

Human Services

The Human Services section is separated into two sections: the Department of Social and Health Services (DSHS) and Other Human Services. The DSHS budget is displayed by program division in order to better describe the costs of particular services provided by the Department. The Other Human Services section displays budgets at the departmental level and includes the Department of Corrections, the Department of Labor and Industries, the Employment Security Department, the Health Care Authority, the Department of Health, and other human services related agencies.

Human Services

Department of Social & Health Services

Children and Family Services

Total funding for children and family services increased by \$42 million (4.4 percent) over the level originally budgeted for the 2005-07 biennium. Most of this increase (\$30.1 million total funds) is due to higher per person costs for adoption support and foster care services than originally budgeted. These higher per person costs are partially offset by a savings of \$9.6 million in total funds from lower caseloads than assumed in the original budget.

The Children's Administration continues to work with the Braam Oversight Panel to establish benchmarks and achieve outcomes in areas related to placement safety and stability, mental health, foster parent training, sibling separation, and services to adolescents. The budget provides the following funding increases to support a number of these goals:

- \$5.8 million in state funding to phase-in an additional 200 child welfare workers toward achieving the goal of face-to-face contact with children, parents, and/or caregivers every 30 days, for both in-home services and out-of-home placements.
- \$3.8 million in state funding for a new statewide-automated child welfare information system (SACWIS), which is expected to improve the Department of Social and Health Services' (DSHS) ability to report on Braam-related outcomes.
- \$1.0 million in state funding for legislation that expands services to foster parents and children. Chapter 266, Laws of 2006 (2SHB 2002), extends foster care eligibility to age 21 for an additional 50 youths per year who pursue post-secondary education. Chapter 353, Laws of 2006, Partial Veto (2SHB 3115), establishes a statewide foster parent recruitment and retention program, involving in-home training for foster parents who care for sexually and physically aggressive youth.
- \$0.9 million in state funds for costs associated with supervised visitation, which can allow the parent to demonstrate parenting skills and expedites permanency.
- \$0.3 million in state funding for costs associated with placement evaluations, which assist in preventing out-of-home placements, making appropriate out-of-home placements, or implementing a permanent plan.

Juvenile Rehabilitation Administration

The supplemental budget provides \$0.3 million for enhanced staffing to support juvenile offenders residing in mental health living units at Echo Glen Children's Center and Maple Lane School.

Mental Health

State funding for the public mental health system is increased by \$54.8 million (7.3 percent). Major increases include:

- \$33 million (\$30.8 million state) to begin a comprehensive transformation in the delivery of public mental health services for people with severe and persistent mental illness. Core components of the strategy include opening five additional wards at Eastern and Western State Hospitals on a temporary basis, at a cost of \$29 million this biennium and \$31 million next; and providing \$3.2 million this biennium for initial development of new community program approaches which, when fully operational next biennium, will cost approximately \$34 million, and will permit phased closure of the wards that are being opened this biennium. Other elements of the system transformation include development of a plan for expanding community housing options for people with persistent mental illness; development of a utilization review system to assure people receive appropriate levels and duration of inpatient care; a comprehensive review

of the state's involuntary commitment statute and system; and a study of alternative approaches to establishing Medicaid managed care rates, with particular emphasis upon approaches that emphasize defined benefits levels and risk adjustment.

- \$22.2 million (\$11.2 million state) to increase Medicaid managed care payments for community mental health services. Regional Support Network's (RSNs) whose rates are above the statewide average will receive a 3.5 percent rate increase. RSNs whose rates are below the current statewide average will be increased to that average.
- \$2.0 million (state) to satisfy a judgment in a lawsuit brought by Pierce County charging that DSHS had illegally denied prompt state hospital admission of persons committed for long-term treatment and had inappropriately charged the Pierce RSN for excessive use of the state hospitals.
- \$1.8 million (\$1.3 million state) to increase staffing in the criminal offender unit at Eastern State Hospital.

Developmental Disabilities

2006 supplemental state and federal spending on the Developmental Disabilities Medicaid Personal Care (MPC) program total \$345 million for the biennium, 3 percent less than budgeted under the 2005-07 enacted budget. This is \$10.9 million in total funds and \$5.7 million in state funds lower than the 2005-07 enacted budget, primarily due to a lower caseload of children eligible to receive MPC services than originally anticipated. In total, a biennial average of 11,400 adults and children are expected to be eligible for MPC services during the 2005-07 biennium.

A total of \$1.2 million in state and federal funding is provided for an additional 19 persons needing community residential and support services. Seven additional clients will be served in the community protection program, and priority consideration for the remaining 12 placements shall be for children with high behavior needs aging out of state services; clients who are in crisis or immediate risk of needing an institutional placement; and residents of state institutions who have chosen to move to a community setting.

The sum of \$1.1 million is provided to extend employment and day services to approximately 250 additional clients. Priority consideration for this new ongoing funding will be young adults living with their families who need employment opportunities and assistance after high school graduation.

A rate increase is provided for supported living providers of 15 cents per hour for King County providers and 12 cents per hour for all other providers. A total of \$1.9 million in state and federal funding is provided for this enhancement.

A total of \$1.4 million in state and federal funding is provided to add 14 case resource managers and related support staff in fiscal year 2007 for more timely distribution of programs to clients waiting for services, including Medicaid Personal Care, family support, and other programs. Half of the caseworkers will be devoted to accelerating the implementation of the Mini-Assessment tool to clients who are currently not receiving paid services.

Long-Term Care

A total of \$2.6 billion is appropriated for DSHS to provide long-term care services to an average of 49,600 elderly and disabled adults per month. This is \$320 million (14 percent) more than was expended on such services last biennium and \$93 million (3.7 percent) more than was originally budgeted for the 2005-07 biennium.

The 2006 supplemental budget contains a number of adjustments to long-term care provider payment rates, including:

- \$20.2 million to increase nursing facility payment rates in accordance with Chapter 258, Laws of 2006 (EHB 2716);
- \$2.3 million to provide boarding homes and adult family homes with a 1 percent vendor rate increase in addition to the 1 percent annual vendor rate increases provided in the initial budget;
- \$2.0 million to increase payments for assisted living facilities that meet certain criteria; and

- \$1.5 million to restore a reduction to Area Agency on Aging (AAA) services included in the original budget and to provide AAAs with the same 1 percent annual vendor rate increase as was provided in the original budget for most other health and human services contractors.

In addition, a total of \$11.3 million is provided to implement Chapter 9, Laws of 2006 (SHB 2333), which requires that home care agency payment rates include all of the same wage and benefit increases as are awarded to individual home care providers through collective bargaining or binding arbitration. The Department's contribution rate for health care benefits, including medical, dental, and vision benefits, will be paid to agency providers of home care services at the same rate as negotiated and funded for individual providers, increasing monthly premium payments from \$413 per eligible worker to \$532 per eligible worker in fiscal year 2007. In addition, monthly premium payments for fiscal year 2006 are increased from \$380 per eligible worker to \$449 per eligible worker.

The 2006 supplemental budget also appropriates a total of \$15 million to settle a lawsuit between DSHS and nursing home contractors. The disbursement of these funds is contingent upon the plaintiff's release of all claims in the case.

Economic Services Administration

A total of \$51 million is provided to balance WorkFirst (Washington's program for Temporary Assistance to Needy Families and Working Connections Child Care), a state and federally-funded program managed by the Governor. The Governor requested a 2005 workgroup to re-examine the WorkFirst program, which has a \$106 million deficit for the 2005-07 biennium and to provide recommendations to balance the program. In addition to the use of \$20 million in resources from federal incentives and other one-time sources, the Governor expects to implement portions of the workgroup's recommendations by making \$36 million in reductions through various efficiencies, caseload reductions, and full-family sanctions. Child care is unaffected. A total of \$50.5 million in new state funds is provided to balance the remaining shortfall. An additional \$0.7 million is provided due to a delay in implementation of full-family sanctions until March 1, 2007.

A total of \$1.5 million is provided to supplement existing state and federal funds dedicated to limited English proficiency services, which assist public assistance-eligible refugees and others who have a limited ability to speak English by providing specialized job training, English-as-a-Second-Language classes, and other services.

Medical Assistance Administration

State and federal spending on the Medical Assistance program is now budgeted to total \$7.7 billion for the biennium. This is \$58 million (0.8 percent) less than previously budgeted.

