
2015-17 OMNIBUS OPERATING BUDGET OVERVIEW

Operating Only

Background to the 2015-17 Budget

Context

The Legislature entered the 2015 session seeing increased revenue along with rising maintenance level costs (the cost of carrying forward the ongoing 2013-15 budget programs and services into the 2015-17 biennium). Other pressing issues included the need to consider court cases related to mental health, the Supreme Court's McCleary decision (K-12 funding), and other fiscal and policy issues.

Projected Revenue

Forecasted revenue in the Near General Fund-State and Opportunity Pathways accounts (NGF-P) based on the May 2015 forecast, before 2015 legislation, is projected to increase from \$34.28 billion in the 2013-15 biennium to \$37.45 billion in the 2015-17 biennium. This is an increase of approximately \$3.17 billion.

In addition, the operating budget for 2015-17 assumes legislation that would decrease revenue by \$37 million.

Projected Spending

At the same time, the cost of continuing current programs and meeting other statutory obligations increased as well. The estimated maintenance level cost for 2015-17 is \$39.2 billion. This is \$5.4 billion higher than the \$33.8 billion appropriated for the 2013-15 biennium. Net increases in K-12 accounted for \$4.3 billion of the \$5.4 billion, or about 80 percent of the maintenance level increase from the previous biennium. The 4.3 billion increase includes \$2.0 billion NGF-P being the estimated cost to implement Initiative 1351 (I-1351) (adopted by the voters in November 2014), \$741 million for materials, supplies and operating costs required by House Bill 2776 (Chapter 236, Laws of 2010) and related to the McCleary decision; and funding for Initiative 732 (education cost-of-living increases), increased enrollment, and continuation of funding for basic education enhancements previously made in the 2013-15 biennium.

The operating budget for 2015-17 also includes \$2.0 billion in additional policy enhancements. Some of the largest items include: 1) \$744 million for K-12 public schools (in addition to the \$4.3 billion maintenance level increase described above); 2) \$351 million for higher education including financial aid, compensation increases, and a tuition reduction; 3) \$158 million for early learning and related child care programs; 4) \$104 million for mental health related programs; 5) \$115 million for home care worker compensation, training and benefits; 6) \$173 million for state employee compensation; and 7) \$370 million in all other policy increases.

Finally, the Legislature anticipates that revisions to the caseload forecast made in June 2015 will result in anticipated costs of \$36 million for the 2015-17 biennium (and that those would be recognized in a 2016 supplemental budget).

Projected Shortfall (Before 2015 Actions)

A budget shortfall is projected when estimated costs exceed estimated revenues. For the 2015-17 Biennium, before any legislative action was taken in the 2015 legislative session, the estimated cost of continuing current programs and complying with current laws exceeded forecasted revenue (after the required Budget Stabilization Account transfer) by approximately \$2.1 billion. This is sometimes referred to as the maintenance level shortfall.

Combining the maintenance level shortfall of \$2.1 billion NGF-P with the policy increases in the enacted budget, legislation that reduces revenue, and leaving an ending fund balance of \$343 million NGF-P, the combined budget problem statement is approximately \$4.5 billion.

Enacted 2015-17 Operating Budget

The operating budget appropriates a total of \$38.2 billion from Near General Fund-State plus Opportunity Pathway and addresses the budget problem statement through:

- fund transfers and revenue redirections of \$178 million;
- reduced spending of approximately \$2.95 billion (\$2.04 billion by modifying I-1351);
- utilizing a portion of the \$910 beginning balance;
- changes in the budget and other adjustments that increase resources by \$83 million;
- assumed reversions of \$172 million; and
- legislation that increases revenues by \$217 million .

Policy Level Spending Reductions

Policy level spending increases are described in the projected spending section (above). Policy level spending reductions assumed in the budget include: (1) \$2.04 billion by modifying I-1351; (2) \$66 million in savings within the economic services program of DSHS; (3) \$152 million by extending and modifying the hospital safety net; (4) \$235 million by utilizing marijuana related revenues to support existing programs; (5) \$115 million from an enhanced federal match for low income health care for certain children; (6) \$72 million from shifting costs for selected programs to dedicated revenue sources; and (7) \$267 million in other savings.

In addition, it is assumed that agencies will generate reversions of \$172 million in the 2015-17 Biennium. (Because appropriations represent the maximum amount that state agencies may spend, actual expenditures are typically less than the appropriated amounts. The amount of unspent funds is typically referred to as reversions.)

Fund Transfers and Other Revenue/Resource Changes

Revenue legislation that decreases revenues is noted in the projected revenue section (above) and detailed in the Revenue section of this document. Revenue legislation that increases revenues totals \$217 million in the 2015-17 Biennium. Significant provisions include unclaimed lottery prizes, defining nexus for tax purposes, and various information technology related items. These are detailed in the revenue section of this document.

Fund transfers assumed to take place during the 2015-17 biennium include:

- \$73 million from the Public Works Assistance Account;
- \$62 million related to the Life Sciences Discovery Fund;
- \$42 million in total from various accounts (including Treasurer's Service, Criminal Justice Treatment, Flood Control, Liquor Revolving, and Energy Freedom accounts)

Other provisions impacting revenue include (for 2015-17):

- \$37 million in budget driven revenue (primarily from increased tobacco enforcement efforts by the Liquor and Cannabis Board as well as reduced commission rates offered by the State Lottery); and
- \$41 million in anticipated prior period balance sheet adjustments

Finally, in accordance with Chapter 2, Laws of 2015, 3rd Sp.s. (Engrossed House Bill 2286), certain extraordinary revenue growth during the 2013-15, 2015-17, and 2017-19 biennia will be transferred back to the state general fund. The estimated amounts are: (1) \$38 million for 2013-15; (2) \$5 million for 2015-17; and (3) \$516 million for 2015-17.

Projected Ending Balance and Outlook

The budget, after partial vetoes and including appropriations made in other legislation, leaves \$1.237 billion in projected total reserves (\$343 million in NGF-S ending fund balances and the remaining \$894 million in the Budget Stabilization Account) for the 2015-17 Biennium. Before gubernatorial vetoes, projected total reserves were \$1.26 billion (\$362 million in NGF-S ending fund balances and the remaining \$894 million in the Budget Stabilization Account).

The budget, under the provisions of the statutory four-year outlook Chapter 8, Laws of 2012, 1st sp.s (SSB6636), is projected to end the 2017-19 biennium with negative \$23 million in NGF-P and \$1.367 billion in the Budget Stabilization Account (total net reserves of \$1.344 billion). Before vetoes, the outlook was projected to end the 2017-19 biennium with \$1.41 billion in total reserves (\$47 million in NGF-P and the remainder in the Budget Stabilization Account).

The projected ending balances in 2015-17 and 2017-19 include the impact of the June 2015 caseload revisions (even though those would be in a 2016 Supplemental Budget).

In accordance with Engrossed House Bill 2267, the state expenditure limit is temporarily suspended to facilitate compliance with the Supreme Court opinion in *McCleary v. State*.

Veto

The governor vetoed several sections of Engrossed Substitute Bill 6052 (Chapter 4, Laws of 2015, 3rd Sp.).

In fiscal year 2015, changes to general fund appropriated levels for the Health Care Authority (HCA) were vetoed. This had the impact of increasing appropriations by \$110 million of which the HCA was directed to place \$90.4 million in reserve. The Governor also vetoed a provision stating that the legislature did not intend to appropriate \$50 million into the local public safety enhancement account in the 2017-19 biennium. Several other provisions were also vetoed.

Additional Information

The 2015 legislature also amended the budget for the 2013-15 Biennium. On February 19, 2015, the Governor signed Substitute House Bill 1105 (Chapter 3, Laws of 2015). That bill made a series of appropriations for fiscal year 2015 which were additive to the then current budget. On June 30, 2015, the Governor signed Engrossed Substitute Bill 6052 (Chapter 4, Laws of 2015, 3rd Sp.) which made additional modifications to appropriated levels for the 2013-15 Biennium. The agency detail section of this report shows the cumulative impact of both bills.

REVENUE

The 2015-17 budget assumes revenue of \$37.4 as reflected in the May 2015 revenue forecast. This represents a 9.2 percent increase in revenues over the 2013-15 biennium.

General Fund revenue-related issues of the 2015 session included K-12 funding, the taxation of marijuana, the extension of several significant soon-to-expire tax preferences, and additional revenue options for local governments.

Chapter 70, Laws of 2015, 3rd sp.s. (2SSB 5052) extended the regulatory framework for recreational marijuana to medical marijuana. This change is expected to significantly increase marijuana tax collections by applying to medical marijuana many of the same regulatory and taxation requirements currently applicable to recreational marijuana. Chapter 4, Laws of 2015, 3rd sp.s. (2E2SHB 2136) simplifies the taxation of marijuana by creating a single tax rate at the retail level, providing a sales and use tax exemption for qualifying medical marijuana patients, distributing a portion of state marijuana tax collections to local governments, and making other regulatory changes.

A portion of the increased revenue assumed in the enacted operating budget for 2015-17 comes from tax changes in Chapter 5, Laws of 2015, 3rd sp.s. (ESSB 6138). This legislation increases state revenue by eliminating a preferential tax rate for royalty income, narrowing a sales and use tax exemption for machinery and equipment, increasing penalties related to delinquent taxes, and modifying nexus standards for certain out-of-state businesses doing business with Washington customers. These changes are estimated to increase General Fund-State revenues by \$185.2 million in the 2015-17 biennium.

Several significant tax preferences were set to expire on July 1 of this year. Chapter 6, Laws of 2015, 3rd sp.s. (ESSB 6057) is an omnibus tax preference bill that extends or creates thirteen tax preferences. Additionally, the bill addresses administrative changes for unclaimed property reporting requirements. This bill is estimated to decrease General Fund-State revenues by \$35.4 million over the 2015-17 biennium.

The legislature passed several bills relating to local government finance. This includes a bill (Chapter 24, Laws of 2015, 3rd sp.s. (ESHB 2263)) that would give counties and cities the authority to impose a local sales and use tax or property tax to fund cultural access programs.

Revenue Legislation

PROVIDING A PROPERTY TAX EXEMPTION FOR INDUSTRIAL/MANUFACTURING FACILITIES – NO IMPACT TO GENERAL FUND-STATE

Chapter 9, Laws of 2015, 1st sp.s. (ESB 5761) allows a 10-year property tax exemption on the value of new construction of industrial/manufacturing facilities that create family living wage jobs in targeted urban areas.

SIMPLIFYING THE TAXATION OF AMUSEMENT AND RECREATIONAL SERVICES - \$2.0 MILLION GENERAL FUND-STATE DECREASE

Chapter 169, 2015 Laws (HB 1550) simplifies the taxation of recreational services by replacing the term "amusement and recreation service" in the definition of "retail sale" with a specific list of retailing activities of an amusement or recreation nature. The term "physical fitness services" is removed from the definition of "retail sale." Instead, "retail sale" includes the operation of an "athletic or fitness facility." With certain exceptions, all charges for the use of an athletic or fitness facility are retail sales, including any charges associated with services or amenities. The sales tax exemption for charges for the "opportunity to dance" is made permanent.

RELATING TO JUVENILE RECORDS AND FINES - \$200,000 GENERAL FUND STATE DECREASE

Chapter 265, Laws of 2015, PV (E2SSB 5564) reduces or eliminates fines on several types of juvenile criminal offenses.

CONCERNING A PROPERTY TAX EXEMPTION FOR SENIOR CITIZENS AND SERVICE-CONNECTED DISABLED VETERANS - NO IMPACT TO GENERAL FUND-STATE

Chapter 30, Laws of 2015, 3rd sp.s. (SSB 5186) increases the Senior Citizen and Disabled Persons Property Tax Relief Program income thresholds by \$5,000 for taxes levied for collection in 2016 and thereafter.

PROVIDING LOCAL GOVERNMENTS TAX AUTHORITY OPTIONS - NO IMPACT TO GENERAL FUND-STATE

Chapter 24, 2015 Laws 3rd sp.s (ESHB 2263) provides local governments options to provide services in their communities by permitting a county or city to create a cultural access program (CAP) and authorizes counties with a population of 1.5 million or less, or a city, to impose either a sales and use tax or a property tax levy to fund a CAP. A county with a population of 1.5 million or more may impose a sales and use tax to fund a CAP. In addition, the governing body of a county or city may impose a 0.1 percent local sales tax for housing and related services for specific individuals if approved by a majority of voters.

RELATING TO EXISTING LITTER TAX REVENUES - NO GENERAL FUND STATE IMPACT

Chapter 15, Laws of 2015 (ESHB 1060) makes permanent changes to allowable uses of litter tax revenues that were done as a one-time appropriation in the 2013-2015 operating budget. The matching fund grant program created in the 2013-2015 operating budget is also made permanent. There is no increase in the litter tax rate.

PROVIDING AN EXEMPTION FOR HOSTELS FROM THE CONVENTION AND TRADE CENTER TAX - \$42,000 GENERAL FUND-STATE INCREASE

Chapter 151, Laws of 2015 (SHB 1516) exempts hostels that primarily sell lodging services on an individual bed, shared room basis from the convention and trade center tax. In addition, the King County Public Facilities District is no longer authorized to levy the state-shared hotel motel tax on sales of lodging at a hostel.

RELATING TO UNCLAIMED PRIZES IN THE STATE LOTTERY ACCOUNT - \$15.2 MILLION GENERAL FUND STATE INCREASE (ACTUALLY OPPORTUNITY PATHWAYS ACCT)

Chapter 31, 2015 Laws 3rd sp.s (ESSB 5681) transfers any balance of unclaimed prizes in excess of \$10 million dollars from the state lottery account to the Opportunity Pathways Account on June 30 of each fiscal year.

**PROVIDING USE TAX RELIEF FOR INDIVIDUALS WHO SUPPORT CHARITABLE ACTIVITIES - \$10,000
GENERAL FUND-STATE DECREASE**

Chapter 32, 2015 Laws 3rd sp.s (ESB 6013) increases the use tax exemption amount for items purchased or received from a nonprofit organization or library from \$10,000 to \$12,000 and extends the expiration date for the exemption to July 1, 2020.

**ESTABLISHING THE CANNABIS PATIENT PROTECTION ACT - \$41.1 MILLION GENERAL FUND-STATE
INCREASE**

Chapter 70, 2015 Laws (2SSB 5052) requires licensed marijuana retailers to obtain a medical marijuana endorsement to sell medical-grade marijuana to qualifying patients and designated providers and requires the marijuana excise tax to be collected and remitted. Requires qualifying patients and designated providers to be entered into the Medical Marijuana Authorization Database and obtain a recognition card to have additional amounts of marijuana products and arrest protection. Eliminates collective gardens and replaces them with cooperatives which may only have four qualifying patients or designated providers and must be registered with the Liquor and Cannabis Board and provides a B&O tax exemption for marijuana produced and used by members of the cooperatives.

