PART II
HUMAN SERVICES

NEW SECTION.  Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under the Washington medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicaid funds appropriated
under sections 204, 206, 208, and 213 of this act as may be necessary
to finance a unified health care plan for the WMIP and the MICP program
enrollment. The WMIP pilot projects shall not exceed a daily
enrollment of 6,000 persons, nor expand beyond one county during the
2013-2015 fiscal biennium. The amount of funding assigned from each
program may not exceed the average per capita cost assumed in this act
for individuals covered by that program, actuarially adjusted for the
health condition of persons enrolled, times the number of clients
enrolled. In implementing the WMIP and the MICP, the health care
authority and the department may: (i) Withhold from calculations of
"available resources" as set forth in RCW 71.24.025 a sum equal to the
capitated rate for enrolled individuals; and (ii) employ capitation
financing and risk-sharing arrangements in collaboration with health
care service contractors licensed by the office of the insurance
commissioner and qualified to participate in both the medicaid and
medicare programs.

(b) If Washington has been selected to participate in phase two of
the federal demonstration project for persons dually-eligible for both
medicare and medicaid, the department and the authority may initiate
the MICP. Participation in the project shall be limited to persons who
are eligible for both medicare and medicaid and to counties in which
the county legislative authority has agreed to the terms and conditions
under which it will operate. The purpose of the project shall be to
demonstrate and evaluate ways to improve care while reducing state
expenditures for persons enrolled both in medicare and medicaid. To
that end, prior to initiating the project, the department and the
authority shall assure that state expenditures shall be no greater on
either a per person or total basis than the state would otherwise
incur. Individuals who are solely eligible for medicaid may also
participate if their participation is agreed to by the health care
authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as
calculated by the department pursuant to the appropriations in this
act, bear a reasonable relationship to the costs incurred by
efficiently and economically operated facilities for providing quality
services and will be sufficient to enlist enough providers so that care
and services are available to the extent that such care and services
are available to the general population in the geographic area. The
legislature finds that cost reports, payment data from the federal
government, historical utilization, economic data, and clinical input
constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the
same system for delivery of spoken-language interpreter services for
social services appointments as the one established for medical
appointments in section 213 of this act. When contracting directly
with an individual to deliver spoken language interpreter services, the
department shall only contract with language access providers who are
working at a location in the state and who are state-certified or
state-authorized, except that when such a provider is not available,
the department may use a language access provider who meets other
certifications or standards deemed to meet state standards, including
interpreters in other states.

(6) The department shall facilitate enrollment under the medicaid
expansion for clients applying for or receiving state funded services
from the department and its contractors. Prior to open enrollment, the
department shall coordinate with the health care authority to provide
referrals to the Washington health benefit exchange for clients that
will be ineligible for the medicaid expansion but are enrolled in
coverage that will be eliminated in the transition to the medicaid
expansion.

and increase utilization, the department shall allow the co-location of these centers, except that a youth may not be placed in a secure facility or the secure portion of a co-located facility except as specifically authorized by chapter 13.32A RCW. The reductions to appropriations in this subsection related to semi-secure crisis residential centers reflect a reduction to the number of beds for semi-secure crisis residential centers and not a reduction in rates. Any secure crisis residential center or semi-secure crisis residential center bed reduction shall not be based solely upon bed utilization. The department is to exercise its discretion in reducing the number of beds but to do so in a manner that maintains availability and geographic representation of semi-secure and secure crisis residential centers.

NEW SECTION. Sec. 204. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MENTAL HEALTH PROGRAM

(1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS

General Fund--State Appropriation (FY 2014) $327,467,000
General Fund--State Appropriation (FY 2015) $308,723,000
General Fund--Federal Appropriation $561,394,000
General Fund--Private/Local Appropriation $17,864,000
TOTAL APPROPRIATION $1,215,448,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $104,999,000 of the general fund--state appropriation for fiscal year 2014 and $85,895,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. This is a reduction in flexible nonmedicaid funding of $4,343,000 for fiscal year 2014 and $23,446,000 for fiscal year 2015. This reduction reflects offsets in state funding related to services that will now be funded with federal dollars through the affordable care act medicaid expansion. This reduction shall be distributed as follows:

(i) The $4,343,000 reduction in fiscal year 2014 and $11,723,000 of the reduction in fiscal year 2015 must be distributed among regional
support networks based on a formula that equally weights each regional support networks proportion of individuals who become newly eligible and enroll in medicaid under the expansion provisions of the affordable care act in fiscal year 2014 and each regional support network's spending of flexible nonmedicaid funding on services that would be reimbursable for federal medicaid matching funds if provided to medicaid enrollees in the 2011-2013 fiscal biennium.

(ii) The remaining $11,723,000 reduction in fiscal year 2015 must be distributed among regional support networks based on each regional support network's proportion of individuals who become newly eligible and enroll in medicaid under the expansion provisions of the affordable care act through fiscal year 2015.

(b) $6,590,000 of the general fund--state appropriation for fiscal year 2014, $6,590,000 of the general fund--state appropriation for fiscal year 2015, and $7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund--state appropriation for fiscal year 2014, $5,850,000 of the general fund--state appropriation for fiscal year 2015, and $1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.
(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(g) $750,000 of the general fund--state appropriation for fiscal year 2014 and $750,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(h) $1,125,000 of the general fund--state appropriation for fiscal year 2014 and $1,125,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.
At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) $1,529,000 of the general fund--state appropriation for fiscal year 2014 and $1,529,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(j) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) $3,436,000 of the general fund--state appropriation for fiscal year 2014 and $2,291,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(l) $523,000 of the general fund--state appropriation for fiscal year 2014, $775,000 of the general fund--state appropriation for fiscal year 2015, and $854,000 of the general fund--federal appropriation are provided solely for implementation of sections 3 through 5 of chapter 289, Laws of 2013 (E2SHB 1114). Regional support networks must use this funding for the development of intensive community programs that allow individuals to be diverted or transitioned from the state hospitals in accordance with plans approved by the department.

(m) $5,986,000 of the general fund--state appropriation for fiscal year 2014, $11,592,000 of the general fund--state appropriation for fiscal year 2015, and $10,160,000 of the general fund--federal
appropriation are provided solely for implementation of chapter 335, Laws of 2013 (ESSB 5480). Regional support networks must use this funding for the development of intensive community programs that allow individuals to be diverted or transitioned from the state hospitals in accordance with plans approved by the department.

(n) Due to recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(o) The legislature finds that the circumstances of the Chelan-Douglas regional support network (CD-RSN) make it necessary for CD-RSN to undergo restructuring in order to provide mental health services essential to the health and wellness of the citizens within its service area. The legislature intends to provide additional temporary financial relief to the CD-RSN while it undergoes internal restructuring or negotiates a merger with another regional support network.

The department shall negotiate relief for outstanding fiscal year 2013 reimbursements owed by CD-RSN to the state provided that the CD-RSN has a plan in place that is approved by the department by August 1, 2013, that demonstrates how CD-RSN will maintain financial viability and stability or will merge with another regional support network.

For the period of July 1, 2013, through December 31, 2013, the department may alter collection of reimbursement from CD-RSN for overuse of state hospital beds. To receive a reduction to the required reimbursement for overuse of state hospital beds, CD-RSN must continue to prioritize services that reduce its utilization and census at eastern state hospital and be actively implementing an approved plan to maintain financial viability or pursuing a future merger with another regional support network. Up to $298,000 of the general fund--state appropriation for fiscal year 2014 is for the department to provide payments to regional support networks in eastern Washington which have used less than their allocated or contracted patient days of care at the state hospital to replace the share of the reimbursements from CD-RSN that the regional support networks would have received under RCW 71.24.320.
(p) $266,000 of the general fund--state appropriation for fiscal year 2014 is provided solely to maintain services for the King county regional support network as it works to transition services to settings that are eligible for federal participation for individuals covered under the medicaid program.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

The department may conduct a request for proposal process to fulfill this requirement and adopt rates that are comparable to the pilot projects implemented in the 2011-13 fiscal biennium. The department may use these funds to assist with the costs of providers in setting up or converting to 16-bed facilities. This funding may also be used for providers that are developing new capacity for clients who will become eligible for services under the affordable care act medicaid expansion. The number of beds available for pregnant and parenting women must not be reduced.

(6) $283,000 of the criminal justice treatment account appropriation is provided solely for transitional funding for the family drug court in Pierce county.

The appropriations in this section are subject to the following
conditions and limitations:

(1) $1,143,994,000 of the general fund--federal appropriation is
provided solely to implement the medicaid expansion as defined in the
social security act, section 1902(a)(10)(A)(i)(VIII), subject to the
conditions and limitations in this subsection. If the federal medical
assistance percentage for the medicaid expansion falls below the
percentages in section 1905(y) of the social security act as of July 1,
2013, the authority shall ensure that the state does not incur any
additional state costs above what would have been incurred had the
federal medical assistance percentages remained at the percentages in
section 1905(y) as of July 1, 2013. The director is authorized to make
any necessary program adjustments to comply with this requirement,
including adding or adjusting premiums, modifying benefits, or reducing
optional programs. To the extent a waiver is needed to accomplish
this, the director shall promptly apply for such waiver. If a
necessary waiver is not approved, the medicaid expansion program shall
be terminated upon appropriate notification to the legislature and
enrollees.

(2) The requirements of this subsection apply to the basic health
plan. This subsection is null and void and has no further effect upon
implementation of the medicaid expansion under subsection (1) of this
section.

(a) Within amounts appropriated in this section and sections 205
and 206 of this act, the health care authority shall continue to
provide an enhanced basic health plan subsidy for foster parents
licensed under chapter 74.15 RCW and workers in state-funded home care
programs. Under this enhanced subsidy option, foster parents eligible
to participate in the basic health plan as subsidized enrollees and
home care workers with family incomes below 200 percent of the federal
poverty level shall be allowed to enroll in the basic health plan at
the minimum premium amount charged to enrollees with incomes below
sixty-five percent of the federal poverty level.

(b) The health care authority shall require organizations and
individuals that are paid to deliver basic health plan services and
that choose to sponsor enrollment in the subsidized basic health plan
to pay 133 percent of the premium amount which would otherwise be due
from the sponsored enrollees.

(c) The administrator shall take at least the following actions to
assure that persons participating in the basic health plan are eligible
for the level of assistance they receive: (a) Require submission of
(i) income tax returns, and recent pay history, from all applicants, or
(ii) other verifiable evidence of earned and unearned income from persons not required to file income tax returns; (b) check employment security payroll records at least once every twelve months on all enrollees; (c) require enrollees whose income as indicated by payroll records exceeds that upon which their subsidy is based to document their current income as a condition of continued eligibility; (d) require enrollees for whom employment security payroll records cannot be obtained to document their current income at least once every six months; (e) not reduce gross family income for self-employed persons by noncash-flow expenses such as, but not limited to, depreciation, amortization, and home office deductions, as defined by the United States internal revenue service; and (f) pursue repayment and civil penalties from persons who have received excessive subsidies, as provided in RCW 70.47.060(9).

(d) Enrollment in the subsidized basic health plan shall be limited to only include persons who qualify as subsidized enrollees as defined in RCW 70.47.020 and who (a) qualify for services under 1115 medicaid demonstration project number 11-W-00254/10; or (b) are foster parents licensed under chapter 74.15 RCW.

(3) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(5) In determining financial eligibility for medicaid-funded
services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(6) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(7) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(8) $4,261,000 of the general fund--state appropriation for fiscal year 2014, $4,261,000 of the general fund--state appropriation for fiscal year 2015, and $8,522,000 of the general fund--federal appropriation are provided solely for low-income disproportionate share hospital payments.

(9) $400,000 of the general fund--state appropriation for fiscal year 2014, $400,000 of the general fund--state appropriation for fiscal year 2015, and $800,000 of the general fund--federal appropriation are provided solely for disproportionate share hospital payments to rural hospitals certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011 that do not participate in the certified public expenditures program.

(10) $100,000 of the general fund--state appropriation for fiscal year 2014 and $100,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for grants to rural hospitals in Clallam county that were certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011.

(11) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(12) $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by
The public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(13) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2013-2015 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2013, and by November 1, 2014, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2014 and fiscal year 2015, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal
1 regulations. Inpatient medicaid payments shall be established using an
2 allowable methodology that approximates the cost of claims submitted by
3 the hospitals. Payments made to each hospital in the program in each
4 fiscal year of the biennium shall be compared to a baseline amount.
5 The baseline amount will be determined by the total of (a) the
6 inpatient claim payment amounts that would have been paid during the
7 fiscal year had the hospital not been in the CPE program based on the
8 reimbursement rates developed, implemented, and consistent with
9 policies approved in the 2013-2015 biennial operating appropriations
10 act and in effect on July 1, 2013, (b) one-half of the indigent
11 assistance disproportionate share hospital payment amounts paid to and
12 retained by each hospital during fiscal year 2005, and (c) all of the
13 other disproportionate share hospital payment amounts paid to and
14 retained by each hospital during fiscal year 2005 to the extent the
15 same disproportionate share hospital programs exist in the 2013-2015
16 fiscal biennium. If payments during the fiscal year exceed the
17 hospital's baseline amount, no additional payments will be made to the
18 hospital except the federal portion of allowable disproportionate share
19 hospital payments for which the hospital can certify allowable match.
20 If payments during the fiscal year are less than the baseline amount,
21 the hospital will be paid a state grant equal to the difference between
22 payments during the fiscal year and the applicable baseline amount.
23 Payment of the state grant shall be made in the applicable fiscal year
24 and distributed in monthly payments. The grants will be recalculated
25 and redistributed as the baseline is updated during the fiscal year.
26 The grant payments are subject to an interim settlement within eleven
27 months after the end of the fiscal year. A final settlement shall be
28 performed. To the extent that either settlement determines that a
29 hospital has received funds in excess of what it would have received as
30 described in this subsection, the hospital must repay the excess
31 amounts to the state when requested. $3,860,000 of the general
32 fund--state appropriation for fiscal year 2014 and $1,137,000 of the
33 general fund--state appropriation for fiscal year 2015 are provided
34 solely for state grants for the participating hospitals.
35
36 (14) The health care authority shall seek public-private
37 partnerships and federal funds that are or may become available to
38 provide on-going support for outreach and education efforts under the
federal children's health insurance program reauthorization act of
2009.

