REVISED 1987-89 BIENNIUM TOTAL	2,503	0	0	2,503	2,538	0	0	2,538

Comments:

1. Under current law, the Department of Personnel surveys private businesses and other state and local governmental entities to determine prevailing salary rates. This is the basis for requesting salary increases for state employees. The Legislature appropriated \$35,000 to conduct a review of the methodology used for this survey.

Provisoes:

Section 101. Requires that an independent consultant be retained to analyze the salary survey methodology. Further, a temporary legislative committee is created to make recommendations for survey improvements based upon the consultant's review.

REVISED 1987-89 BIENNIUM TOTAL	24,158	0	22,597	46,755	23,857	0	21,178	45,035

Comments:

1. The 1987 Legislature authorized 8 new Superior Court judgeships. The Office of the Administrator for the Courts (OAC) requested funding for all 8 judgeships assuming the local jurisdiction had budgeted and filled the positions. The Legislature reduced the funding to reflect only the judgeships which were actually budgeted and co-authorized at the local level.

2. A constitutional amendment approved in the November 1986 election, established the Citizens' Commission on Salaries Commission for Elected Officials. The new Commission now sets the salary levels for elected officials including judges. The Commission's findings were not completed until after the adoption of the 1987-89 budget. Therefore, \$1,879,000 was provided in the supplemental budget to pay for Superior Court judges salary increases, effective September 1, 1987 and July 1, 1988. The Legislature reduced the amount appropriated for salary increases to correspond with the number of judgeships currently filled. The OAC had included all new judgeships in its salary base.

3. As a result of 1987 legislation expanding the criteria for cases going to mandatory arbitration, the OAC requested increased funding. Given the number of cases and the associated costs were difficult to predict, the Legislature did not fund the increase.

4. The OAC requested funds to develop a new real estate limited law practice exam.

Comments: (continued)

5. The OAC requested \$70,000 for Judicial Council studies as a result of 1987 legislation.

6. and 7. The Legislature reduced the amount for the Judicial Information System (JIS). Funds provided for JIS phases 3 & 4 did not include the Local Area Network project, although the OAC may continue feasibility planning efforts for the project. No funds were provided for JIS phase 5; the connectivity study regarding the potential for computer access by private entities.

8. Additional funds were provided to continue the Gender and Minority Task Forces established in the original biennial budget.

9. Funds were provided to implement SSB 6498 creating a task force to study how indigent defense is provided throughout the state and to recommend improvements.

Provisoos:

Section 104 (3). This subsection was amended to increase the amount from the Public Safety and Education Account (PSEA) for the Gender and Minority task forces by \$80,000 (from \$50,000 to \$130,000).

Provisoos: (continued)

Section 104 (6). Specifies \$14,134,000 GFS be spent only for the Superior Court Judge program. Included in this amount, is \$296,000 earmarked for the Superior Court of Thurston County to relieve the impact of litigation involving the state of Washington.

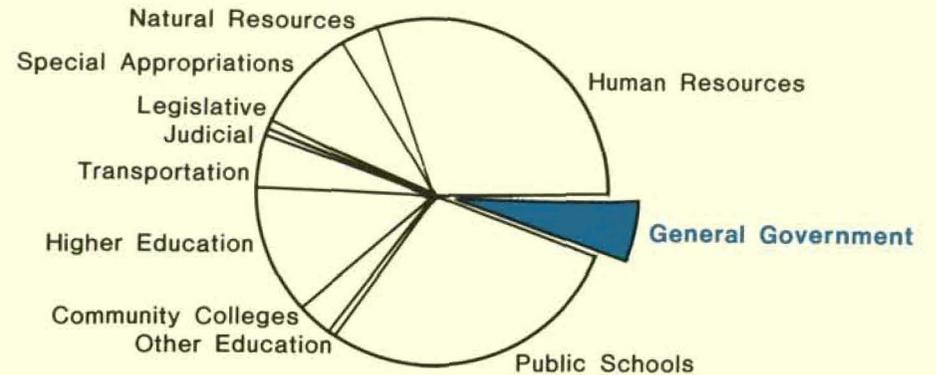

Section 105 (7). Requires \$70,000 of the PSEA appropriation be used solely to implement SSB 6498. The bill creates a committee to study how legal representation is provided to people who could not otherwise afford it. Further, the committee will make recommendations on how to improve and standardize the provision of indigent defense.

Section 105 (8). Provides a maximum of \$2,200,000 from the PSEA for improvements to the Judicial Information system including: an information center, a data administration model, and personal computer acquisitions for courts not served by the mainframe computer. Funding is contingent upon the OAC completing by July 1, 1988 a feasibility study in accordance with Department of Information Systems guidelines. Requires the study be reviewed by the Department of Information Systems and the Office of Financial Management and presented to the Legislative Evaluation and Accountability Committee. The OAC may include in it's feasibility study the local area network project.

Comments:

1. Provides funds for operations of the Washington State Commission for Efficiency and Accountability in Government.
2. Deletes funding for statewide school facility inventory.
3. Provides funds for employment and social services to minimize unemployment in the Tri Cities as a result of the N Reactor shutdown. The Legislature funded similar services in 2SHB 1835 through the Employment Security Department and Department of Trade and Economic Development (see pages 73 and 90).

NOTE: Funds for Everett Homeport were appropriated to OFM in ESHB 611 passed by the 1987 Legislature. The original 1987-89 Homeport appropriation appears as other legislation in the Special Appropriations section of Legislative Budget Notes, 1987-89 Biennium. For purposes of consistency, the Everett Homeport is treated in a similar fashion in these Notes. The ten page budget summary, found in the front of this publication shows the Homeport funding adjustment in OFM. See the Special Appropriations to the Governor's section for Everett Homeport information.

Provisoes:

Section 107 (4). \$100,000 GF-S is provided for operations of the Washington State Commission for Efficiency and Accountability in Government.

Comments:

2. Funds are provided for additional foster care services. Up to \$3 million may be spent for services designed to reduce the need for foster care. Revised projections of the foster care caseload and costs per case are as follows:

	Revised		Original	
	Caseload	Unit cost	Caseload	Unit cost
FY 88	5,657	\$5,622	5,262	\$5,473
FY 89	5,694	\$6,306	5,286	\$5,656

4. Reflects additional employment day care caseload, and provides 50 additional seasonal day care slots. Agency projections based on the original and supplemental appropriations are shown below.

	Revised		Original	
	Caseload	Unit cost	Caseload	Unit cost
FY 88	9,031	\$1,864	8,297	\$1,885
FY 89	9,790	\$1,938	9,024	\$1,958

Comments: (continued)

