NEW SECTION.  Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP) the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may
be necessary to finance a unified health care plan for the WMIP program
enrollment. The WMIP pilot projects shall not exceed a daily
enrollment of 13,000 persons during the 2007-2009 biennium. The amount
of funding assigned to the pilot projects from each program may not
exceed the average per capita cost assumed in this act for individuals
covered by that program, actuarially adjusted for the health condition
of persons enrolled in the pilot, times the number of clients enrolled
in the pilot. In implementing the WMIP pilot projects, the department
may: (a) Withhold from calculations of "available resources" as set
forth in RCW 71.24.025 a sum equal to the capitated rate for
individuals enrolled in the pilots; and (b) employ capitation financing
and risk-sharing arrangements in collaboration with health care service
contractors licensed by the office of the insurance commissioner and
qualified to participate in both the medicaid and medicare programs.
The department shall conduct an evaluation of the WMIP, measuring
changes in participant health outcomes, changes in patterns of service
utilization, participant satisfaction, participant access to services,
and the state fiscal impact.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $105,583,000 of the general fund--state appropriation for fiscal year 2008 and $106,707,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for persons and services not covered by the medicaid program. These funds shall be distributed proportionally to each regional support network's percentage of the total state population. Included in these amounts are inflationary increases of 1.6 percent effective July 2007 and an additional 1.0 percent effective July 2008.
(b) $16,900,000 of the general fund--state appropriation for fiscal year 2008 and $16,900,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches which the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the regional support network would otherwise need to use at the state hospitals.

(c) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 222 per day throughout fiscal year 2008. (d) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(e) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid
eligible. Project services shall be delivered by teachers and teaching
assistants who qualify as, or who are under the supervision of, mental
health professionals meeting the requirements of chapter 275-57 WAC.
The department shall increase medicaid payments to the regional support
network by the amount necessary to cover the necessary and allowable
costs of the demonstration, not to exceed the upper payment limit
specified for the regional support network in the department's medicaid
waiver agreement with the federal government after meeting all other
medicaid spending requirements assumed in this subsection. The
regional support network shall provide the required nonfederal share of
the increased medicaid payment provided for operation of this project.

(f) At least $902,000 of the federal block grant funding

to the economic services program for purposes of facilitating prompt
access after their release from confinement to medical and income

(h) $1,548,000 of the general fund--state appropriation for fiscal
year 2008 and $1,579,000 of the general fund--state appropriation for
fiscal year 2009 are provided solely for grants for innovative mental
health service delivery projects. Such projects may include, but are

care and behavioral health services for general assistance recipients.
These amounts shall supplement, and not supplant, local or other
funding currently being used for activities funded under the projects
authorized in this subsection.

(i) The department is authorized to continue to expend federal
block grant funds and special purpose federal grants through direct
contracts, rather than through contracts with regional support
networks, and to allocate such funds through such formulas as it shall
adopt.
(j) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(k) $2,250,000 of the general fund--state appropriation for fiscal year 2008, $2,250,000 of the general fund--state appropriation for fiscal year 2009, and $4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

(l) $774,000 of the general fund--state appropriation for fiscal year 2008 and $789,000 of the general fund--state appropriation for fiscal year 2009 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative during the 2003-05 biennium. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(m) $796,000 of the general fund--state appropriation for fiscal year 2008, $1,422,000 of the general fund--state appropriation for fiscal year 2009, and $908,000 of the general fund--federal appropriation are provided solely to phase-in new payment rates for medicaid psychiatric inpatient services. Under the new system, consistent with the way rates are set for the treatment of physical illnesses, payment rates for psychiatric inpatient care are to be set at the statewide industry average per diem cost, adjusted for regional wage differences and for differences in capital costs. To facilitate the transition to this new system, for hospitals that are expected to provide over 200 patient days of inpatient psychiatric care per year,
rates shall not increase by more than an additional 10 percent each year, nor decrease by more than an additional 5 percent each year, until all hospitals are paid at the adjusted statewide average rate.

(n) $5,077,000 of the general fund--state appropriation for fiscal year 2008 and $5,077,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to increase payment rates for nonmedicaid psychiatric inpatient services above fiscal year 2005 levels. (o) $3,093,000 of the general fund--state appropriation and $1,902,000 of the general fund--federal appropriation for fiscal year 2008 are provided solely to increase compensation for community mental health direct care staff effective January 2008. $9,454,000 of the general fund--state appropriation and $5,905,000 of the general fund--federal appropriation for fiscal year 2009 are provided solely to continue the January 2008 increase, and to provide an additional compensation increase for direct care staff effective January 2009. As used in this subsection, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness. The term excludes employees whose duties are primarily administrative, and contractors. In order to obtain compensation pass-through funding, a community mental health agency must first provide a plan and budget to its regional support network demonstrating how the full amount of the pass-through, except for the appropriate employer share of applicable payroll taxes, will be used to increase wages or benefits for direct care staff. Upon approval of the plan, in order to access the funds, the agency must submit to the regional support network and to the department of social and health services a legally binding written certification that it will increase compensation for its direct care staff as provided in the plan and budget. An agency's plan shall be approved and it shall be deemed to have met the certification requirement by submitting an executed collective bargaining agreement that increases compensation for direct care staff by an amount commensurate with the additional funding provided. If judged
appropriate by the regional support network or the department, participating agencies shall be audited to determine whether their certification has been fulfilled.

(p) Within funds provided in this subsection (1), medicaid capitation rates shall be increased by 1.6 percent effective July 2007, and by an additional 1.0 percent effective July 2008.

(q) $2,071,000 of the general fund--state appropriation for fiscal year 2008 and $1,733,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of Substitute House Bill No. 1456 (mental health professionals). If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse. For purposes of organizing and delivering training as required by the bill, the department may retain up to fifteen percent of the amount appropriated for fiscal year 2008, and up to ten percent of the amount appropriated for fiscal year 2009. The remainders shall be distributed to regional support networks proportional to each network's percentage of the total state population.