(15) The health care authority shall target funding for maternity
support services towards pregnant women with factors that lead to
higher rates of poor birth outcomes, including hypertension, a preterm
or low birth weight birth in the most recent previous birth, a
cognitive deficit or developmental disability, substance abuse, severe
mental illness, unhealthy weight or failure to gain weight, tobacco
use, or African American or Native American race. The health care
authority shall prioritize evidence-based practices for delivery of
maternity support services. To the extent practicable, the health care
authority shall develop a mechanism to increase federal funding for
maternity support services by leveraging local public funding for those
services.

(16) $170,000 of the general fund--state appropriation for fiscal
year 2014, $121,000 of the general fund--state appropriation for fiscal
year 2015, and $292,000 of the general fund--federal appropriation are
provided solely to implement Engrossed Substitute House Bill No. 1519
(service coordination organizations) and Second Substitute Senate Bill
No. 5732 (behavioral health services). If neither of the bills is
enacted by June 30, 2013, the amounts provided in this subsection shall
lapse.

(17) $57,000 of the general fund--state appropriation for fiscal
year 2014, $40,000 of the general fund--state appropriation for fiscal
year 2015, and $55,000 of the general fund--federal appropriation are
provided solely to develop a report on state efforts to prevent and
control diabetes. The authority, the department of social and health
services, and the department of health shall submit a coordinated
report to the governor and the appropriate committees of the
legislature by December 31, 2014, on the following:

undiagnosed gestational diabetes are having on the programs
administered by each agency and individuals, including children with

programs. Items in this assessment must include: (i) The number of

The plans and budget recommendations must also identify expected outcomes of the action steps proposed in the following biennium while also establishing benchmarks for controlling and preventing all types of diabetes; and

(e) An estimate of savings, efficiencies, costs, and budgetary savings and resources required to implement the plans and budget recommendations identified in (d) of this subsection (17).

(18) Within the amounts appropriated in this section, the authority shall identify strategies to improve patient adherence to treatment plans for diabetes and implement these strategies as a pilot through one health home program to be identified by the authority. The authority shall report to the governor and the legislature in December 2014 on the progress of strategy implementation. The authority shall report to the governor and legislature in December 2015 on patient
outcomes and cost savings derived from new adherence strategies in the health home model and make recommendations for improving the strategies.

(19) Effective January 1, 2014, managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(27) The authority shall seek a medicaid state plan amendment to create a professional services supplemental payment managed care program for professional services delivered to managed care recipients by University of Washington medicine and other public professional providers. This program shall be effective as soon as administratively possible and shall operate concurrently with the existing professional services supplemental payment program. The authority shall apply federal rules for identifying the difference between average commercial rates and fee-for-service medicaid payments. This difference will be multiplied by the number of managed care encounters and incorporated into the managed care plan capitation rates by a certified actuary. The managed care plans will pay the providers the difference attributable to the increased capitation rate. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the authority in the development, implementation, and maintenance of this program shall be the responsibility of the participating providers.
Participating providers shall retain the full amount of supplemental payments provided under this program, net of any costs related to the program that are disallowed due to audits or litigation against the state.

(30) The authority shall facilitate enrollment under the Medicaid expansion for clients applying for or receiving state funded services from the authority and its contractors. Prior to open enrollment, the authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for the Medicaid expansion but are enrolled in coverage that will be eliminated in the transition to the Medicaid expansion.

(35) The authority shall purchase a brand name drug when it determines that the cost of the brand name drug after rebates is less than the cost of generic alternatives and that purchase of the brand rather than generic version can save at least $250,000. The authority may purchase generic alternatives when changes in market prices make the price of the brand name drug after rebates more expensive than the generic alternatives.

(36) The authority shall not subject antiretroviral drugs used to treat HIV/AIDS, anticancer medications used to kill or slow the growth of cancerous cells, antihemophilic drugs, or transplant drugs to any medicaid preferred drug list or formulary for the fee-for-service population.

(37) $1,531,000 of the general fund--state appropriation for fiscal year 2014, $280,000 of the general fund--state appropriation for fiscal year 2015, and $10,803,000 of the general fund--federal appropriation are provided solely to implement phase two of the project to create a single provider payment system that consolidates medicaid medical and social services payments and replaces the social service payment system. The amounts provided in this subsection are conditioned on the authority satisfying the requirements of the project management oversight standards and policies established by the office of the chief information officer.

(38) Within the amounts appropriated in this section, the health care authority and the department of social and health services shall implement the state option to provide health homes for enrollees with chronic conditions under section 2703 of the federal affordable care act. The total state match for enrollees who are dually-eligible for both medicare and medicaid and not enrolled in managed care shall be no more than the net savings to the state from the enhanced match rate for its medicaid-only managed care enrollees under section 2703.

(39) The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those
moneys shall be spent for services authorized in this act or in any
other legislation providing appropriation authority, and an equal
amount of appropriated state general fund moneys shall lapse. Upon the
lapsing of any moneys under this subsection, the office of financial
management shall notify the legislative fiscal committees. As used in
this subsection, "unrestricted federal moneys" includes block grants
and other funds that federal law does not require to be spent on
specifically defined projects or matched on a formula basis by state
funds.

(40) Within the amounts appropriated in this section, the authority
shall reimburse for primary care services provided by naturopathic
physicians.

(41) Within amounts appropriated, the health care authority shall
conduct a review of its management and staffing structure to identify
efficiencies and opportunities to reduce full time equivalent employees
and other administrative costs. A report summarizing the review and
the authority's recommendations to reduce costs and full time
equivalent employees must be submitted to the governor and legislature
by November 1, 2013.

(42) $17,279,000 of the health benefit exchange account--state
appropriation and $2,721,000 of the general fund--federal appropriation
are provided solely to support the operations of the Washington health
benefit exchange from January 1, 2015, to June 30, 2015. The
Washington state health insurance pool administrator shall transfer
$20,838,000 of pool contributions to the treasurer for deposit into the
health benefit exchange account in calendar year 2014.

(43) Within the amounts appropriated in this section, the authority
shall continue to provide coverage after December 31, 2013, for
pregnant teens that qualify under existing pregnancy medical programs,
but whose eligibility for pregnancy related services would otherwise
end due to the application of the new modified adjusted gross income
eligibility standard.

(44) Upon implementation of the medicaid expansion under subsection
(1) of this section, the breast and cervical cancer treatment program
is eliminated. To maintain continuity of coverage, the authority shall
offer the option to stay in a fee-for-service program to clients that
are already enrolled in the breast and cervical cancer treatment
program and will be transitioned into the new adult group upon
implementation of the medicaid expansion. The authority will continue
to provide coverage to clients that are already enrolled in the breast
and cervical cancer treatment program at the time of program
elimination until their courses of treatment are completed.

(45) $40,000 of the general fund--state appropriation for fiscal
year 2014 and $40,000 of the general fund--federal appropriation are
provided solely for the authority to create a new position to provide
adequate oversight and assistance to managed care organizations, rural
health clinics, and federally qualified health centers under a new
administratively streamlined payment methodology. Effective July 1,
2013, or upon obtaining any necessary federal approval, but in no case
during the first quarter of a calendar year, the authority shall
implement an administratively streamlined payment methodology for
federally qualified health centers and rural health clinics. The
authority's payments to managed care organizations shall include the
full encounter payment comprised of both the standard and enhancement
payments for federally qualified health centers and rural health
clinics as defined in the medicaid state plan and in accordance with
section 1902(bb) of the social security act (42 U.S.C. 1396a(bb)). At
no time will a managed care organization be at risk for or have any
claim to the supplemental payment portion of the rate which will be
reconciled to ensure accurate payment and full pass through of the
obligated funds. For any services eligible for encounter payments, as
defined in the medicaid state plan, managed care organizations shall be
required to pay at least the full published encounter rates directly to
each clinic or center, and payments will be reconciled on at least an
annual basis between the managed care organization and the authority,
with final review and approval by the authority. At the option of any
clinic, the enhancement payment can be received from the managed care
organization on a per member per month basis for all assigned managed
care enrollees in an amount prescribed by the authority. Nothing in
this section is intended to disrupt mutually agreeable contractual
arrangements between managed care organizations and clinics that impact
how the standard payment for services is paid. The authority will
require participating managed care organizations to reimburse federally
qualified health centers and rural health clinics for clean claims in
strict adherence to the timeliness of payment standards established
under contract and specified for the medicaid fee-for-service program
in section 1902(a)(37) of the social security act (42 U.S.C. 1396a(a)(37)), 42 C.F.R. Sec. 447.46, and specified for health carriers in WAC 284-43-321. The authority shall exercise all necessary options under its existing sanctions policy to enforce timely payment of claims. The authority shall ensure necessary staff and resources are identified to actively monitor and enforce the timeliness and accuracy of payments to federally qualified health centers and rural health clinics. By January 1, 2014, and after collaboration with federally qualified health centers, rural health clinics, managed care plans, and the centers for medicare and medicaid services, the authority will produce a report that provides options for a new payment methodology that rewards innovation and outcomes over volume of services delivered, and which maintains the integrity of the rural health clinic and federally qualified health center programs as outlined under federal law. The report will detail necessary federal authority for implementation and provide the benefits and drawbacks of each option.

(46) $3,605,000 of the general fund--state appropriation for fiscal year 2014 is provided solely to proportionally reduce the amounts that rural health clinics owe the state under the calendar year 2009 recoupment.

(47) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the current medicaid benefit plan beginning January 1, 2014. The authority shall monitor the costs of the habilitative benefit as part of the forecasting process but shall not provide this benefit in the current medicaid benefit plan without a direct appropriation in the omnibus appropriations act.

(48) The appropriations in this section reflect savings and efficiencies achieved by modifying dispensing methods of contraceptive drugs. The authority must make arrangements for all medicaid programs offered through managed care plans or fee-for-service programs to require dispensing of contraceptive drugs with a one-year supply provided at one time unless a patient requests a smaller supply or the prescribing physician instructs that the patient must receive a smaller supply. Contracts with managed care plans must allow on-site dispensing of the prescribed contraceptive drugs at family planning...
dispensing practices must follow clinical guidelines for appropriate prescribing and dispensing to ensure the health of the patient while maximizing access to effective contraceptive drugs.

(49)(a) $75,000 of the general fund--state appropriation for fiscal year 2014 and $75,000 of the general fund--federal appropriation are provided solely for preparing options with an expert consultant for possible implementation of a targeted premium assistance program and possible implementation of the federal basic health option. $75,000 of the amounts appropriated in this subsection is provided solely for the development of options related to the targeted premium assistance program. The authority shall develop options for a waiver request to the federal centers for medicare and medicaid services to implement a targeted premium assistance program for the expansion adults, identified in section 1902(a)(10)(A)(i)(VIII) of the social security act, with incomes above one hundred percent of the federal poverty level, and for children covered in the children's health insurance program with incomes above two hundred percent of the federal poverty level, with a goal of providing seamless coverage through the health benefit exchange and improving opportunities for families to be covered in the same health plans. The options must include the possibility of applying premiums for individuals and cost-sharing that may exceed the five percent of family income cap under federal law, and the options must include recommendations to make the targeted premium assistance program cost neutral. The authority shall submit a report on the options to the legislature and the governor by January 1, 2014. The authority is encouraged to be creative, use subject matter experts, and exhaust all possible options to achieve cost neutrality. The report shall also include a detailed plan and timeline. $75,000 of the amounts appropriated in this subsection is provided solely for the development of options related to the federal basic health option. The authority shall prepare options for implementing the federal basic health option as federal guidance becomes available. The authority shall submit a report on the options to the legislature and the governor by January 1, 2014, or ninety days following the release of federal guidance. The report must include a comparison of the premiums and cost-sharing under the federal basic health option with the premium assistance options described in this subsection, options for implementing the federal basic health option in combination with a
premium assistance program, a detailed fiscal analysis for each
coverage approach, including the estimated costs for system design and
implementation, and information about impacted populations.

(b) Where possible, the authority shall leverage the same expert
consultants to review each proposal and compare and contrast the
approaches to ensure seamless coordination with the health benefit
exchange.

(c) The authority shall collaborate with the joint select committee
on health care oversight in the development of these options.

(b) Students in approved career and technical education and skill center programs generate certificated school building-level administrator staff units at per student rates that are a multiple of the general education rate in (a) of this subsection by the following factors: Career and Technical Education students ............... 1.025 Skill Center students ...................... 1.198

(4) CLASSIFIED STAFF ALLOCATIONS
Allocations for classified staff units providing school building-level and district-wide support services for the 2013-14 and 2014-15 school years are determined using the formula-generated staff units provided in RCW 28A.150.260, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade, except that the allocation for parent involvement coordinators in an elementary school shall be 0.0825, which enhancement is within the program of basic education.