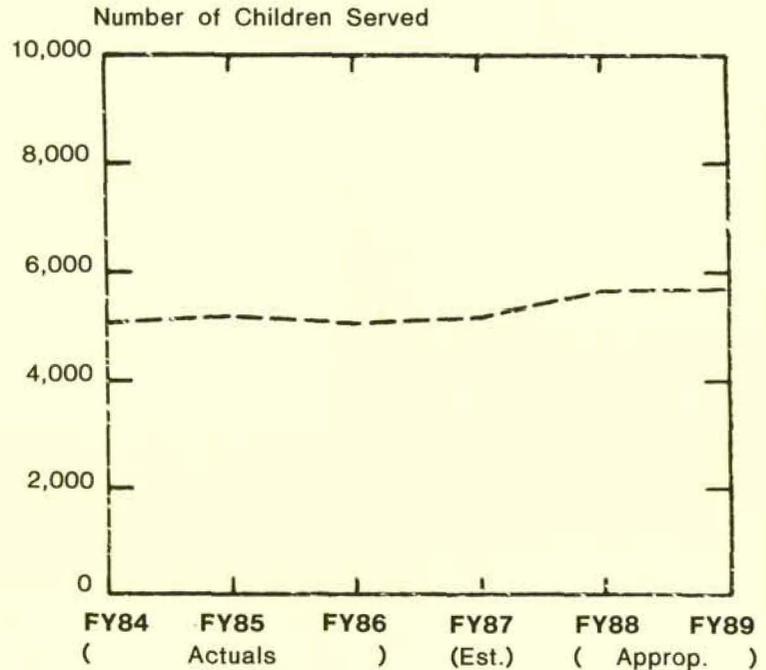

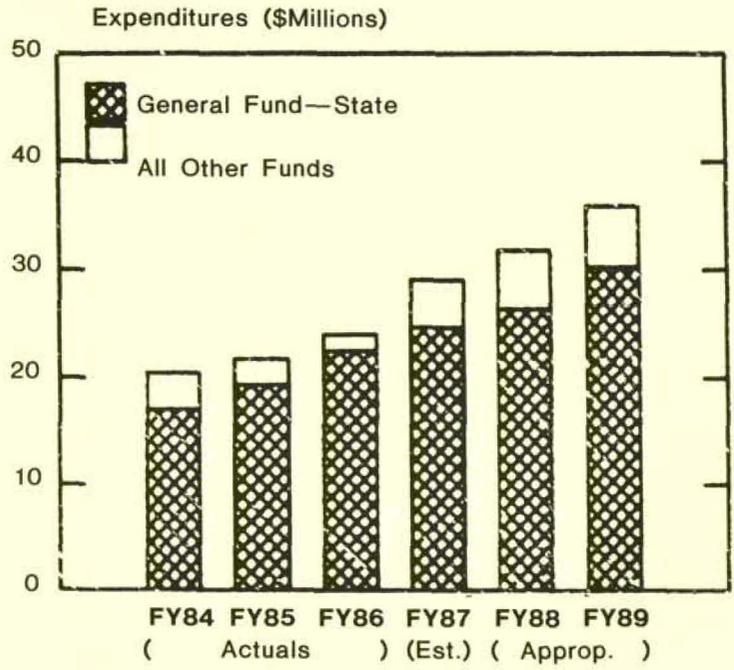

9. The 1987-89 budget, as originally enacted, assumed a federal match rate of 54.82%. The actual federal match rate was set at 53.06% requiring additional state funds to maintain the current funding level. The downward adjustment in the federal match rate was due to changes in the relative level of Washington state personal income versus the rest of the nation.

Provisoes:

Section 203 (15). Stipulates spending limits on services to reduce the need for foster care, and requires reports to the 1989 Legislature on expenditure of these funds and on the foster care rate structure.

Section 203 (16). Authorizes regulations to establish waiting lists if necessary to ensure that the employment day care program expenditures do not exceed allotted funds; and allows day care reimbursement rates to vary by area of the state.

**Operating Budgets
Children & Family Services
Foster Care
Units = Number of Children Served**

FY	Total \$ (\$Million)	GF-S \$ (\$Million)	Units	Total \$/ Unit	GF-S \$/ Unit	Constant \$/Unit (FY84 IPD=1)	
						Total	GFS
84	20.4	17.0	5,076	4,021	3,353	4,021	3,353
85	21.7	19.3	5,194	4,184	3,723	4,043	3,598
86	24.0	22.5	5,072	4,732	4,436	4,439	4,162
87	29.0	24.7	5,183	5,595	4,766	5,114	4,355
88	31.8	26.4	5,657	5,622	4,667	4,926	4,090
89	35.9	30.2	5,694	6,306	5,310	5,294	4,458

Higher foster care caseloads and unit costs are the result of rising and increasingly serious child abuse and neglect cases, backlog of children awaiting legal release for adoption, and a higher percentage of children with special needs.

DEPARTMENT OF SOCIAL AND HEALTH SERVICES

Comments:

1. Actual state funded categories of short-term involuntary detention are below budget estimates.
2. Actual cost of low wage earner initiative was below budgeted levels.
3. Activities eligible for federal match exceed estimate.
4. The 1987-89 budget, as originally enacted, assumed a federal match rate of 54.82%. The actual federal match rate was set at 53.06% requiring additional state funds to maintain the current funding level. The downward adjustment in the federal match rate was due to changes in the relative level of Washington state personal income versus the rest of the nation.

Provisoes:

Sec. 205 (1) (b). Is amended to permit the Kitsap Mental Health Residential Services Project to refer a limited group of clients to Western State Hospital. These clients must suffer organic disorders and have failed in recent community placements to be eligible for referral.

Sec. 205 (1) (h). Requires the Department of Social and Health Services to maintain its support for the dropout prevention program in the Seattle School District.

Comments:

3. Recent certification audits by state and federal auditors at Fircrest School found inadequate "active treatment" for residents and related problems associated with inadequate staffing patterns. Additionally, Rainier School management has been unsuccessful in instituting part-time staffing patterns requiring the maintenance of staff levels above those assumed in the biennial appropriation. The \$1.8 million appropriation is split equally between Fircrest and Rainier School.

4. The \$1.4M GF-S appropriation assumes the following distribution:

	State	Federal	Total
Sumner Lodge	100,000	0	100,000
Autism Program	100,000	0	100,000
Yakima Deaf	35,000	0	35,000

Comments:

1-2. Funds appropriated during Special August 10, 1987 Session to increase the caseload levels in the chore and COPE's programs, and to increase pay levels for nonadministrative nursing home personnel above the minimum wage levels.

3. Increased federal reimbursement of Title XIX clients regarding Purser v. Rahm.

4. The 1987-89 budget, as originally enacted, assumed a federal match rate of 54.82%. The actual federal match rate was set at 53.06%, requiring additional state funds to maintain the current funding level. The downward adjustment in the federal match rate was due to changes in the relative level of Washington state personal income versus the rest of the nation.

5. Reflects increased nursing home caseload projections, from an average of 16,616 to 16,816 clients for FY 1988, and from 16,918 to 17,118 for FY 1989.

Comments: (continued)

7. An approximate 20% increase in funding is provided for the volunteer chore program to maintain current service levels.

8. Eliminates employee pay disparities in congregate care facilities serving both mentally ill and non-mentally ill clients.

9. SB 6271 establishes licensure standards for home health, hospice and home care agencies.

Provisoes:

Section 207 (11). Encourages working agreements between mental health agencies and area agencies on aging to assure access to treatment for elderly mentally ill persons.

Comments:

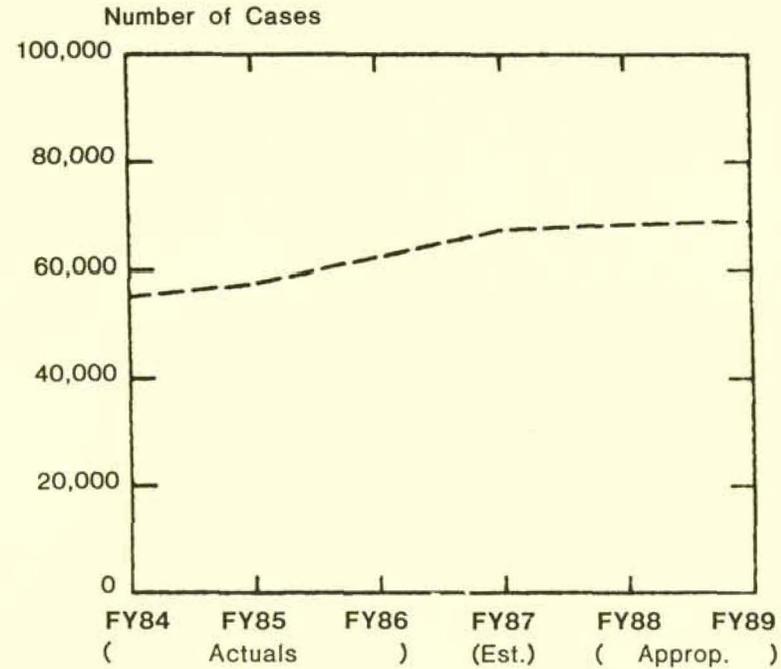

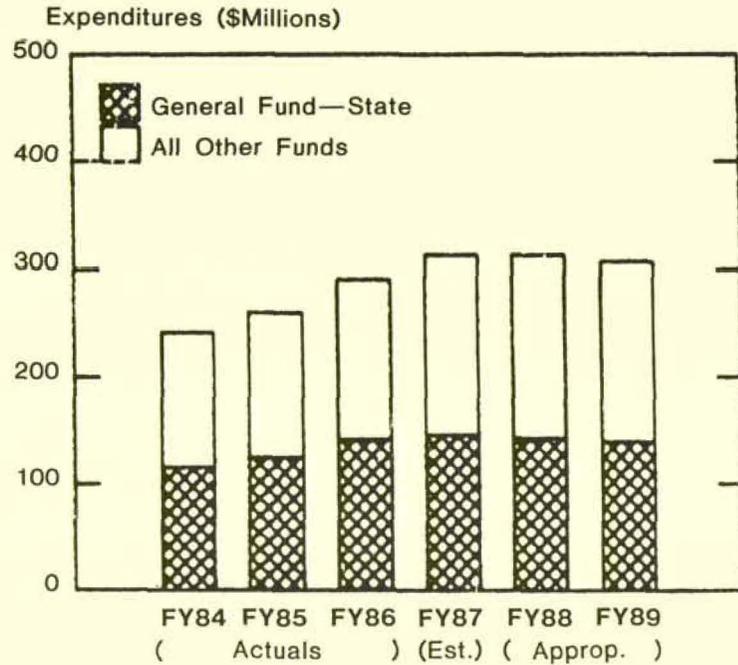

1. Savings reflected are from lower than projected caseloads in the Aid to Families with Dependent Children-Regular and Unemployed Parent programs, and the General Assistance-Unemployable Program. However, higher caseloads in the Supplemental Security Income program partially offset these savings.

2. The 1987-89 budget, as originally enacted, assumed a federal match rate of 54.82%. The actual federal match rate was set at 53.06% requiring additional state funds to maintain the current funding level. The downward adjustment in the federal match rate was due to changes in the relative level of Washington state personal income versus the rest of the nation.

Provisoes:

None.

89	307.1	139.3	68,866	4,459	2,023	3,744	1,698

FY88 and FY89 appropriation reflects reduced state costs due to an increased federal matching rate. The federal match increases as the state's per capita personal income decreases in relation to the national average.

Unit costs level off in fiscal years 1987, 1988, and 1989 because no grant increases are provided. In addition, there is an offset due to increased child support collections.

Operating Budgets
Income Assistance
AFDC—Employable
Units = Number of Cases

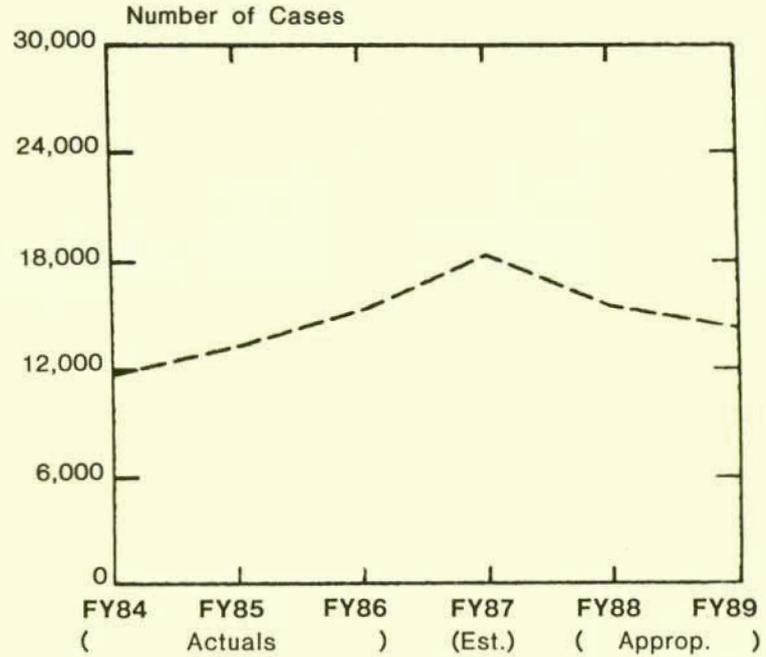

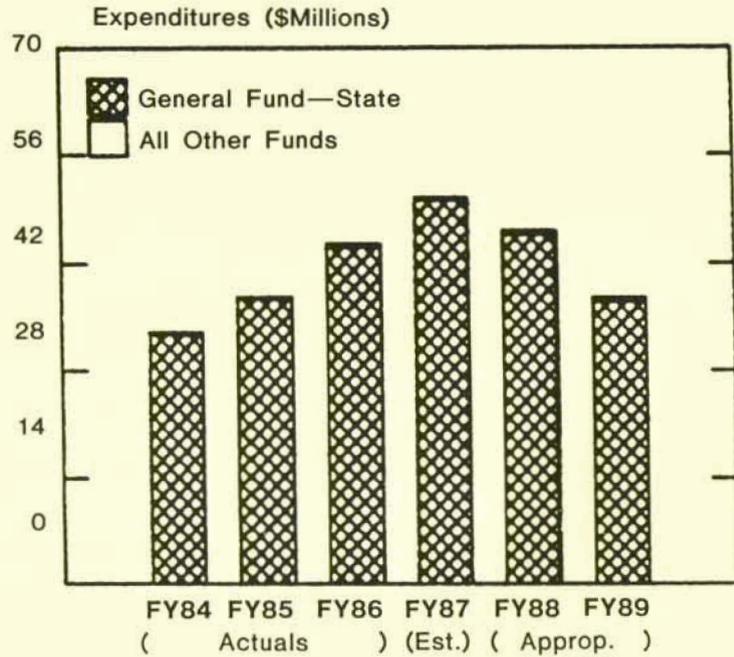

FY	Total \$ (\$Million)	GF-S \$ (\$Million)	Units	Total \$/ Unit	GF-S \$/ Unit	Constant \$/Unit (FY84 IPD=1)

Comments:

1. The Toxics Control Act (otherwise known as "State Superfund") passed during a one day special session appropriating \$710,000 to the Department for monitoring hazardous waste.

2. Engrossed Second Substitute Senate Bill 6221 requires mandatory AIDS education in grades 5-16, creates a comprehensive local AIDS service delivery system and requires mandatory AIDS testing for persons convicted of special crimes. The funds for these services are provided in the public health portion of the budget.

The appropriation for the AIDS program assumes the following distribution:

	State	Federal	Other	Total
Regional Centers	3,835,000	0	0	3,835,000
Education	127,000	0	200,000	327,000

REVISED 1987-89 BIENNIUM TOTAL	356,501	0	517	357,018	355,437	0	517	355,954

Comments:

1. Increases in work release utilization and accelerated release of inmates sentenced prior to the Sentencing Reform Act have resulted in a temporary reduction in inmate population. The housing of up to 900 federal male and female inmates in state prisons will generate \$27.1 million in General Fund--State revenue during 1989-91. Federal inmate census will be reduced as the Washington inmate census increases.

3. Funding for AIDS training for state and local corrections and law enforcement personnel is included in the Department and Social and Health Services supplemental.

4. Funding is included to train community corrections officers in the identification and prevention of child abuse by offenders under their supervision.

6. The Department of Corrections internal savings plan contained numerous proposals to reduce spending without reducing inmate capacity or security. Proposals ranged from reduced administrative cost for personnel services to leaving intern positions vacant.

Other: Substitute House Bill 1333, which increased penalties for sexual offenses against minors and Engrossed House Bill 1424, which requires one year of post-release supervision for offenders convicted of sexual, drug related, or violent crimes will increase Corrections costs beginning in 1989-91.

Provisoes:

Sec. 201 (1) (d). Provides \$100,000 for child abuse prevention training.

Sec. 201 (2) (e). Provides \$200,000 for alleviation of parking problems experienced by McNeil Island Corrections employees.

Continued on next page

Comments:

1. To carry out hazardous waste training for fire fighters.
2. Required state 12.5% match for federal disaster assistance provided after flooding in Clallam, Cowlitz, Jefferson, Lewis Pierce, Snohomish and Wahkiakum counties and in the cities of Snoqualmie and Spokane. This amount is a portion of money appropriated but not spent for disaster assistance during the 1985-87 biennium.
3. Additional technical assistance to Okanogan County for ground water and related planning and permit proposals needed for winter sports facilities development.
4. State's 50% contribution to upgrade and operation of a Mt. St. Helens hydrologic hazard warning system operated by the U.S. Geological Survey.
5. State assistance to the city of Omak and Okanogan County for enhanced surveillance and investigation and related activities needed because of school-related arson. The Department is to make grants based on demonstration of impact by the city and county.

