for the cost of sampling and testing biofuels. To ensure full implementation of the legislation, the Department has begun adopting standards for biofuels. (Energy Freedom Account-State)

**1. Washington Youth Academy** - The additional enrollment resulting from the establishment of the Washington Youth Academy will increase state funding to districts for staffing, which will increase the cost of the Initiative 732 salary increases and health benefit changes.

**2. Special Education Funding** - The changes made to the special education funding formula will increase state funding to districts for staffing, which will increase the cost of the Initiative 732 salary increases and health benefit changes.

**3. Teacher Salary Equity** - In addition to I-732 salary increases of 3.7 percent in the 2007-08 school year and 2.8 percent in the 2008-09 school year, salaries for certificated instructional staff (CIS) in non-grandfathered salary districts are increased an additional 0.6 percent in the 2007-08 school year and 0.7 percent in the 2008-09 school year. This results in total salary increases for CIS in non-grandfathered districts of 4.3 percent in the 2007-08 school year and 3.5 percent in the 2008-09 school year. This reduces the total number of grandfathered salary districts from 34 to 13 by the end of the 07-09 biennium, and reduces the difference between the top grandfathered salary district (Everett) and the rest of the state from 6.3 percent to 4.9 percent by the end of the biennium.

- 130. **READING ACHIEVEMENT ACCOUNT** - General Fund-State funds are provided solely for expenditure into the Reading Achievement Account to implement an early reading grant program for community-based initiatives that develop prereading and early reading skills through parental and community involvement, public awareness, coordination of resources, and partnerships with local school districts, and to provide statewide support to community-based reading initiatives.
- 131. **BOATING ACTIVITIES ACCOUNT** - The appropriation is provided solely for expenditure into the boating activities account under Substitute House Bill No. 1651 (boating activities). If the bill is not enacted by June 30, 2007, the appropriation in this section shall lapse.
- 132. **VRDE ACCOUNT** - The appropriation is provided solely for expenditure into the Violence Reduction and Drug Enforcement Account..
- 133. **PENSION FUNDING STABILIZATION ACCT** - General Fund-State funds are provided for expenditure into the Pension Funding Stabilization Account.
- 134. **HEALTH SERVICES ACCOUNT** - The appropriation is provided solely for expenditure into the Health Services Account.
- 135. **MOBILE HOME PARK RELOCATION ACCOUNT** - The state provides financial assistance to mobile home park tenants who have to move their mobile home because the park is either closing or being converted to another use. Additional funding is needed to eliminate the current backlog of applications and to assist an increasing number of eligible tenants. These funds will be spent into the Mobile Home Park Relocation Account.
- 136. **INFORMATION TECHNOLOGY FUNDING POOL** - Funding is appropriated into the Data Processing Revolving Fund for new information technology projects in the upcoming biennium. This approach follows the recommendation of the Joint Legislative Audit and Review Committee report entitled "Evaluation of Budget Process for Information Technology Projects." The funds are under the joint control of the Office of Financial Management (OFM) and the Department of Information Services (DIS). The pool allows OFM and DIS to seek opportunities to reduce costs and achieve economies of scale by leveraging statewide investments in systems and data, and other common or enterprise-wide solutions. [This appropriation contains all near-GFS support for the various projects. A LEAP schedule will be developed. The 2007-09 appropriation will contain any non-near GFS appropriations, including federal and other dedicated fund sources.]
