9 Sec. 201. 2013 c 306 s 201 (uncodified) is amended to read as 10 follows:

11 FOR THE WASHINGTON TRAFFIC SAFETY COMMISSION

12 Highway Safety Account--State Appropriation ((\$3,017,000)) 13 \$3,027,000 14 Highway Safety Account--Federal Appropriation ((\$40,699,000)) 15 \$40,780,000 Highway Safety Account--Private/Local Appropriation ((\$50,000)) 16 17 \$118,000 18 School Zone Safety Account--State Appropriation . . . ((\$1,800,000)) 19 \$1,700,000 20 21 \$45,625,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The commission shall develop and implement, in collaboration with the Washington state patrol, a target zero team pilot program in Yakima and Spokane counties. The pilot program must demonstrate the effectiveness of intense, high visibility driving under the influence enforcement in Washington state. The commission shall apply to the national highway traffic safety administration for federal highway safety grants to cover the cost of the pilot program.

31 (2) \$20,000,000 of the highway safety account--federal 32 appropriation is provided solely for federal funds that may be 33 obligated to the commission pursuant to 23 U.S.C. Sec. 164 during the 34 2013-2015 fiscal biennium.

(((4))) <u>(3)</u> The commission may continue to oversee pilot projects 1 2 implementing the use of automated traffic safety cameras to detect speed violations within cities west of the Cascade mountains that have 3 a population over one hundred ninety-five thousand. For the purposes 4 of pilot projects in this subsection, no more than one automated 5 traffic safety camera may be used to detect speed violations within any 6 7 one jurisdiction.

(a) The commission shall comply with RCW 46.63.170 in administering 8 9 the pilot projects.

10 (b) By January 1, 2015, any local authority that is operating an automated traffic safety camera to detect speed violations must provide 11 12 summary to the transportation committees of the legislature а 13 concerning the use of the cameras and data regarding infractions, 14 revenues, and costs.

(4)(a) The commission shall coordinate with counties to implement 15 and administer a statewide yellow dot program that will provide a 16 yellow dot window decal and yellow dot folder during the 2013-2015 17 fiscal biennium. 18

(b) The commission may utilize available federal dollars and state 19 dollars to implement and administer the program. The commission may 20 21 accept donations and partnership funds through the state's existing 22 donation process and deposit the funds to the highway safety account for the start-up and continued support of the program. 23

(c) The commission, in conjunction with counties, shall maintain a 24 separate web page that allows a person to download the yellow dot form 25 26 to be placed in the yellow dot folder and lists the locations in which 27 a person may pick up the yellow dot window decal and folder. The commission and counties may not collect any personal information. A 28 person using the program is responsible for maintaining the information 29 in the yellow dot folder. Participation in the program does not create 30 any new or distinct obligation for emergency medical responders or law 31 enforcement personnel to determine if there is a yellow dot folder in 32 the motor vehicle or use the information contained in the yellow dot 33 34 folder.

35 (d) The commission may adopt rules necessary to implement this 36 subsection.

37 (5) During the 2013-2015 fiscal biennium, the commission shall continue to provide funding to counties for target zero task forces at 38

1	the same annual allotment levels that were in place January 1, 2014.
2	By December 1, 2014, the commission must report to the transportation
3	committees of the legislature on any proposed changes in funding levels
4	for target zero task forces in the 2015-2017 fiscal biennium.

cost, while ensuring that appropriate environmental and regulatory 1 2 protections are maintained and a quality project is delivered. The joint transportation committee must convene an advisory panel to 3 study guidance and discuss potential efficiencies and 4 provide 5 recommendations. The scope of the study must be limited to state-level policies and practices relating to the planning, design, permitting, 6 7 construction, financing, and operation of department of transportation roadway and bridge projects. The study must: 8

9

(i) Identify best practices;

10 (ii) Identify inefficiencies in state policy or agency practice 11 where changes may save money;

12 (iii) Recommend changes to improve efficiency and save money; and

13 (iv) Identify potential savings to be achieved by adopting changes 14 in practice or policy.

(b) The joint transportation committee shall issue a report of its findings to the house of representatives and senate transportation committees by December 31, 2013.

(2) The joint transportation committee shall coordinate a work 18 group comprised of the department of licensing, the department of 19 revenue, county auditors or other agents, and subagents to identify 20 21 possible issues relating to the administration of, compliance with, and 22 enforcement of the existing statutory requirement for a person to provide an unexpired driver's license when registering a vehicle. 23 The 24 work group shall provide recommendations on how administration and enforcement may be modified, as needed, to address any identified 25 issues, including whether statutory changes may be needed. A report 26 27 presenting the recommendations must be presented to the house of representatives and senate transportation committees by December 31, 28 29 2013.

(3) The joint transportation committee shall continue to convene a 30 subcommittee for legislative oversight of the I-5/Columbia river 31 32 crossing bridge replacement project. The Columbia river crossing legislative oversight subcommittee must be made up of six members: 33 Two 34 appointed by the cochairs of the senate transportation committee, two 35 appointed by the chair and ranking member of the house of representatives transportation committee, one designee of the governor, 36 37 and one citizen jointly appointed by the four members of the joint 38 transportation executive committee. The citizen appointee must be a

Washington state resident of the area served by the bridge. At least two of the legislative members must be from the legislative districts served by the bridge. In addition to reviewing project and financing information, the subcommittee must also coordinate with the Oregon legislative oversight committee for the Columbia river crossing bridge.

(4) The joint transportation committee shall convene a work group 6 7 to identify and evaluate internal refinance opportunities for the 8 Tacoma Narrows bridge. The study must include a staff work group, including staff from the office of financial management, the 9 transportation commission, the department of transportation, the office 10 of the state treasurer, and the legislative transportation committees. 11 12 The joint transportation committee shall issue a report of its findings to the house of representatives and the senate transportation 13 committees by December 31, 2013. 14

(5) The joint transportation committee shall study and review the use of surplus property proceeds to fund facility replacement projects, and the possibility of using the north central region as a pilot. The joint transportation committee shall consult with the department of transportation and the office of financial management regarding the department's current process for prioritizing and funding facility improvement and replacement projects.

22 (6) \$250,000 of the motor vehicle account--state appropriation is for the joint transportation committee to evaluate the current status 23 24 of electric vehicle charging stations in Washington, and to make recommendations regarding potential business models for financially-25 26 sustainable electric vehicle charging networks and alternative roles 27 for public and private sector participation in those business models. Public sector participation may include public financing, funding, 28 facilitation, and other incentives to encourage installation of 29 electric vehicle charging stations. In conducting the study, the 30 committee must coordinate with the department of transportation and 31 consult with local governments and stakeholders in the electric vehicle 32 industry. The committee may also consult with users of electric 33 vehicles and stakeholders representing manufacturers and operators of 34 electric vehicle charging stations. The committee shall submit an 35 36 interim report by December 31, 2014, and a final report by March 1,

37 <u>2015.</u>

(7) The joint transportation committee shall coordinate a work 1 2 group to review the existing titling and registration processes along with policies that county auditors, subagents, and agents must comply 3 with when conducting title and registration transactions. The goal and 4 <u>related __outcomes __of __the __work __group __review __are __to __provide</u> 5 recommendations to streamline processes, modernize policies, and 6 7 identify potential information technology opportunities. Members of the work group shall only include county auditors, subagents, agents, 8 and the department of licensing. The work group shall submit a report 9 to the transportation committees of the legislature on or before 10 December 1, 2014. 11 12 (8) The joint transportation committee shall coordinate a work

13 group comprised of representatives from the department of licensing, 14 the Washington state traffic safety commission, and other stakeholders as deemed necessary, along with interested legislators, to develop 15 16 parameters for and make recommendations regarding a pilot program that would allow students to meet traffic safety education requirements 17 online. Additionally, the work group shall make recommendations 18 related to requiring driver training to individuals between the ages of 19 eighteen and twenty-four who have not previously passed a driver 20 21 training education program or other methods of enhancing the safety of this high-risk group. The joint transportation committee shall issue 22 a report of its findings to the transportation committees of the house 23 24 of representatives and senate by December 1, 2014.

25 **sec. 205.** 2013 c 306 s 205 (uncodified) is amended to read as 26 follows:

27 FOR THE TRANSPORTATION COMMISSION

The appropriations in this section are subject to the following conditions and limitations:

(1) Consistent with RCW 43.135.055, 47.60.290, and 47.60.315,
 during the 2013-2015 fiscal biennium, the legislature authorizes the

transportation commission to periodically review and, if necessary, 1 2 adjust the schedule of fares for the Washington state ferry system only in amounts not greater than those sufficient to generate the amount of 3 revenue required by the biennial transportation budget. When adjusting 4 ferry fares, the commission must consider input from affected ferry 5 users by public hearing and by review with the affected ferry advisory б 7 committees, in addition to the data gathered from the current ferry 8 user survey.

(2) Consistent with RCW 43.135.055 and 47.46.100, during the 2013-9 10 2015 fiscal biennium, the legislature authorizes the transportation commission to periodically review and, if necessary, adjust the 11 schedule of toll charges applicable to the Tacoma Narrows bridge only 12 13 in amounts not greater than those sufficient to support (a) any 14 required costs for operating and maintaining the toll bridge, including the cost of insurance, (b) any amount required by law to meet the 15 redemption of bonds and applicable interest payments, and (c) repayment 16 17 of the motor vehicle fund.

18 (3) <u>Consistent with RCW 43.135.055 and 47.56.880, during the</u> 19 <u>2013-2015 fiscal biennium, the legislature authorizes the</u> 20 <u>transportation commission to set, periodically review, and, if</u> 21 <u>necessary, adjust the schedule of toll charges applicable to the</u> 22 <u>Interstate 405 express toll lanes.</u>

23 (4)(a) \$400,000 of the motor vehicle account--state appropriation 24 is provided solely for the development of the business case for the 25 transition to a road usage charge system as the basis for funding the 26 state transportation system, from the current motor fuel tax system. 27 The funds are provided for fiscal year 2014 only.

(b) The legislature finds that the efforts started in the 2011-2013 28 fiscal biennium regarding the transition to a road usage charge system 29 represent an important first step in the policy and conceptual 30 development of potential alternative systems to fund transportation 31 32 projects, but that the governance for the development needs clarification. The legislature also finds that significant amounts of 33 research and public education are occurring in similar efforts in 34 several states and that these efforts can and should be leveraged to 35 advance the evaluation in Washington. The legislature intends, 36 37 therefore, that the commission and its staff lead the policy development of the business case for a road usage charge system, with 38

the goal of providing the business case to the governor and the 1 2 legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. 3 The legislature intends for additional oversight in the business case 4 5 development, with guidance from a steering committee as provided in chapter 86, Laws of 2012, augmented with participation by the joint б 7 transportation committee. The legislature further intends that the department of transportation continue to address administrative, 8 technical, and conceptual operational issues related to road usage 9 10 charge systems, and that the department serve as a resource for 11 information gleaned from other states on this topic for the 12 commission's efforts.

13 (c) For the purposes of this subsection (((3))) (4), the commission 14 shall:

(i) Develop preliminary road usage charge policies that are
necessary to develop the business case, as well as supporting research
and data that will guide the potential application in Washington;

18 (ii) Develop the preferred operational concept or concepts that 19 reflect the preliminary policies;

(iii) Evaluate the business case for the road usage charge system that would result from implementing the preliminary policies and preferred operational concept or concepts. The evaluation must assess likely financial outcomes if the system were to be implemented; and

(iv) Identify and document policy and other issues that are deemed
 important to further refine the preferred operational concept or
 concepts and to gain public acceptance. These identified issues should
 form the basis for continued work beyond this funding cycle.