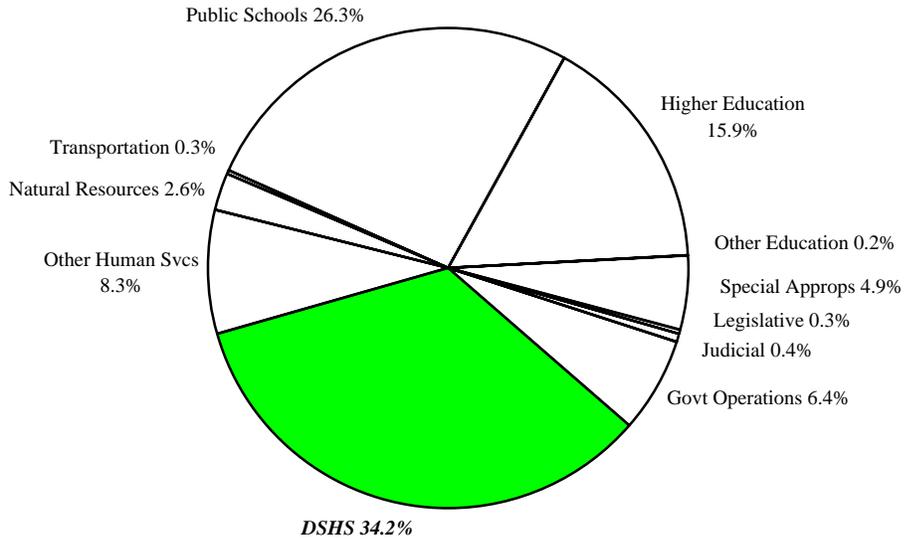

The primary reason for the reduced expenditure is that caseloads are growing more slowly than previously projected. A biennial average of 915,000 low-income persons per month are now expected to receive medical and dental care through the program. This is 2.2 percent less than the average of 936,000 people per month anticipated in the original biennial budget.

The savings from slower caseload growth are largely offset by higher medical cost inflation, and by two significant program enhancements. Medical costs per person covered are now projected to increase by an average of about 3.6 percent per year, rather than by the average of about 3.3 percent per year anticipated in the original biennial budget. Significant program enhancements include:

- \$18.2 million in state funds to cover the co-payment costs that 100,000 elderly and disabled Washingtonians whose drug costs were previously covered in full by the state Medicaid program are now being charged under the new federal Medicare Part D program.
- \$7.3 million in state funds to increase the number of children enrolled in the Immigrant Children's Health Program to 13,000 in July 2006 and to 14,000 in October 2006. The program currently provides medical and dental care for 4,300 children whose family incomes are below the poverty level but who are not eligible for Medicaid because of their immigration status.

|--|--|
| <p>1. Transfers - Expenditures funded from the Public Safety and Education Account are transferred to the Violence Reduction and Drug Enforcement Account. (Public Safety and Education Account-State, Violence Reduction and Drug Enforcement Account-State)</p> | <p>the forecasted costs of supervised visitation for FY 2007. Supervised visitation helps to maintain the parent-child and sibling relationships when safe to do so, allows the parent the opportunity to demonstrate parenting skills, and expedites permanency. (General Fund-State, General Fund-Federal)</p> |
| <p>2. Pension Plan 1 Unfunded Liabilities - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)</p> | <p>6. Replace Child Welfare Info System - Funding is provided for a new information system to replace the legacy-based Case Management Information System (CAMIS). The Department will select a statewide automated child welfare information system (SACWIS), hire an implementation vendor, and perform initial implementation work. Successful implementation of a proven SACWIS is expected to support Child Protective Services (CPS) and Child Welfare Services (CWS) reform efforts by improving the quality and accessibility of case and contract data, including outcome measures. (General Fund-State, General Fund-Federal)</p> |
| <p>3. Lease Rate Adjustments - Funding is provided to bring the Children's Administration's allotments for leases into alignment with actual costs. (General Fund-State, General Fund-Federal)</p> | <p>7. Foster Care to Age 21 Pilot - Funding is provided to continue foster care and support services to age 21 for up to 50 youths annually who enroll in post-secondary education pursuant to Chapter 266, Laws of 2006 (2SHB 2002).</p> |
| <p>4. Placement Evaluations - Funding is provided for an increase in the forecasted costs of placement evaluations. These psychiatric and psychological evaluations for children and/or parents assist in preventing out-of-home placements, making appropriate out-of-home placements, and developing and implementing permanency plans. (General Fund-State, General Fund-Federal)</p> | <p>8. Family Planning Services - Funding is provided to increase access to family planning services in the Department of Social and Health Services' (DSHS') Community Service Offices (CSOs). Funds will be used to: 1) provide family planning information and referral to persons involved with CPS or CWS; 2) increase the availability of family planning nurses and health</p> |
| <p>5. Supervised Visitation - Funding is provided for an increase in</p> | |

Department of Social and Health Services Children & Family Services

educators at CSOs to full time; and 3) increase the hourly rate for CSO-based family planning contracts by up to 5 percent. Resources will be prioritized to those areas where pregnancy rates are higher than the statewide average. (General Fund-State, General Fund-Federal)

9. **Home Care Agency Parity** - Chapter 9, Laws of 2006 (SHB 2333), requires DSHS to increase home care agency payment rates to reflect the cost of all hourly wage and benefit increases that are negotiated and funded on behalf of individual providers of home care services. This item includes funding for hourly wage, vacation leave, seniority pay, and workers' compensation increases. It also includes funding to increase the state's contribution for agency worker medical benefits from the \$413 per eligible worker per month FY 2007 rate included in the original budget to the \$532 per eligible worker per month rate funded under the individual provider collective bargaining agreement. Monthly medical premium rates for FY 2006 are increased from \$380 per eligible worker to \$449 per eligible worker. (General Fund-State, General Fund-Federal)
10. **Children's Advocacy Centers** - Additional funding is provided for Children's Advocacy Centers. Children's Advocacy Centers provide a team response to allegations of child abuse that includes forensic interviews, medical evaluations, therapeutic intervention, victim support/advocacy, case review, and case tracking.
11. **Child Welfare 30-Day Visits** - Funding is provided to phase in an additional 200 child welfare services staff by the end of FY 2007 toward achieving the goal of face-to-face contact with children, parents, and/or caregivers every 30 days for both in-home services and out-of-home placements. This funding supports the goals of the Federal Program Improvement Plan, the Braam Lawsuit settlement agreement, and recent child fatality review recommendations. (General Fund-State, General Fund-Federal)
12. **Continuum of Care Region 1** - Funding is provided for Continuum of Care in Region 1. Continuum of care is an early intervention alternative response system for low-risk families offered by contracted service providers. (General Fund-State)
13. **Foster Parent Critical Support** - Funding is provided to implement a statewide foster parent recruitment and retention program for children who act out sexually and/or physically as provided in Chapter 353, Laws of 2006, Partial Veto (2SHB 3115 - Foster Parent Critical Support).
14. **Safe Havens Supervised Visitation** - One-time funding is provided for the Supervised Visitation and Safe Exchange Center in Kent.

Fiscal Year 2007 Total	471,669	275,453	747,122

Comments:

- Increased Defender Costs** - Funding is provided for increased King County defender costs for Civil Commitment. King County Superior Court ordered the Department of Social and Health Services (DSHS) to increase its defender rates for special commitment cases by \$20.65 per hour for attorneys and \$16 per hour for paralegals and investigators effective January 1, 2006.

resulting from implementation of collective bargaining agreements and personnel rules. (various funds)
- Spokane County Lawsuit** - Funding is provided to settle a claim by the Spokane County Regional Support Network (RSN) regarding costs incurred on behalf of clients who may have been incorrectly denied Medicaid coverage during initial implementation of the Temporary Assistance for Needy Families program during the late 1990's. The RSN contends that because these individuals were not on Medicaid, it was incorrectly denied state and federal funding for their care. A related lawsuit by many of the state's hospitals was settled several years ago.
- Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
- Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications
- Pierce County Lawsuit** - Funding is provided to comply with and satisfy the final court order and judgment in the *Pierce County v. State of Washington* lawsuit.
- Allen Lawsuit Settlement** - Funding is provided for additional staff training and support for people with developmental disabilities during their treatment in the state psychiatric hospitals. This additional programming is expected to result in resolution of a lawsuit first filed in 1999 that challenged the constitutional adequacy of the care previously provided such individuals.
- Evidence-Based Children's MH Pilots** - Funding is provided for the Mental Health (MH) Division, in collaboration with the Children's Administration and the Juvenile Rehabilitation Administration, to establish a pilot program to provide evidence-based mental health services to children. The mental health service or services to be provided under the pilot program must be selected from a list of evidence-based service options developed by the Department, in consultation with a broadly representative group of individuals with expertise in children's mental health. The program site or sites will be selected through a request for proposal process, open to counties or groups of counties, and will be operational by December 2006.
- Personal Needs Allowance Increase** - Funding is provided to increase the personal needs allowance by 4 percent, from

Department of Social and Health Services Mental Health

\$51.62 per month to \$53.68 per month, for an average of 11,100 publicly-funded clients residing in institutional settings, including residents of nursing facilities, residential habilitation centers, and state mental hospitals. Institutionalized clients who receive a state supplemental payment (SSP) to their social security income in lieu of a personal needs allowance will receive a commensurate \$2.06 per month increase in their SSP benefit. (General Fund-State, General Fund-Federal)

Other elements of the system transformation include: preparation of a plan for expanding community housing options for people with persistent mental illness; development of a utilization review system to assure people receive appropriate levels and durations of inpatient care; a comprehensive review of the state's involuntary commitment statute and system; and a study of alternative approaches to establishing Medicaid managed care rates, with particular emphasis upon approaches that emphasize defined benefits levels and risk adjustment. (General Fund-State, General Fund-Federal, General Fund-Private/Local)