                                     TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . . . $8,306,334,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(4) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.
(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(6) $1,111,000 of the health services account appropriation for fiscal year 2008, $1,110,000 of the health services account appropriation for fiscal year 2009, $5,402,000 of the general fund--federal appropriation, $1,590,000 of the general fund--state appropriation for fiscal year 2008, and $1,591,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $10,546,000 of the health services account appropriation for fiscal year 2008, $10,546,000 of the health services account--state appropriation for fiscal year 2009, and $19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2007-2009 biennium. The program shall apply to all public hospitals, including those owned or operated
by the state, except those classified as critical access hospitals or
state psychiatric institutions. The department shall submit a report
to the governor and legislature by November 1, 2007, which evaluates
whether savings continue to exceed costs for this program. If the
certified public expenditures program in its current form is no longer
cost-effective to maintain, the department shall submit a report to the
governor and legislature detailing cost-effective alternative uses of
local, state, and federal resources as a replacement for this program.
During fiscal year 2008 and fiscal year 2009, hospitals in the program
shall be paid and shall retain (a) one hundred percent of the federal
portion of the allowable hospital cost for each medicaid inpatient fee-
for-service claim payable by medical assistance; and (b) one hundred
percent of the federal portion of the maximum disproportionate share
hospital payment allowable under federal regulations. Inpatient
medicaid payments shall be established using an allowable methodology
that approximates the cost of claims submitted by the hospitals.
Payments made to each hospital in the program in each fiscal year of
the biennium shall be compared to a baseline amount that is the total
of (a) the total payment for claims for services rendered during the
fiscal year calculated according to the methodology employed by the
legislature in the omnibus appropriations act for implementation in
fiscal year 2008 and (b) disproportionate share hospital payment
amounts paid to and retained by each hospital during fiscal year 2005
that pertain to fiscal year 2005. If payments during the fiscal year
exceed the hospital's baseline amount, no additional payments will be
made to the hospital except the federal portion of allowable
disproportionate share hospital payments for which the hospital can
certify allowable match. If payments during the fiscal year are less
than the baseline amount, the hospital will be paid a state grant equal
to the difference between payments during the fiscal year and the
applicable baseline amount. Payment of the state grant shall be made
in the applicable fiscal year and is subject to an interim cost
settlement within eleven months after the end of the fiscal year. A
final cost settlement shall be performed within two years after the end
of the related fiscal year. To the extent that a final cost settlement
determines that a hospital has received funds in excess of what it
would have received under the methodology in place in fiscal year 2008
as described in this subsection, the hospital must repay these amounts.
to the state when requested. $74,477,000 of the general fund--state appropriation for fiscal year 2008, of which $6,570,000 is appropriated in section 204(1) of this act and the balance in this section, and $70,668,000 of the general fund--state appropriation for fiscal year 2009, of which $6,570,000 is appropriated in section 204(1) of this act and the balance in this section, are provided solely for state grants for the participating hospitals.

The amounts are conditioned on the department satisfying the requirements of section 902 of this act.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(12) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(13) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings.

(16) The department shall conduct a study to determine the financial impact associated with continuing to cover brand name medications versus the same medication in its generic form. The study shall account for all rebates paid to the state on each product studied up until the point where the generic form is less expensive, net of federally required rebates. A report is due to the legislative fiscal committees by December 1, 2007.

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds
as are necessary to complete the school year ending in the fiscal year
and for prior fiscal year adjustments.

(2) Allocations for certificated staff salaries for the 2007-08 and
2008-09 school years shall be determined using formula-generated staff
units calculated pursuant to this subsection. Staff allocations for
small school enrollments in (e) through (g) of this subsection shall be
reduced for vocational full-time equivalent enrollments. Staff
allocations for small school enrollments in grades K-6 shall be the
greater of that generated under (a) of this subsection, or under (d)
and (e) of this subsection. Certificated staffing allocations shall be
as follows:

(a) On the basis of each 1,000 average annual full-time equivalent
enrollments, excluding full-time equivalent enrollment otherwise
recognized for certificated staff unit allocations under (d) through
(g) of this subsection:

(i) Four certificated administrative staff units per thousand full-
time equivalent students in grades K-12;
(ii) Forty-nine certificated instructional staff units per thousand
full-time equivalent students in grades K-3;
(iii) Forty-six certificated instructional staff units per thousand
full-time equivalent students in grades 4-12; and
(iv) An additional 4.2 certificated instructional staff units for
grades K-3 and an additional 7.2 certificated instructional staff units
for grade 4. Any funds allocated for the additional certificated units
provided in this subsection (iv) shall not be considered as basic
education funding;

(A) Funds provided under this subsection (2)(a)(iv) in excess of
the amount required to maintain the statutory minimum ratio established
under RCW 28A.150.260(2)(b) shall be allocated only if the district
documents an actual ratio in grades K-4 equal to or greater than 53.2
certificated instructional staff per thousand full-time equivalent
students. For any school district documenting a lower certificated
instructional staff ratio, the allocation shall be based on the
district's actual grades K-4 certificated instructional staff ratio
achieved in that school year, or the statutory minimum ratio
established under RCW 28A.150.260(2)(b), if greater;

(B) Districts at or above 51.0 certificated instructional staff per
one thousand full-time equivalent students in grades K-4 may dedicate
up to 1.3 of the 53.2 funding ratio to employ additional classified instructional assistants assigned to basic education classrooms in grades K-4. For purposes of documenting a district's staff ratio under this section, funds used by the district to employ additional classified instructional assistants shall be converted to a certificated staff equivalent and added to the district's actual certificated instructional staff ratio. Additional classified instructional assistants, for the purposes of this subsection, shall be determined using the 1989-90 school year as the base year;

(C) Any district maintaining a ratio in grades K-4 equal to or greater than 53.2 certificated instructional staff per thousand full-time equivalent students may use allocations generated under this subsection (2)(a)(iv) in excess of that required to maintain the minimum ratio established under RCW 28A.150.260(2)(b) to employ additional basic education certificated instructional staff or classified instructional assistants in grades 5-6. Funds allocated under this subsection (2)(a)(iv) shall only be expended to reduce class size in grades K-6. No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time equivalent students whose full-time equivalent student enrollment count in a given month exceeds the first of the month full-time equivalent enrollment count by 5 percent, an additional state allocation of 110 percent of the share that such increased enrollment would have generated had such additional full-time equivalent students been included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

(A) Vocational education programs approved by the superintendent of public instruction, a maximum of 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 19.5 full-time equivalent vocational students; and

(B) Skills center programs meeting the standards for skills center funding established in January 1999 by the superintendent of public instruction with a waiver allowed for skills centers in current operation that are not meeting this standard until the 2007-08 school year, 0.92 certificated instructional staff units and 0.08 certificated
administrative units for each 16.67 full-time equivalent vocational
students;

(ii) Vocational full-time equivalent enrollment shall be reported
on the same monthly basis as the enrollment for students eligible for
basic support, and payments shall be adjusted for reported vocational
enrollments on the same monthly basis as those adjustments for
enrollment for students eligible for basic support; and

(iii) Indirect cost charges by a school district to vocational-
secondary programs shall not exceed 15 percent of the combined basic
education and vocational enhancement allocations of state funds;

(d) For districts enrolling not more than twenty-five average
annual full-time equivalent students in grades K-8, and for small
school plants within any school district which have been judged to be
remote and necessary by the state board of education and enroll not
more than twenty-five average annual full-time equivalent students in
grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76
certificated instructional staff units and 0.24 certificated
administrative staff units for enrollment of not more than five
students, plus one-twentieth of a certificated instructional staff unit
for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68
certificated instructional staff units and 0.32 certificated
administrative staff units for enrollment of not more than five
students, plus one-tenth of a certificated instructional staff unit for
each additional student enrolled;

(e) For specified enrollments in districts enrolling more than
twenty-five but not more than one hundred average annual full-time
equivalent students in grades K-8, and for small school plants within
any school district which enroll more than twenty-five average annual
full-time equivalent students in grades K-8 and have been judged to be
remote and necessary by the state board of education:

(i) For enrollment of up to sixty annual average full-time
equivalent students in grades K-6, 2.76 certificated instructional
staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time
equivalent students in grades 7 and 8, 0.92 certificated instructional
staff units and 0.08 certificated administrative staff units;
(f) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (g)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students;

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(i) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2007-08 and 2008-09 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2)(e) through (i) of this section, one classified staff unit for each three certificated staff units allocated under such subsections;
(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 14.63 percent in the 2007-08 school year and 16.40 percent in the 2008-09 school year for certificated salary allocations provided under subsection (2) of this section, and a rate of 17.24 percent in the 2007-08 school year and 18.54 percent in the 2008-09 school year for classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(2) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of $9,703 per certificated staff unit in the 2007-08 school year and a maximum of $9,907 per certificated staff unit in the 2008-09 school year.