**CONCERNING COMPREHENSIVE MARIJUANA MARKET REFORMS - \$14.8 MILLION GENERAL FUND-STATE
INCREASE**

Chapter 4, 2015 Laws 2nd sp.s (2E2SHB 2136) eliminates the 25 percent marijuana producer and processor taxes and increases the 25 percent retailer tax to 37 percent and specifies that the tax is levied on the buyer. Clarifies the tax treatment of bundled transactions at licensed marijuana retail stores and prohibits conditional sales by any marijuana business. Provides a sales and use tax exemption to qualifying patients and designated providers. Provides marijuana tax revenues for local jurisdictions, distributed based on retail sales and population, at an annual cap of \$15 million per fiscal year for the 2017-2019 biennium and \$20 million per fiscal year thereafter and \$12 million for cities and counties for distribution, based on retail sales only, in the 2015-2017 biennium. Permits local jurisdictions to revise the buffer distance provisions for the siting of marijuana licensees and requires notice to certain nearby entities. Subjects medical marijuana cooperatives to buffer distances similar to marijuana licensees.

CONCERNING TRANSPORTATION REVENUES - NO GENERAL FUND-STATE IMPACT

Chapter 44, 2015 Laws 3rd sp.s (2ESSB 5987) provides transportation revenue and modifies or extends transportation related tax preferences. The following parts impact general fund state revenues:

- **Alternative Fuel Commercial Vehicle Tax Credits** - A credit is created against the business and occupation tax and public utility tax for a portion of the purchase price of an alternative fuel commercial vehicle. Credits are limited to \$6 million annually and may be earned through January 1, 2021. A quarterly transfer is established from the Multimodal Transportation Account to the General Fund in amounts equal to the credits taken. These sections are known as the clean fuel vehicle incentives act.
- **Alternative Fuel Vehicle Sales and Use Tax Exemptions** - The sales and use tax exemptions on alternative fuel passenger vehicles are extended until July 1, 2019; expanded to include plug-in hybrid vehicles; and limited to apply only to vehicles with a selling price of \$35,000 or less. A quarterly transfer is established from the Multimodal Transportation Account to the General Fund in amounts equal to the exempt amounts.
- **Commute Trip Reduction Tax Credit Program** - The commute trip reduction tax credits and corresponding quarterly transfers from the Multimodal Transportation Account to the General Fund are extended until June 30, 2024 at \$2,750,000 per year.

Chapter 6, 2015 Laws 3rd sp.s (ESSB 6057) modifies, extends, or creates thirteen tax exemptions. In addition, the bill addresses administrative changes for unclaimed property reporting requirements. The following parts are included:

- **Extend Expiration Date of Food Processing Tax Preferences - \$12.7 Million General Fund-State Decrease** - The B&O tax exemptions for food processors are extended from July 1, 2015, to July 1, 2025. A tax preference performance statement is included. The stated public policy objectives of the act are to create and retain jobs in the food processing industry and to provide tax relief.
- **Data Center Server Equipment Sales and Use Tax Exemption - \$12.5 Million General Fund-State Decrease** - A sales and use tax exemption is provided for eligible server equipment and eligible power infrastructure located in data centers in which construction commences between July 1, 2015, and July 1, 2025. Eligible server equipment is equipment installed in a data center built after July 1, 2015, and includes original server equipment and replacement server equipment. The exemption for replacement server equipment continues for twelve years. Substations do not qualify as eligible power infrastructure. Data centers built between 2012 and July 1, 2025, can receive a sales tax exemption for replacement servers for twelve years instead of eight. Qualifying data centers are limited to eight from July 1, 2015 to July 1, 2019, and no more than 12 until July 1, 2025, on a first-come, first-served basis.
- **Pilot Program - Washington State Job Creation - \$3.2 Million General Fund-State Decrease** - The Invest in Washington pilot program is established to evaluate the effectiveness of providing a tax incentive for businesses that invest in manufacturing facilities and equipment and reinvest those tax savings in employee training programs. The pilot program consists of up to five qualified industrial facilities, of which at least two must be located in eastern Washington. An eligible investment project includes up to \$10 million in sales and use tax on construction costs or purchases of qualified machinery and equipment. Amounts paid for the construction of qualified buildings, machinery, and equipment are eligible for a sales and use tax deferral. The recipient of a deferral must begin repaying the deferred taxes five years after the date that the project is complete. There is no interest charged on deferred taxes, and the taxes may be repaid over a ten-year period in equal annual payments.
- **Extend Aluminum Smelters Tax Preferences - \$2.7 Million General Fund-State Decrease** - The aluminum industry tax preferences that are set to expire in 2017 are extended for ten years to 2027. A tax preference statement is included that directs JLARC to measure the effectiveness of the exemption in preserving employment positions within the industry by evaluating the change in the number of aluminum industry employment positions in Washington State.
- **Modify Newspaper Preferential Tax Rate - \$400,000 General Fund-State Decrease** - Both the electronic version of a newspaper and the newspaper will be subject to the B&O tax at the rate of 0.35 percent. If the subscription revenue for the electronic version of a newspaper exceeds that of the traditional revenue, the newspaper will be taxed at the rate of .471 percent for subscriptions and 1.5 percent for advertising.
- **Reduce the Public Utility Tax Rate for Log Transportation - \$1.8 Million General Fund-State Decrease** - The PUT rate is permanently reduced from 1.926 percent to 1.3696 percent on the hauling of logs over public highways. The hauling of logs over private roads is subject to the B&O tax under the service and other activities classification. The taxation of the transportation of logs that occur exclusively over private roads is not affected.
- **Provide a Use Tax Exemption to Increase Jobs in the Maritime Trades Industry - \$2.3 Million General Fund-State Decrease** - The availability of use permits for purposes of vessel sales and use taxation is extended to nonresident business entities, e.g. corporations, limited liability companies, partnerships, etc. A fee structure is established for nonresident business entities with vessels between 30 and 164 feet to obtain a vessel permit to use the vessel in Washington; however nonresident business

entities are only authorized to purchase two permits in a 36 month period. A JLARC review is required and the use tax exemption expires in 2025.

- **Providing a Business and Occupation Tax Credit to Hire Veterans - \$500,000 General Fund-State Decrease** - B&O or PUT tax credits are provided to businesses that provide positions to qualified employees, defined as an unemployed veteran who is employed in a permanent full-time position for at least two consecutive full calendar quarters. The credit is equal to 20 percent of wages and benefits paid up to a maximum of \$1,500 for each qualified employment position filled by an unemployed veteran. The credits are available on a first-in-time basis not to exceed \$500,000 in any fiscal year. Credits disallowed in one year can be carried over to the next fiscal year. This credit expires July 1, 2023.
- **Provide Permanent Tax Preferences for Honey Bee Products and Services - No Impact to General Fund-State** - The definitions of agricultural product and farmer are amended to include apiarists and honey bee products. Therefore, the tax exemptions provided to agricultural products and farmers are extended to apiarists and honey bee products and are intended to be permanent. By modifying these definitions, the temporary, industry-specific, honey bee tax exemptions become redundant and are repealed.
- **Providing a Permanent Sales and Use Tax Exemption for Wax and Ceramic Molds - \$600,000 General Fund-State Decrease** - The expiration date for the sales and use tax exemption for wax, ceramic materials, and labor related to the creation of investment castings used in industrial applications is eliminated. The tax preference performance statement categorizes the tax preference as one intended to reduce a structural inefficiency and exempts this tax preference from the mandatory expiration date or a joint legislative audit and review committee analysis.
- **Hazardous Substance Tax Exemption for Agricultural Crop Protection Products - No Impact to General Fund-State** - An exemption from the hazardous substance tax imposed under MCTA is created. It applies to the possession of an agricultural crop protection product when that possession is solely for use by a farmer or certified pesticide applicator and the product is warehoused in Washington or transported to or from Washington. To qualify for this exemption, the person possessing the product may not use, repackage, manufacture, or sell the product in Washington.
- **Taxation of Rental Property by Nonprofit Fair Associations - No Impact to General Fund-State** - The exception for property purchased or acquired by the nonprofit fair association from a county or a city between 1995 and 1998 does not expire after 2018. If any portion of the property is knowingly rented for more than 50 days, the exemption still applies but the rental income is subject to leasehold excise tax.
- **Improving Administration of Unclaimed Property Laws - \$1.3 Million General Fund-State Increase** The penalty provisions of the Unclaimed Property Act are restructured. The current 100 percent penalty for willful failure to file a report or provide notice to apparent property owners is replaced with the following penalties:
 - 10 percent for failure to file a report or pay or deliver property under a report; and
 - 10 percent assessment penalty with an additional 5 percent penalty if the assessment is not paid by the due date.

INCREASING STATE REVENUE THROUGH IMPROVED COMPLIANCE AND ELIMINATING TAX PREFERENCES - \$185.3 MILLION GENERAL FUND-STATE INCREASE

Chapter 5, 2015 Laws 3rd sp.s (ESSB 6138) increases state revenue by eliminating tax preferences and improving compliance through data collection methods. The following parts are included:

- **Eliminates the Preferential Tax Rate for Royalty Income - \$31.4 Million General Fund-State Increase** - The preferential B&O tax rate for royalty income is eliminated. This income is subject to the 1.5 percent B&O tax rate and will qualify for the increased small business credit.
- **Modify Nexus Standards - \$73.7 Million General Fund-State Increase** - Nexus standards are modified to include remote sellers who:
 - enter into agreements with Washington residents who, for a commission or other consideration, refer potential customers to the remote seller such as by a link on a website; and
 - generate more than \$10,000 in gross receipts during the prior calendar year under such agreements from sales into this state.

This type of nexus is referred to as "click-through" nexus. This change in nexus standards will require these remote sellers to collect and remit Washington sales tax for sales made into the state. Remote sellers that collect and remit retail sales tax will also be required to pay B&O tax on their Washington sales.

Economic nexus standards are extended to out-of-state businesses with no physical presence in Washington, but who make wholesale sales into Washington. If these businesses have more than \$267,000 of receipts from this state, then economic nexus standards with Washington will apply and these business will be required to remit wholesaling B&O tax at the rate of 0.484 percent.

- **Narrow the Manufacturing Machinery Equipment Sales Tax Exemption - \$57.2 Million General Fund-State Increase** - The definition of "manufacturer" is clarified to include those engaged in the development of prewritten computer software that is not transferred to purchasers by means of tangible storage media rather than electronically, and excludes an "ineligible person" from taking the manufacturing machinery and equipment sales and use tax exemption. An "ineligible person" includes all members of an affiliated group of two or more entities where:
 - at least one member was registered with the Department on or before July 1, 1981, and the group has a combined full and part-time employment of 40,000 as of August 1, 2015.
 - The group's business activities must also primarily involve the development, sales, and licensing of computer software and services.
- **Increase Late Payment Penalties - \$22.9 Million General Fund-State Increase** - The penalties for late tax returns are increased by 4 percent to:
 - 9 percent from one day after the due date to the last day of the month following the due date;
 - 19 percent from the first day of the second month following the due date to the last day of that month; or
 - 29 percent from the first day of the third month to the last day of that month.

JUDICIAL

Judicial Branch Revenue

Under RCW 2.68.040(1)(a) and 46.63.110(3), the Washington State Supreme Court may provide by rule for an increase of monetary fines, penalties and assessments for support of the Judicial Information Systems (JIS) Account. Exercising this authority, the Court increased the traffic infraction base penalty schedule and the JIS Account assessment, each by \$6, effective July 1, 2015. As a result, revenue to the JIS Account is estimated to increase \$8.5 million in the 2015-2017 biennium and \$11.3 million each biennium thereafter. Revenue to the state general fund is also estimated to increase \$4.6 million in the 2015-2017 biennium and \$6.2 million each biennium thereafter.

Administrative Office of the Courts

Funding of \$27.2 million from the Judicial Information Systems (JIS) Account is provided for the following information technology expenditures:

- One-time funding of \$12.6 million to continue implementation of a new commercial off-the-shelf case management system for the superior courts.
- One-time funding of \$3.8 million for the preparation, development, and implementation of the new case management system for courts of limited jurisdiction (CLJ-CMS). This project may begin January 1, 2016.
- One-time funding of \$6.8 million from the JIS Account and \$1.75 million from the General Fund-State for the expansion, development, and implementation of the information networking hub (INH) to support the CLJ-CMS.
- One-time funding of \$1.85 million to replace computers at local courts and state judicial agencies.
- One-time funding of \$1.3 million for software upgrades to replace computer data center equipment including servers, routers, and storage system upgrades.
- On-going funding of \$580,000 for JIS maintenance costs.
- One-time funding of \$313,000 to continue the implementation of the new commercial off-the-shelf (COTS) case management system for the appellate courts. These funds are shifted from the 2013-15 biennium.

Funding for grants distributed to county clerks for collecting legal financial obligations will be dispersed directly to counties through the State Treasurer's Office rather than through the Administrative Office of the Courts.

Office of Public Defense

The Parents for Parents Program is a peer mentoring program for parents in dependency proceedings that was first established at the Department of Social and Health Services. Pursuant to Chapter 117, Laws of 2015 (2SSB 5486), the program will reside at the Office of Public Defense and funding is provided to maintain the current programs in Grays Harbor/Pacific, King, Kitsap, Pierce, Snohomish, Spokane, and Thurston/Mason counties and expand services in three locations. Funds are also provided for the first stage of an evaluation to determine if the Parents for Parents Program can be considered evidence-based.

Additional funding, \$1.8 million General Fund-State, is provided for the Office's Public Defense Improvement program under Chapter 10.101 RCW, which provides grants to counties and cities for the purpose of improving trial court public defense services

Office of Civil Legal Aid

An additional \$997,000 is provided for the Child Dependency Representation Program. The program began in 2014 with the passage of Chapter 108, Laws of 2014 (E2SSB 6126), which requires a court to appoint an attorney for a child in a dependency proceeding six months after granting a petition to terminate the parent and child relationship and when there is no remaining parent with parental rights. With the additional funds, it is estimated that counties will no longer be required to pay a portion of the cost to provide legal services to eligible children. To manage within appropriated amounts, the Office is directed to implement the program using attorneys under state contracts similar to the Parents Representation Program at the Office of Public Defense.

GOVERNMENTAL OPERATIONS

Department of Commerce

The Department of Commerce (Commerce) administers a variety of state programs focused on enhancing and promoting sustainable community and economic vitality in Washington.

Enhancements were made to homeless programs focusing on youth. Chapter 69, Laws of 2015 (2SSB 5404) created the Office of Homeless Youth Prevention and Protection Programs (OHYPPP) within Commerce. \$11.8 million for secure and semi-secure crisis residential centers, HOPE beds, and outreach to street youth programs is transferred to the OHYPPP from the Department of Social and Health Services. \$867,000 is provided to the OHYPPP to manage these programs, provide policy direction, perform data collection, and perform other activities to improve services to the state's homeless youth population. An additional \$1 million is provided to the Washington Youth and Families Fund for grants to fund supportive services in conjunction with housing to address underlying causes of youth and family homelessness.