12. **Forensic Admission Staff (ESH)** - Funding is provided for increased staffing and operating costs on the forensic admissions ward at Eastern State Hospital (ESH). The forensic admissions wards evaluate criminal defendants for competency to stand trial and provide short-term treatment aimed at competency restoration. ESH admissions for such services are consistently exceeding budgeted capacity. (General Fund-State, General Fund-Federal, General Fund-Private/Local)

9. **RSN Allocation Increases** - Funding is provided to improve the quality and availability of community mental health services and to assure more equitable access to such services statewide. In FY 2007, non-Medicaid funds are to be distributed proportional to total population in each RSN region. Medicaid payment rates are increased to the statewide average for those RSNs whose rates would otherwise be below that level and by 3.5 percent for those RSNs whose rates are above the current average. Additional state funds are provided to assure that no RSN receives less total funding next year than this year. Statewide, total RSN funding is increased by \$34.6 million, or 9.1 percent, in FY 2007. (General Fund-State, General Fund-Federal)

10. **System Stabilization Grants** - Together with funds available in the base appropriation level, funding is provided to:
1) refund 50 percent of the "liquidated damages" that were charged RSNs from FY 2002 to FY 2005 for using more than their allocated amount of state hospital services; 2) provide \$750,000 of grants to offset uncompensated care costs for hospitals that no longer qualify for federal funds for that purpose because of federal Medicaid restrictions; and 3) provide a one-time start-up grant for a nonprofit home for women recovering from mental illness.

11. **System Transformation Initiative** - Funds are provided to begin a comprehensive transformation in the delivery of public mental health services for people with severe and persistent mental illness. As provided in Chapter 333, Laws of 2006 (2SSB 6793), the strategy: clearly defines state hospital and RSN responsibilities with regard to people who require short- and long-term care; emphasizes the use of evidence-based practices; funds the phased-in development and ongoing support of community-based alternatives to state psychiatric hospitalization; links the receipt of community funding to achievement of negotiated performance objectives; holds RSNs accountable for managing state hospital admissions and discharges within established bed allocation targets; and holds the state hospitals accountable for admitting people who need intensive long-term care on a timely basis, and for effectively supporting their recovery and return to the community. Core components of the strategy include: opening five additional wards at Eastern and Western State Hospitals on a temporary basis, at a cost of \$29 million this biennium and \$31 million next biennium; and providing \$3.2 million this biennium for initial development of new community program approaches, which when fully operational next biennium will cost approximately \$34 million and will permit phased closure of the wards that are being opened this biennium.

Comments:

- 1. Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
- 2. Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications resulting from implementation of collective bargaining agreements and personnel rules. (various funds)
- 3. Community Protection** - Funding is provided for community residential and support services for a minimum of 7 clients, which brings the total number of new clients served during the 2005-07 biennium to 42 clients. New placements will serve clients who are: 1) being diverted or discharged from state psychiatric hospitals; 2) participants in the Dangerous Mentally Ill Offender Program; 3) participants in the Community Protection Program; or 4) mental health crisis diversion outplacements. In order to increase the number of clients served and ensure the cost effectiveness of the waiver programs, the Department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds, provided the total projected carryforward expenditures do not exceed those currently projected. (General Fund-State, General Fund-Federal)
- 4. Home Care Agency Parity** - Chapter 9, Laws of 2006 (SHB 2333), requires the Department of Social and Health Services to increase home care agency payment rates to reflect the cost of all hourly wage and benefit increases that are negotiated and funded on behalf of individual providers of home care services. This item includes funding for hourly wage, vacation leave, seniority pay, and workers' compensation increases. It also includes funding to increase the state's contribution for agency worker medical benefits from the \$413 per eligible worker per month FY 2007 rate included in the original budget to the \$532 per eligible worker per month rate funded under the individual provider collective bargaining agreement. Monthly medical premium rates for FY 2006 are increased from \$380 per eligible worker to \$449 per eligible worker. (General Fund-State, General Fund-Federal)
- 5. Additional Case Management Support** - Funding is provided for an additional 14 case resource managers and related support staff in FY 2007 to assist the Division of Developmental Disabilities in areas where additional case worker staff is necessary to speed up referral to existing entitlement programs or distribution of resources to clients waiting for services. This may include expediting assessments to move eligible clients to Medicaid Personal Care and assisting clients in accessing current family support resources. Half of the new resources provided are dedicated to accelerating the implementation of the mini-assessment tool on clients who are not receiving paid services. (General Fund-State, General Fund-Federal)
- 6. Licensed Professional Services** - Funding is provided for DSHS to continue to offer licensed professional services,

Department of Social and Health Services Developmental Disabilities

including dental services, medical and nursing services, psychology and behavioral services, and rehabilitative services, at the state Residential Habilitation Centers (RHCs) to clients who are served in community settings.

non-waiver clients. Federal funds may be used to enhance this funding to the extent that clients are already receiving services from a home- and community-based waiver program. (General Fund-State, General Fund-Federal)

7. **Personal Needs Allowance Increase** - Funding is provided to increase the personal needs allowance by 4 percent, from \$51.62 per month to \$53.68 per month, for an average of 11,100 publicly-funded clients residing in institutional settings, including residents of nursing facilities, RHCs, and state mental hospitals. Institutionalized clients who receive a state supplemental payment (SSP) to their social security income in lieu of a personal needs allowance will receive a commensurate \$2.06 per month increase in their SSP benefit. (General Fund-State, General Fund-Federal)
8. **Boarding Home Rate Increase** - Funding is provided for a 1.0 percent vendor rate increase to boarding home payment rates, effective July 1, 2006. (General Fund-State, General Fund-Federal)
9. **Adult Family Home Rate Increase** - Funding is provided for a 1.0 percent vendor rate increase to adult family home payment rates, effective July 1, 2006. (General Fund-State, General Fund-Federal)
10. **Expand Community Services** - Funding is provided for community residential and support services for a minimum of 12 clients, which brings the total number of new clients served during the 2005-07 biennium to 51. Priority consideration for these placements shall be as follows: 1) children who are aging out of other state services; 2) clients without residential services who are in crisis or immediate risk of needing an institutional placement, including individuals who are living with aging parents who are no longer able to care for their children; 3) current waiver clients who have been assessed as having an immediate need for residential support services; and 4) residents of RHCs who are able to be adequately cared for in community settings and who choose to live in those settings. In order to increase the number of clients served and ensure the cost effectiveness of the waiver programs, the Department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. Money not spent on new clients may be used to cover service costs of existing waiver clients, including the costs of employment and day services. In addition, if excess funds are available, additional clients may be served as long as the total projected carryforward expenditures do not exceed those currently projected. (General Fund-State, General Fund-Federal)
11. **Expand Employment and Day Services** - Funding is provided for additional employment and day services to approximately 250 clients with developmental disabilities. Priority consideration for this new ongoing funding will be young adults with developmental disabilities living with their families who need employment opportunities and assistance after high school graduation. Services will be provided for both home- and community-based waiver program clients and
12. **Supported Living Rate Increase** - Funding is provided for a rate increase for supported living providers of 15 cents per hour for King County and 12 cents per hour for all other counties with appropriate benchmark adjustments to the administrative portion of the rate. (General Fund-State, General Fund-Federal)

⁽¹⁾ Funded capacity at the Residential Habilitation Centers from FY 2000 through FY 2003 was 1,231 clients.

⁽²⁾ Includes Alternate Living (clients served), Group Homes, intermediate care facilities for the mentally retarded (IMRs), Tenant Support (clients served), and State-Operated Living Alternatives (SOLA).

⁽³⁾ Family Support includes Children's Medicaid Personal Care (non-waiver). Data was recast for FY 2001 forward to include only non-waiver children receiving Medicaid Personal Care. Waiver Personal Care for children is included in Adult Personal Care as of FY 2001.

⁽⁴⁾ Adult Personal Care includes Medicaid Personal Care, Chore Services, and Waiver Personal Care. Prior to FY 1990, Developmental Disabilities' clients enrolled in these programs were counted in the Long-Term Care program totals. As of 2004, Waiver Personal Care for both children and adults are included since personal care on the waiver was not separately identified for these groups.