(b) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(A) of this section, there shall be provided a maximum of $23,831 per certificated staff unit in the 2007-08 school year and a maximum of $24,331 per certificated staff unit in the 2008-09 school year.

(c) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(B) of this
section, there shall be provided a maximum of $18,489 per certificated
staff unit in the 2007-08 school year and a maximum of $18,877 per
certificated staff unit in the 2008-09 school year.

(7) Allocations for substitute costs for classroom teachers shall
be distributed at a maintenance rate of $555.20 for the 2007-08 and
2008-09 school years per allocated classroom teachers exclusive of
salary increase amounts provided in section 504 of this act. Solely
for the purposes of this subsection, allocated classroom teachers shall
be equal to the number of certificated instructional staff units
allocated under subsection (2) of this section, multiplied by the ratio
between the number of actual basic education certificated teachers and
the number of actual basic education certificated instructional staff
reported statewide for the prior school year.

(8) Any school district board of directors may petition the
superintendent of public instruction by submission of a resolution
adopted in a public meeting to reduce or delay any portion of its basic
education allocation for any school year. The superintendent of public
instruction shall approve such reduction or delay if it does not impair
the district's financial condition. Any delay shall not be for more
than two school years. Any reduction or delay shall have no impact on
levy authority pursuant to RCW 84.52.0531 and local effort assistance
pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of $16,622,000
outside the basic education formula during fiscal years 2008 and 2009
as follows:

(a) For fire protection for school districts located in a fire
protection district as now or hereafter established pursuant to chapter
52.04 RCW, a maximum of $547,000 may be expended in fiscal year 2008
and a maximum of $558,000 may be expended in fiscal year 2009;

(b) For summer vocational programs at skills centers, a maximum of
$2,385,000 may be expended for the 2008 fiscal year and a maximum of
$2,385,000 for the 2009 fiscal year. 20 percent of each fiscal year
amount may carry over from one year to the next;

(c) A maximum of $390,000 may be expended for school district
emergencies;

(d) A maximum of $485,000 each fiscal year may be expended for
programs providing skills training for secondary students who are
enrolled in extended day school-to-work programs, as approved by the
superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs; and

(e) $4,714,000 of the education legacy trust account appropriation for fiscal year 2008 and $4,673,000 of the education legacy trust account appropriation for fiscal year 2009 are provided solely for allocations for equipment replacement in vocational programs and skills centers. Each year of the biennium, the funding shall be allocated based on $75 per full-time equivalent vocational student and $125 per full-time equivalent skills center student.

(f) $2,991,000 of the general fund--state appropriation for fiscal year 2008 and $4,403,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of Second Substitute Senate Bill No. 5790 (regarding skills centers). If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse.

(10) For purposes of RCW 84.52.0531, the increase per full-time equivalent student is 5.7 percent from the 2006-07 school year to the 2007-08 school year and 5.1 percent from the 2007-08 school year to the 2008-09 school year.

(11) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2)(b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2)(a) through (h) of this section shall be reduced in increments of twenty percent per year.

NEW SECTION. Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION. (1) The following calculations determine the salaries used in the general fund
allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 2 by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP Document 1; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 2.

(2) For the purposes of this section:

(a) "LEAP Document 1" means the staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on March 24, 2007, at 07:29 hours; and

(b) "LEAP Document 2" means the school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on March 24, 2007, at 07:29 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of 14.63 percent for school year 2007-08 and 16.40 percent for school year 2008-09 for certificated staff and for classified staff 17.24 percent for school year 2007-08 and 18.54 percent for the 2008-09 school year.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

General Fund--State Appropriation (FY 2008) . . . . . . $548,413,000
General Fund--State Appropriation (FY 2009) . . . . . . $566,972,000

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall ensure that:
   (i) Special education students are basic education students first;
   (ii) As a class, special education students are entitled to the full basic education allocation; and
   (iii) Special education students are basic education students for the entire school day.

   (b) All districts shall use the excess cost methodology first developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the
mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2007-08 and 2008-09 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

enrollment percent shall be calculated in accordance with subsection
(6)(b) of this section, and shall be calculated in the aggregate rather
than individual district units. For purposes of this subsection, the
average basic education allocation per full-time equivalent student
shall be calculated in the aggregate rather than individual district
units.

(8) To the extent necessary, $30,690,000 of the general fund--state
appropriation and $29,574,000 of the general fund--federal
appropriation are provided for safety net awards for districts with
demonstrated needs for special education funding beyond the amounts
provided in subsection (5) of this section. If safety net awards
exceed the amount appropriated in this subsection (8), the
superintendent shall expend all available federal discretionary funds
necessary to meet this need. Safety net funds shall be awarded by the
state safety net oversight committee subject to the following
conditions and limitations:

(a) The committee shall consider unmet needs for districts that can
convincingly demonstrate that all legitimate expenditures for special
education exceed all available revenues from state funding formulas.
In the determination of need, the committee shall also consider
additional available revenues from federal sources. Differences in
program costs attributable to district philosophy, service delivery
choice, or accounting practices are not a legitimate basis for safety
net awards.

(b) The committee shall then consider the extraordinary high cost
needs of one or more individual special education students.
Differences in costs attributable to district philosophy, service
delivery choice, or accounting practices are not a legitimate basis for
safety net awards.

(c) Using criteria developed by the committee, the committee shall
then consider extraordinary costs associated with communities that draw
a larger number of families with children in need of special education
services.

(d) The maximum allowable indirect cost for calculating safety net
eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) Pursuant to Engrossed Second Substitute Senate Bill No. 5841 (enhancing student learning opportunities), the office of superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process. The safety net oversight committee shall study the excess cost accounting method and explore options for a possible replacement, including an option that reflects the full amount of special education funding and the legislative direction to ensure that as a class, special education students are entitled to the full basic education allocation.

(12) A maximum of $678,000 may be expended from the general fund—state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) A maximum of $1,000,000 of the general fund—federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including
work experience where possible, to facilitate their successful
transition out of the public school system. The funds provided by this
subsection shall be from federal discretionary grants.

(14) $50,000 of the general fund--state appropriation for fiscal
year 2008, $50,000 of the general fund--state appropriation for fiscal
2009, and $100,000 of the general fund--federal appropriation shall be
expended to support a special education ombudsman program within the
office of superintendent of public instruction. The purpose of the
program is to provide support to parents, guardians, educators, and
students with disabilities. The program will provide information to
help families and educators understand state laws, rules, and
regulations, and access training and support, technical information
services, and mediation services. The ombudsman program will provide
data, information, and appropriate recommendations to the office of
superintendent of public instruction, school districts, educational
service districts, state need projects, and the parent and teacher
information center.

(15) The superintendent shall maintain the percentage of federal
flow-through to school districts at 85 percent. In addition to other
purposes, school districts may use increased federal funds for high-
cost students, for purchasing regional special education services from
educational service districts, and for staff development activities
particularly relating to inclusion issues.

(16) A maximum of $1,200,000 of the general fund--federal
appropriation may be expended by the superintendent for projects
related to use of inclusion strategies by school districts for
provision of special education services.