(5) CENTRAL OFFICE ALLOCATIONS

In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2013-14 and 2014-15 school year for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b), by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.

(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same staff unit per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students in the same grade in this subsection (5) by 1.71 percent in the 2013-14 school year and 2.00 percent in the 2014-15 school year for career and
technical education students, and 21.60 percent in the 2013-14 school year and 15.98 percent in the 2014-15 school year for skill center students.

(6) FRINGE BENEFIT ALLOCATIONS

Fringe benefit allocations shall be calculated at a rate of 18.68 percent in the 2013-14 school year and 18.68 percent in the 2014-15 school year for certificated salary allocations provided under subsections (2), (3), and (5) of this section, and a rate of 20.95 percent in the 2013-14 school year and 20.95 percent in the 2014-15 school year for classified salary allocations provided under subsections (4) and (5) of this section.

(7) INSURANCE BENEFIT ALLOCATIONS

Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504 of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsections (2), (3), and (5) of this section; and

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

Funding is allocated per annual average full-time equivalent student for the materials, supplies, and operating costs (MSOC) incurred by school districts, consistent with the requirements of RCW 28A.150.260.

(a) MSOC funding for general education students are allocated at the following per student rates:

(c) The superintendent of public instruction shall require all districts receiving general apportionment funding for alternative learning experience (ALE) programs as defined in WAC 392-121-182 to provide separate financial accounting of expenditures for the ALE programs offered in district or with a provider, including but not limited to private companies and multidistrict cooperatives, as well as accurate, monthly headcount and FTE enrollment claimed for basic education, including separate counts of resident and nonresident students.

(11) VOLUNTARY FULL DAY KINDERGARTEN PROGRAMS

Funding in this section is sufficient to fund voluntary full day kindergarten programs in qualifying high poverty schools, pursuant to RCW 28A.150.220 and 28A.150.315. Each kindergarten student who enrolls for the voluntary full-day program in a qualifying school shall count as one-half of one full-time equivalent student for purpose of making allocations under this section. Funding in this section provides full-day kindergarten programs for 43.75 percent of kindergarten enrollment in the 2013-14 school year and 43.75 percent in the 2014-15 school year, which enhancement is within the program of basic education.

In calculating the allocations, the superintendent shall assume the following averages: (a) Additional instruction of 2.2222 hours per week per full-time equivalent student in grades seven through twelve in school year 2014-15; (b) the general education average class sizes specified in section 502(2)(c); (c) 36 instructional weeks per year; (d) 900 instructional hours per teacher; and (e) the district's average staff mix and compensation rates as provided in sections 503 and 504 of this act.
(13) ADDITIONAL FUNDING FOR SMALL SCHOOL DISTRICTS AND REMOTE AND NECESSARY PLANTS

For small school districts and remote and necessary school plants within any district which have been judged to be remote and necessary by the superintendent of public instruction, additional staff units are provided to ensure a minimum level of staffing support. Additional administrative and certificated instructional staff units provided to districts in this subsection shall be reduced by the general education staff units, excluding career and technical education and skills center enhancement units, otherwise provided in subsections (2) through (5) of this section on a per district basis.

(a) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the superintendent of public instruction and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit; and

(g) School districts receiving additional staff units to support small student enrollments and remote and necessary plants under this subsection (12) shall generate additional MSOC allocations consistent with the nonemployee related costs (NERC) allocation formula in place for the 2010-11 school year as provided section 502, chapter 37, Laws of 2010 1st sp. sess. (2010 supplemental budget), adjusted annually for inflation.

(14) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(15) The superintendent may distribute funding for the following programs outside the basic education formula during fiscal years 2014 and 2015 as follows:

(a) $605,000 of the general fund--state appropriation for fiscal year 2014 and $614,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW.

(b) $436,000 of the general fund--state appropriation for fiscal year 2014 and $436,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed $500 per full-time equivalent student enrolled in those programs.

(16) $214,000 of the general fund--state appropriation for fiscal year 2014 and $217,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for school district emergencies as
certified by the superintendent of public instruction. At the close of
the fiscal year the superintendent of public instruction shall report
to the office of financial management and the appropriate fiscal
committees of the legislature on the allocations provided to districts
and the nature of the emergency.

(17) Funding in this section is sufficient to fund a maximum of 1.6
FTE enrollment for skills center students pursuant to chapter 463, Laws
of 2007.

(18) Students participating in running start programs may be funded
up to a combined maximum enrollment of 1.2 FTE including school
district and institution of higher education enrollment. In
calculating the combined 1.2 FTE, the office of the superintendent of
public instruction may average the participating student's September
through June enrollment to account for differences in the start and end
dates for courses provided by the high school and higher education
institution. Additionally, the office of the superintendent of public
instruction, in consultation with the state board for community and
technical colleges, the student achievement council, and the education
data center, shall annually track and report to the fiscal committees
of the legislature on the combined FTE experience of students
participating in the running start program, including course load
analyses at both the high school and community and technical college
system.

(19) If two or more school districts consolidate and each district
was receiving additional basic education formula staff units pursuant
to subsection (12) of this section, the following apply:

(a) For three school years following consolidation, the number of
basic education formula staff units shall not be less than the number
of basic education formula staff units received by the districts in the
school year prior to the consolidation; and

(b) For the fourth through eighth school years following
consolidation, the difference between the basic education formula staff
units received by the districts for the school year prior to
consolidation and the basic education formula staff units after
consolidation pursuant to subsection (12) of this section shall be
reduced in increments of twenty percent per year.

(20)(a) Indirect cost charges by a school district to approved
career and technical education middle and secondary programs shall not
exceed 15 percent of the combined basic education and career and technical education program enhancement allocations of state funds. Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

NEW SECTION. Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION

(1) The following calculations determine the salaries used in the state allocations for certificated instructional, certificated administrative, and classified staff units as provided in RCW 28A.150.280 and under section 502 of this act:

(a) Salary allocations for certificated instructional staff units are determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 2 by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP document 1; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district are determined based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 2.

(2) For the purposes of this section:

(a) "LEAP Document 1" means the staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on June 1, 2013 at 08:06 hours; and

(b) "LEAP Document 2" means the school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on June 1, 2013 at 01:29 hours.
(3) Incremental fringe benefit factors are applied to salary adjustments at a rate of 18.04 percent for school year 2013-14 and 18.04 percent for school year 2014-15 for certificated instructional and certificated administrative staff and 17.45 percent for school year 2013-14 and 17.45 percent for the 2014-15 school year for classified staff.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

considered by the task force include state laws and policies,
graduation requirements, and state funding for instructional programs.
The task force must examine the barriers, incentives and disincentives,
costs, and cost-effectiveness of current policies and practices.

The appropriation in this section is subject to the following
conditions and limitations:
(1) The appropriation in this section is provided solely to reduce
appropriations or allocations in this budget related to providing
health benefits to reflect savings that may be achieved through greater
efficiencies and/or coordinating publicly provided health insurance
benefits with the federal patient protection and affordable care act
programs. The office of financial management shall work with other
agencies to prepare a plan that identifies savings under this
subsection (1) and reduces allotments or allocations accordingly to

The governing boards of the state universities, regional universities, and The Evergreen State College; and the state board for community and technical colleges may reduce or increase full-time tuition fees for all students other than resident undergraduates, including nonresident students, summer school students, and students in other self-supporting degree programs. Percentage increases in full-
time tuition may exceed the fiscal growth factor. Except during the
((2011-2013)) 2013-2015 fiscal biennium, the state board for community
and technical colleges may pilot or institute differential tuition
models. The board may define scale, scope, and rationale for the
models.

(3)(a) Beginning with the 2011-12 academic year and through the end
of the 2014-15 academic year, the governing boards of the state
universities, the regional universities, and The Evergreen State
College may reduce or increase full-time tuition fees for all students,
including summer school students and students in other self-supporting
degree programs. Percentage increases in full-time tuition fees may
exceed the fiscal growth factor. Reductions or increases may be made

students; however, during the ((2011-2013)) 2013-2015 fiscal biennium,

undergraduate students.

(b) Prior to reducing or increasing tuition for each academic year,
the governing boards of the state universities, the regional
universities, and The Evergreen State College shall consult with
existing student associations or organizations with student
undergraduate and graduate representatives regarding the impacts of
potential tuition increases. Each governing board shall make public
its proposal for tuition and fee increases twenty-one days before the
governing board of the institution considers adoption and allow
opportunity for public comment. However, the requirement to make
public a proposal for tuition and fee increases twenty-one days before
the governing board considers adoption shall not apply if the omnibus
appropriations act has not passed the legislature by May 15th.
Governing boards shall be required to provide data regarding the
percentage of students receiving financial aid, the sources of aid, and
the percentage of total costs of attendance paid for by aid.

(c) Prior to reducing or increasing tuition for each academic year,
the state board for community and technical college system shall
consult with existing student associations or organizations with
undergraduate student representation regarding the impacts of potential
tuition increases. The state board for community and technical
colleges shall provide data regarding the percentage of students
receiving financial aid, the sources of aid, and the percentage of
total costs of attendance paid for by aid.

(4) Beginning with the 2015-16 academic year through the 2018-19
academic year, the governing boards of the state universities, regional
universities, and The Evergreen State College may set tuition for
resident undergraduates as follows:

state funding provided in the operating budget for fiscal year 2011,
the governing board may increase tuition up to the limits set in (d) of
this subsection, reduce enrollments, or both;

(b) If state funding for a college or university is at least at the
level of state funding provided in the operating budget for fiscal year
2011, the governing board may increase tuition up to the limits set in
(d) of this subsection and shall continue to at least maintain the
actual enrollment levels for fiscal year 2011 or increase enrollments
as required in the omnibus appropriations act;

(c) If state funding is increased so that combined with resident
undergraduate tuition the sixtieth percentile of the total per-student
funding at similar public institutions of higher education in the
global challenge states under RCW 28B.15.068 is exceeded, the governing
board shall decrease tuition by the amount needed for the total per-
student funding to be at the sixtieth percentile under RCW 28B.15.068;
and

(d) The amount of tuition set by the governing board for an
institution under this subsection (4) may not exceed the sixtieth
percentile of the resident undergraduate tuition of similar public
institutions of higher education in the global challenge states.

(5) The tuition fees established under this chapter shall not apply
to high school students enrolling in participating institutions of
higher education under RCW 28A.600.300 through 28A.600.400.

(7) The tuition fees established under this chapter shall not apply
to eligible students enrolling in a community or technical college

(a) Review the impact of differential tuition rates on the funded
status and future unit price of the Washington advanced college tuition
payment program; and

1994-95 academic year, rounded up to the nearest half percent.

(2) The governing boards of each institution of higher education,
except for the technical colleges, shall charge to and collect from
each student a services and activities fee. A governing board may
increase the existing fee annually, consistent with budgeting
procedures set forth in RCW 28B.15.045, by a percentage not to exceed
the annual percentage increase in student tuition fees for resident
undergraduate students: PROVIDED, That such percentage increase shall
not apply to that portion of the services and activities fee previously
committed to the repayment of bonded debt. These rate adjustments may
exceed the fiscal growth factor. ((For the 2003-04 academic year, the
services and activities fee shall be based upon the resident undergraduate services and activities fee in 2002-03)) For the 2013-
2015 fiscal biennium, each governing board is authorized to increase
the services and activities fees by amounts judged reasonable and
necessary by the services and activities fee committee and the governing board consistent with the budgeting procedures set forth in RCW 28B.15.045. The services and activities fee committee provided for in RCW 28B.15.045 may initiate a request to the governing board for a fee increase.

(3) Tuition and services and activities fees consistent with subsection (2) of this section shall be set by the state board for community and technical colleges for community college summer school students unless the community college charges fees in accordance with RCW 28B.15.515.

(4) Subject to the limitations of RCW 28B.15.910, each governing board of a community college may charge such fees for ungraded courses, noncredit courses, community services courses, and self-supporting courses as it, in its discretion, may determine, consistent with the rules of the state board for community and technical colleges.

(I) Has been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the request is to be considered; and

(II) Has been certified by the director of the office of financial management as being feasible financially for the state.

(C) If the director of the office of financial management does not certify a request under (c)(ii)(B) of this subsection as being feasible financially for the state, the parties shall enter into collective bargaining solely for the purpose of reaching a mutually agreed upon modification of the agreement necessary to address the absence of those requested funds. The legislature may act upon the compensation and fringe benefit provisions of the modified collective bargaining agreement if those provisions are agreed upon and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(iii) In the case of a bargaining unit of employees of institutions of higher education in which the exclusive bargaining representative is certified during or after the conclusion of a legislative session, the legislature may act upon the compensation and fringe benefit provisions of the unit's initial collective bargaining agreement if those provisions are agreed upon and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(5) There is hereby created a joint committee on employment relations, which consists of two members with leadership positions in the house of representatives, representing each of the two largest
caucuses; the chair and ranking minority member of the house appropriations committee, or its successor, representing each of the two largest caucuses; two members with leadership positions in the senate, representing each of the two largest caucuses; and the chair and ranking minority member of the senate ways and means committee, or its successor, representing each of the two largest caucuses. The governor shall periodically consult with the committee regarding appropriations necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreements, and upon completion of negotiations, advise the committee on the elements of the agreements and on any legislation necessary to implement the agreements.