Comments:

- 1. Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
- 2. Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications resulting from implementation of collective bargaining agreements and personnel rules. (various funds)
- 3. AAA Funding Increase** - The state contracts with Area Agencies on Aging (AAAs) to provide case management and nurse oversight for persons who receive in-home care services. Funding is provided in FY 2007 to restore the 3.75 percent reduction to such services that was included in the initial 2005-07 budget. Funding is also provided for a 2.01 percent inflationary vendor rate increase, effective July 1, 2006. The initial 2005-07 budget excluded AAAs from receiving the 1.0 percent annual vendor rate increases that were provided for most other health and human services contractors. (General Fund-State, General Fund-Federal)
- 4. Assisted Living Facility Payments** - Effective July 1, 2006, in accordance with Chapter 260, Laws of 2006 (ESHB 2925), the Department of Social and Health Services (DSHS) will provide capital add-on rates to assisted living facilities that have a minimum Medicaid occupancy percentage of 60 percent or greater. Managed care clients will be included in the calculation of Medicaid occupancy. (General Fund-State, General Fund-Federal)
- 5. Supplemental Assisted Living Rates** - One-time funding is provided in FY 2006 for payments to any assisted living facility licensed under Chapter 18.20 RCW on January 25, 2002, which serves 20 or more clients participating in the program for all-inclusive care. (General Fund-State, General Fund-Federal)
- 6. Kinship Caregiver Support Program** - Funding is provided to the AAAs, or entities with which AAAs contract, to provide support services through the kinship caregiver support program for grandparents and other informal kinship caregivers of children throughout the state.
- 7. Home Care Agency Parity** - Chapter 9, Laws of 2006 (SHB 2333), requires DSHS to increase home care agency payment rates to reflect the cost of all hourly wage and benefit increases that are negotiated and funded on behalf of individual providers of home care services. This item includes funding for hourly wage, vacation leave, seniority pay, and workers' compensation

Department of Social and Health Services Long-Term Care

- increases. It also includes funding to increase the state's contribution for agency worker medical benefits from the \$413 per eligible worker per month FY 2007 rate included in the original budget to the \$532 per eligible worker per month rate funded under the individual provider collective bargaining agreement. Monthly medical premium rates for FY 2006 are increased from \$380 per eligible worker to \$449 per eligible worker. (General Fund-State, General Fund-Federal)
8. **Loss of Eligibility - AEM Prog** - State funds are provided to continue nursing home care for 34 very low-income adults who are not eligible for Medicaid because of their immigration status. Care for these individuals was previously funded through the Medicaid Alien Emergency Medical (AEM) Program, but that coverage has been discontinued because their conditions do not qualify as emergencies under federal program guidelines. Budget projections anticipate that no new clients are admitted to the long-term care component of the program. (General Fund-State, General Fund-Federal)
 9. **Nursing Home Rate Increase** - Funding is provided to implement Chapter 258, Laws of 2006 (EHB 2716), which makes the following changes in the nursing home payment system effective July 1, 2006: a) direct care and operations rates will be re-based to reflect calendar year 2003 costs; b) the minimum occupancy standard for the direct care component of the rate is repealed; c) the case-mix corridor floor is eliminated, and the ceiling is increased to 112 percent of the industry median; d) variable return rates are frozen at their June 30, 2006, level; and e) a "hold harmless" provision will assure that certain facilities do not receive a lower rate under the revised system than they are receiving as of June 30, 2006. (General Fund-State, General Fund-Federal)
 10. **Nursing Home Lawsuit** - Funds are provided to settle the *Regency Pacific et al. v. Department of Social and Health Services* lawsuit in which nursing home contractors claimed that DSHS inaccurately paid for care provided to patients dually eligible for both Medicaid and Medicare. Disbursement of these funds is contingent upon plaintiff's release of all claims in the case. (General Fund-State, General Fund-Federal)
 11. **Personal Needs Allowance Increase** - Funding is provided to increase the personal needs allowance by 4 percent, from \$51.62 per month to \$53.68 per month, for an average of 11,100 publicly-funded clients residing in institutional settings, including residents of nursing facilities, residential habilitation centers, and state mental hospitals. Institutionalized clients who receive a state supplemental payment (SSP) to their social security income in lieu of a personal needs allowance will receive a commensurate \$2.06 per month increase in their SSP benefit. (General Fund-State, General Fund-Federal)
 12. **Adult Day Health Rate Increase** - Funding is provided to increase payment rates for adult day health services by 14 percent, effective July 1, 2006. (General Fund-State, General Fund-Federal)
 13. **Boarding Home Rate Increase** - Funding is provided to increase boarding home payment rates by an additional 1.0 percent effective July 1, 2006. This is in addition to the 1.0 percent vendor rate increase already funded for July 2006 in the original biennial budget. (General Fund-State, General Fund-Federal)
 14. **Adult Family Home Rate Increase** - Funding is provided to increase adult family home payment rates by an additional 1.0 percent effective July 1, 2006. This is in addition to the 1.0 percent vendor rate increase already funded for July 2006 in the original biennial budget. (General Fund-State, General Fund-Federal)
 15. **Homecare Hours Bargaining** - In accordance with Chapter 106, Laws of 2006 (ESHB 2475), the Governor will collectively bargain DSHS policies and practices that affect hours of work for individual providers. Funding is provided for DSHS to support the Governor's Office with these negotiations. (General Fund-State, General Fund-Federal)
 16. **Residential Standards Enforcement** - Chapter 303, Laws of 2006 (E2SSB 6630), provides additional mechanisms for DSHS to sanction community residential agencies and for those agencies to appeal proposed sanctions. Funds are provided for the Department's residential care quality assurance unit to implement these provisions. (General Fund-State, General Fund-Federal)

Fiscal Year 2007 Total	531,873	642,114	1,173,987

Comments:

- 1. WorkFirst Funding Shortfall** - Funding is provided to balance the WorkFirst program. In addition to: 1) \$35 million in savings due to various efficiencies, caseload reductions, and full-family sanctions recommended by the WorkFirst Reexamination Workgroup; and 2) \$20 million in federal incentives and other one-time sources, the amount provided should be sufficient to cover the program's \$106 million deficit for the 2005-07 biennium. No changes are proposed to child care eligibility and benefits.

reductions to service contracts. LEP services assist public assistance-eligible refugees and others who have a limited ability to speak English by providing specialized job training, English-as-a-Second-Language classes, and other services.
- 2. Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
- 3. Head Start Collaboration Transfer** - Federal funding and FTEs supporting the Head Start Collaboration Office are transferred from DSHS to the new Department of Early Learning, created under Chapter 265, Laws of 2006 (2SHB 2964). (General Fund-Federal)
- 4. Child Support Schedule** - Funding is provided to implement 2SHB 2462 (Child Support Schedule), which establishes a work group to evaluate and recommend changes to the existing child support schedule. This bill was not enacted by the Legislature, funding lapsed, and the Governor vetoed this appropriation (see veto item below). (General Fund-State, General Fund-Federal)
- 5. LEP Services Enhancement** - Funding is provided to supplement existing state and federal funds dedicated to limited English proficiency (LEP) services in order to prevent
- 6. Governor Veto** - The Governor vetoed Section 207(5) of Chapter 372, Laws of 2006, Partial Veto (ESSB 6386), which provided funding to implement 2SHB 2462 (Child Support Schedule). The bill did not pass the Legislature (see item 4 above).

Comments:

- 1. Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
- 2. Expand Parent-Child Asst Program** - Funding is provided to expand the Parent-Child Assistance Program (PCAP) to Skagit County. PCAP provides intensive support and referral services to pregnant and parenting women who are using drugs or are at risk of substance abuse. The program is managed by local contractors in conjunction with the University of Washington's Fetal Alcohol and Drug Unit and currently operates in six counties statewide.
- 3. Ensure Problem Gambling Trtmt** - Funding is provided to supplement dedicated fee revenues for the newly-established problem gambling treatment program, created by Chapter 369, Laws of 2005 (ESHB 1031). Revenues from the new taxes and lottery set-asides created by the bill are about \$150,000 lower than expected when the program was authorized. State funds are provided to ensure that the level of treatment available is equivalent to the level expected under the 2005-07 biennium budget. (General Fund-State, Problem Gambling Account-State)

Fiscal Year 2007 Total	1,550,541	2,398,174	3,948,715

Comments:

- Employer-Sponsored Insurance Pgm** - Funds are provided to expand a small pilot project under which, when it is cost effective for the state, the Department of Social and Health Services (DSHS) will cover the cost of employer-sponsored insurance for children and families who would otherwise be covered by state medical assistance programs. Based upon pilot project experience to date, the program is expected to return modest savings after covering administrative costs, while reinforcing enrollment in employer-based coverage, particularly among small employers. (General Fund-State, General Fund-Federal)
- Children's Health Program** - The Children's Health Program provides medical and dental care for children who, because of their immigration status, are not eligible for Medicaid. Enrollment in the program is increased to 12,890 children per month in July 2006 and to 14,000 children per month in October 2006. (General Fund-State, General Fund-Federal)
- Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
- Foster Care to Age 21 Pilot** - Funding is provided to implement Chapter 266, Laws of 2006 (2SHB 2002 - Foster Care Support Services). The bill provides that up to 50 young people may remain in foster care until age 21 while participating in post-secondary education. Because they are in foster care, the state Medicaid program will continue to pay for their medical and dental care. (General Fund-State, General Fund-Federal)
- Family Planning Services** - Funding is provided to increase access to family planning services in the DSHS' Community Service Offices (CSOs). Funds will be used to: 1) provide family planning information and referral to persons involved with Child Protective Services or Child Welfare Services; 2) increase the availability of family planning nurses and health educators at CSOs to full time; and 3) increase the hourly rate for CSO-based family planning contracts by up to 5 percent. Resources will be prioritized to those areas where pregnancy rates are higher than the statewide average. (General Fund-State, General Fund-Federal)
- Employment Status Report** - Funding is provided for implementation of Chapter 264, Laws of 2006, Partial Veto (ESHB 3079 - Employment Status Reporting), which requires DSHS, in cooperation with the Health Care Authority, to report annually to the Legislature on the employment status of enrollees in the Basic Health Plan and state Medical Assistance programs. (General Fund-State, General Fund-Federal)
- Expand Provider Review & Prior Auth** - Funding is provided to expand current efforts to assure appropriate and cost-effective utilization of medical services. Savings will be achieved by preventing inappropriate and off-label use of certain prescription drugs; by reviewing, and potentially terminating, contractual arrangements with providers who have