(17) The superintendent, consistent with the new federal IDEA
reauthorization, shall continue to educate school districts on how to
implement a birth-to-three program and review the cost effectiveness
and learning benefits of early intervention.

(18) A school district may carry over from one year to the next
year up to 10 percent of the general fund--state funds allocated under
this program; however, carryover funds shall be expended in the special
education program.

(19) $262,000 of the general fund--state appropriation for fiscal
year 2008 and $251,000 of the general fund--state appropriation for
fiscal year 2009 are provided solely for two additional full-time

PART XI
HUMAN SERVICES

Sec. 1101. 2006 c 372 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.  (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, (2006) 2007, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year (2006) 2007 among programs after approval by the director of financial management.
However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2006 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose, other than family support appropriations for the developmental disabilities program in section 205(1)(e) of this act and family reconciliation services appropriations for the children and family services program in section 202(20) of this act, after approval by the director of financial management.

(c) The department shall not transfer funds, (and the director of financial management shall not approve the transfer,) unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds (and not federal funds). The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(4) The department is authorized to expend up to $4,700,000 of its general fund--state appropriation for fiscal year 2007 for any reductions in federal funding in fiscal year 2006 for targeted case management services for children who are in the care of the state. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications under this subsection.

(5) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds
appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2005-2007 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs.

The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(6) In accordance with RCW 74.39A.300, the appropriations to the department of social and health services in this act are sufficient to implement the compensation and fringe benefits of the collective bargaining agreement reached between the governor and the exclusive bargaining representative of individual providers of home care services.

Sec. 1104. 2006 c 372 s 204 (uncodified) is amended to read as follows:

                          $338,013,000
General Fund--Private/Local Appropriation . . . . . . . . (($1,970,000))
                          $6,100,000
TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . . . . ((($889,632,000))
                          $883,129,000

The appropriations in this subsection are subject to the following conditions and limitations:
(a) $103,400,000 of the general fund--state appropriation for fiscal year 2006 is provided solely for persons and services not covered by the medicaid program. The department shall distribute this amount among the regional support networks according to a formula that, consistent with RCW 71.24.035(13), assures continuation of fiscal year 2003 levels of nonmedicaid service in each regional support network area for the following service categories in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance. The formula shall also ensure that each regional support network's combined state and federal allocation is no less than the amount it was due under the fiscal year 2005
allocation methodology. The remaining amounts shall be distributed based upon a formula that incorporates each regional support network's percentage of the state's population.

(b) $100,959,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for persons and services not covered by the medicaid program. Consistent with RCW 71.24.035(13), these funds shall be distributed proportional to each regional support network's percentage of the total state population.

(c) $(10,882,000) $10,512,000 of the general fund--state appropriation for fiscal year 2007 and $(10,922,000) $10,550,000 of the general fund--federal appropriation are provided solely to increase medicaid capitation rates (i) by three and one-half percent, for regional support networks whose fiscal year 2006 capitation rates are above the statewide population-weighted average; and (ii) to the statewide population-weighted average, for regional support networks whose fiscal year 2006 capitation rates are below that level. Regional support networks may elect to receive all or a portion of the general fund--state share of the funding for which they qualify under this subsection (1)(c) as an increase in nonmedicaid rather than medicaid funding. Regional support networks choosing to obtain funding in this way must notify the department of their decision no later than June 1, 2006.

(d) $(359,000) $2,175,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to ensure that no regional support network's combined state and federal allocation is less than the amount it was due under the fiscal year 2006 allocation methodology.

(e) $750,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for grants to hospitals that are unable to receive disproportionate share hospital funding due to the federal funding restrictions on "institutions for mental disease." These funds shall be allocated among eligible hospitals proportional to the amount the hospital would have received from the disproportionate share hospital grants funded under section 209 of this 2006 act if the federal funding restriction were not in effect.

(f) $85,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for a contract with the national alliance
for the mentally ill of greater Seattle to assist people who are
recovering from a major mental illness to participate in development of
a group residence for women.

(g) $2,825,000 of the general fund--state appropriation for fiscal
year 2007 is provided solely to refund to regional support networks
fifty percent of the "liquidated damages" amount that was withheld from
payments to the regional support network during fiscal years 2002
through 2005 because the regional support network used more than its
allocated number of state hospital days of care. The payments directed
in this subsection (1)(g) are contingent upon agreement by the regional
support network that the funds shall be used only for mental health
services. The payments directed in this subsection do not apply to
regional support networks to which such refunds have been directed by
court order prior to the effective date of this 2006 act.

(h) The department shall refund to the regional support networks
100 percent of the "liquidated damages" that have been withheld from
payments to the regional support network during fiscal year 2006 for
periods prior to the effective date of this act. The payments directed
in this subsection (1)(h) do not apply to regional support networks to
which such refunds have been directed by court order prior to the
effective date of this act.

(i) $3,238,000 of the general fund--state appropriation for fiscal
year 2007 is provided solely for the department and regional support
networks to contract for development and initial implementation of
high-intensity program for active community treatment (PACT) teams, and
other proven program approaches which the department concurs will
enable the regional support network to achieve significant reductions
during fiscal year 2008 and thereafter in the number of beds the
regional support network would otherwise need to use at the state
hospitals.

(j) The number of nonforensic beds allocated for use by regional
support networks at eastern state hospital shall average 222 per day
throughout fiscal year 2007. The number of nonforensic beds allocated
for use by regional support networks at western state hospital shall
average 727 during the first quarter of fiscal year 2007, 757 during
the second quarter of fiscal year 2007, and 777 during the third and
fourth quarters of fiscal year 2007. During fiscal year 2007, the
department shall not separately charge regional support networks for
use of state hospital beds for short-term commitments, or for persons served in the program for adaptive living skills (PALS), but the days of care provided for such commitments and in the PALS program shall count against the regional support network's state hospital allocation. The legislature intends to authorize separate charges for the PALS program beginning in January 2008.

(k) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(l) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(m) $3,100,000 of the general fund--state appropriation for fiscal year 2006 and $3,375,000 of the general fund--state appropriation for fiscal year 2007 are provided solely to establish a base community psychiatric hospitalization payment rate. The base payment rate shall be $400 per indigent patient day at hospitals that accept commitments under the involuntary treatment act, and $550 per medicaid patient day at free-standing psychiatric hospitals that accept commitments under the involuntary treatment act. The department shall allocate these funds among the regional support networks to reflect projected expenditures at the enhanced payment level by hospital and region.
(n) At least $902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(o) $5,000,000 of the general fund--state appropriation for fiscal year 2006 and $5,000,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. These amounts shall supplement, and not supplant, local or other funding or in-kind resources currently being used for these purposes. The department is authorized to transfer such amounts as are necessary, which are not to exceed $418,000 of the general fund--state appropriation for fiscal year 2006 and $418,000 of the general fund--state appropriation for fiscal year 2007, to the economic services program for the purposes of implementing section 12 of Engrossed Second Substitute House Bill No. 1290 (community mental health) related to reinstating and facilitating access to mental health services upon mentally ill offenders' release from confinement.

(p) $1,500,000 of the general fund--state appropriation for fiscal year 2006 and $1,500,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants for innovative mental health service delivery projects. Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(q) The department is authorized to continue to expend federal block grant funds, and special purpose federal grants, through direct contracts, rather than through contracts with regional support networks; and to distribute such funds through a formula other than the one established pursuant to RCW 71.24.035(13).