(d) The commission shall convene a steering committee to guide the development of the business case. The membership must be the same as provided in chapter 86, Laws of 2012, except that the membership must also include the joint transportation committee executive members.

(e) The commission shall submit a report of the business case to the governor and the transportation committees of the legislature by December 15, 2013. The report must also include a proposed budget and work plan for fiscal year 2015. A progress report must be submitted to the governor and the joint transportation committee by November 1, 2013, including a presentation to the joint transportation committee.

1 (((4))) (5) \$174,000 of the motor vehicle account--state 2 appropriation is provided solely for the voice of Washington survey 3 program. The funding must be utilized for continued program 4 maintenance and two transportation surveys for the 2013-2015 fiscal 5 biennium.

(6)(a) \$450,000 of the motor vehicle account--state appropriation б is provided solely for a work plan to further develop the concept of a 7 road usage charge system. The work plan must include: Refinement of 8 initial policy analysis and development, a concept of operations that 9 incorporates refined policy inputs, and a financial analysis evaluating 10 the operational concept. The refinement of initial policy analysis and 11 development funded under this subsection must be supplemented by the 12 13 products of complementary policy refinement tasks delegated to the department of transportation in section 214 of this act and the office 14 of the state treasurer in section 703 of this act. It is the intent of 15 the legislature that consideration for potential planning for a pilot 16 project and any risk analysis occur in the 2015 legislative session. 17

18 (b)(i) For the purposes of the refinement of initial policy 19 analysis and development, the work plan must consider phasing and 20 staging of how a road usage charge would be implemented as it relates 21 to the types of vehicles that would be subject to a road usage charge 22 and the nature and manner of a transition period.

(ii) For the purposes of this subsection (6)(b), the legislature 23 24 intends that the commission focus its analysis by assuming that the exemptions under a road usage charge would be the same as those under 25 the motor vehicle fuel and special fuel taxes. In addition, the 26 27 commission must engage the road usage charge steering committee, which was reauthorized in chapter 306, Laws of 2013 for fiscal year 2014 and 28 is hereby reauthorized in this act with the same membership, to 29 continue in its role and, at a minimum, to guide the work specified in 30 (a) of this subsection, including the following: Assessing and 31 recommending the type of vehicles that would be subject to the road 32 usage charge, and assessing and recommending the options for the timing 33 and duration of the transition period. The steering committee shall 34 35 report its findings and guidance to the commission by December 1, 2014. 36 (c)(i) For the purposes of the development of the concept of operations, the development must incorporate the products of (b) of 37

1 this subsection, and, to the extent practicable, the products of work 2 conducted by the department of transportation in section 214 of this 3 act and the office of the state treasurer in section 703 of this act.

4 (ii) To reduce system development and operational costs, for road user charge options that rely on in-vehicle devices to record mileage, 5 the work plan must recommend how the state can utilize the technology 6 7 and back-office platforms that are scheduled to be provided by 8 commercial account managers under the Oregon road usage charge program. (iii) In addition to a time permit and an odometer charge, the 9 concept of operations recommendation must be developed to include a 10 means for periodic payments based on mileage reporting utilizing 11 methods other than onboard diagnostic in-vehicle devices. 12

13 (d) The work plan and recommendations, along with a proposed work 14 plan and budget for the 2015-2017 fiscal biennium, must be submitted by 15 the commission to the transportation committees of the legislature by 16 January 15, 2015.

17 (7) Within existing resources, the commission shall undertake a study of the urban and rural financial and equity implications of a 18 potential road usage charge system in Washington. The commission shall 19 work_with_the_department_of_transportation_and_the_department_of 20 21 licensing to conduct this analysis. For any survey work that is considered, the commission should utilize the existing voice of 22 <u>Washington survey panel and budget to inform the study. The results</u> 23 24 must be presented to the governor and the legislature by January 15, 25 2015.

26 (8) \$125,000 of the motor vehicle account--state appropriation is 27 provided solely to update the statewide transportation plan required under RCW 47.01.071(4) with the required federal elements to bring the 28 plan into federal compliance. The legislature intends that a single, 29 statewide transportation plan fulfill the requirements of RCW 30 47.01.071(4) and 47.06.040 and currently known federal planning 31 requirements. The commission shall work collaboratively with the 32 department of transportation to accomplish this intent. The commission 33 shall submit the completed plan to the transportation committees of the 34 35 legislature, and the department shall submit the completed plan to the 36 United States department of transportation as required under 23 U.S.C. 37 Sec. 135 by June 30, 2015. The commission shall provide a status

update on this work to the transportation committees of the legislature 1 2 by January 1, 2015. Sec. 206. 2013 c 306 s 206 (uncodified) is amended to read as 3 4 follows: FOR THE FREIGHT MOBILITY STRATEGIC INVESTMENT BOARD 5 б 7 \$879,000 Sec. 207. 2013 c 306 s 207 (uncodified) is amended to read as 8 follows: 9 10 FOR THE WASHINGTON STATE PATROL 11 State Patrol Highway Account--State 12 13 \$366,805,000 14 State Patrol Highway Account--Federal 15 16 \$11,067,000 17 State Patrol Highway Account--Private/Local 18 19 \$3,572,000 20 Highway Safety Account--State Appropriation ((\$19,429,000)) 21 \$19,265,000 22 Multimodal Transportation Account--State 23 24 \$272,000 25 Ignition Interlock Device Revolving Account--State 26 27 \$569,000 28 TOTAL APPROPRIATION $((\frac{405,357,000}))$ 29 \$401,550,000 30 The appropriations in this section are subject to the following conditions and limitations: 31 32 (1) The Washington state patrol shall collaborate with the 33 Washington traffic safety commission on the target zero team pilot program referenced in section 201 of this act. 34 (2) During the 2013-2015 fiscal biennium, the Washington state 35 patrol shall relocate its data center to the state data center in 36

Olympia. The Washington state patrol shall work with the department of
 enterprise services to negotiate the lease termination agreement for
 the current data center site.

(3) Washington state patrol officers engaged in off-duty uniformed 4 employment providing traffic control services to the department of 5 transportation or other state agencies may use state patrol vehicles 6 7 for the purpose of that employment, subject to quidelines adopted by the chief of the Washington state patrol. The Washington state patrol 8 must be reimbursed for the use of the vehicle at the prevailing state 9 10 employee rate for mileage and hours of usage, subject to guidelines developed by the chief of the Washington state patrol. 11

(4) \$573,000 of the ignition interlock device revolving account-state appropriation is provided solely for the ignition interlock program at the Washington state patrol to provide funding for two staff to work and provide support for the program in working with manufacturers, service centers, technicians, and participants in the program.

18 (5) \$370,000 of the state patrol highway account--state appropriation is provided solely for costs associated with the pilot 19 program described under section 216(((+6))) (5) of this act. 20 The 21 Washington state patrol may incur costs related only to the assignment 22 of cadets and necessary computer equipment and to the reimbursement of the department of transportation for contract costs. The appropriation 23 24 in this subsection must be funded from the portion of the automated 25 traffic safety camera infraction fines deposited into the state patrol highway account; however, if the fines deposited into the state patrol 26 27 highway account from automated traffic safety camera infractions do not reach three hundred seventy thousand dollars, the department of 28 transportation shall remit funds necessary to the Washington state 29 patrol to ensure the completion of the pilot program. The Washington 30 state patrol may not incur overtime as a result of this pilot program. 31 32 The Washington state patrol shall not assign troopers to operate or deploy the pilot program equipment used in roadway construction zones. 33

(6) The cost allocation for any costs incurred for the facilities
 at the Olympia, Washington airport used for the Washington state patrol
 aviation section must be split evenly between the state patrol highway
 account and the general fund.

(7) The Washington state patrol shall work with the state 1 2 interoperability executive committee to compile a list of recent studies evaluating the potential savings and benefits of consolidating 3 law enforcement and emergency dispatching centers and report to the 4 joint transportation committee by December 1, 2014, on the findings and 5 recommendations of those studies. As part of this study, the 6 7 Washington state patrol must look for potential efficiencies within 8 state government.

9 (8) The Washington state patrol shall coordinate and support local 10 law enforcement in Pierce county in providing traffic control on the 11 highways and other activities within current budget during the United 12 States open national golf championship in June 2015.

30 The appropriations in this section are subject to the following 31 conditions and limitations:

32 (1)(a) The legislature finds that the department's tolling division 33 has expanded greatly in recent years to address the demands of 34 administering several newly tolled facilities using emerging toll 35 collection technologies. The legislature intends for the department to 36 continue its good work in administering the tolled facilities of the state, while at the same time implementing controls and processes to
 ensure the efficient and judicious administration of toll payer
 dollars.

(b) The legislature finds that the department has undertaken a 4 5 cost-of-service study in the winter and spring of 2013 for the purposes of identifying in detail the costs of operating and administering б 7 tolling on state route number 520, state route number 167 high-occupancy toll lanes, and the Tacoma Narrows bridge. The purpose 8 of the study is to provide results to establish a baseline by which 9 10 future activity may be compared and opportunities identified for cost savings and operational efficiencies. In addition, the legislature 11 12 finds that the state auditor has undertaken a performance audit of the 13 department's contract for the customer service center and back office 14 processing of tolling transactions. The audit findings, which are expected to include lessons learned, are due in late spring 2013. 15

(c) Using the results of the cost-of-service study and the state 16 17 audit as a basis, the department shall conduct a review of operations using lean management principles in order to eliminate inefficiencies 18 19 and redundancies, incorporate lessons learned, and identify opportunities to conduct operations more efficiently and effectively. 20 21 Within current statutory and budgetary tolling policy, the department 22 shall use the results of the review to improve operations in order to conduct toll operations within the appropriations provided 23 in 24 subsections (2) through (4) of this section. The department shall 25 submit the review, along with the status of and plans for the 26 implementation of review recommendations, to the office of financial 27 management and the house of representatives and senate transportation committees by October 15, 2013. 28

1 related to credit card processing, transponder purchases and inventory 2 management, facility operations and maintenance, and other 3 miscellaneous nonvendor costs.

(3) ((\$10,907,000)) <u>\$11,265,000</u> of the Tacoma Narrows toll bridge 4 account--state appropriation, $\left(\left(\frac{\$9,363,000}{\$9,730,000}\right)\right)$ of the state 5 route number 520 corridor account--state appropriation, and \$625,000 of б 7 the high-occupancy toll lanes operations account--state appropriation are provided solely for vendor-related costs of operating tolled 8 facilities, including the costs of: The customer service center; cash 9 10 collections on the Tacoma Narrows bridge; electronic payment processing; and toll collection equipment maintenance, renewal, and 11 12 replacement.

13 (4) \$1,300,000 of the Tacoma Narrows toll bridge account--state appropriation and \$6,000,000 of the state route number 520 corridor 14 15 account--state appropriation are provided solely for the purposes of addressing unforeseen operations and maintenance costs on the Tacoma 16 17 Narrows bridge and the state route number 520 bridge, respectively. The office of financial management shall place the amounts provided in 18 this section, which represent a portion of the required minimum fund 19 balance under the policy of the state treasurer, in unallotted status. 20 21 The office may release the funds only when it determines that all other 22 funds designated for operations and maintenance purposes have been 23 exhausted.