Other enhancements include:

- \$1.7 million to continue the Financial Fraud and Identity Theft Crimes Investigation and Prosecution Program. Chapter 65, Laws of 2015 (HB 1090) extended the program until 2020. These funds are generated from surcharges on Uniform Commercial Code filings, which were increased by the legislation allowing the program to expand into Snohomish County.
- \$1.1 million for the Agricultural Labor Skills and Safety Program created under Chapter 68, Laws of 2015 (SHB 1127). \$1 million of the funds will be provided to a community-based organization to program health and safety training to agricultural workers. The grant program expires July 1, 2018.
- \$524,000 to implement Chapter 296, Laws of 2015 (ESSB 5826), which creates the Washington Small Business Retirement Marketplace Program in Commerce. Commerce will contract with a private entity to connect small businesses with an array of private retirement plan options for employers and their employees to access.
- \$176,000 is provided to Commerce to implement legislation addressing human trafficking. Funds will be used to staff the Washington State Task Force on Human Trafficking created by Chapter 273, Laws of 2015 (ESSB 5884) and to operate an information portal to coordinate statewide efforts to combat the trafficking of persons. Funds are also provided to develop a training program for state criminal justice personnel on the state's human trafficking laws pursuant to Chapter 101, Laws of 2015 (SSB 5933).

Reductions to Commerce programs include the elimination of grants to counties and cities for costs related to aerospace and other manufacturing facility permitting activities (\$2.5 million) and grants for state drug task forces (\$1.3 million).

Information Technology Agencies

Chapter 1, Laws of 2015, 3rd sp. s (2SSB 5315) merges certain information technology functions of the Department of Enterprise Services (DES) and the Office of the Chief Information Officer (OCIO) into the Consolidated Technology Services agency (CTS). The reorganization is intended to improve and streamline information technology project oversight, policies and delivery. The reorganization also results in \$2.4 million in administrative savings.

The OCIO is provided with \$1.45 million to develop and oversee a statewide strategy for time capture, payroll and payment, eligibility and authorization processes for public assistance programs. \$1.6 million is also provided to the OCIO to continue development of the Washington Business One-Stop Portal.

Liquor & Cannabis Board

Funding is provided for the implementation of Chapter 70, Laws of 2015, Partial Veto, (2SSB 5052) which addresses the medical marijuana industry. Funds are also provided to implement Chapter 4, Laws of 2015, 2nd sp. s. (2E2SHB 2136), which makes changes to the taxation of marijuana and other market reforms. The Liquor & Cannabis Board (LCB) will conduct additional rulemaking, update information technology, and implement licensing activities related to medical and recreational marijuana production, distribution, and sales. Expenditure authority from the Dedicated Marijuana Account is increased by \$5 million to reflect these costs.

Additionally, expenditure authority from the Liquor Revolving Fund is increased by \$2.6 million on an on-going basis to fund twelve additional enforcement officers to reduce the amount of smuggled, contraband, and otherwise untaxed cigarette and tobacco products. With these additional resources for the enforcement of cigarette and other tobacco tax laws, the Department of Revenue is expected to generate an additional \$25 million in state and local revenues during the 2015-17 biennium.

Savings of \$4.8 million from the Liquor Revolving Account are achieved through the elimination of vacant positions and other administrative efficiencies.

Office of Financial Management

The Office of Financial Management is provided \$2 million through a new state agency central service charge for planning and preparation efforts to replace the state's core financial systems. The Office is also provided \$13.8 million to pre-pay the debt service for the statewide Time, Leave, and Attendance system (TLA), a project that is discontinued. Administrative efficiencies, eliminating several vacant positions, and removing excess expenditure authority also result in \$1.4 million of savings.

State Lottery Commission

In order to generate an additional \$12 million of revenue for the Opportunity Pathways Account, which is used to fund higher education, the Lottery is directed to adjust lottery retail sales commissions from an estimated 6.1 percent of sales to 5.1 percent of sales. State lottery advertising expenses are also directed to be reduced by \$2 million.

Chapter 31, Laws of 2015 (SSB 5681) authorizes the transfer of State Lottery Account funds to the Gambling Revolving Fund as directed in the omnibus appropriations act. A transfer of \$1 million was directed for the support of the Washington State Gambling Commission's regulation and law enforcement programs. Additionally, the legislation directs that any balance of unclaimed prizes in excess of \$10 million be transferred to the Washington Opportunity Pathways Account on June 30 of each fiscal year. This results in an estimated \$14.8 million transfer during the 2015-17 biennium and each biennium thereafter.

Public Disclosure Commission

Ongoing state general funds of \$305,000 are provided to the Public Disclosure Commission to upgrade in-house information technology systems. The Commission will invest in a hosted, cloud-based communications platform and case management system to improve efficiency and customer services.

Office of the Secretary of State

Federal Help America Vote Act (HAVA) funds used to maintain and operate the statewide voter registration database ended in the 2013-15 biennium. Therefore, \$3.17 million on-going state general funds are provided to replace the federal funds.

To finance the replacement and upgrade of TVW cameras and other video equipment throughout the Capitol campus, \$1.7 million in state general funds is provided to the Secretary of State. Financing costs are expected to be repaid over the next five years.

Additionally, \$1.5 million is provided to purchase statewide online access to an Information Technology Academy to allow public access to online courses and learning resources through public libraries.

Revenues to the Washington State Heritage Center Account are anticipated to be lower during the 2015-17 biennium. In response, Chapter 28, Laws of 2015, 3rd sp. s. (HB 2195) increases the surcharge collected by county auditors or recording officers for recording instruments from \$2 to \$3. This surcharge will generate an estimated \$2.9 million, which will be deposited into the Washington State Heritage Center Account to be used to fund State Library programs.

Department of Revenue

Funding is provided for Certificate of Participation (COP) financing to complete the next phase of the replacement of the core tax collection and licensing systems. The Department of Revenue will replace these legacy systems to reduce operational risks and increase available features.

Military Department

An expenditure authority of \$5 million is provided from the Enhanced 911 Account to upgrade the current 911 telephone system to accommodate Next Generation 911 technology. Financial assistance will be provided to 16 counties for the replacement of 911 telephone equipment that is at the end of its life and will not be supported by the manufacturer.

To address deficiencies in communications infrastructure for 911 dispatch, \$1.9 million in Disaster Response Account funds is provided to Okanogan and Ferry counties on a one-time basis. Funds will be used to replace failing radio dispatching hardware within 911 dispatch centers; build interoperability between each county's dispatch centers such that each can serve as a back up to the other; and build a wireless microwave network for 911 calls, dispatch centers, and first responder radio operations.

Utilities and Transportation Commission

In order to implement reforms in oil by rail safety pursuant to Chapter 274, Laws of 2015 (ESHB 1449), expenditure authority from the Public Service Revolving Account is increased for staffing to increase grade crossing inspections and adopt rules for private grade crossings.

DEPARTMENT OF SOCIAL AND HEALTH SERVICES

Children and Family Services

The Department of Social and Health Services (DSHS) Children's Administration (CA) administers Child Protective Services (CPS), which responds to reports of child abuse or neglect through investigations or Family Assessment Response (FAR). FAR is an alternative to the investigative response that aims to safely avoid out-of-home placement by providing basic needs and engaging families in services. CA also administers the foster care system for children in out-of-home placements with caregivers and the adoption support program for special needs children adopted from state foster care. Dependent youth with high-level needs may be served through Behavioral Rehabilitative Services (BRS). Additionally, CA contracts for a variety of prevention, intervention, and other services to children and families involved in the child welfare system.

A total of \$1.2 billion (\$668 million General Fund-State) is provided for services to children and families. This represents a \$90 million increase (8.1 percent) in total funds from amounts appropriated in the 2013-15 biennial budget.

A total of \$16.7 million (\$12.5 million General Fund-State) is provided to fund the mediated legal agreement with the Foster Parents Association of Washington State (FPAWS). Under the agreement, basic foster care maintenance rates are increased from a monthly average of \$500 to \$649 per child to reflect the estimated costs of the child's shelter and other basic needs.

An increase of \$7.3 million total funds (\$6.4 million General Fund-State) is provided to support compliance with the Braam Settlement, which established performance outcomes for foster care services; to promote closure of CPS investigations within 90 days; and to expand the CPS FAR pathway to additional CA field offices.

A total of \$5.1 million (\$3.9 million General Fund-State) is provided to increase BRS vendor rates by 3 percent effective July 1, 2015, and an additional 3 percent effective July 1, 2016.

A total of \$5.9 million (\$4.2 million General Fund-State) is provided to support and expand Extended Foster Care (EFC). EFC provides monthly maintenance payments and other supports to eligible young adults age 18-21 who were dependent at age 18.

Juvenile Rehabilitation Administration

A total of \$191.9 million (\$183.4 million General Fund-State) is provided for the Juvenile Rehabilitation Administration (JRA) for treatment and intervention services for juvenile offenders. The JRA system is budgeted to provide incarceration for a monthly average of 494 juvenile felons in residential facilities and supervision to a monthly average of 306 youth on parole. Funding is also provided for grants to county juvenile courts and communities for alternative dispositions, evidence-based treatment, and other prevention and intervention services. The JRA funded level represents an increase of 2.6 percent from the 2013-15 biennium.

The budget achieves savings of \$3.3 million by using marijuana tax revenue provided through a memorandum of understanding with the DSHS Division of Behavioral Health and Recovery in lieu of General Fund-State for juvenile offender substance abuse treatment.

Mental Health

Mental health services for those living with severe, chronic, or acute mental illnesses are administered primarily through DSHS. These services include operation of two adult state hospitals that deliver psychiatric treatment to

clients on civil or forensic commitment orders and for the Child Study Treatment Center, which is a small psychiatric inpatient facility for children and adolescents. In addition, DSHS contracts with 11 Regional Support Networks (RSNs) as local administrative entities to coordinate crisis response, community support, and residential and resource management services through a network of community providers. Services for Medicaid-eligible consumers within each RSN are provided through a capitated Prepaid Inpatient Health Plan. Limited services that cannot be reimbursed through the Medicaid program are provided within available state and local resources.

A total of \$2.3 billion (\$1.1 billion in General Fund-State) is provided for operation of the public mental health system. This reflects an increase in total funds of \$427.4 million (23 percent) from the 2013-15 biennium.

- A net increase of \$174.9 million in total funding to maintain Medicaid expansion under the Affordable Care Act (ACA) and adjust Medicaid rates to comply with federal requirements for actuarially sound rates. The expansion allowed some low-income individuals that were previously ineligible for Medicaid to enroll in Medicaid effective January 2014.
- An increase of \$57.2 million in total funds (\$39 million in General Fund-State) is provided in additional resources to reduce psychiatric boarding as required under *D.W. v. DSHS*. This includes \$49.6 million for increased community evaluation and treatment beds and \$7.6 million for a 30-bed civil commitment ward at Western State Hospital.
- An increase of \$40.9 million in total funds (\$38.9 million in General Fund-State) is provided in additional resources to meet timely completion of competency evaluation and restoration services for in-custody defendants as required under *Trueblood v. DSHS* and as provided under legislation enacted during the 2015 session. This includes funding for 90 competency restoration beds, 18 staff for improving the timeliness of competency evaluations and other requirements related to implementation of: Chapter 5, Laws of 2015 (SSB 5889), which sets the maximum time limits for competency to stand trial services; and, Chapter 7, Laws of 2015 1st sp.s. (2ESSB 5177), which establishes an Office of Forensic Mental Health within DSHS and allows prosecutors to dismiss charges when competency to stand trial is raised as a defense and refer the defendant for assessment.
- An increase of \$23 million in total funds (\$14.3 million in General Fund-State) is provided for the implementation of legislation enacted during the 2015 session to improve community mental health services. This includes the following: Chapter 258, Laws of 2015 (E2SSB 5269), which allows for a family member, guardian, or conservator to petition the court for review of a decision to not detain a person under the involuntary treatment act; and, Chapter 250, Laws of 2015 (E2SHB 1450), which provides for involuntary treatment in an outpatient setting.
- An increase of \$9.4 million in General Fund-State is provided to improve safety at state hospitals. This funding includes creation of psychiatric intensive care units (PICUs), psychiatric emergency response teams (PERTs), and staff training.
- Savings of \$54.3 million in total funds (\$37.5 million in General Fund State) are to be achieved by a variety of savings strategies including reducing RSN Medicaid rates, eliminating non-Medicaid funding for former residents of the Program for Adaptive Living Skills, and re-financing community inpatient bed days that were previously paid for with state dollars through a federal waiver.

Aging and Disabilities Services (Developmental Disabilities and Long-Term Care)

Within DSHS, the Aging and Long Term Support Administration administers the Long Term Care (LTC) Program and the Developmental Disabilities Administration administers the Developmental Disabilities (DD) Program. These programs provide long-term supports and services to vulnerable adults and children in residential, community, and in-home settings. While these programs serve two distinct populations, they are both institutionally-based Medicaid entitlement programs with options for home and community services that share some vendors including represented home care workers and adult family homes. The entitlement program in LTC

is the nursing home or skilled nursing facility program. The entitlement program in DD is the state-operated Residential Habilitation Centers (RHCs). Total funding for these two programs combined accounts for 50 percent of the DSHS budget, and is approximately \$7.0 billion total (\$3.2 billion General Fund-State) in budgeted expenditures for the 2015-17 biennium. This represents an 18.1 percent increase from the 2013-15 funded level, predominately due to the collective bargaining agreement for home care workers.

The 2015-17 operating budget includes the following items (which impact both programs):

- A total of \$260 million (\$116 million General Fund-State) is provided to fully fund the 2015-17 collective bargaining agreement for individual providers. This includes phased-in changes and increases to the wage scale, increases in health care contributions, increases in the training contribution, an increase in personal time, and a retirement benefit contribution. This includes funds to meet statutory parity requirements for home care agencies.
- A total of \$40 million (\$17 million General Fund-State) is provided to fully fund the 2015-17 arbitration award for adult family homes. Beginning July 1, 2015, the vendor rate is increased by 5 percent. Beginning July 1, 2016, the vendor rate is increased by 10 percent.
- A total of \$16 million General Fund-State is provided to fully restore the portion of Lean management savings distributed to LTC and DD.
- A total of \$8 million (\$4 million General Fund-State) is provided to increase the vendor rate for assisted living providers by 2.5 percent, beginning July 1, 2015.