Comments: (continued)

6. Study and report to the Legislature on the impacts, both positive and negative, of state correctional institutions on communities in which they are located.
7. Continuation of Lewis County pilot demonstrations and model vocational education programs.
8. Transfer from the General Fund to the Housing Trust Fund for eligible activities to benefit the homeless.
9. A portion of discretionary federal Low Income Home Energy Assistance Program (LIHEAP) funds are allocated to DSHS (see page 46).
10. Increased home weatherization assistance to low-income families using funds allocated from the state's oil overcharge settlement.

Comments: (continued)

11. The Department is required to spend \$30,000 from within current resources to provide information about protecting people and property from earthquake injury and damage.
12. Under SHB 1389 the Department is directed to make loans to emergency food or shelter programs during the period between when they are appropriated federal funds and when they receive them. All loaned funds will be repaid to the general fund by the end of the biennium. \$10,000 is for administrative costs.

Under the provisions of 2SHB 1835, section 12, the Department shall enhance its services and programs in the Tri-Cities area. Through interagency agreement with the Department of Trade and Economic Development, the Department shall receive up to \$200,000 for this purpose.

Provisoes:

Section 215 (22). The Department is directed to develop an analysis and report on homelessness and self-sufficiency in the manner specified in the version of SHB 1564 passed by the House of Representatives on February 12, 1988.

**DEPARTMENT OF VETERANS AFFAIRS

Comments:

1-4. Administrative Contingency Account funds are appropriated for:

- (a) Expansion of the Washington Service Corps program to include private business internships for disadvantaged youth.
- (b) A computerized labor market database accessible to employers by telephone.
- (c) A study by the Wa. Institute for Public Policy regarding state reliance on the defense industry and ways to mitigate the impact of defense cutbacks.
- (d) Services to agricultural and other employers to mitigate the impact of federal Immigration Reform Act requirements.

5. The balance of the Federal Interest Payment Fund is appropriated as a contingency for use only to mitigate or prevent across-the-board reductions in state government.

Comments: (continued)

6 & 9. The Supplemental Budget includes \$670,000 from the Administrative Contingency Fund-Federal appropriation for transfer to the Department of Trade and Economic Development, which is responsible for designing and implementing several economic development programs. See Legislative Budget Notes 1987-89 Biennium detail for that agency.

8 & 10. 2SHB 1835 appropriates \$1,240,000 from the Administrative Contingency Fund-Federal account for transfer to the Department of Trade and Economic Development, which is responsible for coordinating economic diversification programs in the Tri-Cities. See Legislative Budget Notes 1987-89 Biennium for that agency.

NOTE: "Other" funds include General Fund-Local, Administrative Contingency Fund-Federal, Unemployment Compensation Administration Fund-Federal, Employment Service Administration Account-Federal, and Federal Interest Payment Fund.

Provisoes:

REVISED 1987-89 BIENNIUM TOTAL	509	0	468	977	509	0	468	977

Comments:

1. The Interstate Compact between Washington and Oregon requires an equal contribution from each state for staff and general operations of the Commission. An additional amount was provided in the supplemental to match Oregon's appropriation. The \$46,000 will be used for an additional position to conduct development reviews previously performed by the Forest Service and for citizen involvement in the development of the scenic area plan.

Provisoes:

None.

Comments:

1.-4. In the October 10, 1987 Special Session, the Legislature passed the Toxics Control Act (ESB 6085) appropriating a total of \$40.1 million to the Department of Ecology from various accounts established in the bill. The State Toxics Control Account (STCA) appropriation will be used for hazardous waste cleanup when a responsible party can not be found or is unable or unwilling to perform the cleanup themselves. The STCA will also be used for solid and hazardous waste regulation, planning, and technical assistance programs. The Local Toxics Control Account appropriation is to provide financial assistance to local governments for hazardous waste cleanup as well as solid and hazardous waste programs. The Water Quality Permit Account allows the Department to recover the administrative cost of the water quality permit program by charging permit fees. The Toxics Control Reserve Account appropriation is provided for remedying problems at hazardous waste sites for which a covenant not to sue has been issued.

5. and 8. Administrative funds were inadvertently appropriated in the capital instead of the operating budget. The capital and operating supplemental budget bills were adjusted accordingly.

Comments: (continued)

6. The State Toxics Control Account appropriation was increased based upon a higher than anticipated fund balance being transferred from a previous hazardous waste fee account as required by the Toxics Control Act.

7. The Governor requested that phase two of a study on the long-term care requirements of the low-level nuclear waste disposal site at Hanford be paid for by the Perpetual Maintenance Fund. The Legislature funded the study from the general fund.

9. Since the Hanford Nuclear Reservation is no longer being considered by the federal Department of Energy as a site for the nation's nuclear waste repository, federal funds for studying the site will no longer be spent.

10. The Legislature provided funding to implement various drought relief and water resource measures: ESHB 1594 - Water Use Efficiency study; 2SSB 6513 - Establishing Emergency Water Procedures; and E2SSB 6724 - Water Resource Policy Development.

11. Funds were provided for a project to control the milfoil weed in the Pend Oreille River in conjunction with the Corps of Engineers.

Provisoes:

Section 303 (11). Requires \$392,000 of the Emergency Water Project Revolving Account appropriation be used solely to implement 2SSB 6513 regarding emergency water supply procedures.

Section 303 (12). Requires \$200,000 of the Emergency Water Project Revolving Account be used solely for staff and contract services as mandated in E2SSB 6724 regarding water resource policy development.

Section 303 (13). Provides \$140,000 from the Emergency Water Project Revolving Account to be used solely for a comprehensive state water use efficiency study as required by ESHB 1594.

Section 303 (14). Requires \$20,000 of the general fund - state appropriation and \$100,000 from the existing federal appropriation be used for a grant to Pend Oreille county for controlling milfoil. Ecology is also required to contribute \$75,000 from other appropriate dedicated funds which are available for this purpose. The total project cost when combined with local matching funds must equal a minimum of \$200,000 (item 11.).

Section 303 (15). Provides \$200,000 for the completion of phase two of the site closure and perpetual care report on the Hanford low-level nuclear waste site (item 7.).

REVISED 1987-89 BIENNIUM TOTAL	602	0	78	680	602	0	78	680

Comments:

1. When the 1987-89 capital budget was adopted, the Conservation Commission received an appropriation from the Water Quality Account. Inadvertently, administrative funds were not provided for implementing the grant and loan program. The 1988 supplemental budget made the appropriate adjustment, shifting \$78,000 from the capital to the operating budget, allowing for such administrative costs.

Provisoes:

Section 305 (2). Limits the amount the Commission can spend on grant and loan administration to eight percent of the Water Quality Account moneys administered by the Commission.

DEPARTMENT OF FISHERIES
(\$000)

	1987-89 Governor Request				1987-89 Legislative Final

Comments:

1. Funds start-up costs to convert the current commercial fisheries telephone hotline to a sports and commercial fisheries hotline. Further, the service is converted from a toll free line to caller pay line.
2. The Tilton River project was deleted since a virus precludes effectively reintroducing coho salmon in that area.
3. Funds a fisheries rehabilitation plan for the Stillaguamish River.

Provisoes:

- Section 306 (2).** As mentioned under comment # 2., the proviso requiring the reintroduction of coho salmon to Tilton River and Winston Creek was deleted. Salmon could not be effectively planted in the area because of a virus.
- Section 306 (9).** Specifies \$45,000 GFS may only be used for a 24 hour per day hotline for user groups and individuals to call to obtain information on Department regulations. The Department is authorized to charge fees to recover the cost of operating the hotline.
- Section 306 (10).** Specifies \$125,000 GFS may only be used for developing a salmon and steelhead rehabilitation plan for the Stillaguamish River.

Governor's Vetoes:

The proviso in Section 306 (10) was vetoed (see provisos).