Department of Social and Health Services Medical Assistance Payments

demonstrated substandard practice patterns; and by increasing record reviews to assure that expensive procedures are being delivered in accordance with clinical guidelines. (General Fund-State, General Fund-Federal)

8. **Medicare Part D Co-Pays** - Approximately 100,000 low-income elderly and disabled individuals whose drug costs were previously covered in full by the state Medicaid program must now pay \$1, \$3, or \$5 per prescription under the new federal Medicare Part D program. State funds are provided to cover the cost of these co-payments on their behalf.
9. **Preventive Care Collaborative** - Funds are provided for the Medical Assistance program to sub-contract through its external quality review organization for dissemination of evidence-based best practices for preventing and treating children's health problems. (General Fund-State, General Fund-Federal)
10. **Breast & Cervical Cancer Screening** - State funds are provided to increase by 25 percent the number of low-income, uninsured women screened through the Washington Breast and Cervical Health Program in the Department of Health. This is expected to result in a corresponding 25 percent increase in the number of women receiving Medicaid-funded treatment for these conditions. (General Fund-State, General Fund-Federal)
11. **Federal SCHIP Flexibility** - The 2006 federal budget allows states to use unspent State Children's Health Insurance Program (SCHIP) funds to match Medicaid expenditures for children with family incomes over 150 percent of the federal poverty level. Because the federal matching funds rate is higher for SCHIP expenditures than for the regular Medicaid program, this reduces required state funding. This is a one-time savings, as the federal statutory provision is due to expire in September 2007. (General Fund-Federal, Health Services Account-State)

Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
- 2. Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)
- 3. Family Policy Council** - Funding for the Family Policy Council and for community public health and safety networks is increased to partially offset reductions to those programs that were implemented in the 2001-03 biennial budget. The Council and community-based networks work to prevent child abuse and neglect and recommend policy changes at the state and local levels.
- 4. System Transformation Initiative** - Additional staff are provided for the Office of Financial Recovery to manage the increase in billing to insurance companies and private individuals that will result from the opening of five additional wards at the two state psychiatric hospitals.

Comments:

- Residential Standards Enforcement** - Chapter 303, Laws of 2006 (E2SSB 6630 - Establishing the Community Protection Program), provides additional mechanisms for the Department of Social and Health Services to sanction community residential agencies and for those agencies to appeal proposed sanctions. Funds are provided for Attorney General support with implementation of these provisions. (General Fund-State, General Fund-Federal)

Other Human Services

Health Care Authority

An additional 6,500 low-income people will receive state-subsidized Basic Health Plan coverage during fiscal year 2007, at a cost of \$12.5 million.

Grants to community clinics that provide free and reduced-cost care are increased by \$2.0 million (21 percent).

A total of \$1.2 million is provided for a new program which will evaluate the effectiveness and efficiency of different health technologies and procedures and provide recommendations to state agencies to assist with their coverage and purchasing decisions.

A new, \$1.5 million program will provide two-year grants of up to \$250,000 to assist community-based organizations by increasing access to appropriate, affordable health care for Washington residents, particularly low-income working individuals.

A total of \$625,000 is provided for initial design and development of a new program through which the state may subsidize enrollment in employer-sponsored health insurance for low-income workers in small businesses.

Criminal Justice Training Commission

One-time funding of \$0.9 million is provided for the Criminal Justice Training Commission (CJTC) to run additional Basic Law Enforcement Academies (BLEA) during fiscal year 2006 and fiscal year 2007. With this funding, CJTC will conduct a survey of local law enforcement and state agencies and collect data needed to project future cadet enrollments for the 2007-09 biennium. CJTC will report back to the Legislature by October 1, 2006.

A total of \$0.6 million is provided to the Washington Association of Sheriffs and Police Chiefs to develop a missing persons website in accordance with Chapter 102, Laws of 2006 (2SHB 2805), and to implement a victim information and notification system. It is anticipated that any additional funds needed to operate the victim notification system will be provided through a federal grant.

A total of \$1.6 million is provided to establish three pilot rural narcotics task forces in the northeast, southeast, and southwest regions of the state. Chapter 339, Laws of 2006 (E2SSB 6239), establishes the task forces' framework, with each pilot area receiving four sheriff deputies, two prosecutors, and one clerk.

Department of Labor and Industries

A total of \$2.0 million is provided for three aspects of the Crime Victims Compensation Program. First, the budget restores the program's reimbursement rates for mental health care to worker's compensation rates beginning in fiscal year 2007. Second, funding is provided for implementation of Chapter 268, Laws of 2006 (HB 2612), which expands eligibility for crime victim compensation to victims of vehicular crimes resulting from failure to secure a load. Finally, by statute, the Crime Victims Compensation Program's rates for inpatient hospitalization cannot be lower than those paid by the Department of Social and Health Services. The rates for the Medicaid program were increased in the 2005-07 biennium.

A total of \$1.2 million is provided to the Department to implement additional fraud-detecting technology known as the Employer Audit Technology and Referral System by July of 2007. The new system will allow for automation of several auditing tasks currently performed manually. The cost to build and implement the new system will be recovered in the first year of its use (fiscal year 2008) and will produce ongoing benefits. One-time costs are \$662,000.

Since fiscal year 2001, the number of electrical inspections requested per day has increased by 36 percent. A total of \$0.9 million is provided for the Department to hire eight additional electrical inspectors to complete the majority of inspection requests within 24 hours.

A total of \$1.6 million is provided for agricultural growers impacted by the cholinesterase monitoring regulation. The funding is to defray the cost of medical monitoring by health care providers and blood testing by the state public health lab.

Department of Veterans' Affairs

The operating budget provides \$2 million for the creation of the Veterans' Innovations Program. The program will consist of two competitive grant programs overseen by a volunteer board to provide economic support in the form of grants to returning veterans and their families, as well as grants to locally-proposed innovative service programs.

The sum of \$0.5 million is included to support the Department's community-based network in assisting returning Iraq and Afghanistan military personnel in applying for benefits and services. The funding will support 28 family activity days for returning veterans and their families that will provide information on securing federal and state benefits and services. This funding will also support local service organizations' efforts to assist an estimated 1,500 additional veterans with federal benefit claims and to provide approximately 130 new returnees with post-traumatic stress disorder treatment.

An appropriation of \$100,000 is provided to support veterans with transportation, clothing, and work tools to enable them to participate in the Veterans' Conservation Corps.

Department of Corrections

Including changes made in the supplemental budget, a total of \$1.5 billion is appropriated for the Department of Corrections to incarcerate an average of 18,000 inmates per month and to supervise an average of 25,600 offenders per month in the community. This is 4.1 percent (\$58.2 million) more than was originally budgeted for the 2005-07 biennium. Most of this increase (\$36.2 million) is due to higher-than-expected increases in the community supervision caseload, medical costs, and other maintenance level changes.

The budget provides \$11.3 million in state funding to complete the third phase of the Offender Management Network Information (OMNI) system, which will replace the Offender-Based Tracking System. The new system is expected to reduce staff data entry efforts, improve reporting capabilities, and redirect staff time towards offender supervision. The total cost of the OMNI project has been estimated at \$50 million.

Chapter 460, Laws of 2005 (E2SHB 2015), created a community-based Drug Offender Sentencing Alternative (DOSA) option. The court may waive the standard sentence for eligible offenders and impose a term of residential treatment for three to six months followed by a term of community custody. A total of \$3.2 million in funding is provided for 100 community-based residential treatment beds and the cost of court-ordered examinations for offenders who are being considered for community-based DOSA.

The budget provides funding for drug policy legislation pursuant to Chapter 339, Laws of 2006 (E2SSB 6239): \$0.4 million for 100 additional therapeutic drug and alcohol treatment placements for offenders in institutions; \$0.3 million for longer DOSA sentences to allow for more time for substance abuse treatment; and \$0.5 million for chemical dependency screenings for all felonies where the court determines that a dependency problem contributed to the offense.

The budget provides \$1.6 million in funding for additional prison beds as a result of increased penalties for sex offenders:

- Chapter 128, Laws of 2006 (2SSB 6319), increases penalties for failure to register as a sex offender, resulting in a mandatory prison term for second and subsequent convictions of this offense. The term of community custody is also increased from 12 months to up to 48 months.
- Chapter 139, Laws of 2006 (2SSB 6172), increases penalties for voyeurism and possession of child pornography.
- Chapter 123, Laws of 2006 (2SSB 6460), requires the court to impose sentencing enhancements for felony crimes committed with sexual motivation.