(r) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(s) $2,250,000 of the general fund--state appropriation for fiscal year 2006, $2,250,000 of the general fund--state appropriation for
fiscal year 2007, and $4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration. The funds are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(t) $750,000 of the general fund--state appropriation for fiscal year 2006 and $750,000 of the general fund--state appropriation for fiscal year 2007 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who have been discharged from the state hospitals. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(u) $539,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to assist with the one-time start-up costs of two evaluation and treatment facilities. Funding for ongoing program operations shall be from existing funds that would otherwise be expended upon short-term treatment in state or community hospitals.

(v) $550,000 of the general fund--state appropriation for fiscal year 2006 and $150,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for enhancing rates to a facility that (i) is a licensed nursing home; (ii) is considered to be an "Institution for Mental Diseases" under centers for medicare and medicaid services criteria; (iii) specializes in long-term rehabilitation services for people with chronic mental illness who are chronically medically-compromised; and (iv) provides services to a minimum of 48 consumers funded by a regional support network. These amounts shall be provided in coordination with and under the auspices of a regional support network and shall enhance, and not supplant, other funding or in-kind resources currently being used for these
purposes. These funds shall be used to cover costs incurred throughout fiscal year 2006 and fiscal year 2007 and ensure adequate compensation for extra medical care services, personal care services, and other incidental costs that are not fully covered in the current rate paid to the facility.

(w) $450,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the mental health division, in collaboration with the children's administration and the juvenile rehabilitation services administration, to establish a pilot program to provide evidence-based mental health services to children. The mental health service or services to be provided under the pilot program must be selected from a list of evidence-based service options developed by the department, in consultation with a broadly representative group of individuals with expertise in children's mental health.

(i) The program site shall be selected through a request for proposal (RFP) process, open to counties or groups of counties, and shall be operational by December 2006.

(ii) Pilot site proposals shall be required to include: A designated lead agency and a commitment to work with community partners, including consumer/family representatives and representatives of the local mental health, juvenile justice, and child welfare systems and, at the applicant's discretion, may also include representatives of other child-serving systems such as health care and education; identification of areas of potential need based upon input from community partners; identification of the service or services that the pilot site would implement based upon community needs and resources; and demonstration of a commitment to participate in efforts that will ensure adherence to the chosen evidence-based practices and evaluate outcomes of implementation of the evidence-based practices.

(iii) The department shall contract with the University of Washington school of medicine's department of psychiatry and behavioral sciences division of public behavioral health and justice to provide support and assistance in all phases of the pilot program, including initiating, implementing, training providers, providing quality assurance, and monitoring implementation and outcomes.

The appropriations in this subsection are subject to the following conditions and limitations:

The legislature intends for these wards to close, on a phased basis, during the 2007-09 biennium as a result of targeted investments in community services for persons who would otherwise need care in the hospitals. To the extent that the department and regional support networks are able to develop and implement cost-effective approaches during fiscal year 2007 that would avert the need to open one or more of the additional wards, the department is authorized to use funds appropriated in this subsection for implementation of those
approaches. The department shall seek review and comment from the legislative fiscal committees at least thirty days prior to proceeding with implementation of any such alternative approach.

                                                  $1,129,487,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) The entire health services account appropriation, $151,000 of the general fund--state appropriation for fiscal year 2006, $427,000 of the general fund--state appropriation for fiscal year 2007, and $1,482,000 of the general fund--federal appropriation are provided solely for health care benefits for agency home care workers who are employed through state contracts for at least twenty hours a week. The state contribution to the cost of health care benefits per participating worker per month shall be no greater than $449.00 in fiscal year 2006 and $532.00 in fiscal year 2007.

(b) Individuals receiving family support or high school transition payments as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(c) $516,000 of the general fund--state appropriation for fiscal year 2006, ($1,917,000) $3,432,000 of the general fund--state appropriation for fiscal year 2007, and ($2,433,000) $3,954,000 of the general fund--federal appropriation are provided solely for

In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

(iv) By November 1, 2006, the department shall provide recommendations to the appropriate policy and fiscal committees of the legislature on strategies for integrating state-funded family support programs, including, if appropriate, the flexible family support pilot program, into a single program. The department shall also provide a status report on the flexible family support pilot program, which shall include the following information: The number of applicants for funding; the total number of awards; the number and amount of both annual and one-time awards, broken down by household income levels; and the purpose of the awards.

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

(3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(5) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.
(6) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(7) $2,221,000 of the health services account appropriation, $5,402,000 of the general fund--federal appropriation, $1,590,000 of the general fund--state appropriation for fiscal year 2006, and $1,591,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) $21,092,000 of the health services account appropriation and $19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(9) In response to the federal directive to eliminate intergovernmental transfer transactions effective June 30, 2005, the department is directed to implement the inpatient hospital certified public expenditures program for the 2005-07 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. Hospitals in the program shall be paid...
and shall retain (a) one hundred percent of the federal portion of each
medicaid inpatient fee-for-service claim payable by the medical
assistance administration; and (b) one hundred percent of the federal
portion of the maximum disproportionate share hospital payment
allowable under federal regulations. Medicaid fee-for-service claim
amounts shall be established by applying the department's ratio of
costs to charges payment methodology. The department shall provide
participating hospitals with the information and instructions needed by
the hospital to certify the public expenditures required to qualify for
the federal portions of both the medicaid inpatient fee-for-service
payments and the disproportionate share hospital payments. In the
event that any part of the program including, but not limited to,
allowable certified public expenditures, is disallowed by the federal
government, the department shall not seek recoupment of payments from
the hospitals, provided the hospitals have complied with the directions
of the department for participation in the program. The legislature
intends that hospitals in the program receive no less in combined state
and federal payments than they would have received under the
methodology that was in place during fiscal year 2005. The department
shall therefore make additional grant payments, not to exceed the
amounts specified in this subsection, to hospitals whose total payments
under the program would otherwise be less than the total state and
federal payments they would have received under the methodology in
effect during fiscal year 2005. Payments under these new state grant
and upper payment limit programs shall not exceed $54,054,000 from
general fund--state appropriations in fiscal year 2006, of which
$5,600,000 is appropriated in section 204(1) of this 2006 act and the
balance in this section; $47,474,000 from general
fund--state appropriations in fiscal year 2007, of which $5,600,000 is
appropriated in section 204(1) of this 2006 act and the balance in this
section; and $11,328,000 from the general fund--federal appropriations
in this section.

(10) $4,077,000 of the general fund--state appropriation for fiscal
year 2006, $4,847,000 of the general fund--state
appropriation for fiscal year 2007, and $70,100,000 of
the general fund--federal appropriation are provided solely for
development and implementation of a replacement system for the existing
medicaid management information system.
(11) $188,000 of the general fund--state appropriation for fiscal year 2006, $37,000 of the general fund--state appropriation for fiscal year 2007, and $225,000 of the general fund--federal appropriation are provided solely for the department to contract for an independent analysis of the medical assistance administration's current system for establishing hospital inpatient payment rates, and for recommendations on a new or updated system. The department shall submit an interim report of study findings by December 1, 2005, and a final report by November 15, 2006. The interim report shall include a comparison of the strengths and weaknesses of the current rate-setting system relative to those used by other state, federal, and private payers. The final report shall include recommendations on the design and implementation of a new or updated system that will promote equity among hospitals, access to quality care and improved health outcomes for patients, and cost-control and efficiency for taxpayers. The study should make use of complete and current cost data from a wide variety of hospitals, recognize unique aspects of hospital service delivery structures and medicaid payment systems in Washington, recognize impacts on productivity and quality of care that may result from hospital compensation, recruitment, and retention policies, and provide opportunities for comment and participation by key interest groups in the identification and assessment of alternatives.