**DEPARTMENT OF WILDLIFE
(\$000)**

Comments:

1. Wildlife Commission support costs related to implementation of HB 758 (establishment of Department of Wildlife by 1987 Legislature).
2. Administrative reorganization related to implementation of HB 758.
3. Costs associated with retirement of an assistant director.
4. Provides funds to pay rewards to persons reporting game violations.

Provisoes:

Section 307 (3). \$36,000 of the Public Safety and Education Account appropriation is provided for transfer to the State Wildlife Conservation Reward Fund to pay rewards. In paying rewards, the Department is to make payments directly to the recipient.

Comments:

1. Funds known, actual costs of fire suppression for FY 88 plus estimated expenses for the remainder of FY 88.
2. Reduces the existing appropriation for the move from the Cherberg building since the Department will not be moving during the 87-89 biennium.
3. Funds are provided to treat 92,000 acres affected by spruce budworm.
4. Provides funds for conducting a feasibility study on the development of a cost allocation system that will allow the Department to accurately account for expenditures within and between management funds.
5. Additional funds and staff to reduce an existing land survey backlog.
6. Increased fertilization, pre-commercial thinning, and forest inventory.
7. Staffing and equipment for pre-sales, marketing, contract administration, and compliance monitoring.
8. Increased staff for land lease audits and on-site administration.

Provisoes:

Section 308 (6). Language appropriating \$100,000 for interim relocation of Department staff from the Cherberg building is deleted. Language requiring the Department to vacate the Cherberg building by February 29, 1988 also deleted. \$439,000 GF-S is provided for spraying to control spruce budworm infestations.

Section 308 (7). \$75,000 from the Resource Management Cost Account appropriation is for a feasibility study, directed at the development of a cost allocation system. The Office of Financial Management and Department of Information Services will assist in the study.

Section 308 (8). The Treasurer is authorized to transfer funds from the general fund or other funds as appropriate, to the Clarke McNary fund to meet unbudgeted forest fire fighting expenses. All amounts borrowed under the authority of this section are to be repaid with interest.

**DEPARTMENT OF AGRICULTURE
(\$000)**

Section 309

	1987-89 Governor Request				1987-89 Legislative Final			
	GF-State	GF-Fed	Other	Total	GF-State	GF-Fed	Other	Total

REVISED 1987-89 BIENNIUM TOTAL	16,102	601	27,475	44,178	16,073	601	27,709	44,383

Comments:

1. The Toxics Control Act (otherwise known as "State Superfund") passed during a one day special session appropriating \$234,000 to the Department for agricultural hazardous waste management programs.
2. The Governor requested funding to continue the aquaculture program in FY 1989. The program had received only partial funding in the 1987-89 budget. The Legislature continues the program, however the supplemental budget amount was reduced from \$81,000 to \$40,000.

Provisoes:

- Section 309 (7).** This subsection was amended to increase the amount provided for the Aquaculture program by \$40,000 (see item 2).
- Section 309 (8).** Specifies \$12,000 GFS be used to implement SSB 6240 regarding wild mushroom harvesting. Annual license fees collected from mushroom buyers and processors will be deposited in the general fund. The fees, estimated to be \$15,570 annually, will more than offset the cost of the data collection program required in the bill. The program is needed to determine whether increased harvesting will deplete the resource.

Comments:

NOTE: Items 1 through 4 are paid for from the general fund in the Governor's request. Items 6 through 9 are similar or identical programs in the legislative budget, but they are paid for from the Administrative Contingency fund in the Employment Security Department, though administered and implemented by the Department of Trade and Economic Development.

1. and 7. A contract with the Washington Research Foundation to increase transfers to Washington Businesses of new technologies developed by state university researchers. The Legislature funded this program at a different level than the Governor.

2. and 8. Contracts with non-profit organizations to set up Washington Marketplace programs based on the Oregon model in two state locations. These programs will encourage local businesses to purchase goods and services produced in Washington.

Comments: (continued)

3. and 9. Implementation of a business and job retention program, including contracts with local organizations for 1) business assessment surveys and assistance and 2) studies of the feasibility of saving plants that have or are in danger of shutting down. The Legislature funded this program at a different level than the Governor.

4. and 10. Technical assistance to business and industrial development companies, contingent on passage of ESSB 6220. Since ESSB 6220 was not adopted, this money will lapse.

5. To support development of a demonstration wood frame housing project in Hyogo Prefecture, Japan, aimed at increasing demand for Washington wood products. No funds for this project were approved by the Legislature.

Comments: (continued)

6. and 11. For economic diversification activities in the Tri-Cities area. Activities include contracting with local organizations for diversification activities and a regional agribusiness development program, coordination of multi-agency efforts in the area, liaison with local governments, the federal government and financial institutions and a study of the potential for using heat from nuclear facilities for industrial uses.

Provisoes:

Section 310 (7). The Department is directed to form an interagency task force on entrepreneurial development.

Section 310 (8). The Department is directed to establish a Washington investment opportunities office to coordinate assistance to entrepreneurs in the state seeking capital.

**WINTER RECREATION COMMISSION

REVISED 1987-89 BIENNIUM TOTAL	0	0	10,416	10,416	0	0	11,956	11,956

Comments:

1. The Washington State Convention and Trade Center (WSCTC) must cover freeway lighting costs under an agreement with the Department of Transportation.
2. Initial expenditures that are part of the WSCTC deficit reduction plan. This plan calls for food, telephone rental, utility and cleaning services to be provided in-house and will increase WSCTC revenues.
3. Increased marketing of WSCTC facilities and services and of the area as a convention site. This portion of the appropriation is contingent on passage of a bill increasing the Seattle/King County special hotel/motel tax to 6% in Seattle and 2.4% in surrounding King County. (Such a bill, SHB 2057, was enacted.) The prohibition in SHB 2057 on borrowing from the Treasury for WSCTC marketing applies only to this portion of the appropriation.

Provisoes:

None.

Comments:

1. \$275,000 to fund six additional forensic scientist positions and \$225,000 for salary increases.
2. Provides funds to continue existing narcotics task forces in the Yakima and Spokane areas that would have otherwise been eliminated due to cutbacks in federal funds.
3. Provides funds to establish a unit with expertise in the investigation of major crimes and to develop a database to store crime scene information.
4. Accounting change for ACCESS fees requires GF-S appropriation.

Provisoes:

- Section 401 (1).** Existing language is deleted and replaced by the following: \$721,000 GF-S is to be spent on crime labs. \$1,000,000 GF-F is provided for crime labs to the extent that federal narcotics monies are provided to the state.
- Section 401 (3).** In addition to monies appropriated in subsection (1), \$500,000 is to be spent on crime labs. \$275,000 is to be used for additional personnel and \$225,000 is to be used for salary increases.
- Section 401 (4).** \$300,000 GF-S is provided to support existing narcotics task forces experiencing decreasing federal support.
- Section 401 (5).** \$300,000 of the GF-S appropriation is provided to establish a separate unit to provide expertise in the investigation of major crimes and assist law enforcement agencies. The Patrol is to develop a database to store crime scene information and make the data available to law enforcement agencies.

Governor's Vetoes:

- Section 401 (5).** Language requiring creation of a separate major crimes investigation unit within the Patrol was vetoed. The Patrol is currently conducting a study to assess the level of assistance and technical expertise that is appropriate for them to provide local law enforcement. Until the study is complete, the Governor felt that no new units should be established.

Comments:

NOTE: Only enhancements from funds appropriated by the Ways and Means Committee are shown. Additional appropriations to the Department of Licensing (DOL) are made by the Legislative Transportation Committee.

1. Enhanced regulation of debenture companies, contingent on passage of SHB 1525. This bill increases fees by an amount sufficient to cover this portion of the appropriation.

2. Registration of federal liens, contingent on passage of ESB 6563. This bill increases fees by an amount sufficient to cover this portion of the appropriation.

3 and 6. Registration and certification of nursing assistants, contingent on passage of ESHB 1530. The bill also contains an additional \$100,000 appropriation for this purpose. The fees generated by the bill will cover both appropriations.