Department of Employment Security

A total of \$1.2 million is provided to enhance fraud detection within the unemployment insurance system of the Employment Security Department. A new fraud detection unit is created that will identify, prosecute, and collect from people who file inaccurate or fraudulent unemployment claims that result in overpayments. The Department will also increase pursuit of employers who do not pay their unemployment insurance taxes. It is anticipated this investment will generate approximately \$14.2 million in revenue during fiscal year 2007.

Department of Health

The 2006 supplemental budget authorizes the Department of Health to spend \$36 million (4.1 percent) more than originally budgeted for the biennium. Major increases include:

- \$9.3 million of new or increased federal grants. New grant awards total approximately \$1.7 million and will support the collection and analysis of data regarding the medical care needs and risk behaviors of persons with HIV infection. Continuing grants receiving substantial increases include: \$2.1 million for cardiovascular disease prevention; \$2.2 million for development of an environmental health tracking network; and \$1.2 million to assess alternative models of genetics service delivery.
- \$9.0 million (\$2.0 million state) for the state and local health departments to prepare for the possibility of a flu pandemic, such as might arise from the avian flu virus.
- \$4.0 million (\$2.9 million state) to add at least four new vaccines to the schedule of routinely-recommended childhood immunizations.
- \$1.4 million (state and total) to increase the number of low-income, uninsured women screened for breast and cervical cancer by 23 percent.

Comments:

1. **Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
2. **Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications resulting from implementation of collective bargaining agreements and personnel rules. (various funds)
3. **Health Assessments** - Funding is provided to develop an on-line health assessment tool to be made available to all employees. The assessment tool will enable employees to compare their personal health information with local and national data, resulting in recommendations of programs and actions most likely to improve individual health. (State Health Care Authority Administrative Account-State)
4. **Centralize Evidence-Based Medicine** - Funding is provided for the Health Care Authority to establish an interagency Health Technology Clinical Advisory Committee (HTCAC) to study evidence-based purchasing methods and make recommendations to the state's major health care purchasers pursuant to Chapter 307, Laws of 2006, Partial Veto (E2SHB 2575). The participating agencies are the Departments of Social and Human Services, Labor and Industries, Corrections, and Veterans' Affairs. Assessments may be provided to the HTCAC by a new Health Technology Assessment Center at the University of Washington. Recommendations will emphasize health care procedures and technologies that have been shown to be both effective and cost efficient. (General Fund-State, General Fund-Federal, Medical Aid Account-State, Health Services Account-State, Health Care Authority Administrative Account-State)
5. **Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)
6. **BHP Enrollment Expansion** - Funding is provided to subsidize enrollment for an additional 6,500 people in the Basic Health Plan (BHP). (Health Services Account-State, Basic Health Plan Trust Account-Non-Appropriated)
7. **Community Health Collaboratives** - As provided in Chapter 67, Laws of 2006 (E2SSB 6459 - Community-Based Health Care Solutions), the Health Care Authority will provide two-year grants of up to \$250,000 to assist community-based organizations in increasing access to appropriate, affordable health care for Washington residents, particularly low-income working individuals. The applicant organizations must assure measurable improvements in health access within their service region; demonstrate active collaboration with key community partners such as health care providers, businesses, and local government; and provide two dollars in matching funds for each grant dollar awarded. Grants will be funded from a new account established with a \$1.4 million appropriation from the state general fund. (Community Health Care Collaborative Account-Non-Appropriated, Health Services Account-State)

Washington State Health Care Authority

8. **Community Clinic Grants** - Grants to community clinics that provide free and reduced-cost medical care to low-income persons are increased by 21 percent in FY 2007. (Health Services Account-State)
9. **Employment Status Report** - Funding is provided for implementation of Chapter 264, Laws of 2006, Partial Veto (ESHB 3079 - Employment Status Reporting), which requires the Health Care Authority, in cooperation with the Department of Social and Health Services, to report annually to the Legislature on the employment status of enrollees in BHP and state Medical Assistance programs. (General Fund-State, General Fund-Federal)
10. **Small Business Health Ins. Assist** - Funding is provided for initial design and development of the Small Employer Health Insurance Partnership Program (SEHIP) established by Chapter 255, Laws of 2006 (E2SHB 2572 - Small Employer Health Insurance). The program will subsidize enrollment in their employers' insurance program for workers with incomes below 200 percent of poverty and their families. Because the employer will be required to pay at least 40 percent of the cost of the worker's premium, this will be less expensive to the state than if the worker enrolled in the regular BHP, while at the same time enabling small employers to maintain larger, more viable coverage groups. (Health Services Account-State)

Washington State Health Care Authority

* State subsidy for "regular" enrollees is provided through the Health Care Authority budget.

** State and federal subsidy for home care worker enrollees is provided in the DSHS Long-Term Care and Developmental Disabilities budgets. The number of home care workers receiving state-subsidized coverage is expected to increase substantially during the 2005-07 biennium. However, because of the availability of other coverage options, the number electing to obtain that coverage through the Basic Health Plan is projected to continue to decline.

and implement the new system will be recovered in the first year of its use (FY 2008) and will produce ongoing benefits. One-time costs are \$662,000. (Accident Account-State, Medical Aid Account-State)

functions and procedures listed in the proviso within existing funds. (General Fund-State, Accident Account-State)

9. **Agricultural Workers** - Funding is provided for House Bill 2623 (Agricultural Workers). This bill was not enacted by the Legislature, and the Governor vetoed this appropriation (see veto item below).
10. **Agriculture Cholinesterase Funding** - Funding is provided for agricultural growers impacted by the cholinesterase monitoring regulation. The funding is to defray the cost of medical monitoring by health care providers and blood testing by the state public health lab. (Accident Account-State)
11. **Electrical Trainees (SHB 1841)** - Funding is provided to implement Chapter 224, Laws of 2006 (SHB 1841), which modifies licensing requirements for electricians.
12. **Crime Victims Compensation Payments** - Additional funding is provided for two items in the Crime Victims Compensation Program. First, by statute, the Crime Victims Compensation Program's rates for inpatient hospitalization cannot be lower than those paid by the Department of Social and Health Services. The rates for the Medicaid program were increased in the 2005-07 biennium. Second, funding is provided to restore the program's reimbursement rates for mental health care to worker's compensation rates beginning in FY 2007. (Public Safety and Education Account-State)
13. **National Provider Identification** - Funding is provided for the Department to implement the national provider identification code throughout its medical claims computer systems. The federal Health Insurance Portability and Accountability Act requires the use of a national provider identification code for medical providers by May 2007. The costs to hire computer contractors are one time, but there will be ongoing costs of \$129,000 for mainframe usage and data storage. (Public Safety and Education Account-State, Medical Aid Account-State)
14. **Crime Victims-Unsecured Loads** - Funding is provided to implement Chapter 268, Laws of 2006 (HB 2612), which expands eligibility for the Crime Victims Compensation Program to victims of vehicular crimes resulting from failure to secure a load.
15. **Governor Veto** - The Governor vetoed two provisos of Chapter 372, Laws of 2006, Partial Veto (ESSB 6386), pertaining to the Department.

Section 217(13) provides \$406,000 of Accident Account-State to implement 2SHB 2462 (Agricultural Workers), which did not pass the Legislature during the 2006 session.

Section 217(17) provides \$10,000 of General Fund-State to the Department to prepare consumer information brochures on contracting for new construction or remodeling construction work. The Governor directs the Department to perform the

Comments:

1. **Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)

2. **Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)

3. **Sentence Review Board** - In accordance with Chapter 313, Laws of 2006, Partial Veto (EHB 3261), funding was provided to add two additional members to the Indeterminate Sentence Review Board and additional staff to support the Board. Additionally, the legislation directs the Board to provide opportunities for victims to testify when the Board conducts hearings to review "determinate-plus" sex offenders for possible release. In EHB 3261, the Governor vetoed the section of the bill that added the two members to the Board.

Fiscal Year 2007 Total	11,245	36,804	48,049

Comments:

1. **Svc to Iraq & Afghanistan Returnees** - The Department of Veterans' Affairs has created a community-based network to assist returning Iraq and Afghanistan military personnel in applying for benefits and services. Funding is provided for 28 additional Family Activity Days where local veterans' groups inform returning veterans and their families of federal and state benefits and services for which they may be eligible. Funding is also provided for local veterans' service organizations to assist an estimated 1,500 additional veterans with federal benefit claims and for post-traumatic stress disorder treatment for approximately 130 new returnees.
2. **Extension of Nursing Home Capacity** - Funds are appropriated to provide skilled nursing facility services to 40 additional people at the Washington Veterans' Home in Retsil. The additional cost of this service is projected to be covered by resident contributions toward the cost of their care and by reimbursements from the federal Medicare, Medicaid, and Veterans' Services programs. (General Fund-Federal, General Fund-Private/Local)
3. **Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
4. **Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications resulting from implementation of collective bargaining agreements and personnel rules. (various funds)
5. **Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)
6. **Veterans' Conservation Corps** - Funding is provided to assist veterans with transportation expenses and with the purchase of work clothing and tools needed for them to participate in the Veterans' Conservation Corps established pursuant to Chapter 257, Laws of 2005 (SSB 5539).
7. **Estate Management Account** - Under agreement with the federal Department of Veterans' Affairs, the state provides protective payee and other fiduciary services for veterans who are unable to manage their federal pension benefits. The costs of this service are covered by fees collected from the veteran's benefits. To comply with federal requirements, a new dedicated account is established to track fee collections and disbursements. (General Fund-Local, Veterans Estate Management Account-Local)
8. **Veterans' Innovations Program** - Funding is provided for the implementation of Chapter 343, Laws of 2006 (2SHB 2754 - Veterans' Innovations Program). The program will provide cash assistance to veterans returning from Iraq and Afghanistan and grants to locally-proposed innovative service programs. (Veterans' Innovations Account-State)

Home Care Quality Authority

(Dollars in Thousands)

	GF-S	Other	Total

Fiscal Year 2006 Total	724	641	1,365
Fiscal Year 2007 Total	1,401	528	1,929

Comments:

1. **Expansion of Referral Registry** - Funding is provided for the Home Care Quality Authority to contract with additional local organizations to manage a computerized registry that links qualified home care workers with people in need of their services. There will be 14 such sites operating by the end of the biennium, resulting in statewide availability of the referral service.