(6) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(7) After the expiration date of a collective bargaining agreement negotiated under this chapter, all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) For the ((2011-2013)) 2013-2015 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee shall be a separate agreement for which the governor may request funds necessary to implement the agreement. (If such an agreement is negotiated and funded by the legislature, this agreement will supersede any terms and conditions of an expired 2009-2011 biennial master collective bargaining agreement under this chapter regarding health care benefits.) The legislature may act upon a 2013-2015 collective bargaining agreement related to employee health care benefits if an agreement is reached and submitted to the office of financial management and legislative budget committees before final
Sec. 972. RCW 41.80.020 and 2011 1st sp.s. c 50 s 939 and 2011 1st sp.s. c 43 s 445 are each reenacted and amended to read as follows:

(1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, and other terms and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(2) The employer is not required to bargain over matters pertaining to:

(a) Health care benefits or other employee insurance benefits, except as required in subsection (3) of this section;

(b) Any retirement system or retirement benefit; or

(c) Rules of the human resources director, the director of enterprise services, or the Washington personnel resources board adopted under RCW 41.06.157.

(3) Matters subject to bargaining include the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits. However, except as provided otherwise in this subsection for institutions of higher education, negotiations regarding the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits shall be conducted between the employer and one coalition of all the exclusive bargaining representatives subject to this chapter. The exclusive bargaining representatives for employees that are subject to chapter 47.64 RCW shall bargain the dollar amount expended on behalf of each employee for health care benefits with the employer as part of the coalition under this subsection. Any such provision agreed to by the employer and the coalition shall be included in all master collective bargaining agreements negotiated by the parties. For institutions of higher education, promotional preferences and the number of names to be certified for vacancies shall be bargained under the provisions of RCW 41.80.010(4). For agreements covering the ((2011-2013)) 2013-2015 fiscal biennium, any agreement between the employer and the coalition regarding the dollar amount expended on behalf of each employee for...
health care benefits is a separate agreement and shall not be included in the master collective bargaining agreements negotiated by the parties.

(4) The employer and the exclusive bargaining representative shall not agree to any proposal that would prevent the implementation of approved affirmative action plans or that would be inconsistent with the comparable worth agreement that provided the basis for the salary changes implemented beginning with the 1983-1985 biennium to achieve comparable worth.

(5) The employer and the exclusive bargaining representative shall not bargain over matters pertaining to management rights established in RCW 41.80.040.

(6) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable.

(7) This section does not prohibit bargaining that affects contracts authorized by RCW 41.06.142.

Sec. 973. RCW 43.08.190 and 2011 1st sp.s. c 50 s 941 are each amended to read as follows:

Moneys shall be allocated monthly and placed in the state treasurer's service fund equivalent to a maximum of one percent of the trust and treasury average daily cash balances from the earnings generated under the authority of RCW 43.79A.040 and 43.84.080 other than earnings generated from investment of balances in funds and accounts specified in RCW 43.79A.040(4)(c). The allocation shall precede the distribution of the remaining earnings as prescribed under RCW 43.79A.040 and 43.84.092. The state treasurer shall establish a uniform allocation rate for all funds and accounts; except that the state treasurer may negotiate a different allocation rate with any
state agency that has independent authority over funds not statutorily
required to be held in the state treasury or in the custody of the
state treasurer. In no event shall the rate be less than the actual
costs incurred by the state treasurer's office. If no rate is
separately negotiated, the default rate for any funds held shall be the
rate set for funds held pursuant to statute.

During the 2009-2011 fiscal biennium and the 2011-2013 and 2013-
2015 fiscal biennia, the legislature may transfer from the
state treasurer's service fund to the state general fund such amounts

state auditor in accordance with chapter 1, Laws of 2006. Only the
state auditor or the state auditor's designee may authorize
expenditures from the account. The account is subject to allotment

of the state auditor.

Sec. 976. RCW 43.19.791 and 2011 2nd sp.s. c 9 s 906 are each amended to read as follows:

There is created a revolving fund to be known as the data processing revolving fund in the custody of the state treasurer. The revolving fund shall be used for the acquisition of equipment, software, supplies, and services and the payment of salaries, wages, and other costs incidental to the acquisition, development, operation, and administration of information services, telecommunications, systems, software, supplies and equipment, including the payment of principal and interest on bonds issued for capital projects, by the department, Washington State University's computer services center, the department of enterprise services' personnel information systems group and financial systems management group, and other users as determined by the office of financial management. The revolving fund is subject to the allotment procedure provided under chapter 43.88 RCW. The chief information officer or the chief information officer's designee, with the approval of the technology services board, is authorized to expend up to one million dollars per fiscal biennium for the technology services board to conduct independent technical and financial analysis of proposed information technology projects, and such an expenditure does not require an appropriation. Disbursements from the revolving fund for the services component of the department are not subject to appropriation. Disbursements for the strategic planning and policy component of the department are subject to appropriation. All disbursements from the fund are subject to the allotment procedures provided under chapter 43.88 RCW. The department shall establish and implement a billing structure to assure all agencies pay an equitable share of the costs.
During the 2011-2013 and the 2013-2015 fiscal biennia, the legislature may transfer from the data processing revolving account to the state general fund such amounts as reflect the excess fund balance and may use the data processing revolving account for information technology projects.

Funds from the death investigations account may be appropriated during the 2013-2015 fiscal biennium for the activities of the state crime laboratory within the Washington state patrol.

Sec. 980. RCW 43.79.480 and 2011 1st sp.s. c 50 s 947 are each amended to read as follows:

(1) Moneys received by the state of Washington in accordance with the settlement of the state's legal action against tobacco product
manufacturers, exclusive of costs and attorneys' fees, shall be
deposited in the tobacco settlement account created in this section
except as these moneys are sold or assigned under chapter 43.340 RCW.

(2) The tobacco settlement account is created in the state
treasury. Moneys in the tobacco settlement account may only be
transferred to the state general fund, and to the tobacco prevention
and control account for purposes set forth in this section. The
legislature shall transfer amounts received as strategic contribution
payments as defined in RCW 43.350.010 to the life sciences discovery
fund created in RCW 43.350.070. During the 2009-2011 and 2011-2013
fiscal biennia, the legislature may transfer less than the entire
strategic contribution payments, and may transfer amounts attributable
to strategic contribution payments into the basic health plan
stabilization account. During the 2013-2015 fiscal biennium, the
legislature may transfer less than the entire strategic contribution
payments, and may transfer amounts attributable to strategic
contribution payments into the state general fund.

(3) The tobacco prevention and control account is created in the
state treasury. The source of revenue for this account is moneys
transferred to the account from the tobacco settlement account,
investment earnings, donations to the account, and other revenues as
directed by law. Expenditures from the account are subject to
appropriation. During the 2009-2011 fiscal biennium, the legislature
may transfer from the tobacco prevention and control account to the
state general fund such amounts as represent the excess fund balance of
the account.

Sec. 981. RCW 43.82.010 and 2007 c 506 s 8 are each amended to
read as follows:

(1) The director of ((general administration)) enterprise services,
on behalf of the agency involved and after consultation with the office
of financial management, shall purchase, lease, lease purchase, rent,
or otherwise acquire all real estate, improved or unimproved, as may be
required by elected state officials, institutions, departments,
commissions, boards, and other state agencies, or federal agencies
where joint state and federal activities are undertaken and may grant
easements and transfer, exchange, sell, lease, or sublease all or part
of any surplus real estate for those state agencies which do not
otherwise have the specific authority to dispose of real estate. This
section does not transfer financial liability for the acquired property
to the department of ((general administration)) enterprise services.

(2) Except for real estate occupied by federal agencies, the
director shall determine the location, size, and design of any real
estate or improvements thereon acquired or held pursuant to subsection
(1) of this section. Facilities acquired or held pursuant to this
chapter, and any improvements thereon, shall conform to standards
adopted by the director and approved by the office of financial
management governing facility efficiency unless a specific exemption
from such standards is provided by the director of ((general
administration)) enterprise services. The director of ((general
administration)) enterprise services shall report to the office of
financial management and the appropriate committees of the legislature
annually on any exemptions granted pursuant to this subsection.

(3) The director of ((general administration)) enterprise services
may fix the terms and conditions of each lease entered into under this
chapter, except that no lease shall extend greater than twenty years in
duration. The director of ((general administration)) enterprise
services may enter into a long-term lease greater than ten years in
duration upon a determination by the director of the office of
financial management that the long-term lease provides a more favorable
rate than would otherwise be available, it appears to a substantial
certainty that the facility is necessary for use by the state for the
full length of the lease term, and the facility meets the standards
adopted pursuant to subsection (2) of this section. The director of
((general administration)) enterprise services may enter into a long-
term lease greater than ten years in duration if an analysis shows that
the life-cycle cost of leasing the facility is less than the life-cycle
cost of purchasing or constructing a facility in lieu of leasing the
facility.

(4) Except as permitted under chapter 39.94 RCW, no lease for or on
behalf of any state agency may be used or referred to as collateral or
security for the payment of securities offered for sale through a
public offering. Except as permitted under chapter 39.94 RCW, no lease
for or on behalf of any state agency may be used or referred to as
collateral or security for the payment of securities offered for sale
through a private placement without the prior written approval of the
state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of enterprise services shall promptly notify the state treasurer whenever it may appear to the department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(5) It is the policy of the state to encourage the colocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(6) The director of enterprise services shall provide coordinated long-range planning services to identify and evaluate opportunities for colocating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of enterprise services shall determine whether an opportunity exists for colocating the agency or agencies in a single facility with other agencies located in the same geographic area. If a colocation opportunity exists, the director of enterprise services shall consult with the affected state agencies and the office of financial management to evaluate the impact colocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of enterprise services, in consultation with the office of financial management, shall develop procedures for implementing colocation and consolidation of state facilities.
(7) The director of enterprise services is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of enterprise services shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(8) If the director of enterprise services determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (7) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(9) In order to obtain maximum utilization of space, the director of enterprise services shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(10) The director of enterprise services may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of enterprise services shall conduct an evaluation of the facility design and budget.
using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(11) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of enterprise services or the director's designee, and recorded with the county auditor of the county in which the property is located.

(12) The director of enterprise services may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable. By January 1st of each year, beginning January 1, 2008, the department shall submit an annual report to the office of financial management and the appropriate committees of the legislature on all delegated leases.

(13) This section does not apply to the acquisition of real estate by:

(a) The state college and universities for research or experimental purposes;
(b) The state liquor control board for liquor stores and warehouses; ((and))
(c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes; and
(d) The department of commerce for community college health career training programs, offices for the department of commerce or other appropriate state agencies, and other nonprofit community uses, including community meeting and training facilities, where the real estate is acquired during the 2013-2015 fiscal biennium.

(14) Notwithstanding any provision in this chapter to the contrary, the department of enterprise services may negotiate ground leases for public lands on which property is to be acquired under a financing contract pursuant to chapter 39.94 RCW under terms approved by the state finance committee.

(15) The department of enterprise services shall report annually to the office of financial management
and the appropriate fiscal committees of the legislature on facility leases executed for all state agencies for the preceding year, lease terms, and annual lease costs. The report must include leases executed under RCW 43.82.045 and subsection (12) of this section.

Sec. 982. RCW 43.101.200 and 2011 1st sp.s. c 50 s 949 are each amended to read as follows:

(1) All law enforcement personnel, except volunteers, and reserve officers whether paid or unpaid, initially employed on or after January 1, 1978, shall engage in basic law enforcement training which complies with standards adopted by the commission pursuant to RCW 43.101.080. For personnel initially employed before January 1, 1990, such training shall be successfully completed during the first fifteen months of employment of such personnel unless otherwise extended or waived by the commission and shall be requisite to the continuation of such employment. Personnel initially employed on or after January 1, 1990, shall commence basic training during the first six months of employment unless the basic training requirement is otherwise waived or extended by the commission. Successful completion of basic training is requisite to the continuation of employment of such personnel initially employed on or after January 1, 1990.

(2) Except as otherwise provided in this chapter, the commission shall provide the aforementioned training together with necessary facilities, supplies, materials, and the board and room of noncommuting attendees for seven days per week, except during the 2013-2015 fiscal biennium when the employing, county, city, or state law enforcement agency shall reimburse the commission for twenty-five percent of the cost of training its personnel. Additionally, to the extent funds are provided for this purpose, the commission shall reimburse to participating law enforcement agencies with ten or less full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training: PROVIDED, That such reimbursement shall include only the actual cost of temporary replacement not to exceed the total amount of salary and benefits received by the replaced officer during his or her training period.
Sec. 983. RCW 43.155.050 and 2012 2nd sp.s. c 2 s 6004 are each amended to read as follows:

The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. During the 2011-2013 and 2013-2015 fiscal biennium, the legislature may transfer from the public works assistance account to the general fund, the water pollution control revolving account, and the drinking water assistance account such amounts as reflect the excess fund balance of the account. During the 2011-2013 fiscal biennium, the legislature may appropriate moneys from the account for economic development, innovation, and export grants, including brownfields; main street improvement grants; and the loan program consolidation board. During the 2013-2015 fiscal biennium, the legislature may transfer from the public works assistance account to the education legacy trust account such amounts as specified by the legislature.

(1) The energy freedom account is created in the state treasury. All receipts from appropriations made to the account and any loan payments of principal and interest derived from loans made under the energy freedom account must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from
the account may be used only for financial assistance for further funding for projects consistent with this chapter or otherwise authorized by the legislature.