24 (5) ((\$4,169,000)) \$4,156,000 of the state route number 520 civil penalties account--state appropriation and \$1,039,000 of the Tacoma 25 Narrows toll bridge account -- state appropriation are provided solely 26 27 for expenditures related to the toll adjudication process. The department shall report on the civil penalty process to the office of 28 financial management and the house of representatives and senate 29 transportation committees by the end of each calendar quarter. 30 The reports must include a summary table for each toll facility that 31 includes: The number of notices of civil penalty issued; the number of 32 recipients who pay before the notice becomes a penalty; the number of 33 recipients who request a hearing and the number who do not respond; 34 35 workload costs related to hearings; the cost and effectiveness of debt 36 collection activities; and revenues generated from notices of civil 37 penalty.

(6) The Tacoma Narrows toll bridge account--state appropriation in
 this section reflects reductions in management costs of \$1,235,000.

3 (7) The department shall make detailed quarterly expenditure 4 reports available to the transportation commission and to the public on 5 the department's web site using current department resources. The 6 reports must include a summary of toll revenue by facility on all 7 operating toll facilities and high occupancy toll lane systems, and an 8 itemized depiction of the use of that revenue.

9 (8) The department shall make detailed quarterly reports to the 10 governor and the transportation committees of the legislature on the 11 use of consultants in the tolling program. The reports must include 12 the name of the contractor, the scope of work, the type of contract, 13 timelines, deliverables, any new task orders, and any extensions to 14 existing consulting contracts.

(9)(a) \$250,000 of the Puget Sound ferry operations account--state appropriation is provided solely for the development of a plan to integrate and transition customer service, reservation, and payment systems currently provided by the marine division to ferry users into the statewide tolling customer service center.

20

(b)(i) The department shall develop a plan that addresses:

(A) A phased implementation approach, beginning with "Good To Go"
 as a payment option for ferry users;

(B) The feasibility, schedule, and cost of creating a singleaccount-based system for toll road and ferry users;

(C) Transitioning customer service currently provided by the marine
 division to the statewide tolling customer service center; and

(D) Transitioning existing and planned ferry reservation system
 support from the marine division to the statewide tolling customer
 service center.

30 (ii) The plan must be provided to the office of financial 31 management and the transportation committees of the legislature by 32 January 14, 2014.

33 (10)(a) \$2,019,000 of the Interstate 405 express toll lanes 34 operations account--state appropriation is provided solely for 35 operating and maintenance costs of the Interstate 405 express toll 36 lanes program, including staff costs related to operating an additional 37 toll facility, consulting support for operations, purchase of 38 transponders, costs related to adjudication, credit card fees, printing

and postage, and customer service center support. Of the amount 1 2 provided in this subsection, \$519,000 of the Interstate 405 express 3 toll lanes operations account--state appropriation must be placed in unallotted status by the office of financial management until a plan to 4 5 begin tolling the Interstate 405 express toll lanes during the summer of 2015 is finalized and approved by the office of financial б 7 management, in consultation with the chairs and ranking member of the 8 transportation committees of the legislature.

9 (b) The funds provided in (a) of this subsection are provided 10 through a transfer from the motor vehicle account--state appropriation 11 in section 407(19) of this act. These funds are a loan to the 12 Interstate 405 express toll lanes operations account--state 13 appropriation, and the legislature assumes that these funds will be 14 reimbursed to the motor vehicle account at a later date when the 15 Interstate 405 express toll lanes are operational.

16 (11) \$1,060,000 of the Tacoma narrows toll bridge account--state appropriation, \$2,003,000 of the state route number 520 corridor 17 account--state appropriation, and \$99,000 of the high occupancy toll 18 19 lanes operations account--state appropriation are provided solely in anticipation of, and to prepare for, the procurement of a new tolling 20 21 customer service center. Of the amounts provided in this subsection, \$480,000 of the Tacoma narrows toll bridge account--state 22 appropriation, \$906,000 of the state route number 520 corridor 23 24 account--state appropriation, and \$45,000 of the high occupancy toll lanes operations account--state appropriation must be placed in 25 unallotted_status_by_the_office_of_financial_management_until_a 26 procurement plan is finalized and approved by the office of financial 27 management, in consultation with the chairs and ranking member of the 28 transportation committees of the legislature. Beginning July 1, 2014, 29 the department shall report quarterly to the governor, legislature, and 30 31 state auditor on: (a) The department's effort to mitigate risk to the state, (b) the development of a request for proposals, and (c) the 32 overall progress towards procuring a new tolling customer service 33 34 center.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$4,423,000 of the motor vehicle account--state appropriation is
 provided solely for the department's compliance with its national
 pollution discharge elimination system permit.

(2) The real estate services division of the department must
 recover the cost of its efforts from sale proceeds and fund additional
 future sales from those proceeds.

32 (3) The legislature recognizes that the Dryden pit site (WSDOT 33 Inventory Control (IC) No. 2-04-00103) is unused state-owned real 34 property under the jurisdiction of the department, and that the public 35 would benefit significantly from the complete enjoyment of the natural 36 scenic beauty and recreational opportunities available at the site. 37 Therefore, pursuant to RCW 47.12.080, the legislature declares that

transferring the property to the department of fish and wildlife for 1 2 recreational use and fish and wildlife restoration efforts is consistent with the public interest in order to preserve the area for 3 the use of the public and the betterment of the natural environment. 4 The department shall work with the department of fish and wildlife and 5 transfer and convey the Dryden pit site to the department of fish and б 7 wildlife as-is for an adjusted fair market value reflecting site conditions, the proceeds of which must be deposited in the motor 8 vehicle fund. The department is not responsible for any costs 9 10 associated with the cleanup or transfer of this property. This subsection expires June 30, 2014. 11

12 (4) The legislature recognizes that the trail known as the Apple 13 Capital Loop, and its extensions, serve to separate motor vehicle 14 traffic from pedestrians and bicyclists, increasing motor vehicle safety on existing state route number 28. Consistent with chapter 15 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that 16 17 transferring portions of WSDOT Inventory Control (IC) Nos. 2-09-04537 and 2-09-04569 to Douglas county and the city of East Wenatchee is 18 consistent with the public interest. The legislature directs the 19 department to transfer the property to Douglas county and the city of 20 21 East Wenatchee. The department must be paid fair market value for any portions of the transferred real property that is later abandoned, 22 vacated, or ceases to be publicly maintained for trail purposes. 23 24 Douglas county and the city of East Wenatchee must agree to accept 25 responsibility for trail segments within their respective jurisdictions and sign an agreement with the state that the transfer of these parcels 26 27 to their respective jurisdictions extinguishes any state obligations to improve, maintain, or be in any way responsible for these assets. This 28 subsection expires June 30, 2014. 29

(5) The legislature recognizes that the SR 20/Cook Road realignment 30 31 and extension project in the city of Sedro-Woolley will enhance the 32 state and local highway systems by providing a more direct route from state route number 20 and state route number 9 to Interstate 5, and 33 will reduce traffic on state route number 20 and state route number 9, 34 35 improving the capacity of each route. Furthermore, the legislature 36 declares that certain portions of the department's property held for 37 highway purposes located primarily to the north and west of state route 38 number 20, between state route number 20 to the south and F and S Grade

Road to the north, in the incorporated limits of Sedro-Woolley in 1 2 Skagit county, can help facilitate completion of the project. Therefore, consistent with RCW 47.12.063, 47.12.080, and 47.12.120, it 3 is the intent of the legislature that the department sell, transfer, or 4 lease, as appropriate, to the city of Sedro-Woolley only those portions 5 of the property necessary to construct the project, including necessary 6 7 staging areas. However, any staging areas should revert to the 8 department within three years of completion of the project.

9 (6) Within the amounts provided in this section, the department 10 shall create a quality assurance position. This position must provide 11 independent project quality assurance validation and ensure that 12 quality assurance audit functions are accountable at the highest level 13 of the organization.

(7) To maximize available resources, the department's efforts to 14 eliminate fish passage barriers caused by state roads and highways must 15 be based on the principle of maximizing habitat recovery through a 16 coordinated investment strategy that, to the maximum extent practical 17 and allowable, prioritizes opportunities: To correct multiple fish 18 barriers in whole streams rather than through individual, isolated 19 projects; to coordinate with other entities sponsoring barrier 20 21 removals, such as regional fisheries enhancement groups, in a manner that achieves the greatest cost savings to all parties; and to 22 eliminate barriers located furthest downstream in a stream system. The 23 24 department must also recognize that many of the barriers owned by the state are located in the same stream systems as barriers that are owned 25 26 by cities and counties with limited financial resources for correction 27 and that state/local partnership opportunities should be sought to address these barriers. This subsection takes effect if chapter . . . 28 (Second Substitute House Bill No. 2251), Laws of 2014 is not enacted by 29 30 June 30, 2014.

31 (8) \$1,453,000 of the motor vehicle account--state appropriation is 32 provided solely to support increased departmental efforts to dispose of 33 surplus property as directed in subsection (2) of this section. These 34 additional funds are expected to result in up to \$5,000,000 per fiscal 35 biennium in additional revenues through increasing the sale of surplus 36 property. By December 1, 2014, the department shall report to the 37 governor and the chairs and ranking members of the senate and house of

representatives transportation committees on the number of surplus 1 2 property parcels sold and the amount of revenue generated from those sales during 2014. 3 4 Sec. 214. 2013 c 306 s 214 (uncodified) is amended to read as follows: 5 6 FOR THE DEPARTMENT OF TRANSPORTATION--ECONOMIC PARTNERSHIPS--PROGRAM 7 к 8 9 \$589,000 10 The appropriation in this section is subject to the following 11 conditions and limitations: (1) The legislature finds that the efforts started in the 2011-2013 12 fiscal biennium regarding the transition to a road usage charge system 13 14 represent an important first step in the policy and conceptual development of potential alternative systems to fund transportation 15 16 projects, but that the governance for the development needs clarification. The legislature also finds that significant amounts of 17 research and public education are occurring in similar efforts in 18 19 several states and that these efforts can and should be leveraged to 20 advance the evaluation in Washington. The legislature intends, therefore, that the transportation commission and its staff lead the 21 22 policy development of the business case for a road usage charge system, with the goal of providing the business case to the governor and the 23 24 legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. 25 The legislature intends for additional oversight in the business case 26 development, with guidance from a steering committee as provided in 27 chapter 86, Laws of 2012 for the transportation commission, augmented 28 29 with participation by the joint transportation committee. The legislature further intends that, through the economic partnerships 30 program, the department continue to address administrative, technical, 31 and conceptual operational issues related to road usage charge systems, 32 33 and that the department serve as a resource for information gleaned 34 from other states on this topic for the transportation commission's 35 efforts.

36 (2) The economic partnerships program must continue to explore

retail partnerships at state-owned park-and-ride facilities, as
 authorized in RCW 47.04.295.