4. Registration and certification of nursing assistants, contingent on passage of EHB 668. This bill increases fees by an amount sufficient to cover this portion of the appropriation.

5. Regulation of camping clubs, contingent on passage of SHB 791. This bill increases fees by an amount sufficient to cover this portion of the appropriation.

7. For certification of dieticians and nutritionists. The bill increased fees by an amount sufficient to cover this

Provisoes:

None.

School Employees' Health Insurance Costs

The supplemental budget provides major new funding for school employees' health benefits, and maintains equity with the benefits rate for state employees. Like the state employees, school district personnel will receive a benefits increase to \$224.75 per month in the second year of the biennium. For school employees, the increase is effective October 1, 1988.

School employees are insured through benefits plans purchased by their local school districts. In many cases premiums were already above the maximum authorized by the state for school district benefits contributions. This caused employees to pay some of the premium costs to maintain full coverage.

The increase is funded by raising the existing state benefits allocation from \$167 to \$224.75 per month for state-funded staff, both in basic education and state categorical programs. Section 514 of the supplemental operating budget appropriates a total of \$31.9 million for school employees benefits increases. In the budget worksheets that follow, this total amount has been allocated to the individual programs where it will be expended.

K-12 Enrollment and Technical Adjustments

The original 1987-89 biennial budget for common schools assumed enrollment growth of approximately 1.4 percent in the first year and 1.2 percent in the second year. Also, the budget assumed that workloads in categorical programs, such as handicapped education and pupil transportation, would increase proportionally to overall K-12 enrollment.

Based on enrollment trends for the first months of the 1987-88 school year, these workload assumptions appeared too low. A new OFM forecast projects growth of approximately 1.8 percent in total K-12 enrollment each year. This equates to an additional .4 percent increase in enrollment in the first year and .6 percent increase in enrollment the second year when compared to the original biennial budget. In addition, categorical program workloads are increasing faster than K-12 enrollment. The number of children ages 3-5 served in pre-school handicapped programs, for example, increased from 5,552 in 1986-87 to an estimated 6,350 in 1987-88. Also, the percentage of students in grades 1 through 12 identified as handicapped increased from 9.3 to 9.4 percent between the 1986-87 and 1987-88 school years.

These changes in enrollment assumptions cost approximately \$21 million in basic education and \$18 million in handicapped education for the 1987-89 biennium, plus additional adjustments in appropriations for pupil transportation, bilingual education, learning assistance, and gifted education. Also, the enrollment increases generate additional state-funded staff and therefore

require adjustments to salary increase appropriations. The supplemental budget also reflects other technical adjustments based upon updated projections of entitlement costs, such as revised forecasts of federal forest funds, local deductible revenues, and staff experience levels, and an unexpected change in small high school entitlement costs in 1987-88.

Comments:

1. In the October 1987 special session, \$9 million was appropriated to fund changes in staff education and experience for school districts which are above the statewide salary allocation schedule for instructional staff.
2. \$1 million was also appropriated in the October 1987 special session to help school districts pay the costs of implementing minimum instructional salaries required by House Bill 455.
3. In the supplemental budget, a revised OFM K-12 enrollment forecast was used, increasing from 731,210 to 733,940 FTE students in 1987-88, and from 739,950 to 746,720 FTE students for the 1988-89 school year.
4. The funding formula for high schools with less than 300 FTE students was increased between the 1986-87 and 1987-88 school years, although no money was included in the original legislative budget for this purpose. The supplemental budget funds the increase for the 1987-88 school year but does not continue the enhanced funding level for the second school year of the biennium.
5. The appropriation for school district emergencies is increased by \$200,000 to provide funds for surveillance of schools due to arson incidents in the Omak area.

Comments: (continued)

6. Other technical adjustments include: July/August 1987 actual costs, increases in Federal Forest funds and other deductible school district revenues, and updated salary information.
7. School districts have requested less funding than originally anticipated for costs of implementing the mandatory minimum salaries for instructional staff.
8. Allocations for health benefits are increased from \$167 to \$224.75 per month for state-funded basic education staff, effective October 1, 1988.

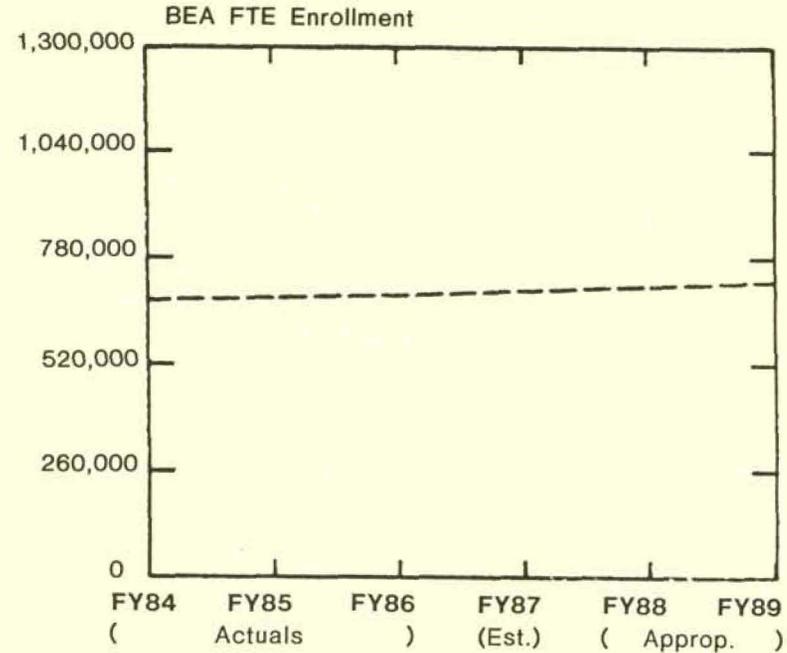

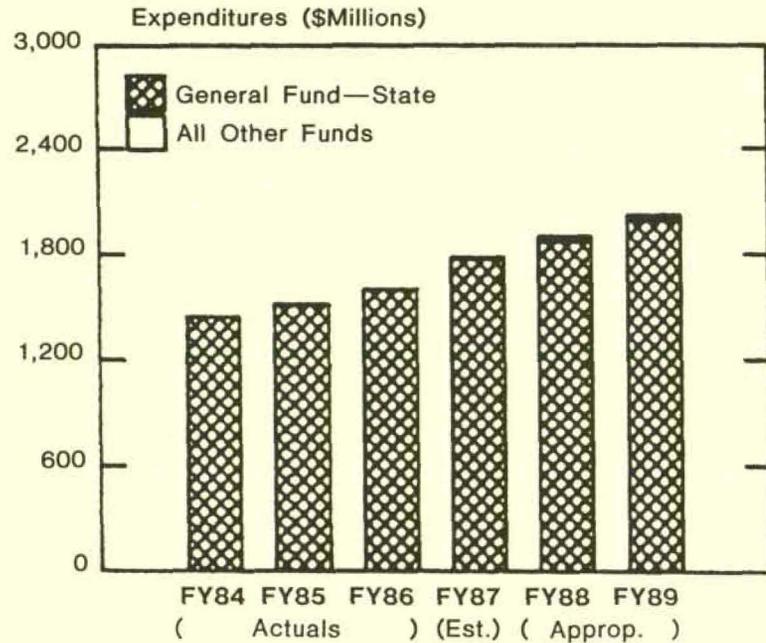

Provisoes:

- Subsection 502 (1).** Decreases the amount itemized for July and August 1987 from \$367,786,000 to \$367,323,000, based on actual entitlement costs.
- Subsection 502 (2)(c)(ii).** Provides an enrollment decline funding factor for school districts affected by the shut-down of a nuclear reactor. Such districts are allocated additional certificated staff based upon half of the number of students lost between the 1987-88 and 1988-89 school years. Districts must meet specific criteria in order to qualify.