The following items from the 2015-17 operating budget are unique to each program and are therefore described separately:

Developmental Disabilities

- A total of \$40 million (\$20 million General Fund-State) is provided to increase the benchmark rate for supported living providers, group homes, and licensed staff residential providers. Beginning July 1, 2015, the vendor rate is increased by 4 percent. Beginning July 1, 2016, the vendor rate is increased by 8 percent. Funding is also provided to standardize administrative rates and develop an electronic rate setting module in the Comprehensive Assessment Reporting Evaluation System.
- A total of \$14 million (\$7 million General Fund-State) is provided for additional staff to ensure compliance with Centers for Medicare and Medicaid Services (CMS) requirements for habilitation, nursing care, staff safety, and client safety at the RHCs. Funding is provided for specialized services, such as community access and therapies, required by CMS as a result of Pre-Admission Screening and Resident Review Assessments.
- A total of \$4 million (\$2 million General Fund-State) is provided to develop short-term community-based respite services across the state for individuals with developmental disabilities as an alternative to using respite services in an institutional setting.

Long Term Care

- A total of \$77 million (\$7 million in General Fund-State savings) is provided to delay the scheduled rebase on nursing facility payment rates, maximize the safety net assessment for nursing facilities, and implement a new methodology for calculating nursing facility rates.
- A total of \$10 million (\$5 million General Fund-State) is provided to lower the ratio of case-carrying staff to clients at the Area Agencies on Aging from 1-to-75 to 1-to-70 during the 2015-17 biennium.

Economic Services Administration

The Economic Services Administration (ESA) operates a variety of programs for low-income persons and families. These programs include the federal Supplemental Nutritional Assistance Program (SNAP), the State Food Assistance Program, the Aged, Blind, or Disabled Assistance Program, the WorkFirst/Temporary Assistance for Needy Families (TANF) Program, and assistance to refugees. ESA also determines eligibility for a variety of state assistance programs.

A total of \$2.1 billion (\$854 million General Fund-State) is provided to ESA for administration of programs and delivery of services. This reflects an increase in total funds of \$58.9 million (2.8 percent) from the estimated amount needed to maintain the current level of services and activities.

State general fund savings of \$84.4 million are achieved through forecasted caseload reductions in the TANF Program and the Working Connections Child Care (WCCC) Program, reductions in funding for work activities to reflect under-expenditures in those programs, and the use of unexpended federal grant and contingency funds to offset state expenditures. This includes savings assumed in the 2015 supplemental operating budget as well as the 2015-17 operating budget.

Other major policy changes for the 2015-17 biennium include:

- The monthly grant for recipients of TANF is increased by 9 percent (\$30.6 million General Fund-State).
- In accordance with Chapter 7, Laws of 2015 (2E2SHB 1491), eligibility periods for the WCCC program are increased to 12 months effective July 2016 (\$22.1 million General Fund-State).
- A 2 percent base rate increase is provided for WCCC providers (\$9.7 million General Fund-State).
- The monthly benefit for the State Food Assistance Program, which provides assistance to legal immigrants, is increased to 100 percent of the federal SNAP benefit level (\$9.6 million General Fund-State).
- Funding for incentive payments that were never implemented to TANF parents who participate in mandatory WorkFirst activities is eliminated (savings of \$15.9 million General Fund-State.)
- 90 FTEs at local community service offices are eliminated as a result of reduced ability to claim federal Medicaid and other policy steps (savings of \$15.6 million total funds.)
- Funding is reduced to reflect under-expenditures in incapacity exams and the Diversion Cash Assistance program (savings of \$7.6 million General Fund-State).
- Funding for the Washington Telephone Assistance Program which provides subsidized telephone assistance and community voicemail for eligible public assistance recipients is eliminated (savings of \$4.1 million General Fund-State).

Alcohol and Substance Abuse

The Alcohol and Substance Abuse Program coordinates state efforts to reduce the impacts of substance abuse and problem gambling on individuals and their communities. DSHS contracts with counties and community organizations to provide prevention, treatment, and other support services for individuals with problems related to alcohol, tobacco, drugs, and gambling. Effective April 1, 2016, most outpatient and residential services will shift from fee-for-service contracts and grants to managed-care contracts with Behavioral Health Organizations. DSHS also manages government-to-government contracts with 29 tribes for prevention and treatment services for Native Americans.

A total of \$631.3 million (\$129.7 million General Fund-State) is provided for alcohol and substance abuse services. This reflects an increase in total funds of \$180.9 million (40 percent) from the 2013-15 biennium. Major budget increases for the program include:

- An increase of \$110.2 million (\$13.9 million General Fund-State) to maintain Medicaid expansion under the ACA and adjust Medicaid rates to comply with federal managed care requirements for actuarially sound rates.
- An increase of \$14.2 million (\$12.3 million Dedicated Marijuana-State) for new services, research, and technical assistance for the prevention and treatment of alcohol and substance use disorders.
- An increase of \$6.8 million (\$2.3 million General Fund-State) to increase Medicaid rates for a variety of treatment providers.
- An increase of \$3.1 million in total funds (\$1.3 million in General Fund-State) for the increased substance use disorder treatment costs associated with implementation of Chapter 250, Laws of 2015 (E2SHB 1450), which provides for involuntary mental health treatment in an outpatient setting.

In addition, savings of \$16.5 million in General Fund-State will be achieved by utilizing some revenues from excise tax and fees on the sale of marijuana for substance use disorder treatment services previously funded through the general fund.

Comments:

1. **Reduce SSIF Staffing** - Two Supplemental Security Income Facilitator FTEs are eliminated to reflect a reduction in

Department of Social and Health Services

Children & Family Services

backlogged cases and changes in the foster care caseload and client mix. (General Fund-State, General Fund-Federal)

2. **FPAWS Litigation** - A mediated agreement has been achieved with the Foster Parents Association of Washington State (FPAWS). Under the agreement, the Children's Administration (CA) will increase basic foster care maintenance rates from a monthly average of \$500 per child to a monthly average of \$649 per child. The new rates are based on the estimated costs of providing a child with food, clothing, personal incidentals, and shelter. (General Fund-State, General Fund-Federal)
3. **Non-Forecasted Extended Foster Care** - Funding is provided to serve Behavioral Rehabilitative Services (BRS) youth enrolled in Extended Foster Care (EFC), and to fund the costs of other supportive services that are not currently funded through the foster care forecast. Funding for BRS-level youth in EFC assumes a rate increase for BRS vendors. (General Fund-State, General Fund-Federal)
4. **Family Child Care Providers** - Funding is provided for the collective bargaining agreement with family home child care providers that includes a 2 percent increase to base payment rates effective July 1, 2016, and a tiered reimbursement pilot in FY 2016. Funding provided to CA covers payment increases for providers serving children in child welfare-involved families and in the care of employed foster parents.
5. **Child Care Center Providers** - Funding is provided for center-based child care providers to receive a 2 percent increase to base payment rates effective July 1, 2016, and to participate in a tiered reimbursement pilot in FY 2016. Funding provided to CA covers payment increases for providers serving children in child welfare-involved families and in the care of employed foster parents.
6. **Braam Compliance and CPS** - Funding is provided for CA to allocate towards the following purposes: 1) reducing the caseloads of social workers serving children in foster care to support compliance with the Braam Settlement and reduce lengths of stay in foster care; 2) supporting the safe closure of Child Protective Services (CPS) investigations within 90 days of intake, when appropriate; and 3) progressing towards statewide expansion of the CPS Family Assessment Response pathway. No more than \$1.6 million total may be allocated towards CPS investigations. (General Fund-State, General Fund-Federal)
7. **Foster Child Educational Attainment** - Funding is provided for a contract to improve educational outcomes for dependent students at a second demonstration site beginning in FY 2017.
8. **Building Access Control System** - One-time funding is provided so that the building access systems in all DSHS offices are compatible with Windows 7 or higher. (General Fund-State, General Fund-Federal)
9. **Child Advocacy Centers** - Funding is increased for Child Advocacy Centers, which provide a child-centered approach to legal services for abused children and their families. (General Fund-State, General Fund-Federal)
10. **Domestic Violence Victims** - Funding is provided for CA to distribute to community-based organizations for domestic violence services pursuant to Chapter 275, Laws of 2015 (SSB 5631). (Domestic Violence Prevention Account-State)
11. **Extended Foster Care - Medical** - Funding is provided to implement Chapter 240, Laws of 2015 (SSB 5740), which expands eligibility for EFC to youth who are unable to engage in any other EFC-qualifying activities due to a documented medical condition. It is assumed that 12 percent of 60 percent of youth aging out of care will enroll in EFC through the documented medical condition category. Funding levels assume approval of the FPAWS settlement, which increases basic foster care rates. (General Fund-State, General Fund-Federal)
12. **Family Assessment Response Shortfall** - Based on the February 2015 foster care forecasts, no General Fund-State will be automatically transferred to the Child & Family Reinvestment Account (CFRA) in 2015-17. A total of \$9.5 million is provided on a one-time basis, using federal Temporary Assistance for Needy Families (TANF) dollars and special appropriations to the CFRA, to maintain Family Assessment Response in 29 CA field offices in 2015-17. Appropriation authority from the CFRA is reduced to reflect the new funding level. (General Fund-State, General Fund-Federal, Child and Family Reinvestment Account-State)
13. **One-Time Relocation** - One-time funding is provided for relocation expenses resulting from office expansions and consolidations statewide. (General Fund-State, General Fund-Federal)
14. **Ongoing Lease Adjustments** - Small office expansions are approved statewide. Funding provided for CA includes reduced lease costs in Tacoma and a new space in Puyallup. (General Fund-State, General Fund-Federal)
15. **Parents to Parents Program** - Funding within CA for the Parents for Parents Program is eliminated. Funding is provided for the Office of Public Defense to administer the Parents for Parents Program, pursuant to Chapter 117, Laws of 2015 (2SSB 5486).

18. **Supervised Visitation** - Funding is provided for contracted vendors to conduct court-ordered supervised visits between children in out-of-home care and their parents and siblings. (General Fund-State, General Fund-Federal)
19. **Performance Based Contracting** - Chapter 205, Laws of 2012 (E2SHB 2264) requires the CA to enter into performance-based contracts (PBCs) for family support and related services. One-time funding is provided for start-up costs associated with implementing PBCs in eastern Washington counties.
20. **Extended Foster Care - Employed** - Funding is provided for youth who qualify for Extended Foster Care due to being employed for 80 hours or more per month, as authorized under Chapter 122, Laws of 2014 (EHB 2335). Funding levels assume approval of the FPAWS settlement, which increases basic foster care rates. (General Fund-State, General Fund-Federal)
21. **State Public Employee Benefits Rate** - Health insurance funding is provided for state employees employed by general government agencies and institutions of higher education. Insurance for employees covered by the health insurance coalition is included in funding for their respective collective bargaining agreements. Based on claims data from the quarter ending in March 2015, and assuming that secular inflation meets average growth rates projected for private health insurance (4.2 percent per year), the insurance funding rate is adjusted from the carry-forward level of \$880 to \$840 per employee per month for FY 2016 and \$894 per employee per month for FY 2017. Surcharges for tobacco use and for spouses and domestic partners waiving other employer-offered coverage will continue during the 2015-17 biennium under the same terms as in FY 2015. (General Fund-State, Various Other Accounts)

Surcharges for tobacco use and for spouses and domestic partners waiving other employer-offered coverage will continue during the 2015-17 biennium under the same terms as in FY 2015. (General Fund-State, Various Other Accounts)
24. **Nonrep Job Class Specific** - Funding is provided for classified state employees who are not represented by a union for pay increases in specific job classes in alignment with other employees. (General Fund-State, Various Other Accounts)
25. **General Wage Incr-State Employees** - Funding is provided for wage increases for state employees who are not represented by a union or who are covered by a bargaining agreement that is not subject to financial feasibility determination. It is sufficient for a general wage increase of 3 percent, effective July 1, 2015; a general wage increase of 1.8 percent for employees who earn \$2,500 per month or more, effective July 1, 2016; and a general wage increase of 1 percent plus a \$20 per month increase for employees who earn less than \$2,500 per month, effective July 1, 2016. ⁽¹⁾ Includes unduplicated head count of children in licensed foster care placements (family foster care, behavioral rehabilitative services, and receiving care). Does not include unlicensed kinship care. The data are not comparable to editions of the Legislative Budget Notes (LBNs) prior to 2014, which included youth age 18 to 21 in the data for 2010 and subsequent years, and in editions published prior to 2012 which provided a duplicated count of children in licensed foster care. Official forecasts are now based on an unduplicated count of children in licensed foster care placements, and youth age 18 to 21 are forecast separately under Extended Foster Care.

⁽²⁾ Includes an unduplicated head count of youth age 18 to 21 receiving foster care maintenance payments. Estimates for 2017 do not include youth who may enroll in Extended Foster Care under Chapter 240, Laws of 2015 (SSB 5740).

⁽³⁾ Includes an unduplicated count of children in unlicensed kinship care. The data are not comparable to editions of the LBNs published prior to 2012, which included guardianships. This is the sum of: 1) Court Ordered Unlicensed Placements and 2) Relative of Specified Degree (Not Receiving Foster Care Payments). The data represent any-day-within-month counts, all custody types, and do not include children in guardianships (these are no longer documented as placements).

⁽⁴⁾ Includes the following child care services: Child Protective Services (CPS)/Child Welfare Services (CWS), Therapeutic/Medicaid Treatment, and Foster Parent Employment. Data is not comparable to editions of the LBNs published prior to 2012, which also included teen parent, seasonal child care, and adoption support.

⁽⁵⁾ Average CPS Referrals Monthly show all calls made to the DSHS Children's Administration to report potential child abuse or neglect. Average Screened-In CPS Referrals Monthly represent referrals that meet minimum criteria for potential child abuse or neglect and receive a CPS response. Average Screened-In CPS Referrals Monthly include referrals assigned to the 10-day alternative response prior to the elimination of that response in November 2013.

⁽⁶⁾ The data reflect Adoption Support maintenance payments.

⁽⁷⁾ Combined average number of open cases per worker for CPS, CWS, Family Reconciliation Services, and Adoptive Home Studies at the end of the fiscal year. Estimated Caseload Ratios for 2014 and subsequent years also include Family Assessment Response case workers.

5. **CO Training Reimbursement** - One-time funding is provided for the 25 percent reimbursement required from JR for Correctional Officer Training at the Criminal Justice Training Commission.
6. **One-Time Relocation** - One-time funding is provided for relocation expenses of office expansions and consolidations

Comments:

1. **Competency Restoration Ward** - The state hospitals have experienced delays in admitting individuals requiring competency restoration services. Chapter 5, Laws of 2015 (SSB 5889) establishes mandatory time limits for these admissions. Funding is provided for 60 competency

restoration beds at Western State Hospital (WSH) and 30 competency restoration beds at Eastern State Hospital (ESH) so that the facilities can meet the mandatory time limits established in the act. This increases the number of forensic beds at WSH from 270 to 330, and at ESH from 95 to 125. The

Department of Social and Health Services

Mental Health

Department of Social and Health Services may contract for some of these beds in alternative locations if the Secretary determines there is a need.