(2) The green energy incentive account is created in the state treasury as a subaccount of the energy freedom account. All receipts from appropriations made to the green energy incentive account shall be deposited into the account, and may be spent only after appropriation. Expenditures from the account may be used only for:

reaching a zero litter goal.

(4) (During the 2009-2011 fiscal biennium, the legislature may

criminal defense lawyers, the department of corrections, the Washington
state association of drug court professionals, substance abuse
treatment providers, and the division. The panel shall review county
or regional plans for funding under (a) of this subsection and grants
approved under this subsection. The panel shall attempt to ensure that

redevelopment of brownfield property under RCW 70.105D.040(5) that
would not otherwise occur;
(vii) When pending grant applications under (c)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(d) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 fiscal biennium, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of
rules will not delay financial assistance, the department may
administer the award of financial assistance through interpretive
guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this
section, nothing in chapter 1, Laws of 2013 2nd sp. sess. effects the
ability of a potentially liable person to receive public funding.

Sec. 993. RCW 70.148.020 and 2012 1st sp.s. c 3 s 1 are each
amended to read as follows:

(1) The pollution liability insurance program trust account is
established in the custody of the state treasurer. All funds
appropriated for this chapter and all premiums collected for
reinsurance shall be deposited in the account. Expenditures from the
account shall be used exclusively for the purposes of this chapter
including payment of costs of administering the pollution liability
insurance and underground storage tank community assistance programs.
Expenditures for payment of administrative and operating costs of the
agency are subject to the allotment procedures under chapter 43.88 RCW
and may be made only after appropriation by statute. No appropriation
is required for other expenditures from the account.

(2) Each calendar quarter, the director shall report to the
insurance commissioner the loss and surplus reserves required for the
calendar quarter. The director shall notify the department of revenue
of this amount by the fifteenth day of each calendar quarter.

(3) Each calendar quarter the director shall determine the amount
of reserves necessary to fund commitments made to provide financial
assistance under RCW 70.148.130 to the extent that the financial
assistance reserves do not jeopardize the operations and liabilities of
the pollution liability insurance program. The director shall notify
the department of revenue of this amount by the fifteenth day of each
calendar quarter. The director may immediately establish an initial
financial assistance reserve of five million dollars from available
revenues. The director may not expend more than fifteen million
dollars for the financial assistance program.

(4) During the 2013-2015 fiscal biennium, the legislature
may transfer from the pollution liability insurance program trust
account to the state general fund such amounts as reflect the excess
fund balance of the account.
This section expires July 1, 2020.

Sec. 994. RCW 71.24.310 and 2009 c 564 s 1810 and 2009 c 564 s 952 are each reenacted and amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the regional support network defined in RCW 71.24.025. For this reason, the legislature intends that the department and the regional support networks shall work together to implement chapter 71.05 RCW as follows:

(1) By June 1, 2006, regional support networks shall recommend to the department the number of state hospital beds that should be allocated for use by each regional support network. The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the regional support networks regarding the number of state hospital beds that should be allocated for use by each regional support network, the department shall contract with each regional support network accordingly.

(3) If there is not consensus among the regional support networks regarding the number of beds that should be allocated for use by each regional support network, the department shall establish by emergency rule the number of state hospital beds that are available for use by each regional support network. The emergency rule shall be effective September 1, 2006. The primary factor used in the allocation shall be the estimated number of adults with acute and chronic mental illness in each regional support network area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.
(5) The department is encouraged to enter performance-based contracts with regional support networks to provide some or all of the regional support network's allocated long-term inpatient treatment capacity in the community, rather than in the state hospital. The performance contracts shall specify the number of patient days of care available for use by the regional support network in the state hospital.

(6) If a regional support network uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or than it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the department for that care, except during the period of July 1, 2012, through December 31, 2013, where reimbursements may be temporarily altered per section 204 of this act. The reimbursement rate per day shall be the hospital's total annual budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the cost of operating the state hospital and, during the 2007-2009 fiscal biennium, implementing new services that will enable a regional support network to reduce its utilization of the state hospital. The department shall distribute the remaining half of such reimbursements among regional support networks that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used.

Sec. 995. RCW 74.09.215 and 2012 c 241 s 103 are each amended to read as follows:

The medicaid fraud penalty account is created in the state treasury. All receipts from civil penalties collected under RCW 74.09.210, all receipts received under judgments or settlements that originated under a filing under the federal false claims act, and all receipts received under judgments or settlements that originated under the state medicaid fraud false claims act, chapter 74.66 RCW must be deposited into the account. Moneys in the account may be spent only after appropriation and must be used only for medicaid services, fraud detection and prevention activities, recovery of improper payments, and for other medicaid fraud enforcement activities. For the 2013-2015
fiscal biennium, moneys in the account may be spent on inpatient and
outpatient rebasing and conversion to the tenth version of the
international classification of diseases.

Sec. 996. RCW 74.13.621 and 2009 c 564 s 954 are each amended to
read as follows:

(1) Within existing resources, the department shall establish an
oversight committee to monitor, guide, and report on kinship care
recommendations and implementation activities. The committee shall:

(a) Draft a kinship care definition that is restricted to persons
related by blood, marriage, or adoption, including marriages that have
been dissolved, or for a minor defined as an "Indian child" under the
federal Indian child welfare act (25 U.S.C. Sec. 1901 et seq.), the
definition of "extended family member" under the federal Indian child
welfare act, and a set of principles. If the committee concludes that
one or more programs or services would be more efficiently and
effectively delivered under a different definition of kin, it shall
state what definition is needed, and identify the program or service in
the report. It shall also provide evidence of how the program or
service will be more efficiently and effectively delivered under the
different definition. The department shall not adopt rules or policies
changing the definition of kin without authorizing legislation;

(b) Monitor and provide consultation on the implementation of
recommendations contained in the 2002 kinship care report, including
but not limited to the recommendations relating to legal and respite
care services and resources;

(c) Partner with nonprofit organizations and private sector
businesses to guide a public education awareness campaign; and

(d) Assist with developing future recommendations on kinship care
issues.

(2) The department shall consult with the oversight committee on
its efforts to better collaborate and coordinate services to benefit
kinship care families.

(3) The oversight committee must consist of a minimum of thirty
percent kinship caregivers, who shall represent a diversity of kinship
families. Statewide representation with geographic, ethnic, and gender
diversity is required. Other members shall include representatives of
the department, representatives of relevant state agencies,
representatives of the private nonprofit and business sectors, child advocates, representatives of Washington state Indian tribes as defined under the federal Indian welfare act (25 U.S.C. Sec. 1901 et seq.), and representatives of the legal or judicial field. Birth parents, foster parents, and others who have an interest in these issues may also be included.

(4) To the extent funding is available, the department may reimburse nondepartmental members of the oversight committee for costs incurred in participating in the meetings of the oversight committee.

(5) The kinship care oversight committee shall update the legislature and governor annually on committee activities, with the first update due by January 1, 2006.

(6) This section expires June 30, 2015.

Sec. 997. RCW 74.09.215 and 2013 c 36 s 3 are each amended to read as follows:

Moneys in the account may be spent only after appropriation and must be used only for medicaid services, fraud detection and prevention activities, recovery of improper payments, for other medicaid fraud enforcement activities, and the prescription monitoring program established in chapter 70.225 RCW. For the 2013-2015 fiscal biennium, moneys in the account may be spent on inpatient and outpatient rebasing and conversion to the tenth version of the international classification of diseases.

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures,
reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the 2011-2013 and 2013-2015 fiscal biennia, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. The election shall continue until the department is notified differently prior to January 1st of any year.

This amount shall not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, tidelands, or public fishing areas of less than one hundred acres.

(2) "Game lands," as used in this section and RCW 77.12.201, means those tracts one hundred acres or larger owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access or recreation purposes with federal funds in the Snake River drainage basin shall be considered game lands regardless of acreage.

(3) This section shall not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the 2011-2013 and 2013-2015 fiscal biennia,
the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and shall be distributed as follows:

(3) Except as otherwise provided in subsections (4) and (6) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) Deductions authorized under this section for transactions pertaining to community forest trust lands must be established at a level sufficient to defray over time the management costs for activities prescribed in a parcel's management plan adopted pursuant to RCW 79.155.080, and, if deemed appropriate by the board consistent with RCW 79.155.090, to reimburse the state and any local entities' eligible financial contributions for acquisition of the parcel.

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.
(6) During the 2011-2013 and 2013-2015 fiscal (biennium) biennia, the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.

(1) After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable material from state-owned aquatic lands shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. ((During the 2011-2013 fiscal biennium, the aquatic lands enhancement account may also be used for scientific research as part of the adaptive management process and for developing a planning report for McNeil Island. During the 2011-2013 fiscal biennium, the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account.)) Sec. 1004. RCW 82.14.310 and 2011 1st sp.s. c 50 s 970 are each amended to read as follows:

(1) The county criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer must transfer into the county criminal justice assistance account from the general fund the sum of twenty-three million two hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer must increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year.

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (4) of this section, must be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county's funding factor as determined under this subsection.

(a) A county's funding factor is the sum of:

(i) The population of the county, divided by one thousand, and multiplied by two-tenths;

(ii) The crime rate of the county, multiplied by three-tenths; and
(iii) The annual number of criminal cases filed in the county superior court, for each one thousand in population, multiplied by five-tenths.

(b) Under this section and RCW 82.14.320 and 82.14.330:

(i) The population of the county or city is as last determined by the office of financial management;

(ii) The crime rate of the county or city is the annual occurrence of specified criminal offenses, as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs, for each one thousand in population;

(iii) The annual number of criminal cases filed in the county superior court must be determined by the most recent annual report of the courts of Washington, as published by the administrative office of the courts;

(iv) Distributions and eligibility for distributions in the 1989-1991 biennium must be based on 1988 figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection. Future distributions must be based on the most recent figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection.

(3) Moneys distributed under this section must be expended exclusively for criminal justice purposes and may not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil or juvenile justice system occurs, and which includes (a) domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and (b) during the 2001-2003 fiscal biennium, juvenile dispositional hearings relating to petitions for at-risk youth, truancy, and children in need of services. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not
likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(4) Not more than five percent of the funds deposited to the county criminal justice assistance account may be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements may not supplant existing funds from the state general fund.

(5) During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred into the county criminal justice assistance account from the general fund under subsection (1) of this section must be reduced by 3.4 percent.

(6) During the 2013-2015 fiscal biennium, for the purposes of substance abuse and other programs for offenders, the legislature may appropriate from the county criminal justice assistance account such amounts as are in excess of the amounts necessary to fully meet the state's obligations to the counties and to the Washington state patrol. Excess amounts in this account are not the result of subsection (5) of this section.

Sec. 1005. RCW 86.26.007 and 2012 2nd sp.s. c 7 s 932 are each amended to read as follows:

At the beginning of the 2005-2007 fiscal biennium, the state treasurer shall transfer three million dollars from the general fund to the flood control assistance account. Each biennium thereafter the state treasurer shall transfer four million dollars from the general fund to the flood control assistance account, except that during the 2011-2013 fiscal biennium, the state treasurer shall transfer one million dollars from the general fund to the flood control assistance account. Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter. During the 2013-2015 fiscal biennium, the legislature may transfer from the flood control assistance account to the state general fund such amounts as reflect the excess fund balance of the account.

1. The appropriations in this section are for the operations and expenses of the department of enterprise services as established by Engrossed Substitute Senate Bill No. 5931 (central service functions of state government), effective October 1, 2011. (3) In accordance with RCW 46.08.172 and 43.135.055, the department is authorized to increase parking fees in fiscal years 2012 and 2013 as necessary to meet the actual costs of conducting business.

(End of part)
Sec. 1201. 2012 2nd sp.s. c 7 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under the Washington medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the
department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: (i) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The health care authority and the department shall conduct an evaluation of the WMIP by October 15, 2012, and of the MICP measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(b) Effective January 1, 2013, if Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.
(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, (2013), unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year (2013) among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year (2013) caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the
objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

secure crisis residential center or semi-secure crisis residential
center bed reduction shall not be based solely upon bed utilization.

abuse treatment programs for locally committed offenders. The juvenile rehabilitation administration shall award these moneys on a competitive basis to counties that submitted a plan for the provision of services approved by the division of alcohol and substance abuse. The juvenile rehabilitation administration shall develop criteria for evaluation of plans submitted and a timeline for awarding funding and shall assist counties in creating and submitting plans for evaluation.

(5) $3,123,000 of the general fund--state appropriation for fiscal year 2012 and $3,123,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for grants to county juvenile courts for the following programs identified by the Washington state institute for public policy (institute) in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction, Criminal Justice Costs and Crime Rates": Functional family therapy, multi-systemic therapy, aggression replacement training and interagency coordination programs, or other programs with a positive benefit-cost finding in the institute's report. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(6) $1,537,000 of the general fund--state appropriation for fiscal year 2012 and $1,537,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for expansion of the following treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction, Criminal Justice Costs and Crime Rates": Multidimensional treatment foster care, family integrated transitions, and aggression replacement training, or other programs with a positive benefit-cost finding in the institute's report. The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(7)(a) The juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental
health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(b) The juvenile rehabilitation administration shall phase the implementation of the formula provided in subsection (1) of this section by including a stop-loss formula of five percent in fiscal year 2012 and five percent in fiscal year 2013.