Provisoes: (continued)

- Subsection 502 (2)(i).** Returns the 1988-89 small high school funding formula to the formula as it was implemented in the 1986-87 school year.
- Subsection 502 (10).** Revises the factor used to convert school districts' 1989 levy capacity to a "current year" basis. The new factor is 4.93 percent, based upon the increase in the state basic education allocation per pupil between the 1987-88 and 1988-89 school years. The revision is largely attributable to increases in health benefits funding.
- Subsection 502 (12).** Revises restrictions on special funding for remote and necessary island schools located within larger school districts. Instead of the requirement that all such funds be expended for programs to serve students enrolled on the remote islands, the new requirement is that, either on an aggregate or per pupil basis, the school district's expenditures for the remote school must increase at least as fast as the district's expenditures overall.

89	2,018.2	1,990.7	723,414	2,790	2,752	2,342	2,310

Figures for FY84 and FY85 do not include contributions to the teachers retirement system. Vocational staffing ratios were increased from 1:18.3 students in 1985-86 to 1:17.5 in 1986-87 and following years. Staffing ratios for K-3 were increased to 51 certificated staff per 1,000 in 1986-87, 52:1000 in 1987-88, and 53:1000 in 1988-89.

Comments:

1. Handicapped enrollments are increased, based upon actual attendance patterns for the first months of the 1987-88 school year. Projections of the number of students served in special education programs are increased from 70,151 to 71,860 for the 1987-88 school year, and from 70,991 to 73,950 for the 1988-89 school year. The largest revisions occurred in the projections of preschool handicapped enrollment.

2. Other technical adjustments include revised data on salary levels and entitlement costs for July/August 1987.

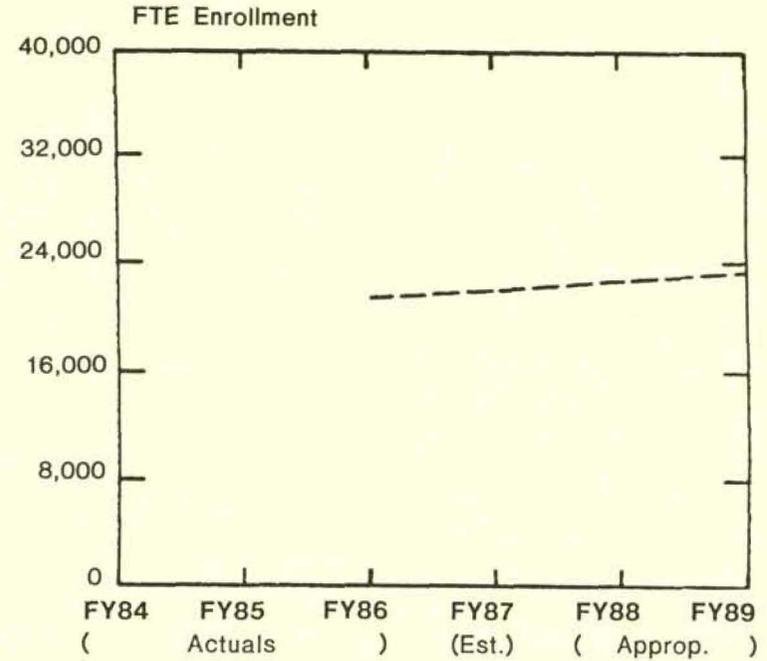

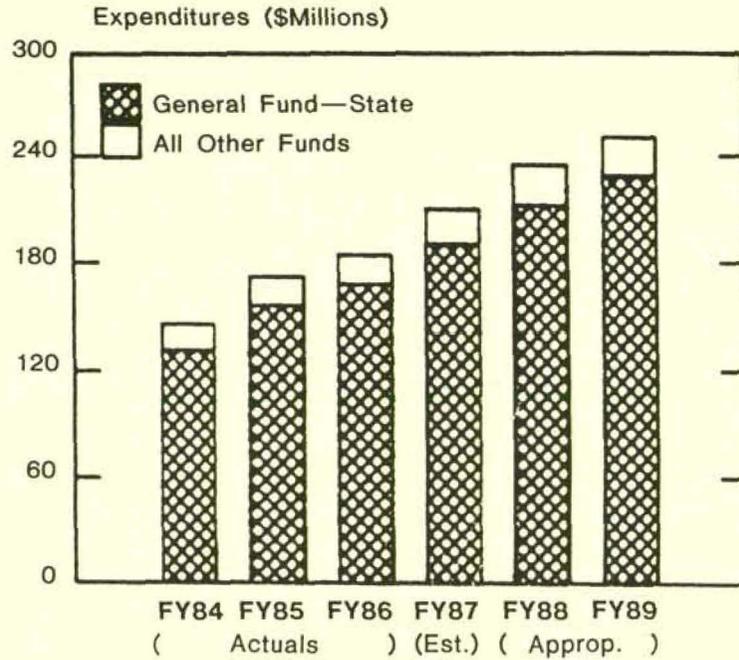

3. The higher enrollment forecasts generate additional staff allocations and therefore additional salary increase costs.

4. Allocations for health benefits are increased from \$167 to \$224.75 per month for state-funded special education staff, effective October 1, 1988.

Provisoes:

Subsection 506 (1). Increases the amount itemized for July and August 1987 from \$41,565,000 to \$41,570,000, based on actual entitlement costs.

**Operating Budgets
Public Schools

Comments:

2. Salary allocations are increased to reflect revised data on actual salary costs from the 1986-87 school year.
3. Grants up to \$25,000 per institution are provided to establish programs involving job search skills, pre-employment training, and job placement at state institutions for delinquent youth.
4. The salary increase adjustment reflects revised allocations needed to fund the percentage salary increases previously authorized by the Legislature.
5. Allocations for health benefits are increased from \$167 to \$224.75 per month for state-funded staff in institutional education programs, effective October 1, 1988.

Provisoes:

Subsection 507 (1). Decreases the amount itemized for July and August 1987 from \$3,577,000 to \$3,462,000, based upon actual expenditures.

Subsection 507 (2). Revises the maximum state funding amounts for the 1987-88 school year, based upon updated salary information. The revised amounts are:

For delinquent institutions—\$3,368,000, distributed at a maximum rate of \$6,112 per FTE pupil.

For delinquent group homes—\$390,000, distributed at a maximum rate of \$3,678 per FTE pupil.

For juvenile parole learning centers—\$733,000, distributed at a maximum rate of \$1,815 per FTE pupil.

For county detention centers—\$2,289,000, distributed at a maximum rate of \$4,471 per FTE pupil.

Subsection 507 (3). Revises the maximum state funding amounts for the 1988-89 school year, based upon the updated salary information. The revised amounts are:

For delinquent institutions—\$3,272,000, distributed at a maximum rate of \$6,116 per FTE pupil.

For delinquent group homes—\$391,000, distributed at a maximum rate of \$3,688 per FTE pupil.

For juvenile parole learning centers—\$730,000, distributed at a maximum rate of \$1,808 per FTE pupil.

For county detention centers—\$2,295,000, distributed at a maximum rate of \$4,482 per FTE pupil.

NOTE: These maximum rates do not include additional funds for salary and benefits increases provided under section 504 and 514.

Provisoes: (continued)

Subsection 507 (4). Decreases the amount available to address enrollment variations and other program needs by \$120,000.

Subsection 507 (6). Earmarks \$120,000 to increase the teacher/student ratio for programs at mentally ill offender units within state delinquent institutions.

Subsection 507 (7). Notwithstanding the maximum overall expenditure limitations for each category of institution, the Superintendent of Public Instruction is authorized to transfer funds between categories of institutions, so long as the maximum per pupil expenditure limitations are not exceeded.

Comments:

1. Workload estimates are revised from 13,400 to 14,646 students per year, based upon actual bilingual enrollments reported by school districts for the first months of the 1987-88 school year.

3. The bilingual enrollment increases generate additional allocations for staff and, therefore, also for salary increases.

4. The health benefits increases are to be funded by increasing the state allocation rate for the 1988-89 school year by \$8.59 per bilingual student.

Provisoes:

Subsection 508 (1). Decreases from \$1,174,000 to \$1,111,000 the amount itemized for July and August 1987, based upon actual entitlement costs.

89	28.3	28.3	76,222	372	372	312	312

The large increases in enrollment in recent years are due to the re-norming of the Basic Skills Test in 1985. The new test shows more students scoring in the lowest quartile when compared to an up-to-date sample of students nationwide. Funding is based on districts' percent in the lowest quartile in the previous five years.