3 (3) The department, in collaboration with the transportation commission, shall work with the office of the state treasurer and the 4 state's bond counsel to explore legal approaches for ensuring that any 5 reduction, refunding, crediting, or repeal of the motor vehicle fuel 6 tax, in whole or in part, can be accomplished without unlawfully 7 impairing the legal rights of motor vehicle fuel tax bond holders. The 8 9 results of this work must be shared with the transportation committees of the legislature and the office of financial management by September 10 1, 2014. 11

12 (4) \$21,000 of the motor vehicle account--state appropriation is 13 provided solely as matching funds for the department to partner with 14 other transportation agencies located in the western region of North America to develop strategies and methods for reporting, collecting, 15 crediting, and remitting road usage charges resulting from inter-16 17 jurisdictional travel. At least one partnering jurisdiction must share a common border with Washington. The results of this work must be 18 reported_to_the_governor, the_transportation_commission, and the 19 transportation committees of the legislature by September 1, 2014. 20

24 **Sec. 216.** 2013 c 306 s 216 (uncodified) is amended to read as 25 follows:

The appropriations in this section are subject to the following conditions and limitations:

(1) \$6,000,000 of the motor vehicle account--state appropriation is
 provided solely for low-cost enhancements. The department shall give

1 priority to low-cost enhancement projects that improve safety or 2 provide congestion relief. The department shall prioritize low-cost 3 enhancement projects on a statewide rather than regional basis. By 4 September 1st of each even-numbered year, the department shall provide 5 a report to the legislature listing all low-cost enhancement projects 6 prioritized on a statewide rather than regional basis completed in the 7 prior year.

8 (2) \$9,000,000 of the motor vehicle account--state appropriation is
9 provided solely for the department's incident response program.

10 (3) During the 2013-2015 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' 11 12 access to high occupancy vehicle lanes. Under the pilot program, when 13 the department reserves a portion of a highway based on the number of 14 passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity 15 to carry eight or more passengers, regardless of the number of 16 17 passengers in the vehicle: (a) Auto transportation company vehicles 18 regulated under chapter 81.68 RCW; (b) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked 19 stretch limousines and stretch sport utility vehicles as defined under 20 21 department of licensing rules; (c) private nonprofit transportation 22 provider vehicles regulated under chapter 81.66 RCW; and (d) private employer transportation service vehicles. For purposes of this 23 24 subsection, "private employer transportation service" means regularly 25 scheduled, fixed-route transportation service that is offered by an 26 employer for the benefit of its employees. Nothing in this subsection 27 is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or 28 other claim by private users to public infrastructure. 29

30 (4) The department shall work with the cities of Lynnwood and
 31 Edmonds to provide traffic light synchronization on state route number
 32 524.

33 (((6))) <u>(5)</u> The department, in consultation with the Washington 34 state patrol, must continue a pilot program for the state patrol to 35 issue infractions based on information from automated traffic safety 36 cameras in roadway construction zones on state highways. For the 37 purpose of this pilot program, during the 2013-2015 fiscal biennium, a 38 roadway construction zone includes areas where public employees or

private contractors may be present or where a driving condition exists that would make it unsafe to drive at higher speeds, such as, when the department is redirecting or realigning lanes on any public roadway pursuant to ongoing construction. The department shall use the following guidelines to administer the program:

6 (a) Automated traffic safety cameras may only take pictures of the 7 vehicle and vehicle license plate and only while an infraction is 8 occurring. The picture must not reveal the face of the driver or of 9 passengers in the vehicle;

10 (b) The department shall plainly mark the locations where the 11 automated traffic safety cameras are used by placing signs on locations 12 that clearly indicate to a driver that he or she is entering a roadway 13 construction zone where traffic laws are enforced by an automated 14 traffic safety camera;

15 (c) Notices of infractions must be mailed to the registered owner 16 of a vehicle within fourteen days of the infraction occurring;

(d) The owner of the vehicle is not responsible for the violation if the owner of the vehicle, within fourteen days of receiving notification of the violation, mails to the patrol, a declaration under penalty of perjury, stating that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner, or any other extenuating circumstances;

(e) For purposes of the 2013-2015 fiscal biennium pilot program, 23 24 infractions detected through the use of automated traffic safety 25 cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the 26 27 use of automated traffic safety cameras must be processed in the same manner as parking infractions for the purposes of RCW 3.50.100, 28 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the 29 fine issued under this subsection $\left(\left(\frac{6}{6}\right)\right)$ for an infraction 30 generated through the use of an automated traffic safety camera is one 31 32 hundred thirty-seven dollars. The court shall remit thirty-two dollars of the fine to the state treasurer for deposit into the state patrol 33 highway account; and 34

(f) If a notice of infraction is sent to the registered owner and the registered owner is a rental car business, the infraction must be dismissed against the business if it mails to the patrol, within fourteen days of receiving the notice, a declaration under penalty of

perjury of the name and known mailing address of the individual driving 1 2 or renting the vehicle when the infraction occurred. If the business is unable to determine who was driving or renting the vehicle at the 3 time the infraction occurred, the business must sign a declaration 4 under penalty of perjury to this effect. The declaration must be 5 mailed to the patrol within fourteen days of receiving the notice of 6 7 traffic infraction. Timely mailing of this declaration to the issuing agency relieves a rental car business of any liability under this 8 section for the notice of infraction. A declaration form suitable for 9 10 this purpose must be included with each automated traffic safety camera infraction notice issued, along with instructions for its completion 11 12 and use.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$25,000,000 of the multimodal transportation account--state appropriation is provided solely for a grant program for special needs transportation provided by transit agencies and nonprofit providers of transportation. Of this amount:

(a) \$5,500,000 of the multimodal transportation account--state appropriation is provided solely for grants to nonprofit providers of special needs transportation. Grants for nonprofit providers must be based on need, including the availability of other providers of service in the area, efforts to coordinate trips among providers and riders, and the cost effectiveness of trips provided.

(b) \$19,500,000 of the multimodal transportation account--state 1 2 appropriation is provided solely for grants to transit agencies to transport persons with special transportation needs. To receive a 3 grant, the transit agency must, to the greatest extent practicable, 4 5 have a maintenance of effort for special needs transportation that is no less than the previous year's maintenance of effort for special б 7 needs transportation. Grants for transit agencies must be prorated based on the amount expended for demand response service and route 8 deviated service in calendar year 2011 as reported in the "Summary of 9 10 Public Transportation - 2011" published by the department of transportation. No transit agency may receive more than thirty percent 11 12 of these distributions.

(2) \$17,000,000 of the rural mobility grant program account--state
 appropriation is provided solely for grants to aid small cities in
 rural areas as prescribed in RCW 47.66.100.

(3)(a) \$6,000,000 of the multimodal transportation account--state 16 17 appropriation is provided solely for a vanpool grant program for: (a) Public transit agencies to add vanpools or replace vans; and (b) 18 incentives for employers to increase employee vanpool use. The grant 19 program for public transit agencies will cover capital costs only; 20 21 operating costs for public transit agencies are not eligible for 22 funding under this grant program. Additional employees may not be hired from the funds provided in this section for the vanpool grant 23 24 program, and supplanting of transit funds currently funding vanpools is 25 not allowed. The department shall encourage grant applicants and recipients to leverage funds other than state funds. 26

(b) At least \$1,600,000 of the amount provided in this subsectionmust be used for vanpool grants in congested corridors.

(c) \$520,000 of the amount provided in this subsection is provided
 solely for the purchase of additional vans for use by vanpools serving
 ((soldiers and civilian employees at)) or traveling through the Joint
 Base Lewis-McChord <u>I-5 corridor between mile post 116 and 127</u>.

(4) ((\$9,948,000)) \$11,111,000 of the regional mobility grant program account--state appropriation is reappropriated and provided solely for the regional mobility grant projects identified in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS - Public Transportation - Program (V) as developed ((April 23, 2013)) March 10, 2014.

(5)(a) \$40,000,000 of the regional mobility grant program account--1 2 state appropriation is provided solely for the regional mobility grant projects identified in LEAP Transportation Document ((2013-2)) 2014-2 3 ALL PROJECTS - Public Transportation - Program (V) as developed ((April 4 23, 2013)) March 10, 2014. The department shall review all projects 5 receiving grant awards under this program at least semiannually to б 7 determine whether the projects are making satisfactory progress. Any project that has been awarded funds, but does not report activity on 8 the project within one year of the grant award, must be reviewed by the 9 10 department to determine whether the grant should be terminated. The department shall promptly close out grants when projects have been 11 12 completed, and any remaining funds must be used only to fund projects 13 identified in the LEAP transportation document referenced in this subsection. The department shall provide annual status reports on 14 December 15, 2013, and December 15, 2014, to the office of financial 15 management and the transportation committees of the legislature 16 17 regarding the projects receiving the grants. It is the intent of the 18 legislature to appropriate funds through the regional mobility grant 19 program only for projects that will be completed on schedule. Α grantee may not receive more than twenty-five percent of the amount 20 21 appropriated in this subsection. The department shall not approve any 22 increases or changes to the scope of a project for the purpose of a grantee expending remaining funds on an awarded grant. 23

24 (b) In order to be eligible to receive a grant under (a) of this 25 subsection during the 2013-2015 fiscal biennium, a transit agency must 26 establish a process for private transportation providers to apply for 27 the use of park and ride facilities. For purposes of this subsection, 28 (i) "private transportation provider" means: An auto transportation 29 company regulated under chapter 81.68 RCW; a passenger charter carrier 30 regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under 31 32 department of licensing rules; a private nonprofit transportation provider regulated under chapter 81.66 RCW; or a private employer 33 transportation service provider; (ii) "private 34 and employer transportation service" means regularly scheduled, fixed-route 35 36 transportation service that is offered by an employer for the benefit 37 of its employees.

(6) Funds provided for the commute trip reduction (CTR) program may
 also be used for the growth and transportation efficiency center
 program.

4 (7) ((\$6,122,000)) \$6,424,000 of the total appropriation in this
5 section is provided solely for CTR grants and activities. Of this

7 (a) \$3,900,000 of the multimodal transportation account--state 8 appropriation is provided solely for grants to local jurisdictions, 9 selected by the CTR board, for the purpose of assisting employers meet 10 CTR goals;

(b) \$1,770,000 of the multimodal transportation account--state appropriation is provided solely for state costs associated with CTR. The department shall develop more efficient methods of CTR assistance and survey procedures; and

(c) ((\$452,000)) \$754,000 of the state vehicle parking account-state appropriation is provided solely for CTR-related expenditures, including all expenditures related to the guaranteed ride home program and the STAR pass program.

(8) An affected urban growth area that has not previously
implemented a commute trip reduction program as of the effective date
of this section is exempt from the requirements in RCW 70.94.527.

(9) \$200,000 of the multimodal transportation account--state appropriation is contingent on the timely development of an annual report summarizing the status of public transportation systems as identified under RCW 35.58.2796.

(10) \$160,000 of the motor vehicle account--federal appropriation 26 27 is provided solely for King county metro to study demand potential for a state route number 18 and Interstate 90 park and ride location, to 28 size the facilities appropriately, to perform site analysis, and to 29 develop preliminary design concepts. When studying potential park and 30 ride locations pursuant to this subsection, King county metro must take 31 into consideration the effect of the traffic using the weigh station at 32 the Interstate 90 and state route number 18 interchange at exit 25 and, 33 to the maximum extent practicable, choose a park and ride location that 34 35 minimizes traffic impacts for the Interstate 90 and state route number 36 18 interchange and the weigh station.

11 The appropriations in this section are subject to the following 12 conditions and limitations:

13 (1) The office of financial management budget instructions require agencies to recast enacted budgets into activities. The Washington 14 15 state ferries shall include a greater level of detail in its 2013-2015 supplemental and 2015-2017 omnibus transportation appropriations act 16 17 requests, as determined jointly by the office of financial management, the Washington state ferries, and the transportation committees of the 18 legislature. This level of detail must include the administrative 19 20 functions in the operating as well as capital programs.