(c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be cochaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. Initial members will include one juvenile court representative from the finance committee, the community juvenile
accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(8) The juvenile courts and administrative office of the courts shall collect and distribute information related to program outcome and provide access to these data systems to the juvenile rehabilitation administration and Washington state institute for public policy. Consistent with chapter 13.50 RCW, all confidentiality agreements necessary to implement this information-sharing shall be approved
within 30 days of the effective date of this section. The agreements between administrative office of the courts, the juvenile courts, and the juvenile rehabilitation administration shall be executed to ensure that the juvenile rehabilitation administration receives the data that the juvenile rehabilitation administration identifies as needed to comply with this subsection. This includes, but is not limited to, information by program at the statewide aggregate level, individual court level, and individual client level for the purpose of the juvenile rehabilitation administration providing quality assurance and oversight for the locally committed youth block grant and associated funds and at times as specified by the juvenile rehabilitation administration as necessary to carry out these functions. The data shall be provided in a manner that reflects the collaborative work the juvenile rehabilitation administration and juvenile courts have developed regarding program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(9) The Washington association of juvenile court administrators and the juvenile rehabilitation administration, in consultation with the community juvenile accountability act advisory committee and the Washington state institute for public policy, shall analyze and review data elements available from the administrative office of the courts for possible integration into the evidence-based program quality assurance plans and processes. The administrative office of the courts, the Washington association of juvenile court administrators, and the juvenile rehabilitation administration shall provide information necessary to complete the review and analysis. The Washington association of juvenile court administrators and the juvenile rehabilitation administration shall report the findings of their review and analysis, as well as any recommendations, to the legislature by December 1, 2012.

(1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS
General Fund--State Appropriation (FY 2012) . . . . . . . $317,734,000
General Fund--State Appropriation (FY 2013) ....... ($324,319,000)
$321,411,000

General Fund--Federal Appropriation ............. ($449,593,000)
$446,421,000

General Fund--Private/Local Appropriation .......... $17,864,000

Hospital Safety Net Assessment Fund--State

Appropriation ......................... $5,251,000

TOTAL APPROPRIATION .................. ($1,114,761,000)
$1,108,681,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $109,342,000 of the general fund--state appropriation for fiscal year 2012 and $109,341,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for persons and services not covered by the medicaid program. This is a reduction of $4,348,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2011 prior to supplemental budget reductions. This $4,348,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $6,590,000 of the general fund--state appropriation for fiscal year 2012, $6,590,000 of the general fund--state appropriation for fiscal year 2013, and $7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section
to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund--state appropriation for fiscal year 2012, $5,850,000 of the general fund--state appropriation for fiscal year 2013, and $1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) $4,582,000 of the general fund--state appropriation for fiscal year 2012 and $4,582,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) $750,000 of the general fund--state appropriation for fiscal year 2012 and $750,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative.
These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) $1,125,000 of the general fund--state appropriation for fiscal year 2012 and $1,125,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) $1,529,000 of the general fund--state appropriation for fiscal year 2012 and $1,529,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and
outpatient services presently available to persons not eligible for medicaid.

(1) Given the recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(m) $750,000 of the general fund--state appropriation for fiscal year 2012, $750,000 of the general fund--state appropriation for fiscal year 2013, and $1,500,000 of the general fund--federal appropriation are provided solely to adjust regional support network capitation rates to account for the per diem rates actually paid for psychiatric care provided at hospitals participating in the certified public expenditure program operated pursuant to section 213 of this act.

(n) The appropriations in this section reflect efficiencies to be achieved through voluntary consolidation of regional support networks in accordance with Substitute House Bill No. 2139 (regional support networks). Voluntary consolidation of regional support networks is expected to result in administrative efficiencies and maximize dollars available for direct services to individuals with mental illnesses without corresponding increases in state appropriations.

Contributions are funded at $0.22 per benefit-eligible paid hour worked by all home care workers. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection. However, if the governor and the service employees international union healthcare 775nw can reach agreement on repurposing funding that is currently provided in the individual provider collective bargaining agreement for new individual provider wages paid during training or other training related items, then expenditures for training trust contributions for individual providers may include the amounts provided in this subsection and the agreed upon repurposed funding. Funding in this section for purposes other than the individual provider collective bargaining agreement cannot be used for the purposes of this subsection (1)(e). It is the intent of the legislature that the funding provided in this subsection, including any repurposed funding, is sufficient to cover the costs of individual provider training and therefore tuition or other entrance fees are not necessary.

(f) ($107,538,000) of the general fund--state appropriation for fiscal year 2013 and ($107,535,000) of the general fund--federal appropriation are provided solely for the department to provide personal care services to waiver and nonwaiver in-home clients. The department shall provide the legislature with a report by December 5, 2012, on the feasibility of converting the medicaid personal care program for in-home adults to a medicaid program as found in section 1915(i) of the federal social security act that utilizes the option for self-direction of individualized budgets. The department shall operate the personal care program within the amounts specifically provided.

(g)(i) Within the amounts appropriated in this subsection, the department shall revise the current working age adult policy to allow clients to choose between employment and community access activities. Clients age 21 and older who are receiving services through a home- and community-based medicaid waiver shall be offered the choice to transition to a community access program after nine months of enrollment in an employment program, and the option to transition from a community access program to an employment program at any time. The department shall inform clients and their legal representatives of all available options for employment and day services. Information
provided to the client and the client's legal representative shall include the types of activities each service option provides, and the amount, scope, and duration of service for which the client would be eligible under each service option. An individual client may be authorized for only one service option, either employment services or community access services. Clients may not participate in more than one of these services at any given time.

(ii) The department shall work with counties and stakeholders to strengthen and expand the existing community access program. The program must emphasize support for the client so they are able to participate in activities that integrate them into their community and support independent living and skills.

(iii) The appropriation in this subsection includes funding to provide employment or community access services to 168 medicaid eligible young adults with developmental disabilities living with their families who need employment opportunities and assistance after high school graduation.

(h) $75,000 of the general fund--state appropriation for fiscal year 2012 and $75,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the restoration of direct support to local organizations that utilize parent-to-parent networks and communication to promote access and quality of care for individuals with developmental disabilities and their families.

(i) In accordance with Engrossed Substitute House Bill No. 1277 (licensed settings for vulnerable adults), adult family home license fees are increased in fiscal years 2012 and 2013 to support the costs of conducting licensure, inspection, and regulatory programs.

(ii) The current annual renewal license fee for adult family homes shall be increased to $100 per bed beginning in fiscal year 2012 and $175 per bed beginning in fiscal year 2013. Adult family homes shall receive a corresponding vendor rate increase per medicaid patient day of $0.22 in fiscal year 2012 and $0.43 in fiscal year 2013, or the amount necessary to fully fund the license fee increase for publicly funded beds, pursuant to the most recent bed estimates maintained by the department.

(ii) Beginning in fiscal year 2012, a processing fee of $2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable.
(j) Clients with developmental disabilities have demonstrated a need and a desire for a day services program as verified by over 900 clients currently accessing day programs through a long-term care service model. In addition, every individual, to include those with a developmental disability, should have the opportunity for meaningful employment which allows them to contribute to their communities and to become as self-sufficient as possible. Providing choice empowers recipients of publicly funded services and their families by expanding their degree of control over the services and supports they need.

The department shall work with legislators and stakeholders to develop a new approach to employment and day services. The objective of this plan is to ensure that adults with developmental disabilities have optimum choices, and that employment and day offerings are comprehensive enough to meet the needs of all clients currently served on a home and community based waiver. The proposal shall be submitted to the 2012 legislature for consideration and shall be constructed such that a client ultimately receives employment, community access, or the community day option but not more than one service at a time. The proposal shall include options for program efficiencies within the current employment and day structure and shall provide details on the plan to implement a consistent, statewide outcome-based vendor contract for employment and day services as specified in (c) of this subsection.

The appropriations in this subsection are subject to the following conditions and limitations:

Amounts appropriated in this subsection are for the purposes of transitioning clients with developmental disabilities into community settings. The department is authorized as needed to use these funds to either pay for clients residing within a residential habilitation center or for placements in the community. Pursuant to Second Substitute Senate Bill No. 5459 (services for people with developmental disabilities), funding in this subsection must be prioritized for the purpose of facilitating the consolidation and closure of Frances Haddon Morgan Center. the community or another residential habilitation center. The
department is authorized to use any savings from this effort for the
purpose of developing community resources to address the needs of
clients with developmental disabilities who are in crisis or in need of
respite. The department shall track the costs and savings of closing
Frances Haddon Morgan Center and any investments into community
placements and resources. The department shall provide a fiscal

$3,395,699,000

The appropriations in this section are subject to the following
conditions and limitations:
(1) For purposes of implementing chapter 74.46 RCW, the weighted
average nursing facility payment rate shall not exceed $170.37 for
fiscal year 2012 and shall not exceed (($171.43)) $171.09 for fiscal
year 2013, including the rate add-ons described in (a) and (b) of this
subsection. However, if the waiver requested from the federal centers
for medicare and medicaid services in relation to the safety net
assessment created by Engrossed Substitute Senate Bill No. 5581
(nursing home payments) is for any reason not approved and implemented,
the weighted average nursing facility payment rate shall not exceed
$159.87 for fiscal year 2012 and shall not exceed (($160.93)) $161.29
for fiscal year 2013. There will be no adjustments for economic trends
and conditions in fiscal years 2012 and 2013. The economic trends and
conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. When no economic trends and conditions factor for either fiscal year is defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the component rate allocations established in accordance with chapter 74.46 RCW.

(a) Within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed $1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than $15 in calendar year 2008, according to cost report data. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. The department shall continue reporting requirements and a settlement process to ensure that the funds are spent according to this subsection.

(b) The department shall do a comparative analysis of the facility-based payment rates calculated on July 1, 2012, using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, to the facility-based payment rates in effect June 30, 2010. If the facility-based payment rate calculated on July 1, 2012, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, is greater than the direct care rate in effect on June 30, 2010, then the
facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(d) The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net assessment as a medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

(e) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, (b), (c), and (d) of this subsection do not apply.

(2) After examining actual nursing facility cost information, the legislature finds that the medicaid nursing facility rates calculated pursuant to Engrossed Substitute Senate Bill No. 5581 (nursing home payments) provide sufficient reimbursement to efficiently and economically operating nursing facilities and bear a reasonable relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2012 and no new certificates of capital authorization for fiscal year 2013 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal years 2012 and 2013.

(4) The long-term care program may develop and pay enhanced rates for exceptional care to nursing homes for persons with traumatic brain injuries who are transitioning from hospital care. The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.

(5) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.
(6) $1,883,000 of the general fund--state appropriation for fiscal year 2012, $1,883,000 of the general fund--state appropriation for fiscal year 2013, and $3,766,000 of the general fund--federal appropriation are provided solely for state contributions for individual provider health care benefits. Pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270, the state shall contribute to the multiemployer health benefits trust fund $2.21 per paid hour worked by individual providers.

(7) $2,449,000 of the general fund--state appropriation for fiscal year 2012, $3,012,000 of the general fund--state appropriation for fiscal year 2013, and $5,463,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, for instructional costs associated with the training of individual providers. Contributions are funded at $0.22 per benefit-eligible paid hour worked by all home care workers. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection. However, if the governor and the service employees international union healthcare 775nw can reach agreement on repurposing funding that is currently provided in the individual provider collective bargaining agreement for new individual provider wages paid during training or other training related items, then expenditures for training trust contributions for individual providers may include the amounts provided in this subsection and the agreed upon repurposed funding. Funding in this section for purposes other than the individual provider collective bargaining agreement cannot be used for the purposes of this subsection (7). It is the intent of the legislature that the funding provided in this subsection, including any repurposed funding, is sufficient to cover the costs of individual provider training and therefore tuition or other entrance fees are not necessary.

(8) (($38,550,000)) $325,203,000 of the general fund--state appropriation for fiscal year 2013 and (($38,550,000)) $324,653,000 of the general fund--federal appropriation are provided solely for the department to provide personal care services to waiver and nonwaiver in-home clients. The department shall provide the legislature with a report by December 5, 2012, on the feasibility of converting the
1 medicaid personal care program for in-home adults to a medicaid program
2 as found in section 1915(i) of the federal social security act that
3 utilizes the option for self-direction of individualized budgets. The
4 department shall operate the personal care program within the amounts
5 specifically provided.
6 (9) Individuals receiving services as supplemental security income
7 (SSI) state supplemental payments shall not become eligible for medical
8 assistance under RCW 74.09.510 due solely to the receipt of SSI state
9 supplemental payments.
10 (10) The department shall eliminate the adult day health program
11 under the state plan 1915(i) option and shall reestablish it under the
12 long-term care home and community-based waiver.
13 (11) $4,588,000 of the general fund--state appropriation for fiscal
14 year 2012, $4,559,000 of the general fund--state appropriation for
15 fiscal year 2013, and $9,237,000 of the general fund--federal
16 appropriation are provided solely for the continued operation of
17 community residential and support services for persons who are older
18 adults or who have co-occurring medical and behavioral disorders and
19 who have been discharged or diverted from a state psychiatric hospital.
20 These funds shall be used to serve individuals whose treatment needs
21 constitute substantial barriers to community placement, who no longer
22 require active psychiatric treatment at an inpatient hospital level of
23 care, and who no longer meet the criteria for inpatient involuntary
24 commitment.
25 (12) $1,840,000 of the general fund--state appropriation for fiscal
26 year 2012 and $1,877,000 of the general fund--state appropriation for

30 senior citizens and persons with disabilities.
31 (13) In accordance with Engrossed Substitute House Bill No. 1277
32 (licensed settings for vulnerable adults), nursing facility fees are
33 increased in fiscal year 2012 and adult family home fees are increased
34 in fiscal year 2012 and fiscal year 2013 to support the costs of
35 conducting licensure, inspection, and regulatory programs.
36 (a) The current annual renewal license fee for nursing facilities
37 shall be increased to $359 per bed beginning in fiscal year 2012 and
38 assumes $517,000 of the general fund--private/local appropriation.
Nursing facilities shall receive a vendor rate increase of $0.08 per medicaid patient day to cover the license fee increase for publicly funded beds.