(12) Payment rates for hospital inpatient and outpatient services shall be increased by an average of 1.3 percent effective July 1, 2005, and by an average of an additional 1.3 percent effective July 1, 2006. The inpatient increases shall be provided only on the portion of a hospital's rate that excludes medical education and outlier costs, and shall be allocated so that hospitals with lower costs of care (excluding medical education and outlier costs) receive larger percentage increases than those with higher costs of care. The inpatient increases shall be allocated in three percentage increments, with the lowest-cost hospitals receiving the largest percentage rate increase, highest-cost hospitals receiving the smallest percentage increase, and medium-cost hospitals receiving the average of the highest and the lowest percentage rate increase. Increases shall not be provided to those hospitals that are certified as critical access. Sufficient funds are appropriated in this section for Healthy Options
contractors to increase hospital payment rates commensurate with the increases in fee-for-service payment rates.

(13) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(14) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(15) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(16) By October 1, 2005, the department shall recommend to the governor and legislature at least two pilot project designs which seem likely to reduce avoidable emergency room utilization at no net cost to the state within the projects' first eighteen months of operation.

(17) Within funds appropriated in this section, the department shall participate in the health technology assessment program required in section 213(6) of this act.

(18) The department is also required to participate in the joint health purchasing project described in section 213(7) of this act.

(19) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings. The department shall provide a report to the appropriate committees of the legislature by January 1, 2006, on costs, savings, and any outcomes or quality measures associated with the pilot programs during the first year of operation.

(20) By October 1, 2005, the department shall report to the appropriate committees of the legislature on the potential fiscal and programmatic costs and benefits associated with an expansion of managed care pilot programs to SSI and other eligible medicaid elderly and disabled persons.

(21) By November 15, 2006, the department of social and health services, in consultation with the department of revenue and the health care authority, shall report to the health care and fiscal committees
of the legislature on options for providing financial incentives for private practice physicians to serve uninsured, medicare, and medicaid patients. The report shall include an assessment of the relative costs and effectiveness of strategies including, but not limited to, tax credits and payment rate increases. The report shall further suggest alternative mechanisms and thresholds for varying tax credits and payment enhancements according to the extent to which a provider serves uninsured, medicare, and medicaid patients.

(22) The department is directed to pursue all available administrative remedies to dispute and reverse recent large retroactive charges by the federal medicare program for payment of medicare part B premiums on behalf of medicaid recipients, to the extent that such premiums are for periods when medicare coverage was in fact never provided the beneficiaries, and their care was instead fully covered by the state medicaid program. The department shall report to the fiscal committees of the legislature by December 1, 2006, on the actions it has taken to dispute and reverse these charges.

(23) $66,000 of the general fund--state appropriation for fiscal year 2007 and $66,000 of the general fund--federal appropriation are provided solely to implement Second Substitute House Bill No. 2002 (foster care support services). If the bill is not enacted by June 30, 2006, the amount provided in this subsection shall lapse.

(24) $255,000 of the general fund--state appropriation for fiscal year 2007 and $2,107,000 of the general fund--federal appropriation are provided solely to increase the availability of family planning services at the department of social and health services' community service offices. Resources will be prioritized for those offices where pregnancy rates are higher than the statewide average.

(25) $17,000 of the general fund--state appropriation for fiscal year 2006, $53,000 of the general fund--state appropriation for fiscal year 2007, and $70,000 of the general fund--federal appropriation are provided solely for conducting a study of the employment status of enrollees in the basic health plan and the medical assistance program, pursuant to Engrossed Substitute House Bill No. 3079 (health care services). If the bill is not enacted by June 30, 2006, the amounts provided in this subsection shall lapse.

industry and secondary manufacturing sectors in Washington state. The
department shall contract with the University of Washington college of
forestry resources. The college shall consult with the University of
Washington economics department for the section on investment returns
from granted lands. The report shall contain the following parts:

(a) An update of the 1992 timber supply study for Washington state
that was conducted by the University of Washington. The update may be
accomplished by reviewing the most recent similar data available in
existing reports, examining a sample of the original 1992 study sample
of lands, and through other existing data sources that may reveal
relevant trends and changes since 1992.

(b) An independent assessment of the economic contribution of the
forest products industry, and secondary manufacturing sectors, to the
state. This assessment will also examine some of the macroeconomic
trends likely to affect the industry in the future.

(c) A comparison of the competitive position of Washington's forest
products industry globally, and with other leading forest products
states, or regions, of the United States. This evaluation should
compare the relative tax burden for growing and harvesting timber
between the states or regions and the relative cost of adhering to
regulations, and identify the competitive advantages of each state or
region.

(d) An assessment of the trends and dynamics that commercial and
residential development play in the conversion of the state's forests
to nonforestry uses. The assessment will involve gathering relevant
data, reviewing that data, and analyzing the relationship between
development and the conversion of forest land uses.

(e) Recommendations on: (i) Policy changes that would enhance the
competitive position of Washington's forest products industry in
Washington state; (ii) policy changes that would, to the extent
possible, ensure that a productive forest land base continues to be
managed for forest products, recreation, and environmental and other
public benefits into the future; and (iii) policy changes that would
enhance the recreational opportunities on working forest lands in the
state.

(f) Based on the information derived from (a) through (d) of this
subsection, an assessment of the expected rate of return from state
granted lands. This section of the reports shall also review reports
prepared by the department over the past ten years that describe the investment returns from granted lands. The review of these previous reports shall compare and critique the methodology and indicators used to report investment returns. The review shall recommend appropriate measures of investment returns from granted lands.

(i) Four certificated administrative staff units per thousand full-time equivalent students in grades K-12;

(ii) 49 certificated instructional staff units per thousand full-time equivalent students in grades K-3;

(iii) Forty-six certificated instructional staff units per thousand full-time equivalent students in grades 4-12; and

(iv) An additional 4.2 certificated instructional staff units for grades K-3 and an additional 7.2 certificated instructional staff units for grade 4. Any funds allocated for the additional certificated units provided in this subsection (iv) shall not be considered as basic education funding;

(A) Funds provided under this subsection (2)(a)(iv) in excess of the amount required to maintain the statutory minimum ratio established under RCW 28A.150.260(2)(b) shall be allocated only if the district documents an actual ratio in grades K-4 equal to or greater than 53.2 certificated instructional staff per thousand full-time equivalent students. For any school district documenting a lower certificated
instructional staff ratio, the allocation shall be based on the
district's actual grades K-4 certificated instructional staff ratio
achieved in that school year, or the statutory minimum ratio
established under RCW 28A.150.260(2)(b), if greater;