2. **Single Bed Certification** - Funding is provided to reimburse Regional Support Networks (RSNs) for increased costs, as compared to utilization and costs in FY 2014, that are incurred in order to meet statutory obligations to provide individualized mental health treatment in appropriate settings to individuals who are detained or committed under the Involuntary Treatment Act (ITA). Prior to distributing funds to RSNs requesting reimbursement for costs relative to increased utilization, the Department must receive adequate documentation of such increased utilization and costs. Funding is also provided for staff to provide oversight to ensure that RSNs are meeting the statutory obligations. (General Fund-State, General Fund-Federal)
3. **Nonfelony Diversion** - Funding is provided pursuant to Chapter 7, Laws of 2015, 1st sp.s. (2E2SSB 5177) to provide outpatient mental health treatment for clients diverted from prosecution in non-violent cases where competency to stand trial is raised by the court or defendant. (General Fund-State, General Fund-Federal)
4. **Program for Adaptive Living Skills** - Non-Medicaid state funding provided to provide alternatives to the now closed Program for Adaptive Living Skills is eliminated. Medicaid clients must continue to receive medically necessary treatment services in accordance with the 1915(b) waiver. Non-Medicaid clients may continue to receive services within available RSN resources.
5. **Criminal Incompetency** - The Department has not implemented funding provided solely for the implementation of Chapter 289, Laws of 2013 (E2SHB 1114). The funding level provided for this is reduced. (General Fund-State, General Fund-Federal)
6. **Office of Forensic Mental Health** - Funding is provided under Chapter 7, Laws of 2015, 1st sp.s., (2E2SSB 5177) to staff an Office of Forensic Mental Health including a director and for additional positions to provide workforce development, monitoring of forensic evaluation and treatment capacity and demand, planning related to a community-based competency restoration program, and for improving data, management, and oversight of the program.
7. **Civil Admission Ward at WSH** - Funding is provided for the continued operation of a 30-bed civil ward that was originally funded as part of the early action supplemental operating budget, Chapter 3, Laws of 2015 (SHB 1105). This increases the number of civil beds at WSH from 557 to 587.
8. **Competency Evaluation Staff** - The state hospitals have experienced delays in providing timely competency evaluation services to individuals in jails. Chapter 5, Laws of 2015 (SSB 5889) establishes mandatory time limits for these admissions. Funding is provided for 18.0 FTEs to provide competency evaluation services so that the facilities can meet the mandatory time limits established in the act.
9. **Ongoing Lease Adjustments** - Funding is provided for contractual lease rate adjustments and one-time tenant improvements.
10. **Community Competency Evaluations** - The state hospitals have experienced delays in providing timely competency evaluation services to individuals in jails. Chapter 5, Laws of 2015 (SSB 5889) establishes mandatory time limits for these admissions. Funding is provided for reimbursement of counties for competency evaluation services provided by local evaluators when state hospital evaluators are unable to meet the mandatory time limits established in the act.
11. **L&I Settlement Agreement** - Funding and FTEs are provided in order to backfill staffing on the wards at the state hospitals while staff complete additional annual training hours. In addition, two FTEs are provided to investigate and conduct root cause analysis on assaults that result in injuries and develop and coordinate implementation of process improvements plans.
12. **Utilize I-502 Funds** - Funding for a variety of alcohol and substance abuse prevention and treatment programs is shifted from the state general fund to the Dedicated Marijuana Revenue Account.
13. **IMD Waiver** - DSHS received a waiver effective October 1, 2014, that allows federal funding to be used in lieu of state funding for certain community inpatient stays in Institutions for Mental Diseases (IMDs) that were previously ineligible for federal match. A portion of the state savings related to this waiver are reduced from RSN funding for non-Medicaid services. This reduction will be distributed to RSN's based on the same proportions that were added to RSN capitation ranges specific to the waiver that allowed for federal funds to be used in IMDs. (General Fund-State, General Fund-Federal)
14. **ITA Judicial Services** - Funding for ITA judicial costs associated with state hospital patients in Spokane and Pierce Counties is reduced to reflect actual expenditures. (General Fund-State)
15. **Medicaid Rates** - RSN Medicaid capitation rates for disabled adults, non-disabled adults, disabled children, and non-disabled children are reduced. No RSN shall have its rate for these populations reduced below the bottom of the RSN's federally-allowable rate range. (General Fund-State, General Fund-Federal)
16. **Detention Decision Review** - Chapter 258, Laws of 2015 (E2SSB 5269) establishes a process allowing an immediate family

Department of Social and Health Services

Mental Health

member, guardian, or conservator to petition the court for review of a designated mental health professional's decision not to seek a person's detention under the ITA. Funding is provided for increased involuntary treatment costs expected to result from implementation of the bill. (General Fund-State, General Fund-Federal)

17. **Assisted Outpatient Treatment** - Chapter 250, Laws of 2015 (E2SHB 1450) provides that persons meeting certain criteria may be committed by a court for involuntary outpatient mental health treatment on an assisted outpatient treatment order. Implementation of the bill is expected to increase community mental health outpatient costs and result in some reduction in community psychiatric inpatient costs. Funding is provided for the expected net increase in costs for the community mental health and alcohol and substance abuse programs. (General Fund-State, General Fund-Federal)
18. **Psych. Intensive Care Unit (PICU)** - Funding is provided for a Psychiatric Intensive Care Unit (PICU) to serve assaultive patients at both WSH and ESH. The PICUs will house high acuity patients for short-term stays with a transition back to a standard ward after stabilization. These patients will receive specialized patient care and treatment. This provides ongoing funding for a step in the early action supplemental operating budget, Chapter 3, Laws of 2015 (SHB 1105).
19. **Psychiatric Emergency Response Team** - Funding is provided to expand the Psychiatric Emergency Response Team (PERT) at WSH, create an additional team for day and evening shifts to support the civil wards at WSH, and add a single team for day and evening shifts at ESH. This provides ongoing funding for a step in the early action supplemental operating budget, Chapter 3, Laws of 2015 (SHB 1105).

FY 2010 counts dropped for this time period due to the suspension of IFS services from January 2010 through June 2010. FY 2014 projects 700 increased enrollment from budget step, ramping up to a total of 1,500 more enrollments in FY 2015. In 2014, the Legislature directed Developmental Disabilities Administration (DDA) to convert the IFS Program into a Home and Community Based Services (HCBS) waiver. The IFS waiver was approved by the Center for Medicare and Medicaid Services (CMS) with an effective date of 6/1/15. DDA is converting eligible clients from state-funded IFS to the IFS waiver at the time of their annual assessment. In addition, the Legislature approved an additional 4,000 IFS waiver positions for the 2015-2017 biennial budget. The FY 2016 and FY 2017 estimates are provided by DDA program staff. The number of clients in IFS represent the number of clients served during the year which could include clients no longer on the program.

⁽⁵⁾ Waiver respite was moved from Family Support to other community services.

⁽⁶⁾ Personal care services include children and adults receiving individual provider and agency provider in-home services and personal care adult family home and adult residential care in both the Medicaid personal care and waiver programs.

1. **Family Child Care Providers** - Funding is provided for the collective bargaining agreement (CBA) with family home child

care providers which will increase base payment rates by 2 percent in FY 2017, and increase the non-standard hours bonus

Department of Social and Health Services Economic Services Administration

to \$75 with a cap. Funding provided to the Economic Services Administration (ESA) covers payment increases for the Working Connections Child Care (WCCC) program. This also includes funding for health benefits for child care providers covered by the CBA.

2. **Child Care Center Providers** - Funding is provided in FY 2017 for a 2 percent base rate increase for center-based child care providers.
3. **Behavioral Intervention Grants** - One-time federal expenditure authority is increased to allow the agency to draw down a federal grant award to complete a demonstration and evaluation project. The pilot project uses behavioral economics focusing on engagement, intervention, enforcement, and evaluation. (General Fund-Federal)
4. **Medicaid Cost Allocation Changes** - As a result of the medical eligibility change, the Department of Social and Health Services (DSHS) receives less Medicaid funds to support its administrative costs. Clients currently access Modified Adjusted Gross Income Medicaid through the Health Benefit Exchange. Prior to the Affordable Care Act, clients accessed medical benefits, in addition to food and cash benefits, through the DSHS. By October 2015, DSHS staff will assist clients at Community Service Offices, or clients who call DSHS for services, in accessing medical coverage through the Healthplanfinder. This will allow for increased federal participation that will cover a portion of DSHS administrative costs previously covered by Medicaid funds. During the 2015-17 biennium, Temporary Assistance for Needy Families (TANF) funds will also be used to offset a portion of the reduction. The remainder of the shortfall will result in the reduction of 42 FTEs. (General Fund-Federal)
5. **Data Center & Mainframe Costs** - Funding is provided for ongoing costs related to the State Data Center and lease of a new mainframe used in the State Data Center. (General Fund-State, General Fund-Federal)
6. **Building Access Control System** - Funding is provided to update building access controls at DSHS locations. (General Fund-State, General Fund-Federal)
7. **Expenditure Authority Adjustment** - Expenditure authority is reduced for Diversion Cash Assistance (\$2.7 million per year) and for incapacity exams (\$1.1 million per year) to reflect projected under-expenditures within the programs. (General Fund-State)
8. **One-Time Relocation** - One-time funding is provided for relocation expenses for statewide office expansions and consolidations. (General Fund-State, General Fund-Federal)
9. **Ongoing Lease Adjustments** - Funding is adjusted to reflect changes in lease costs within ESA. (General Fund-State, General Fund-Federal)
10. **SNAP Federal Grant** - Federal authority is provided for a three-year federal Supplemental Nutrition Assistance Program (SNAP) grant that focuses on assisting SNAP recipients return to work. (General Fund-Federal)
11. **TANF Grant** - Funding is provided for a TANF grant increase of 9 percent beginning in fiscal year 2016.
12. **WorkFirst Underspend** - Funding for Workfirst job activities is reduced to reflect under-expenditures in the program resulting from declining caseloads and fewer participants in paid jobs programs.
13. **WA Telephone Assistance Program** - Funding is eliminated for the state-funded Washington Telephone Assistance Program (WTAP). WTAP services include subsidized land-line telephone assistance and community voicemail for eligible recipients of many Medicaid and public assistance programs. (General Fund-State)
14. **TANF - Participation Incentive** - Funding is eliminated for an additional \$55 incentive payment to TANF parents who participate in mandatory WorkFirst activities at least 20 hours per week and meet the requirements of their Individual Responsibility Plans. Payments were to begin in the last quarter of FY 2015, however information system changes have not occurred to enable the payment during FY 2015. The incentive payment was to be provided in addition to the regular monthly cash assistance.
15. **Staffing Reduction** - FTEs and associated funding are eliminated for 40 financial service specialist positions statewide. (General Fund-State, General Fund-Federal)
16. **Early Start Act** - Funding is adjusted to reflect staffing changes associated with Chapter 7, Laws of 2015, 3rd sp.s. (2E2SHB 1491 - Early care and education system).
17. **WCCC 12 Month Eligibility** - Funding is provided for additional WCCC subsidies in fiscal year 2017 to implement 12-month eligibility consistent with Chapter 7, Laws of 2015, 3rd sp.s., (2E2SHB 1491).
18. **Reduced Workload** - Reduce 9 FTEs due to caseload declines in the Aged, Blind, and Disabled program and TANF/WorkFirst program. (General Fund-State)
19. **State Food Program** - Funding is provided to increase the state Food Assistance Program benefit from 75 percent of the federal food benefit level to 100 percent of the federal food benefit level beginning July 1, 2015.
20. **WorkFirst Fund Balance** - There is a one-time reduction of unallocated general fund state fund balance that will be offset by using available federal TANF funds during the 2015-17

Department of Social and Health Services Economic Services Administration

biennium. (General Fund-State, General Fund-Federal)

21. **State Public Employee Benefits Rate** - Health insurance funding is provided for state employees employed by general government agencies and institutions of higher education. Insurance for employees covered by the health insurance coalition is included in funding for their respective collective bargaining agreements. Based on claims data from the quarter ending in March 2015, and assuming that secular inflation meets average growth rates projected for private health insurance (4.2 percent per year), the insurance funding rate is adjusted from the carry-forward level of \$880 to \$840 per employee per month for FY 2016 and \$894 per employee per month for FY 2017. Surcharges for tobacco use and for spouses and domestic partners waiving other employer-offered coverage will continue during the 2015-17 biennium under the same terms as in FY 2015. Comments:

1. **Staff - Secure Community Transition** - Funding is provided for five staff at the secure community transition facilities (SCTF) to support the increased number of residents being approved for community transition. Funding is provided for one Washington Management Service manager and four Rehabilitation Counselors. Chapter 71.09 RCW requires that all SCTF residents must have a trained staff escort or court-approved chaperone with them at all times.
2. **Forensic Psychologists** - The Department of Social and Health Services (DSHS) is required to produce annual reviews of sexually violent predators in a timely manner, as directed by Chapter 71.09 RCW. Without timely annual reviews, there is a potential risk of residents being released, because they cannot be legally placed at the Special Commitment Center (SCC). The SCC is currently incurring costs for reviews completed by contracted psychologists, and these costs range from \$3,500-\$4,500 per review. Funding is provided for additional contracted capacity to prevent a backlog of annual reviews.
3. **Community Placement Staff** - This item eliminates two community placement staff positions responsible for placement services and connecting the SCC residents to community resources.
4. **SCC Administrative Services** - Savings related to cost containment and efficiencies for administrative functions in the SCC are achieved primarily through the elimination of two administrative support staff.