(b) The current annual renewal license fee for adult family homes shall be increased to $100 per bed beginning in fiscal year 2012 and assumes $1,449,000 of the general fund--private/local appropriation; and $175 per bed beginning in fiscal year 2013 and assumes $2,463,000 of the general fund--private/local appropriation. Adult family homes shall receive a corresponding vendor rate increase per medicaid patient day of $0.22 in fiscal year 2012 and $0.43 in fiscal year 2013, or the amount necessary to fully fund the license fee increase for publicly funded beds, pursuant to the most recent bed estimates maintained by the department.

(c) Beginning in fiscal year 2012, a processing fee of $2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable.

The department shall develop a statewide internal quality review and accountability program to improve the accountability of staff and the consistent application of investigative activities, and shall convene a quality assurance panel to review problems in the quality of care in adult family homes.

(14) $3,316,000 of the traumatic brain injury account--state appropriation is provided solely to continue services for persons with traumatic brain injury (TBI) as defined in chapter 143, Laws of 2011 (traumatic brain injury strategic partnership).

       $60,570,000
The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations to the authority in this act shall be expended for the purposes and in the amounts specified in this act. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecasts and utilization assumptions, the authority, after May 1, 2013, may transfer general fund--state appropriations for fiscal year 2013 that are provided solely for a specified purpose. The authority shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(2) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents.

Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

(3) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

(4)(a) $1,200,000 of the general fund--state appropriation for fiscal year 2012 is provided solely to plan the implementation of a system of consolidated public school employee health benefits purchasing.

It is the intent of the legislature to improve the administration, transparency, and equity in delivering a K-12 employees' health benefits system. In addition, the legislature intends that any cost savings that result from changes to K-12 health benefits be dedicated to public schools.

To further this legislative intent, the state health care authority shall develop a plan to implement a consolidated health benefits' system for K-12 employees for the 2013-14 school year. The health care authority shall deliver a report to the legislature by December 15, 2011, that sets forth the implementation plan to the ways and means committees of the house of representatives and the senate.

(b) The report prepared by the health care authority shall compare and contrast the costs and benefits, both long and short term, of:

(i) The current K-12 health benefits system;

(ii) A new K-12 employee benefits pool; and

(iii) Enrolling K-12 employees into the health benefits pool for state employees.

(c) In addition to the implementation plan, the report shall include the following information:

(ii) The costs and benefits of providing a new statewide K-12 employees' health benefits pool to school districts and school employees;

(iii) The costs and benefits of enrolling K-12 employees into the existing health benefits pool for state employees;

(iv) Recommendations of ways to limit administrative duplication and costs, improve transparency to employees, the legislature, and the public and assure equity among beneficiaries of publicly provided employee health benefits;

(v) Recommendations for standardizing benefit packages and purchasing efforts in a manner that seeks to maximize funding and equity for all school employees;

(vi) Recommendations regarding the use of incentives, including how changes to state health benefit allocations could provide employees with benefits that would encourage participation;

(vii) Recommendations regarding the implementation of a new K-12 employee benefit plan, with separate options for voluntary participation and mandatory statewide participation;

(viii) Recommendations regarding methods to reduce inequities between individual and family coverage;

(ix) Consolidation of the purchasing and budget accountability for school employee benefits to maximize administrative efficiency and leverage existing skills and resources; and

(x) Other details the health care authority deems necessary, including but not limited to recommendations on the following:

(A) Approaches for implementing the transition to a statewide pool, including administrative and statutory changes necessary to ensure a successful transition, and whether the pool should be separate from, or combined with, the public employees' benefits pool;

(B) The structure of a permanent governing group to provide ongoing oversight to the consolidated pool, in a manner similar to the public employees benefits board functions for employee health benefits, including statutory duties and authorities of the board; and

(C) Options for including potential changes to: Eligibility standardization, the public employees benefits risk pools, the movement of school employee retirees into the new K-12 pool or pools, and the movement of educational service district employees into the new K-12 pool or pools.
(d) In determining its costs and benefits of a new statewide K-12 employees' health benefits pool for school districts and school employees, the health care authority shall assume the following:

(i) School district enrollees must constitute an entire bargaining unit, or an entire group of nonrepresented employees;

(ii) Staffing and administration for benefits purchasing shall be provided by the health care authority; and

(iii) The new K-12 pool would operate on a schedule that coordinates with the financing and enrollment schedule used for school districts.

(e) The office of the superintendent of public instruction and the office of the insurance commissioner shall provide information and technical assistance to the health care authority as requested by the health care authority. The health care authority shall not implement the new school employee benefits pool until authorized to do so by the legislature.

(5) The administrator shall take at least the following actions to assure that persons participating in the basic health plan are eligible for the level of assistance they receive: (a) Require submission of

(i) income tax returns, and recent pay history, from all applicants, or

(ii) other verifiable evidence of earned and unearned income from those persons not required to file income tax returns; (b) check employment security payroll records at least once every twelve months on all enrollees; (c) require enrollees whose income as indicated by payroll records exceeds that upon which their subsidy is based to document their current income as a condition of continued eligibility; (d) require enrollees for whom employment security payroll records cannot be obtained to document their current income at least once every six months; (e) not reduce gross family income for self-employed persons by noncash-flow expenses such as, but not limited to, depreciation, amortization, and home office deductions, as defined by the United States internal revenue service; and (f) pursue repayment and civil penalties from persons who have received excessive subsidies, as provided in RCW 70.47.060(9).

(6) Enrollment in the subsidized basic health plan shall be limited to only include persons who qualify as subsidized enrollees as defined in RCW 70.47.020 and who (a) qualify for services under 1115 medicaid

demonstration project number 11-W-00254/10; or (b) are foster parents licensed under chapter 74.15 RCW.

(7) $23,700,000 of the general fund--federal appropriation is provided solely for planning and implementation of a health benefit exchange under the federal patient protection and affordable care act. Within the amounts provided in this subsection, funds used by the authority for information technology projects are conditioned on the authority satisfying the requirements of Engrossed Second Substitute Senate Bill No. 5931 (central service agencies).

(8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(10) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(11) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(12) $4,261,000 of the general fund--state appropriation for fiscal year 2012, $4,261,000 of the general fund--state appropriation for fiscal year 2013, and $8,522,000 of the general fund--federal appropriation are provided solely for low-income disproportionate share hospital payments (under RCW 74.09.730(1)(a)).

(13) $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum

3ESSB 5034.SL p. 374
allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(14) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2011-2013 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2011, and by November 1, 2012, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2012 and fiscal year 2013, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each
fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2011-13 biennial operating appropriations act and in effect on July 1, 2011, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2011-13 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $8,102,000 of the general fund--state appropriation for fiscal year 2012, of which $6,570,000 is appropriated in section 204(1) of this act, and $(3,162,000) $10,498,000 of the general fund--state appropriation for fiscal year 2013, of which $6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in RCW 74.60.080 and rate increases in RCW 74.60.090 funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.
The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(For children with family incomes above 200 percent of the federal poverty level in the state-funded children's health program for children who are not eligible for coverage under the federally funded children's health insurance program, premiums shall be set every two years in an amount equal to the average state only share of the per capita cost of coverage in the state-funded children's health program for children in families with incomes at or less than two hundred percent of the federal poverty level.

it determines that the cost of the brand name drug after rebates is
less than the cost of generic alternatives and that purchase of the
brand rather than generic version can save at least $250,000. The
department may purchase generic alternatives when changes in market
prices make the price of the brand name drug after rebates more
expensive than the generic alternatives.

$150,000 of the general fund--state appropriation for
fiscal year 2012 and $1,964,000 of the general fund--state
appropriation for fiscal year 2013 are provided solely to implement
Engrossed Second Substitute House Bill No. 2319 (affordable care act).
If the bill is not enacted by June 30, 2012, the amounts provided in
this subsection shall lapse.

$1,109,000 of the general fund--state appropriation
for fiscal year 2012, $1,471,000 of the general fund--state
appropriation for fiscal year 2013, and $21,890,000 of the general
fund--federal appropriation are provided solely to implement phase two
of the project to create a single provider payment system that
consolidates medicaid medical and social services payments and replaces
the social service payment system.

In order to achieve the twelve percent reduction in
emergency room expenditures in the fiscal year 2013 appropriations
provided in this section, the authority, in consultation with the
Washington state hospital association, the Washington state medical association, and the Washington chapter of the American college of emergency physicians shall designate best practices and performance measures to reduce medically unnecessary emergency room visits of medicaid clients. The Washington state hospital association, the Washington state medical association, and the Washington chapter of the American college of emergency physicians will work with the authority to promote these best practices. The best practices and performance measures shall consist of the following items:

(a) Adoption of a system to exchange patient information among emergency room departments on a regional or statewide basis;

(b) Active dissemination of patient educational materials produced by the Washington state hospital association, Washington state medical association, and the Washington chapter of the American college of emergency physicians that instruct patients on appropriate facilities for nonemergent health care needs;

(c) Designation of hospital personnel and emergency room physician personnel to receive and appropriately disseminate information on clients participating in the medicaid patient review and coordination program and to review monthly utilization reports on those clients provided by the authority;

(d) A process to assist the authority's patient review and coordination program clients with their care plans. The process must include substantial efforts by hospitals to schedule an appointment with the client's assigned primary care provider within seventy-two hours of the client's medically unnecessary emergency room visit when appropriate under the client's care plan;

(e) Implementation of narcotic guidelines that incorporate the Washington chapter of the American college of emergency physician guidelines;

(f) Physician enrollment in the state's prescription monitoring program, as long as the program is funded; and

(g) Designation of a hospital emergency department physician responsible for reviewing the state's medicaid utilization management feedback reports, which will include defined performance measures. The emergency department physician and hospital will have a process to take appropriate action in response to the information in the feedback reports if performance measures are not met. The authority must
develop feedback reports that include timely emergency room utilization data such as visit rates, medically unnecessary visit rates (by hospital and by client), emergency department imaging utilization rates, and other measures as needed. The authority may utilize the Robert Bree collaborative for assistance related to this best practice.

The requirements for best practices for a critical access hospital should not include adoption of a system to exchange patient information if doing so would pose a financial burden, and should not include requirements related to the authority's patient review and coordination program if the volume of those patients seen at the critical access hospital are small.

Hospitals participating in this medicaid best practices program shall submit to the authority a declaration from executive level leadership indicating hospital adoption of and compliance with the best practices enumerated above. In the declaration, hospitals will affirm that they have in place written policies, procedures, or guidelines to implement these best practices and are willing to share them upon request. The declaration must also give consent for the authority to disclose feedback reports and performance measures on its web site. The authority shall submit a list of declaring hospitals to the relevant policy and fiscal committees of the legislature by July 15, 2012.

If the authority does not receive by July 1, 2012, declarations from hospitals representing at least seventy-five percent of emergency room visits by medicaid clients in fiscal year 2010, the authority may implement a policy of nonpayment of medically unnecessary emergency room visits, with appropriate client and clinical safeguards such as exemptions and expedited prior authorization. The authority shall by January 15, 2013, perform a preliminary fiscal analysis of trends in implementing the best practices in this subsection, focusing on outlier hospitals with high rates of unnecessary visits by medicaid clients, high emergency room visit rates for patient review and coordination clients, low rates of completion of treatment plans for patient review and coordination clients assigned to the hospital, and high rates of prescribed long-acting opiates. In cooperation with the leadership of the hospital, medical, and emergency physician associations, additional efforts shall be focused on assisting those outlier hospitals and providers to achieve more substantial savings. The authority by
January 15, 2013, will report to the legislature about whether assumed
savings based on preliminary trend and forecasted data are on target
and if additional best practices or other actions need to be
implemented.

If necessary, pursuant to RCW 34.05.350(1)(c), the authority may
employ emergency rulemaking to achieve the reductions assumed in the
appropriations under this section.

Nothing in this subsection shall in any way impact the authority's
ability to adopt and implement policies pertaining to the patient
review and coordination program.