(2) Until a reservation system is operational on the San Juan islands inter-island route, the department shall provide the same priority loading benefits on the San Juan islands inter-island route to home health care workers as are currently provided to patients traveling for purposes of receiving medical treatment.

(3) For the 2013-2015 fiscal biennium, the department may enter
 into a distributor controlled fuel hedging program and other methods of
 hedging approved by the fuel hedging committee.

(4) ((\$112,342,000)) \$113,157,000 of the Puget Sound ferry 29 30 operations account--state appropriation is provided solely for auto ferry vessel operating fuel in the 2013-2015 fiscal biennium, which 31 32 reflect cost savings from a reduced biodiesel fuel requirement and, therefore, are contingent upon the enactment of section 701 ((of this 33 act)), chapter 306, Laws of 2013. The amount provided in this 34 35 subsection represent the fuel budget for the purposes of calculating any ferry fare fuel surcharge. The department shall develop a fuel 36 37 reduction plan to be submitted as part of its 2014 supplemental budget

1 proposal. The plan must include fuel saving proposals, such as vessel 2 modifications, vessel speed reductions, and changes to operating 3 procedures, along with anticipated fuel saving estimates.

4 (5) \$100,000 of the Puget Sound ferry operations account--state
5 appropriation is provided solely for the department's compliance with
6 its national pollution discharge elimination system permit.

7 (6) When purchasing uniforms that are required by collective
8 bargaining agreements, the department shall contract with the lowest
9 cost provider.

10 (7) \$3,049,000 of the Puget Sound ferry operations account--state appropriation is provided solely for the operating program share of the 11 12 \$7,259,000 in lease payments for the ferry division's headquarters 13 building. Consistent with the 2012 facilities oversight plan, the 14 department shall strive to consolidate office space in downtown Seattle by the end of 2015. The department shall consider renewing the lease 15 for the ferry division's current headquarters building only if the 16 17 lease rate is reduced at least fifty percent and analysis shows that 18 the least cost and risk option for the department. this is Consolidation with other divisions or state agencies, or a reduction in 19 20 leased space, must also be considered as part of any headquarters lease 21 renewal analysis.

(8) \$5,000,000 of the Puget Sound ferry operations account--state appropriation is provided solely for the purchase of a 2013-2015 marine insurance policy. Within this amount, the department is expected to purchase a policy with the lowest deductible possible, while maintaining at least existing coverage levels for ferry vessels, and providing coverage for all terminals.

(9) Within existing resources, the department must evaluate the 28 feasibility of using re-refined used motor oil processed in Washington 29 state as a ferry fuel source. The evaluation must include, but is not 30 limited to, research on existing entities currently using the process 31 for re-refined fuel, any required combustible engine modifications, 32 additional needed equipment on the vessels or fueling locations, cost 33 analysis, compatibility with B-5 blended diesel, and meeting engine 34 performance __specifications. The __department __must __establish __an 35 36 evaluation group that includes, but is not limited to, persons 37 experienced in the re-refined motor oil industry. The department must

4 (10) \$71,000 of the Puget Sound ferry operations account--state
5 appropriation is provided solely for one traffic attendant for ferry
6 terminal traffic control at the Fauntleroy ferry terminal.

7 Sec. 222. 2013 c 306 s 222 (uncodified) is amended to read as 8 follows:

13 The appropriations in this section are subject to the following 14 conditions and limitations:

(1) ((\$27,319,000)) <u>\$40,289,000</u> of the multimodal transportation 15 account--state appropriation is provided solely for ((the-Amtrak 16 service - contract - and - Talgo - maintenance - contract - associated - with 17 providing)) operating and maintaining state-supported passenger rail 18 19 service. In recognition of the increased costs the state is expected 20 to absorb due to changes in federal law, the department is directed to analyze the Amtrak contract proposal and find cost saving alternatives. 21 22 The department shall report to the transportation committees of the legislature before the 2014 regular legislative session on its 23 24 revisions to the Amtrak contract, including a review of the appropriate 25 costs within the contract for concession services, policing, host railroad incentives, and station services and staffing needs. Within 26 27 thirty days of each annual cost/revenue reconciliation under the Amtrak 28 service contract, the department shall report any changes that would 29 affect the state subsidy amount appropriated in this subsection. Through a competitive process, the department may contract with a 30 private entity for services related to operations and maintenance of 31 the Amtrak Cascades route, including, but not limited to, concession 32 services. 33

34

(2) Amtrak Cascades runs may not be eliminated.

35 (3) The department shall continue a pilot program by partnering 36 with the travel industry on the Amtrak Cascades service between 37 Vancouver, British Columbia, and Seattle to test opportunities for

increasing ridership, maximizing farebox recovery, and stimulating 1 private investment. The pilot program must run from December 31, 2013, 2 to December 31, 2014, and evaluate seasonal differences in the program 3 and the effect of advertising. The department may offer to Washington 4 universities an opportunity for business students to work as interns on 5 the analysis of the pilot program process and results. The department 6 7 shall report on the results of the pilot program to the office of 8 financial management and the legislature by January 31, 2015.

9 (4) \$150,000 of the multimodal transportation account--state 10 appropriation is provided solely for the department to develop an inventory of short line rail infrastructure that can be used to support 11 12 a data-driven approach to identifying system needs. The department 13 shall work with short line rail owners and operators within the state, provide status updates periodically to the joint transportation 14 committee, submit a progress report of its findings to the 15 transportation committees of the legislature and the office of 16 17 financial management by December 15, 2014, submit a preliminary report of key findings and recommendations to the transportation committees of 18 the legislature and the office of financial management by March 1, 19 2015, and submit a final report to the transportation committees of the 20 21 legislature and the office of financial management by June 30, 2015.

However, limited transfers of specific line-item project 22 23 appropriations may occur between projects for those amounts listed 24 subject to the conditions and limitations in section ((603)) 601 of 25 this act.

26 (2) Except as provided otherwise in this section, the entire motor 27 vehicle account--state appropriation and motor vehicle account--federal 28 appropriation are provided solely for the projects and activities 29 listed in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS 30 as developed ((April-23,-2013)) March_10,_2014, Program - Highway Improvement Program (I). ((It-is-the-intent-of-the-legislature-to 31 32 direct))The department ((to give first priority of)) shall apply any federal funds gained through efficiencies or the redistribution process 33 34 in an amount up to \$27,200,000 for cost overruns related to the pontoon design errors on the SR 520 Bridge Replacement and HOV project 35 (8BI1003) as described in subsection (12)(f) of this section. Any 36 37 federal funds gained through efficiencies or the redistribution process 38 that are in excess of \$27,200,000 must then be applied to the "Contingency (Unfunded) Highway Preservation Projects" as identified in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS as developed ((April-23, -2013)) March_10, 2014, Program - Highway Preservation Program (P). However, no additional federal funds may be allocated to the I- 5/Columbia River Crossing project (400506A).

6 (3) Within the motor vehicle account--state appropriation and 7 motor vehicle account--federal appropriation, the department may 8 transfer funds between programs I and P, except for funds that are 9 otherwise restricted in this act.

(f) The legislature finds that the most appropriate way to pay for 28 the cost overruns related to change orders, additional sales tax, and 29 future risks associated with pontoon design errors is for the state to 30 issue triple pledge bonds in the 2015-2017 fiscal biennium resulting in 31 \$110,961,000 in proceeds, and use efficiencies, including the use of 32 least cost planning or practical design, and favorable bids in the 33 highway construction program to generate an additional \$61,066,000 34 towards paying for the estimated project overruns. Of this additional 35 \$61,066,000, \$33,866,000 should come from the transportation 36 37 partnership account--state appropriation and \$27,200,000 should come from federal funds. As the department identifies savings in federal 38

funds during the 2013-2015 fiscal biennium, the department shall 1 2 prioritize the use of these funds towards the anticipated \$27,200,000 in federal funds needed to address cost overruns before expending state 3 funds during this fiscal biennium. The legislature assumes that 4 issuing bonds to complete this project as listed in LEAP Transportation 5 б Document 2014-1 as developed March 10, 2014, does not require a comprehensive financial plan for a project that completes the state 7 route number 520 corridor to Interstate 5. 8

(g) The department's 2014 supplemental budget allotment submittal 9 must include a project-specific plan detailing how the department will 10 achieve the mandatory budget savings in (f) of this subsection, 11 12 including the use of least cost planning or practical design as a means 13 to generate savings, as referenced in subsection (23) of this section. The use of least cost planning or practical design may result in a 14 reduction of project cost, but not a reduction of functional scope. 15 The director of financial management shall notify the transportation 16 committees of the legislature in writing seven days prior to approving 17 any allotment modifications under this subsection. 18

Funding may be 37 reallocated between projects to maximize the accomplishment of design 38 and preliminary engineering work and rights-of-way acquisition,

1 provided that all projects are addressed. It is the intent of the 2 legislature that, while seeking to maximize the outcomes in this 3 section, the department shall provide for continuity of both the state 4 and consulting engineer workforce, while strategically utilizing 5 private sector involvement to ensure consistency with the department's 6 business plan for staffing in the highway construction program in the 7 current fiscal biennium.

Prior 16 17 to the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved 18 wood and one hundred ten thousand wood guardrail posts were produced 19 20 annually for state use. Moreover, the policy of using steel posts 21 requires the state to use imported steel. Given these findings, where 22 practicable, and until June 30, 2015, the department shall include the design option to use wood guardrail posts, in addition to steel posts, 23 24 in new guardrail installations. The selection of posts must be 25 consistent with the agency design manual policy that existed before 26 December 2009.

27 (18) The legislature finds that "right-sizing" is a lean, metric-based approach to determining project investments. This concept 28 entails compromise between project cost and design, incorporating local 29 community needs, desired outcomes, and available funding. Furthermore, 30 31 the legislature finds that the concepts and principles the department 32 has utilized in the safety analyst program have been effective tools to prioritize projects and reduce project costs. 33 Therefore, the department shall establish a pilot project on the SR 3/Belfair Bypass 34 - New Alignment (300344C) to begin implementing the concept of 35 "right-sizing" in the highway construction program. 36

37 (19) For urban corridors that are all or partially within a 38 metropolitan planning organization boundary, for which the department 1 has not initiated environmental review, and that require an 2 environmental impact statement, at least one alternative must be 3 consistent with the goals set out in RCW 47.01.440.

4 (20) The department shall itemize all future requests for the 5 construction of buildings on a project list and submit them through the 6 transportation executive information system as part of the department's 7 2014 budget submittal. It is the intent of the legislature that new 8 facility construction must be transparent and not appropriated within 9 larger highway construction projects.

(21) ((\$28,963,000)) \$19,513,000 of the motor vehicle account-state appropriation ((is)) and \$9,450,000 of the motor vehicle account--federal appropriation are provided solely for improvement program support activities (095901X). \$18,000,000 of this amount must be held in unallotted status until the office of financial management certifies that the department's 2014 supplemental budget request conforms to the terms of subsection (20) of this section.

17 (((23))) (22) Any new advisory group that the department convenes 18 during the 2013-2015 fiscal biennium must be representative of the 19 interests of the entire state of Washington.