(B) Districts at or above 51.0 certificated instructional staff per
one thousand full-time equivalent students in grades K-4 may dedicate
up to 1.3 of the 53.2 funding ratio to employ additional classified
instructional assistants assigned to basic education classrooms in
grades K-4. For purposes of documenting a district's staff ratio under
this section, funds used by the district to employ additional
classified instructional assistants shall be converted to a
certificated staff equivalent and added to the district's actual
certificated instructional staff ratio. Additional classified
instructional assistants, for the purposes of this subsection, shall be
determined using the 1989-90 school year as the base year;

(C) Any district maintaining a ratio in grades K-4 equal to or
greater than 53.2 certificated instructional staff per thousand full-
time equivalent students may use allocations generated under this
subsection (2)(a)(iv) in excess of that required to maintain the
minimum ratio established under RCW 28A.150.260(2)(b) to employ
additional basic education certificated instructional staff or
classified instructional assistants in grades 5-6. Funds allocated
under this subsection (2)(a)(iv) shall only be expended to reduce class
size in grades K-6. No more than 1.3 of the certificated instructional
funding ratio amount may be expended for provision of classified
instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time
equivalent students whose full-time equivalent student enrollment count
in a given month exceeds the first of the month full-time equivalent
enrollment count by 5 percent, an additional state allocation of 110
percent of the share that such increased enrollment would have
generated had such additional full-time equivalent students been
included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

(A) Vocational education programs approved by the superintendent of
public instruction, a maximum of 0.92 certificated instructional staff
units and 0.08 certificated administrative staff units for each 19.5
full-time equivalent vocational students; and
(B) Skills center programs meeting the standards for skills center funding established in January 1999 by the superintendent of public instruction with a waiver allowed for skills centers in current operation that are not meeting this standard until the 2007-08 school year, 0.92 certificated instructional staff units and 0.08 certificated administrative units for each 16.67 full-time equivalent vocational students;

(ii) Vocational full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported vocational enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support; and

(iii) Indirect cost charges by a school district to vocational-secondary programs shall not exceed 15 percent of the combined basic education and vocational enhancement allocations of state funds;

(d) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the state board of education and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:
(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units;

(f) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students;

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2005-06 and 2006-07
school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2)(d) through (h) of this section, one classified staff unit for each three certificated staff units allocated under such subsections;

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 11.21 percent in the 2005-06 school year and 13.02 percent in the 2006-07 school year for certificated salary allocations provided under subsection (2) of this section, and a rate of 14.07 percent in the 2005-06 school year and 15.99 percent in the 2006-07 school year for classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(2) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of $9,112 per certificated staff unit in the 2005-06 school year and a maximum of $9,476 per certificated staff unit in the 2006-07 school year.
(b) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(A) of this section, there shall be provided a maximum of $22,377 per certificated staff unit in the 2005-06 school year and a maximum of $23,272 per certificated staff unit in the 2006-07 school year.

(c) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(B) of this section, there shall be provided a maximum of $17,362 per certificated staff unit in the 2005-06 school year and a maximum of $18,056 per certificated staff unit in the 2006-07 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maintenance rate of $531.09 for the 2005-06 and 2006-07 school years per allocated classroom teachers exclusive of salary increase amounts provided in section 504 of this act. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of $(12,992,000) outside the basic education formula during fiscal years 2006 and 2007 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of $513,000 may be expended in fiscal year 2006 and a maximum of $534,000 may be expended in fiscal year 2007;

(b) For summer vocational programs at skills centers, a maximum of
$2,035,000 may be expended for the 2006 fiscal year and a maximum of $2,385,000 for the 2007 fiscal year. 20 percent of each fiscal year amount may carry over from one year to the next;

(c) A maximum of $369,000 may be expended for school district emergencies;

(d) A maximum of $485,000 each fiscal year may be expended for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs; and

(e) $394,000 of the general fund--state appropriation for fiscal year 2006 and $485,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for incentive grants to encourage school districts to increase enrollment in vocational skills centers. Up to $500 for each full-time equivalent student may be proportionally distributed to a school district or school districts increasing skills centers enrollment above the levels in the 2004-05 school year. The office of the superintendent of public instruction shall develop criteria for awarding incentive grants pursuant to this subsection. The total amount allocated pursuant to this subsection shall be limited to $1,244,000 for the 2005-07 biennium. Funds provided in this subsection shall first be expended to provide incentive grants to school districts increasing skills center enrollment during the school year. If funds are available after making these allocations, funds may be distributed for: (i) Increasing enrollment including allowing up to an additional .2 full time equivalent student enrollment at skills centers; (ii) increasing enrollment and capacity of summer vocational programs at the skills centers.

(f)  $4,719,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for one-time allocations for equipment replacement in vocational programs and skills centers. The funding shall be allocated based on $75 per full time equivalent vocational student and $125 per full time equivalent skills center student.

(10) For purposes of RCW 84.52.0531, the increase per full-time equivalent student is 5.2 percent from the 2004-05 school year to the
2005-06 school year and 5.2 percent from the 2005-06 school year to the 2006-07 school year.

(11) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2)(b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2)(a) through (h) of this section shall be reduced in increments of twenty percent per year.

Pension Funding Stabilization Account Appropriation . . . . $755,000

TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . . . . . . (($500,903,000)) $500,127,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of $796,000 of this fiscal year 2006 appropriation and a maximum of $828,000 of the fiscal year 2007 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) $5,000 of the fiscal year 2006 appropriation and $5,000 of the fiscal year 2007 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.
(4) Allocations for transportation of students shall be based on reimbursement rates of $42.52 per weighted mile in the 2005-06 school year and ($42.30) $43.57 per weighted mile in the 2006-07 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Included in the 2005-06 school year rate is an increase of $1.12 and included in the 2006-07 school year rate is an increase of $1.27 to offset extraordinary increases in the price of diesel fuel. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

(5) For buses purchased between July 1, 2005, and June 30, 2007, the office of superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts.

(6) Beginning with the 2005-06 school year, the superintendent of public instruction shall base depreciation payments for school district buses on the five-year average of lowest bids in the appropriate category of bus. In the final year on the depreciation schedule, the depreciation payment shall be based on the current state price. The superintendent may include a weighting or other adjustment factor in the averaging formula to ease the transition from the current-price depreciation system to the average depreciation system. Prior to making any depreciation payment in the 2005-06 school year, the
superintendent shall notify the office of financial management and the fiscal committees of the legislature of the specific depreciation formula to be used. The replacement cost shall be based on the lowest bid in the appropriate bus category for that school year. A maximum of $50,000 of the fiscal year 2006 appropriation may be expended for software programming costs associated with the implementation of this subsection.

Sec. 1405. 2006 c 372 s 506 (uncodified) is amended to read as follows:

Sec. 1406. 2006 c 372 s 507 (uncodified) is amended to read as follows:
FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2006) . . . . . . . $464,812,000
General Fund--State Appropriation (FY 2007) . . . . . . (($478,191,000))
                  $470,395,000
General Fund--Federal Appropriation . . . . . . . . . . ($435,664,000)
                  $436,409,000

TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . (($1,381,901,000))
                  $1,374,850,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:

   (i) Special education students are basic education students first;
   (ii) As a class, special education students are entitled to the full basic education allocation; and
   (iii) Special education students are basic education students for the entire school day.

   (b) The S-275 and accounting changes in effect since the 2001-02 school year shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The
optional birth through age two program for special education eligible
developmentally delayed infants and toddlers, and the mandatory special
education program for special education eligible students ages three to
twenty-one. A "special education eligible student" means a student
receiving specially designed instruction in accordance with a properly
formulated individualized education program.