2. **Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)

3. **Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)

4. **Federal Grant Technical Correction** - The Centers for Medicare and Medicaid Services provided a federal grant for the implementation of four referral registry sites. The total amount of grant funding was higher than originally anticipated and not all of the expenditure authority was used. The unspent portion of the grant is transferred to FY 2007. (General Fund-Federal)

Comments:

1. **Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
3. **Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)
2. **Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications resulting from implementation of collective bargaining agreements and personnel rules. (various funds)
4. **Family Planning Services** - Funding is provided to enhance existing non-citizen family planning pilot programs and to extend the program to include Okanogan and Skagit Counties.
5. **Reclaimed Water** - Funding is provided for the Department of Health (DOH) to assist the Department of Ecology in development and adoption of rules on reclaimed water.

Department of Health

6. **Health Profession Background Checks** - Funding is provided to implement Substitute House Bill 2431 (Background Checks/Health Care), which requires the Department to conduct background checks on all applicants for initial licenses to practice a health profession. In addition, the bill requires the Department to review federal health care provider data banks for any actions taken against health care providers licensed in Washington. This bill was not enacted by the Legislature, and the Governor vetoed this appropriation (see veto item below). (General Fund-State, Health Professions Account-State)
7. **Health Care Declarations Registry** - Funding is provided to implement the provisions of Chapter 108, Laws of 2006 (2SHB 2342 - Health Care Declarations), which requires the Department to establish and maintain a web-based statewide registry containing advance directives, medical powers of attorney, and physician orders regarding life-sustaining treatment that state residents submit for inclusion on the registry. Physicians and physicians' assistants are to have 24-hour access to the registry to assist with medical decision-making.
8. **HIV Insurance Coverage Program** - Savings were to have been achieved through passage of HB 2632 (HIV Insurance Coverage Program), which would have removed the limit on the number of Washington State Health Insurance Pool policies that can be subsidized by DOH's Evergreen Health Insurance Program. The bill was not enacted, so these savings will not occur.
9. **Health Care Liability Reform** - Funding is provided to implement Chapter 8, Laws of 2006 (2SHB 2292 - Health Care Liability Reform), which requires the Department to implement an adverse health events reporting and investigation system that is intended to facilitate quality improvement in the health care system, improve patient safety, and decrease medical errors. (General Fund-State, Health Professions Account-State)
10. **Health Professions Discipline** - Funding is provided to implement Chapter 99, Laws of 2006 (SHB 2974 - Health Profession Discipline), which enhances discipline efforts for the health professions by: 1) requiring the Department to adopt rules for all licensed health care providers to report unprofessional conduct; 2) prohibiting health care providers who have had their licenses revoked in another state from practicing in Washington until all disciplinary proceedings are complete; and 3) identifying the number of additional investigators and attorneys needed to respond to the health profession's disciplinary workload in biennial budget requests. (Health Professions Account-State)
11. **Home Visits for Newborns** - Funding is provided for a grant to the Kitsap County Health District. The funding will be used to increase the number of women who receive professional support after delivery through a home visit or telephone call by the county health district. In order to receive the state funds, the county health district must commit an equal amount of funding for this purpose.
12. **Midwifery Fees** - Funding is provided to reduce the fees charged to midwives for initial and renewed licenses to \$450 per year for the period from July 1, 2006, through June 30, 2007.
13. **Natl Healthcare Pract Databases** - To respond to the increase in the number of health care professionals moving into the state, the Department will begin checking the federal Healthcare Integrity and Protection Data Bank to determine if action has been taken against an applicant's license in another state. This will decrease the risk of licensing a practitioner who has a history of complaints or malpractice in another state. (Health Professions Account-State)
14. **Pandemic Flu Monitoring** - Additional resources are provided to increase the state public health laboratory's capacity to monitor and detect pandemic flu activity. These resources will improve surveillance for unusual types of influenza; enable rapid molecular testing to identify influenza strains; and assist with development of advanced influenza tracking and reporting systems.
15. **Pandemic Flu Preparedness** - Funds are provided for state and local health departments to develop and implement comprehensive plans for responding to a pandemic flu, as provided in Chapter 63, Laws of 2006 (ESSB 6366 - Preparation and Response to Pandemic Influenza). (General Fund-State, General Fund-Federal)
16. **Health Professions Credentialing** - Funding is provided to increase the Department's ability to promptly issue credentials in the high-volume nursing and health care assistant licensing areas. Despite productivity gains and efficiencies, backlogs have developed in both professional areas due to large increases in the number of persons seeking licensure. (Health Professions Account-State)
17. **Prostate Cancer Screening** - Funding is provided to implement a prostate cancer public awareness and education campaign that targets men over age 40, African-American men, and men who are at high risk for prostate cancer according to the guidelines of the American Cancer Society.
18. **New Vaccine Purchase** - Funding is provided to add varicella to the regimen of vaccinations needed for child care or school entry and to include two new vaccines on the schedule of routinely-recommended childhood vaccines. The State Board of Health has adopted the new child care and school entry requirements for varicella vaccination because Washington's varicella (chicken pox) immunization rate lags behind other states, resulting in higher risks for older children and adults who typically experience more severe health consequences from the disease. Adolescent meningococcal vaccine is being added to the recommended schedule of vaccinations because the disease results in death or permanent disability for 20-30 percent of those who contract it. The new combination adolescent tetanus/diphtheria/acellular pertussis (Tdap) vaccine is being added to the schedule in order to increase adolescent immunity to pertussis (whooping cough), thus

Department of Health

reducing the risk of contagion of very young children, for whom the disease can have severe health consequences. (Health Services Account-State)

19. **Combination Vaccines** - Funds are provided to add one or more combination vaccines to the state's universal access to childhood immunizations program. Under the schedule of recommended childhood immunizations, infants two to six months of age need to receive 14 separate injections. New combination vaccines reduce that number by over one-third. The particular combination vaccine or vaccines to be added to the program will be selected after a clinical and cost-effectiveness review by the state vaccine advisory committee. (Health Services Account-State)
20. **WHPS Staffing** - The Washington Health Professional Services (WHPS) was created in 1990 as a multi-disciplinary monitoring program for health professionals whose ability to practice is impaired by chemical dependencies. Due to steady growth in the number of professionals enrolled in the program, current workloads for case managers are too high resulting in reduced program access and effectiveness. Funding is provided to reduce the average caseload per worker by one-third, from 194 to 127 cases. (Health Professions Account-State)
21. **Health Disparities Council** - Funds are provided for the Washington State Board of Health to support the work of the Governor's Interagency Council on Health Disparities. As provided in Chapter 239, Laws of 2006 (2SSB 6197 - Health Disparities Council), the Council will develop an action plan to eliminate racial differences in health access and health outcomes by 2012.
22. **Health Professional Survey** - As provided in Chapter 236, Laws of 2006 (2SSB 6193 - Health Professions Workforce Supply), funds are provided to conduct a survey of licensed health professionals in order to gather more complete and up-to-date information regarding health workforce age, race, practice statistics, and practice location. The results will be used to support planning efforts by the Interagency Council on Health Disparities and by the Workforce Training and Education Coordinating Board. The survey work and analysis will be completed in FY 2008.
23. **Health Impact Assessments** - As provided in Chapter 239, Laws of 2006 (2SSB 6197 - Health Disparities Council), funds are provided for the State Board of Health to conduct systematic reviews of the extent to which proposed public policies or practices would improve or would exacerbate health disparities. The reviews are to be conducted at the request of the Interagency Council on Health Disparities or members of the Legislature, to the extent resources are available.
24. **Hepatitis C Awareness** - Funds are provided for DOH to develop and maintain a database that will track the statewide incidence and cause of Hepatitis C infections and to conduct a public information campaign on transmission, prevention, detection, and treatment of the disease.
25. **Methamphetamine Clean-Up** - As provided in Chapter 339, Laws of 2006 (E2SSB 6239 - Reducing Crime), funds are provided for DOH to annually evaluate a number of methamphetamine laboratory decontamination projects to assess the adequacy of the decontamination work performed by licensed contractors.
26. **Breast & Cervical Cancer Screening** - State funds are provided to increase by 23 percent the number of low-income, uninsured women screened through the Washington Breast and Cervical Health Program.
27. **Infertility Prevention Project** - Funds are provided for increased screening and treatment services in a community with a particularly high incidence of chlamydia and gonorrhea.
28. **Other Bills with Fiscal Impacts** - Funds are provided for implementation of Chapter 72, Laws of 2006 (ESHB 1850 - Volunteer Medical Workers); Chapter 221, Laws of 2006 (SHB 2985 - Foster Care Health Unit); and Chapter 237, Laws of 2006 (ESB 6194 - Multicultural Education). (General Fund-State, Health Professions Account-State)
29. **Hospital Reporting System** - The Comprehensive Hospital Accounting and Reporting System (CHARS) provides standardized information regarding the volume and type of care provided, costs, and revenues of all hospitals in the state. The reporting system has for many years been funded by a fee assessed on hospital revenues. Due to a technical drafting problem in the 1995 amendments to the statutes governing hospital charity care and reporting, a superior court has found that DOH's statutory authority to assess fees is limited to only those aspects of the system related to the provision of charity care by hospitals. In order to assure continued operation of the system, state funds are provided to replace the lost fee revenues. (General Fund-State, Hospital Commission Account-State)
30. **Governor Veto** - The Governor vetoed Section 221(25) of Chapter 372, Laws of 2006, Partial Veto (ESSB 6386), which provided funding for the implementation of SHB 2431 (Background Checks/Health Care). Therefore, funding in the amount of \$221,000 lapses. (General Fund-State, Health Professions Account-State)