Department of Social and Health Services Special Commitment Center

5. **Enhanced Sexual Predator Reviews** - Funding is provided to implement Chapter 278, Laws of 2015 (HB 1059 - sexually violent predators). DSHS will conduct additional annual reviews of residents in the SCC. The Attorney General anticipates lower expenditures for post-commitment litigation.
6. **SCC Health Services** - Funding is reduced based on changing access to health services for residents during time after regular business hours from a 24/7 access model beginning January 1, 2016.
7. **Medicaid Match Savings** - There has been a reduction in the cost of health care expenses for residents of the SCC, SCTF, and less restrictive alternative placements. These savings were achieved through increased efforts to maximize eligibility and enrollment in efficient health care payment systems, such as Medicaid, Medicare, Veterans Health, and Affordable Care Act provisions.
8. **Meal Cost Efficiencies** - Funding is reduced to assume a 20 percent efficiency in cost for meals by using more efficient ways to provide meals to its residents. DSHS shall implement reductions beginning January 1, 2016.
9. **State Public Employee Benefits Rate** - Health insurance funding is provided for state employees employed by general government agencies and institutions of higher education. Insurance for employees covered by the health insurance coalition is included in funding for their respective collective bargaining agreements. Based on claims data from the quarter ending in March 2015, and assuming that secular inflation meets average growth rates projected for private health insurance (4.2 percent per year), the insurance funding rate is adjusted from the carry-forward level of \$880 to \$840 per employee per month for FY 2016 and \$894 per employee per month for FY 2017. Surcharges for tobacco use and for spouses and domestic partners waiving other employer-offered coverage will continue during the 2015-17 biennium under the same terms as in FY 2015. (General Fund-State, Various Other Accounts)
10. **WFSE General Government** - Funding is provided for the collective bargaining agreement with Washington Federation of State Employees, which includes a general wage increase of 3 percent, effective July 1, 2015; a general wage increase of 1.8 percent for all employees who earn \$2,500 a month or more, effective July 1, 2016; a general wage increase of 1 percent plus a \$20 per month increase for all employees who earn less than \$2,500 per month, effective July 1, 2016; salary adjustments for targeted classifications; hazard pay for designated night crews; and assignment pay in designated areas. (General Fund-State, Various Other Accounts)
11. **State Represented Emp Benefits Rate** - Health insurance funding is provided for state employees employed by general government agencies and institutions of higher education. Insurance for employees covered by the health insurance coalition is included in funding for their respective collective bargaining agreements. Based on claims data from the quarter ending in March 2015, and assuming that secular inflation meets average growth rates projected for private health insurance (4.2 percent per year), the insurance funding rate is adjusted from the carry-forward level of \$880 to \$840 per employee per month for FY 2016 and \$894 per employee per month for FY 2017. 12. **SEIU 1199 NW Agreement** - Funding is provided for the collective bargaining agreement with Service Employees International Union (SEIU) Healthcare 1199NW, which includes a general wage increase of 3 percent, effective July 1, 2015; a general wage increase of 1.8 percent, effective July 1, 2016; assignment pay in designated areas; increased funds for training reimbursement. (General Fund-State, Various Other Accounts)
13. **The Coalition of Unions Agreement** - Funding is provided for the collective bargaining agreement with The Coalition of Unions, which includes a general wage increase of 3 percent, effective July 1, 2015; a general wage increase of 1.8 percent for all employees who earn \$2,500 per month or more, effective July 1, 2016; a general wage increase of 1 percent plus a \$20 per month increase for all employees who earn less than \$2,500 per month, effective July 1, 2016; annual payments for physicians and psychiatrists with board certifications; and salary adjustments for targeted classifications. (General Fund-State, Various Other Accounts)

OTHER HUMAN SERVICES

Low-Income Medical Assistance

A total of \$16.5 billion is provided to pay for medical and dental services for an average of 1.9 million low-income children and adults each month by the end of the 2015-17 biennium. This is a \$3.5 billion (27 percent) increase from the funding levels provided in the 2013-15 biennium for these services. Of the \$16.5 billion, \$4.6 billion are state funds; \$11.6 billion are federal funds, primarily from Medicaid; and the rest are local government funds provided for purposes of collecting Medicaid matching funds. Of the \$4.6 billion in state funds, \$3.9 billion is from the state general fund and \$690 million is from the Hospital Safety Net Assessment Fund created in 2010. The state general fund spending is \$431 million (10 percent) less than the 2013-15 biennium.

Washington exercised the option under the federal Affordable Care Act (ACA) to expand the Medicaid program to cover adults under 65 years of age with incomes at or below 133 percent of the federal poverty level (FPL) effective January 1, 2014. This resulted in an increase to the number of people covered by the state Medicaid program by approximately 550,000 since January 2014. This is a 42 percent increase over forecasted levels for 2015 without the Medicaid expansion.

The Hospital Safety Net Assessment (HSNA) Program, set to expire at the end of fiscal year 2017, was established to generate additional state and federal funding to support payments to hospitals for Medicaid services. As provided in Chapter 5, Laws of 2015, 2nd sp.s. (2EHB 2151), the HSNA Program will continue until the end of fiscal year 2019. In addition, the incremental phase-down beginning in fiscal year 2016 was removed, supplemental payments and increased managed care premiums for hospital services were increased, and family medicine and integrated psychiatry residency slots were provided. The state general fund appropriation is reduced by \$292 million as a result of these changes.

Department of Corrections

A total of \$1.9 billion is provided to the Department of Corrections (DOC) for the operation of prisons and community supervision of offenders for the 2015-17 biennium. The prison system is budgeted to provide monthly average incarceration for 17,681 prison and work release inmates and 717 offenders who have violated the terms of their community supervision. The community supervision program is budgeted to provide supervision to a monthly average of 17,440 offenders who have either received sentencing alternatives or have served their sentences and have been released into the community. The 2015-17 DOC funding level represents an increase of \$155.8 million (9.1 percent) from the 2013-15 budget, and an increase of \$62.5 million (3.5 percent) from the revised 2015-17 maintenance level.

A total of \$15 million is provided to manage increased medical costs within the prison system:

- \$12.6 million is provided to use new and more effective drug protocols to treat offenders with Hepatitis C as approved by the Federal Food and Drug Administration; and
- \$2.4 million is provided to account for increased costs due to inflation for all other prescription drugs.

A total of \$3.4 million is provided to backfill unrealized savings assumed in the 2014 supplemental budget through DOC contract changes with local jails housing offenders that have violated the terms of supervision. The contract changes involved moving away from the practice of fractional billing for offenders serving multiple holds at the same time (local or federal jurisdiction or DOC Secretary Warrant). Though most contracts were successfully changed, the ongoing savings assumed in the 2014 supplemental budget were not fully achieved.

Savings of \$1.7 million is achieved through changes to DOC policy on punishment for offender infractions in prison. Currently, offenders can earn "good time" off the end of their sentences based on good behavior while in prison. Offenders can also lose portions of that earned time as punishment for various infractions. With this policy change, DOC will reduce reliance on loss of earned good time as punishment for infractions in favor of more immediate loss of privileges such as visitation rights, television or commissary use, etc. The policy is intended to model similar incentive structures for offenders in prison as Swift and Certain Sanctioning does for those on community supervision.

Savings of \$1.7 million is achieved by requiring that offenders serving time on community supervision who are enrolled in Medicaid receive any necessary chemical dependency treatment services through the managed care system overseen by the Department of Social and Health Services, beginning April 1, 2016.

Department of Health

The DOH has a total budget of \$1.1 billion (\$116.8 million General Fund-State) to provide educational and health care services, administer a variety of health care licensure programs, regulate drinking water and commercial shellfish production, respond to infectious disease outbreaks, support local public health jurisdictions, and operate the state's public health laboratory.

A total of \$15 million in Dedicated Marijuana Account funds are provided to DOH for a marijuana and tobacco education and public health program (\$14.5 million), and to increase funding for the Washington Poison Center (\$500,000).

In addition, one-time savings of \$7.1 million are achieved by increasing the use of dedicated funds in lieu of General Fund-State (Fund Balance Utilization, \$5.6 million and Drinking Water - Fund Swap, \$1.5 million).

Criminal Justice Training Commission

The budget provides \$35.9 million from the General Fund-State to the Criminal Justice Training Commission (CJTC) for training and certification of local law enforcement and corrections officers and pass-through funds to the Washington Association of Sheriffs and Police Chiefs (WASPC). This funding reflects a 13.9 percent increase from the 2013-15 budget. The budget assumes funding for fourteen basic law enforcement academies in fiscal year 2016 and ten academies in fiscal year 2017.

\$1.7 million is provided to enhance training for local law enforcement officers:

- \$1.2 million pursuant to Chapter 87, Laws of 2015 (2SSB 5311) to implement crisis intervention training for all certified law officers, emphasizing resources and appropriate responses for dealing with individuals in distress due to mental illness or substance abuse. All certified law enforcement officers must be trained by July 1, 2021; and
- \$500,000 to provide training to local law enforcement agencies on instilling the "guardian" culture in their agencies.

\$858,000 in General Fund-State support is provided for the Internet Crimes Against Children Task Force, which works to identify, arrest, and convict individuals who victimize minors using the Internet, pursuant to Chapter 84, Laws of 2015 (2SSB 5215). This support is in addition to any resources generated for the task force from fines for depicting sexually explicit images of minors under Chapter 279, Laws of 2015 (2SHB 1281).

11. **Self-Insurance Liability Premium** - Agency budgets are adjusted to reflect updated premium rates and a reduction in billings for the 2015-17 biennium.
12. **Fractional Billing for Violators** - In the 2014 supplemental budget, savings were assumed from the elimination of the practice of fractional billing at the county level for violator bed days. Though most county contracts were successfully changed to move away from this practice, the reduction step that was taken resulted in some cost avoidance instead of the cost savings originally projected. This item backfills the unrealized savings on an ongoing basis.
13. **Federal Funding Adjustment** - Federal funding authority is increased to account for two federal grants received by the Department, to be paid in fiscal years 2016 and 2017 (PREA Grant and Second Chance Act-Reentry Grant). (General Fund-Federal)

16. **Regulatory Compliance** - One-time funding is provided to complete groundwater cleanup at the Washington State Penitentiary to meet Washington State Department of Ecology regulatory requirements. (State Toxics Control Account)
17. **Prison Swift & Certain Sanctioning** - Savings is assumed via a reduction to the prison population by decreasing the use of loss of good conduct time as a sanction for certain prison infractions. Currently, offenders can receive a loss of good conduct time for behaviors defined as an infraction. This policy replaces reliance on that type of punishment in favor of more immediate loss of privileges such as visitation, the use of a television, or the ability to order from the commissary.
18. **Auto Theft Prevention Fund Shift** - \$1.033 million of expenditures in FY 2017 is shifted from the Auto Theft Prevention Account to General Fund-State to reflect projected reduced revenue to the Auto Theft Prevention Account. (General Fund-State, Auto Theft Prevention Account)

- (1) Estimated Average Daily Population is based on the total Legislative funded/enacted levels (Maintenance and Policy Levels), and the funded February 2015 Caseload forecast.
- (2) For the Community Supervision Population the average for the Fiscal Year (FY) is calculated using data for the last day of each calendar month
- (3) Community Supervision Violator Population actuals and estimates include all Violator populations regardless of where they are housed.
- (4) For FY2006 through FY2012, the average FY Community Supervision Violator population is calculated using data for the last day of each calendar month.
- (5) Beginning with FY2013 the average FY Community Supervision Violator population is calculated using data for the average daily population.
- (6) Institution Population counts include work release beds and rental beds used for prison offenders.
- (7) For FY2006 through FY2012, the average FY Institutions population is calculated using data for the last day of each calendar month.
- (8) Beginning with FY2013 the average FY Institutions population is calculated using data for the average daily population.
- (9) To calculate the FY2016 and FY2017 cost per offender, we assumed the enacted budget adds in addition to FY2015 expenditures. Note, we received wage increases in both years that will add to our cost per offender. Average cost per inmate does not include start-up costs for expansions to include, but not limited to, at the Monroe Corrections Center, the Washington State Penitentiary, the Coyote Ridge Corrections Center, the Cedar Creek Corrections Center, the Larch Corrections Center, or the Mission Creek Corrections Center for Women.
- (10) Community Supervision Violator Population is as reported in the Offender Management Network Information (OMNI) system. Beginning with FY2013 and through FY2015 the population in OMNI is under reported compared to the total days paid/accrued.

NATURAL RESOURCES

Land Management

State Parks

The State Parks and Recreation Commission is provided \$16.0 million of state general fund for the operating costs of state parks. This amount funds cost increases for current staffing and other operating costs as well as permanently continuing funding that was provided on a one-time basis in the 2013-15 biennium. In addition, \$4.4 million of state general fund is provided to increase the numbers of park aides, park rangers, and maintenance mechanics throughout the park system.

Fire Suppression and Geological Hazards

State general fund support of \$1.2 million is provided to the Department of Natural Resources (DNR) for increased fire response through additional fire engine crews, specialized helicopter crews, and incident command and business support staff. State general fund of \$648,000 is also provided to implement Chapter 182, Laws of 2015 (ESHB 2093), which creates a local wildland fire liaison and Wildland Fire Advisory Committee and requires DNR to coordinate a master list of qualified wildland fire suppression contractors.

DNR is provided \$4.6 million to establish a statewide contract for LiDAR, a remote sensing technology used to create high-resolution geological maps, and to increase staffing related to geological hazards.

Oil Transportation

The Department of Ecology (Ecology) is provided \$1.0 million from the Oil Spill Prevention Account (OSPA) for activities required by Chapter 274, Laws of 2015 (ESHB 1449) related to railroad oil spill contingency plans and advance notice of transfers of crude oil. A total of \$1.4 million is provided from the OSPA to continue work on area-specific oil spill response plans and oil spill risk analysis that began in 2014. A total of \$500,000 from the OSPA is provided to conduct and periodically update vessel and rail traffic risk assessments. A total of \$1.9 million from the State Toxics Control Account is also provided for oil spill response equipment grants to local governments.

Water Resources and Watershed Protection

Forests and Fish

DNR is provided \$5.9 million from the state general fund for research and monitoring projects in the Forest Practices Adaptive Management Program. This funding corresponds with the Forest Practices Habitat Conservation Plan and a 2012 legal settlement agreement, and will inform Forest Practices Board rules related to water quality and fish habitat protection.

Puget Sound

The Washington Department of Fish and Wildlife (WDFW) is provided \$1.5 million from the Environmental Legacy Stewardship Account (ELSA) to expand toxics monitoring for several Puget Sound fish species. WDFW is also provided \$800,000 from the Aquatic Lands Enhancement Account (ALEA) to continue research on the decline of Puget Sound steelhead.

ALEA funding of \$1.0 million is provided to the Puget Sound Partnership to increase monitoring activities for a number of indicators of Puget Sound ecosystem health, including birds, estuaries, and Pacific herring. ELSA funding of \$1.0 million is provided to DNR to continue a creosote removal program in the Puget Sound.

Agricultural Lands

The State Conservation Commission is provided \$7.6 million from the Public Works Assistance Account to fund the Voluntary Stewardship Program (VSP) in the 26 counties that have opted in to the program but not yet received funding. The VSP was created in 2011 as an alternative means of fulfilling Growth Management Act requirements to protect wetlands and other critical areas on agricultural lands.

Stormwater

Ecology is provided \$864,000 from the State Toxics Control Account for the Washington State University Stormwater Center to conduct studies of the sources of toxics in stormwater and stormwater impacts on salmonids.

Emergency Food Programs

An increase of \$1.6 million state general fund is provided to the Department of Agriculture for the Emergency Food Assistance Program, which supports the operating budgets of food banks and distribution centers in Washington.

Other Enhancements

In addition to the above enhancements in natural resource agencies, in Special Appropriations \$14.0 million was provided for emergency drought funding and \$1.0 million was provided for outdoor education grants through the No Child Left Inside program.

Savings and Fund Shifts to Reduce State General Fund Expenditures

In Ecology, \$9.6 million of operating expenditures from the Air Quality and the Shorelands and Environmental Assistance programs are shifted from state general fund to the State Toxics Control Account. Continuing a reduction from previous biennia, competitive grants for local government flood hazard reduction projects are reduced by \$2.0 million. Funding of \$2.0 million to assist local watershed groups with developing watershed plans is eliminated. A total of \$736,000 for assisting local governments update Shoreline Management Act regulations is eliminated.