(5)(a) For the 2005-06 and 2006-07 school years, the superintendent
shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of
developmentally delayed infants and toddlers ages birth through two,
multiplied by the district's average basic education allocation per
full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic
education enrollment multiplied by the funded enrollment percent
determined pursuant to subsection (6)(b) of this section, multiplied by
the district's average basic education allocation per full-time
equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education
allocation per full-time equivalent student" for a district shall be
based on the staffing ratios required by RCW 28A.150.260 and shall not
include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this
section.

(a) "Annual average full-time equivalent basic education
enrollment" means the resident enrollment including students enrolled
through choice (RCW 28A.225.225) and students from nonhigh districts
(RCW 28A.225.210) and excluding students residing in another district
enrolled as part of an interdistrict cooperative program (RCW
28A.225.250).

(b) "Enrollment percent" means the district's resident special
education annual average enrollment, excluding the birth through age
two enrollment, as a percent of the district's annual average full-time
equivalent basic education enrollment.

Each district's general fund--state funded special education
enrollment shall be the lesser of the district's actual enrollment
percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15
districts in which all excess cost services for special education
students of the districts are provided by the cooperative, the maximum
enrollment percent shall be calculated in accordance with subsection
(6)(b) of this section, and shall be calculated in the aggregate rather
than individual district units. For purposes of this subsection, the
average basic education allocation per full-time equivalent student
shall be calculated in the aggregate rather than individual district
units.

(8) To the extent necessary, $18,940,000 of the general fund--state
appropriation and $28,698,000 of the general fund--federal
appropriation are provided for safety net awards for districts with
demonstrated needs for special education funding beyond the amounts
provided in subsection (5) of this section. If safety net awards
exceed the amount appropriated in this subsection (8), the
superintendent shall expend all available federal discretionary funds
necessary to meet this need. Safety net funds shall be awarded by the
state safety net oversight committee subject to the following
conditions and limitations:

(a) The committee shall consider unmet needs for districts that can
convincingly demonstrate that all legitimate expenditures for special
education exceed all available revenues from state funding formulas.
In the determination of need, the committee shall also consider
additional available revenues from federal sources. Differences in
program costs attributable to district philosophy, service delivery
choice, or accounting practices are not a legitimate basis for safety
net awards.

(b) The committee shall then consider the extraordinary high cost
needs of one or more individual special education students.
Differences in costs attributable to district philosophy, service
delivery choice, or accounting practices are not a legitimate basis for

Extended learning activities may occur on the school campus, via the internet, or at other locations and times that meet student needs. Funds allocated under this section shall not be considered basic education funding. Amounts allocated under this section shall fund new extended learning opportunities, and shall not supplant funding for existing programs and services.

(2) School district allocations for promoting academic success programs shall be calculated as follows:

(d) Allocations for certificated instructional staff salaries and benefits shall be determined using formula-generated staff units calculated pursuant to this subsection. Ninety-four hours of certificated instructional staff units are allocated per 13.0 student units as calculated under (a) of this subsection and thirty-four hours of certificated instructional staff units are allocated per 13.0 student units as calculated under (b) of this subsection. NEW SECTION. Sec. 1621. FOR THE OFFICE OF FINANCIAL MANAGEMENT--
TECHNOLOGY FUNDING

General Fund--State Appropriation (FY 2007) . . . . . . $18,301,000
Special Technology Funding Revolving Account
  Appropriation . . . . . . . . . . . . . . . . . . . . . . . . . . . . $34,322,000
  TOTAL APPROPRIATION . . . . . . . . . . . . . . . . . . . . . . . . . . . $52,623,000

The appropriations in this section are provided solely for deposit to and expenditure from the data processing revolving account and are subject to the following conditions and limitations:

(1) These funds, to be known as the "information technology funding pool" are under the joint control of the department of information services and the office of financial management. The department of information services shall review information technology proposals and work jointly with the office of financial management to determine the projects to be funded and the amounts and timing of release of funds. To facilitate the transfer of moneys from dedicated funds and accounts, the state treasurer is directed to transfer sufficient moneys from each dedicated fund or account to the special technology funding revolving account, hereby created in the state treasury, in accordance with schedules provided by the office of financial management.

(2) In exercising this authority, the department of information services and the office of financial management shall:

(a) Seek opportunities to reduce costs and achieve economies of scale by leveraging statewide investments in systems and data and other common or enterprise-wide solutions within and across state agencies that include standard software, hardware, and other information technology systems infrastructure, and common data definitions and data stores that promote the sharing of information across agencies whenever possible;

(b) Ensure agencies incorporate project management best practices and consider lessons learned from other information technology projects; and

(c) Develop criteria for the evaluation of information technology project funding proposals to include the determination of where common
or coordinated technology or data solutions may be established, and
identification of projects that cross fiscal biennia or are dependent
on other prior, current, or future related investments.

(3) In allocating funds for the routine replacement of software and
hardware, the information services board and office of financial
management shall presume that agencies should have sufficient funding
in their base allocation to pay for such replacement and that any
allocations out of these funds are for extraordinary maintenance costs.

(4) Funds shall not be released for information technology projects
with a risk-severity assessment level two or greater under the policies
of the information services board until a feasibility study has been
completed and approved by the information services board. If the
feasibility study indicates a need for funding exceeding that allocated
for the current biennium, justification of increased project costs
shall be incorporated in an annual report from the department of
information services to the information services board, the office of
financial management, and the legislative evaluation and accountability
program committee. Implementation funds shall not be released until
the project is approved by the legislature.

(5) Funds in the 2007-09 biennium may only be expended on the
projects listed on LEAP document 100, as generated by the legislative
evaluation and accountability program committee on March 26, 2007, at
12:00 hours. Future biennia allocations from the information
technology funding pool shall be determined jointly by the department
of information services and the office of financial management.

(6) Beginning December 1, 2008, and every biennium thereafter, the
department of information services shall submit a statewide information
technology plan to the office of financial management and the
legislative evaluation and accountability program committee that
supports a consolidated funding request. In alternate years, a plan
addendum shall be submitted that reflects any modified funding pool
request requiring action in the ensuing supplemental budget session.

(7) The department of information services shall report to the
office of financial management and the legislative evaluation and
accountability program committee by October 1, 2007, and annually
thereafter, the status of planned allocations from funds appropriated
in this section.
(8) State agencies shall report project performance in consistent and comparable terms using a common methodology such as earned value management (EVM) to calculate project performance by measuring work accomplished (scope and schedule) against work planned and project cost against planned budget. The department of information services shall provide implementation guidelines and oversight of project performance reporting.

(9) The information services board shall require all agencies receiving funds appropriated in this section to account for project expenses included in an information technology portfolio report submitted annually to the department of information services, the office of financial management, and the legislative evaluation and accountability program committee by October 1st of each year. The department of information services, with the advice and approval of the office of financial management, shall establish criteria for complete and consistent reporting of expenditures from these funds and project staffing levels.

(10) In consultation with the legislative evaluation and accountability program committee, the department of information services shall develop criteria for evaluating requests for these funds and shall report annually to the office of financial management and the legislative evaluation and accountability program committee by November 1st the status of distributions and expenditures from this pool.