Comments:

1. **Offender Management Network (OMNI)** - Beginning in the 1999-01 biennium, the Department of Corrections (DOC) initiated a multi-phase project to replace its Offender-Based Tracking System (OBTS), which is the primary information system used by the Department to track and manage roughly 18,000 incarcerated offenders and 25,600 offenders in the community. Funding is provided for the third and final phase of the project to replace OBTS with the new Offender Management Network Information (OMNI) system, which is expected to reduce staff data entry efforts, improve reporting capabilities, and redirect staff time toward offender supervision. In addition, \$6 million in existing funding is shifted from FY 2006 to FY 2007 to account for project delays. The total cost of the OMNI project has now been estimated at \$50 million.
2. **Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
3. **Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications resulting from implementation of collective bargaining agreements and personnel rules. (various funds)
4. **Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)
5. **Community Based DOSA** - Chapter 460, Laws of 2005 (E2SHB 2015), authorized the establishment of a community-based Drug Offender Sentencing Alternative (DOSA). Offenders sentenced under a community-based DOSA receive a term of community custody in lieu of a prison term and must complete a certified residential treatment program for a period of three to six months. The legislation is expected to save the state 36 prison beds in FY 2007. Funding is provided to cover additional expenditures incurred by the Department in implementing the new law, including costs for securing 100 residential treatment beds and for conducting court-ordered chemical dependency examinations.
6. **Farrakhan Lawsuit** - Funding is provided for expected Attorney General costs associated with *Farrakhan v. Locke*, an inmate class action lawsuit related to voting rights and the election processes administered by the Secretary of State.
7. **Failure to Register** - Funding is provided to implement Chapter 128, Laws of 2006 (2SSB 6319), which increases criminal penalties for failure to register as a sex offender, resulting in a mandatory prison term for second and subsequent convictions of this offense. In addition, offenders sentenced to a term of confinement for one year or less for a first time conviction of failure to register as a sex offender are required to serve a minimum term of community custody from 36 to 48 months, rather than serving up to 12 months on community custody. These changes are expected to increase the prison

Department of Corrections

population by 44 beds in FY 2007, increasing to 561 beds over the course of the next ten years.

8. **Crimes with Sexual Motivation** - Funding is provided to implement Chapter 123, Laws of 2006 (2SSB 6460), which requires courts to add additional time to a felony offender's standard sentence if the offender committed his or her crime with sexual motivation. The sentencing enhancements for crimes committed with sexual motivation include: 24 months for a class A felony; 18 months for a class B felony; and 12 months for a class C felony. A court must double the amount of time added to the sentence if the offender was subject to the sexual motivation enhancement in a previous conviction.
9. **Child Pornography Possession** - Funding is provided to implement Chapter 139, Laws of 2006 (2SSB 6172), which increases criminal penalties for voyeurism, possession of depictions of a minor engaged in sexually explicit conduct, communicating with a minor for immoral purposes when such communication is made via an electronic communication, and designates possession of depictions of a minor engaged in sexually explicit conduct as a sex offense.
10. **Mentally Ill Offender Council** - Funding is provided in FY 2007 for the establishment and support of a statewide council on mentally ill offenders that includes as its members representatives of community-based mental health treatment programs, current or former judicial officers, and directors and commanders of city and county jails and state prison facilities. The council will begin to investigate and promote cost-effective approaches to meeting the long-term needs of adults and juveniles with mental disorders who have a history of offending or who are at risk of offending including their mental health, physiological, housing, employment, and job training needs.
11. **Drug Policy Legislation** - Funding is provided to implement the criminal sanctions and substance abuse-related components of Chapter 339, Laws of 2006 (E2SSB 6239), which provides an additional 100 placements for therapeutic drug and alcohol treatment in prison; authorizes courts to order pre-sentence chemical dependency screenings when the court finds that a felony offender had a chemical dependency that contributed to his or her offense; establishes a mandatory minimum confinement term of 12 months for offenders serving a prison-based DOSA; and specifies that all sentencing enhancements related to violations of the Uniform Controlled Substance Act in drug-free zones are to be run consecutively, instead of concurrently, to all other sentencing provisions.

⁽¹⁾ Data reflect average monthly caseloads. These data are not comparable with caseloads published in prior editions of the Legislative Budget Notes, which measured end-of-year caseloads.

⁽²⁾ Accounting issues at the Department of Corrections may have overcounted active caseloads.

⁽³⁾ For FY 2004 through FY 2007, institutional counts include beds rented from other jurisdictions.

⁽⁴⁾ The FY 2005 average cost per inmate does not include funds paid toward the Stamey and Arrasmith lawsuit settlements.

⁽⁵⁾ FY 2005 through FY 2007 average cost per inmate does not include start-up costs for expansion at the Monroe Corrections Center or the Washington State Penitentiary.

Department of Services for the Blind

(Dollars in Thousands)

	GF-S	Other	Total
2005-07 Original Appropriations	3,826	17,197	21,023
Total Maintenance Changes	170	5	175
Policy Changes			
1. Pension Plan 1 Unfunded Liabilities	0	28	28
2. Classification Revisions	0	-1	-1
3. Central Service Agency Charges	3	11	14
Total Policy Changes	3	38	41
<hr/>			
2005-07 Revised Appropriations	3,999	17,240	21,239
Fiscal Year 2006 Total	2,037	8,424	10,461
Fiscal Year 2007 Total	1,962	8,816	10,778

Comments:

1. **Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)

2. **Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications resulting from implementation of collective bargaining agreements and personnel rules. (various funds)

3. **Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)

Comments:

- 1. **Pension Plan 1 Unfunded Liabilities** - Funding is provided to cover the cost of increased employer pension contributions resulting from additional contribution rates established to make payments towards the unfunded accrued actuarial liabilities in Plan 1 of the Public Employees' and Teachers' Retirement Systems (PERS 1 and TRS 1). Contributions that would have been made from the General Fund-State are paid from the newly-established Pension Funding Stabilization Account. (various funds)
- 2. **Classification Revisions** - Funding is provided to cover changes in the cost of state merit system classifications resulting from implementation of collective bargaining agreements and personnel rules. (various funds)
- 3. **Central Service Agency Charges** - Funding is provided to pay increased service charges by the Department of Personnel and the Office of Financial Management (OFM). The service charges reflect increased costs associated with the development of the new Human Resource Management System, improvements to the state's capital budgeting systems, and the completion of OFM's Roadmap Feasibility Study. (various funds)
- 4. **Unemployment Fraud Detection** - Funding is provided for the Department to enhance fraud detection within the unemployment insurance system. A new fraud detection unit is created that will identify, prosecute, and collect from people who file inaccurate or fraudulent unemployment claims that result in overpayments. The Department also will pursue employers who do not pay their unemployment insurance taxes. It is anticipated this investment will generate approximately \$14.2 million in revenue for the Administrative Contingency and Unemployment Insurance Trust accounts during FY 2007. (Administrative Contingency Account-State)
- 5. **Unemployment Insurance Adjustment** - Funding is provided to implement modifications to the unemployment insurance system, as specified in Chapter 13, Laws of 2006 (ESSB 6885). (Unemployment Compensation Administration Account-Federal)
- 6. **Unemployment Contribution Rate** - Funding is provided to implement Chapter 47, Laws of 2006 (SSB 6359), which modifies the process used by the Department to determine if employers are evading their unemployment contribution rates through State Unemployment Tax Act dumping. The penalty for employers engaged in this activity is increased. (Unemployment Compensation Administration Account-Federal)