20 (23) <u>Practical design offers targeted benefits to a state</u> 21 transportation system within available fiscal resources. This delivers value not just for individual projects, but for the entire system. 22 Applying practical design standards will also preserve and enhance 23 24 safety and mobility. The department shall implement a practical design strategy for transportation design standards. By June 30, 2015, the 25 26 department shall report to the governor and the house of 27 representatives and senate transportation committees on where practical design has been applied or is intended to be applied in the department 28 29 and the cost savings resulting from the use of practical design.

30 (24) The department of transportation shall accept transfer to the state highway system of Quarry Road (also known as the Granite Falls 31 Alternate Route) as a partially controlled limited access facility, 32 consistent with the right-of-way and limited access plan adopted by 33 Snohomish county and the city of Granite Falls in 2008. The department 34 of transportation shall defend any and all claims related to access and 35 challenges to the limited access designation. This subsection takes 36 effect ninety days after the date the governor signs this act if an 37

1	agreement between the department of transportation and Snohomish county
2	has not been signed by the effective date of this act.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire 25 26 transportation 2003 account (nickel account) appropriation and the 27 entire transportation partnership account appropriation are provided 28 solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((2013-1)) 2014-1 as developed 29 ((April-23,-2013)) March_10,_2014, Program - Highway Preservation 30 Program (P). However, limited transfers of specific line-item project 31 32 appropriations may occur between projects for those amounts listed 33 subject to the conditions and limitations in section ((603)) 601 of this act. 34

35 (2) Except as provided otherwise in this section, the entire motor 36 vehicle account--state appropriation and motor vehicle account--federal 37 appropriation are provided solely for the projects and activities

listed in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS 1 2 as developed ((April-23, -2013)) March 10, 2014, Program - Highway Preservation Program (P). ((It-is-the-intent-of-the-legislature-to 3 direct)) The department ((to give first priority of)) shall apply any 4 5 federal funds gained through efficiencies or the redistribution process in an amount up to \$27,200,000 for cost overruns related to the pontoon 6 7 design errors on the SR 520 Bridge Replacement and HOV project (8BI1003) as described in section 306(12)(f) of this act. Any federal 8 funds gained through efficiencies or the redistribution process that 9 are in excess of \$27,200,000 must then be applied to the "Contingency" 10 (Unfunded) Highway Preservation Projects" as identified in LEAP 11 12 Transportation Document $((\frac{2013-2}{2}))$ <u>2014-2</u> ALL PROJECTS as developed 13 ((April-23,-2013)) March_10,_2014, Program - Highway Preservation Program (P). This project 25 must be completed as a design-build project. The department must work 26 with local jurisdictions and the community during the environmental 27 review process to develop appropriate esthetic design elements, at no additional cost to the department, and traffic management plans 28 pertaining to this project. The department must report to the 29 30 transportation committees of the legislature on estimated cost and/or time savings realized as a result of using the design-build process. 31

32 (5) The department shall examine the use of electric arc furnace 33 slag for use as an aggregate for new roads and paving projects in high 34 traffic areas and report back to the legislature on its current use in 35 other areas of the country and any characteristics that can provide 36 greater wear resistance and skid resistance in new pavement 37 construction.

7 (1) Except as provided otherwise in this section, the entire
8 appropriations in this section are provided solely for the projects and
9 activities as listed in LEAP Transportation Document ((2013-2)) 2014-2
10 ALL PROJECTS as developed ((April 23, 2013)) March 10, 2014, Program 11 Washington State Ferries Capital Program (W).

12 (2) The Puget Sound capital construction account--state 13 appropriation includes up to \$20,000,000 in proceeds from the sale of 14 bonds authorized in RCW 47.10.843.

(3) ((\$143,633,000)) \$137,425,000 of the transportation 2003 account (nickel account)--state appropriation ((is)), \$2,338,000 of the transportation partnership account--state appropriation, and \$300,000 of the Puget Sound capital construction account--federal appropriation are provided solely for the acquisition of two 144-car vessels (projects L2200038 and L2200039). The department shall use as much already procured equipment as practicable on the 144-car vessels.

22 (4) ((\$8,270,000)) <u>\$14,728,000</u> of the Puget Sound capital construction account--federal appropriation, ((\$3,935,000)) \$4,038,000 23 of the Puget Sound capital construction account--state appropriation, 24 25 ((\$1,534,000)) \$1,535,000 of the multimodal transportation and account--state appropriation are provided solely for the Mukilteo ferry 26 27 terminal (project 952515P). To the greatest extent practicable, the 28 department shall seek additional federal funding for this project. 29 <u>Within the multimodal transportation account--state appropriation</u> amount provided in this subsection, the department shall lease to the 30 city in which the project is located a portion of the department's 31 32 property associated with this project to provide safe, temporary public access from the easterly terminus of First Street to the vicinity of 33 Front Street. The department shall provide the lease at no cost in 34 recognition of the impacts of this project to the city and require 35 appropriate liability and maintenance coverage in the terms of the 36 37 lease. Public access must be installed and removed at no cost to the 38 state prior to construction of the multimodal terminal project.

1 (5) ((\$4,000,000)) \$4,935,000 of the Puget Sound capital 2 construction account--state appropriation is provided solely for 3 emergency capital repair costs (project 999910K). Funds may only be 4 spent after approval by the office of financial management.

5 (6) Consistent with RCW 47.60.662, which requires the Washington 6 state ferry system to collaborate with passenger-only ferry and transit 7 providers to provide service at existing terminals, the department 8 shall ensure that multimodal access, including for passenger-only 9 ferries and transit service providers, is not precluded by any future 10 modifications at the terminal.

11 (7) ((\$3,800,000)) \$4,026,000 of the Puget Sound capital 12 construction account--state appropriation is provided solely for the 13 reservation and communications system projects (L200041 & L200042).

14 (8) \$4,210,000 of the Puget Sound capital construction account-state appropriation is provided solely for the capital program share of 15 \$7,259,000 in lease payments for the ferry division's headquarters 16 17 building. Consistent with the 2012 facilities oversight plan, the department shall strive to consolidate office space in downtown Seattle 18 by the end of 2015. The department shall consider renewing the lease 19 for the ferry division's current headquarters building only if the 20 21 lease rate is reduced at least fifty percent and analysis shows that 22 this is the least cost and risk option for the department. Consolidation with other divisions or state agencies, or a reduction in 23 24 leased space, must also be considered as part of any headquarters lease 25 renewal analysis.

26 (9) ((\$21,950,000)) <u>\$23,737,000</u> of the total appropriation is for 27 preservation work on the Hyak super class vessel (project 944431D), including installation of a power management system and more efficient 28 propulsion systems, that in combination are anticipated to save up to 29 twenty percent in fuel and reduce maintenance costs. Upon completion 30 31 of this project, the department shall provide a report to the 32 transportation committees of the legislature on the fuel and maintenance savings achieved for this vessel and the potential to save 33 34 additional funds through other vessel conversions.

35 <u>(10) The transportation 2003 account (nickel account)--state</u> 36 <u>appropriation includes up to \$50,000,000 in proceeds from the sale of</u> 37 <u>bonds authorized in RCW 47.10.861.</u> 1 (11) \$50,000,000 of the transportation 2003 account (nickel account)--state appropriation is provided solely for the acquisition of one 144-car vessel (project L1000063). If chapter . . (Engrossed Second Substitute House Bill No. 1129), Laws of 2014 (ferry vessel replacement) is not enacted by June 30, 2014, the amount provided in the subsection lapses.

7 (12) If the department pursues a conversion of the existing diesel powered Issaquah class fleet to a different fuel source or engine 8 technology, the department must use a design-build procurement process. 9 (13) \$350,000 of the Puget Sound capital construction account--10 state appropriation is provided solely for the issuance of a request 11 12 for proposals to convert the Issaquah class vessels to use liquefied 13 natural gas and to provide a one-time stipend to the entity awarded the 14 conversion contract. Of the amounts provided in this subsection:

(a) \$100,000 of the Puget Sound capital construction account--state 15 appropriation is for the department to issue a request for proposals 16 17 for a design-build contract consistent with RCW 47.20.780 to convert six Issaquah class vessels to be powered by liquefied natural gas. 18 Consistent with RCW 47.56.030(2)(c), the legislature finds that the 19 20 performance needs of the department in converting to liquefied natural 21 gas are for engines with the lowest life-cycle costs, and the 22 department must weigh this criteria as a priority when evaluating the proposals. To encourage cost saving ideas, the department shall limit 23 24 prescribing design elements in the proposal to those approved or required by the United States coast quard in the liquefied natural qas 25 26 waterways suitability assessment or those otherwise essential to 27 provide clear direction to bidders. The request for proposals must include a process for evaluating proposals that may include alternative 28 financing arrangements that are in compliance with state private 29 financing law. When evaluating the financial merits of any liquefied 30 natural gas conversion request for proposals, the department shall give 31 consideration to the inability of the state to fund a liquefied natural 32 gas conversion using currently available public resources. The 33 department shall issue the request for proposals within forty-five days 34 35 of rejecting the liquefied natural gas request for proposals issued 36 under section 308(11), chapter 86, Laws of 2012 or receiving final 37 findings from the United States coast guard on the liquefied natural qas waterways suitability assessment, whichever is later. 38

1 2015. The agreement includes employer contributions to premiums at 2 eighty-five percent of the total weighted average of the projected 3 health care premiums. Appropriations in this act for fiscal year 2015 4 are sufficient to fund the provisions of the fiscal year 2015 5 collective bargaining agreement, and are subject to the following 6 conditions and limitations:

7 (1)(a) The monthly employer funding rate for insurance benefit 8 premiums, public employees' benefits board administration, and the 9 uniform medical plan must not exceed \$809 per eligible employee for 10 fiscal year 2014. For fiscal year 2015, the monthly employer funding 11 rate must not exceed ((\$820)) <u>\$703</u> per eligible employee.

(b) In order to achieve the level of funding provided for health benefits, the public employees' benefits board must require any of the following: Employee premium copayments; increases in point-of-service cost sharing; the implementation of managed competition; or other changes to benefits consistent with <u>the collective bargaining agreement</u> and RCW 41.05.065.

(c) The health care authority shall deposit any moneys received on behalf of the uniform medical plan as a result of rebates on prescription drugs, audits of hospitals, subrogation payments, or any other moneys recovered as a result of prior uniform medical plan claims payments into the public employees' and retirees' insurance account to be used for insurance benefits. Such receipts must not be used for administrative expenditures.

(2) The health care authority, subject to the approval of the public employees' benefits board, shall provide subsidies for health benefit premiums to eligible retired or disabled public employees and school district employees who are eligible for medicare, pursuant to RCW 41.05.085. For calendar years 2014 and 2015, the subsidy must be \$150.00 per month.

31 **Sec. 502.** 2013 c 306 s 518 (uncodified) is amended to read as 32 follows:

33 COMPENSATION--REPRESENTED EMPLOYEES OUTSIDE SUPER COALITION--INSURANCE 34 BENEFITS

Appropriations for state agencies in this act are sufficient for represented employees outside the super coalition for health benefits and are subject to the following conditions and limitations:

1 (1)(a) The monthly employer funding rate for insurance benefit 2 premiums, public employees' benefits board administration, and the 3 uniform medical plan must not exceed \$809 per eligible employee for 4 fiscal year 2014. For fiscal year 2015, the monthly employer funding 5 rate must not exceed ((\$820)) <u>\$703</u> per eligible employee.

6 (b) In order to achieve the level of funding provided for health 7 benefits, the public employees' benefits board shall require any of the 8 following: Employee premium copayments; increases in point-of-service 9 cost sharing; the implementation of managed competition; or other 10 changes to benefits consistent with RCW 41.05.065.