The dollars per unit shown do not match amounts in budget provisos because budget provisos apply to school years—there is a two-month lag from the state fiscal year.

Comments:

1. Effective May 1, 1989, the annual funding rate for vocational-technical institute programs is increased by \$147 per full time equivalent pupil. The purpose of this increase is to assist in the replacement of out-of-date and worn-out equipment used for vocational training.
2. The appropriation for operation of the Washington Institute of Applied Technology is decreased from \$3,000,000 to \$2,700,000, based on start-up delays.
3. The salary increase adjustment corrects the allocations needed to fund the percentage salary increases previously authorized by the Legislature.
4. The health benefits increases are funded by increasing the state allocation rate for the 1988-89 school year by \$35.22 per full-time-equivalent student enrolled in vocational-technical institute programs.

Comments:

1. Reflects actual workload count from the 1987-88 school year, and the projected impact of K-12 enrollment increases on 1988-89 ridership. The Governor's request included a higher estimate of bus depreciation costs.
3. The salary increase adjustment corrects the allocations needed to fund the percentage salary increases previously authorized by the Legislature.
4. The health benefits increase is funded by increasing the state allocation rate for the 1988-89 school year by \$0.48 per weighted pupil-mile.

Provisoes:

- Subsection 513 (1).** Decreases the amount itemized for July and August 1987 from \$20,678,000 to \$20,422,000, based on actual entitlement costs.
- Subsection 513 (2).** Increases the maximum amount provided for operating costs in the 1987-88 school year from \$95,546,000 to \$97,507,000, based on actual workload counts.
- Subsection 513 (5).** Provides a maximum of \$152,000 for transportation of day students to and from the State School for the Deaf and the State School for the Blind. The State School for the Deaf and the State School for the Blind shall contract for transportation services and shall, to the maximum extent feasible, be reimbursed for these costs on the same basis as school district transportation programs.

1987-89 BIENNIUM	87,675	8,199	95,874	87,675	8,199	95,874
1988 SUPPLEMENTAL BUDGET						
1. Salary increase adjustment	(42)	0	(42)	(42)	0	(42)
2. Summer school adjustment	(402)	0	(402)	(402)	0	(402)
Subtotal Supplemental	(444)	0	(444)	(444)	0	(444)
OTHER LEGISLATION						
3. SHB 1640 G. Robert Ross Award	0	0	0	250	0	250
REVISED 1987-89 BIENNIUM TOTAL	87,231	8,199	95,430	87,481	8,199	95,680

Comments:

1. \$12,000 of the salary increase adjustment removes over budgeted social security funds for Teaching Assistants and Research Assistants and \$30,000 is a technical correction to the biennial faculty salary increase appropriation.
2. The summer school adjustment amends the biennial appropriation for summer term to equal the revenues received from summer term tuition fees.
3. The \$250,000 appropriation for the G. Robert Ross Distinguished Faculty Award is designated as matching funds for an equal amount from the Distinguished Professorship trust fund raising the total for the G. Robert Ross Award to \$500,000.

Comments:

2. The \$200,000 for Washington scholars attending private institutions of higher education is an estimated one year cost.
3. The \$250,000 Distinguished Professorship reduction was actually transferred to Western Washington University via an appropriation in HB 1640 for the G. Robert Ross Distinguished Faculty Award.

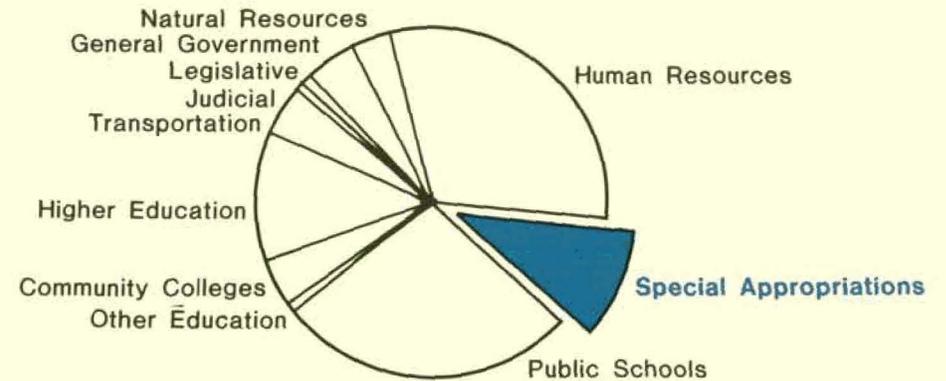

Provisoes:

- Sec. 609 (1).** \$50,000 of the student financial aid appropriation is to be expended for the nursing student scholarship program created by SB 6638, approved by the 1988 Legislature.
- Sec. 609 (5).** \$50,000 of the state general fund appropriation is to be used to fund the expenses of the joint legislative study group on the higher education master plan created by SCR 8429.
- Sec. 609 (6).** The \$200,000 for Washington scholars attending private institutions of higher education is provided in the budget to fund SSB 5558, approved by the 1988 Legislature.
- Sec. 609 (7).** The one minority recruitment staff position is to coordinate the minority student and staff recruitment efforts of the state institutions of higher education. The Board must match the \$30,000 appropriation with an equal amount of non-state funds to support the position. The non-state funds can not be student financial aid funds.

Comments:

"Other Funds" include \$12,383,000 in non-appropriated funds.

1. Provides funds to increase the insurance contribution for state employees from \$167/month to \$224.75/month effective July 1, 1988.

Provisoes:

Section 701 (5). \$246,000 of the Salary and Insurance Contribution Increase Revolving Fund is for salary increases, equal to the percentage increases in section 601 (8) of this act, for faculty and exempt employees of the University of Washington (see page 109 of SHB 1312 for percentage increases).

Section 701 (10). The appropriation for ferry workers in this section is available for salary and benefit increases in accordance with Section 30(4), Chapter 10, Laws of 1987 1st. ex. sess., as amended by the 1988 Legislature.

Comments:

1. Provides funds to the Superintendent of Public Instruction for distribution to school districts to cover additional pension costs resulting from legislation passed during the 1987 session.

2. The appropriation from the Revenue Accrual Account for the 87-89 biennium was \$340,000 more than the actual cash balance of the General Fund transferred to the account at the end of the biennium. The LEOFF appropriation from the Revenue Accrual Account was reduced by \$340,000 to reflect this difference.

Provisoes:

None.

**SPECIAL APPROPRIATIONS TO THE GOVERNOR
(\$000)**

	1987-89 Governor Request				1987-89 Legislative Final			
	GF-State	GF-Fed	Other	Total	GF-State	GF-Fed	Other	Total
1987-89 BIENNIUM	27,207	27,288	5,800	60,295	27,207	27,288	5,800	60,295
1988 SUPPLEMENTAL BUDGET								
1. Everett Homeport	(8,204)	0	0	(8,204)	(8,204)	0	0	(8,204)
Subtotal Supplemental	(8,204)	0	0	(8,204)	(8,204)	0	0	(8,204)
REVISED 1987-89 BIENNIUM TOTAL	19,003	27,288	5,800	52,091	19,003	27,288	5,800	52,091

Comments:

1. The reduced Homeport appropriation is a result of less Homeport development taking place during the '87-89 biennium than was originally expected. Of the amount remaining, \$1.3 million is forecast to be allocated for increased school district costs. This amount is based upon revised Superintendent of Public Instruction estimates of one time costs, including purchase of portables, equipment, textbooks and transportation.

Funds for the Everett Homeport were appropriated to the Office of Financial Management in ESHB 611 passed by the 1987 Legislature. The Governor's proposed budget for the 1987-89 biennium, contained the Homeport funding in the Special Appropriations to the Governor section. For purposes of comparison, the Legislative Budget Notes, 1987-89 Biennium, showed the Everett Homeport funding (ESHB 611) under Special Appropriations to the Governor. This edition of the Budget Notes continues that format. However, the ten page budget summary found in the front of this publication shows Homeport funding adjustment in OFM and not in Special Appropriations to the Governor.