(((46)) (42) The ((department)) authority shall seek a medicaid
state plan amendment to create a ((graduate medical education))
professional services supplemental payment managed care program for
professional services delivered to managed care recipients by
University of Washington medicine and other public professional
providers. This program shall be effective as soon as administratively
possible and shall operate concurrently with the existing professional
services supplemental payment program. ((Providers that participate in
the graduate medical education supplemental payment program are not
eligible to participate in the professional services supplemental
payment program.)) The ((department)) authority shall apply federal
rules for identifying the difference between ((current physician
encounter)) average commercial rates and fee-for-service medicaid
payments ((to participating providers and the applicable federal upper
payment limit)). This difference will be multiplied by the number of
managed care encounters and incorporated into the managed care plan
capitation rates by a certified actuary. The managed care plans will
pay the providers the difference attributable to the increased
capitation rate. Participating providers shall be solely responsible
for providing the local funds required to obtain federal matching
funds. Any incremental costs incurred by the ((department)) authority
in the development, implementation, and maintenance of this program
shall be the responsibility of the participating providers.
Participating providers shall retain the full amount of supplemental
payments provided under this program, net of any costs related to the
program that are disallowed due to audits or litigation against the
state.

p. 385 3ESSB 5034.SL
The authority shall exclude antiretroviral drugs used to treat HIV/AIDS, anticancer medication that is used to kill or slow the growth of cancerous cells, antihemophilic drugs, insulin and other drugs to lower blood glucose, and immunosuppressive drugs from any formulary limitations implemented to operate within the appropriations provided in this section.

If Engrossed Substitute Senate Bill No. 5978 (medicaid fraud) is not enacted by June 30, 2012, the amounts appropriated in this section from the medicaid fraud penalty account--state appropriation shall lapse and an additional $3,608,000 shall be appropriated from the general fund--state for fiscal year 2013 for medicaid services, fraud detection and prevention activities, recovery of improper payments, and for other medicaid fraud enforcement activities.

Within the amounts appropriated in this section, the health care authority and the department of social and health services shall implement the state option to provide health homes for enrollees with chronic conditions under section 2703 of the federal affordable care act. The total state match for enrollees who are dually-eligible for both medicare and medicaid and not enrolled in managed care shall be no more than the net savings to the state from the enhanced match rate for its medicaid-only managed care enrollees under section 2703.

The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on
specifically defined projects or matched on a formula basis by state funds.

((52)) (47) $66,000 of the general fund--state appropriation for fiscal year 2013 and $66,000 of the general fund--federal appropriation are provided solely to implement Engrossed Second Substitute House Bill No. 2536 (children services/delivery). The department of social and health services' programs responsible for administration of mental health, child welfare, and juvenile justice programs will coordinate with the health care authority on the development of contract terms which facilitate efforts to meet requirements of the bill. If the bill is not enacted by June 30, 2012, the amounts provided in this subsection shall lapse.

((53)) (48) The health care authority shall participate in the work group established by the department of corrections in section 220(2) of this act to review release options for elderly and infirm offenders.

(49) $208,000 of the medicaid fraud penalty account--state appropriation for fiscal year 2013 and $728,000 of the general fund--federal appropriation are provided solely for the rebasing of outpatient and inpatient payment methods.

Passed by the Senate June 28, 2013.
Passed by the House June 28, 2013.
Approved by the Governor June 30, 2013, with the exception of certain items that were vetoed.
Filed in Office of Secretary of State July 1, 2013.

Note: Governor's explanation of partial veto is as follows:
"I am returning herewith, without my approval as to Sections 103(10); 103(11); 114(3); 124(2); 124(3); 124(4); 124(5); 130(5); 148(4); 150, page 37, lines 33-36 and page 38, lines 1-7; 205(1)(e); 208(7); 213 (35); 213(36); 217(5); 219(25); 302(8); 307(15); 501(1)(a)(v); 610 (1); 610(2); and 610(8), Third Engrossed Substitute Senate Bill 5034 entitled:

"AN ACT Relating to fiscal matters."

Section 103(10), page 6, Joint Legislative Audit and Review Committee, Study of State Agency Performance Indicators and Performance Measurement Process
This proviso directs the Joint Legislative Audit and Review Committee to study the effectiveness of state agency performance indicators and performance measurement processes established in Chapter 43.88 RCW, the state Budget and Accounting Act. My administration is already conducting a thorough and rigorous review of state agency performance indicators and measurements through our Results Washington initiative. I appreciate the Legislature's interest in performance management, but this review would be unnecessarily duplicative. For these reasons, I have vetoed Section 103(10).

Section 103(11), page 6, Joint Legislative Audit and Review Committee, Study of Electricity Cost Impacts from Renewable Energy Standards
This proviso directs the Joint Legislative Audit and Review Committee to assess the cost impacts of the state's renewable electricity standards without also evaluating the economic and environmental benefits of renewable energy. The study is unnecessary, as there are cost controls built into the standards. In addition, improvements to the Energy Independence Act will also be considered through the ongoing efforts of the Climate Legislative and Executive Workgroup created in Chapter 6, Laws 2013 (E2SSB 5802). For these reasons, I have vetoed Section 103(11).

Section 114(3), page 9, Administrator for the Courts, Office of Chief Information Officer Approval of Judicial Technology Expenditures
This proviso requires the Administrative Office of the Courts (AOC) to work with the Office of the Chief Information Officer (OCIO) to analyze the feasibility of moving judicial branch information technology equipment into the state data center. AOC is willing to undertake this analysis, in conjunction with the OCIO, as requested. However, the proviso also prohibits AOC from expending funds appropriated for an information network hub project and computer equipment replacement unless approved by the OCIO. This limitation on AOC's appropriation authority is not necessary given AOC's commitment to work cooperatively with the OCIO. I am willing to revisit this issue, however, should the necessary analysis not proceed
in a timely and efficient manner. For this reason, I have vetoed Section 114(3).

**Sections 124(2), 124(3), 124(4), 124(5), pages 16-17, State Auditor, Audit and Evaluation Requests**
The State Auditor's is requested by the Legislature to conduct various audits and evaluations on actuarial functions, managed care systems, federal compliance and fraud activity, and inmate intake and reception processes. The budget reduces the State Auditor's ability to conduct performance audits by diverting nearly $10 million from the Performance Audits of Government Account to funds to other activities, including $5.6 million of funding for the Joint Legislative Audit and Review Committee (JLARC). Initiative 900 created the Performance Audits of Government Account to fund comprehensive performance audits independently chosen by the State Auditor. Therefore, the State Auditor should select the audits he will perform within his limited funds. Legislatively directed audits should be performed by JLARC. For these reasons, I have vetoed Sections 124(2), 124(3), 124(4), 125 (5).

**Section 130(5), page 28, Office of Financial Management, One-Stop Portal Monitoring**
This proviso requires the Office of the Chief Information Officer to submit a plan to establish performance benchmarks and measuring results of implementing a one-stop integrated system for business interactions with government. A similar reporting requirement is contained in Substitute Senate Bill 5718, which passed the Legislature, making this proviso unnecessary. For this reason, I have vetoed Section 130(5).

**Section 148(4), page 36, Department of Enterprise Services, Building Code Council Aspirational Codes**
This proviso prohibits the State Building Code Council from working on aspirational codes, which are voluntary codes that offer builders options to demonstrate new energy efficiency measures that are economically and technically feasible. Energy efficiency is the cheapest, quickest, and cleanest way to meet rising energy needs, confront climate change, and boost our economy. Therefore, I believe the Building Code Council should continue this work for the benefit of our state's taxpayers. For this reason, I have vetoed Section 148(4). Moreover, while I have not vetoed subsection (3) of this section, the proviso attempts to amend substantive law through the budget by "modifying" the Council's statutory authority and by restricting member compensation as allowed under RCW 19.27.070. Therefore, this improper proviso does not restrict the appropriation authority or activities of the Building Code Council.

**Section 150, page 37, lines 33-36 and page 38, lines 1-7, Department of Archaeology and Historic Preservation, Agency Survey and Inventory Processes**
The Department of Archaeology and Historic Preservation is directed to report to the Legislature by December 1, 2013, and a second report by December 1, 2014, regarding the agency's survey and inventory processes. No funding was provided to compile the necessary data, which is not readily available to the Department, to complete these reports. For this reason, I have vetoed Section 150, page 37, lines 33-36 and page 38, lines 1-7. However, I am directing the Department to work with interested stakeholders to provide useful and available information about the survey and inventory processes within existing resources.
Section 205(l)(e), page 61, Department of Social and Health Services, Rate Disparity Report
The Department of Social and Health Services is directed to report to the Legislature by December 31, 2013, with a strategy to reduce the rate disparity between urban and suburban residential service providers. No funding was provided to the Department and it does not currently collect the data necessary to complete the report. For this reason I have vetoed Section 205(l)(e).

Section 208(7), page 73, Department of Social and Health Services, Chemical Dependency Treatment Study
This proviso requires the Department of Social and Health Services to contract with the Washington State Institute for Public Policy (WSIPP) to study the long-term efficacy of the chemical dependency treatment program. Under Chapter 338, Laws of 2013 (2SSB 5732), WSIPP will develop an inventory of evidence-based and research-based prevention and intervention services for the Department to use in preparing a behavioral health improvement strategy. Additionally, no funding is provided to the Department to contract for this study. For these reasons, I have vetoed Section 208(7).

Section 213(35), page 88, Health Care Authority, Rebates for Brand Name Drugs
This proviso requires the Health Care Authority to purchase brand name drugs when it determines the cost of the brand name drug after rebate is less than the cost of generic alternatives and that the purchase of the brand rather than generic version can save at least $250,000. The state has made a concerted effort to reduce pharmaceutical drug costs through increasing generic drug use when clinically appropriate. This requirement is administratively burdensome to implement and will likely result in increased costs rather than savings. For these reasons I have vetoed section 213(35).

Section 213(36), page 88, Health Care Authority, Preferred Drug List Exclusions
This proviso prohibits the Health Care Authority from including specific drugs in the Medicaid preferred drug list for the fee-for-service population. This proviso is in direct conflict with the state's goal of ensuring that our expenditures on services, devices, and medications provide the greatest health benefit for employees and clients. Excluding classes of drugs from evidence-based medicine is inconsistent with improving health care quality and reducing costs. For this reason I have vetoed Section 213(36).

Section 217(5), page 96, Department of Labor and Industries; Section 219(25), page 105, Department of Health; Section 302(8), pages 119-120, Department of Ecology; Formal Review Process Existing Rules
These provisos require the Departments of Labor and Industries, Health, and Ecology to establish and perform a formal review process of its existing rules within existing funds. A similar reporting requirement is included in SSB 5679, which passed the Legislature, making these provisos unnecessary. For this reason, I have vetoed Sections 217(5), 219(25), and 302(8).

Section 307(15), pages 126-127, Department of Fish and Wildlife, Payments in Lieu of Taxes Methodology
The Department of Fish and Wildlife is directed to develop and submit a revised payment methodology for certain counties that receive payments in lieu of taxes (PILT) for game lands managed by the Department. The revised methodology is directed to provide supplemental payments to these counties. I believe a comprehensive review of PILT for game lands should be conducted without any
predetermined outcome. Therefore, I am directing the Department of Revenue to work with the Department of Fish and Wildlife and the Office of Financial Management to examine the current PILT methodologies, as well as methodologies used by other states and the federal government, to develop by December 1, 2013, options and recommendations to revise the PILT program. For this reason, I have vetoed Section 307(15).

Section 501(l)(a)(v), page 136, Superintendent of Public Instruction
This proviso requires the Office of the Superintendent of Public Instruction to review career and technical education and skill center formulas by October 1, 2013. The due date does not provide enough time for staff to accomplish the task. The Superintendent has expressed a commitment to completing the review by June 1, 2014. For these reasons, I have vetoed Section 501(l)(a)(v).

Section 610(1), page 190, The Evergreen State College, Extraordinary Foster Care Cost Study
This proviso directs the Washington State Institute for Public Policy to examine the extraordinary costs of individual foster care children to identify whether the cost of placements is consistent across similarly acute children. The Children's Administration of the Department of Social and Health Services routinely evaluates high cost placements and services but must make decisions based on the unique needs of each child. A study is not necessary at this time. For this reason, I have vetoed Section 610(1).

Section 610(2), page 190, The Evergreen State College, Safety Assessment Tool Study
This proviso directs the Washington State Institute for Public Policy to conduct an empirical study of the validity and reliability of the safety assessment tool used by the Children's Administration of the Department of Social and Health Services. The Department is currently evaluating the assessment tool as it implements the family assessment response system required by Chapter 259, Laws 2012 (ESSB 6555). A study at this time would be premature when the Department has not yet determined whether the assessment tool will continue to be used, modified or maintained. For this reason, I have vetoed Section 610(2).

Section 610(8), page 191-192, The Evergreen State College, K-12 Funding Task Force
This proviso establishes an eleven member task force on K-12 funding, to be staffed by the Washington State Institute for Public Policy. The task force is to examine and provide options on the following topics: salary allocation methodologies, career and technical education, and the appropriate use of state and local property taxes to finance public schools. Within the past three years, legislatively authorized working groups have conducted thorough reviews of compensation, career and technical education, and use of local levies. Another task force is duplicative of proposals from recent workgroups. For this reason, I have vetoed Section 610(8).

For these reasons I have vetoed Sections 103(10); 103(11); 114(3); 124 (2); 124(3); 124(4); 124(5); 130(5); 148(4); 150, page 37, lines 33-36 and page 38, lines 1-7; 205(1)(e); 208(7); 213(35); 213(36); 217(5); 219(25); 302(8); 307(15); 501(l)(a)(v); 610 (1); 610 (2); and 610(8) of Third Engrossed Substitute Senate Bill 5034.

With the exception of Sections 103(10); 103(11); 114(3); 124(2); 124 (3); 124(4); 124(5); 130(5); 148(4); 150, page 37, lines 33-36 and page 38, lines 1-7; 205(1)(e); 208(7); 213(35); 213(36); 217(5); 219
Third Engrossed Substitute Senate Bill 5034 is approved."