In DNR, \$5.4 million of operating expenditures from the Forest Practices Program are shifted from state general fund to the State Toxics Control Account.

In DFW, payments in lieu of taxes made to counties in compensation for lost property taxes from DFW-owned land are funded at 2009 levels, continuing savings of \$3.5 million. Funding of \$452,000 for managing shellfish harvests is shifted from state general fund to ALEA.

In the Department of Agriculture, \$740,000 of spending authority is shifted from state general fund to the Agricultural Local Account as a result of the passage of Chapter 27, Laws of 2015, 3rd sp.s (ESHB 2128), which increased or created a number of fees in the Food Safety Program.

14. **Reduce Flood Plan Grants** - The Flood Control Assistance Account program provides grants and technical assistance to local governments for flood damage reduction projects and flood hazard management plans. The Flood Control Assistance Account that funds this work receives its revenue from transfers from the state general fund. Continuing a temporary reduction that began during the 2009-11 biennium, funding is reduced on a one-time basis for competitive grants to local governments for flood hazard reduction projects. (Flood Control Assistance Account-State)
15. **Elim. Watershed Planning Program** - The Watershed Planning Technical and Financial Assistance Program provides assistance to local watershed groups to develop plans and address watershed issues. Over 30 watersheds have adopted plans since the program's inception in 1997. State general funds provided for this work are permanently eliminated. The four remaining planning units eligible for implementation grants during the 2015-17 biennium will not receive funding (located

Department of Ecology

in the Wind, Chelan, Lower Lake Roosevelt and Lower Spokane watersheds), and implementation projects will no longer be funded through this program.

16. **Shoreline Master Program** - General Fund-State funding and FTE staff are permanently eliminated from the Shoreline Master program. This will result in less grant funding available to local governments responsible for updating their development regulations under the state Shoreline Management Act (Chapter 90.58 RCW), and fewer staff providing technical assistance for local governments planning.
17. **Air Quality & Shorelands Fund Shift** - General Fund-State expenditures for the Air Quality program and the Shorelands and Environmental Assistance program are shifted to the State Toxics Control Account on an ongoing basis. (General Fund-State, State Toxics Control Account-State)
18. **Safe Transportation of Oil** - Pursuant to Chapter 274, Laws of 2015 (ESHB 1449), a combination of one-time and ongoing funding and FTE staff are provided for (1) oil spill contingency planning by railroads transporting oil in bulk and (2) rulemaking and modification of technology systems to accommodate advance notice of oil transfer data from railroads and pipelines. (Oil Spill Prevention Account-State)
19. **Oil Spill Risk Assessments** - Vessel traffic risk assessments (VTRAs) measure changes in oil spill risk and help decision makers to ensure that prevention, preparedness and response measures are in place. Ongoing funding is provided to (1) conduct VTRAs in areas of the state where they presently do not exist (Grays Harbor, Columbia River, and the outer coast) and to periodically update VTRAs in future years, beginning with the Puget Sound assessment completed in March 2014, and (2) develop and periodically update a rail traffic risk assessment model to analyze changes in the rail transportation system. (Oil Spill Prevention Account-State)
20. **Red. Water Res. Exp. to Match Rev.** - Expenditure authority is reduced on an ongoing basis to match expected revenues in the Basic Data Account and the Water Rights Processing Account. These accounts fund streamflow data collection and water rights processing activity in the Water Resources program. (Basic Data Account-Nonappropriated, Water Rights Processing Account-State)
21. **Red. Woodstove Exp. to Balance Acct** - Expenditure authority is reduced permanently in the Wood Stove Education and Enforcement Account to reflect lower revenues. (Wood Stove Education and Enforcement Account-State)
22. **Expedited SEPA Permitting** - Pursuant to Chapter 144, Laws of 2015 (SHB 1851), one-time funding is provided for rulemaking to exempt the repair or replacement of a city, town, or county bridge deemed structurally deficient from State Environmental Policy Act (SEPA) compliance.
23. **Walla Walla Watershed Management** - One-time funding is provided for the Walla Walla Watershed Management Partnership to address local water management issues in the Walla Walla basin.
24. **WA Conservation Corps Minimum Wage** - The Washington Conservation Corps (WCC) employs young adult AmeriCorps members to work on a variety of natural resource and emergency projects, including habitat restoration, trail construction, and wildland fire response. Ongoing funding is provided to support a corpsmember minimum wage increase to \$9.47 per hour in 2015.
25. **Oil Spill Response Equipment Grants** - To better prepare local communities for rapid response to potential oil spills from rail incidents, ongoing funding and FTE staff are provided to strategically place oil spill response equipment caches where needed through an ongoing local government grant program. (State Toxics Control Account-State)
26. **Reduce Oil Spill Risk** - One-time funding was provided in the 2014 supplemental budget for additional resources to (1) develop preparedness and response tools for mitigating oil spills to rivers and streams; and (2) analyze the changing risks associated with crude oil moved by rail and vessels. Ongoing funding and FTE staff are provided to complete and maintain the response tools along rail corridors and marine waterways, and retain staff expertise on spill risk assessment, mitigation, and rapid oil spill response. (Oil Spill Prevention Account-State)
27. **Expanding Local Source Control** - Ongoing funding and FTE staff are provided to add additional Local Source Control Partnership capacity in the Columbia River Basin, provide support to new local businesses, and implement source tracing and watershed monitoring studies. (State Toxics Control Account-State, Local Toxics Control Account-State)
28. **Implement Chemical Action Plans** - Chemical Action Plans (CAPs) identify chemical sources and releases and recommend steps to reduce impacts or phase out chemical uses. Pursuant to Engrossed Second Substitute House Bill 1472 (Chemical Action Plans), Second Substitute Senate Bill 5056 (Safer Chemicals/Action Plans), or Substitute Senate Bill 6131 (Safer Chemicals), a combination of one-time and ongoing funding and FTE staff are provided to develop and implement CAPs, conduct environmental monitoring studies, require manufacturers to conduct alternatives assessments and then review those assessments, make determinations of whether safer alternatives exist, develop a state purchasing preference for products that do not contain certain toxic chemicals, restrict the use of certain flame retardants, and write rules describing the process for obtaining chemical information from manufacturers and for ordering additional information when needed. Note: E2SHB 1472, 2SSB 5056, and SSB 6131 were not

Department of Ecology

enacted by July 10, 2015. Therefore, the amounts provided lapse. Please see the lapse item below for more information. (State Toxics Control Account-State)

29. **Study Toxics Sources in Stormwater** - One-time funding and FTE staff are provided to carry out studies related to the sources of toxics in stormwater, including roofing materials and tires, as well as stormwater impacts on salmonids. This research is conducted by the Washington State University Stormwater Center in Puyallup. (State Toxics Control Account-State)
30. **Lower Duwamish River Source Control** - The U.S. Environmental Protection Agency announced a \$342 million Superfund cleanup of the Lower Duwamish Waterway in late 2014. The Department of Ecology's role in this work is to control sources of pollution so cleanup can begin and protect the investment in sediment cleanup. Ongoing funding and FTE staff are provided to improve water quality permit implementation; strengthen strategic collaboration between water quality, cleanup, and toxics reduction efforts; and develop a watershed pollutant loading assessment modeling tool to help determine progress on cleanup and clean water goals. (Environmental Legacy Stewardship Account-State)
31. **Regional Stormwater Monitoring Prgm** - Ongoing funding and FTE staff are provided to administer a program of regional monitoring, effectiveness studies, and analysis of stormwater pollution reduction efforts paid for by local governments participating in the Regional Stormwater Monitoring Program (RSMP). This monitoring is required under the new general municipal stormwater National Pollution Discharge Elimination System Phase 1 and Phase 2 western Washington permits. The western Washington permittees worked with the Department of Ecology to develop a regional program to perform the required monitoring, studies and analyses administered through the RSMP, rather than conducting the work individually. (General Fund-Private/Local)
32. **Preventing Nonattainment** - Ongoing funding and FTE staff are provided to conduct community-level air quality assessments and work closely with elected officials, citizens, local agencies, businesses and civic leaders in the state's highest-risk areas to help design preventive air pollution solutions. (Environmental Legacy Stewardship Account-State)
33. **Hanford Tank Permit and Compliance** - In March 2014, the Department of Ecology issued an administrative order to require the U.S. Department of Energy (USDOE) to remove waste from a leaking double shell tank. The USDOE is not meeting milestones set in a federal consent decree for tank waste treatment, resulting in increased compliance and permitting work for Ecology. In response to these tank waste problems and to address safe storage of cesium/strontium capsules, the USDOE has proposed three new facilities that will require permitting and oversight by Ecology. Ongoing funding and FTE staff are provided to carry out this federally-funded work so that radioactive waste is appropriately managed. Costs will be paid for by the USDOE through regulatory oversight fees. (Radioactive Mixed Waste Account-State)
34. **Complying With Air Quality Lawsuits** - Ongoing funding and FTE staff are provided to update state implementation plans and regulations to better align the state's regulatory framework with federal regulatory requirements. (Environmental Legacy Stewardship Account-State)
35. **Spokane R. Innovative Collaboration** - The Spokane River Regional Toxics Task Force's innovative collaborative partnership works toward achieving water quality standards for toxics, specifically polychlorinated biphenyls (PCBs) in the Spokane River. The Task Force received one-time funding from the Department of Ecology during the 2013-15 biennium to identify, implement, and measure the reduction of toxic chemical inputs to the river. One-time funding is provided to continue the work of the Task Force for two more years. (State Toxics Control Account-State)
36. **Meeting Air Operating Permit Needs** - Industrial facilities that emit large amounts of air pollution are regulated by the Department of Ecology under the federally-mandated Air Operating Permit program. Under both federal and state law, the costs of the program must be fully supported with fees paid by these air pollution sources. Based on fee criteria and formulas specified in statute, Ecology intends to increase fees during the 2015-17 biennium to cover the cost of serving new sources entering the program, including writing permits, conducting inspections, and updating emission inventories. Ongoing funding and FTE staff are provided to carry out this work. (Air Operating Permit Account-State)
37. **Biosolids Permitting** - The Biosolids program provides oversight, permitting, and technical assistance for sewage treatment plants, facilities that manage wastewater from septic systems, and other facilities that generate, treat and use biosolids. Biosolids are a product of wastewater treatment and septic tanks, comprised primarily of organic material that can be used to condition soil and enhance plant growth after meeting requirements under the Department of Ecology's biosolids management rule. Ongoing funding and FTE staff are provided to increase technical assistance, enforcement, and compliance inspections for permit applicants. (Biosolids Permit Account-State)
38. **Lapse - Chemical Action Plans** - Funding was provided to implement E2SHB 1472 (Chemical Action Plans), 2SSB 5056 (Safer Chemicals/Action Plans), or SSB 6131 (Safer Chemicals). Because none of these bills were enacted by July 10, 2015, the amounts provided lapse.

Surcharges for tobacco use and for spouses and domestic partners waiving other employer-offered coverage will continue during the 2015-17 biennium under the same terms as in FY 2015. (General Fund-State, Various Other Accounts)

4. **Reduce Growth Board to Six Members** - The Growth Management Hearings Board (Board) provides quasi-judicial review of challenges to city and county plans and development regulations under the state Growth Management Act. Current law allows the Board to be composed of either six or seven members, based on caseload. Since 2011 the Board has functioned with six members while meeting statutory deadlines for issuing decisions. Projected caseload indicates that this practice can continue into the future. Funding and FTE staff are reduced on an ongoing basis to maintain the Board at six members.

- Realign Organizational Staffing** - The Puget Sound Partnership (PSP) has reassessed staffing needs and determined that three business units can operate more efficiently with fewer staff. Cost savings will be achieved by better alignment of job functions within the administrative support team and reduced reliance on part-time positions performing information technology, finance, and science work.
- Reduce Public Awareness Funding** - Funding is reduced permanently for the 'Puget Sound Starts Here' program, a 12-county public awareness campaign aimed at improving water quality and aquatic habitat in Puget Sound. This reduction will result in less funding for promotional media content on radio, television and the Internet.

Local Government Consultation** - The Puget Sound Partnership contracts with the Washington State Association of Counties to facilitate collaboration and communication between the Partnership and city and county governments in support of Puget Sound restoration. Funding for this contract is reduced permanently by 50 percent.

8. **Assessing Recovery** - State law requires PSP to assess and monitor the Puget Sound ecosystem and to set measurable outcomes for Puget Sound recovery. PSP has designated 21 vital signs as indicators of the Sound's health. Several indicators are currently unmonitored or monitored at a low level. A combination of one-time and ongoing funding and FTE staff is provided to enhance the amount and usability of data for the following vital signs: birds, estuaries, Pacific herring, land use and cover, shoreline armoring, and quality of life. PSP will also coordinate and support monitoring and analyses that assess the effectiveness of shellfish, stormwater, and habitat recovery actions. (Aquatic Lands Enhancement Account-State)
9. **Puget Sound Salmon Recovery** - One-time funding is provided to begin updating Chinook salmon recovery plans, developed in 2005, to fill information gaps, complete prioritized monitoring plans and implement adaptive management processes. (Aquatic Lands Enhancement Account-State)

TRANSPORTATION

The majority of the funding for transportation services is included in the transportation budget, not the omnibus appropriations act. For additional information on funding for these agencies and other transportation funding, see the Transportation section of the Legislative Budget Notes. The omnibus appropriations act only includes a portion of the total funding for the Washington State Patrol (WSP) and the Department of Licensing (DOL).

Washington State Patrol

Increases

A total of \$6.4 million from the Enhanced 911 Account and the Fingerprint Identification Account are provided for WSP to continue upgrades to the state Criminal History Records System. The system stores and shares criminal justice information within Washington State and with other states, federal agencies, and other countries.

Additionally, \$2.8 million is provided to WSP for staff and funding to address the state's backlog in sexual assault examination kits. Chapter 247, Laws of 2015 (SHB 1068) requires law enforcement agencies to submit a request for laboratory examination to the Washington State Patrol Crime Laboratory for prioritization of testing within 30 days of receiving a sexual assault examination kit.

Reductions

General Fund-State funding and staffing levels to WSP are reduced by \$2.1 million and thirteen FTEs to reflect management and administrative decisions to eliminate staff vacancies and create savings.

Department of Licensing

The Business and Professions Division (BPD) within the Department of Licensing (DOL) currently uses a paper application and renewal process for professional licenses. BPD will implement a web-based online system to replace its current process. A total of \$1.8 million of existing fund balance and revenues from professional license fees in BPD's accounts will be used to fund the licensing system improvements.

