## **Enrollment Increases**

The amount of \$39.8 million from the state general fund is provided to address increasing enrollment demand. Access to public higher education is expanded to accommodate an additional 6,390 students: 2,190 in the baccalaureate institutions and 4,200 students in the Community and Technical College System (CTCS). Full funding for new enrollments is provided as determined by the Higher Education Coordinating Board. New students at the branch campuses were funded at the rate appropriate for upper division students.

## **Support for Dislocated Workers**

Workforce training enrollment opportunities and financial aid assistance is maintained for up to 7,200 dislocated workers at the community and technical colleges. This support is provided through \$31.3 million of the state general fund and \$26.3 million from the Employment and Training Trust Fund. The general fund resources are provided as a phased replacement of funding from the Employment and Training Trust Fund revenue source which expires on January 1, 1998.

## **Student Financial Aid**

The sum of \$33.2 million from the state general fund is provided to increase student financial aid in the State Need Grant, State Work Study, Educational Opportunity Grant, National Guard Scholarships, Washington Scholars, Award for Vocational Excellence, Work-based Training, and other programs. Additionally, \$2.2 million of the state general fund is provided to replace funding from the Health Services Account in support of Health Professions Scholarships.

## **Accountability Measures**

Two percent of the baccalaureate institutions non-instructional funding (\$10.7 million state general fund) will be held in reserve and may be released by the Higher Education Coordinating Board upon certification that institutions have prepared plans and have met performance goals for student progression and retention, time to degree, faculty productivity, and one additional measure to be developed for each institution. In a similar fashion, \$6.8 million of the Community and Technical Colleges general fund is to be held by the State Board for Community and Technical Colleges until the two-year institutions meet selected performance goals.

## **Tuition Increases**

Under Chapter 403, Laws of 1997 (E2SSB 5927), tuition rates are increased by 4.0 percent in the 1997-98 academic year and an additional 4.0 percent in the 1998-99 academic year. The resulting additional local tuition funds may be used for general educational enhancements or for specially provided optional salary increases described below. Exceptions to the general increase provided at the University of Washington are: 8.3 percent increase in each year for non-resident undergraduates; 7.3 percent in each year for resident law students; and 6.7 percent in each year for non-resident law students. Of the tuition revenue generated by these special increases in excess of a 4 percent tuition rate increase, 10 percent of those additional revenues shall be used to assist needy low- and middle-income resident students.

## **Cost-of-Living Increase**

Higher education classified employees will receive a cost-of-living increase of 3 percent effective July 1, 1997. Higher education faculty, exempt staff, and other special salary classifications will receive an average 3 percent cost-of-living increase effective July 1, 1997. The flexibility provided for these classifications is to provide for locally determined, merit-based salary increases.

**Faculty Retention Pool**

The state's four-year institutions will receive \$4.0 million state general fund to recruit and retain faculty. In addition, the four-year institutions are given the optional authority to provide an average 1 percent pay increase in 1997 and an additional 2 percent pay increase in 1998 to faculty and exempt staff. Funding for these optional increases is available either through the authorized tuition rate increases or through locally identified efficiencies. These pay increases are in addition to the general cost-of-living increase.

**Community College Part-Time Faculty Pay Disparity**

The Community and Technical Colleges are instructed to address the part-time faculty pay disparity by applying up to \$7.7 million of the authorized tuition rate increases as salary enhancements. The amount each college applies to pay disparity issues will be based on local situations, but a minimum of \$2.9 million must be expended for part-time salaries or hiring additional full-time faculty. In addition, the State Board is authorized to use non-restricted funds from the base allocation to equalize pay disparities for full-time faculty among the various community and technical colleges.

**Replacement of Health Services Account**

In addition to the general fund support of the Health Professions Scholarship described above, \$3.3 million of the state general fund was provided for training of primary care providers and \$4.9 million of the state general fund was provided for health benefits for graduate teaching and research assistants. This funding is provided to maintain these programs and benefits in the face of a shortfall in the Health Services Account.

1. **CAMPUS DEVELOPMENT** - Funding is adjusted to reflect gross expenditures pursuant to State Auditor findings. The Joint Center for Higher Education (JCHE) must identify the gross, rather than the net, amount of revenue from its leased properties and the management expenses to maintain those properties. In addition, an increase in expenditures for Riverpoint Campus improvements (street, parking, and utility improvements, environmental studies, etc.) is supported by an increase in revenue from grants and fund reserves. (Dedicated Local Account-Non-Appropriated)

3. **LOCAL FUND/GRANT ACTIVITY INCREASE** - Funding is provided for grants, personal service contracts, and additional FTE staff authority for student interns and temporary staff during the 1997-99 biennium. This funding represents the last two years of a \$15 million federal grant. The total FTE staff supported by grant activity will be reviewed in the next biennial budget to ensure continued grant and local fund support for the allotted FTE staff. (Grant and Contract Account-Non-Appropriated, Dedicated Local Account-Non-Appropriated)
4. **GENERAL INFLATION** - Agencies are required to find sufficient efficiencies in their operations to cover the cost of inflation in the goods, services, and supplies needed for performance of their mission.
5. **BUILDING MAINTENANCE** - Funds are provided for increased costs of building and grounds maintenance due to termination of contractual services.