(c) The health care authority shall deposit any moneys received on behalf of the uniform medical plan as a result of rebates on prescription drugs, audits of hospitals, subrogation payments, or any other moneys recovered as a result of prior uniform medical plan claims payments into the public employees' and retirees' insurance account to be used for insurance benefits. Such receipts must not be used for administrative expenditures.

18 (2) The health care authority, subject to the approval of the 19 public employees' benefits board, shall provide subsidies for health 20 benefit premiums to eligible retired or disabled public employees and 21 school district employees who are eligible for medicare, pursuant to 22 RCW 41.05.085. For calendar years 2014 and 2015, the subsidy must be 23 \$150.00 per month.

24 **Sec. 503.** 2013 c 306 s 519 (uncodified) is amended to read as 25 follows:

26 COMPENSATION--NONREPRESENTED EMPLOYEES--INSURANCE BENEFITS

Appropriations for state agencies in this act are sufficient for nonrepresented state employee health benefits for state agencies, including institutions of higher education, and are subject to the following conditions and limitations:

(1)(a) The monthly employer funding rate for insurance benefit premiums, public employees' benefits board administration, and the uniform medical plan must not exceed \$809 per eligible employee for fiscal year 2014. For fiscal year 2015, the monthly employer funding rate must not exceed ((\$820)) <u>\$703</u> per eligible employee.

36 (b) In order to achieve the level of funding provided for health 37 benefits, the public employees' benefits board shall require any of the 1 following: Employee premium copayments; increases in point-of-service 2 cost sharing; the implementation of managed competition; or make other 3 changes to benefits consistent with RCW 41.05.065.

4 (c) The health care authority shall deposit any moneys received on 5 behalf of the uniform medical plan as a result of rebates on 6 prescription drugs, audits of hospitals, subrogation payments, or any 7 other moneys recovered as a result of prior uniform medical plan claims 8 payments into the public employees' and retirees' insurance account to 9 be used for insurance benefits. Such receipts must not be used for 10 administrative expenditures.

11 (2) The health care authority, subject to the approval of the 12 public employees' benefits board, shall provide subsidies for health 13 benefit premiums to eligible retired or disabled public employees and 14 school district employees who are eligible for medicare, pursuant to 15 RCW 41.05.085. IMPLEMENTING PROVISIONS

18 Sec. 601. 2013 c 306 s 603 (uncodified) is amended to read as 19 follows:

20 FUND TRANSFERS

(1) The transportation 2003 projects or improvements and the 2005 21 22 transportation partnership projects or improvements are listed in the 23 LEAP list titled ((2013-1)) <u>2014-1</u> as developed ((April-23, -2013)) 24 March 10, 2014, which consists of a list of specific projects by fund 25 source and amount over a ten-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer 26 year funding allocations represent a ten-year plan. The department is 27 expected to use the flexibility provided in this section to assist in 28 29 the delivery and completion of all transportation partnership account 30 and transportation 2003 account (nickel account) projects on the LEAP transportation documents referenced in this act. However, this section 31 does not apply to the I-5/Columbia River Crossing project (400506A). 32 2011-2013 and 2013-2015 project appropriations, unless 33 For the 34 otherwise provided in this act, the director of financial management 35 may authorize a transfer of appropriation authority between projects

1 funded with transportation 2003 account (nickel account) 2 appropriations, or transportation partnership account appropriations, 3 in order to manage project spending and efficiently deliver all 4 projects in the respective program under the following conditions and 5 limitations:

6 (a) Transfers may only be made within each specific fund source7 referenced on the respective project list;

8 (b) Transfers from a project may not be made as a result of the 9 reduction of the scope of a project or be made to support increases in 10 the scope of a project;

(c) Each transfer between projects may only occur if the director 11 of financial management finds that any resulting change will not hinder 12 13 the completion of the projects as approved by the legislature. Until 14 the legislature reconvenes to consider the 2014 supplemental omnibus appropriations 15 transportation act, any unexpended 2011-2013 16 appropriation balance as approved by the office of financial 17 management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered 18 19 when transferring funds between projects;

20 (d) Transfers from a project may be made if the funds appropriated 21 to the project are in excess of the amount needed to complete the 22 project;

23 (e) Transfers may not occur for projects not identified on the 24 applicable project list;

25 (f) Transfers may not be made while the legislature is in session; 26 and

(g) Transfers between projects may be made, without the approval of the director of the office of financial management, by the department of transportation until the transfer amount by project exceeds two hundred fifty thousand dollars, or ten percent of the total project, whichever is less. These transfers must be reported quarterly to the director of financial management and the chairs of the house of representatives and senate transportation committees.

34 (2) At the time the department submits a request to transfer funds
 35 under this section, a copy of the request must be submitted to the
 36 transportation committees of the legislature.

37 (3) The office of financial management shall work with legislative

staff of the house of representatives and senate transportation
 committees to review the requested transfers in a timely manner.

3 (4) The office of financial management shall document approved 4 transfers and schedule changes in the transportation executive 5 information system, compare changes to the legislative baseline funding 6 and schedules identified by project identification number identified in 7 the LEAP transportation documents referenced in this act, and transmit 8 revised project lists to chairs of the transportation committees of the 9 legislature on a quarterly basis.

10 <u>NEW SECTION.</u> Sec. 602. A new section is added to 2013 c 306 11 (uncodified) to read as follows:

12 FOR THE DEPARTMENT OF TRANSPORTATION

Except as otherwise provided in this act, the department may enter into a new agreement with King county for the purpose of public transportation mitigation for the SR 99/Alaskan Way Viaduct -Replacement project through the end of the 2013-2015 fiscal biennium. Before expending any funds, the department must inform the transportation committees of the legislature of the amount and source of the funds.

20 <u>NEW SECTION.</u> Sec. 603. A new section is added to 2013 c 306 21 (uncodified) to read as follows:

22 FOR THE DEPARTMENT OF TRANSPORTATION

(1) The department shall submit a report to the transportation committees of the legislature detailing engineering errors on highway construction projects resulting in project cost increases in excess of five hundred thousand dollars. The department must submit a full report within ninety days of the negotiated change order resulting from the engineering error.

29 (2) The department's full report must include an assessment and 30 review of:

31 (a) How the engineering error happened;

32 (b) The department of the employee or employees responsible for the 33 engineering error, without disclosing the name of the employee or 34 employees;

35 (c) What corrective action was taken;

(d) The estimated total cost of the engineering error and how the
 department plans to mitigate that cost;

3 (e) Whether the cost of the engineering error will impact the4 overall project financial plan; and

5 (f) What action the secretary has recommended to avoid similar 6 engineering errors in the future.

7

MISCELLANEOUS 2013-2015 FISCAL BIENNIUM

8 **Sec. 701.** RCW 47.28.030 and 2011 c 367 s 710 are each amended to 9 read as follows:

10 (1)(a) A state highway shall be constructed, altered, repaired, or 11 improvements located on improved, and property acquired for right-of-way purposes may be repaired or renovated pending the use of 12 such right-of-way for highway purposes, by contract or state forces. 13 14 The work or portions thereof may be done by state forces when the 15 estimated costs thereof are less than fifty thousand dollars and effective July 1, 2005, sixty thousand dollars. 16

17 (b) When delay of performance of such work would jeopardize a state 18 highway or constitute a danger to the traveling public, the work may be 19 done by state forces when the estimated cost thereof is less than 20 eighty thousand dollars and effective July 1, 2005, one hundred 21 thousand dollars.

(c) When the department of transportation determines to do the work by state forces, it shall enter a statement upon its records to that effect, stating the reasons therefor.

25 (d) To enable a larger number of small businesses and veteran, minority, and women contractors to effectively compete for department 26 27 of transportation contracts, the department may adopt rules providing for bids and award of contracts for the performance of work, or 28 29 furnishing equipment, materials, supplies, or operating services 30 whenever any work is to be performed and the engineer's estimate indicates the cost of the work would not exceed eighty thousand dollars 31 and effective July 1, 2005, one hundred thousand dollars. 32

33 (2) The rules adopted under this section:

1 (a) Shall provide for competitive bids to the extent that 2 competitive sources are available except when delay of performance 3 would jeopardize life or property or inconvenience the traveling 4 public; and

5 (b) Need not require the furnishing of a bid deposit nor a 6 performance bond, but if a performance bond is not required then 7 progress payments to the contractor may be required to be made based on 8 submittal of paid invoices to substantiate proof that disbursements 9 have been made to laborers, material suppliers, mechanics, and 10 subcontractors from the previous partial payment; and

(c) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.

(3) The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter 39.19 RCW.

(4)(a) For the period of March 15, ((2010)) 2014, through June 30,
((2013)) 2015, work for less than one hundred twenty thousand dollars
may be performed on ferry vessels and terminals by state forces.

25 (b) The department shall hire a disinterested, third party to conduct an independent analysis to identify methods of reducing out-of-26 27 service times for vessel maintenance, preservation, and improvement The analysis must include that 28 projects. options consider consolidating work while vessels are at shipyards by having state 29 forces perform services traditionally performed at Eagle Harbor at the 30 31 shipyard and decreasing the allowable time at shipyards. The analysis 32 must also compare the out-of-service vessel times of performing services by state forces versus contracting out those services which in 33 turn must be used to form a recommendation as to what the threshold of 34 work performed on ferry vessels and terminals by state forces should 35 36 This analysis must be presented to the transportation committees be. 37 of the senate and house of representatives by December 1, 2010.

1 (c) The department shall develop a proposed ferry vessel 2 maintenance, preservation, and improvement program and present it to 3 the transportation committees of the senate and house of 4 representatives by December 1, 2010. The proposed program must:

5 (i) Improve the basis for budgeting vessel maintenance, 6 preservation, and improvement costs and for projecting those costs into 7 a sixteen-year financial plan;

8 (ii) Limit the amount of planned out-of-service time to the 9 greatest extent possible, including options associated with department 10 staff as well as commercial shipyards; and

(iii) Be based on the service plan in the capital plan, recognizingthat vessel preservation and improvement needs may vary by route.

13 (d) In developing the proposed ferry vessel maintenance, 14 preservation, and improvement program, the department shall consider 15 the following, related to reducing vessel out-of-service time:

16 (i) The costs compared to benefits of Eagle Harbor repair and 17 maintenance facility operations options to include staffing costs and 18 benefits in terms of reduced out-of-service time;

19 (ii) The maintenance requirements for on-vessel staff, including 20 the benefits of a systemwide standard;

(iii) The costs compared to benefits of staff performing preservation or maintenance work, or both, while the vessel is underway, tied up between sailings, or not deployed;

(iv) A review of the department's vessel maintenance, preservation, and improvement program contracting process and contractual requirements;

(v) The costs compared to benefits of allowing for increased costsassociated with expedited delivery;

(vi) A method for comparing the anticipated out-of-service time of proposed projects and other projects planned during the same construction period;

32 (vii) Coordination with required United States coast guard dry 33 dockings;

34 (viii) A method for comparing how proposed projects relate to the 35 service requirements of the route on which the vessel normally 36 operates; and

37 (ix) A method for evaluating the ongoing maintenance and38 preservation costs associated with proposed improvement projects.