PUBLIC SCHOOLS

The Program of Basic Education

Materials, Supplies and Operating Costs

A total of \$741.5 million is provided at maintenance level to complete implementation of the materials, supplies, and operating costs (MSOC) component of the prototypical school funding formula, as required under Chapter 236, Laws of 2010 (SHB 2776). The allocation per FTE student is increased from \$848.04 in the 2014-15 school year to \$1,210.05 in school year 2015-16 and \$1,230.62 in school year 2016-17.

Early Elementary Class Size Reductions

Funding in the amount of \$350.2 million is provided to reduce class sizes in grades kindergarten through three in all schools, as specified in Chapter 236, Laws of 2010 (SHB 2776), with priority given to the earliest grades and high-poverty elementary schools. Phase-in of the reduced class size follows the cohort of students as they progress through the grades. Beginning in the 2016-17 school year, the Legislature fully implements a reduced class size of 17 students for high poverty kindergarten and first grade schools, one year ahead of the requirement provided by RCW 28A.150.260

All-Day Kindergarten

Funding totaling \$179.8 million is provided to complete implementation of state-funded all-day kindergarten by school year 2016-17, one year ahead of the statutory deadline specified under Chapter 236, Laws of 2010 (SHB 2776).

Public School Compensation Allocations

Initiative 732 Cost of Living Adjustment

Funding totaling \$231.0 million is provided at maintenance level for cost-of-living adjustments (COLA) for state-funded K-12 employees, as required by Initiative 732 (I-732). These on-going increases are 1.8 percent for the 2015-16 school year and 1.2 percent for the 2016-17 school year.

Additional Salary Increase

Funding totaling \$152.3 million is provided for a one-biennium salary increase. For the 2015-16 school year the additional one-biennium increase is 1.2 percent and for the 2016-17 school year the one-biennium increase is 0.6 percent. Combined with the I-732 COLA described above, the total salary allocation increase for the 2015-16 school year is 3.0 percent and for the 2016-17 school year is 1.8 percent, similar to the salary increases provided for other state employees.

Pension Increases

Funding totaling \$210.0 million is provided at maintenance level to fund pension rate increases for all state-funded K-12 staff. Employer pension funding rates increased by 2.74 percentage points for certificated staff and 1.77 percentage points for classified staff.

Health Benefits

Funding in the amount of \$24.4 million is provided to increase health benefit allocations for certificated instructional, certificated administrative, and classified staff while maintaining the classified health benefit factor. Annual health benefit rates are increased by \$144 for certificated staff and by \$166 for classified staff.

Other Enhancements to Public Schools

Non-Basic Education Funding to Support Implementation of Chapter 236, Laws of 2010 (SHB 2776)

Funding totaling \$6.4 million is provided to support Science, Technology, Engineering, and Math (STEM) education, including: increased grants for computer science programs and career and technical education programs; professional development for high school math and science teachers; increased funding for the IT Academy; and project-based math and science curriculum.

Enhancements Supporting Secondary Education

In addition to the STEM funding provided above, funding totaling \$10.9 million is provided for a variety of other K-12 enhancements in support of secondary education including: college in the high school dual credit opportunities; increased support for Washington state achievers scholarship, higher education readiness program, college bound scholarship outreach, and career and college readiness coaches; preliminary scholastic aptitude test (PSAT) test preparation and support for students in the college bound program; and increased support for building bridges grants for dropout prevention and reengagement activities.

Other Changes

Initiative 1351 Lowering class sizes and increasing school staff

The estimated cost to phase-in the requirements of Initiative 1351 (I-1351), which changed the state's funding requirements for class size and other staffing formulas, was estimated at \$2 billion for the 2015-17 biennium. Chapter 38, Laws of 2015, 3rd sp.s. (EHB 2266) delayed the phase-in dates for I-1351 by four years, resulting in savings in the 2015-17 biennium.

The purpose of the program is to enable eligible neighborhood youth development entities to provide out-of-school programs for youth ages six to eighteen years of age that include educational services, mentoring and linkages to positive, pro-social leisure, and recreational activities. The programs must be designed for mentoring and academic enrichment which include at least two of the following three activity areas: (a) science, technology, engineering, and math (STEM); (b) homework support and high-yield learning opportunities; and (c) career exploration.

- 1. Staff Mix** - The continued implementation of state-funded all-day kindergarten and K-3 class size reductions increases state-funded certificated instructional staff (CIS) by approximately 1,900 FTEs in the 2015-16 school year and an additional 3,100 FTEs in the 2016-17 school year. The budget assumes that, for school year 2015-16, approximately one-third of the new state-funded teachers will be beginning teachers, and approximately one-half of the new teachers will have a master's degree. For the 2016-17 school year, it is assumed that the new teachers added in the previous school year will have gained one year of experience and that approximately one-third of the newly added teachers for the 2016-17 school year will be new to teaching. Staff mix, the state's term for average years of experience and educational credits, is reduced to reflect these newly hired beginning teachers in the K-12 system.
- 2. Reduce Early Elementary Class Size** - Chapter 236, Laws of 2010 (SHB 2776) established new funding formulas for basic education programs, requiring class sizes of 17 students for grades kindergarten through three (K-3) by the 2017-18 school year. Funding is provided to phase in reduced class sizes with the greatest class size reductions occurring in earlier grades in the first school year, and then following the cohort of students who have already received the benefit of state-funded class size reduction. First priority is provided to elementary schools with the highest percentage of students eligible for the federal

Free and Reduced-Price Lunch program. Funding is provided to fully implement a class size of 17 for K-1 students in high poverty schools in the 2016-17 school year. Allocations for K-3 class sizes will be based on the school district's documented actual average class size.

- 3. Expand Full-Day Kindergarten** - Chapter 236, Laws of 2010 (SHB 2776) requires statewide basic education funding of all-day kindergarten by the 2017-18 school year. State-funded all-day kindergarten is increased from 43.75 percent of kindergarten enrollment to 71.88 percent in school year 2015-16 and is fully implemented at 100 percent of kindergarten enrollment in school year 2016-17, one year ahead of the statutorily required deadline.
- 4. Initiative 1351 Class Size** - Initiative 1351 (I-1351) changed the state's funding requirements for class size and staffing formulas, with a phase-in schedule estimated at \$2 billion for the 2015-17 biennium and full implementation effective September 1, 2018. Chapter 38, Laws of 2015, 3rd sp.s. (EHB 2266) delayed the phase-in dates for I-1351 by four years, resulting in savings in the 2015-17 biennium.
- 5. Dual Credit** - Funding is provided for implementation of Chapter 202, Laws of 2015 (E2SHB 1546), eliminating the use of Running Start for courses offered in the high school, and creating subsidies and per credit fee limits for college in the

high school classes for eligible 11th and 12th grade students.

6. **Guidance Counselor CTE Tech Correct** - Funding is provided to adjust the prototypical school funding formula staffing allocations in Career & Technical Education and Skills Centers programs for state-funded education staff associates, correcting a formula error.
7. **Local Deductible Revenue to Schools** - Under current law, timber revenues to school districts from most federal lands are a local deductible revenue and are used to offset the state's general apportionment allocations. Congress reauthorized the Secure Rural Schools payment for two years. On a one-time basis for the 2015-17 biennium, school districts will be allowed to retain the local deductible revenues.

This supplemental funding adjustment is eliminated.

Comments:

- Local Effort Assistance** - The calculated local effort assistance cost depends on several variables including variables that affect the school districts' levy base. Policies that increase the cost of the state's program of basic education are assumed to increase the levy base. Additionally, the per pupil inflator (PPI) is adjusted so that school districts will be permitted to collect, in aggregate, the same amount of local maintenance and operation levies in calendar year 2016 as they are currently collecting in calendar year 2015. The PPI is set at a rate of 4.27 percent for calendar year 2016 and is reduced to 1.09 percent for calendar year 2017.

- Institutional Education MSOC** - The funding rate for materials, supplies, and operating costs (MSOC) for institutional education programs is increased for curriculum and textbooks, technology, professional development, and 50 percent of other supplies and library materials. The remaining formula components are not increased, as facility operational costs for institutional programs are funded through the Department of Social and Health Services (DSHS) rather than school districts. This step aligns institutional MSOC with the rates provided to general education students, with the exception of formula costs provided through DSHS.

Comments:

1. **Staff Mix** - The continued implementation of state-funded all-day kindergarten and K-3 class size reductions increases state-funded certificated instructional staff (CIS) by approximately 1,900 FTEs in the 2015-16 school year and an additional 3,100 FTEs in the 2016-17 school year. The budget assumes that, for school year 2015-16, approximately one-third of the new state-funded teachers will be beginning teachers, and approximately one-half of the new teachers will have a master's degree. For the 2016-17 school year, it is assumed that the new teachers added in the previous school year will have gained one year of experience and that approximately one-third of the newly added teachers for the 2016-17 school year will be new to teaching. Staff mix, the state's term for average years of experience and educational credits, is reduced to reflect these newly hired beginning teachers in the K-12 system.
2. **Expand Full-Day Kindergarten** - Chapter 236, Laws of 2010 (SHB 2776) requires statewide basic education funding of all-day kindergarten by the 2017-18 school year. State-funded all-day kindergarten is increased from 43.75 percent of kindergarten enrollment to 71.88 percent in school year 2015-16 and is fully implemented at 100 percent of kindergarten enrollment in school year 2016-17, one year ahead of the statutorily required deadline.

HIGHER EDUCATION

Overview

For the 2015-17 biennium, a total of \$3.5 billion in state funds (Near General Fund plus Washington Opportunity Pathways Account) is appropriated in support of the higher education system (including financial aid); \$2.8 billion (79 percent) of which is appropriated to the public colleges and universities. Compared to the 2013-15 biennium, this represents a \$428 million (18.1 percent) increase in state funds to the institutions of higher education and a \$427.2 million (13.8 percent) increase in state funds to the higher education system overall.

Tuition Policy

The operating budget is aligned with the tuition reduction specified in the College Affordability Program (Chapter 36, Laws of 2015, 3rd Special Session[2ESSB 5954]) The College Affordability Program requires that all institutions of higher education reduce operating fees by 5 percent from current levels for the 2015-16 academic year. For the 2016-17 academic year, research institutions are required to reduce operating fees by an additional 10 percent, regional institutions are required to reduce operating fees by an additional 15 percent, and community and technical colleges are required to hold operating fees at 2015-16 academic year rates. A total of \$158.7 million in state funds is provided to the institutions of higher education to replace the loss of tuition revenue resulting from the reductions specified in the College Affordability Program. Reduced tuition rates allow state financial aid programs to maintain current service levels at a lower cost. A total of \$45.3 million is captured as financial aid savings.

Major Increases

Compensation

A total of \$110.8 million in state funding is provided to the higher education system to support the collective bargaining agreements approved by the Legislature. A savings of \$3.9 million is achieved as a result of lower projected benefit rates.

Computer Science and Engineering Expansion

A total of \$9.1 million is provided to the University of Washington (\$6 million), Washington State University (\$1.6 million) and Western Washington University (\$1.5 million) to expand computer science and engineering related programs.

Medical Education

A total of \$19.5 million is provided to support medical education. The University of Washington (UW) is provided \$9 million for the continued operation of the Washington, Wyoming, Alaska, Montana, and Idaho (WWAMI) medical school. The funding will allow UW to fund 60 first year students and 20 second year students in fiscal year 2016. For fiscal year 2017, the UW is expected to enroll 60 first year students with the continuation of 60 from the prior year. The Family Practice Medicine Residency Network at the UW is provided \$8 million to expand the number of residency slots available in Washington. Additional funding for residencies is made available through the Hospital Safety Net Assessment fee. Washington State University is provided \$2.5 million to support the development of a medical school in Spokane.

Degree Completion

A total of \$4.5 million is provided to Central Washington University (\$1.5 million), Eastern Washington University (\$1.5 million), and The Evergreen State Colleges (\$1.5 million) for programs and services that lead to increased degree completion outcomes.

Opportunity Scholarship Program

The Opportunity Scholarship Program is open to low- and middle-income students pursuing degrees in high demand fields including: science, technology, engineering, math, and health care. Funding for the program is provided through a combination of private donation and state support. The state is required to match private contributions up to \$50 million annually. To meet state match requirements during the 2015-17 biennium, \$41.0 million is provided.

Financial Aid Reductions**Financial Aid Program Re-Suspension**

Savings are achieved as a result of continuing the 2011-13 suspension of the Future Teachers Conditional Scholarship Program, the Health Professionals Conditional Scholarship Program, Washington Scholars Program, Washington Award for Vocational Excellence Program, and the Small Grant Program (including the Community Scholarship Matching Grant program, and state contributions to the Foster Care Endowment Scholarship Trust Fund) for the 2015-17 biennium. Those students who received awards in previous years will maintain those awards until they complete their programs.

OTHER EDUCATION

Department of Early Learning

A total of \$621.9 million (\$301.1 million General Fund-State and Opportunity Pathways) is provided to the department for developing, implementing, and coordinating early learning programs for children from birth to five years of age. This represents an increase of \$151.6 million (32 percent) in total funds and \$128.2 million (74 percent) in near General Fund-State and Opportunity Pathways above amounts appropriated in the 2013-15 operating budget.

Chapter 7, Laws of 2015, 3rd Special Session (2E2SHB 1491) expanded the Early Achievers Program and required child care facilities and early learning programs receiving state funds to participate in the Early Achievers Program. The 2015-17 operating budget provides an additional \$91.8 million General Fund-State to implement 2E2SHB 1491. This includes \$22 million General Fund-State for additional Working Connections Child Care (WCCC) subsidies to support the twelve month WCCC eligibility provisions required in the Early Start Act. Twelve month eligibility will begin on July 1, 2016.

An additional \$40.9 million General Fund-State is provided for the Early Childhood Education and Assistance Program (ECEAP), which provides pre-school and wrap-around services to low-income children. These funds will support an additional 1,600 part-day (2.5 hour) ECEAP slots and maintain the 1,359 full day (6 hour) and 567 extended-day (10 hour) slots added in fiscal year 2015. Chapter 7, Laws of 2015, 3rd Special Session (2E2SHB 1491) delayed full statewide implementation of ECEAP from the 2018-19 school year to the 2020-21 school year; and removed the requirement that ECEAP be phased in incrementally.

An increase of \$6.5 million General Fund-State is provided for a 2 percent base rate increase for seasonal and homeless child care providers in fiscal year 2017, tiered reimbursement in fiscal year 2016 for child care providers participating in the Early Achievers Program, and other items negotiated as part of the Service Employees International Union (SEIU), local 925 collective bargaining agreement. The funds appropriated to the department represent approximately 37 percent of the total \$17.4 million General Fund-State provided in the 2015-17 operating budget for these purposes. The remaining funds are provided to Children and Family Services and the Economic Services Administration both housed within the Department of Social and Health Services.

Other program increases include:

- A \$2 million increase for home visiting services provided through the Home Visiting Services Account (HVSA) from the dedicated Marijuana account.
- A \$4 million increase for early intervention assessment and services, such as physical and speech therapy is provided through the state general fund.