1 **Sec. 702.** RCW 81.53.281 and 2003 c 190 s 3 are each amended to 2 read as follows:

There is hereby created in the state treasury a "grade crossing 3 protective fund" to carry out the provisions of RCW 81.53.261, 4 5 81.53.271, 81.53.281, 81.53.291, and 81.53.295; for grants and/or subsidies to public, private, and nonprofit entities for rail safety б 7 projects authorized or ordered by the commission; and for personnel and associated costs related to supervising and administering rail safety 8 grants and/or subsidies. During the 2013-2015 fiscal biennium, funds 9 in this account may also be used to conduct the study required under 10 section 102 of this act. The commission shall transfer from the public 11 service revolving fund's miscellaneous fees and penalties accounts 12 moneys appropriated for these purposes as needed. At the time the 13 14 commission makes each allocation of cost to said grade crossing protective fund, it shall certify that such cost shall be payable out 15 16 of said fund. When federal-aid highway funds are involved, the 17 department of transportation shall, upon entry of an order by the commission requiring the installation or upgrading of a grade crossing 18 protective device, submit to the commission an estimate for the cost of 19 the proposed installation and related work. Upon receipt of the 20 21 estimate the commission shall pay to the department of transportation 22 the percentage of the estimate specified in RCW 81.53.295, as now or hereafter amended, to be used as the grade crossing protective fund 23 24 portion of the cost of the installation and related work.

The commission may adopt rules for the allocation of money from the grade crossing protective fund.

27 <u>NEW SECTION.</u> Sec. 703. A new section is added to 2013 c 306 28 (uncodified) to read as follows:

29 The office of the state treasurer shall explore the fiscal 30 implications with respect to outstanding motor vehicle fuel 31 transportation bonds and to future transportation bond sales, relating to any reduction, refunding, crediting, or repeal of the motor vehicle 32 fuel tax, in whole or in part, that may occur in a transition to a 33 potential road usage charge by which transportation activities may be 34 funded in the future. The exploration of fiscal implications must 35 36 examine possible effects on the state credit rating, interest rates, 37 and other factors that affect the cost of financing transportation

1 projects. The draft report of this work must be shared with the 2 transportation committees of the legislature, the transportation 3 commission, and the office of financial management by September 1, 4 2014. A final report must be provided to the transportation committees 5 of the legislature, the transportation commission, and the office of 6 financial management by December 31, 2014.

7 Sec. 704. RCW 82.70.020 and 2013 c 306 s 718 are each amended to 8 read as follows:

(1) Employers in this state who are taxable under chapter 82.04 or 9 82.16 RCW and provide financial incentives to their own or other 10 employees for ride sharing, for using public transportation, for using 11 car sharing, or for using nonmotorized commuting before July 1, 12 ((2014)) 2015, are allowed a credit against taxes payable under 13 chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of 14 15 employees for ride sharing in vehicles carrying two or more persons, 16 for using public transportation, for using car sharing, or for using 17 nonmotorized commuting, not to exceed sixty dollars per employee per fiscal year. 18

19 (2) Property managers who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to persons employed at a worksite 20 21 in this state managed by the property manager for ride sharing, for using public transportation, for using car sharing, or for using 22 nonmotorized commuting before July 1, ((2014)) 2015, are allowed a 23 24 credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of these persons for ride sharing in 25 26 vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to 27 exceed sixty dollars per person per fiscal year. 28

(3) The credit under this section is equal to the amount paid to or on behalf of each employee multiplied by fifty percent, but may not exceed sixty dollars per employee per fiscal year. No refunds may be granted for credits under this section.

(4) A person may not receive credit under this section for amounts
 paid to or on behalf of the same employee under both chapters 82.04 and
 82.16 RCW.

36 (5) A person may not take a credit under this section for amounts37 claimed for credit by other persons.

1 **Sec. 705.** RCW 82.70.040 and 2013 c 306 s 719 are each amended to 2 read as follows:

3 (1)(a)(i) The department shall keep a running total of all credits 4 allowed under RCW 82.70.020 during each fiscal year. The department 5 shall not allow any credits that would cause the total amount allowed 6 to exceed two million seven hundred fifty thousand dollars in any 7 fiscal year. This limitation includes any deferred credits carried 8 forward under subsection (2)(b)(i) of this section from prior years.

9 (ii) During the 2013-2015 fiscal biennium, the department shall not 10 allow any credits that would cause the total amount allowed to exceed 11 one million five hundred thousand dollars in any fiscal year. This 12 limitation includes any deferred credits carried forward under 13 subsection (2)(b)(i) of this section from prior years.

(b) If the total amount of credit applied for by all applicants in any year exceeds the limit in this subsection, the department shall ratably reduce the amount of credit allowed for all applicants so that the limit in this subsection is not exceeded. If a credit is reduced under this subsection, the amount of the reduction may not be carried forward and claimed in subsequent fiscal years.

(2)(a) Tax credits under RCW 82.70.020 may not be claimed in excess
of the amount of tax otherwise due under chapter 82.04 or 82.16 RCW.

22 (b)(i) Through June 30, 2005, a person with taxes equal to or in excess of the credit under RCW 82.70.020, and therefore not subject to 23 24 the limitation in (a) of this subsection, may elect to defer tax credits for a period of not more than three years after the year in 25 which the credits accrue. No credits deferred under this subsection 26 27 (2)(b)(i) may be used after June 30, 2008. A person deferring tax credits under this subsection (2)(b)(i) must submit an application as 28 provided in RCW 82.70.025 in the year in which the deferred tax credits 29 This application is subject to the provisions of 30 will be used. 31 subsection (1) of this section for the year in which the tax credits 32 will be applied. If a deferred credit is reduced under subsection (1)(b) of this section, the amount of deferred credit disallowed 33 because of the reduction may be carried forward as long as the period 34 of deferral does not exceed three years after the year in which the 35 credit was earned. 36

37 (ii) For credits approved by the department after June 30, 2005,38 the approved credit may be carried forward to subsequent years until

used. Credits carried forward as authorized by this subsection are
 subject to the limitation in subsection (1)(a) of this section for the
 fiscal year for which the credits were originally approved.

4 (3) No person shall be approved for tax credits under RCW 82.70.020
5 in excess of two hundred thousand dollars in any fiscal year. This
6 limitation does not apply to credits carried forward from prior years
7 under subsection (2)(b) of this section.

8

(4) No person may claim tax credits after June 30, ((2014)) <u>2015</u>.

9 (5) Credits may not be carried forward other than as authorized in 10 subsection (2)(b) of this section.

(6) No person is eligible for tax credits under RCW 82.70.020 if the additional revenues for the multimodal transportation account created by Engrossed Substitute House Bill No. 2231 are terminated.

14 **Sec. 706.** RCW 82.70.050 and 2003 c 364 s 5 are each amended to 15 read as follows:

16 (1) <u>During the 2013-2015 fiscal biennium, the director shall on the</u> 17 25th of February, May, August, and November of each year advise the 18 state treasurer of the amount of credit taken under RCW 82.70.020 19 during the preceding calendar quarter ending on the last day of 20 December, March, June, and September, respectively.

(2) On the last day of March, June, September, and December of each year, the state treasurer, based upon information provided by the department, shall deposit to the general fund a sum equal to the dollar amount of the credit provided under RCW 82.70.020 from the multimodal transportation account.

26 Sec. 707. RCW 82.70.900 and 2013 c 306 s 720 are each amended to 27 read as follows:

28 This chapter expires ((July-1,-2014,-except-for-RCW-82.70.050, 29 which expires January 1, 2015)) June 30, 2015.

30 Sec. 708. RCW 90.03.525 and 2005 c 319 s 140 are each amended to 31 read as follows:

32 (1) The rate charged by a local government utility to the 33 department of transportation with respect to state highway right-of-way 34 or any section of state highway right-of-way for the construction, 35 operation, and maintenance of storm water control facilities under

chapters 35.67, 35.92, 36.89, 36.94, 57.08, and 86.15 RCW, shall be 1 2 thirty percent of the rate for comparable real property, except as otherwise provided in this section. The rate charged to the department 3 with respect to state highway right-of-way or any section of state 4 highway right-of-way within a local government utility's jurisdiction 5 shall not, however, exceed the rate charged for comparable city street 6 7 or county road right-of-way within the same jurisdiction. The legislature finds that the aforesaid rates are presumptively fair and 8 equitable because of the traditional and continuing expenditures of the 9 10 department of transportation for the construction, operation, and maintenance of storm water control facilities designed to control 11 12 surface water or storm water runoff from state highway rights-of-way.

13 (2) Charges paid under subsection (1) of this section by the department of transportation must be used solely for storm water 14 15 control facilities that directly reduce ((state-highway)) runoff impacts or implementation of best management practices that will reduce 16 17 the need for such facilities. ((By January 1st of each year, beginning with calendar year 1997, the local government utility, in coordination 18 with the department, shall develop a plan for the expenditure of the 19 charges for that calendar year. The plan must be consistent with the 20 objectives identified in RCW 90.78.010. In addition, beginning with 21 22 the submittal for 1998, the utility shall provide a progress report on 23 the use of charges assessed for the prior year. No charges may be paid 24 until the plan and report have been submitted to the department.))

25 The utility imposing the charge and the department (3) of 26 transportation may, however, agree to either higher or lower rates with 27 respect to the construction, operation, or maintenance of any specific storm water control facilities ((based upon the annual plan prescribed 28 in subsection (2) of this section)). If, after mediation, the local 29 government utility and the department of transportation cannot agree 30 31 upon the proper rate, either may commence an action in the superior 32 court for the county in which the state highway right-of-way is located to establish the proper rate. The court in establishing the proper 33 rate shall take into account the extent and adequacy of storm water 34 35 control facilities constructed by the department and the actual 36 benefits to the sections of state highway rights-of-way from storm 37 water control facilities constructed, operated, and maintained by the 38 local government utility. Control of surface water runoff and storm

water runoff from state highway rights-of-way shall be deemed an actual benefit to the state highway rights-of-way. The rate for sections of state highway right-of-way as determined by the court shall be set forth in terms of the percentage of the rate for comparable real property, but shall in no event exceed the rate charged for comparable city street or county road right-of-way within the same jurisdiction.

7 (4) The legislature finds that the federal clean water act (national pollutant discharge elimination system, 40 C.F.R. parts 122-8 9 124), the state water pollution control act, chapter 90.48 RCW, and the highway runoff program under chapter 90.71 RCW, mandate the treatment 10 and control of storm water runoff from state highway rights-of-way 11 owned by the department of transportation. Appropriations made by the 12 13 legislature to the department of transportation for the construction, operation, and maintenance of storm water control facilities are 14 intended to address applicable federal and state mandates related to 15 16 storm water control and treatment. This section is not intended to 17 limit opportunities for sharing the costs of storm water improvements between cities, counties, and the state. 18

MISCELLANEOUS

20 <u>NEW SECTION.</u> Sec. 801. If any provision of this act or its 21 application to any person or circumstance is held invalid, the 22 remainder of the act or the application of the provision to other 23 persons or circumstances is not affected.

NEW SECTION. Sec. 802. Section 701 of this act takes effect if chapter . . (Engrossed House Bill No. 2684), Laws of 2014 (ferry vessel and terminal work) is not enacted by April 15, 2014.

27 <u>NEW SECTION.</u> Sec. 803. Section 708 of this act expires June 30,
28 2015.

29 <u>NEW SECTION.</u> Sec. 804. This act is necessary for the immediate 30 preservation of the public peace, health, or safety, or support of the

- 1 state government and its existing public institutions, and takes effect
- 2 immediately.
